

COCHISE COLLEGE

2002 *Catalog* 2003

Welcome to Cochise College

Dear Students,

Let me be the first to officially welcome you to Cochise College! Cochise College provides a full array of programs, courses and services designed for you - the student. At Cochise College, we strive to be your College of choice, whether your goal is to transfer to a four-year institution, complete a direct-employment degree or certificate, upgrade your work skills or simply enroll in courses for your own self interest.

I encourage you to take the time to familiarize yourself with the many services available on our campuses or centers. Our goal is to provide a full range of student services to support your academic and personal goals. Please join us on our journey to fully embrace the concepts of a learning community - where students, learning and teaching are our first priority.

Sincerely,

Karen A. Nicodemus, Ph.D.
College President

"This has been
a good
opportunity
for me"

Paul Workman

Location: Douglas Campus

Program: General studies

Goal: Pursue bachelor's and master's degrees and become a high school teacher and coach

Cochise College's outstanding athletic and academic reputations were too much for Paul Workman to overlook. So when he was offered a scholarship to play second base on the baseball team, he accepted it with enthusiasm. It's a decision he hasn't regretted. "This has been a good opportunity for me to find out some things about myself. To come to a place like this and get a good education for an affordable price was a great opportunity for me." Workman recently joined Phi Theta Kappa, the international honor society for two-year college students. He also was recognized as one of the top community college students in the state, an honor he attained by spending extra time on assignments, reading a few extra pages, and regularly attending class.

*"it's been a
huge stepping
stone for me"*

Shaila Goodman

Location: Douglas Campus

Program: Pre-education

Goal: Pursue bachelor's degree in secondary education and become high school history teacher and coach

Shaila Goodman found her love at Cochise College. Her love of history, that is. A graduate of a large Tucson high school, she came here looking for a starting spot on the soccer team. What she also found was a history instructor who inspired her career choice. "I relate well to kids. High schools where they're finding themselves out, and I really want to be a player in that." Cochise College's small classes and rural setting give Goodman, also a resident assistant in the women's dorm, the time to delve deeply into both her studies and her sport. She's the starting sweeper and team captain. "I'm really glad that I started out at not only a small college, but also a junior college. It's been a huge stepping stone for me."

Shaila Goodman

General Information

COCHISE COLLEGE

Cochise College was established in 1961 as the second community college in Arizona. The College is located in an area rich in history and cultural diversity. The original 540-acre Douglas Campus is unique in its architecture and provides panoramic views of the Mule and Chiricahua Mountains as well as neighboring Sonora, Mexico.

Cochise College has come a long way from its humble beginnings when the administration offices were first housed in the Gadsden Hotel. The opening of the College doors in September 1964 can be attributed to the efforts of the dedicated citizens of Cochise County. From the first semester, the College has been committed to serving citizens throughout the county by offering classes in Benson, Bisbee, Douglas, Fort Huachuca, Sierra Vista, Willcox and outlying areas. During the first decade, the College's enrollments increased steadily as the faculty and administration worked to develop new and innovative programs.

The growth of population at Fort Huachuca and Sierra Vista and the increased interest in higher education created a need for a second campus in the western part of the county. The campus in Sierra Vista evolved from a handful of temporary buildings at Buena High School in the early 1970s to the full-fledged separate campus that opened its doors to classes in 1978 at its present location on North Colombo Avenue. This facility now comprises 16 buildings.

The Willcox Center, located in a historic ranching and farming area in northeastern Cochise County, offers classes to residents of the area under the supervision of the Extended Campus. The Center provides a variety of programs and services throughout the county and region.

The Benson Center, which opened in the fall of 2000, is located in the northwestern part of Cochise County. The Center serves the learning needs of this rapidly growing and vital area.

The development of community-directed college programs and services has included the Center for Professional

Development, the Small Business Development Center, the Career Services Center, the Online Campus, various conferences, the Prison Education Program, Adult Education, and the Center for Economic Research. Cochise College continues to provide quality educational opportunities to the people of Cochise County and specific populations in the southwestern United States. President Karen Nicodemus is leading the College in a new direction emphasizing the learning community. This direction focuses on teaching and learning, access and diversity and the use of technology and innovative instruction.

MISSION

The primary mission of Cochise College is to provide education to the citizens of Cochise County. Central to this mission are teaching and learning. The College also offers educational services outside the county when these services provide benefits to the College's primary community and are compatible with the philosophy of Cochise College.

PHILOSOPHY

Cochise College provides post-secondary education and educational support services to students interested in and capable of benefiting from programs of higher education.

The College prepares students for a successful life beyond college by promoting the principles of general education as set forth in the College's general education mission statement. Students should leave Cochise College with varied learning experiences and an understanding of the diversity of life.

The College makes students aware of their ethical responsibilities to the community, the environment and their fellow human beings.

The College provides educational opportunities, resources and programs tailored to changing social, economic and technological needs.

GUIDELINES

In following its philosophy, the College must:

- have a qualified faculty and staff with the ability and skills to develop and implement educational programs which meet the needs of the community;
- provide the faculty and staff with the means for development and growth;
- provide opportunities for all students to improve their skills in written and oral communication, critical thinking, and reading information processing;
- provide curriculum for transfer degree programs, career preparation, job training, and life-long learning;
- encourage student success in an environment that promotes intellectual growth in college and beyond;
- cooperate with business, government, other educational institutions, and participate in the economic life of the community;
- work with students and other members of the community in a candid, impartial and ethical manner;
- strive to provide current and accurate information and resources to students and the community;
- provide equal access to instruction and student support services; and
- maintain a program of developmental education as necessary.

GENERAL EDUCATION MISSION STATEMENT

General education at Cochise College provides students with the knowledge, information and technical skills essential for a successful life. To help students acquire these, Cochise College stresses the importance of self-esteem, self-confidence, independent learning and the ability to adapt to a changing environment. In its desire for excellence, the College emphasizes the importance of students establishing realistic goals.

General education provides students with the knowledge to write clearly, read and think critically and make sound ethical decisions. It provides students with knowledge of mathematics, the physical and life sciences and the varieties of human societies and cultures. It provides students with an understanding of human history and the global community. It provides students with the ability to understand and appreciate the arts.

Inherent in the idea of general education is the love of learning and the idea of civility, which the College defines here as respect for all persons.

COCHISE COLLEGE GENERAL EDUCATION OUTCOMES

Students who earn a transfer degree from Cochise College will:

- demonstrate successful communication that encompasses both receptive and productive thinking in a recurring process, in individual and collaborative settings;
- demonstrate the reasoning process to identify, examine, evaluate, and/or solve information or phenomena or discipline;
- demonstrate basic algebraic skills including factoring, use of exponents, solving equations, and solving inequalities;
- use function notation, interpret math models, and demonstrate graphing skills;
- analyze and solve application problems: Students will recognize insufficient/extraneous information;
- demonstrate a global vision: Students will explain their connection to the global community in contemporary society;
- recognize their connection to history: students will explain the process, forces and events which create the past, present, and future;

- recognize the value of culture and its diversity including the interrelatedness of the humanities, sciences, and social sciences;
- demonstrate observational skills, including (a) data collection, (b) presentation of data, (c) interpretation of data (drawing inferences), and (d) error analysis;
- apply the techniques, vocabulary (deductive, inductive, reasoning, hypothesis) and ethics (honesty, replication of data) of the scientific method of inquiry;
- demonstrate critical reasoning: (a) precise terminology, (b) development of concepts from data, and (c) application of concepts/formulas through completion of lab reports or experimental research projects;
- demonstrate technology literacy through hands-on computer use: (a) navigate the operating system to perform specific tasks, (b) manage the file system to create, locate, copy and delete files, (c) word-process a document accurately and in a timely manner, (d) prepare and deliver a technology-assisted presentation, (e) send and receive email, including attachments, and (f) use basic hardware and software terminology accurately; and
- demonstrate information literacy: locate, evaluate and properly cite sources to communicate information effectively and accomplish a specific purpose.

ACCREDITATION AND AFFILIATION

Cochise College is accredited by the Arizona State Board of Directors for Community Colleges and the North Central Association of Colleges and Schools. The College holds memberships in the Arizona Community College Association, the Council of North Central Junior Colleges, the North Central Association of Colleges and Schools, the American Association of Community Junior Colleges and the American Association of Community College Trustees.

GOVERNANCE

The College district is governed by the 17-member Arizona State Board of Directors for Community Colleges and by a five-member governing board elected from precincts in Cochise County. The College is financed by legislative appropriation, a countywide tax levy and student tuition.

COMMUNITY SERVICES

Cochise College extends its educational services to meet the needs of the entire county. Community services are those phases of the educational program that provide educational, cultural and recreational services beyond formalized classroom instruction. Among these services are free faculty lectures; a program of public events and cultural activities including lectures and forums, art exhibits, film series and non-credit courses; and community use of the College libraries and other facilities.

Other community services include workshops to meet special needs of business, industry and the professions; economic research; community recreation; campus tours; public information; and a variety of local, state and national conferences.

THE COCHISE COLLEGE FOUNDATION

The Cochise College Foundation, incorporated March 20, 1967, supports the educational objectives of Cochise College. It has a countywide membership of 15 men and women interested in promoting the goals of the College. The Foundation, having received Internal Revenue Service qualification, is a recognized avenue for the receipt of money, property or other items of value bequeathed or donated for the benefit of the College.

The Foundation provides more than \$100,000 in scholarships to Cochise College students each year and has assisted the College with several capital projects over the past 33 years.

COLLEGE LOCATIONS

Douglas Campus

The 17-building Douglas Campus serves approximately 1,300 students each semester with a diverse curriculum of general education, liberal arts, and direct employment programs. The campus includes a student union, residence halls for men and women, apartments for married students, a rodeo arena, and a physical education facility, including an Olympic-sized swimming pool, wellness center and weight room. In addition, there is an on-campus airport, a multimedia support lab to complement the five instructional computer labs, a theater, classrooms and laboratories.

The campus also includes a One Stop Center for student services, athletic facilities and an administration building. The Charles Di Peso Library provides resources and facilities for students, staff and the community.

Sierra Vista Campus

The Sierra Vista Campus is located just off Charleston Road at the eastern edge of Sierra Vista, approximately one mile northeast of the junction of State Highways 90 and 92. The Sierra Vista Campus serves approximately 3,000 students each semester in the greater Sierra Vista/Fort Huachuca area with a diverse curriculum of general educa-

tion, transfer and direct employment programs. Students who cannot attend classes Monday through Thursday may take classes offered only on Fridays and Saturdays.

Fort Huachuca

The Cochise College office on Fort Huachuca is located in the Army Education Center, Building 52104. This office provides full advising services to military students and their families. Military students may have their military education evaluated for college credit in accordance with American Council of Education recommendations. The Cochise College office provides assistance in sending for transcripts from other colleges and universities, CLEP and USAFI/DANTES exams. The Cochise College mathematics, English and reading placement tests are administered at the Army Education Center.

The College offers classes on post each semester, usually in eight-week sessions, to meet the needs of military students.

Extended Campus

Extended Campus provides credit, non-credit and adult education classes throughout Cochise County. Courses and services are also provided through the Center for Professional Development, the Small Business Development Center and the Center for Economic Research. Extended Campus also maintains centers in Willcox and Benson and utilizes facilities in public schools, businesses and public-sector agencies.

Willcox Center

The Cochise College Willcox Center is located at 1110 W. Fremont St., adjacent to the Willcox Unified School District offices.

The Center, serving approximately 200 students with day and evening classes, has five classrooms, a computer lab and a library. Full-time staff is available to assist students with admissions, registration, placement testing and financial aid.

Benson Center

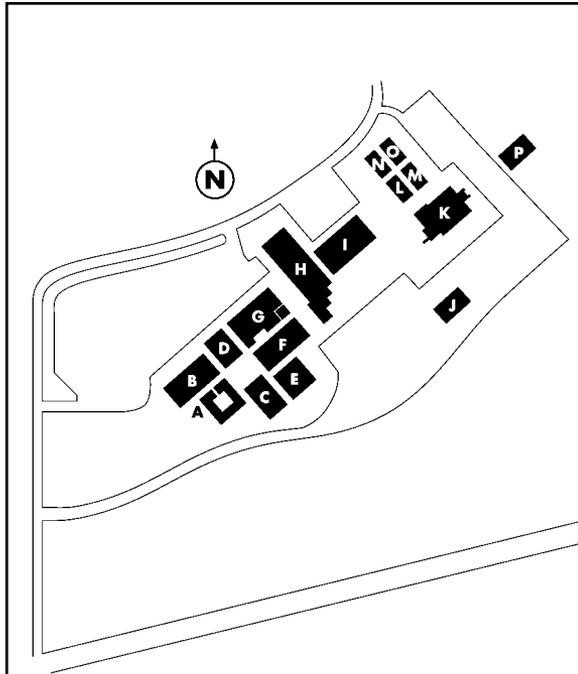

The Cochise College Benson Center, located at 1025 State Route 90, opened for students in fall 2000. The new 13,000-square-foot facility includes five classrooms, two computer labs, a learning center and interactive television capabilities. Traditional, developmental, GED, ESOL and personal interest classes are offered in the day and evening to meet student needs and schedules. Full-time staff offers placement and GED testing, advising, admissions, registration and financial aid.

Online Campus

Cochise College has a growing educational presence on the World Wide Web. The institution offers an expanding array of courses and certificates on the web. These courses meet the same criteria as traditional classes. They use the resources of the Internet to enrich the educational experience.

Students can design their own class schedule to meet personal needs. For more information, visit the Online Campus at: <http://xwing.cochise.edu/online-campus>.

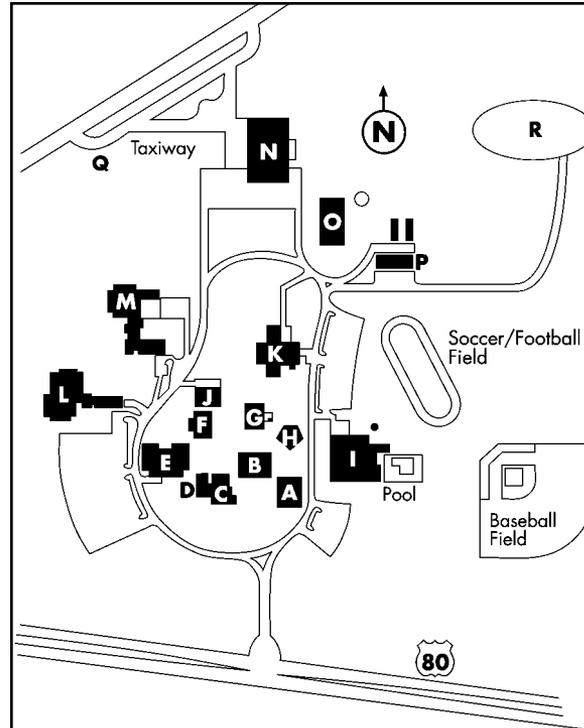

Those interested can find information about courses, tuition and financial aid. Prospective students can also take an online assessment to see if online classes meet their needs.

"I'm really impressed by the caliber of instruction"

Mike Milazzo

Location: Sierra Vista Campus

Program: Computer science

Goal: Transfer to University of Arizona South to study computer science

A home-schooled student, Mike Milazzo graduated from high school two years early before enrolling at Cochise College because it was affordable and close to home. Milazzo was singled out for a part-time job on Fort Huachuca following an impressive presentation on a computer-related honors project at the College's Techno Expo in spring 2001. At 19, he is gaining technical experience testing and evaluating computer networking and security products for the U.S. Army. He's also a full-time student who finds it challenging to earn a living and maintain a high grade point average. "I'm really impressed by the caliber of instruction at Cochise College. The small class size has gotten me through a lot of the classes, but I take a lot of good notes and study extra when I need to."

Mike Milazzo

Getting Started

CAMPUS VISITS

Many students like to visit Cochise College prior to deciding which college to attend. Please call the Admissions Office at 417-4046 or 515-5412 to set up an individual or group tour of the campus.

The admissions staff will be happy to arrange class visits and introduce you to faculty from your area of interest. A student leader will give you a campus tour and share a student's perspective on the College.

Student information pertaining to advising, class schedules, course descriptions, tuition and fees, and financial aid can be found on INFOnline at <http://ocs.cochise.edu>.

ADMISSION, REGULAR STUDENT

Admission as a regular student is a simple process. Any person who meets one of the following criteria will be admitted:

1. a graduate of a high school that is accredited by a regional accrediting association as defined by the United States Office of Education or approved by the Arizona Board of Education or the appropriate state educational agency;
2. hold a high school certificate of equivalency, such as a GED;
3. 18 years of age or older on or before the first day of classes for which application is being made;
4. a regular transfer student in good standing from another college or university.

STUDENTS UNDER 18 YEARS OF AGE

If you are under 18 years of age, you are asked to contact the Admissions Office at the Sierra Vista or Douglas campuses for admissions information.

RE-ADMISSION

If you have been absent from Cochise College four semesters or longer, you can apply for readmission prior to the opening of the semester for which you desire to enroll.

GENERAL ADMISSION PROCEDURES

You will be admitted to Cochise College after the Admissions Office has received and approved:

1. Application for admission;
2. A \$10 application fee for those classified as out-of-state for tuition purposes;
3. High school transcripts - all applicants under the age of 18 are requested to submit either an official high school transcript or GED certificate with test scores before registration will be permitted. Final high school transcripts or GED certificate are requested of all students who apply for any financial aid program offered through Cochise College. High school transcripts should be sent directly by the sending institution to the transcript office. Official transcripts carried by the applicant cannot be accepted if previously opened.
4. Student health record: Part II - This self-appraisal form needs to be completed by all applicants applying for admission to the Aviation or Nursing programs, those participating in athletics, or those who wish to live in the residence halls at the Douglas Campus. The College reserves the right to require a physical examination or immunizations when deemed necessary by the College nurse or by a particular college instructional program.
5. Out-of-county affidavits - If you reside in Apache, Gila, Greenlee or Santa Cruz counties, you are asked to submit affidavits of residency before registration each semester. Your county of residence will pay out-of-county tuition. The in-state tuition is your responsibility. Forms are available at the Admissions Office.

TRANSFER TO COCHISE COLLEGE

The College asks prospective students who have attended other regionally accredited colleges and universities to have official copies of their academic records sent to the transcript office.

Accredited higher-education institutions are those that are accredited by the New England Association of Schools and Colleges, Middle States Association of Colleges and Schools, North Central Association of Colleges and Schools, Northwest Association of Schools and Colleges, Southern Association of Colleges and Schools and Western Association of Schools and Colleges.

If you are requesting an evaluation of transcripts for the purpose of seeking a Cochise College degree, you should be currently enrolled.

The following regulations govern your admission if you have attended another college:

1. Courses for which you have earned a grade of D or F cannot be accepted for credit.
2. You may be admitted on academic probation if you have earned a GPA below 2.0.
3. If you have been academically dismissed from another college, you may not attend Cochise College for one full semester after dismissal.
4. A professional pilot candidate who transfers to Cochise College may receive credit for up to 18 hours of aviation course credit for previously earned certificates and ratings if she/he completes at least one flight course resulting in a certificate or rating.
5. Grade point averages earned at other institutions are not calculated with GPAs earned at Cochise College.
6. College transcripts must be mailed directly by the sending institution to the transcript office. Official sealed transcripts carried by the applicant are acceptable.

DISCLOSURE OF SOCIAL SECURITY ACCOUNT NUMBER

Social security account numbers will be used solely to identify your records. Disclosure and use of social security account numbers aid in matching current and future records with any past records insuring that full credit is received for all academic work completed at Cochise College.

Disclosure of social security account numbers to Cochise College is voluntary and not required by either statute or regulation.

Students, faculty and staff have the option to obtain an individual identification number for no additional fee that is not identical to an individual's social security number in admission and telecommunication applications.

ADMISSION TO THE AVIATION PROGRAM

If you are seeking admission to any of the Aviation programs—pro-pilot, avionics, or aviation maintenance technology—contact the Aviation Department well in advance of your planned entry date. The department will arrange a pre-entry conference and placement test.

ADMISSION TO THE NURSING PROGRAM

While admission to Cochise College is the initial step for entrance into the nursing program, it does not guarantee acceptance. Nursing is a limited-enrollment curriculum that frequently has more applicants than can be accepted.

You must apply for admission to the nursing program and take the Nursing Entrance Test (NET). The deadline for submitting an application to the nursing program for the fall semester is the last working day of the prior January. The NET is usually given in February and should be taken prior to the fall semester of expected admission.

Please contact the Nursing Department for additional information regarding criteria for regular admission, or for special admission to enter second semester freshman courses.

es, or for admission by LPNs (licensed practical nurses) and LVNs (licensed vocational nurses).

The Arizona State Board of Nursing denies licensure to individuals with a felony conviction who have not been fully discharged five years prior to applying for a license. Contact the Nursing Department or the Arizona State Board of Nursing for information regarding this regulation.

ADMISSION OF INTERNATIONAL STUDENTS

All international students must have a high school equivalency or be at least 18 years of age at the time of registration. All full-time international students need to attend on an F-1 Visa.

The Admissions Office will issue a letter of admission and an immigration form I-20 after receiving and approving the following documents:

1. Application for admission.
2. A \$10 application fee.
3. Student health record - Part I, including TB and MMR vaccination as required by INS.
4. Official high school transcripts.
5. Official college transcripts (if applicable).
6. Statement of financial guarantee to reflect the actual annual cost of the program in which the student is enrolled as published by the College.
7. The College recommends that all full-time international students carry a health insurance policy. Please contact the Student Development Center for additional information if a policy is not owned.
8. A housing application and deposit is necessary only if College housing is desired.

As an international student, you are requested to report to the Admissions Office and the Student Development Center upon arrival. The international student advisor will endorse the back of your I-20 to permit you to travel outside the

United States. If you are a transfer student, you must see the international student advisor to complete your transfer.

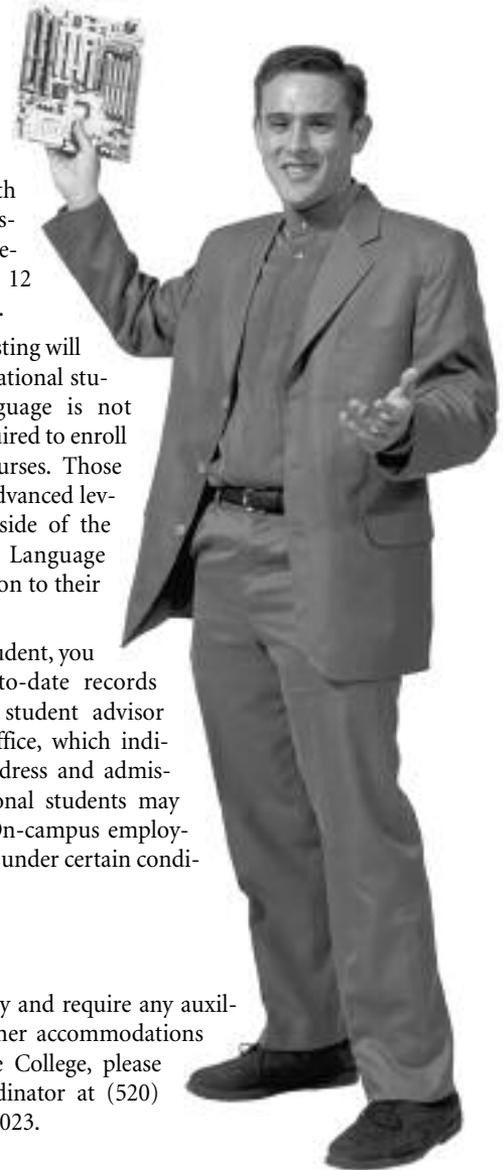

You must maintain full-time status for both the fall and spring semesters. This requires completion of a minimum of 12 credits for each semester.

English proficiency testing will be required of all international students whose first language is not English. You may be required to enroll in intensive English courses. Those who have placed in an advanced level may take classes outside of the English as a Second Language (ESL) program in addition to their required English classes.

As an international student, you need to maintain up-to-date records with the international student advisor and the Registration Office, which indicate a current living address and admission number. International students may not work off campus. On-campus employment may be authorized under certain conditions.

DISABILITY SERVICES

If you have a disability and require any auxiliary aids, services or other accommodations as a student at Cochise College, please contact the ADA Coordinator at (520) 515-5337 or (520) 417-4023.

RESIDENCY REQUIREMENTS AND REGULATIONS

Each applicant shall have legal residency determined prior to the time of registration and payment of fees. It is your responsibility to register under the correct residence determination. Enforcement of residency requirements and regulations are the responsibility of the Cochise College president.

Appeal of residency interpretation or judgments rendered by the College administration shall be handled through appeal channels as established by the district governing board in accordance with the Arizona Revised Statutes which determine classification for tuition purposes.

Published below are the Arizona Revised Statutes (ARS 15-1801 et seq.) and Cochise College policy definitions which determine classification for tuition purposes.

DEFINITIONS

Adult means a person who is 18 years of age.

Armed Forces of the United States means the Army, the Navy, the Air Force, the Marine Corps, the

Coast Guard, the Commissioned Corps of the United States Public

Health Services and the National Oceanographic and Atmospheric Association. (ARS 15-1801)

Continuous attendance means enrollment at an educational institution in this state as a full-time student, as such term is defined by the governing body of the educational institution, for a normal academic year since the beginning of the period for which continuous attendance is claimed. Such person need not attend summer sessions or other such intersession beyond the normal academic year in order to maintain continuous attendance. (ARS 15-1801)

Domicile means a person's true, fixed and permanent home and place of habitation. It is the place where he/she intends to remain and to which he/she expects to return when he/she leaves without intending to establish a new domicile elsewhere. (ARS-15-1801)

State resident means a person who is domiciled in the State of Arizona for not less than one year (365 days). (ARS 15-1802)

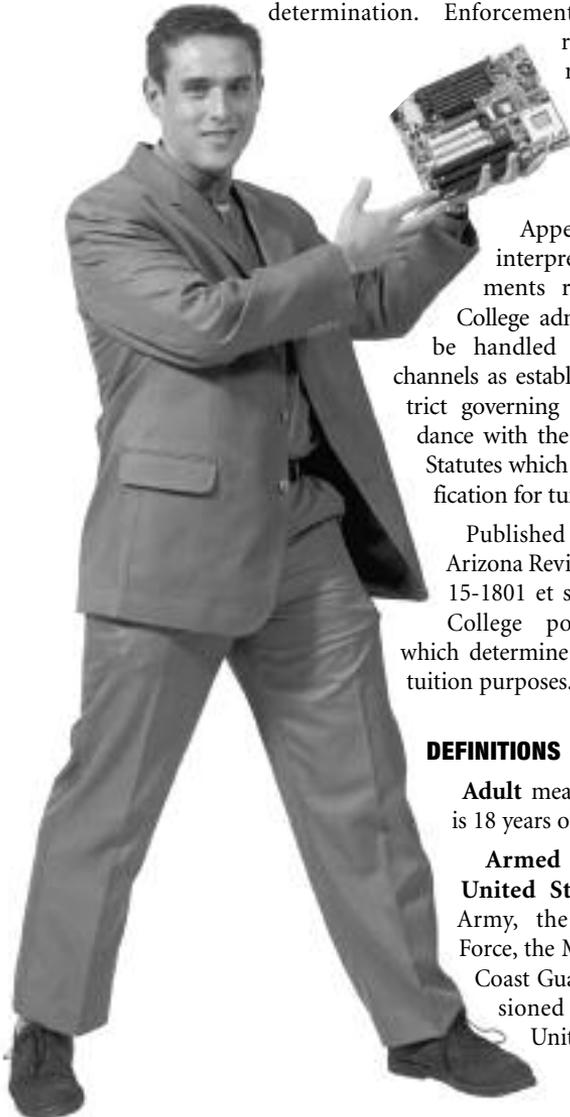

County resident means a person who is domiciled in the State of Arizona for not less than one year and who has been physically present in the county for at least 50 days prior to the first day of classes of the semester. (R7-1-23)

A **dependent** is any person (son, daughter, or legal ward) who receives more than half of his/her support for the calendar year from a parent or guardian, as documented on the federal income tax form and who is domiciled in Arizona.

An **alien** is entitled to classification as an in-state refugee student if such person has been granted refugee status in accordance with all applicable laws of the United States and has met all other requirements for domicile.

Emancipated person means a person who is neither under a legal duty of service to his/her parent nor entitled to the support of such parent under the laws of this state. (ARS-15-1801)

Parent means a person's father or mother, or if one parent has custody, that parent. Or, if there is no surviving parent or the whereabouts of the parents are unknown, then a

guardian of an unemancipated person (if there are no circumstances indicating that such guardianship was created primarily for the purpose of conferring the status of an in-state student on such unemancipated person.) (ARS 15-1801)

IN-STATE STUDENT STATUS

Except as otherwise provided in this article, no person having a domicile elsewhere than in this state is eligible for classification as an in-state student for tuition purposes. (ARS 15-1802)

A person is not entitled to classification as an in-state student until he/she is domiciled in this state for one year, except that a person whose domicile is in this state is entitled to classification as an in-state student if he/she meets one of the following requirements:

1. His/her parent's domicile is in this state for no less than one year and his/her parent is entitled to claim him/her as an exemption for state and federal tax purposes.
2. He/she is an employee of an employer that transferred him/her to this state for employment purposes or he/she is the spouse of such employee.
3. The domicile of an unemancipated person is that of such person's parent. Any unemancipated person who remains in this state when such person's parent, who had been domiciled in this state, moves from this state is entitled to classification as an in-state student until attainment of the degree for which currently enrolled, so long as such person maintains continuous attendance.
4. A person who is a member of the Armed Forces of the United States stationed in this state pursuant to military orders, or who is the spouse or dependent child as defined in section 43-1001 of a person who is a member of the Armed Forces of the United States stationed in this state pursuant to military orders, is entitled to classification as an in-state student. The student, while in continuous attendance toward the degree for which

currently enrolled, does not lose in-state student classification.

5. A person who is a member of an Indian tribe recognized by the United States Department of the Interior, whose reservation land lies in this state and extends into another state and who is a resident of the reservation, is entitled to classification as an in-state student.

STUDENT STATUS REGULATIONS

The Arizona Board of Regents and the State Board of Directors for Community Colleges shall adopt guidelines applicable to all institutions under their respective jurisdictions that will ensure uniform criteria to aid the institutions in determining the tuition status procedures for review of that status.

CONCURRENT ENROLLMENT: NON-RESIDENT TUITION

- A. It is unlawful for any non-resident student to register concurrently in two or more public institutions of higher education in this state, including any university or community college, for a combined student credit-hour enrollment of more than six semester hours without payment of non-resident tuition at one of such institutions.
- B. Any non-resident student desiring to enroll concurrently in two or more public institutions of higher education in this state, including any university or community college, for a combined total of more than six semester hours and who is not subject to non-resident tuition at any of such institutions shall pay the non-resident tuition at the institution of his/her choice. The amount will be equivalent to non-resident tuition at such institution for the combined total of semester hours for which the non-resident student is concurrently enrolled. (ARS 15-1807)

PROOF OF RESIDENCY: IN-STATE

A domicile affidavit needs to be filed with the Admissions Office verifying continuous residency in the state for a 12-month period. At least three of the following items will be used to establish proof of residency:

1. Filing of state income tax report for the previous year.
2. Current registration of motor vehicle in Arizona.
3. Current registration as a voter in the state.
4. Arizona driver's license issuance date.
5. Graduation from an Arizona high school.
6. Bank statement (checking or savings) from an Arizona banking institution.
7. Source of support (employer).
8. Dependency as indicated on federal income tax declaration for dependents.
9. Notarized statements of landlord and/or employer.

**REGISTRATION INFORMATION**

New and returning students in good academic standing can register for classes during early registration as well as regular registration periods. Late registration is allowed through the first week of classes.

