- Each Person
Every voice is heard.

Rule is by consensus.

Leaders are chosen by the people through natural selection processes.

Decisions are made by leaders and citizens together.

Every village decides on their own system of rule.
You DO have a voice!

How does that work?

Heartland was founded in 2015 after the Final War.

15 people were the core founders.

We are creating our own new world history.

We are located in the Pacific Ocean above the Island of Moorea, which was once part of the French Polynesian Islands.

Moorea is a heart-shaped island and is ideal for settling once the Earth is safer to inhabit.
Moorea

Once we settle in Moorea, we will call it Heartland!