DISCLOSURE OF EDUCATION RECORDS

Cochise College shall not permit the disclosure of information from educational records or personally identifiable information contained therein other than directory information of students without the written consent of the student to any individual, agency, or organization other than in specific situations as outlined by the Family Educational Rights and Privacy Act of 1974, its amendments and the final rule of the U.S. Department of Education. Students may withhold disclosure of any directory information by submitting written notification to the Records Office prior to the first day of classes each semester. Failure on the part of any student to specifically request the withholding of directory information indicates individual approval for disclosure.

Cochise College has designated the following items as directory information: student name, address, telephone number, date and place of birth, major field of study, participation in officially recognized activities and sports, weight and height of members of athletic teams, dates of attendance, degrees and awards received and most recent previous school attended.

Lessa Greenwood

*“Cochise
College has
opened my
eyes to the real
world”*

Lessa Greenwood

Location: Sierra Vista
Campus

Program: English with a
music minor

Goal: Transfer to four-year
institution to pursue fine arts
degree; eventually, law school

Lessa Greenwood circumvented the traditional method of pursuing an education when she bypassed high school and enrolled full time at Cochise College in spring 2001 at the age of 15. A gifted student, she came to the College to obtain the music component of a home-school program. After enrolling in three classes, she petitioned the administration to allow her to become a full-time student, taking her studies straight from eighth grade to college. A member of the band, she plays the alto clarinet, flute, guitar and sitar, an Indian stringed instrument. “Cochise College has opened my eyes to the real world. Being in an adult environment has helped me lose my teen-age insecurity. I’m a better person for it.”

Money Matters

TUITION AND FEES

All fees may change as approved by the Arizona State Community College Board. Please consult the Admissions Office, the Business Office, or INFOnline at <http://ocs.cochise.edu> for up-to-date information.

PAYMENT OF FEES SCHEDULE

All students need to assure they have sufficient funds to defray their immediate expenses at the time of registration. All fees are payable as the final step in the registration process. Cochise College accepts checks for the total amount due for tuition and fees.

Past due accounts may be turned over to a collection agency. You, as the delinquent student, will be liable for collection/attorney fees incurred.

Please consult the class schedule for specific registration and payment dates. In the event a check is returned unpaid by your bank, you may be assessed a \$20 service fee and dropped from all classes. You may also be dropped from all classes if fees are not

paid in full on or before dates indicated. All remaining charges must be paid in full prior to any future registration.

All book purchases will be on a cash-only basis with the exception of vocational rehabilitation students, veterans' vocational education and qualified veterans.

Note to Financial Aid Students: When financial aid has been approved and applied to your account, any credit balance will be refunded to you. Any amount unpaid after the financial aid has been applied will be due and payable by the student.

STUDENT FEE INFORMATION FOR 2002/2003 FISCAL YEAR

I. TUITION-REGULAR, SUMMER, AMT, AVIONICS, AND PROFESSIONAL PILOT

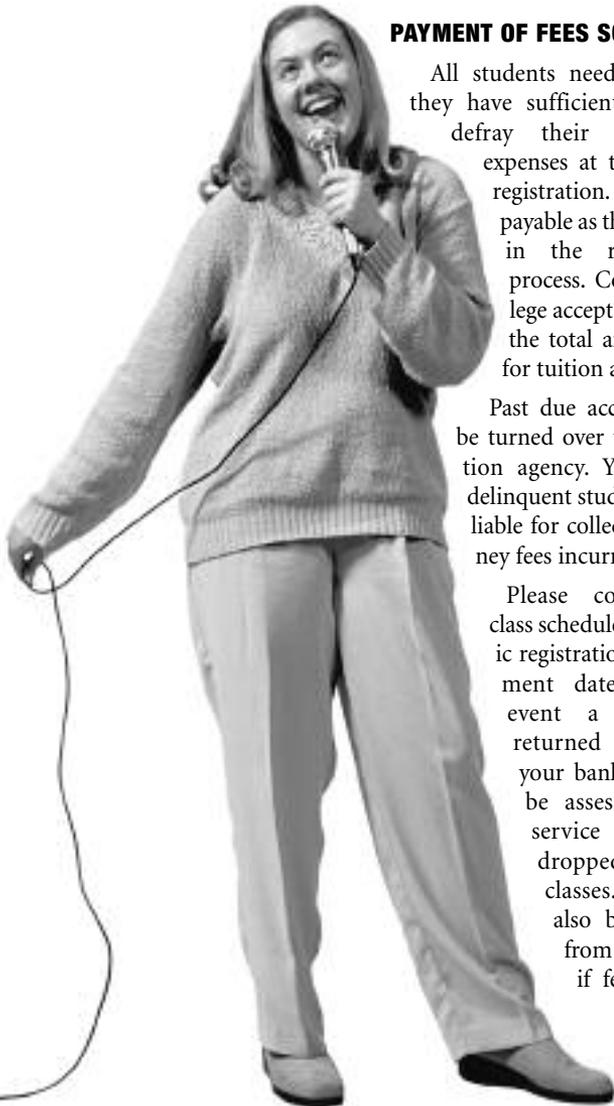

Registration fee (per each fall, spring, or summer semester, non-refundable) \$ 20 per student

14-meal plan

Semester one	\$1,074
Semester two	\$1,039
Semester three	\$986
Semester four	\$986
Semester five	\$986

BOARD

You may choose between a 19-meal and a 14-meal ticket plan when classes are in session. If you leave the residence halls, you will be charged for meals through Saturday of the week in which you formally withdraw. If you depart during the last two weeks of the semester, you will be charged the full semester rate for meals.

ROOM

If you are a full-time student, you have the option of living on campus. The College has two residence halls and 11 family housing apartments. The residence halls are double-occupancy, suite-style rooms. The family housing apartments are one bedroom and are partially furnished. Internet access to computers is available 24 hours a day for residents. Laundry facilities, free cable and local telephone services are also available for all residents.

Room and board are combined. If you live in a residence hall, you must participate in the board program. Family housing residents have the option of not participating in the meal plan. Please contact the Housing Office for residence hall and apartment availability.

If you withdraw from College or the residence halls after having officially registered into a hall, you are not entitled to a refund of room rent. Should you withdraw because of a legitimate medical emergency or other unusual circumstance, the unused portion of room rent through the end of the semester may be refunded with the approval of the vice president for instruction/provost or designee.

APARTMENT AND ROOM DEPOSITS

Deposits are required to reserve your room or apartment. The deposit will be refunded according to the conditions of the residence hall and family housing contracts less any amounts due to the college for damages or other charges.

PLEASE NOTE: You must request your deposit upon formal withdrawal from the residence hall.

TUITION WAIVER PROGRAMS:

New Mexico Waiver

A special tuition agreement exists between Cochise College and Western New Mexico University. If you are interested, you may contact the Admissions Office for more information.

Western Undergraduate Exchange (WUE) Waiver

Cochise College is a member of the Western Undergraduate Exchange (WUE) program. If you are a resident of one of the participating states, contact the Admissions Office to see if you are eligible for this waiver. The participating states are all of the western states, except for California.

Arizona-Sonoran Agreement

The State of Arizona has an agreement with the State of Sonora, Mexico. If you are a resident of Sonora, contact the Admissions Office to see if you are eligible for this waiver.

SENIOR CITIZEN TUITION WAIVER

If you are 60 years or older, you may apply for a “Golden Apache” tuition waiver as an Arizona resident who lives in Cochise County or an adjacent unorganized county. This waiver allows a 50-percent tuition discount for regular courses. You have to meet in-state residency requirements for tuition purposes.

Applicants will be asked to pay a one-time, nonrefundable \$5 application fee as well as any registration fee, lab fees, AMT tuition, pilot tuition, flight fees, books, co-op, non-credit, and online course fees. Waivers cannot be accepted retroactively. Applications for the waiver may be picked up at the Admissions Office.

GRADUATION FEES

Every candidate applying for an associate’s degree is required to pay a graduation fee at the Cashier’s Office. Those completing certificate programs are not required to pay the fee.

FLIGHT TRAINING FEES

Please consult the Aviation Department for current flight fees. All flight fees are subject to change without notice. Please see the refund section for refunds of unused flight fees.

LABORATORY FEES

Lab fees are charged for those classes requiring special equipment, facilities, etc. Lab fees range from \$5 to \$400 per course. Please consult the current lab fee schedule for courses charging lab fees and the amount. All student lab fees are due at registration.

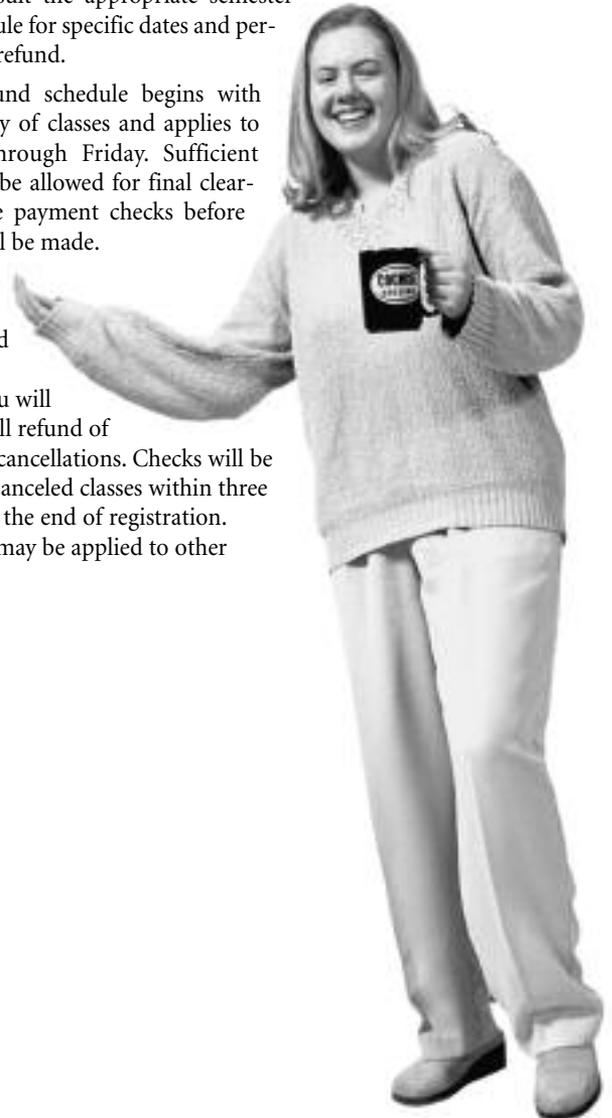

A testing fee of \$70 per semester is charged for nursing testing. The fee is due at registration.

REFUNDS

All refunds and deposits that may be due to a student will be first applied to any encumbrances owed to the College. Please consult the appropriate semester class schedule for specific dates and percentage of refund.

The refund schedule begins with the first day of classes and applies to Monday through Friday. Sufficient time must be allowed for final clearance of fee payment checks before refunds will be made.

If a class or classes are canceled by the College, you will receive a full refund of all fees for cancellations. Checks will be issued for canceled classes within three weeks after the end of registration. These fees may be applied to other courses.

*"Cochise
College is
getting me off
on the right
foot"*

Ray Manzo

Location: Benson Center,
Sierra Vista Campus

Program: General studies

Goal: Transfer to University
of Arizona to study
engineering

The path to a college degree isn't always a glamorous one. Just ask Ray Manzo. The former Benson High School homecoming king is working hard to put himself through school. The challenge of coming up with money for tuition and books each semester puts higher education in perspective. Manzo, a member of Phi Theta Kappa, the international honor society for two-year college students, chose Cochise College because it is close to home and affordable. Plus, the personalized attention makes it easy for him to get to know his instructors. "This wasn't such a big jump into full university life. It's a stepping stone to fulfilling my dream. Cochise College is getting me off on the right foot."

Ray Manzo

Financial Aid, Scholarships & Grants

To receive financial aid at Cochise College, a student must be admitted into a program of study leading to a degree or certificate and/or meet all other eligibility criteria established for the type of aid you wish to apply for.

Cochise College provides you access to a full range of federal, state and privately donated financial aid funds through the Financial Aid Office. Assistance is available to you based on financial need, academic merit and program of study. The application process for financial aid begins with the completion of a Free Application for Federal Student Aid (FAFSA). The FAFSA forms are widely available from high school counselors, community colleges and the Financial Aid Office.

FEDERAL AID PROGRAMS

Pell Grants

A federal Pell Grant, unlike a student loan, does not have to be repaid. Pell Grants are awarded only to undergraduate students who have not earned bachelor's or professional degrees. The amount of your Pell Grant and/or other federal award will depend not only on your financial need, but on your cost of attendance, whether you are a full- or part-time student and whether you attend school for a full academic year or less.

Supplemental Education Opportunity Grants

The SEOG program gives direct grants to undergraduate students demonstrating exceptional financial need. The Financial Aid Office determines eligibility.

Federal Family Educational Loan Program (FFELP)

The FFELP is available to meet educational expenses. You need to be enrolled in a minimum of six credits to be eligible. Loans are made through banks, credit unions and other financial institutions. To apply for a FFELP student loan, you should indicate your intention on the FAFSA or contact the Financial Aid Office.

COLLEGE WORK-STUDY

College Work-Study jobs may offer you both valuable experience and income. You may work up to 16 hours per week in an on-campus placement. You must be enrolled in a minimum of six credits to be eligible.

Various departments on campus employ students in work-study positions to perform a variety of functions. The employing department decides on the selection of the student. Under certain circumstances, a student's financial aid package may require adjustment in order to coordinate the earnings with other offers of aid. Students are interviewed after being declared eligible and then placed in jobs through the Career Services Center.

SCHOLARSHIPS

Academic scholarships are offered on a variety of criteria, including financial need, grade point average, leadership qualities and community service. Private donors provide funds to Cochise College through the Cochise College Foundation. A brochure listing scholarships and the application for those scholarships are available by contacting the college Financial Aid Office or the Cochise College Foundation office. You will be considered for all available scholarships through submission of the single application. Scholarship selection is dependent on your overall achievement and may be limited to specific fields of study.

You are encouraged to apply for financial aid regardless of financial status.

Services for Students

LIBRARIES

The Cochise College Library is a comprehensive community college library dedicated to enhancing learning opportunities and meeting the educational and informational needs of Cochise College students, faculty and staff. The libraries combine traditional library services with the newer information technologies, providing access to both print and non-print resources to assist students in fulfilling their learning goals.

The Cochise College library system consists of the Charles Di Peso Library on the Douglas Campus, the Andrea Cracchiolo Library on the Sierra Vista Campus, and a small access library at the Willcox Center and Benson Center.

The libraries house more than 60,000 books, 1,500 videotapes and 300 periodical subscriptions. The libraries provide access to four web-based periodical indexes, which make available the full text of articles from more than 500 periodicals.

The Instructional Media Services department of the libraries provides a wide range of instructional media equipment and software. The department also manages the interactive instructional television classrooms for the College. Both campus libraries are complete with teleconferencing facilities.

STUDENT DEVELOPMENT CENTER

The Student Development Centers (SDC) located at the Douglas (One Stop) and Sierra Vista campuses coordinate several key services designed to support your learning: academic advising, counseling, testing, tutoring, and career information.

You may sign up for peer and professional tutoring in any subject. Students with special needs may contact the SDC for assistance or referral.

Personal counseling, career counseling and related testing are also available.

Advising Program

A coordinated effort by selected College faculty advisors and counselors provides all full-time, part-time, vocational, transfer, international and other students advice throughout their academic experience. You are encouraged to visit the SDC throughout the semester to ensure you receive academic support prior to having problems with class work or schedules.

Student Development Center advisors also assist in degree and transfer planning and in choosing programs of study compatible with your short- and long-term goals.

Counseling

The Cochise College counseling staff is available in the SDC to assist you in developing decision-making skills and personal strengths that allow you to help yourself. Problems of adjustment related to academic and personal or social areas are not unusual. Counselors are available to assist you during daytime and certain evening hours.

Career counseling and related testing are also available.

Learning Support

Cochise College provides free tutoring for you in most academic areas. Para-professionals, faculty and staff work with students individually and in small groups to facilitate learning. Computerized tutorials are also available. You are welcome to drop by the labs with or without an appointment.

Testing

Placement assessments are free to students during the year on a regularly scheduled basis. Consult the schedule of classes published each semester for scheduled times or call the Student Development Center.

Placement Assessment

The purpose of the Cochise College assessment process is to:

1. Help you in correctly identifying existing skills and knowledge in reading, English and mathematics, and
2. Recommend a course(s) of study in which you may reasonably expect to achieve academic success.

The College asks students to take placement assessment in the areas of English, reading and mathematics prior to meeting with an advisor and registering. You should test if you are:

- Planning to register for a course with an English or mathematics prerequisite, or
- Seeking a degree and have completed seven or more credits at Cochise.

Placement assessment may be waived under the following conditions:

- if you provide a transcript or diploma showing completion of an accredited associate or higher degree; or
- if you are a transfer student whose official transcripts show completed coursework in a corresponding subject with a grade of C or better.

The faculty advisor will use information (e.g., transcripts, assessment results and other evaluative data) to place you in courses consistent with your level of preparation.

If you would like to enter a course for which you do not meet the established academic skill prerequisites, you may request a waiver from the campus dean or vice president for instruction/provost designee.

You may request special disability assistance through the special needs/ADA coordinator who may be contacted through the Student Development Center.

Student Support Services Program

Students who are low-income, or whose parents did not graduate from college, or who are disabled, face special challenges at college. The AvanZando program on the Douglas campus is a federally funded program to help such students get better grades, stay in college and transfer or graduate. Services include personal counseling, tutoring, attending cultural events, a special class for academic success, and a summer transition week for incoming freshman.

Contact AvanZando staff at 417-4036.

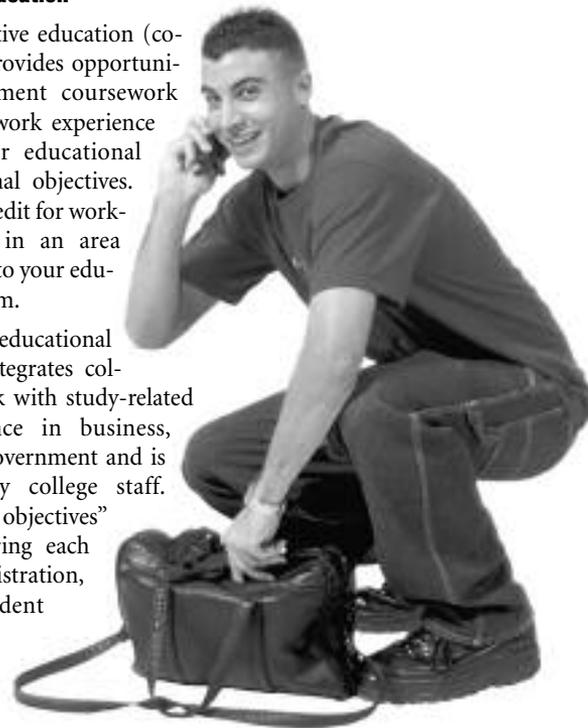

CAREER SERVICES CENTER

The College's Career Services Center consists of three separate but closely related services — cooperative education, student placement and career placement — which are provided by a professional staff.

Cooperative Education

The cooperative education (co-op) program provides opportunities to supplement coursework with practical work experience related to your educational and occupational objectives. You can earn credit for working part-time in an area directly related to your educational program.

Co-op is an educational process that integrates college coursework with study-related work experience in business, industry and government and is coordinated by college staff. Using "learning objectives" established during each semester of registration, the co-op student

earns college credit to apply toward program completion requirements.

This program is also adaptable for employed adults who are interested in gaining additional job skills for future advancement. Cooperative education is not a course of study but a laboratory component for various programs offered at Cochise College.

As a Cochise College student enrolled for credit in any College program, you may elect to participate.

Student Job Placement/Career Placement

Career Services Center student placement representatives regularly receive job orders (both part- and full-time) from employers throughout the state. The Center prepares job listings daily and posts them at convenient locations on campus.

In close cooperation with Arizona State Job Service representatives, the placement office also seeks out information on employment opportunities throughout Cochise County, the state, the region and the nation. It makes this information available to students and graduates.

Career planning services and a career library are available in the SDC. Workshops and video-assisted instruction in job-seeking skills for students and graduates are also available.

VOCATIONAL INTEREST PROGRAM (VIP)

Career service specialists help students who are considering, or have declared, a vocational major. Students in VIP can find assistance with educational and career advising and developing career pathways. Vocational students who have self-identified as dislocated workers, displaced homemakers, or single parents, as well as students who may have special financial needs, can access a full array of College and other support services. In addition, students with disabilities, or those who demonstrate limited proficiency in English, will be referred to the appropriate programs for services.

TECH PREP

Tech Prep is a program that puts education to work for the student's future. It combines academic and technical education to give you the skills necessary for both entry-level jobs and advanced positions. Tech Prep starts in county high schools and is completed when you receive an associate's degree. Please contact the Tech Prep Office for more information on this program.

CAMPUS NURSE

The student health center, directed by a registered nurse, is located on the Douglas Campus. Routine assessment, minor care and over-the-counter medications are provided at no charge. In cases of illness or injury, you are referred to a local doctor of your choice for diagnosis and treatment.

Cochise College does not offer health insurance. Student health insurance is available through private insurance companies.

STUDENT UNION, DOUGLAS CAMPUS

The "living room" of the campus offers students the opportunity to socialize with fellow students, faculty and administration in an informal atmosphere. Meeting rooms as well as comfortable lounges, a billiard room, game room, TV-viewing area and two dining facilities are provided for student use and enjoyment. The College post office, student activities and student government offices are also located in this building.

Dining services provided by the Student Union include the Qué Pas snack bar, a private dining room and a large well-equipped cafeteria capable of seating 250. The cafeteria offers well-balanced menus and seasonal buffets, specials and unique monotony-breakers designed to create a "second-home" atmosphere in the Student Union.

STUDENT ACTIVITIES

The College encourages your participation in extracurricular activities and campus organizations to promote leadership, student relationships and social development. Most campus activities are the responsibility of student clubs and organizations. A full schedule of activities is planned for the student body by the student government and various clubs and organizations.

STUDENT GOVERNMENT

You are encouraged to take an active part in your student government. Their weekly meetings are open to all students. Student Government is comprised of five appointed officers. The officers are: president, vice president, treasurer/secretary, publicity coordinator and social events coordinator. Each spring, officers are selected based on an application process. Student government plans, coordinates, promotes and finances a varied program of student activities and services for the entire student body.

Organizations

Student organizations attempt to meet special student needs and interests. Students with similar interests may form a club in which fellow students can participate in specialized activities. Organizations are available for student participation. Clubs and organizations on the Douglas or Sierra Vista Campus include:

- Alpha Delta Omega (human services national honor society)
- Alpha Eta Rho (aviation)
- Armed Forces Communications and Electronics Association (AFCEA)
- Aviation Maintenance Specialist Club (AMS)
- Campus Activities Board (CAB)
- E.C.O. Club (Hispanic/American)
- Future Teachers' Club

- International Club
- Phi Beta Lambda (business)
- Phi Theta Kappa (academic excellence)
- Residence Hall Association (RHA)
- Students of Diversity (SOD)
- Vocational Industrial Clubs of America (VICA)

Athletics: Douglas Campus

Cochise College competes with other community colleges in men's and women's basketball and rodeo, women's soccer and men's baseball. The Apache Stronghold Gymnasium is the center for intercollegiate sports and a variety of intramural activities.

RESIDENCE HALLS, DOUGLAS CAMPUS

Housing and Dining

The on-campus living program is designed to encourage personal growth and development. The standards of behavior established by the department of housing are intended to comply with and help maintain the academic environment of the College. All full-time, unmarried students not residing with parents or other relatives, guardians or friends are encouraged to reside on campus and participate in the dining program.

Housing and dining services are combined. Therefore, all residential students are automatically on the meal plan. Unmarried students reside in Chiricahua Hall (women) and Huachuca Hall (men).

The dining program includes three meals each day, Monday through Friday, and two meals each on Saturday and Sunday. You have the option of taking most meals either in the cafeteria or the Qué Pas snack bar.

Regulations

Each resident must sign a residence hall contract agreeing to all the terms and conditions of occupancy. On-campus

residents are expected to comply with applicable rules and regulations as they appear in the residence hall and married housing contracts and the student handbook as well as local, state and federal laws.

Apartments

The College offers a limited number of furnished married-housing units. Prospective occupants must provide proof of marriage before applications will be considered.

Housing Applications

If you are interested in on-campus housing, you are encouraged to apply early, preferably at least 60 to 90 days before the academic term begins. Housing applications cannot be processed unless you have applied for admission to the College. Interested applicants may write to the Housing Office, Cochise College, 4190 W. State Hwy. 80, Douglas, AZ 85607-6190 or call (520) 417-4062.

Campus Crime Report/Alcohol-Free Workplace

According to federal statute and regulations, colleges and universities are required to prepare and distribute each year an annual security report. Within the report, colleges must set forth their policies on crime prevention and

sex offenses and give statistics on the number of crimes reported on campus. Other reported crimes include the number of arrests for liquor law and/or drug violations and weapons possessions. The crime report is updated each September; the drug and alcohol free workplace report is updated each April. The reports may be reviewed at www.cochise.edu/crime_report.

SPECIAL PROGRAMS

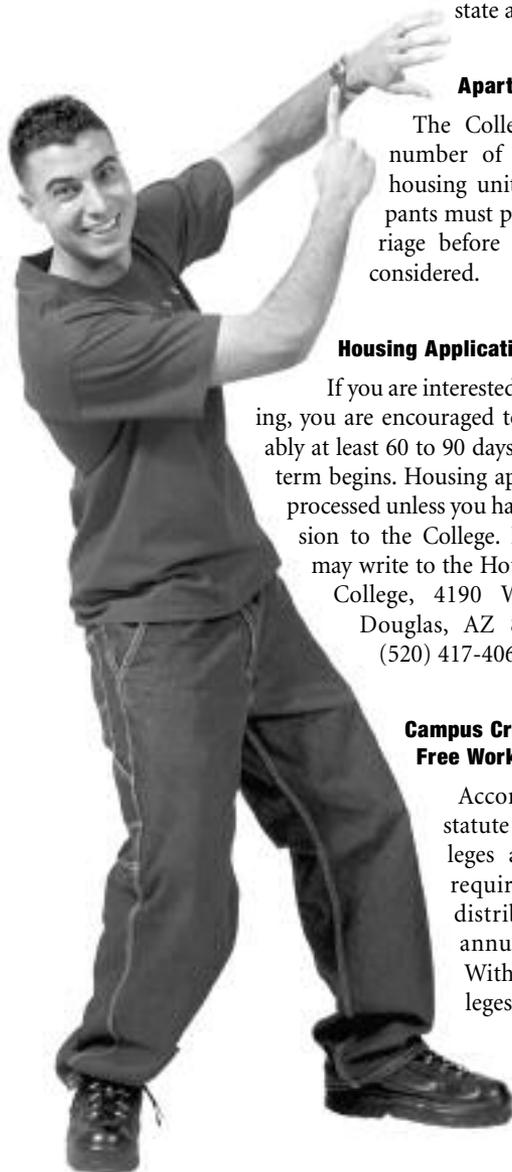

Honors Program

An honors program is available for academically exceptional students. It encourages students to question, research, discover and debate ideas in various curricular areas. The insights gained through individual projects broaden students' awareness in a variety of areas. The scholarly inquiries begun in this program will provide a strong base for a life-long quest for knowledge and excellence. You may apply to the honors program if you have completed 12 credits in courses from the general education curriculum, are enrolled in a degree program and have at least a 3.5 grade point average. Please contact the Student Development Center for honors program information.

Education for Underprepared Students

The College serves students by providing courses that help them attain their full potential. All new students should take the College placement test prior to registration in order to determine their skill levels in reading, writing and mathematics. Students will receive assistance from an advisor in selecting the courses needed to prepare them for college-level work.

If your placement scores indicate the need to enhance your skills in the areas of reading, writing and mathematics, you will be placed in the appropriate college prep courses. Students with gaps in their academic backgrounds or who have grown rusty in one or more of these areas will find the college prep courses are designed to bring basic skills up to the necessary level for optimum college performance.

College prep courses are numbered 099 and below. Although these courses count toward meeting full-time status for financial aid purposes, college prep courses cannot be used to meet graduation requirements. The College offers a variety of services to help students, including tutoring, career planning and counseling. Students can visit the Student Development Center for more information.

Special Interest Classes

Non-credit classes cover a variety of subjects and offer opportunities to individuals seeking non-traditional educational experiences. The Extended Campus provides weekend and evening seminars, workshops, films and lectures on topics ranging from local history and culture to arts and crafts such as weaving, silver-smithing and gourmet cooking, for personal growth and development.

Dual Credit

High school students taking honors, advanced placement and vocational classes in high school can earn college credit. These courses count for credit at both the high school and at Cochise College. Contact your high school counselor for courses that meet dual credit guidelines and for more information about this program.

Adult Education

English for Speakers of Other Languages (ESOL), General Education Development (GED), Adult Basic Education (ABE) and citizenship are offered as free non-credit classes throughout Cochise County. Classes are designed to enable adults wishing to obtain citizenship, a GED (high school equivalency) diploma, to improve English language skills or to improve academic skills in mathematics, reading and English in preparation for admission to College programs.

Center for Professional Development Program

Education courses and training services intended for skill enhancement and professional development are offered to military, business, industry, organizations and individuals throughout the southwest. Professional development provides a non-traditional training format.

Credit or non-credit courses are offered as compressed classes in workshops and seminars. Professional development programs include basic and advanced skills, instruction in written communications, career skill improvement, computer software applications, aviation maintenance, certificate programs in management and personal skill development.

Class location may be on campus or at the job site. Classes are announced through semiannually published schedules. Classes are offered in a contracted and customized format.

Small Business Development Center (SBDC)

The Small Business Development Center (SBDC) is a cooperative effort of Cochise College and the U.S. Small Business Administration. Its purpose is to help entrepreneurs and small-business owners in Cochise County manage and grow their businesses. The SBDC provides a variety of services, including one-on-one counseling on topics including marketing, financial and business planning, human resource management, government procurement, record-keeping and more.

Center for Economic Research

The Center for Economic Research (CER) collects, analyzes and interprets local economic data for the communities served by Cochise College. The CER is available to provide data and economic forecasts to businesses, public agencies, developers, research centers and individuals interested in the local economy. Specific economic studies and surveys can be designed and conducted on a contractual basis for businesses and individuals requesting assistance.

Cochise College Workforce Compact Program

This program allows high school students interested in a skilled occupation the opportunity to continue their education at Cochise College while still in high school. Contact your high school counselor for more information.

Summer Spanish Immersion Program, Douglas Campus

The College offers a summer Spanish immersion program that provides intensive, day-long instruction to non-native speakers. The program is designed to improve basic listening and speaking facility in the Spanish language. Students receive four to eight transferable credits (equivalent to one or two semesters of first-year Spanish) upon successful completion of the program.

Summer English Immersion Program: Douglas Campus

The summer English immersion program offers a student, whose first language is not English, opportunities to improve his or her proficiency. Classes are offered six hours daily, integrating reading/writing and grammar/oral communication at beginning, high-beginning, intermediate and high-intermediate levels. Classroom instruction is complemented by frequent use of computer-assisted instruction, audio-visual materials, field trips and social activities.

Servicemember's Opportunity College (SOC)

Cochise College is a member of Servicemembers Opportunity Colleges, a consortium of more than 1,500 colleges and universities that provide college-level educational opportunities for servicemembers and their families. As an SOC member, this institution:

- Recognizes the GED high school equivalency certificate/diploma;
- Recognizes learning gained from specialized training and experience in the military services;
- Establishes competency by nationally recognized means, such as standardized tests;

- Maintains a flexible transfer-of-credits policy for the mobile, active-duty servicemember;
- Publicizes alternative admissions procedures available to servicemembers and waives formal admission procedures for those seeking enrollment in course work for transfer to another institution;
- Conducts a timely evaluation of the educational records and relevant experiences of servicemembers; and
- Completes a student agreement or degree completion plan for all degree-seeking servicemembers.

The Fort Huachuca office can prepare the Cochise College SOC contract for you or assist you in completing your contract requirements with other SOC school members.

The following kinds of special assistance are offered to Cochise College students who are members of the military service:

1. Advising, counseling and testing
2. Granting of credit for appropriate education experiences in the armed forces
3. Transfer and reverse transfer of credits
4. Contract for degree option
5. Repository of records

Contact the Sierra Vista Student Development Center or the Cochise College office at the Army Education Center on Fort Huachuca for more information.

Prison Education Program

This program located at the Arizona State Prison in Douglas offers a wide range of vocational courses and programs to meet the diverse needs of inmate students. All credit courses are selected from the College catalog and taught by faculty certified by the Arizona Community College Board. Custodial services, fire science, general electronics repair, and building maintenance are unique to the prison education program.

Carla Roscoe

"I study at the same time every day"

Carla Roscoe

Location Sierra Vista Campus

Degree: Associate of Arts

Goal: Transfer to University of Arizona South to study political science and psychology; law school

As president of the Student Government, Carla Roscoe's schedule is never easy. Besides pursuing a teacher aide certificate and her second college degree – she already earned a general studies degree – she is a court-appointed special advocate for children who also juggles a marriage and a heavy class load. A native of New Orleans, she chose Cochise College because she wanted a school with small classes where she could get to know her instructors. Roscoe was recently recognized for her academic success and leadership at the All-Arizona Academic Teams luncheon. She credits part of that success to her study habits. "I rarely watch TV, and I study at the same time every day - early in the morning. The library is a place where everybody knows my name." Most important - she does not procrastinate!

Academic Procedures & Information

STUDENT RESPONSIBILITIES/CODE OF CONDUCT

As a student at the College, you are expected to abide by federal, state and local laws and the Cochise College code of conduct.

Cochise College assumes that men and women of college age are able and willing to maintain standards of self-discipline appropriate to membership in a college community. You are expected to consider the rights of others and use mature and reasonable judgment concerning your actions while attending Cochise College.

Possession or use of alcoholic beverages or illegal drugs on campus or in the residence halls is grounds for dismissal from the College. In all cases of disciplinary action, proper procedural safeguards are observed to ensure you of your right to fair and impartial treatment.

The development, enforcement, interpretation and waiving of academic requirements are the responsibility of the vice president for instruction/provost. You may petition for the waiver of academic regulations through a counselor/advisor.

CLASSIFICATION OF STUDENTS

Freshman: Student with fewer than 28 passing credits of college credit.

Sophomore: Student with 28 or more passing credits of college credit.

Full-time Student: Student carrying 12 or more credits during the semester.

Part-time Student: Student carrying fewer than 12 credits during a semester.

GRADING SYSTEM

Grades are earned in each course and recorded on your permanent record. Grade definitions are as follows:

A Superior	4.0
B Good	3.0
C Average	2.0
D Poor	1.0
F Failure	

Withdraw Failing (WF) - Indicates withdrawal from the class after Friday of the ninth week with a grade below a C in the course. A grade of WF is computed in your grade point average as an F or failure.

Withdraw (W) - Indicates a withdrawal from the course through Friday of the ninth week with a grade of C or better if the withdrawal was after the Friday defined above. A grade of W is not computed in the student's grade point average.

Incomplete (I) - Indicates that for a justifiable reason, such as a serious illness, you failed to complete all requirements for the course. When this happens the instructor submits an incomplete grade contract to the Registration Office with the final grade roster.

Failure to make up an incomplete during the succeeding semester will result in a change from the grade of I to an F on the permanent record unless there is a contract on file in the Admissions and Records Office stating otherwise. The grade of I is not computed in your grade point average.

Audit (AU) - Registration and fee policies for auditing a course are the same as those for registering for college credit. However, the instructor will give priority to students registering in the course for credit. If you audit classes, you will

not receive grades or credit. The instructor will not require audit students to take examinations or hand in assignments.

If you register as an auditor, you may not change to a credit basis later than Friday of the second week of the semester. If you register for credit, you may change to audit up through the Friday of the ninth week of the semester. The drop/add procedure is used to effect such changes.

In Progress Grade (IP) -Indicates that the course has not been completed at the time the grade rosters were issued. The final grade will be placed on the transcript in a timely fashion after the completion of the course.

Pass (P) -Indicates that you have done C or better work in a class taken for pass-fail.

Fail (X) -Indicates that you have earned a D grade or failed in a class taken for pass-fail.

GRADE POINT AVERAGE

Semester grades are assigned grade points as follows:

Grade.....	Points per credit earned
A	4
B	3
C	2
D	1
F	0
WF	0

Thus, a three-credit course with a grade of “A” would earn (3x4) 12 grade points. The total grade points accumulated by a student are divided by the total of credits attempted (excluding W, I and AU grades), and the result is known as your cumulative grade point average (GPA).

In determining academic standing at Cochise College, the GPA of a transfer student is computed on the basis of credits attempted at Cochise College only and will not include credits and grade points earned at another college.

SCHOLASTIC HONORS

If you complete 12 or more credits in one semester or phase at Cochise College and maintain a semester GPA of 3.900 or better, you will be recognized as achieving high academic honors.

If you complete 12 or more credits in one semester or phase at Cochise College and maintain a semester GPA of 3.500 to 3.899, you will be recognized as achieving academic honors.

CREDIT LOAD LIMITATIONS

Cochise College believes that maximum educational benefits accrue when students enroll for a reasonable course load. The College has established the following maximum number of units for which a student may register:

1. Beginning freshman (first-time college student): 18 units
2. All other students:
 - a. With cumulative GPA of greater than 2.49: 19 units*
 - b. With cumulative GPA of 2.00-2.49: 16 units*
 - c. With cumulative GPA less than 2.00: 12 units

*Student may petition the director of the Student Development Center or designee to enroll in more units.

Note: Due to the nature of the Airframe and Power Plant, Professional Pilot Technology, and Prison Education programs, the College exempts students enrolled in the program from the 19-unit maximum. The College also exempts cooperative education units from student load limitations.

COURSE OFFERING LIMITATIONS

Cochise College offers courses at a number of locations throughout the district. Through its regular offerings and alternative study programs, Cochise College attempts to

provide as many courses as possible for completion of the degrees and certificates at each learning site. However, many vocational programs are limited to specific locations.

COURSES NUMBERED 099 AND BELOW

Courses numbered 099 and below are not transferable and will not fulfill associate's degree requirements.

NONSATISFACTORY PROGRESS - ACADEMIC SUSPENSION

After 13 or more credits attempted, whether you are full- or part-time, you will be reviewed for academic progress. If your cumulative grade point average drops below a 2.0, you will be notified of non-satisfactory progress, and your transcript will note your academic status. After two consecutive terms of a cumulative grade point below 2.0, you may be placed on suspension. You will be notified of your non-satisfactory progress, and your transcript will note your academic status. Suspension reports will only be calculated in December and May at the end of the traditional fall and spring terms.

If you are suspended, you will be required to sit out one regular semester (the next fall or spring which includes summer and short sessions).

If you are suspended and then re-admitted, you will be placed on non-satisfactory progress for the semester in which you are re-admitted.

GRADE REPORT

You will receive a grade report at completion of the semester. Final semester grades are recorded on your permanent record.

CHANGE OF GRADE

A grade reported to the registrar may be changed only upon authorization of the faculty member issuing the grade, the appropriate instructional administrator and the vice president of instruction/provost.

COURSE REPEATS

A course may be repeated for credit, providing the student follows established procedure. A course may be repeated any number of times.* The listing of the original course with a grade of "R" remains as part of the permanent record, but only the last grade earned will be computed for graduation and cumulative grade point average. Students need not repeat a course that they have failed unless it is a prerequisite for another course or is a course required for graduation or transfer.

*Certain specified programs are exempt from this procedure.

CHANGE OF CLASSES

You may drop classes through the end of the ninth week of a full term without academic penalty. Classes meeting fewer than 16 weeks will be pro-rated. Should the withdrawal occur prior to the 45th calendar day after College classes have begun, such withdrawal will not appear on the student's record.

Withdrawals occurring between the 45th calendar day and the end of the ninth week will be assigned a W for "withdrawal" provided an official withdrawal has been made.

You may add classes by initiating an add transaction with the Registration Office through the first week of class provided the class is not closed. Add transactions during the third and fourth weeks of class may only be made for the purpose of moving to a lower- or higher-level course in the same discipline.

This policy does not apply to aviation programs operating under non-traditional calendar requirements or to special vocational courses officially established under open entry-open exit or short-term conditions or non-traditional semesters.

ADD

1. Drop/add forms are available in registration or the Student Development Center.
2. Obtain an advisor's signature for the classes you wish to add.
3. Turn in the drop/add form to registration and proceed to the Cashier's Office if there is a charge for the transaction.

DROP

1. Instructors may drop you for not attending class by marking through the student's name on the FTSE roster and recording a drop date. There will be no refunds for a drop made by the instructor. You must turn in a drop/add form to be eligible for a refund.
2. No drop/add form will be accepted after the last day to drop a class without academic penalty. If you wish to drop after that date, you must make arrangements with the instructor to receive a grade of W or WF on the final grade roster.

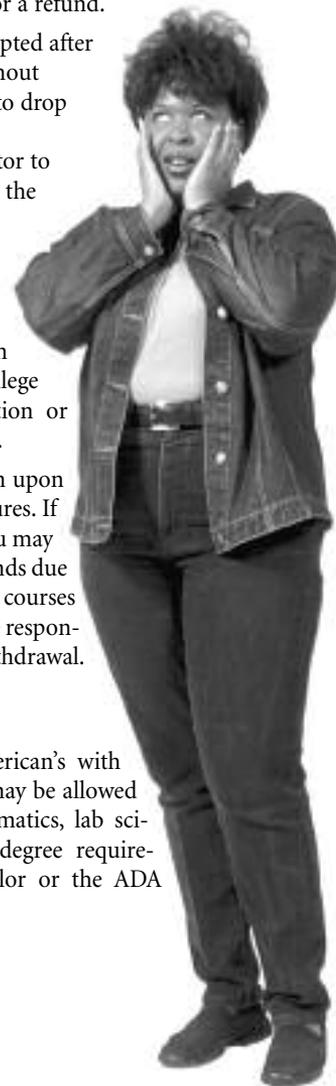

WITHDRAWAL FROM COLLEGE

If you wish to withdraw from the College, you must obtain a college withdrawal form from registration or the Student Development Center.

Return the form to registration upon obtaining the appropriate signatures. If you fail to withdraw officially, you may jeopardize the receipt of any refunds due and may be assigned a WF for all courses in which you are enrolled. You are responsible for properly processing a withdrawal.

ADA SUBSTITUTIONS

Some students receiving American's with Disabilities Act (ADA) services may be allowed to substitute courses for mathematics, lab science, and/or foreign language degree requirements. Please contact a counselor or the ADA coordinator.

CREDIT BY EXAM

Cochise College offers credit by exam. Credit by exam is useful when you wish to demonstrate your prior knowledge by testing out of a course. You must register for those courses in which you wish to establish credit by exam.

You must meet the following criteria to be eligible to request credit by exam:

1. Be currently enrolled at Cochise College.
2. Have successfully completed 12 credits at Cochise College.
3. Have completed an application for credit by exam.
4. Have obtained the approval of the campus dean and appropriate faculty member of the department.
5. Have met required prerequisites, if any, established by the department.
6. Have paid a non-refundable reduced fee per credit. If consumable materials are used in the exam, an additional fee will be charged.

If you qualify, you will take the examination prior to the last day to add classes in a given semester or prior to an alternative date established by the department. To earn credit by exam, you must receive a grade of C or higher.

You may not make application for credit by exam if you have:

1. Received college credit in a higher level course.
2. Previously challenged the course.
3. Previously enrolled in the course and received a failing grade.

You may challenge only those courses numbered 100 or above.

Credits and grades earned will be computed into your grade point average but may not be used to fulfill residency requirements or to meet VA or financial aid requirements for determining benefit status. Only full-time faculty or designee may administer credit by examination.

You may apply for credit by examination by obtaining an application form from the instructional department offering the course at any of the four sites: Douglas Campus, Sierra Vista Campus, Benson and Willcox. There, you must secure permission and signatures from the appropriate instructor and instructional administrator.

COLLEGE LEVEL EXAMINATION PROGRAM (CLEP)

Cochise College accepts both the general and the subject examinations of the CLEP for college credits provided satisfactory scores are attained. Scores of 500 or above on all general examinations will entitle you to six credits in each of the five general examinations: English composition (with essay), humanities, mathematics, natural sciences (not to include credit for laboratory science requirements) and social sciences. CLEP scores and credit for foreign languages are as follows:

SPANISH	FRENCH	GERMAN	CREDITS
40-49	39-48	39-45	4
50-54	49-53	46-50	8
55-61	54-62	51-59	12
62-80	63-80	60-80	16

You must complete at least one Cochise College course before credit may be granted for CLEP. Credit earned under CLEP may not be used toward the 16 resident hours required for a degree. Three to 16 credits, depending upon the examination, may be earned by scores of 50 or better on the subject examinations. Contact the testing center for a list of tests available and corresponding number of credit hours.

If you take CLEP examinations, duplicate credit will not be awarded in subjects at the same level. You will not be awarded credit through CLEP for courses equivalent to, or at a lower level than, other courses you have already taken through formal course work.

You may earn up to 30 credits of college credit by taking CLEP examinations. However, credit granted by Cochise

College does not obligate any other college or university to accept such credit. You may contact the Student Development Center for testing arrangements.

USAFI/DANTES AND MILITARY SERVICE SCHOOLS

Cochise College follows the credit recommendations of the American Council on Education for Military Service Schools. Credit for USAFI/DANTES courses will be granted in accordance with the minimum standard score and credit recommendation for each separate examination.

Colleges differ on their policies related to credit allowed for USAFI/DANTES and military service schools. Credit granted by Cochise College does not obligate any other college or university to accept such credit.

You must complete at least one Cochise College course before credit will be granted for USAFI/DANTES or military service courses. Credit earned on any of these may not be used toward the 16 resident hours required for an associate's degree. A maximum of 30 credits will be allowed for non-traditional learning credit.

INDEPENDENT STUDY

Although outstanding independent scholarship is normally expected at upper-division and graduate levels, the College recognizes that some undergraduate students are prepared and have sufficient motivation to earn credit for self-directed study.

Independent study is defined as a project or series of assignments related to an area of study for which course offerings are not available. All divisions and departments make independent study available subject to advance agreement by the full-time instructor and appropriate dean.

Existing courses may not be taken as independent studies.

The College provides independent study opportunities if you:

1. Have mastered core coursework in a given program area;

2. Have achieved sophomore standing with a cumulative grade point average of 3.0 or better; and
3. Have demonstrated the need for investigation into areas of knowledge that may not be included in existing formal courses.

You and your instructor will meet to discuss the nature of the study. All requirements for successful completion of the study, including periodic meeting times, will be clearly established on an independent study contract (Form VPI-7). Course credit is determined by the instructor and appropriate dean and will be compatible with published academic standards and procedures.

Credits assigned to an independent study contract may not be increased or reduced after commencement of the study. Contracts must be completed within the semester in which study begins. Independent study may take place only during the academic year excluding summer sessions.

After signing the contract, you must complete a drop/add form and submit both documents to admissions and records. Contracts are subject to the same grading stipulations as regular classes.

FINAL EXAMS

Final exams are required and serve an important purpose in the academic process. Certain courses may call for demonstration of competency with final projects requiring more than two hours of work; these projects may serve as a final examination. Such projects must necessarily begin and end before the exam period. This being the case, the class shall meet during the scheduled exam period for review, critique or other meaningful activity.

Evening classes will have final examinations during the last class meeting.

You can find a final exam schedule printed in the class schedule at the beginning of each semester. You are expected to attend all final exams as scheduled. Students who do not attend may receive a failing course grade at the discretion of the instructor.

TRANSCRIPTS

A transcript is a copy of your permanent academic record. Transcripts are forwarded by admissions and records to educational institutions or perspective employers at the written request of the student. Transcripts to educational institutions will be sent directly by mail. Transcripts given directly to you are marked "issued to student." Charges for transcripts are listed in the fee section.

ATTENDANCE POLICY

Each instructor shall establish specific attendance criteria for each class and shall communicate the policy to you in writing during the first week of each semester. An instructor may drop you from class for absences exceeding the limit stated in the class procedures sheet.

The instructor may drop you from a class roster or submit a drop/add form to registration. If you are dropped by an instructor, you will not receive a refund.

It is your responsibility to make up classroom work and assignments missed while excused for College-sponsored trips.

VETERANS' POLICIES

The Veterans' Affairs Office will provide information concerning attendance, benefits and procedures to all veterans. All veterans are advised to maintain close contact with the Veterans' Affairs Office.

Veterans' receiving VA benefits who drop a course or withdraw from College are required to report to the Veterans' Affairs Office immediately following such action. If you fail to report any reduction in credits or withdrawal from the College, you may be required to repay all money that you received during that semester/session.

As a veteran receiving VA benefits, you may be dropped by the instructor if you miss more consecutive class meetings than the credit hours of the course. Exceptions will be made for those who have made a written agreement with the instructor for missing class beyond the allowed time.

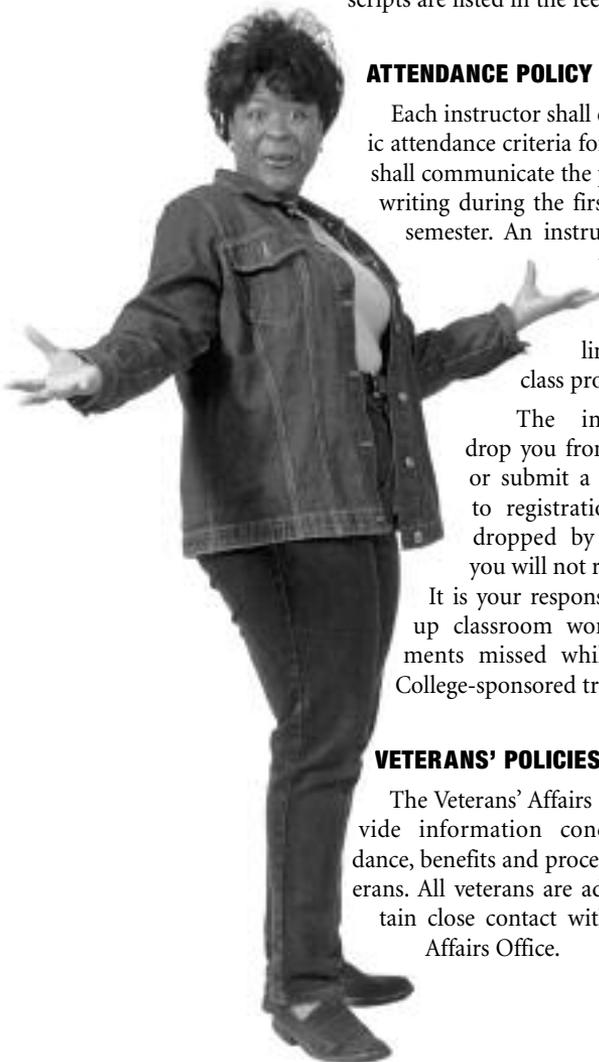

The instructor must give the Veterans' Affairs Office the student's last date of attendance when dropping a veteran from class.

CHOICE OF CATALOG

If you maintain continuous enrollment at any public Arizona community college or university, you may graduate according to the requirements of the catalog in effect at the time of initial enrollment or according to the requirements of any single catalog in effect during subsequent terms of continuous enrollment. You can maintain continuous enrollment whether attending a single public community college or university in Arizona or transferring among public institutions in Arizona while pursuing your degrees.

A semester in which you earn course credit will be counted toward continuous enrollment. Non-credit courses, audited courses, failed courses or courses from which you withdraw do not count toward the determination of continuous enrollment for catalog purposes.

If you do not meet the above minimum enrollment standard for three consecutive semesters and the intervening summer term, you are no longer considered continuously enrolled and must meet the requirements of the catalog in effect at the time of your re-admittance. Summer enrollment may be used to maintain continuous enrollment status.

REQUIREMENTS FOR GRADUATION

Cochise College is committed to maintaining and encouraging the highest academic standards thereby enabling you to transfer to colleges and universities throughout the nation and to successfully enter the world of work. Therefore, the following requirements have been established for graduation.

REQUIRED GRADES AND GPA

All courses in an AA, AS, or ABus degree must be completed with a C or better and must be transferable to all Arizona public universities.

All Cochise associate degrees require a cumulative grade point average of 2.0 or better.

In the AGS degree, composition and mathematics courses used to meet general education requirements must have a grade of C or better. A grade of D is allowed for elective courses in the AGS.

Some AAS degree programs require a 2.0 cumulative GPA or better for all college credits in the area of emphasis.

MINIMUM READING REQUIREMENT

Students earning an AA, ABus, AGS, AS or AAS degree must meet one of the following criteria:

For native speakers:

1. Score 12.0 or higher on standardized reading test.
2. Cumulative GPA of 3.0 for courses at the 100 level or above at the time of degree check.
3. Completion of a reading course with a grade of C or better in which competency for the course is a 12.0 grade level or higher.

For non-native speakers of English:

1. Any of the above, as stated for native speakers of English.
2. A TOEFL score of 500 level or above, including a score of 50 on Section 3.
3. Petition to a permanent standing committee comprised of an ESL representative, a reading representative and the appropriate instructional manager.

RESIDENCY REQUIREMENTS

A minimum of 16 credits must be taken in residency at Cochise College to earn an associate's degree. A minimum of 25 percent of the required credits must be taken in residency at Cochise College to earn a certificate. Residency for the Arizona General Education Curriculum (AGEC) is 15 credits.

SECOND ASSOCIATE DEGREE

You may earn a second associate degree at Cochise College if you complete:

- All requirements for the second degree;
- Sixteen credits not used in the first degree.

ADDITIONAL DEGREES

You may earn additional degrees at Cochise College by completing the above requirements for each additional degree.

GRADUATION AND CERTIFICATE APPLICATION

If you are planning to graduate, you must file a graduation or certificate application with the Student Development Center and pay the appropriate fee at the Cashier's Office.

Applications must be filed by the dates listed in the current schedule of classes. If an application is late, a diploma will not be ordered until the following order date. Diplomas will be mailed after final grades are received and records evaluated.

*"being a fireman
and a nurse
have been the two
goals of my life"*

Sam Nieblas

Location: Douglas Campus

Program: Nursing

Goal: Continue working as a fireman but with the medical knowledge of a nurse.

Sam Nieblas, a firefighter with the Douglas Fire Department, wanted to pursue a nursing degree because he thought it would be beneficial to the fire department. "Being a fireman and a nurse have been the two goals of my life. I think the experience of being able to work in a hospital will help me in the back of the ambulance." But his wife Maggie had the same goal. So Sam, who earned an emergency medical technician certificate in 1996, continued his general studies and will enroll in the nursing program in fall 2002. The decision has been beneficial for the entire family. Because of Maggie's experience, Sam understands the demands of Cochise College's exemplary nursing program. Plus, the couple's daughters see their parents studying and follow in their footsteps. "It's good for them to see us going to school."

Sam Nieblas

Degrees & Programs

ARIZONA TRANSFER DEGREES

Cochise College offers the first two years of a four-year program for students who wish to earn a bachelor's degree. Transfer degree programs include the associate of arts, associate of science and associate of business. These degrees transfer as a block of 64 credits to all Arizona public universities. Students can enter universities as juniors after completing an associate's degree. The Arizona General Education Curriculum (AGEC) block of 35 credits fulfills the lower-division general education requirements at all Arizona public community colleges and universities. These degrees are designed for transfer to all Arizona public universities; however, not all Arizona public universities offer majors in each of these areas. Please consult with an advisor in the Student Development Center to ensure your chosen university offers a degree in your area of study.

The associate of arts degree is designed for students planning a transfer degree in liberal arts, social science or fine arts. If you are seeking a university business or computer information systems degree, you should complete the associate of business. If you are interested in natural, physical or life sciences, you should complete the associate of science. If you plan to transfer to another college or university, you should meet with an advisor or counselor in the Student Development Center.

TRANSFER AGREEMENTS

A statewide agreement between Arizona public community colleges and universities guarantees students two ways to transfer: using an associate's degree or an AGECEC general education block.

Cochise College enters into articulation agreements on a course-by-course basis and complete degree transfer. Information for transfer agreements within the state system, including Arizona State University, Northern Arizona University, and the University of Arizona, is available in student services and online at <http://az.transfer.org/cas/atass/index.html>.

Cochise College also has articulation agreements with Capella University, <http://www.capellauniversity.edu>, Western Governors University, <http://www.wgu.edu>, and the University of Phoenix, <http://achieve.phoenix.edu/index.asp>.

COURSE APPLICABILITY SYSTEM (CAS)

Cochise College students have an exciting opportunity to become more proactive in reaching their educational goals. The Course Applicability System (CAS) allows students to access information online relating to course descriptions, academic programs, the Course Equivalency Guide (CEG), and student information. Students will also have direct online access to information supporting course acceptability and applicability among our in-state college system.

How courses transfer is contained in the CAS Course Equivalency Guide (CEG) website: <http://az.transfer.org/cas>. Click on "Go to CAS!," "Guest Login," then go through the site certificate by clicking on "Next" and "Finish;" then answer the questions until you come to the actual CEG. There you will note that the CEG lists courses by the dates of the terms in which the courses were offered; it is essential that students, counselors, and academic advisors refer to the term in which the student took the course. Students need to understand:

- CAS provides unofficial information for in-state transfer based on self-reporting.
- CAS will not replace the help of a program advisor nor take the place of an official document for transcript evaluation.

TRANSFERRING THE ASSOCIATE DEGREE

The AA, ABus and AS degrees will transfer as blocks of 64 credits meeting university admission requirements and granting the community college student junior status.

TRANSFERRING THE AGEC BLOCK

The Arizona General Education Curriculum (AGEC) will transfer as a 35-credit general education block that fulfills the university lower division general education requirements at any Arizona public community college or university. The AGEC block may be completed independent of the transfer degree. The block has three forms: the AGEC-A, AGEC-B and the AGEC-S.

By completing an AGEC at Cochise College, a student is guaranteed all admissions requirements are waived at all Arizona public universities. While Arizona residents need to have a minimum of a 2.0 grade point average in their AGEC, non-residents are required to have a minimum cumulative grade point average of 2.5 for admission.

If you do not complete an AGEC at Cochise College and wish to transfer to an Arizona public university, you will need to meet all university admissions requirements and complete university general studies requirements which may be different from Cochise College’s general education requirements. The College urges students to transfer only after having completed an AGEC or associate’s degree to ensure a seamless process.

AGEC TRANSFER BLOCKS

The following applies to all AGEC blocks:

- Courses included in the AGEC block must be completed with a grade of C or better.
- A course may have dual use. It may be used to fulfill both an AGEC requirement and a common course requirement in the associate’s degree. Total credits toward a degree are not waived.
- Courses used to fulfill humanities and arts requirements must be chosen from two disciplines.
- Courses used to fulfill social and behavioral sciences requirements must be chosen from two disciplines.

- Six credits of arts/humanities, social and behavioral sciences/general education elective must be chosen from the intensive writing/critical inquiry courses listed at: <http://xwing.cochise.edu/curriculum/gen-ed.html>.
- A list of courses to fulfill general education requirements, including the general education elective, is listed at <http://xwing.cochise.edu/curriculum/gen-ed.html>.

AGEC-A

General Education Requirements Credits

Composition	ENG 101, 102	6
Mathematics	MAT 142 or higher	3-5
Laboratory science		8
Arts		3
Humanities		3
Social and behavioral sciences		6
Information literacy	CIS 116, 120*	3

Total General Education Requirements.....	35

AGEC-S

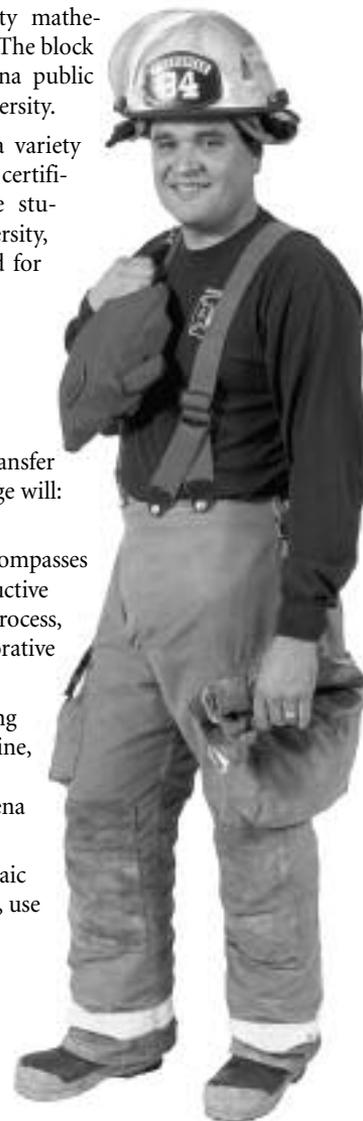

The AGECE-S meets the general education requirements for the Cochise College associate of science degree and fulfills the lower division general education requirements for university mathematics and science majors. The block will transfer to any Arizona public community college or university.

Cochise College offers a variety of associate's degree and certificate programs to prepare students for transfer to a university, for direct employment and for skills enhancement.

**COCHISE COLLEGE
GENERAL EDUCATION
OUTCOMES**

Students who earn a transfer degree from Cochise College will:

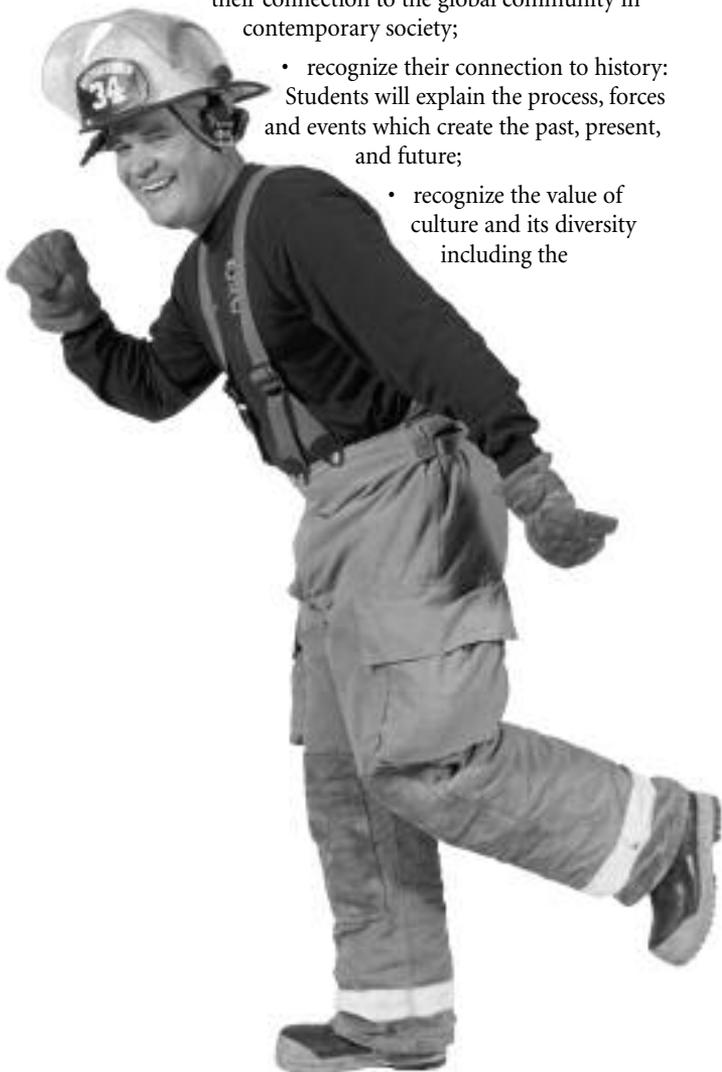

- demonstrate successful communication that encompasses both receptive and productive thinking in a recurring process, in individual and collaborative settings;
- demonstrate the reasoning process to identify, examine, evaluate, and/or solve information or phenomena or discipline;
- demonstrate basic algebraic skills including factoring, use of exponents, solving equations, and solving inequalities;

- use function notation, interpret math models, and demonstrate graphing skills;
- analyze and solve application problems: Students will recognize insufficient/extraneous information;
 - demonstrate a global vision: Students will explain their connection to the global community in contemporary society;
 - recognize their connection to history: Students will explain the process, forces and events which create the past, present, and future;
 - recognize the value of culture and its diversity including the

interrelatedness of the humanities, sciences, and social sciences;

- demonstrate observational skills, including (a) data collection, (b) presentation of data, (c) interpretation of data (drawing inferences), and (d) error analysis;
- apply the techniques, vocabulary (deductive, inductive, reasoning, hypothesis) and ethics (honesty, replication of data) of the scientific method of inquiry;
- demonstrate critical reasoning: (a) precise terminology, (b) development of concepts from data, and (c) application of concepts/formulas through completion of lab reports or experimental research projects;
- demonstrate technology literacy through hands-on computer use: (a) navigate the operating system to perform specific tasks, (b) manage the file system to create, locate, copy and delete files, (c) word-process a document accurately and in a timely manner, (d) prepare and deliver a technology-assisted presentation, (e) send and receive email, including attachments, and (f) use basic hardware and software terminology accurately;
- demonstrate information literacy: locate, evaluate and properly cite sources to communicate information effectively and accomplish a specific purpose;

COCHISE COLLEGE GENERAL EDUCATION COURSES**AA, ABUS, AS, and AGS Degrees**

Composition:	ENG101, ENG102, ENG102H
Mathematics (AA, ABUS, and AGS):	MAT122 (AGS only), MAT142 (select degrees only, see advisor), MAT151, MAT172, MAT182, MAT187, MAT212, MAT220, MAT227, MAT231, MAT241, MAT252, MAT262

Information literacy** (3 credits): CIS116, CIS120

*CHM 130 and CHM 151 will satisfy the mathematics/laboratory sciences for nursing and health technology programs only.

**Students testing out of information literacy requirement may choose general education elective credit from the general education course list.

Alisha Smith

*"it's the best
time of my
life"*

Alisha Smith

Location: Douglas
Campus

Program: Professional
flight technology

Goal: Become a charter
service or acrobatic pilot

In the summer of 2001, Alisha Smith and her family drove all the way from North Carolina in a car without air conditioning so she would have a shot at becoming a pilot. With its runway and dormitories, Cochise College is exactly what Smith was looking for. Since her arrival, she has become a top student, appeared in two Bisbee Repertory Theater shows, strolled the campus Holiday Light Festival as part of a wandering ensemble and taken a work-study in which she cleans and refuels planes. Arizona is the furthest she's ever been from home. "I'm glad I'm here. College has given me new experiences, I've made new friends, and I'm in a new environment. It's the best time of my life."

Degree Programs

In each of the degrees outlined in this section, you will see references to areas such as “arts” or “laboratory science.” Only approved general education courses may be used to satisfy these area requirements within degrees.

ASSOCIATE OF ARTS DEGREE

General Requirements

The AA degree is recommended for liberal arts, social science or fine arts students who plan to transfer to a university.

- The associate of arts degree transfers as a block of 64 credits to Arizona State University, Northern Arizona University, the University of Arizona, and the University of Phoenix.
- * This degree is designed for transfer to all Arizona public universities; however, not all three state universities offer majors in all areas. Please consult with an advisor in the Student Development Center to make sure your chosen university offers a degree in your area of study.
- If you are transferring from other universities or an out-of-state university, your transfer credits will be evaluated on a course-by-course basis.
- You will transfer with junior standing without loss of credit and complete 56 credits for a total of 120 credits for most degrees.
- Since university requirements vary considerably. It is strongly recommended that you work closely with an academic advisor to plan your coursework.

ARIZONA GENERAL EDUCATION

Curriculum, AGEC-A.....	Credits
Composition	ENG 101,102..... 6
Mathematics	MAT 142 or higher... 3-5
Laboratory science	8
Arts.....	3

Humanities	3
Social and behavioral sciences	6
Information literacy	CIS 116 or 120..... 3
General education elective(s).....	1-3

- Six credits of arts, humanities, social and behavioral sciences and general education electives must be chosen from the intensive writing and critical inquiry course List.
- If you are testing out of the information literacy requirement, you may choose an alternate course from the general education course list.
- Elective courses must be chosen from the general education course list or HPE 179.

Total General Education Requirements (AGEC-A) 35

Language requirement

- You are required to demonstrate fourth-semester proficiency through coursework, credit by examination, and/or native language proficiency.
- If you test out of this requirement, you may choose courses related to your area of interest or exploration.

Electives

- Elective courses must be transferable to all Arizona public universities.

TOTAL DEGREE REQUIREMENTS..... 64

- All courses must be completed with a grade of C or better.
- A course may be used to fulfill both a general education requirement and an elective in the associate’s degree. Total credits toward a degree are not waived.
- You must demonstrate a 12.0 grade reading level proficiency.
- A minimum of 16 credits must be completed at Cochise College.
- Courses in the arts, humanities, and social and behavioral sciences have content addressing ethnic/race/gender awareness and contemporary global/international or historical awareness embedded in the coursework.

EXPLORATORY AREAS

We suggest the following exploratory areas for students interested in liberal arts who are seeking an associate of arts-general requirement but are uncertain in their major:

Anthropology:	ANT 101	The Origin and Antiquity of Man
	ANT 102	Society and Culture
Art:	ART 107	Survey of World Art: Prehistoric-Gothic
	ART 108	Survey of World Art: Renaissance Through the 20th Century
Economics:	ECN 201	Principles of Macroeconomics
	ECN 202	Principles of Microeconomics
English:	ENG 220	British Literature I
	ENG 221	British Literature II
Geography:	GEO 101	Physical Geography
	GEO 102	Cultural Geography
	GEO 121	World Regional Geography
History:	HIS 110	History of the United States 1607-1877
	HIS 111	History of the United States Since 1877
	POS 110	American National Government
	POS 230	World Politics
Humanities:		Any humanities elective course/no common core classes
Journalism & Media Arts:	COM 110	Public Speaking
	JRN 101	Introduction to Mass Communications
	JRN 102	Writing for Publications
Philosophy:	PHI 111	Introduction to Philosophy
	PHI 113	Introduction to Logic and Language
Political Science:	POS 110	American National Government
	POS 230	World Politics
Psychology:	PSY 101	Introduction to Psychology
	PSY 230	Personality Theories and Research

	PSY 250	Introduction to Psychological Research, Measurements and Statistics
	PSY 290	Experimental Psychology
Sociology:	SOC 101	Introduction to Sociology
	SOC 160	Ethnic Groups and Minorities
	SOC 210	Marriage and the Family
	SOC 202	Social Problems
	SOC 212	Women and Men in a Changing Society

ASSOCIATE OF ARTS DEGREES

Cochise College has the following associate of arts degrees. See the "Areas of Study" section of this catalog for complete degree programs. These degrees are designed for transfer to all Arizona public universities; however, not all Arizona public universities offer majors in each of these areas. Please consult with an advisor in the Student Development Center to ensure your chosen university offers a degree in your area of study.

ASSOCIATE OF GENERAL STUDIES DEGREE

General Requirements

The AGS degree is an option designed for students who do not plan to transfer

or who may be planning to attend an out-of-state university and want more flexibility in selecting courses. Choosing the AGS and fulfilling Arizona General Education Curriculum (AGEC) requirements will maintain an open door for attending an Arizona public university at a later time. The AGS degree is designed to be a general studies degree with no area of emphasis. Currently, two AGS degree programs contain unique general education requirements and state an area of emphasis: Professional Pilot Technology and Manufacturing Engineering.

- The AGS degree contains 64 credits.
- Students planning to attend an out-of-state university should work closely with an academic advisor in choosing their coursework. Whenever possible, working with the catalog of the out-of-state university provides the best transfer-planning tool for students.

General Education Requirements 35 Credits

 Communications (101 or above) 3-4
 General education elective(s) 3-4

- Six credits of arts, humanities, social and behavioral sciences and general education electives must be chosen from the intensive writing and critical inquiry course list.
- Students testing out of the information literacy requirement may choose an alternate course from the general education course list.
- Elective courses must be chosen from the general education course list or HPE 179.

Electives 29

- Elective courses may be selected from any Cochise College course above the 100 level.

TOTAL DEGREE REQUIREMENTS 64

- The AGS degree requires a cumulative GPA of 2.0 or higher.
- Composition and mathematics courses used to meet general education requirements must have a grade of C or better.
- A course may be used to fulfill both a general education requirement and an elective in the associate’s degree. Total credits toward a degree are not waived.
- A minimum of 16 credits must be completed at Cochise College.
- Courses in the arts, humanities, and social and behavioral sciences have content addressing ethnic/race/gender awareness, and contemporary global/international or historical awareness embedded in the coursework.

ASSOCIATE OF GENERAL STUDIES DEGREES

Cochise College has the following associate of general studies degrees. See the “Areas of Study” section of this catalog for complete degree programs:

- Intelligence Operations
- Professional Pilot Technology
- Manufacturing Engineering

DIRECT EMPLOYMENT PROGRAMS

These degree and certificate programs are recommended for students who wish to gain a depth of technical expertise in their career area. If you have a special interest in occupational programs you should seek an applied degree, associate of general studies or certificate tailored to individual careers. These programs also offer continuing skill education or retraining in a new career field.

Each course and program has been developed with the aid of business and industry advice to assure that learning is both current in content and high in quality. Upon successful completion of curriculum requirements you will receive an

associate of applied science degree or a certificate. The Career Services Center is available to graduates to assist you in finding positions in your area of specialization.

Some direct employment courses and programs may transfer to Arizona universities and other educational institutions depending upon your selection of a specific degree. However, if you intend to transfer to obtain a four-year degree, you must carefully select your courses to ensure transferability. For more information on specific transfer options, consult a Cochise College academic advisor or the university of interest.

In addition to two-year degrees and certificate programs of less than two years, the College offers a variety of short-term credit and non-credit courses on a scheduled and when-requested basis. Business, industry or other interested groups may obtain further information about these services from the Center for Professional Development on the Sierra Vista Campus.

ASSOCIATE OF APPLIED SCIENCE

The AAS degree is most commonly used to prepare students for employment in a specific career. Some Arizona universities have responded to the needs in particular technical fields by creating two-plus-two programs enabling a student with an AAS degree to transfer to a university without loss of time.

These degree programs may require lower-division general education courses in the junior and senior year. See an academic advisor for information about the bachelor of applied science degrees (BAS) at Arizona public universities.

*“the teachers
make you work
hard and
prepare you for
the university
level”*

Allison Manley

Location: Douglas Campus

Program: General studies

Goal: Transfer to the
pharmacy program of a four-
year institution.

Allison Manley could have gone to her hometown school — the University of Nevada, Las Vegas. After all, she graduated in the top 10 percent of her class from a “community college high school” where elective courses earned college credits. But soccer beckoned. So the freshman defender moved from the bustling lights of the city to the more secluded setting of Cochise College. Here, she works the concession stand at sporting events, avoids skipping class and always finishes her homework. Moving to rural Arizona has been good for her academics, she says. “The teachers make you work hard and prepare you for the university level. They care about the students and want to help in any way they can.”

Allison Manley

Areas of Study

Administration of Justice

The Associate of Arts (SR) in Administration of Justice is designed for students who are planning to transfer to a college or university. This program will prepare them to further their education in criminal justice. To ensure seamless transfer, students must develop their specific program of study in close coordination with a Cochise College advisor.

The Associate of Applied Science in Administration of Justice degree has been designed to prepare students to enter the work force as law enforcement officers. This program will give students all the education and skills necessary to become peace officers.

Agriculture

Cochise College's agricultural program specializes in animal husbandry. Agriculture students are encouraged to consider the associate of arts and associate of general studies degrees with specific agriculture coursework for transfer to colleges and universities; see an advisor for specific transfer information. The Associate of Applied Science in Agriculture is a flexible program intended to permit students to specialize in the agricultural field most closely related to their career choice or existing job requirements. It is not intended for transfer to a four-year institution but for direct application to the specific demands of the agricultural work environment.

Coursework required for completion of the Equine Science Certificate is typically designed for students who are interested in the handling and care of horses. A large portion of the required coursework may transfer as agriculture electives to most universities.

Art

The Art program at Cochise College has been designed with three goals in mind: (1) as a source of personal growth and self-expression, (2) to fulfill general education requirements for associate's or baccalaureate degrees, and (3) to successfully transfer credit to four-year institutions.

Cochise College offers two primary pathways for the transfer student pursuing a degree in art, the Associate of Arts, General Requirements (AA-GR) and the Associate of Arts, Special Requirements (AA-SR). Students seeking a specialized career in art should see an art instructor for advisement. To ensure seamless transfer, students must develop their specific program of study in close coordination with a Cochise College advisor.

Aviation

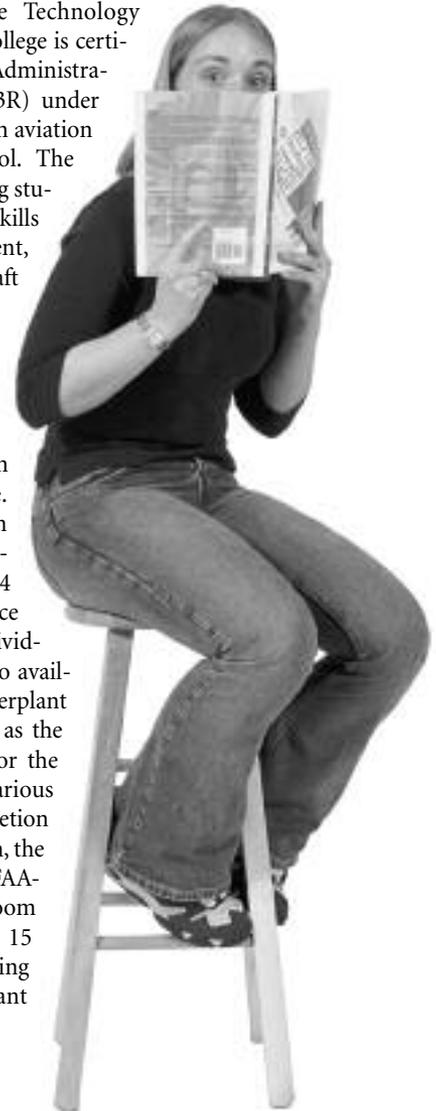

The Aviation Program at Cochise College offers Associate of Applied Science degrees in Aviation Maintenance Technology (airframe and powerplant mechanic), Professional Pilot Technology, and Avionics Technology (aircraft electronics). Certificate programs are also available in all three disciplines. The Associate of General Studies degree is offered in Professional Pilot Technology. These are direct employment programs, designed to prepare students for direct employment careers in the aviation industry, and the degree programs further provide the general education necessary to develop the knowledge, skills, and attitudes essential to lifelong learning and personal growth.

The aviation industry is growing at a rapid rate, offering Cochise College students excellent placement opportunities and the potential for advancement in all three program areas.

Aviation Maintenance Technology

The Aviation Maintenance Technology (AMT) program of Cochise College is certified by the Federal Aviation Administration (FAA certificate D09T093R) under Part 147 of the regulations as an aviation maintenance technician school. The program is dedicated to training students in the knowledge and skills required to become competent, qualified, and productive aircraft maintenance technicians.

The program is presented in five sections lasting a total of 15 months, with each section known as a “phase.” Phase 1 contains general information related to aviation maintenance. Phases 2 and 3 are information related to the airframe maintenance function, while Phases 4 and 5 deal with the maintenance of powerplants (engines). Individual certificate programs are also available for both airframe and powerplant sections of the course, as well as the complete program certificate or the degree program to meet the various needs of students. At the completion of all five phases of the program, the student will have received the FAA-required 1,936 hours of classroom and lab instructions (in 15 months) to fully qualify for testing as an airframe and powerplant mechanic.

AVIATION MAINTENANCE TECHNOLOGY

 Phase 5 Advanced Powerplant AMT 275. . . 17

Avionics Technology

The Avionics Technology program (AVT) of Cochise College prepares the student for Federal Communications Commission certification as an avionics technician. The program is dedicated to fully training students to meet the rapidly changing aircraft electronics environment required to become a competent, qualified, and productive avionics technician.

The program is divided into four sections lasting a total of 12 months, with each section known as a “Phase.” Phase 1 deals with basic electronic and avionics fundamentals. Phase 2 deals extensively with electronic devices and pulse/digital circuitry. Phases 3 and 4 deal with communications and communication devices, FCC and FAA regulations, navigation, flight management, and radar systems. A certificate program is offered as well as a degree program to meet the various needs of students. At the completion of all four phases, the student is eligible to take the FCC GROB certification test as well as other professional certifications.

Professional Pilot Technology

The Professional Pilot Technology (PFT) program of Cochise College is certified by the Federal Aviation Administration (FAA certificate HR8S200Q) under Part 141 of the regulations as a pilot school. The program is dedicated to training students in the knowledge, pilot skills, and ratings necessary to become competent, qualified, and productive professional pilots.

The program is presented in a traditional course and semester manner, allowing the completion of both the pilot courses and the courses required for an associate's degree. Two certificate programs, Professional Pilot Basic and Professional Pilot Advanced, are also offered to meet the various needs of students. All ratings are offered, and students may enter the program with or without prior flight training or certificates. Placement in the flight portion of the program for those with prior training will depend upon a skills

analysis when the student enters the program. The normal progression will lead from the Private Pilot Certificate to a fully FAA certified commercial pilot with instrument and multi-engine ratings. Flight instructor courses in Airplane-Single-engine, Airplane-Multi-engine, Instrument, and the Airline Transport Pilot Certificate are also available through the program.

Biology

The Associate of Science (SR) degree in Biology is designed for biology majors and many pre-professional students transferring to a four-year institution. Biology students will further specialize in the areas of interest (biology, botany, zoology, genetics, microbiology, wildlife biology, or others) upon transfer. The course requirements of many pre-professional programs (pre-agriculture, pre-dentistry, pre-medical, pre-pharmacy, pre-veterinary, and others) are included in this degree, making it the program of choice for many pre-professional students. To ensure seamless transfer, students must develop their specific program of study in close coordination with a Cochise College advisor.

TOTAL DEGREE REQUIREMENTS 64

*Students testing out of this requirement must choose general education elective credits.

**General education electives must be chosen from the general education list, see <http://xwing.cochise.edu/curriculum/gen-ed.html>.

***University non-English language requirements vary. Check with your advisor.

****Elective courses must be transferable to all Arizona public universities, see <http://az.transfer.org/cas>. The department recommends students see a university transfer guide for appropriate science major courses.

Business

The Associate of Business (GR) degree is intended for the student interested in pursuing a program of study leading to a major in business at a four-year school. It will prepare students for majors in management, marketing, or general business at a four-year school. This is a generalist degree that will not only prepare a student to transfer to Arizona State University, University of Arizona, or Northern Arizona University as a junior in the college of business but also prepare the student for direct employment. The 21st century will be characterized by the increasing importance of business to the local, national, and international economies, and students completing this program of study will be poised to take advantage of the opportunities offered in the dynamic business environment.

The Associate of Applied Science degree in Business Management is designed for direct employment in business

management and/or transfer to other universities accepting associate of applied science transfer degrees.

Business certificates are designed to improve skills and help prepare students for a career in a business field.

The Certified Public Manager (CPM) program is a nationally recognized program for achieving certification in public management. As part of a national consortium, CPM is designed to provide the public sector professional with analytical approaches and managerial skills that inspire ideas, empower people, and maximize use of resources.

The online International Business Certificate prepares students for careers and advancement in the international economy. This sequence of courses is delivered online with a focus on preparing students for careers in international business or to transfer to a four-year degree program in international business. Courses include introduction to international business, international management, international marketing, and international trade.

The Supervisory Management Certificate program emphasizes supervisory skills. This program provides the necessary skills to effectively meet the challenges and opportunities that public, private and non-profit sector supervisors/managers face in a rapidly changing workplace environment. Courses must be taken in the order presented.

BUSINESS ADMINISTRATION

CERTIFIED PUBLIC MANAGER

Certificate

Offered in partnership with Arizona State University.
 Program Prerequisites:

1. Successful completion of PAD 101-103 or an ASU-approved supervisory program within the last five years.
 OR
- Advanced entry requirements
1. Two-year degree from an accredited institution that includes nine credit hours (135 clock hours) in management development or training.
2. Specific training in performance appraisal, grievance, and EEO/affirmative action.
3. Supervisory experience and education total eight years.

Core Curriculum. Credits

Management in the Public Organization PAD 201. 4

Systems Approach to Public Management PAD 202 3

Case Studies in Decision Management. . PAD 203. 2

TOTAL CERTIFICATE REQUIREMENTS 9

Ethics and Management Simulation provided through Arizona State University (32 contact hours). Certified Public Manager Certificate awarded in annual graduation ceremony at Arizona State University. For more information, contact the Center for Professional Development.

Supervisory Management

The Supervisory Management Certificate program is designed to provide the knowledge and analytical skills necessary to effectively meet the challenges and opportunities facing supervisors and managers in the workplace. This program provides the skills necessary to manage resources and personnel in a rapidly changing work environment. Upon successful completion of program requirements, students will receive a certificate in supervisory management.

SUPERVISORY MANAGEMENT

Certificate

Program prerequisite: Sponsorship by a governmental agency or private/non-profit organization, a current supervisory or management position or potential for appointment to a supervisory/management position.

Core Curriculum 16 Credits

Introduction to Management Skills.	PAD 101/ MGT 101.	2
The Manager and System Relationships	PAD 102/ MGT 102.	2
The Manager and the Work Group	PAD 103/ MGT 103.	2
Composition*	ENG 101.	3
Mathematics*	Above 100 level.	3
Recommended electives*		5
Reading minimum of 11.5 grade level in accordance with standardized test scores.		

*Requirement waived for individuals holding an AA/AS degree or higher.

Recommended Electives:

Introduction to Sociology	SOC 101.	3
Introduction to Psychology	PSY 101.	3
Introduction to Data Processing.	CIS 120.	3
Computer Applications	CIS 181.	3
Principles of Macroeconomics	ECN 201.	3

Principles of Microeconomics.	ECN 202.	3
Financial Accounting	BUS 201.	3
Principles of Accounting	BUS 145.	3

Management

The Management Certificate program is designed to provide private and non-profit sector supervisors and managers with the knowledge and analytical skills necessary to effectively meet the challenges and opportunities facing today's and tomorrow's competitive organizations. Particular attention is paid to honing the leadership and resource management skills of supervisors and managers in the private and non-profit sectors who are not currently eligible for enrollment in the College's Certified Public Manager program. The focus of MGT 101-103 is managing resources. MGT 201-203 focuses on managing programs. Upon successful completion of the Management Certificate program, students will receive a joint Cochise College - American Management Association certificate in management.

MANAGEMENT PROGRAM

Certificate

Prerequisite: Students must have the written sponsorship of a private or non-profit employer or approval of the coordinator of the Cochise College Center for Professional Development (CPD) prior to enrollment in the program. Students may gain advanced entry into MGT 201 upon completion of the Supervisory Management program (or an equivalent training program), or upon completion of a two-year college degree, which includes six credit hours (or 90 clock hours of training) in management, to include performance evaluation, affirmative action and related topics.

Core Curriculum	21 Credits
Introduction to Management Skills.	MGT 101 or PAD 101. 2
The Manager and System Relationships.	MGT 102 or PAD 102. 2
The Manager and the Work Group.	MGT 103 or PAD 103. 2

Computer Information Systems/Computer Science

The Computer Information Systems and Computer Science degrees are designed to prepare students for transfer to four-year colleges and universities. The curriculum provides the foundation for many careers, such as: applications programmer, systems programmer, aerospace or engineering programmer, computer engineer and database administrator.

The Associate of Business (SR) in Computer Information Systems is designed to prepare students for direct transfer to four-year institutions. Information technology is one of the fastest growing career fields in the world. The curriculum provides the foundation for the following rewarding careers: applications programmer, systems programmer, and database administrator.

To satisfy degree and certificate requirements for all CIS/CS programs, all courses require a grade of C or better.

The various certificate programs can prepare students for direct employment and/or improved skills in rewarding, technology-related careers. To ensure seamless transfer, students must develop their specific program of study in close coordination with a Cochise College advisor.

The Associate of Applied Science degree in Network Technology is designed to provide the student knowledge and skills for immediate employment in the field of computer networking. The student chooses an area of emphasis from among available network operating systems.

Microsoft Emphasis 19

(**prerequisites apply)

- Microsoft Business Desktop Computer Operating Systems CIS 236 4
- Advanced Microsoft Network Management CIS 237** 4
- TCP/IP CIS 238** 3
- Advanced Microsoft Server CIS 240** 4
- Intro to Microsoft Directory Services CIS 241** 4

UNIX Emphasis 20

- UNIX Operating System CIS 128 4
- Programming Prerequisite CIS 129 1
- Perl Scripting CIS 248 3
- UNIX Shell Programming CIS 257 4
- UNIX System Administration CIS 229 4
- SELECT ONE:
- Introduction to Novell Networks CIS 234 4
- Microsoft Business Desktop Computer Operating Systems CIS 236 4

TOTAL DEGREE REQUIREMENTS 64-65

*Any networking class not used in the degree tracks, including: CIS 128, CIS 229, CIS 234, CIS 235, CIS 236, CIS 237. Additionally, any of the following may be used: CIS 130, CIS 160, CIS 185, CIS 204, CIS 208, CIS 218, CIS 227, CIS 238, CIS 239, CIS 242, CIS 248, CIS 250, CIS 257, CIS 270, CIS 281, CIS 287.

NETWORK SUPPORT

Certificate

The Network Support Certificate shown below is designed to provide the student with the fundamentals of network administration to include PC operation, connectivity, network functions and communications.

Core Curriculum 36 Credits

- Introduction to Operating Systems CIS 140. 3
- Essentials of Networking CIS 150. 3
- Digital Communication and Network CIS 232. 3

Complete Two Tracks : 16

- TRACK 1**
- Introduction to Novell Networks CIS 234. 4
- Novell Network Management CIS 235. 4

- TRACK 2**
- Microsoft Business Desktop
Computer Operating Systems CIS 236. 4
- Advanced Microsoft Network
Management CIS 237. 4

- TRACK 3**
- UNIX Operating Systems CIS 128
- UNIX Shell Programming CIS 257

- Service & Maintenance of
Personal Computers CIS 260. 3
- Network Support and Troubleshooting CIS 262. 4
- Field Experience CIS 294. 1
- Intermediate Algebra MAT 122 or higher. 3

PC MAINTENANCE AND REPAIR

Certificate

Core Curriculum 16 Credits

- Introduction to Operating Systems CIS 140. 3
- Essentials of Networking CIS 150. 3
- Introduction to the Internet CIS 185. 3
- Service and Maintenance of PCs CIS 260. 4
- Field Experience CIS 294. 3

UNIX SYSTEM ADMINISTRATOR

Certificate

The UNIX Certificate course of study is designed to provide the student with basic UNIX operating system skills as they apply to users, shell programming and system administration. The UNIX Operations and Field Experience courses give the student opportunities to apply these skills to operational UNIX operating systems at the college or in the workplace.

- Deficiency; Introduction to Programming Logic
(or completion of waiver exam) CIS 129. 1

Core Curriculum 15 Credits

- UNIX Operating System CIS 128. 4
- UNIX System Administration CIS 229. 4
- Perl Scripting CIS 248. 3
- UNIX Shell Programming CIS 257. 4

WEB DEVELOPER CERTIFICATE

Certificate

Operating System Foundation. 27 Credits

- Choose one path
- WINDOWS PATH**
- Microsoft Business Desktop Computer
Operating Systems CIS 236. 4
- AND Advanced Microsoft Network
Management CIS 237. 4
- OR
- UNIX PATH**
- Unix Operating System CIS 128. 4
- AND Unix Shell Programming CIS 257. 4

Programming Foundation

- Introduction to Programming Logic CIS 129. 1

Communication Foundation

- Applied Technical Writing CIS 179. 3

World Wide Web Foundation
 Introduction to the Internet CIS 185 3
 WWW Programming CIS 242 3
 World Wide Graphics CIS 244 3
 Perl Scripting CIS 248 3
 World Wide Web Development CIS 287 3

Culinary Arts

The Associate of Applied Science degree in Culinary Arts provides training in the culinary arts for direct employment in the field of professional cooking as an assistant to the chef, or food and beverage director. The degree provides general education and allows elective study in general business and hotel administration.

The Chef de Cuisine Certificate trains students to start a career as a prep-cook or assistant cook. It provides grounding in the principles of professional cooking, restaurant sanitation, and food and beverage control.

The Chef Garde-Manger Certificate provides training in all areas of professional garde manger (cold-food preparation), as well as in food and beverage control and restaurant sanitation. This certificate is intended for those already trained in professional cooking who wish to progress into the garde manger area.

The Chef Patissier Certificate provides training in the principles of professional baking, food and beverage control, and restaurant sanitation. It is intended for those students with a background in cooking who wish to progress as an assistant baker and work in a bakery.

The Sous Chef Certificate provides training in all areas of professional cooking, including food and beverage control, restaurant sanitation, meat cutting, gourmet preparations, baking and garde manger and an introduction to restaurant operations and dining service operations. The certificate is intended to prepare the student for a management position in kitchens and restaurants as a professional chef.

CULINARY ARTS

Associate of Applied Science

General Education Requirements 18 Credits
 Composition ENG 101 3
 English composition ENG 102 3
 Business math BUS 104

Food Service Management HAD 240. 3

Dining Service Management HAD 242. 1

Advanced Techniques in Gourmet Food Preparation HAD 280. 3

Drafting and Design

The Associate of Applied Science degree in Drafting and Design is intended to prepare students for entry- and mid-level employment in drafting-related careers. Career opportunities include: computer-aided drafter, designer, and engineering assistant. Special emphasis is placed on the employment skills necessary in high-tech industries, such as manufacturing and aerospace. This program is also popular with professionals wishing to update their skills in computer-aided drafting and product design.

The Drafting and Design Certificate is intended to prepare students for entry-level positions in various areas of drafting and design. Students are introduced to traditional and computer-aided drafting techniques, including theory and practice useful in many drafting and technical jobs. Product design is also included in order to familiarize the students with common industry problems.

The General Computer-Aided Drafting Certificate provides students with entry-level drafting skills.

DRAFTING AND DESIGN

Associate of Applied Science

Economics

The Associate of Arts (SR) degree in Economics is intended for students interested in pursuing a program of study leading to a major in economics from a four-year school. The program of study is parallel to that of the ABUS and will prepare economics students for junior standing at Arizona public universities. The 21st century will be characterized by increasing complexity and interdependency, and a concentration in economics will provide a sound foundation for students seeking academic advancement or employment.

To ensure seamless transfer, students must develop their specific program of study in close coordination with a Cochise College advisor.

ECONOMICS

Associate of Arts, Special Requirements

Emphasis in Economics

General Education Requirements (AGEC-A) ...	35 Credits
Composition	ENG 101..... 3
English composition	ENG 102..... 3
Mathematics	MAT 142 or higher... 3-5
Laboratory science	8
Arts	3
Humanities	3
Social and behavioral sciences	6
Information literacy*	CIS 116 or CIS 120..... 3
General education elective**	1-3

Six credits of arts/humanities/social and behavioral sciences must be intensive writing/critical inquiry courses, see <http://xwing.cochise.edu/curriculum/gen-ed.html>.

Language Requirement*** 0-16

Non-English language
 Second- and fourth-semester proficiency

Common Courses 12

Calculus for Business.....	MAT 212..... 3
Business Statistics	BUS 219
OR Elements of Statistics	MAT 167..... 3
Principles of Macroeconomics	ECN 201..... 3
Principles of Microeconomics.....	ECN 202..... 3
Electives (as needed to complete 64 credits)****	

TOTAL DEGREE REQUIREMENTS 64

*Students testing out of this requirement must choose general education elective credits.

**General education electives must be chosen from the general education list, see <http://xwing.cochise.edu/curriculum/gen-ed.html>.

***University non-English language requirements vary. Check with your advisor.

****Elective courses must be transferable to all Arizona public universities, see <http://az.transfer.org/cas>.

Education

Education is one of the nation's fastest growing career fields. Students are reminded that education is an upper-level major in Arizona's public universities and that admission is increasingly competitive and is dependent upon a variety of factors, such as grade point average and pre-professional experience. It is therefore imperative that students plan their course of study with the assistance of an academic advisor.

The Pre-elementary Education associate of arts degree meets all curricular requirements for junior standing in the college of education at all Arizona state universities. In addition to providing a seamless transfer pathway, the Pre-elementary Education associate's degree gives the student the practical and theoretical basis necessary for making an informed choice of education as a career, a career which promises almost unlimited employment opportunities.

Students are reminded that successful completion of the Pre-elementary Education associate's degree does not guarantee admission to a university college of education. Additional criteria, such as grade point average, community service, leadership activities and prior classroom experience (e.g. volunteer tutoring), may also be used by a college of education in making admission decisions.

The Teacher Aide certificate program is a progressive course of study designed in close coordination with public school administrators. The program provides students with the academic and interpersonal skills needed to be effective teacher aides and valued members of a public school instructional team. Many of the courses are also required as a part of the first two years of a baccalaureate degree in elementary or secondary education.

ELEMENTARY EDUCATION

Associate of Arts, Special Requirements Emphasis in Pre-Elementary Education

General Education Requirements (AGEC-A) . . .	35 Credits
Composition	ENG 101 3
English composition	ENG 102 3

Mathematics	MAT 142 or higher . . .	3-5

Electives (as needed to complete 64 credits)****	
Intro to Internship in Public Education EDU 202	2

TOTAL DEGREE REQUIREMENTS 64

*Students testing out of this requirement must choose three additional general education elective credits, see URL below.
 **These elective credits must be chosen from the general education list, see <http://xwing.cochise.edu/curriculum/gen-ed.html>.
 ***University non-English language requirements vary. Check with your advisor.
 ****Elective courses must be transferable to all Arizona public universities, see <http://az.transfer.org/cas>. The education department recommends the following electives: MAT 151 or higher; life science or physical science w/lab; COM 110 or COM 102; ECN 201 or ECN 202; art, music, dance, or theatre; GEO 102 or GEO 121; SOC 101 or PSY 101.

TEACHER AIDE

Teacher Aide I Certificate

Core Curriculum 23-26 Credits

Composition ENG 101 3

Any other English writing class at the 100 or 200 level . 3

Mathematics 100 level or above 3

Information literacy CIS 116 or above 3

Introduction to Sociology SOC 101 3

Introduction to Psychology PSY 101 3

Spanish literacy*

Any four-credit Spanish course at the 100 or 200 level . 4

Internship EDU 224 . . . 1-4

*For additional foreign language literacy options of 3-4 credits - see advisor.

Teacher Aide II Certificate

Prerequisite: Successful completion of Teacher Aide I Certificate.

Core Curriculum 13 Credits

Developmental Psychology PSY 240 3

Ethnic Groups and Minorities SOC 160 3

Spanish literacy* 4

Any four-credit Spanish course at the 100 or 200 level not used in Teacher Aide I.

Speech OAD 268, COM 102, or COM 110 3

Electives:

Health and physical education 5-6
(Two courses selected from the following)

HPE 186, 189, 180,185, 190, 192, 193, 194, 195, 197

OR

Art 6

(Two courses selected from the following)

ART 120, and one of the following:

ART 103, 106, 107, 108

*For additional foreign language literacy options of three to four credits, see an advisor.

Social sciences 6

(Two courses selected from the following) history, anthropology, sociology, psychology, administration of justice (101, 130), counseling, political science (220), social services

OR

Physical and biological sciences 8

(Two courses selected from the following) biology, astronomy, chemistry, physics, geology

Internship EDU 224 . . . 1-4

TOTAL CERTIFICATE REQUIREMENTS 25-31

Secondary Education

Secondary Education majors are encouraged to complete the Associate of Arts, Special Requirements. To ensure seamless transfer, students must develop their specific program of study in close coordination with a Cochise College advisor.

Introduction to Special Education	EDU 222	
OR Cultural Diversity in Education	EDU 226	3

Electives (as needed to complete 64 credits)****

TOTAL DEGREE REQUIREMENTS 64

*Students testing out of this requirement must choose general education elective credits.

**General education electives must be chosen from the general education list, see <http://xwing.cochise.edu/curriculum/gen-ed.html>.

***University non-English language requirements vary. Check with your advisor.

****Elective courses must be transferable to all Arizona public universities, see <http://az.transfer.org/cas/>. The Language Department recommends the following electives: LIN 101, SPA 224, SPA 225.

Electronics

The Associate of Applied Science in Electronics prepares students for employment in general electronics. Completion of the common core curriculum allows the student to obtain competencies in electricity, digital and analog devices and circuits, measurements, electronic communications, microprocessors and microcomputers. Courses include designing and experimenting with electromechanical systems and team problem solving.

ELECTRONICS TECHNOLOGY

Associate of Applied Science

General Education Requirements 18-19 Credits

Composition	ENG 101	3
Mathematics	ELT 110 or MAT 122	3
Mathematics	ELT 120 or MAT 151	3-4
Arts and humanities and/or social and behavioral sciences		3
General education electives		6

Core Curriculum 45-46 Credits

Introduction to DC Circuits	ELT 105	3
Introduction to AC Circuits	ELT 106	4
Semiconductors & Transistors	ELT 122	4
Electronic Circuits & Systems	ELT 125	4
Pulse Circuits	ELT 231	4
Digital Circuits & Systems	ELT 233	4
Modern Electronic Devices	ELT 243	4
Communications Electronics I	ELT 245	4
Communications Electronics II	ELT 247	4
Microprocessors & Microcomputers	ELT 265	4
Electives		6-7

TOTAL DEGREE REQUIREMENTS 64

English

The Associate of Arts (SR) degree in English is designed to provide the English major with a strong foundation in written communication, literature and general education, enabling transfer with junior standing to all Arizona public universities and virtually all others. To ensure seamless transfer, students must develop their specific program of study in close coordination with a Cochise College advisor.

Six credits of arts/humanities/social and behavioral sciences/general education electives must be intensive writing/critical inquiry courses, see <http://xwing.cochise.edu/curriculum/gen-ed.html>.

Language Requirement***

Non-English language
Fourth-semester proficiency

Common Courses

British Literature I	ENG 220.....	3
British Literature II	ENG 221.....	3

Electives (as needed to complete 64 credits)****

TOTAL DEGREE REQUIREMENTS 64

*Students testing out of this requirement must choose general education elective credits.

**General education electives must be chosen from the general education list, see <http://xwing.cochise.edu/curriculum/gen-ed.html>.

***University non-English language requirements vary. Check with your advisor.

****Elective courses must be transferable to all Arizona public universities, see <http://az.transfer.org/cas>. The English Department recommends the following electives: ENG 224, ENG 225, or any 200-level course that transfers to all Arizona public universities.

English as a Second Language

Three complete programs are offered on the Douglas campus in English as a Second Language: the intensive day-time program (for students who plan to go into regular academic or vocational programs after completing ESL); the evening program for English for Professionals, (which focuses on communication skills for business or professional purposes); and the Summer Immersion Program.

ESL programs develop speaking, listening, reading and writing skills. The programs are designed to help students develop their proficiency in English. Audio-visual materials, computer-assisted learning, and other learning opportunities, including field trips, guest lectures, and cultural activities, enhance classroom instruction. Through the International Club, Douglas students have the opportunity to participate in sightseeing, cultural and social events. For further information about admissions to any of the programs, contact the Admissions Office.

The Workplace English Certificate program provides students with opportunities to increase communicative competence in English through practical application of frequently used technical workplace language, preparing them for employment or advancement in a work environment in which English is essential.

WORKPLACE ENGLISH

Certificate

Core Curriculum	22 Credits
Workplace English I	ESL 001..... 3
taken concurrently with	COM/ESL 091..... 1
Workplace English II	ESL 002..... 3
taken concurrently with	ENG/GTC 092..... 1

****Elective courses must be transferable to all Arizona public universities, see <http://az.transfer.org/cas>. The Humanities Department recommends the following electives: ART 107, ART 108, ENG 220, ENG 221, HUM 101, HUM 104, HUM 110, HUM 115, HUM 167.

International Communications

The International Communications Certificate is a program of study to prepare students in the use of Spanish and English for business purposes. This certificate develops culturally appropriate problem-solving and planning skills in both languages and utilizes accurate and effective communication in the cultures of both the United States and Mexico. Course content is geared toward the development of practical, employment-related language and cultural proficiencies.

INTERNATIONAL COMMUNICATIONS

Certificate

General Education Requirements:

Completion of the following courses with a grade of C or better or equivalent proficiency demonstrated by placement tests: ENG 101/107, SPA 202, BUS 104 or MAT 072, OAD 103, and RDG 021.

Core Curriculum	21 Credits
Humanities in Contemporary Life	HUM 101
OR The Modern World	HUM 207 3
Heritage from Mexico	HUM 104 3
Cultural Values in the Borderlands Workplace	HUM 167 3
Spanish Business Communications	SPA 267 3
Business Communications	ENG/BUS/OAD 167 3
Effective Messages	LIN 180
OR Fundamentals of Translation & Interpretation	SPA 290 3
Word Processing	OAD 213 (or more advanced) 3

Intelligence Operations

The Intelligence Operations degrees are designed for personnel interested in associate's degree programs that meet career and educational goals.

The Associate of Arts, Intelligence Operations (AA, IO) is designed for transfer to universities outside the state of Arizona with majors in the areas of strategic intelligence and intelligence operations. This degree also transfers to private universities within the state of Arizona. Students seeking to transfer to Arizona public universities should contact a university counselor prior to taking any Intelligence Operations courses.

The Associate of Arts, Special Requirements, Intelligence Operations (AA, SR, IO) is designed for students seeking to transfer to bachelor's degree programs in the areas of history, political science, sociology, intelligence operations, and/or who have not yet identified a university degree major. Students seeking to transfer to Arizona public universities should consult a university counselor prior to taking any Intelligence Operations courses.

The Associate of Applied Science in Intelligence Operations (AAS, IO) is most commonly used to prepare students for employment in a specific career. This degree is intended for students who are currently employed in their field of specialty.

The Associate of General Studies, Intelligence Operations (AGS, IO) is designed for students who may not plan to transfer at this time or who may be planning to attend an in-state private university or out-of-state university and want more flexibility in selecting courses. Choosing the AGS and fulfilling the Arizona general education curriculum (AGEC) requirements will maintain an open door for attending an Arizona public university at a later time.

Credit toward the following degrees will be based on your skill level and training and/or military schools attended. See your Cochise College advisor for details.

TOTAL DEGREE REQUIREMENTS 64

*Students testing out of this requirement must choose general education elective credits.

**General education electives must be chosen from the general education list, see <http://xwing.cochise.edu/curriculum/gen-ed.html>.

****Elective courses must be transferable to all Arizona public universities, see <http://az.transfer.org/cas>.

MEDIA COMMUNICATIONS

Associate of Applied Science

Prerequisite: Permission of program advisor and the following proficiencies: OAD 101 and 213 or equivalent proficiency in word processing, ENG 100 with grade of C or better or equivalent proficiency, COM 100 with grade of C or better or equivalent proficiency.

General Education Requirements	34 Credits
Composition	ENG 101 3
Written Communications & Reports . . .	ENG 109 3
Mathematics . . .	MAT 122 or BUS 104 and above 3
Arts and humanities or social and behavioral sciences .	3
General education electives	22
Reading competency	
Must include: COM 102, COM 110, ECN 201, GEO 101, HIS 142 or HUM 207, HUM 101, and PHI 130 or BUS 150.	

Core Curriculum	30 Credits
Introduction to Mass Communication	MED/JRN 101 3
Writing for Publications	MED/JRN 102 3
Student Newspaper	MED/JRN 201 3
Introduction to Desktop Publishing	MED/JRN 207 or CIS 285 3
Advanced Desktop Publishing	CIS 286 3
Field Experience	JRN 224 3
Literary Magazine Productions	JRN 257 3
Electives*	9

TOTAL DEGREE REQUIREMENTS 64

*Electives in ART, CIS, COM, ELT, MED, as agreed upon with program advisor, to complete a minimum of 64 credits for the AAS degree. Higher-level classes will be substituted for students who have demonstrated proficiency in specific areas. Tech Prep students should consult with the program advisor about their placement.

PRINT MEDIA ARTS

Certificate

Prerequisite: Permission of program advisor. Students must demonstrate essential proficiencies in English (both writing and speaking), computer keyboarding and mathematics fulfilling the following requirements: ENG 101, BUS 104, OAD 101, OAD 213, and COM 102 (placement/testing available to demonstrate proficiency).

Core Curriculum	33 Credits
Students will complete the program by completing the following courses with a grade of C or better.	
Introduction to Mass Communications	MED/JRN 101 3
Introduction to Desktop Publishing	MED/JRN 207/CIS 285 3
Computer Illustration and Design	MED 209 3
Writing for Publications	JRN 102 3
Elective	3
Field Experience	JRN 224 3
News Reporting, JRN 103, recommended. Those interested in graphic design are encouraged to take ART 103 and ART 265.	

Language

The Associate of Arts (SR) in Language is designed to provide students with the linguistic foundation in written and spoken language and the lower-division general education coursework necessary for seamless transfer with junior standing to all Arizona universities and virtually all others. To ensure seamless transfer, students must develop their specific program of study in close coordination with a Cochise College advisor. See Spanish Immersion program (summer) and Workplace Spanish for language certificate offerings.

LANGUAGE

Associate of Arts, Special Requirements

****Elective courses must be transferable to all Arizona public universities, see <http://az.transfer.org/cas/>. The Math Department recommends the following electives: Programming, MAT 188, and/or Non-English language. Chemistry and physics are recommended for the AGECE and/or common course areas.

Motor Transport Technology

The Motor Transport Technology Certificate prepares students for direct employment in the trucking industry. Students earn a commercial driver's license (CDL) and complete coursework in handling hazardous materials, loading freight, and preparing required documents. They also acquire extensive driving experience under a variety of conditions. Professional truckers are in high demand, with many rewarding career opportunities.

MOTOR TRANSPORT TECHNOLOGY

Certificate

Nursing

ASSOCIATE DEGREE NURSE

ASSOCIATE OF APPLIED SCIENCE

General Education Requirements

See AAS degree general education minimum requirements in the “Degrees and Programs” section.

Minimum general education credit hours. 18

Also offered as part of a ladder program:

Nursing Assistant - certificate

Practical Nurse - certificate

Cochise College offers an associate-degree nursing program that is accredited by the National League for Nursing Accrediting Commission (NLNAC) and certified by the Arizona State Board of Nursing. The program prepares men and women to take the National Certification Licensing Exam for Registered Nurse.

Entry into the nursing program requires prior admission. Advanced placement for licensed practical nurses or for those with prior nursing education is available (certain requirements must be met). For admission procedures to the nursing program, contact the Nursing Department, (520) 417-4016.

Since nursing is both an art and a science, students learn therapeutic communication and critical thinking skills, as well as technical nursing skills. Collaborative teaching/learning takes place in the classroom and learning laboratory and

in clinical settings such as hospitals, long-term care, assistive living and rehabilitation facilities, clinics, and community settings and agencies.

The program is based on the ladder concept that permits students to enter or exit from the program based on their specific needs, space availability, and time limitations.

CNA. The first-semester student learns to care for sub-acutely ill patients and to work as a member of the health care team. A student who successfully completes the first semester may take the Arizona State Board of Nursing Certification Test to become a certified nursing assistant (CNA).

LPN. The second-semester student learns to care for acutely ill patients under the supervision of a registered nurse. Practical nurses give basic nursing care and assist other members of the health-care team. A student who successfully completes the first and second semesters may take the National Certification Licensing Exam as a practical nurse - NCLEX-PN.

RN (associate-degree nurse). The third- and fourth-semester student learns to give nursing care to individuals with acute and chronic health problems. Registered nurses function as members of the health-care team in hospitals and community settings. A student who successfully completes the third and fourth semesters may take the National Certification Licensing Exam as a registered nurse - NCLEX-RN.

FRESHMAN

First semester 16 Credits
 Human Anatomy & Physiology I BIO 201 4
 Composition ENG 101 3
 Medication Math NUR 121 1
 Nursing I NUR 122 8

Second semester 17 Credits
 Human Anatomy & Physiology II BIO 202 4
 Introduction to Psychology PSY 101 3
 Nursing II NUR 123 10
 Student is eligible to take the National Certification
 Licensing Exam to become licensed by the State Board of
 Nursing as a practical nurse.

SOPHOMORE

Third semester 19 Credits
 Microbiology BIO 205 4
 Society & Culture ANT 102
 OR Introduction to Sociology SOC 101 3
 Controlled Elective 3
 Nursing III NUR 232 9

Fourth semester 16 Credits
 Fundamental Chemistry CHM 130
 OR General Chemistry I CHM 151 4
 English Composition ENG 102 3
 Nursing IV NUR 233 9

TOTAL DEGREE REQUIREMENTS 68

The student is eligible to apply to take the National Certification Licensing Exam to become licensed by the State Board of Nursing as a registered nurse.

Acceptance into the nursing program does not guarantee successful completion of the program. Attendance at classes and clinicals, which means travel to both campuses and clinical locations throughout Cochise County is required. Experience in multiple clinical agencies is essential for completion of the program. Any possible legal impediment to licensure must be made known to the Nursing Department prior to assignment to a clinical agency. Acceptance into the program and/or successful completion of the program does not guarantee a certificate or license will be granted by the Arizona State Board of Nursing or any other State Board of Nursing at the nursing assistant, practical nurse, or registered nurse levels.

Community Health Advisor

The Community Health Advisor Certificate course of study is designed to prepare the student for direct employment as a community health advisor. CHAs serve as links between rural, medically underserved communities and the health care system. They provide outreach health prevention, advocacy, education and referral services within prescribed neighborhoods. Students must be available to complete 320 clock hours for the field work course. Placements are generally made within the student's home community. Admission is open to any interested high school or GED graduate or students 18 years or age or older. Students must complete health screening and provide proof of immunization. Students are encouraged to meet with a program advisor before enrolling in the CHA course.

COMMUNITY HEALTH ADVISOR

Certificate

Core Curriculum 16 Credits

Introduction to Community Health Advisor*	HLT 120	3
First Aid and CPR*	HPE 188	1
Community Health Advisor Practicum	HLT 121	6
Introduction to Social Work	SOC 207	3
Communication elective (to be approved by an advisor)		3
Reading, writing, speech, computer skills, English as a second language, conversational Spanish or Border Health Issues (HLT 219)		

*HLT 120 and HPE 188 are prerequisites to HLT 121.

Medical Assistant Program

The Medical Assistant-Back Office Certificate is designed to prepare the student for direct employment in a medical practice setting. Each course within the certificate program is designed to build the foundation skills necessary to interact with health care clients and attend to their health care needs. The laboratory and externship courses are designed to give the student the opportunity to apply his/her knowledge while performing hands-on procedures in a medical practice setting.

Medical Assistant Clinical Practicum	HLT 201	4

Paramedicine

The Associate of Applied Science degree in Paramedicine prepares students to practice pre-hospital emergency medicine for fire departments, ambulance services, and hospital emergency units. This program offers coursework to help prepare students for nursing programs.

The program, certified by the Arizona Department of Health Services, Division of Emergency Medical Services, prepares individuals for a vocational career as a nationally registered paramedic. Graduates are eligible to work in fire and rescue operations, ambulance services, and hospital settings.

The Cochise College Paramedicine Certificate is awarded only to those students who have successfully completed the required Cochise College coursework and who have been certified as Paramedics through the Arizona Department of Health Services.

Students wishing certification also must complete the state-mandated hours of clinical experience in the following clinical areas: hospital emergency room, intensive care, pediatrics, labor and delivery and newborn nursery. Travel to the approved clinical sites is required of the student. In addition, the student must complete 150 hours of ambulance “ride time” under the supervision of a qualified preceptor.

Prerequisite:

- Minimum of one year working with ambulance/fire or rescue organizations as an EMT.
- Ability to read at the 10th grade level or above.
- Good physical condition.
- Negative TB test or chest x-ray within six months of class start date.
- Immunity against rubella and rubeola as proven by immunization record or titer.

Applicant Screening Process: Prior to enrollment in the Paramedicine Certificate program, all students must pass

written and practical exams as outlined by the Arizona Department of Health/Department of Emergency Medical Services (ADHS/EMS). A required oral interview is also used in determining admission to the program. The testing and interview process will normally take place the month before class start date.

PARAMEDICINE

Professional Administrative Assistant

The Associate of Applied Science degree in Professional Administrative Assistant prepares students for direct employment as administrative assistants and executive secretaries. The program provides graduates with a broad foundation of knowledge and skills needed for employment in business, industry, government, law and medical offices, and public and private agencies.

The Computerized Office Applications Certificate prepares students to utilize computer applications software in today's technologically oriented workplace. The courses provide skill training in data entry, operating systems, word processing, spreadsheets, database, and presentation software.

The Office Assistant Certificate adds to the skill level of those students wishing to work in a modern office. Students learn to develop interpersonal skills, producing advanced computer applications, manage records, and use essential accounting procedures.

The Receptionist Certificate prepares students to perform entry-level tasks involving telephone, customer service, word processing, document preparation, business math, and English skills.

The Medical Transcriptionist Certificate prepares students for entry-level positions as a medical transcriptionist.

PROFESSIONAL ADMINISTRATIVE ASSISTANT

Associate of Applied Science

AREAS OF SPECIALIZATION: Consult with a division advisor before starting this program or selecting a specialization.

Executive secretarial, microcomputer specialist, accounting assistant, management support, general administration, or medical transcriptionist.

Program prerequisites: Computer keyboarding or demonstrated keyboarding skill, basic reading, math and writing proficiency.

Challenge note: Up to 30 credits of coursework are available for challenge for students with work experience and/or prior non-transferable training. See a division advisor for further information.

Graduation requirement: To satisfy graduation requirements for this degree, all courses require a grade of C or better.

General Education Requirements 39 Credits

- Communications. BUS 167, BUS 179,
CIS 279, ENG 101, ENG 102. 6
- Mathematics. BUS 104 or MAT 122 or above. 3
- Information literacy CIS 116 or CIS 120. 3

Electives*		0-6

*BIO 160, OAD 211, OAD 293 and other 200-level OAD advisor-approved courses.

Certificate competency statements:

The student outcome competencies (college outcomes and program outcomes) are shown in matrix form for all OAD courses in this certificate and are filed in the division office. Course student outcomes are included in each course outline. Performance measures are included in each course procedure sheet.

OFFICE ASSISTANT

Certificate

Certificate prerequisites: Computer keyboarding, OAD 101, or demonstrated keyboarding skill, basic math, reading, and writing proficiency.

Challenge note: Up to 30 credits of coursework are available for challenge for students with work experience and/or prior non-transferable training. See a division advisor for further information.

Core Curriculum	30 Credits
Business Communications.. OAD/BUS/ENG 167.....	3
Business Math	OAD/BUS 104
OR Introduction to Accounting	BUS 146..... 3
Job Success Skills.....	BUS 160
OR Business Etiquette.....	OAD 150..... 3
Technical Presentations.....	OAD 268..... 3
Document Formatting	OAD 102
OR Advanced Document Formatting ..	OAD 201..... 3
Word Processing.....	OAD 213
OR Advanced Word Processing	OAD 213..... 3
Records Management	OAD 206..... 3
Automated Office Procedures.....	OAD 210..... 3
Computerized Office Management	OAD 216..... 3
Electives*.....	3

*Any OAD, CIS or BUS course not used in the certificate, except OAD 101, CIS 101, or CIS 114. Elective course content cannot duplicate required course content for the certificate. Field experience course is recommended.

RECEPTIONIST

Certificate

Core Curriculum	18 Credits
Learning to Use the Personal Computer .	CIS 116..... 3
Document Formatting	OAD 102
OR Advanced Document Formatting ..	OAD 201..... 3
Business English or	OAD 111
OR Business Communications.....	OAD 167..... 3

OR Intro to Accounting	BUS 146..... 3
Business Etiquette	OAD 150
OR Job Success Skills	BUS 160..... 3
Electives*.....	3

*Any OAD, CIS or BUS course not used in the certificate, except CIS 101 and CIS 114. Elective course content cannot duplicate required course content for the certificate. Field experience course is recommended.

Psychology

The Associate of Arts (SR) degree in Psychology is designed for students who wish to pursue a baccalaureate degree in psychology at a university. University specialty areas include chemical/counseling, developmental, school/educational, forensic, social, industrial/organizational, sport, psychological and psychometry. Psychology coursework is beneficial for students interested in education, medicine, law, social work, business, or any of the human service fields especially mental health, nursing, child care and criminal justice. This degree does not directly lead to employment in psychology, and career opportunities often require a graduate degree. To ensure seamless transfer, students must develop their specific program of study in close coordination with a Cochise College advisor.

PSYCHOLOGY

**Associate of Arts, Special Requirements
Emphasis in Psychology**

General Education Requirements (AGEC-A) ... 35 Credits

- Composition ENG 101..... 3
- English Composition ENG 102..... 3
- Mathematics MAT 142 or higher ... 3-5
- Laboratory science 8
- Arts 3
- Humanities 3
- Social and behavioral sciences 6
- Information literacy* CIS 116 or CIS 120..... 3
- General education elective** 1-3

Six credits of arts/humanities/social and behavioral sciences/general education electives must be intensive writing/critical inquiry courses, see <http://xwing.cochise.edu/curriculum/gen-ed.html>.

Language Requirement*** 0-16
Non-English language
Second- or fourth-semester proficiency

- Common Courses** 13
- Introduction to Psychology PSY 101..... 3
 - Introduction to Psychological Research, Measurements and Statistics..... PSY 250..... 3
 - Experimental Psychology PSY 290..... 4
 - Select one of the following:
 - Social Psychology..... PSY 210..... 3
 - Personality Theories and Research..... PSY 230..... 3
 - Developmental Psychology..... PSY 240..... 3

Electives (as needed to complete 64 credits)****

TOTAL DEGREE REQUIREMENTS 64

*Students testing out of this requirement must choose general education elective credits.

**General education electives must be chosen from the general education List, see <http://xwing.cochise.edu/curriculum/gen-ed.html>.

***University non-English language requirements vary. Check with your advisor.

****Elective courses must be transferable to all Arizona public universities, see <http://az.transfer.org/cas>.

Social Work

(Social Services)

The Associate of Arts (SR) degree in Social Work enables students to fulfill university lower-division requirements for baccalaureate degrees in social work, human services and related fields. To ensure seamless transfer, students must develop their specific program of study in close coordination with a Cochise College advisor.

The Associate of Applied Science degree in Social Services prepares students for entry-level positions in the social services. The certificate improves basic skills for entry-level social services employment.

SOCIAL WORK

**Associate of Arts, Special Requirements
Emphasis in Social Work**

General Education Requirements (AGEC-A) ... 35 Credits

- Composition ENG 101..... 3
- English Composition ENG 102..... 3
- Mathematics MAT 142 or higher ... 3-5
- Laboratory science 8
- Arts 3
- Humanities 3
- Social and behavioral sciences 6
- Information literacy* CIS 116 or CIS 120..... 3
- General education elective** 3

Six credits of arts/humanities/social and behavioral sciences/general education electives must be intensive writing/critical inquiry courses, see <http://xwing.cochise.edu/curriculum/gen-ed.html>.

Language Requirement*** 0-16
Non-English language
Second- or fourth-semester proficiency

Common Courses 28-29

- Introduction to Human Anatomy and Physiology..... BIO 160
- OR Human Anatomy and Physiology I.. BIO 201..... 4
- Introduction to Macroeconomics..... ECN 201..... 3
- Introduction to Psychology PSY 101..... 3
- Developmental Psychology..... PSY 240..... 3
- Introduction to Philosophy PHI 111..... 3
- OR Ethics PHI 130..... 3
- American National Government..... POS 110..... 3
- Introduction to Sociology SOC 101..... 3
- Introduction to Social Work SOC 207..... 3

Select one:

- Introduction to Psychological Research, Measurements and Statistics..... PSY 250..... 3
- Business Statistics BUS 219..... 3
- Experimental Psychology PSY 290..... 3

Electives (as needed to complete 64 credits)****

*Students testing out of this requirement must choose general education elective credits.

Teleservices Program

The Teleservices Certificate program is a program of study designed to prepare the entry-level teleservices employee with both the computer skills and the procedural knowledge necessary to fulfill the duties and responsibilities of the teleservices customer service representative.

Prerequisite(s): Sponsorship by a teleservices provider

TELESERVICES PROGRAM

Certificate

Core Curriculum	15 Credits
Introduction to Teleservices	TLS 101..... 6
Teleservices Practicum.....	TLS 102 ... 1.5
Customer Service in	
The Teleservice Industry	TLS 103..... 6
Teleservices Practicum II.....	TLS 104 ... 1.5

Welding Technology

The Associate of Applied Science degree program in Welding Technology is designed to prepare students to enter the workforce in almost any facet of the diverse field of welding technology. This program will fulfill the needs of everyone from the beginner to the experienced welder looking to upgrade their skills and certifications.

The General Welding Technology Certificate program will prepare students to enter the workforce with diverse welding skills.

The Aerospace Thermal Fusion Certificate program is designed to prepare students seeking employment in the rapidly growing fields of aircraft and aerospace welding. New regulations mandated by the Federal Aviation Administration have created strict certification requirements for welders in the aerospace, aircraft and missile industry. This program trains students to meet standards for employment.

The Aerospace Welding Technology Certificate program will prepare students with work entry skills required for the rapidly changing aviation and aerospace industries. Students will have the opportunity to certify under AWS or MIL STD welding codes.

WELDING TECHNOLOGY

Associate Of Applied Science

ARIZONA DEPARTMENT OF CORRECTIONS

The following programs have been designed for the inmates of the Arizona Department of Corrections in Douglas:

Basic Facility Maintenance

A student who completes the Building Maintenance Certificate program will be qualified to patch and paint surfaces, to understand and perform electrical wiring, to build and repair walls, to make and read blueprints, and to use the blueprints to accurately estimate materials required.

BASIC FACILITY MAINTENANCE TECHNICIAN

Certificate

Core Curriculum	18 Credits
Introduction to Facility Maintenance	GTC 119 3
Blueprint Interpretation and Basic Drafting	DFT 100 3
Painting and Finishing Techniques	GTC 121 3
Electrical Repair and Maintenance	GTC 123 3
Carpentry Repair Techniques	GTC 124 3
Plumbing and Climate Systems Maintenance	GTC 125 3

ADVANCED FACILITY MAINTENANCE TECHNICIAN

Certificate

Core Curriculum	18 Credits
Masonry	GTC 110 3
Concrete Construction and Finish	GTC 120 3
Estimating Construction	GTC 130 3
Facility Maintenance Management	GTC 126 3
Starting a Business	BUS 183 3
Learning to Use the Personal Computer	CIS 116 3

AIR CONDITIONING MAINTENANCE TECHNICIAN

Certificate

Core Curriculum	16 Credits
Technical Mathematics	GTC 100 3
Refrigeration I	GTC 122 3
Refrigeration II	GTC 222 3
Heating & Air Conditioning	GTC 223 4
Hazardous Materials	GTC 128 3

Advanced Business Certificate

A student who completes the Advanced Business Certificate program will be qualified for an entry-level position in the business world. The student will learn word processing, spreadsheet, and database computer skills; how to find and compete for a job in the field of business; how to write and speak like business people; and a number of other skills to enhance success in business.

ADVANCED BUSINESS SKILLS PROGRAM

Certificate

(Prerequisite: General Business Certificate)

Core Curriculum	24 Credits
Principles of Management	BUS 143 3
Principles of Marketing	BUS 145 3
Job and Family Success Skills	BUS 160 3
Computer Applications	CIS 181 3
Business English	OAD 111 3
Word Processing	OAD 213 3
Electives (choose two)	
Introduction to Business Ethics	BUS 150 3
Principles of Finance	BUS 156 3
Personal Financial Planning and Investments	BUS 228 3
Advanced Word Processing	OAD 214 3

Custodial Services

A student who completes the Custodial Services Certificate program will be qualified for an entry-level position in the custodial services, with the potential of self-employment in the field. The student will learn how to mix and use cleaning chemicals; how to clean and maintain all types of floors, carpets, and walls; and the special requirement of cleaning windows and rest rooms.

CUSTODIAL SERVICES

Certificate

Core Curriculum 18 Credits

Introduction to Custodial Maintenance	CMS 101	3
Custodial Chemicals, Usage and Safety	CMS 110	3
Floors and Floor-care Equipment	CMS 120	3
Maintaining Walls, Windows, and Other Surfaces.	CMS 130	3
Cleaning Carpet and Fabric	CMS 140	3
Rest Room Cleaning	CMS 150	3

ADVANCED CUSTODIAL SERVICES PROGRAM

Certificate

Core Curriculum 16 Credits

Custodial Safety and Security	CMS 210	3
Custodial Personnel Policies	CMS 220	3
Custodial Hiring and Firing	CMS 230	3
Custodial Motivation and Training	CMS 240	3
Custodial Account Management	CMS 250	3

Consumer Electronics Repair Certificate

A student who completes the Consumer Electronics Repair Certificate program will be qualified for a position in

electronics repair after completing the basic General Electronics Technician Certificate program and the upper-level Consumer Electronics Repair Certificate program. The student will learn specific repair techniques for a variety of small appliances.

CONSUMER ELECTRONICS REPAIR

Certificate

Core Curriculum 19 Credits

Advanced Mathematics for Electronics	ELT 120	3
Radio Theory & Repair	CER 100	3
Audio Tape Recorder/Player Repair	CER 102	3
Television Theory and Repair	CER 104	4
Compact Disc Player Repair	CER 202	3
Power Amplifier Repair	CER 205	3

ADVANCED ELECTRONICS

Certificate

Core Curriculum 20 Credits

Electronic Circuits and Systems	ELT 125	4
Pulse Circuits	ELT 231	4
Digital Circuits and Systems	ELT 233	4
Communications Electronics I	ELT 245	4
Communications Electronics II	ELT 247	4

Fire Leadership

A student who completes the Fire Leadership Certificate program will be qualified for an entry-level position as a fire fighter. The student will learn the national Fire Protection Association (NFPA) requirements for certification as Firefighter II and Fire Officer I. Completion makes the student a competitive candidate in today's job market.

FIRE LEADERSHIP PROGRAM

Certificate

Core Curriculum 36 Credits

Hazardous Materials Incident “First Responder”	AJS 266 3
Introduction to Fire Science	FST 101 3
Fundamentals of Fire Prevention	FST 106 3
Fire Fighter I	FST 110 6
Fire Fighter II	FST 111 6
Fire Service Hydraulics	FST 120 3
Fire Apparatus and Equipment	FST 200 3
Rescue Practices	FST 220 3
Fire Fighting Tactics and Strategy	FST 240 3
Supervisory Training for Firefighters....	FST 265 3

Lead Firefighter

A student who completes the Lead Firefighter Certificate program will be qualified for an entry-level position as a fire fighter. The student will learn the National Fire Protection Association (NFPA) requirements for certification as Firefighter I.

LEAD FIREFIGHTER

Certificate

Core Curriculum	18 Credits
Introduction to Fire Science	FST 101 3
Hazardous Materials First Responder ...	FST 103 3
Fire Fighter I	FST 110 6
Fire Fighter II	FST 111 6

General Electronics Technician

A student who completes the General Electronics Technician Certificate program will be qualified for an entry-level position in electronics repair. The student will

learn the nature of electronic circuits, specific diagnostics for direct and alternating current circuits, and an overview of consumer electronics repair.

GENERAL ELECTRONICS TECHNICIAN

Certificate

Core Curriculum	21 Credits
Electronics Foundations	ELT 100 3
Introduction to DC Circuits	ELT 105 3
Introduction to AC Circuits	ELT 106 4
Mathematics for Electronics	ELT 110 3
Semiconductors and Transistors	ELT 122 4
Modern Electronic Devices	ELT 243 4

Masonry

A student who completes the Masonry Certificate program will be qualified for an entry-level position in the following trowel trades: concrete finishing, brick laying, stonework, and stucco. The student will learn to make foundations, walls, sidewalks, barbecue pits, arches, and many other brick and concrete structures.

MASONRY

Certificate

Core Curriculum	21 Credits
Blueprint Interpretation and Basic Drafting	DFT 100 .. 3
Technical Mathematics I	GTC 100 3
Masonry I	GTC 110 3
Masonry II	GTC 111 3
Masonry III	GTC 112 3
Concrete Construction and Finish	GTC 120 3
Estimating Construction	GTC 130 3

Course Descriptions

Course descriptions can be found on INFOnline at <http://ocs.cochise.edu>.

Administration of Justice

AJS 101* INTRODUCTION TO ADMINISTRATION OF JUSTICE (3)

Prerequisite(s): ENG 101

Recommended: Reading level 12.0 or higher.

A study of the organization and jurisdiction of local, state, and federal law enforcement, judicial, and correctional systems. Also includes the history and philosophy, career opportunities and qualifying requirements, terminology and constitutional limitations of the system.

Three hours lecture.

AJS 104 PHYSICAL TRAINING (2)

Prerequisite(s): None

This course will introduce the student to advanced principles of aerobic exercise, strength development and flexibility. It will emphasize methods of stress reduction, the value of nutrition awareness and the development of individual exercise programs.

One hour lecture; three hours laboratory.

AJS 109* SUBSTANTIVE CRIMINAL LAW (3)

Prerequisite(s): Reading level 12.0 or higher.

Recommended: ENG 101 or AJS 101

This course is the study of the philosophy of legal sanctions and their historical development, from common law to modern American criminal law. It includes the judicial process, classification of crimes, elements of and parties to crimes, general definitions of crimes, and common defenses.

Three hours lecture.

AJS 110 DEFENSIVE TACTICS (2)

Prerequisite(s): Passing pre-admission physical test. Student must be enrolled in a certified police academy or be a sworn peace officer.

The focus of attention in this course will be the use of basic techniques. Each technique demonstrated by the instructor will have a variety of uses. All techniques will be designed to incapacitate the object of focus as quickly and professionally as possible. The importance of documentation followed by court testimony techniques will be strictly emphasized throughout the entire course.

One hour lecture; three hours laboratory.

AJS 112 EMERGENCY VEHICLE OPERATIONS (1)

Prerequisite(s): Valid drivers license, enrolled in a certified police academy or be sworn officer or certified EMS provider.

This course is designed for emergency and commercial vehicle operators. It emphasizes the legal aspects of emergency vehicle operation, vehicle dynamics, vehicle maintenance, vehicle inspections and human dynamics. The practical exercise of the course will be conducted at an outdoor site where students will practice, then demonstrate their individual proficiency in operating the type of vehicle appropriate for their individual operation. The outdoor course will be set up in conformance with the recommended National Law Enforcement Drivers Training Guide and Federal Emergency Management Agency Training Guide. This course is identical to FST 112.

One hour lecture.

AJS 120* FIREARMS CERTIFICATION (2)

Prerequisite(s): Student must be registered as part of a law enforcement or corrections program.

This course will prepare a student to use firearms safely. The course will be conducted in compliance with the curriculum set forth by the National Rifle Association Police Practical Course. It will cover areas such as semiautomatic handguns, shotguns, use of force, safe handling of guns, ballistics, malfunctions and overall safety.

One hour lecture; three hours laboratory.

AJS 122 THE POLICE PATROL FUNCTION (3)

Prerequisite(s): None

A study of the history, theory, duties and responsibilities of the patrol division; communications and development of observational powers; care and use of protective weapons, patrol vehicles, and other equipment. Handling of emergency requests for assistance, vehicle stops, burglary, robbery, sex offenses, the mentally ill, and other kinds of situations.

Three hours lecture.

AJS 123* TRAFFIC ENFORCEMENT (3)

Prerequisite(s): Student must be enrolled as part of the AJS-AAS program.

This course provides students with the knowledge to analyze traffic control problems and the fundamentals of traffic accident investigations. The course will include motor vehicle laws in the state of Arizona.

Two hours lecture; three hours laboratory.

AJS 125 PRIVATE SECURITY, PRINCIPLES AND PRACTICES (3)

Prerequisite(s): None

This course is designed to present the history, nature and scope of private security in modern society. Also included are basic principles of physical security, internal loss prevention, defensive systems, fire prevention and safety, and security function in the corporate structure. Operations and career opportunities are exemplified in such specific areas as retail, hospital, cargo and computer security, and security services, both contract and proprietary.

Three hours lecture.

AJS 140 ARIZONA DETENTION OFFICERS BASIC TRAINING (6)

Prerequisite(s): Student must be employed by a recognized Arizona law enforcement agency.

This course provides the basic training required to become certified as an Arizona detention officer.

Five hours lecture; three hours laboratory.

AJS 150 UNITED STATES PENOLOGY (3)

Prerequisite(s): None

This course is an examination of punishment from primitive times to the modern correctional era, emphasizing the influence of historical events on the philosophy of punishment and the methods of prison discipline.

Three hours lecture.

AJS 187 CRIMINAL JUSTICE MANAGEMENT PROBLEMS (1)

Prerequisite(s): Student must be part of a criminal justice department or an AJS major.

This course is a review of the common management problems in criminal justice agencies, including conflict management, employee relations, fiscal affairs and time management. It includes a discussion of the process of organizational change and development.

One hour lecture.

AJS 193 HAZ-MAT COMMUNICATIONS (1)

Prerequisite(s): None

This course is a study of the 29 Codes of Federal Regulations (CFR), Section 1910.1200 and the Hazard Communications (Right-to-Know) Regulation. The course focuses on the impacts these regulations have on the occupational workforce. Requirements for implementation and monitoring of the regulations are examined. Also included are the studies of federal regulations cited in Section 301, Title III, Superfund Amendments and Reauthorization Act (SARA) of 1968, Right to Know Act of 1968.

One hour lecture.

AJS 204 ELEMENTS OF INTERCULTURAL COMMUNICATION (3)

Prerequisite(s): ENG 101 with a grade of C or better.

This introduction to communication between cultures emphasizes understanding and applying practical communication strategies and skills so as to communicate effectively with people of diverse cultural backgrounds in a multi-cultural society and world.

Three hours lecture.

AJS 205 COMMUNITY CORRECTIONS (3)

Prerequisite(s): AJS 101, AJS 112, ENG 101, reading grade level 11.5 or higher.

This course is a practical study of the origins and development of probation and parole, including the primary roles of lawyers, judges, probation and parole officers in the administration of each, and an examination of various sentencing alternatives.

Three hours lecture.

AJS 208 DEFENSIVE TACTICS INSTRUCTOR (3)

Prerequisite(s): Student must be employed or sponsored by a law enforcement agency.

This course is designed to give the students the necessary information to give instruction on use-of-force alternatives within the force continuum. It emphasizes speed cuffing, pressure points, escorts, take downs, defensive countermeasures, vascular restraints, officer safety, use of baton, gun retention, and disarming techniques. Upon successful completion of the course, students will receive instructor's certification from Pressure Points and Control Tactics Management Systems, Inc. (PPCT).

Three hours lecture.

AJS 212 JUVENILE JUSTICE PROCEDURES (3)

Prerequisite(s): None

Recommended: AJS 101 or ENG 101 with a grade of C or better.

This course is a practical study of the history and development of juvenile justice theories, procedures and institutions.

Three hours lecture.

AJS 215 PENOLOGY (3)

Prerequisite(s): AJS 101, AJS 112, ENG 101, reading 11.5 grade level or higher.

A study of correctional management topics including sentencing, classification, “good time” credit, discipline, prisoner’s rights and security/control measures; additional emphases are placed on the guard’s role, different management styles, and various correctional models.

Three hours lecture.

AJS 224 FIELD EXPERIENCE IN ADMINISTRATION OF JUSTICE (1-6)

Prerequisite(s): A declared major in administration of justice. Permission and approval of cooperative education program coordinator.

Recommended: Sophomore standing.

A supervised cooperative education work experience involving the combined efforts of educators and employers to accomplish career objectives in law enforcement and related fields. Variable credit (1-6) is available by special arrangement. The course may be taken four times for a maximum of 16 credit hours with no more than six credits in a given semester.

AJS 225 CRIME AND DELINQUENCY (3)

Prerequisite(s): ENG 101 with a grade of C or better, or reading level 12.0 or higher.

This course is the study of deviance and society’s role in defining behavior. It covers theories of criminality and the economic, social, and psychological impact of crime, victimization, and relationships between statistics and crime trends.

Three hours lecture.

AJS 230 THE POLICE FUNCTION (3)

Prerequisite(s): None

Recommended: AJS 101 or ENG 101

This course examines the study of theories, procedures and methods of operation of public police with emphasis on discretionary powers. It includes a review of career opportunities and current trends in law enforcement.

Three hours lecture.

AJS 240 THE CORRECTION FUNCTION (3)

Prerequisite(s): None

This course examines the study of the history and development of correctional theories and institutions.

Three hours lecture.

AJS 254 PSYCHOLOGY IN LAW ENFORCEMENT (3)

Prerequisite(s): PSY 101 and ENG 101 with a grade of C or better.

Recommended: AJS 101, and reading level 12.0 or higher.

A study of the changing role of police, including the law enforcement attitude toward human behavior, normal personality conflicts, defense mechanisms, abnormal behavior, personality disorders, neuroses, psychoses, psychopathic, deviant, drug dependency, paranoia, violence, and suicidal behavior. Also studied are the behavioral aspects of disasters, riots, riot control and legal aspects of abnormal behavior.

Three hours lecture.

AJS 260 PROCEDURAL CRIMINAL LAW (3)

Prerequisite(s): Reading level 12.0 or higher.

Recommended: AJS 109, ENG 101

This course is an introduction to major court holdings, procedural requirements that stem from these holdings, and their effect on daily operations of the criminal justice system.

Three hours lecture.

AJS 265 CRITICAL ISSUES IN CRIMINAL JUSTICE (.5-1)

Prerequisite(s): None

A rotating forum emphasizing current issues in the field of criminal justice. Topics vary in accordance with needs of the local criminal justice community.

Thirty minutes to one hour lecture.

AJS 266 HAZARDOUS MATERIAL INCIDENT "FIRST RESPONDER" (3)

Prerequisite(s): Student must be a certified first responder or employed as a law enforcement officer or fire fighter.

This course is designed to teach the fundamentals of chemistry used in fire service; types of chemicals and processes; laws at the federal, state, and local levels pertaining to use, storage and transportation of chemicals; and the fundamentals of chemistry used in fire science, including hazards of radioactives, precautions to observe in fighting fires involving hazardous materials, and laboratory demonstration of incompatibles.

Three hours lecture.

AJS 267 HAZARDOUS WASTE SITE WORKERS HEALTH AND SAFETY (3)

Prerequisite(s): None

A course designed to teach potential hazardous waste site workers the health and safety implications of working with HAZMATS.

Three hours lecture.

AJS 270 COMMUNITY RELATIONS (3)

Prerequisite(s): ENG 101 with a grade of C or better or permission of instructor.

A study of the police officer's role in attaining and maintaining public support. Includes recognition and understanding of community problems, community action programs, methods of coping with crisis situations, victimology, ethnic and minority cultures, environments, crime prevention and police operations.

Three hours lecture.

AJS 275* CRIMINAL INVESTIGATIONS (3)

Prerequisite(s): AJS 101 or ENG 101 or permission of instructor.

A study of the theory of criminal investigation, crime scene procedures, case preparation, interviewing, and basic investigative techniques.

Two hours lecture; two hours laboratory.

AJS 290 INSTRUCTOR SKILL DEVELOPMENT (3)

Prerequisite(s): Student must be a certified law enforcement or corrections officer, currently employed by a law enforcement agency or a sophomore in the administration of justice program.

Designed to impart a wide range of teaching skills, concepts, and techniques specific to the law enforcement trainer. Topics covered include adult learning, training needs, research methodology, instructional objectives, program development, instructional methodology, and evaluation techniques. Successful course completers will be eligible for certification as ALEOAC certified instructors. (Course is identical to EDU 290.)

Three hours lecture.

Agriculture

AGR 101 PRINCIPLES OF VETERINARY SCIENCE (3)

Prerequisite(s): None

An introduction to the veterinary sciences for potential pre-veterinary students as well as those students of animal science or husbandry interested in the care and health of all domestic animals and livestock.

Three hours lecture.

AGR 102 INTRODUCTION TO AGRICULTURE (3)

Prerequisite(s): None

An introductory class involving the overall concepts of agriculture. This class introduces the theoretical basis of agriculture in order that the student may better select career options.

Three hours lecture.

AGR 104 PRINCIPLES OF AGRONOMY (3)

Prerequisite(s): None

This course deals with principles of field crop production with special emphasis on origin, distribution, cultural practices and improvements.

Three hours lecture.

AGR 105 RANGE MANAGEMENT (3)

Prerequisite(s): None

A study of the history of rangeland use, the influences of use on plant physiology and ecology, and the interrelationships and coordination of rangeland uses for farm and ranch managers interested in plants, soils, and livestock.

Three hours lecture.

AGR 107* FARRIER SCIENCE (3)

Prerequisite(s): None

A study of the basic principles of farrier science, including an introduction to the physiology and anatomy of the horses' legs and hooves, horse shoeing, diagnosis of minor hoof and leg problems and proper methods for correcting stride and alignment.

One hour lecture; three hours laboratory.

AGR 138* TEAM ROPING (3)

Prerequisite(s): None

This course will provide an opportunity for students to participate for pleasure and for later competition in rodeo team roping.

Two hours lecture; three hours laboratory.

AGR 139 WESTERN HORSEMANSHIP (3)

Prerequisite(s): None

A course enabling students who now own or intend to buy a pleasure horse to handle and care for the animal in the western tradition; how to handle a western saddle, how to select appropriate equipment, how to evaluate a pleasure horse before purchasing, and how to provide for the general well-being of the animal.

Two hours lecture; three hours laboratory.

AGR 140* RODEO SKILLS (3)

Prerequisite(s): None

A course designed for a student to learn rodeo rules and to develop rodeo skills in barrel racing, team roping, calf roping, goat tying, and riding events and the personal ethics and attitudes of a good competitor.

Two hours lecture; three hours laboratory.

AGR 141* ENGLISH EQUITATION (3)

Prerequisite(s): None

A course for students who now own or intend to purchase a pleasure horse to handle and care for the animal in an arena situation: how to handle English equipment, how to evaluate a pleasure horse and how to provide for the general well-being of the animal.

Two hours lecture; three hours laboratory.

AGR 207 RANGE PLANTS (3)

Prerequisite(s): Botany

Introduction to the study of local grasses, shrubs, and forbs, including identification, forage value, and ecological use. Also, range plants will be studied that are toxic or have poisonous effects on animal life.

One hour lecture; three hours laboratory.

AGR 208 ANIMAL INDUSTRY (3)

Prerequisite(s): AGR 101 or permission of instructor.

Recommended: Reading level 11.0, ENG 100 or above.

Fundamental principles as applied to animal, dairy, and poultry science, and the marketing and distribution of animal products.

Three hours lecture.

AGR 210* GENERAL WELDING I (3)

Prerequisite(s): None

Techniques of operating arc welding machines; oxyacetylene torches for fusion welding, heating, brazing, cutting, hardfacing, and soldering of all common types of metal. Emphasis on individual projects.

One hour lecture; three hours laboratory.

AGR 211 ECONOMICS IN AMERICAN AGRICULTURE (3)

Prerequisite(s): Reading level 11.0, ENG 100 or above.

Recommended: Sophomore standing

A study of economic principles governing the production of agriculture, including the principles of supply and demand, pricing, investing, measuring and consuming with emphasis on theories and practical applications to current economic problems.

Three hours lecture.

AGR 212* ADVANCED AGRICULTURE WELDING (3)

Prerequisite(s): None

Techniques of operating arc welding machine in the various welding positions; flat, horizontal, vertical, and overhead, and the use of oxyacetylene equipment for fusion welding, brazing, cutting, hardfacing and soldering all common types of metal with emphasis on individual projects.

Two hours lecture; three hours laboratory.

AGR 214 SOILS & FERTILIZERS (3)

Prerequisite(s): None

Fundamental properties of soils, their relation to plant growth and soil amendment.

Three hours lecture.

AGR 215 HOME GARDENING (3)

Prerequisite(s): None

The study of the care and maintenance of trees, shrubs, hedges, and flowers for those students who want to sharpen their skills in growing vegetable and flower gardens.

Three hours lecture.

AGR 224 FIELD EXPERIENCE IN AGRICULTURE & NATURAL RESOURCES (1-6)

Prerequisite(s): A declared major in agriculture and natural resources. Permission and approval of cooperative education program coordinator.

Recommended: Sophomore standing

A supervised cooperative education work experience involving the combined efforts of educators and employers to accomplish career objectives in agriculture and natural resources and related fields. Variable credit (1-6) is available by special arrangement. May be taken four times for a maximum of 16 credit hours with no more than six credits in a given semester.

AGR 225 INTRODUCTION TO AGRI-BUSINESS (3)

Prerequisite(s): ENG 100 or above, 11.0 reading grade level.

This course will familiarize students with the basic concepts of agri-business from a functional and commodity approach.

Three hours lecture.

AGR 230 ANIMAL FEEDING (3)

Prerequisite(s): CHM 100 or above, or permission of instructor.

Recommended: Reading level 11.0, MAT 072 or above.

Basic principles of animal nutrition and digestion and selection, evaluation, and use of feeds in balancing rations for livestock and poultry.

Three hours lecture.

AGR 237 HORSE SCIENCE & MANAGEMENT (3)

Prerequisite(s): AGR 101

Recommended: Reading level 11.0, ENG 100 or above.

An introduction to the types, breeds, and management of horses with emphasis on feeding, breeding, and daily care.

Three hours lecture.

AGR 243 LIVESTOCK PRODUCTION AND MANAGEMENT (3)

Prerequisite(s): None

Livestock Production and Management will teach the managerial skills necessary in the production, feeding, and care of livestock on farms and ranches. The economics of the livestock industry also will be emphasized.

Three hours lecture.

AGR 250* PROJECT WELDING (3)

Prerequisite(s): AGR 210 or AGR 212 or permission of instructor.

Designed for students with demonstrated welding skills to work on a specific project. The project may be one selected by the student or one the instructor has assigned. The project will be made using the arc welding and/or the oxyacetylene equipment in the shop.

May be repeated for non-transfer credit only.

Two hours lecture; three hours laboratory.

AGR 299 INDIVIDUAL STUDIES (1-4)

Prerequisite(s): Permission of associate dean and instructor.

Completion of a research problem or an outlined course of study under the direction of a faculty member, with contract for the individual study agreed upon by the student, the instructor and the associate dean prior to initiation of the study.

American Sign Language

ASL 101 AMERICAN SIGN LANGUAGE I (4)

Prerequisite(s): None

American Sign Language includes principles, methods and techniques for communicating with deaf individuals who sign. Also includes a brief history of sign, introduction to deaf culture, development of receptive and expressive sign skills, manual alphabet, numbers and sign vocabulary. Class is conducted primarily without voice.

Four hours lecture; one hour laboratory.

ASL 102 AMERICAN SIGN LANGUAGE II (4)

Prerequisite(s): ASL 101 or permission of instructor.

Continuation of ASL 101. Includes sign vocabulary, numbers, finger spelling, and culture. Emphasis is on the enhancement of receptive sign skills, further development of expressive sign skills, and the application of rudimentary syntactical and grammatical structures. Class is conducted primarily without voice.

Four hours lecture; one hour laboratory.

ASL 200 INTRODUCTION TO THE DEAF COMMUNITY (3)

Prerequisite(s): ASL 102

An in-depth exploration into the deaf community, this course examines the values, traditions, and rules of social behavior, as well as cross-cultural interaction between deaf and hearing people. Also analyzes the origins of American sign language.

Three hours lecture.

ASL 201* AMERICAN SIGN LANGUAGE III (4)

Prerequisite(s): ASL 102 or permission of instructor.

This continuation of ASL 102 includes an integration of ASL receptive and expressive skills using bilingual techniques. Also includes vocabulary expansion, idioms, manual and non-manual aspects of ASL, ASL linguistics, cross-cultural communication, and cultural knowledge of ASL. Class is conducted primarily without voice.

Four hours lecture; one hour laboratory.

ASL 202 AMERICAN SIGN LANGUAGE IV (4)

Prerequisite(s): ASL 201 or permission of instructor.

This continuation of ASL 201 includes continued expansion of sign vocabulary, sharpening of finger spelling and number skills, and review of and instruction in linguistical knowledge of ASL. Also includes an emphasis on conversational techniques and skills in ASL in a cross-cultural framework. This class is conducted primarily without voice.

Four hours lecture; one hour laboratory.

ASL 210 INTRODUCTION TO INTERPRETING (3)

Prerequisite(s): ASL 102

Introduction to the field of sign language interpreting. Examines the interpreter's role, responsibilities, code of ethics, and professional support to the interpreter.

Three hours lecture.

Anthropology

ANT 101 THE ORIGIN AND ANTIQUITY OF HUMANKIND (3)

Prerequisite(s): RDG 122 or exemption; ENG 100 or placement in ENG 101 or permission of instructor.

A survey of human biological origins, based upon paleontological and archaeological records, including recent developments in physical anthropology.

Three hours lecture.

ANT 102* SOCIETY AND CULTURE (3)

Prerequisite(s): RDG 122 or exemption; ENG 100 or concurrent enrollment or permission of instructor.

A theoretical and practical introduction to cultural anthropology designed to provide insight into cultural forces that affect the human way of life, and to examine the Western history of interpreting "the other." Contemporary issues are addressed. Included are the study of material culture, technology, religion and language, and social, political, and economic systems.

Three hours lecture.

ANT 110* EXPLORING ARCHAEOLOGY (3)

Prerequisite(s): RDG 122 or exemption; ENG 100 or placement in ENG 101 or permission of instructor.

A non-technical introduction to archaeology tracing human cultural development from the earliest stone tools to the initial civilizations of the old and new worlds.

Three hours lecture.

ANT 111 EXPLORING PHYSICAL ANTHROPOLOGY (3)

Prerequisite(s): RDG 122 or exemption; ENG 100 or concurrent enrollment or permission of instructor.

An introduction to human evolution for the non-science student. Also serves as an introduction to primatology and general anthropology, grounding the student in the methods and ideas of modern anthropology.

Three hours lecture.

ANT 138* ARCHAEOLOGICAL SITE SURVEY (3)

Prerequisite(s): ENG 100 or placement in ENG 101 or permission of instructor.

An introduction to identifying, locating, and recording archaeological sites, with emphasis on gaining practical experience in documenting archaeological remains. Students participate in exploring areas in southern Cochise County.

One hour, 30 minutes lecture; four hours, 30 minutes laboratory.

ANT 140* ROCK ART OF THE AMERICAN INDIAN (3)

Prerequisite(s): None

The study of the prehistoric carvings and paintings on rock surfaces throughout North America with an emphasis on recording processes, field work, and the Southwest.

Two hours lecture; three hours laboratory.

ANT 192 SPECIAL TOPICS IN ANTHROPOLOGY (.5-1)

Prerequisite(s): None

A rotating forum/seminar emphasizing anthropological topics of current regional significance which will vary with changes in student needs and interests. May be repeated for Cochise College credit. Cochise College elective credit only unless otherwise designated in degree programs.

Thirty minutes to one hour lecture.

ANT 235 PRINCIPLES OF ARCHAEOLOGY (3)

Prerequisite(s): RDG 122 or exemption; ENG 101.

An introduction to the methods and theories used in archaeological research and interpretation with emphasis upon the practical aspects of archaeology.

Three hours lecture.

ANT 285 PREHISTORIC CULTURES OF NORTH AMERICA (3)

Prerequisite(s): RDG 122 or exemption; ENG 101.

A survey of prehistoric cultures in North America. Included are basic anthropological, archaeological and ethnological theory methods and concepts.

Three hours lecture.

ANT 286 HISTORIC INDIAN TRIBES OF NORTH AMERICA (3)

Prerequisite(s): RDG 122 or exemption; ENG 101.

A survey of historical native cultures in the 10 North American environmental regions from contact through the 20th century. Contemporary issues are addressed. Included are basic anthropological, historical and ethnological theory, methods and concepts.

Three hours lecture.

ANT 287 ARCHAEOLOGY OF THE SOUTHWEST (3)

Prerequisite(s): RDG 122 or exemption; ENG 101 or concurrent enrollment.

A study of the prehistoric people of the American Southwest from the late Pleistocene to the Spanish conquest. The course includes discussions of local archaeological culture emphasizing the process for cultural development within key regions.

Three hours lecture.

ANT 288 NATIVE PEOPLES OF THE SOUTHWEST (3)

Prerequisite(s): ENG 101

A survey of southwestern Native American cultures from historic times to the present. Includes Athabaskan, Puebloan, and O'odham societies; adaptations to their respective environments; and cultural effects from historic events.

Three hours lecture.

ANT 299 INDIVIDUAL STUDIES (1-4)

Prerequisite(s): Approval of the associate dean and instructor.

Completion of a research problem or an outlined course of study under the direction of a faculty member with contract for the individual study agreed upon by the student, the instructor and the appropriate dean prior to initiation of the study. May be repeated for credit.

Art

Note: All studio courses may be repeated once for credit. (The second semester is usually allowed as an art elective.) These courses may be repeated indefinitely beyond the second semester for non-transfer credit.

ART 103* DESIGN FUNDAMENTALS (3)

Prerequisite(s): None

An introduction to the basic elements of design: line, shape, value, texture and color. This includes skill development in arranging these elements according to the basic principles of organization (harmony and variety) within a two-dimensional framework.

For students interested in art for career opportunities as well as personal growth and self-expression.

Two hours lecture; four hours studio.

ART 106* DRAWING I (3)

Prerequisite(s): None

An elementary course in representational drawing and pictorial design. Students utilize the local landscape and various still-life objects as subject matter for individual projects. Freehand drawing is stressed to develop hand-eye coordination. Also encouraged is the use of imagination and memory in the development of ideas.

For students interested in art for career opportunities as well as personal growth and self-expression.

Two hours lecture; four hours studio.

ART 107* SURVEY OF WORLD ART: PREHISTORIC-GOTHIC (3)

Prerequisite(s): RDG 122 or concurrent enrollment or permission of instructor.

A survey presentation of the art and architecture of Western civilizations through the Gothic era, including pre-historic cultures of the world.

Three hours lecture.

ART 108 SURVEY OF WORLD ART: RENAISSANCE THROUGH THE TWENTIETH CENTURY (3)

Prerequisite(s): RDG 122 or concurrent enrollment or exemption or permission of instructor.

A survey presentation of the art and architecture of Western civilizations from the Renaissance through the 20th century.

Three hours lecture.

ART 120 APPRECIATION OF THE VISUAL ARTS (3)

Prerequisite(s): Placement in ENG 101, ENG 100, or permission of instructor.

A general overview of the visual arts, including philosophies, history, techniques, various media, and elements of design. Fulfills the art education requirement for teacher certification at the University of Arizona.

Three hours lecture.

ART 130* PAINTING FOR PERSONAL DEVELOPMENT I (2)

Prerequisite(s): None

An introduction to techniques of watercolor, oil or acrylic with emphasis on composition and materials. Students must complete several projects judged on the basis of individual skill and development. Not intended for transfer to a four-year institution. May be repeated for credit.

For students interested in art for career opportunities as well as personal growth and self-expression.

One hour lecture; three hours studio.

ART 131* PAINTING FOR PERSONAL DEVELOPMENT II (2)

Prerequisite(s): ART 130 or permission of instructor.

The development of skills and techniques introduced in ART 130 with special emphasis on student projects and preparation of works for exhibition. May be repeated for credit. Not intended for transfer to four-year institutions.

For students interested in art for career opportunities as well as personal growth and self-expression.

One hour lecture; three hours studio.

ART 140 DIGITAL PHOTOGRAPHY (2)

Prerequisite(s): None

An introduction to the use and function of the digital camera and the hardware, software, and techniques necessary to electronically store, manipulate, and print digital photographs. Students will learn basic design concepts as they relate to digital photography as an art form. This includes skill development in basic elements in design: line, shape, value, texture, and color.

One hour lecture; three hours laboratory.

ART 192* SPECIAL TOPICS IN ART (.5-4)

Prerequisite(s): None

A rotating forum/seminar/workshop emphasizing regional art forms and the development and practical application of artistic skills using a variety of media. Topics will vary in accordance with changes in student needs and interests. May be repeated for Cochise College credit.

For students interested in art for career opportunities as well as personal growth and self-expression.

Thirty minutes to four hours lecture/studio.

ART 216* DRAWING II (3)

Prerequisite(s): ART 106 or permission of instructor. (Art majors must have prerequisite.)

An intermediate course in representational drawing and pictorial design. Students utilize the landscape, still life objects and individual initiative to develop subject matter for their projects. Freehand drawing is stressed to develop hand-eye coordination. Students are expected to have developed some basic drawing skills before taking this course.

For students interested in art for career opportunities as well as personal growth and self-expression.

Two hours lecture; four hours studio.

ART 230* COLOR AND DESIGN (3)

Prerequisite(s): ART 103 or permission of instructor. (Art majors must have prerequisite.)

Continued investigations into the elements and principles of design including line, shape, value, texture, and color within a two-dimensional framework. A variety of media and techniques will be used, and an emphasis will be placed on color and design theory.

Two hours lecture; four hours studio.

ART 231* THREE DIMENSIONAL DESIGN/SCULPTURE (3)

Prerequisite(s): ART 103 or permission of instructor. (Art majors must have prerequisite.)

An introduction to the basic elements of three-dimensional design: line, shape, texture, color, volume and mass. This includes skill development in arranging these elements according to the basic principles of organization (harmony and variety) within a three-dimensional framework as they exist in actual space.

Two hours lecture; four hours studio.

ART 245* FIGURE DRAWING (3)

Prerequisite(s): ART 106 or permission of instructor. (Art majors must have prerequisite.)

Drawing from the model and other subjects to develop pictorial and perceptual skills with an emphasis on the human figure in its environment.

For students interested in art for career opportunities as well as personal growth and self-expression.

Two hours lecture; four hours studio.

ART 250* BEGINNING JEWELRY (3)

Prerequisite(s): ART 103 and 231 or permission of instructor.

A studio course in basic jewelry-making processes, including fabrication, silver-soldering, lapidary and casting.

For students interested in art for career opportunities as well as personal growth and self-expression.

Two hours lecture; four hours studio.

ART 255* BASIC METALWORK (3)

Prerequisite(s): ART 103 and 231 or permission of instructor.

A studio course in essential aspects of metal-working processes, including silver soldering, brazing, welding, forging, and casting.

For students interested in art for career opportunities as well as personal growth and self-expression.

Two hours lecture; four hours studio.

ART 265* BEGINNING COMMERCIAL DESIGN (3)

Prerequisite(s): ART 103 or permission of instructor. (Art majors must have prerequisite(s).)

An introduction to the basic elements and principles of commercial design and the techniques of advertising layout. This includes their practical applications with the tools and materials used in the field of advertising. Identical to MED 265.

Two hours lecture; four hours studio.

ART 270* CERAMICS I (3)

Prerequisite(s): ART 103 and ART 231 or permission of instructor. (Art majors must have prerequisite(s).)

An introduction to clay, glaze and kiln processes and wheelthrown techniques with a general historical survey of ceramics.

For students interested in art for career opportunities as well as personal growth and self-expression.

Two hours lecture; four hours studio.

ART 270A* RAKU WORKSHOP (1)

Prerequisite(s): None

An introduction to the traditional and experimental raku processes.

For students interested in art for career opportunities as well as personal growth and self-expression.

Forty minutes lecture; one hour, 20 minutes studio.

ART 275* CERAMICS II (3)

Prerequisite(s): ART 103, ART 231, and ART 270 or permission of instructor. (Art majors must have prerequisites.)

A more advanced course than ART 270, Ceramics I. Students will need to have a basic knowledge of hand-built and wheelthrowing techniques with various clay bodies, a basic knowledge of glazes and their application, and kiln loading and firing processes.

For students interested in art for career opportunities as well as personal growth and self-expression.

Two hours lecture; four hours studio.

ART 280* PAINTING I (3)

Prerequisite(s): ART 103 or ART 106 or permission of instructor. (Art majors must have prerequisite.)

Recommended: For non-art majors.

A studio course in beginning oil and/or acrylic painting techniques with emphasis on color theory and color mixing. Preparation of painting surfaces is also introduced.

For students interested in art for career opportunities as well as personal growth and self-expression.

Two hours lecture; four hours studio.

ART 281* PAINTING II (3)

Prerequisite(s): ART 103 or ART 106, and ART 280, or permission of instructor. (Art majors must have prerequisites.)

Recommended: For non-art majors.

An intermediate course in painting with an emphasis on developing individual expressive and pictorial skills in oil and/or acrylic media. Students must have a basic knowledge of the tools and materials of their chosen medium and a basic knowledge of color theory and color mixing. Students must also be skilled in preparing various painting surfaces.

For students interested in art for career opportunities as well as personal growth and self-expression.

Two hours lecture; four hours studio.

ART 285* BEGINNING PHOTOGRAPHY (3)

Prerequisite(s): None

An introduction to the use and function of the camera and black-and-white darkroom technique. Students must have access to a fully adjustable 35mm camera. The course is identical to MED 285.

For students interested in beginning photography for career opportunities, as well as for personal growth and self-expression.

Two hours lecture; four hours studio.

ART 286* INTERMEDIATE PHOTOGRAPHY (3)

Prerequisite(s): ART/MED 285 or permission of instructor. (Art majors must have prerequisite.)

Recommended: For non-art majors.

An intermediate course in photography for students who understand the basics of black-and-white film exposure, development, and printing. Emphasis on photojournalism, art photography, portraiture, and landscapes. Students must have access to a fully adjustable 35mm camera. Identical to MED 286.

For students interested in photography for career opportunities as well as for personal growth and self-expression.

Two hours lecture; four hours studio.

ART 290* SCULPTURE (3)

Prerequisite(s): ART 103, ART 231, or permission of instructor. (Art majors must have prerequisites.)

Recommended: For non-art majors.

An introduction to traditional and contemporary sculptural concepts, media and techniques, with student involvement from the raw materials to the finished product.

For students interested in art for career opportunities as well as personal growth and self-expression.

Two hours lecture; four hours studio.

ART 292* ADVANCED TOPICS IN ART (.5-4)

Prerequisite(s): ART 192 or permission of instructor.

A rotating forum/seminar/workshop emphasizing regional art forms and the development and practical application of artistic skills using a variety of media. Topics will vary in accordance with changes in student needs and interests. May be repeated for Cochise College credit. Cochise College elective credit only unless otherwise designated in degree programs.

For students interested in art for career opportunities as well as personal growth and self-expression.

Thirty minutes to four hours lecture/studio.

ART 295* WATERCOLOR PAINTING I (3)

Prerequisite(s): ART 103 or 106 or permission of instructor.

An introductory course in watercolor painting, exploring basic materials and techniques, with an emphasis on color theory and color mixing.

For students interested in art for career opportunities as well as personal growth and self-expression.

Two hours lecture; four hours studio.

ART 296* WATERCOLOR PAINTING II (3)

Prerequisite(s): ART 295 or permission of instructor.

An intermediate course in watercolor painting, with an emphasis on developing individual and expressive pictorial skills.

For students interested in art for career opportunities as well as personal growth and self-expression.

Two hours lecture; four hours studio.

Astronomy

AST 180* INTRODUCTION TO ASTRONOMY (4)

Prerequisite(s): MAT 122

A survey of astronomy, including the history of astronomy, celestial motion, terrestrial evolution, the solar system, structure and evolution of the stars, the Milky Way, galaxies and cosmology. Labs include nighttime observing sessions. Field trips to planetariums and observations will be included.

Three hours lecture; three hours laboratory.

Aviation Maintenance Technology

A specialized 1,936-contact-hour program that meets the requirements of Federal Aviation Regulations, Part 147.

AMT 120* SEMINAR: JOB SEARCH TECHNIQUES FOR AVIATION TECHNOLOGY (1)

Prerequisite(s): Permission of a cooperative education program coordinator.

A course to assist aviation technology students in acquiring knowledge and basic employment skills, including job hunting techniques, job applications, resumes, and interviewing upon program completion.

One hour lecture.

AMT 150* PHASE 1 GENERAL (19)

Prerequisite(s): None

A comprehensive study of general subjects required by the Federal Aviation Administration (FAA) for certification as an aviation maintenance technician.

Half lecture; half laboratory.

AMT 160* PHASE 2 BASIC AIRFRAME (17)

Prerequisite(s): AMT 150

A comprehensive study of aircraft structures featuring wood and covering techniques, welding with emphasis on sheet metal structural repairs, composite construction, aircraft assembly, rigging and inspection, as well as radio, navigation and instrument systems.

Half lecture; half laboratory.

AMT 170 UNMANNED AERIAL VEHICLE (UAV) MAINTENANCE TECHNICIAN (14)

Prerequisite(s): PFT 101. Sponsored employee of the department of defense or of a DOD UAV contractor.

A practical study of Hunter short-range unmanned aerial vehicle (UAV) maintenance to include operational safety; basic flight principles; general and Army inspection, maintenance and servicing practices; UAV support equipment and operational procedures; and related voice communication systems.

Five hours lecture; 22 hours, 30 minutes laboratory.

AMT 172 UAV MECHANICAL TECHNICIAN (13)

Prerequisite(s): PFT 101. Sponsored employee of the department of defense or of a DOD UAV contractor.

A focused study of Hunter unmanned aerial vehicle (UAV) maintenance and repair. Includes an emphasis upon the power plant, fuel system, digital central processor assembly, flight control system operation, system support equipment and electrical power system. Development of the knowledge and skills of system performance criteria, inspection techniques, diagnosis, operational safety and composite repair are also emphasized.

Five hours, 20 minutes lecture; 18 hours laboratory.

AMT 260* PHASE 3 ADVANCED AIRFRAME (17)

Prerequisite(s): AMT 150 and 160.

A comprehensive study of aircraft systems on both private and commercial aircraft with emphasis on electrical, hydraulics, landing gear, fire protection, environmental atmosphere controls, fuel systems, ice and rain control.

Half lecture; half laboratory.

AMT 270* PHASE 4 POWERPLANT (17)

Prerequisite(s): AMT 150

An introductory study of aircraft powerplant theory, construction and maintenance, with emphasis on reciprocating engines, propellers, ignition systems, lubricating systems and component overhaul.

Half lecture; half laboratory.

AMT 275* PHASE 5 ADVANCED POWERPLANT (17)

Prerequisite(s): AMT 150 and 270.

A continuation of the comprehensive study of advanced aircraft powerplants and related systems with emphasis on turbine engines, jet engines, propellers, lubrication systems, cooling, exhaust, starting and fire protection, fuel metering systems and electrical systems.

Half lecture; half laboratory.

AMT 280* HELICOPTER MAINTENANCE AND INSPECTION FUNDAMENTALS (4)

Prerequisite(s): Completion of AMT 150, 160, 260 or have a FAA Airframe Mechanic Certificate or permission of the Aviation Department airframe and powerplant instructors.

A study of helicopter inspection and maintenance techniques and basic rotary wing aerodynamics with emphasis on the exacting requirements of rotary wing aircraft maintenance.

AMT 282 TRANSPORT CATEGORY AIRCRAFT FAMILIARIZATION COURSE (5)

Prerequisite(s): Student must hold A & P certificates or permission of instructor.

A lecture course focused on the operating systems of large FAR Part 25 certified aircraft.

Five hours lecture.

AMT 284* COMPOSITE MATERIALS (4)

Prerequisite(s): Completion of AMT 260 or permission of instructor.

The use of composite materials has gained wide acceptance within many construction regimes, including aviation and aerospace, automotive, boating, medical and railroad industries, to name just a few. This course will provide the student with theoretical and practical application knowledge through lecture and lab project experience in the latest fiber and fiber placement technology, including wet lay-up techniques and pre-impregnated materials, and composite materials terminology. Knowledge and skills learned can be used in any situation requiring composite materials knowledge, not only the aviation situation on which the course work is based.

Three hours lecture; three hours laboratory.

AMT 290* AIRFRAME AND POWERPLANT UPGRADE (6)

Prerequisite(s): None

This course is designed for those individuals who meet the experience requirement for the Airframe and Powerplant Certificate as stipulated in the Federal Aviation Regulation Part 65, and who qualify to take the Federal Aviation Administration's (FAA) written examination for airframe and/or powerplant. Course not open to AMT students.

Six hours lecture.

AMT 294 FIELD EXPERIENCE IN AVIATION MAINTENANCE TECHNOLOGY (1-6)

Prerequisite(s): A declared major in aviation maintenance technology and completion of Phase 3. Permission and approval of a cooperative education program coordinator.

A supervised cooperative education work experience involving the combined efforts of educators and employers to accomplish career objectives in aviation maintenance technology and related fields. Variable credit (1-6) is available by special arrangement. May be taken four times for a maximum of 16 credit hours, with no more than six credits in a given semester.

AMT 295* PRACTICUM AVIATION MAINTENANCE TECHNOLOGY UPGRADING (6)

Prerequisite(s): None

Three categories of students will be eligible to take this course:

- students who have completed AVN 290;
- students who have passed the written FAA airframe and/or powerplant mechanic's examination; and
- students who hold a current FAA Airframe and/or Powerplant License.

An upgrade or refresher course in aviation maintenance technology with emphasis on the development of practical skills required in the 43 subject areas of the aviation maintenance occupation as outlined in the FAA's Advisory Circular 65-2D. This course is not open to A & P students, as it does not meet degree requirements.

Four hours lecture; six hours laboratory.

Avionics Technology

AVT 101 MATH FOR BASIC ELECTRONICS (3)

Prerequisite(s): One year high school algebra or equivalent.

A review of arithmetic and the study of algebraic principles necessary to provide the student with the tools needed to solve problems in electricity and electronics.

Three hours lecture.

AVT 104* INTRODUCTION TO ELECTRONICS (7)

Prerequisite(s): AVT 101 or equivalent (AVT 101 may be taken concurrently).

An introduction to direct and alternating current circuits, with emphasis on Ohm's Law, Kirchoff's Laws and network theorems used in the analysis of basic electronic circuits.

Five hours lecture; six hours laboratory.

AVT 107* AVIONICS FUNDAMENTALS (6)

Prerequisite(s): AVT 104 or concurrent enrollment or successful completion of a department assessment test.

An introduction to avionics fundamentals with emphasis on the navigation and communication systems required to support flight operations.

Four hours lecture; four hours laboratory.

AVT 112* ELECTRONIC DEVICES AND CIRCUITS I (6)

Prerequisite(s): AVT 104

The study of semiconductor devices to an operational level. Major emphasis will be placed on analysis of diodes, power supplies, filters, transistor and field effect transistor amplifiers, stressing the importance of DC biasing, AC signal analysis, load lines, hybrid parameters, and troubleshooting multistage systems.

Four hours lecture; four hours laboratory.

AVT 115* DIGITAL AND MICROPROCESSOR FUNDAMENTALS (6)

Prerequisite(s): AVT 104

A study of digital concepts, logic elements and logic with emphasis on combinational logic, sequential logic, memory circuits, and support circuits of various components that together form the microprocessor.

Six hours lecture; four hours laboratory.

AVT 118* PULSE AND DIGITAL CIRCUITS (6)

Prerequisite(s): AVT 104

A study of the components and circuitry most often encountered for pulse shaping and time delay in microcomputer systems. Major emphasis will be placed on RC networks, diodes and transistor switching circuits, and their applications.

Six hours lecture; four hours laboratory.

AVT 171 UAV AVIONICS TECHNICIAN (9)

Prerequisite(s): AMT 170; sponsored employee of the department of defense or of a DOD UAV contractor.

A study of unmanned aerial vehicle avionics focusing on development of the knowledge and skills necessary to safely operate, inspect, troubleshoot, and repair Hunter Unmanned Aerial Vehicle (UAV) avionics systems and subsystems down to the lowest replaceable unit (LRU). Emphasis on shelter theory of operation, performance criteria, data link operation, electrical power systems, emergency recovery systems and ground support equipment.

Four hours lecture; 13 hours laboratory.

AVT 202* ELECTRONIC COMMUNICATIONS (6)

Prerequisite(s): AVT 112

The study of basic communication concepts and circuits, including modulation techniques as well as radio transmitters, receivers, antennas, radar, microwave techniques, data communication techniques, fiber optics, high-tech communication components, circuits, and equipment.

Five hours lecture (72 clock hours); three hours laboratory (48 clock hours).

AVT 205* ELECTRONIC DEVICES AND CIRCUITS II (6)

Prerequisite(s): AVT 112

A continuation of Electronic Devices and Circuits I, including a study of MOSFETs, operational amplifiers, applications, and analysis of practical amplifier circuits, negative feedback, oscillators, solid-state switching circuits, thyristors, optoelectronic devices, and selected material covering other electronic devices.

Six hours lecture; four hours laboratory.

AVT 208 FCC/FAA REGULATIONS (4)

Prerequisite(s): AVT 112 and 115.

An in-depth study of the Federal Communications Commission examination, preparing the student to take the FCC test. Also, an introduction to the Federal Aviation Administration and its rules and regulations.

Four hours lecture.

AVT 220* NAVIGATION SYSTEMS (6)

Prerequisite(s): AVT 202 or concurrent enrollment in AVT 228 or successful completion of a departmental assessment test.

An introduction to aircraft navigation systems with emphasis on the navigation and communication systems required to support flight operations.

Four hours lecture (60 clock hours); four hours laboratory (60 clock hours).

AVT 224 FLIGHT MANAGEMENT/CONTROL SYSTEMS (4)

Prerequisite(s): AVT 107

An introduction to the principles, system analysis, and operation of flight director and automatic flight control systems.

Four hours lecture (60 clock hours).

AVT 228* AIRCRAFT RADAR SYSTEMS (6)

Prerequisite(s): AVT 118 or concurrent enrollment in AVT 220 or successful completion of a department assessment test.

An introduction to avionics fundamentals with emphasis on the navigation and communication systems required to support flight operations.

Four hours lecture (60 clock hours); four hours laboratory (60 clock hours).

AVT 294 FIELD EXPERIENCE IN AVIONICS TECHNOLOGY (1-6)

Prerequisite(s): Sophomore standing in a declared major and prior approval of cooperative education program coordinator.

A supervised cooperative education work experience involving the combined efforts of educators and employers to accomplish career objectives in avionics technology. Variable credit (1-6) is available by special arrangement. May be taken four times for a maximum of 16 credit hours, with no more than six credits in a given semester.

NOTE: Lower- and upper-division cooperative education courses may be combined but cannot exceed 16 credits.

Biological Sciences

BIO 101* GENERAL BIOLOGY (NON-MAJORS): SELECTED TOPICS (4)

Prerequisite(s): None

Recommended: MAT 082

Selected biological topics including methods used by biologists to make discoveries and evaluate scientific data, principles and concepts of biology with reference to the organization and function of cells, inheritance and man. Not open to majors in the biological sciences or the pre-professional curricula.

Three hours lecture; three hours laboratory.

BIO 105* ENVIRONMENTAL BIOLOGY (4)

Prerequisite(s): None

Recommended: MAT 082 and ENG 101.

Fundamentals of ecology and their relevance to human impact on natural ecosystems. An introductory course in environmental biology with emphasis on the major themes of ecology and environmental biology. The student will receive instruction covering evaluation of scientific data, resource management, principles of ecology, human ecology, ethics and politics of the environment movement. Open to non-biology majors.

Three hours lecture; three hours laboratory.

BIO 114 SPECIAL TOPICS IN BIOLOGY (.5-1)

Prerequisite(s): None

A rotating forum/seminar emphasizing biological science topics of current regional or global significance, which will vary with scientific advance and changes in student needs and interests. May be repeated up to four times for Cochise College credit. Cochise College elective credit only unless otherwise designated in degree programs.

Lecture and/or laboratory (8 to 16 hours per semester).

BIO 114A ECOLOGY OF THE SONORAN DESERT OF ARIZONA (1)

Prerequisite(s): None

A field study of the rich varied ecology of the Sonoran Desert in Arizona.

Weekend field trip or 16 hours lecture.

BIO 114C WILDLIFE OF SOUTHERN AFRICA (1)

Prerequisite(s): None

A study of the ecology of southern Africa, including current wildlife management systems, predator-prey relationships and bird life. Also includes a brief introduction to the relationship between the ecology and native cultures.

16 hours lecture.

BIO 114D TAXONOMY OF BIRDS (1)

Prerequisite(s): None

A practical introduction of species identification, using size, silhouette, behavior and natural setting. Arizona's 15 hummingbird species will illustrate the basics of bird taxonomy.

Weekend field trip.

BIO 114F WILDLIFE ECOLOGY AND ENVIRONMENTAL HAZARDS OF THE HUACHUCA MOUNTAINS (.5)

Prerequisite(s): None

An introductory study of the plants and wildlife of Southeastern Arizona, emphasizing their relationship to one another and to the environment. Includes information on poisonous reptiles and arachnids.

Weekend field trip or 8-16 hours of lecture.

BIO 114G FLORA AND FAUNA OF COCHISE COUNTY (.5-1)

Prerequisite(s): None

An overview of the varied Southeastern Arizona ecosystem in relationship to physical features such as altitude and surface water.

Weekend field trip or 8-16 hours of lecture.

BIO 114H CACTUS AND SUCCULENTS OF ARIZONA (.5-1)

Prerequisite(s): None

An introductory study of plant habitats, emphasizing barrel, beehive, hedgehog, pincushion, pineapple, prickly pear and button cacti, as well as century, ocotillo and desert spoon succulents. Includes seminar discussions and field presentations.

Weekend field trip or 16 hours of lecture.

BIO 114I BIRDS OF SOUTHEASTERN ARIZONA (1)

Prerequisite(s): None

A field-based study of Southeastern Arizona bird life, including the elegant trogon, painted redstart and numerous hummingbird species, emphasizing relationships to the natural environment.

Weekend field trip.

BIO 114J* DANGEROUS ANIMALS OF ARIZONA (1)

Prerequisite(s): None

An introduction to the dangerous animals of Arizona. Includes identification of species, their role in the ecosystem, preventing their invasion of our space, first aid and medical intervention needs.

16 hours lecture.

BIO 114K FRESHWATER ENVIRONMENTS OF COCHISE COUNTY (1)

Prerequisite(s): None

An introduction to the biology of freshwater environments of Cochise County, including marshes, ponds, lakes, streams and rivers. Both permanent and transient water sources are considered.

Weekend field trip.

BIO 114L BIOLOGY AND DESERT SURVIVAL (1)

Prerequisite(s): None

An introduction to survival in the Sonoran Desert of Arizona by using native plants, animals, and water sources. Includes evaluating and treating common survival injuries, poisons, and venoms.

Weekend field trip or 16 hours of lecture.

BIO 114M BIOLOGY AND CULTIVATION OF DESERT PLANTS (0.5-1)

Prerequisite(s): None

An introduction to native and drought-adapted plants and their cultivation and use in landscaping to reduce water use, improve wildlife habitat, and enhance the beauty of our communities.

Half lecture, half laboratory.

BIO 160* INTRODUCTION TO HUMAN ANATOMY AND PHYSIOLOGY (4)

Prerequisite(s): None

Recommended: MAT 082 and ENG 101.

Not for biology or pre-med majors. Examination of the systems of the human body. For students in health occupation programs which require a one-semester anatomy and physiology course, or to fulfill a one-semester laboratory science requirement.

Three hours lecture; three hours laboratory.

BIO 181* GENERAL BIOLOGY I (MAJORS) (4)

Prerequisite(s): None

Recommended: MAT 082 and ENG 101 and (high school chemistry or CHM 100 or CHM 130 or CHM 151).

Principles of structure and function of living things at molecular, cellular, and organismic levels of organization.

Three hours lecture; three hours laboratory.

BIO 182* GENERAL BIOLOGY II (4)

Prerequisite(s): BIO 181 or permission of instructor.

Recommended: General Chemistry

Additional principles of structure and function of living things at molecular, cellular and organismic and higher levels of organization.

Three hours lecture; three hours laboratory.

BIO 183* MARINE BIOLOGY (4)

Prerequisite(s): BIO 101 or BIO 105 or BIO 181.

Basic concepts of physical oceanography, marine habitats, plant and animal evolution, habitat and adaptation, interrelationships, taxonomy, and marine ecology. Emphasis on parameters of evolution, reproduction, and inter/intraspecific competition, food chains, adaptations and ecological balance.

Three hours lecture; three hours laboratory.

BIO 201* HUMAN ANATOMY AND PHYSIOLOGY I (4)

Prerequisite(s): High school biology with a grade of C or better or BIO 101 or BIO 105 or BIO 160 or BIO 181 or BIO 183 or BIO 184 or BIO 190.

Recommended: ENG 101

An integrated study of the physical, structural, and functional features of the cells, tissues, skeletal system, muscular system, and nervous system.

Three hours lecture; three hours laboratory. Discussion one hour (optional).

BIO 202* HUMAN ANATOMY AND PHYSIOLOGY II (4)

Prerequisite(s): BIO 201

An integrated study of the structural and functional features of the endocrine system, circulatory system, urinary system, respiratory system, digestive system, and reproductive system.

Three hours lecture; three hours laboratory. Discussion one hour (optional).

BIO 205* MICROBIOLOGY (4)

Prerequisite(s): BIO 101 or BIO 105 or BIO 160 or BIO 181 or BIO 183 or BIO 201.

Recommended: ENG 101 and MAT 082.

A survey of microbic life and fundamental biological types of all microorganisms; characteristics and importance of microorganisms; control of microorganisms and disease, and other aspects of applied microbiology.

Three hours lecture; three hours laboratory.

BIO 226* ECOLOGY (4)

Prerequisite(s): MAT 082 and ENG 101 and one of the following: BIO 101 or BIO 105 or BIO 160 or BIO 181 or BIO 183 or BIO 201.

An introduction to ecological concepts and methods in biology including: ecological niche, species diversity, population biology, ecosystems, life history strategies, environmental factors, environmental cycles, animal behavior and evolution, and their functions in the environment.

Three hours lecture; three hours laboratory; one Saturday field trip.

Botany

See Biological Sciences.

Business Administration

BUS 093 CULTURAL CONTEXT: CASE STUDIES (1)

Prerequisite(s): Concurrent enrollment in ESL 014 or permission of instructor.

Introduction to the social norms, cultural values and assumptions underlying workplace behavior, with emphasis on case studies and practical application.

Two hours laboratory.

BUS 104 BUSINESS MATHEMATICS (3)

Prerequisite(s): None

This course examines the fundamentals of business mathematics and the use of the number language to communicate in the business world. Identical to OAD 104. Basic mathematics background is suggested prior to enrolling.

Three hours lecture.

BUS 105 TECHNICAL REPORT WRITING (1)

Prerequisite(s): None

A practical overview of technical report writing with emphasis on clarity, conciseness, and precision of written language. Includes a review of English grammar and spelling, critical reading/summarizing techniques, and listening, note-taking, and proofreading.

BUS 109 SURVEY OF BUSINESS (3)

Prerequisite(s): None

This course examines the fundamental characteristics and functions of modern business, with emphasis on career opportunities.

Three hours lecture.

BUS 110* SURVEY OF INTERNATIONAL BUSINESS (3)

Prerequisite(s): None

A study of international business in a socio-political and multicultural context. This course focuses on the cultural, economic and political aspects of foreign environments and their effect on the operation of an international firm.

Three hours lecture.

BUS 123 HUMAN RESOURCE MANAGEMENT (3)

Prerequisite(s): None

A study of human resource management policies and techniques pertaining to the recruitment, selection, development, compensation, retention, evaluation, and promotion of personnel within an organization.

Three hours lecture.

BUS 125 MANAGEMENT AND ORGANIZATIONAL BEHAVIOR (3)

Prerequisite(s): None

Study of actions and attitudes of people in organizations. Focuses on the study of group behavior, interpersonal and intergroup relationships in an organization. Conceptual tools for analyzing behavior and managing group processes of conflict, communication and task accomplishments.

Three hours lecture.

BUS 126 EXPLORING YOUR POTENTIAL AS A MANAGER (3)

Prerequisite(s): None

A course to assist women in evaluating their aptitudes, capabilities and values, and relating this evaluation to possible career choices in the business world.

Three hours lecture.

BUS 127 LEADERSHIP AND SUPERVISION (3)

Prerequisite(s): None

In-depth study of the supervision and leadership functions in management. Case studies emphasized.

Three hours lecture.

BUS 131* INTERNATIONAL MANAGEMENT (3)

Prerequisite(s): None

An overview of managerial issues confronting managers doing business in the international sector, focusing on the design of the organization, political, legal, cultural and economic concerns, personnel issues and negotiating strategies.

Three hours lecture.

BUS 134* INTERNATIONAL MARKETING (3)

Prerequisite(s): None

An overview of the marketing principles involved in international business. This class will consider globalization, trade issues, and the application of the four Ps of marketing to the international business environment.

Three hours lecture.

BUS 143 PRINCIPLES OF MANAGEMENT (3)

Prerequisite(s): None

A study of managerial challenges relating to such issues as people, diversity, quality, ethnic, and the global environment. Managerial principles with emphasis on planning, organizing, motivating, and controlling for effective business decisions.

Three hours lecture.

BUS 145 PRINCIPLES OF MARKETING (3)

Prerequisite(s): None

A study of marketing principles involved in the distribution of goods and services from the producer to the ultimate consumer, including functions of wholesaling, retailing, direct selling, risk taking, and storage.

Three hours lecture.

BUS 146 INTRODUCTION TO ACCOUNTING (3)

Prerequisite(s): None

The basic accounting cycle for service and merchandising firms: analyzing business transactions, journalizing and posting entries, developing financial statements, administering end-of-accounting-period activities, controlling cash, and preparing payroll. Identical to OAD 146. Business math course or equivalent is suggested prior to enrolling.

Three hours lecture; one hour laboratory.

BUS 149 MERCHANDISING MANAGEMENT (3)

Prerequisite(s): None

Examines the organization and operation of retail outlets, trends and concepts in retail selling, problems in retailing both goods and services, and solutions for buying, selling, stocking, servicing and controlling in retail outlets.

Three hours lecture.

BUS 150 BUSINESS ETHICS (3)

Prerequisite(s): None

An introductory course in the application of moral philosophy to contemporary ethical and moral problems in business; an examination of individual, organizational, and macrolevel issues in business ethics. It will provide students with a framework that they can use to identify, analyze, and control ethical issues in business decision making.

Three hours lecture.

BUS 156 PRINCIPLES OF FINANCE (3)

Prerequisite(s): None

A study of the world of finance dealing with the relationship of money to our economy and an in-depth study of the role and techniques of financial management within a company.

Three hours lecture.

BUS 160 JOB SUCCESS SKILLS (3)

Prerequisite(s): None

A study of problem areas workers may encounter in obtaining and maintaining their employment including job seeking skills, dressing for success, decision making strategies, self-esteem, job stress, nutrition, communication skills and coping with stress as a working parent.

Three hours lecture.

BUS 167 BUSINESS COMMUNICATIONS (3)

Prerequisite(s): CIS 116 or equivalent proficiency and ENG 101 or ENG/OAD 111 with a grade of C or better, or placement into ENG 101.

A study of business communications prepared in a business organization, including typical internal and external communications (letters, memos, proposals and reports). Emphasis will be on applying English fundamentals, usage, syntax and organization ideas, as well as using technology appropriately to conduct research and to create documents. This course also will stress listening and speaking skills. Identical to ENG 167 and OAD 167.

Three hours lecture.

BUS 168 CUSTOMER RELATIONS IN THE WORK PLACE (1)

Prerequisite: None

An exploration on the ways human beings relate to each other using specific typical problems that occur on a day-to-day basis within organizations. This course will serve as a foundation for improving human relations and personal management skills.

One hour lecture.

BUS 172* QUANTITATIVE METHODS IN BUSINESS (3)

Prerequisite(s): MAT 151 or permission of instructor.

This course concentrates on business applications of quantitative optimization methods in operations management decisions. Quantitative methods and modeling to support business decision making will be the focus.

Three hours lecture.

BUS 179 APPLIED TECHNICAL WRITING (3)

Prerequisite(s): ENG 100 (C or better) or placement into ENG 101. College-level reading.

An applied skill course on writing clear organizational reports and communications. Assignments will stress the processes and products for reporting technical information with emphasis on writing mechanics/syntax, forms/formats and technical style. Identical to CIS 179 and ENG 179.

Three hours lecture.

BUS 180* COMPUTERIZED ACCOUNTING (3)

Prerequisite(s): None

Course includes the use of automated accounting software to complete general ledger, accounts payable, accounts receivable and payroll reports. Basic bookkeeping or accounting background is suggested prior to enrolling.

Three hours lecture.

BUS 183 STARTING A BUSINESS (3)

Prerequisite(s): None

Recommended: Computer and Internet literacy.

A primer on business success emphasizing investigation and evaluation of business opportunities. The course also will emphasize the acquisition of skills and knowledge to establish the business, including practical problems in marketing, financial analysis and control, and management and organization.

Three hours lecture.

BUS 192 APPLICATIONS IN MANAGEMENT DEVELOPMENT (.5)

Prerequisite(s): None

Seminars designed for professional and personal skill enhancement with emphasis on the mastery and effective utilization of the topic under study. Each seminar provides a minimum of eight hours of instruction.

Thirty minute lecture.

- 192A Business Communications and Writing Skills
- 192B Making Presentations with Confidence and Power
- 192C Communicating Across Cultures
- 192D Fundamentals of Supervision
- 192E Personnel Aspects of Supervision
- 192F Leadership Techniques for Technical Managers
- 192G Conflict Resolution
- 192H Thinking Beyond the Boundaries
- 192I Harmony in the Workplace
- 192J Self-Directed Work Teams
- 192K Management Skills for Support Staff
- 192L Leading Organizational Change
- 192M Positive Approaches to Change
- 192N Proofreading, Editing and Grammar Skills
- 192O Customer Service - A Positive Approach

- 192P Introduction to Grant Writing
 192Q Intermediate Grant Writing
 192R Positive Approaches to Difficult People
 192S Mastering Negativity
 192T Coping with Stress
 192U Project Management
 192V Starting a Small Business
 192W Writing a Winning Business Plan
 192X Marketing Small Business on the Internet
 19 Developing a Safety Program for Business
 192Z Coaching and Counseling for Supervisors
 A192 Writing an Effective Contract Proposal
 B192 Introduction to QuickBooks for Windows, Part I
 (identical to CIS U192)
 C192 Intermediate QuickBooks for Windows, Part II
 (prerequisite(s): BUS B192/CIS U192 or equivalent
 experience) (identical to CIS V192)
 D192 Ethics in Government

BUS 201* FINANCIAL ACCOUNTING (3)

Prerequisite(s): BUS 104 or OAD 104 or MAT 151.

An introductory course in gathering, recording and using the financial data of a business: the accounting cycle, debits and credits, classification of accounts, recording of transactions and preparation of financial statements for single proprietorships, partnerships, and corporations.

Three hours lecture; two hours laboratory.

BUS 202* MANAGERIAL ACCOUNTING (3)

Prerequisite(s): BUS 201

An introductory course in accounting concepts, methods and techniques used by managers to support financial and operational decision-making within an organization.

Three hours lecture; two hours laboratory.

BUS 219 BUSINESS STATISTICS (3)

Prerequisite(s): MAT 151

Introductory topics of business statistics such as data presentation, data summarization, probability, probability distributions, sampling distributions, elementary decision-making, estimation of population means, testing of hypotheses, analysis of variance and regressive analysis.

Three hours lecture.

BUS 220 BUSINESS STATISTICS (3)

Prerequisite(s): BUS 219

Testing and estimation, statistical inference, variance analysis, regression, correlation, time series, and index number application.

Three hours lecture.

BUS 224 FIELD EXPERIENCE IN BUSINESS ADMINISTRATION (1-6)

Prerequisite(s): A declared major in business administration and prior approval of cooperative education program coordinator.

Recommended: Sophomore standing.

A supervised cooperative education work experience involving the combined efforts of educators and employers to accomplish career objectives in business administration. Variable credit (1-6) is available by special arrangement. May be taken four times for a maximum of 16 credit hours, with no more than six credits in a given semester.

BUS 228 FINANCIAL PLANNING (3)

Prerequisite(s): BUS 104 or OAD 104 or BUS 146 or BUS 201.

An introduction to the principles and techniques of personal financial planning, including preparation of personal financial statements; budgeting; goal setting; investing; determining insurance needs; and tax, retirement, and estate planning. A strong emphasis will be placed on the process of drawing up a personal financial plan.

Three hours lecture.

BUS 229 BUSINESS INVESTMENTS (3)

Prerequisite(s): BUS 104 or OAD 104 or BUS 146 or BUS 201.

An introduction to the investment opportunities open to individual investors, including a description of available investment instruments, brokerage procedures, applicable rules and regulations, tax impacts and analysis techniques.

Three hours lecture.

BUS 230 MONEY AND BANKING (3)

Prerequisite(s): ECN 201

The practical aspects of money and banking, and monetary theory needed by the banking student. Students will be introduced to major private and public institutions in the field of money and banking, the three major traditional divisions of finance (corporate finance, investments, capital markets), the role of the Federal Reserve, and the growth of monetary aggregates and its impact on the economy.

Three hours lecture.

BUS 233 THE LEGAL ENVIRONMENT OF BUSINESS (3)

Prerequisite(s): None

An examination of the legal framework governing rules of conduct among businesses and its impact on establishing business policy.

Three hours lecture.

BUS 240 PRINCIPLES OF REAL ESTATE I (3)

Prerequisite(s): None

A course in basic real estate principles, including introduction to the profession and license law, definition of real property, legal descriptions, rights and interest in property, ownership, contracts, real estate economics, financing and foreclosures, use and valuation of property. This course is one of two courses required for the Arizona Real Estate salespersons' examination.

Three hours lecture.

BUS 241 PRINCIPLES OF REAL ESTATE II (3)

Prerequisite(s): Concurrent enrollment in BUS 240.

An advanced course in real estate, including escrow procedures and title insurance, liens and encumbrances, advanced contracts, water rights, toxic waste and environmental hazards, agency, ethics and professional relationships, real estate codes and the commissioners' rules, investment, property management and government restrictions, and real estate mathematics.

Three hours lecture.

BUS 245 SEMINAR: TRENDS AND PRACTICES IN BUSINESS (3)

Prerequisite(s): None

Recommended: Sophomore standing.

Applying problem-solving and decision-making techniques to practical business situations based on current readings in business. Designed to blend and apply current business theories and practices to meet class and individual needs. Course may be repeated for credit.

Three hours lecture.

BUS 280* ADVANCED COMPUTERIZED ACCOUNTING (3)

Prerequisite(s): BUS 180

A project approach to working with advanced computerized accounting concepts and a variety of computerized software.

Two hours lecture; three hours laboratory.

BUS 282 MANAGEMENT INFORMATION SYSTEMS (3)

Prerequisite(s): CIS 116 or CIS 120.

A study of the management sciences involved in meeting the informational needs of business, industry, governmental and educational agencies; a study of skills and knowledge of man versus machine to develop and design data processing systems in a problem-oriented approach.

Two hours lecture; one hour laboratory.

BUS 283* SMALL BUSINESS MANAGEMENT-A SEMINAR APPROACH (3)

Prerequisite(s): BUS 143, BUS 145, BUS 201, BUS 202 and CIS 181.

Analysis of the practical problems of organizing and managing a successful small business, practical problems in marketing, research, financial analysis and control, budgeting, management, and organization for small businesses are emphasized with the aid of the microcomputer.

Three hours lecture; one hour laboratory.

BUS 285* ELECTRONIC COMMERCE (3)

Prerequisite(s): CIS 116 or CIS 120 or CIS 185.

This is the final course for the International Business Certificate. Examines the components and practices of electronic commerce. Addresses advertising and marketing on the World Wide Web. Examines security and payment systems to support online transactions. Introduces writing web pages for business.

Three hours lecture.

Chemistry

CHM 100* PREPARATION FOR CHEMISTRY (4)

Prerequisite(s): MAT 082

Elements of general chemistry adapted to the needs of those students who have not had high school chemistry.

Three hours lecture; three hours laboratory.

CHM 130* FUNDAMENTAL CHEMISTRY (4)

Prerequisite(s): MAT 082

A one-semester course introducing fundamentals of general chemistry. Emphasis is placed on principles important to the understanding of human biological functions and related medical aspects. Especially adapted to the needs of students in nursing and other health related fields. Serves as a laboratory science for degree requirements.

Three hours lecture; three hours laboratory.

CHM 140* FUNDAMENTAL ORGANIC AND BIOCHEMISTRY (4)

Prerequisite(s): CHM 130 or CHM 151

Principles of organic and biochemistry designed for students who do not intend to take further chemistry, such as majors in nursing, agriculture, home economics and physical education.

Three hours lecture; three hours laboratory.

CHM 151* GENERAL CHEMISTRY I (4)

Prerequisite(s): MAT 122 or equivalent and one year of high school chemistry or CHM 100 or CHM 130 with a grade of C or better.

Introduction to the general principles of chemistry with emphasis on quantitative relationships, including properties of matter, chemical bonding and structure, nomenclature, chemical equations, stoichiometry, thermochemistry, states of matter, and aqueous solutions.

Three hours lecture; three hours laboratory.

CHM 152* GENERAL CHEMISTRY II (4)

Prerequisite(s): CHM 151

Introduction to the general principles of chemistry with emphasis on quantitative relationships, including acids and bases, equilibria, kinetics, nuclear chemistry, electrochemistry, and aspects of organic and biochemistry.

Three hours lecture; three hours laboratory.

CHM 235* GENERAL ORGANIC CHEMISTRY I (4)

Prerequisite(s): CHM 152

An introduction to the naming, structure, and properties of organic compounds with an emphasis on alkanes, stereochemistry, alkyl halides, alkenes, and NMR spectroscopy. Mechanisms and synthesis will be major themes studied in order to reveal the relationships between these different classes of compounds.

Three hours lecture; three hours laboratory.

CHM 236* GENERAL ORGANIC CHEMISTRY II (4)

Prerequisite(s): CHM 235

A continuation of an introduction to the naming, structure, and properties of organic compounds with an emphasis on alcohols, ethers, epoxides, alkynes, aromatics, ketones, aldehydes, amines, carboxylic acids and their derivatives, enols, and enolate ions. Mechanisms and synthesis will be major themes studied in order to reveal the relationships between these different classes of compounds.

Three hours lecture; three hours laboratory.

Civil Engineering Technology

CET 100 ENGINEERING SURVEY I (3)

Prerequisite(s): None

Mensuration through the application of surveying techniques; theory of errors and their analysis; fundamental concepts of horizontal, vertical, and angular measurements; basic surveying operations and computations, control systems, and datums for engineering surveys; locating and positioning man-made structures.

Two hours lecture; four hours laboratory.

CET 101 ENGINEERING SURVEY II (3)

Prerequisite(s): CET 100

Advantages, disadvantages and restriction of various methods used in surveying and mapping; principles of directional control; geodetic relationships and subdivision layout.

Two hours lecture; three hours laboratory.

Communications

COM 091 PRONOUNCING ENGLISH (1)

Prerequisite(s): Placement test.

Introduction to the sounds, rhythm, stress patterns, and intonation of English, with emphasis on those aspects of the oral language that make it easier to understand and to be understood.

Two hours laboratory.

COM 100 INTRODUCTION TO COMMUNICATION (3)

Prerequisite(s): None

A study of and practice in basic oral communication for transitional students. The study includes basics of oral communication in interpersonal, small group, and large group situations. Included are: 1) a study of what is involved in oral communications; and 2) practice in communication both as a speaker and a listener.

Three hours lecture/discussion.

COM 102 ESSENTIALS OF COMMUNICATION (3)

Prerequisite(s): Placement in ENG 101 or ENG 100.

A study of the communication process as it relates to all communication (one-to-one dialogs, small- group discussions, and large group speaking situations), with an emphasis on communicating with an audience. The study includes basics in all communication: choosing and researching a topic, organizing material for speaking, and delivering speeches of information, persuasion, and demonstration.

Three hours lecture.

COM 109 PUBLIC SAFETY COMMUNICATIONS (3)

Prerequisite(s): Placement in ENG 101 or completion of ENG 100.

Theory and practice of encoding and decoding electronically-transmitted messages: radio, telephone, teletype, computer; FCC regulations; strategies to reduce ambiguity in messages; vocational report writing; telephone interviewing; call prioritization; police, fire, and medical dispatching; interagency cooperation; radio procedures for pilots.

Three hours lecture.

COM 110 PUBLIC SPEAKING (3)

Prerequisite(s): COM 102, a high school speech course or permission of instructor.

A study of public speaking, beginning with a review of the fundamentals of speech as they relate to communicating with an audience, continuing with a study of theories and techniques of persuasion with practical application and an analysis of various types of speeches with practice in researching, constructing and delivering speeches of each type. Includes a study of the basics in parliamentary procedure and public discussion with practice in participating in and leading parliamentary meetings.

Three hours lecture; discussion and presentation of speeches.

COM 115 ARGUMENTATION AND DEBATE (3)

Prerequisite(s): COM 102 or permission of instructor.

A course in practical reasoning, appraisal and use of evidence, recognition of fallacies and application of debate forms and oral style of argumentation. Intercollegiate debate optional for class members.

Three hours lecture.

COM 193 SPECIAL TOPICS IN COMMUNICATIONS (1)

Prerequisite(s): None

A rotating forum/seminar emphasizing a variety of communication skills ranging from telephone use to interpersonal and small-group skills to formal public speaking. Topics will vary according to changes in student need and interest.

One hour lecture.

- COM 193A Coping with "Stage Fright"
- COM 193B Diversity Issues
- COM 193C Gender Differences in Communication
- COM 193D "Difficult" People
- COM 193E Improving Small Group Communication
- COM 193F Improving Group Problem Solving
- COM 193G Preparing for and Running Public Meetings

COM 204 ELEMENTS OF INTERCULTURAL COMMUNICATION (3)

Prerequisite(s): ENG 101 or permission of instructor.

Introduction to communication between cultures. Emphasis will be on understanding and applying practical communication strategies and skills so as to communicate effectively with people of diverse cultural backgrounds in a multicultural society and world. (Identical to AJS 204).

COM 270 INTERPERSONAL COMMUNICATIONS (3)

Prerequisite(s): ENG 101

A course to develop self-awareness and insight into interpersonal relationships with emphasis upon the development of communication skills and techniques for one-on-one professional communication. Identical to SSV 270.

Three hours lecture.

COM 271 COMMUNICATIONS IN SMALL GROUPS (3)

Prerequisite(s): SSV 270 or COM 270 or permission of instructor.

A continuation of COM 270 and SSV 270 refining skills and techniques learned and adding analysis and presentation with emphasis on small-group communication processes. Identical to SSV 271.

Three hours lecture.

Computer Information Systems

CIS 101 INTRODUCTION TO COMPUTER INFORMATION SYSTEMS (1)

Prerequisite(s): None

A brief, introductory class in computer information systems. Students will be exposed to the two major operating systems used on personal computers (Windows and Unix). Students will install the operating systems, connect to network resources, install and start applications, use the Internet, and attach a printer.

Three hours laboratory.

CIS 105 INTRODUCTION TO INFORMATION SECURITY (1)

Prerequisite(s): None

Provides a concentrated examination of information security. Examines security models, auditing and intrusion detection, damage control and network security. Emphasis is on the impact of information security on an organization and its management.

One hour lecture.

CIS 114 INTRODUCTION TO THE PERSONAL COMPUTER (3)

Prerequisite(s): None

An introduction to the uses of the personal computer. Emphasis will be placed on how the state-of-the-art personal computer works, using the operating system and word processing software, and an introduction to the Internet. This course is not transferable and does not fulfill the information literacy requirement.

Three hours lecture.

CIS 116 LEARNING TO USE THE PERSONAL COMPUTER (3)

Prerequisite(s): None

An introduction to the uses of the personal computer. Emphasis will be placed on how the state-of-the-art personal computer works, using the operating system and using word processing software. Also included are introductions to the Internet, spreadsheets and presentation software. This course is taught in a hands-on environment.

Three hours lecture.

CIS 120* INTRODUCTION TO INFORMATION SYSTEMS (3)

Prerequisite(s): None

Basic computer hardware and software concepts, computer terminology, problem solving and program development concepts, with emphasis on general practices and aims of business computing systems and data collection, computer ethics, Internet, security, info systems and hands-on experience using application software systems.

Three hours lecture.

CIS 125 TELECOMMUNICATIONS TECHNIQUES (3)

Prerequisite(s): None

A study of the methods of telecommunication. Topics include transmission techniques, telephonic systems, satellite communication systems, local and wide area networks, software and hardware considerations, and telecommunications applications.

Three hours lecture.

CIS 128* UNIX OPERATING SYSTEM (4)

Prerequisite(s): None. This course is for students with little or no knowledge or experience with the Unix operating system. It is also suitable for students wanting college credit for existing Unix knowledge and skills.

An introductory course in the Unix operating system. Topics include the history, internal organization, directory and file system, vi editor, user commands and utilities, the shell, and an introduction to shell programming.

Three hours lecture; three hours laboratory.

CIS 129* INTRODUCTION TO PROGRAMMING LOGIC (1)

Prerequisite(s): None

An introduction to software and programming concepts for students interested in visual or scripting languages. Topics include notations, data, operators, sequence, selection, repetition, and subprograms.

One hour lecture.

CIS 130 PROGRAMMING LOGIC (3)

Prerequisite(s): None

A course in software and programming concepts. Topics include methodologies, notations, data, operators, sequence, selection, repetition, subprograms, composite data types, input/output, data files and the software development life cycle.

Three hours lecture.

CIS 140 INTRODUCTION TO OPERATING SYSTEMS (3)

Prerequisite(s): None

Recommended: CIS 116

An introduction to personal computer operating systems with emphasis on the use of basic file manipulation and user interface features of the current version of the Microsoft Windows operating system; configuration and customization of Microsoft Windows; and simple file and directory manipulation under MS-DOS and UNIX.

Three hours lecture; one hour laboratory.

CIS 142 PC AND PRINTER SUPPORT (3)

Prerequisite(s): CIS 140 or placement exam.

Designed to provide basic and introductory information on computer servicing, enabling the average PC user to diagnose and repair simple problems. Simple configuration and hardware problems will be covered along with PC setup and configuration, floppy and hard disk drives, and replacing and diagnosing major peripheral problems. Students will be able to solve many of the most common printer and PC configuration problems. This course is taught in a hands-on environment.

Two hours lecture, three hours laboratory.

CIS 150* ESSENTIALS OF NETWORKING (3)

Prerequisite(s): None

Networking is the fastest growing area of computer office automation, offering resource sharing and group productivity technologies. This course is presented as an introduction to networks and networking essentials. The student will study and compare the various methods used in PC communications and networking. Emphasis will be placed on the connectivity hardware and how it relates to the OSI model.

Three hours lecture.

CIS 160* INTRODUCTION TO INFORMATION SECURITY (3)

Prerequisite(s): None

Provides a concentrated examination of information security as it applies to computer information systems and networks. Examines security models, auditing, intrusion detection, damage control, and network issues. Emphasis is on the impact of information security on an organization and its management.

Three hours lecture.

CIS 162 SYSTEMS ADMINISTRATOR/NETWORK MANAGER SECURITY (3)

Prerequisite(s): Course restricted to department of defense authorized personnel. CIS 160 or permission of instructor and completion of the Local Area Networks, Concepts and Configuration course.

Recommended: Knowledge related to local area networks, configuration, and network operating systems.

A study of systems administration security, vulnerability and threats to computer systems, security-based software, and distributed operating systems. Topics include: Internet systems and security, distributed operating systems, operating environments; administration and security principles; system administration tasks and functions needed for proper security maintenance.

Three hours lecture.

CIS 179* APPLIED TECHNICAL WRITING (3)

Prerequisite(s): ENG 100 with a grade of C or better or placement into ENG 101. College-level reading.

An applied skills course on writing clear, applied organizational reports and communications. Assignments will stress the processes and products for reporting technical information with emphasis on writing mechanics/syntax, forms/formats and technical style. Identical to ENG 179.

Three hours lecture.

CIS 181 COMPUTER APPLICATIONS (3)

Prerequisite(s): CIS 116 with a grade of C or better.

An introduction to the uses of spreadsheet and database software on the personal computer. Emphasis in the spreadsheet will be placed on the use of labels, values and formulas and the development of charts and graphs and the role of the Internet in spreadsheets. Database emphasis will be on design, data entry, and creating queries, forms and reports.

Three hours lecture.

CIS 182 COMPUTER APPLICATIONS FOR MATH (3)

Prerequisite(s): MAT 122 with a grade of C or better.

A course in the use of current software packages to help students perform mathematical and technical word processing, computations, and graphing for mathematical application areas. Applications include spreadsheets, word processing, graphics, scanners and the operating system. No programming experience is necessary.

Three hours lecture.

CIS 185 INTRODUCTION TO THE INTERNET (3)

Prerequisite(s): CIS 116 with a grade of C or better.

An introduction to the Internet and its navigation. Emphasis is on the World Wide Web as a research tool. Use and management of electronic mail and file transfers are also covered. Strategies for conducting research on the Internet are developed. Basic HTML is addressed. No programming experience is necessary.

Three hours lecture.

CIS 192 COMPUTER APPLICATION ORIENTATION (.5)

Prerequisite(s): None

Personal/professional skill enhancement workshops focusing on various computer application software packages. Each session is dedicated to the mastery of a particular software application, with emphasis on the principles and effective use of the software under study.

Eight clock hours.

CIS 192J UNIX FOR USERS (.5)

Prerequisite(s): None

An introduction to the UNIX operating system. Emphasis is on the basic user commands and facilities of the UNIX operating system. Topics include: directory and file systems; electronic mail; shell scripts; password facility; commands; shell variables and editors.

Eight clock hours.

CIS 192Q MICROCOMPUTER ORIENTATION (.5)

Prerequisite(s): None

A condensed version of CIS 116. Includes basic hardware and software information; use of the keyboard and the mouse; introduction to the Windows operating system, and word-processing, spreadsheet, graphics softwares.

Eight clock hours.

CIS 192S FRONT PAGE 2000 (.5)

Prerequisite(s): None

A practical introduction to website creation using Microsoft Front Page 2000. Topics include the creation, editing, and publication of a website; and adding tables, hyperlinks, graphics, hit counters, lists, and search forms to created websites.

Eight clock hours.

CIS 192Z BEGINNING MICROSOFT WINDOWS (.5)

Prerequisite(s): None

An introduction to the current Windows operating environment. Topics include: program and desktop management; pull-down and main menus; changing windows arrangements; using help; use of the explorer to manipulate files; use of Windows applications and settings; copying and moving information; deleting information; and use of the taskbar.

Eight clock hours.

CIS A192 INTERMEDIATE MICROSOFT WINDOWS (.5)

Prerequisite(s): None

A continuation of CIS 192Z. Topics include: object linking and embedding; data exchange; customizing startup and program menus; adding and deleting software and hardware from the system; troubleshooting; program list handling; advanced explorer, accessories and an OLE exercise.

Eight clock hours.

CIS D192 BEGINNING EXCEL FOR WINDOWS (.5)

Prerequisite(s): None

An introduction to spreadsheets using Excel for Windows software. Topics include: creating the worksheet; editing the spreadsheet; using ranges and formulas; formatting the worksheet; and using functions.

Eight clock hours.

CIS E192 INTERMEDIATE EXCEL FOR WINDOWS (.5)

Prerequisite(s): None

A continuation of CIS D192. Topics include: creating and editing charts and graphs; printing the spreadsheets (all or part of); and linking spreadsheets.

Eight clock hours.

CIS F192 BEGINNING ACCESS FOR WINDOWS (.5)

Prerequisite(s): None

An introduction to databases using Access for Windows. Topics include: creating, modifying table design; finding, inserting, and deleting; copying records and values; selecting fields; sorting records; and creating simple queries and forms.

Eight clock hours.

CIS G192 INTERMEDIATE ACCESS FOR WINDOWS (.5)

Prerequisite(s): None

A continuation of CIS F192. Topics include: creating simple reports; converting existing database files to Access; using calculations in queries; creating calculated fields; and various controls to enhance forms and reports.

Eight clock hours.

CIS H192 ADVANCED TOPICS IN ACCESS FOR WINDOWS (1)

Prerequisite(s): None

A continuation of CIS G192. Topics include: embedding objects in forms and reports; working with subforms and subreports; sharing data; designing an application; and creating advanced elements and objects.

Sixteen clock hours.

CIS I192 ADVANCED TOPICS IN ACCESS FOR WINDOWS (2)

Prerequisite(s): None

A continuation of CIS H192. Topics include: using macros and Access basic; creating switchboards; establishing security; running, testing and debugging applications; repairing and maintaining databases.

Thirty-two clock hours.

CIS J192 BEGINNING WORD FOR WINDOWS (.5)

Prerequisite(s): None

An introduction to word-processing. Topics include: setting tabs/margins; bolding, underlining, centering; document converting; saving in other formats; using headers/footers; indenting; using special characters; proof-reading tools; getting help; and printing documents.

Eight clock hours.

CIS K192 INTERMEDIATE WORD FOR WINDOWS (.5)

Prerequisite(s): None

A continuation of CIS J192. Topics include: tables; formulas; macros; mailmerge; sorting multilevel lists; envelopes/labels; tools and options; spreadsheet import/linking; graphics; styles and wizards.

Eight clock hours.

CIS L192 BEGINNING GRAPHICS FOR WINDOWS (.5)

Prerequisite(s): None

An introduction to graphics. Topics include: planning, developing and preparing graphic presentations; slides; slide master; fonts, text and text placement; graphics; transitions and templates; and importing text and graphics from other applications.

Eight clock hours.

CIS M192 INTERMEDIATE GRAPHICS FOR WINDOWS (.5)

Prerequisite(s): None

A continuation of CIS L192. Topics include: charting and graphing; advanced text and graphic import; linking to other Windows documents; using DDE and OLE; creating masters and templates; using graphics objects; and an introduction to multi-media presentations.

Eight clock hours.

CIS O192 OUTLOOK FOR WINDOWS (.5)

Prerequisite(s): None

This software provides desktop tools for the office. Topics include: Outlook bar; inbox tools; message recall; message flag; autopreview; contacts feature; task list calendar, and journal.

Eight clock hours.

CIS Q192 USING THE INTERNET, PART 1 (.5)

Prerequisite(s): None

An introduction to the Internet. Topics include: history of the Internet; how the Internet works; Internet ethics and netiquette; using Netscape; search engines; using a remote computer with the Internet; retrieving files using FTP, and using Eudora email.

Eight clock hours.

CIS R192 USING THE INTERNET, PART 2 (.5)

Prerequisite(s): None

A continuation of CIS Q192. Topics include: Netscape browser; maximizing new search engines; using FTP to acquire files, graphics and information; using JPEG, motion pictures and sound files.

Eight clock hours.

CIS S192 BUILDING A HOME PAGE ON THE INTERNET (.5)

Prerequisite(s): None

Students will design home pages on the Internet using hyper text markup language (HTML); add, alter and enhance home pages with color counters and graphics; add hyperlinks to other locations; effectively use color and graphics.

Eight clock hours.

CIS T192 DOING BUSINESS ON THE INTERNET (.50)

Prerequisite(s): None

A class designed for small-business owners. Topics include: how to use the Internet to expand customer contacts, market products and services, and enhance customer service; how the Internet can assist in business planning and decision making; how to send and receive email; learn new marketing strategies; and research government and financial information needed to start a business.

Eight clock hours.

CIS U192 INTRODUCTION TO QUICKBOOKS FOR WINDOWS, PART 1 (.5)

Prerequisite(s): None

An accounting software class designed for small-business owners. Topics include: installation of the software; setting up the business books; managing inventories and creating invoices; receiving payments (deposits); writing checks; and tracking customers, clients or jobs.

Eight clock hours.

CIS V192 INTERMEDIATE QUICKBOOKS FOR WINDOWS, PART 2 (.5)

Prerequisite(s): None

A continuation of CIS U192. Topics include: customizing software for individual businesses; customizing reports; time tracking and job costing; payroll reports; balance sheet reports; and year-end reports for tax purposes.

Eight clock hours.

CIS W192 USING ADOBE PHOTOSHOP 5.0 (.5)

Prerequisite(s): Windows and computer experience.

A practical introduction to digital imaging. Topics include touching up distressed and improperly exposed photographs, colorizing grayscale images, adjusting image colors and contrast, using filters, image layering, and saving images for use on the World Wide Web.

Eight clock hours.

CIS 193 CURRENT COMPUTER APPLICATIONS (1)

Prerequisite(s): None

One-unit modules designed for personal/professional improvement. Students learn principles and practices of various computer applications. Each session covers mastery of a particular application, with emphasis on the effective use of the application under study.

One hour lecture.

CIS 193A	Computerized Digital Imaging I
CIS 193B	Computerized Digital Imaging II
CIS 193C	Computerized Digital Imaging III
CIS 193D	Computerized Graphics I
CIS 193E	Computerized Graphics II
CIS 193F	Computerized Graphics II
CIS 193G	PC Operating Systems I
CIS 193H	PC Operating Systems II

CIS 193I	PC Operating Systems III
CIS 193J	Spreadsheets I
CIS 193K	Spreadsheets II
CIS 193L	Spreadsheets III
CIS 193M	PowerPoint 2000 I
CIS 193N	PowerPoint 2000 II
CIS 193O	PowerPoint 2000 III
CIS 193P	Personal Computer Basics
CIS 193Q	Laptop Basics
CIS 193R	Intro to Computer Information Systems I
CIS 193S	Intro to Computer Information Systems II
CIS 193T	Intro to Computer Information Systems III
CIS 193U	Introduction to Email
CIS 193V	Word Processing I
CIS 193W	Word Processing II
CIS 193X	Word Processing III
CIS 193Z	Introduction to Outlook 2000
CIS A193	Slicing and Dicing Webpages
CIS B193	Computer Animation I
CIS C193	Computer Animation II
CIS D193	Computer Animation III
CIS E193	Building Homepages I
CIS F193	Building Homepages II
CIS G193	Building Homepages III
CIS 201	PASCAL (4)

Prerequisite(s): MAT 082 with a grade of C or better and CIS 130 with a grade of C or better or pass the placement exam.

A beginning course in the PASCAL programming language. Topics include syntax and semantics, data types, operators, looping structures, decision structures, subprograms, arrays, pointers and file handling.

Three hours lecture; three hours laboratory.

CIS 202 COBOL PROGRAMMING (4)

Prerequisite(s): CIS 130 with a grade of C or better or pass placement exam.

A detailed study of the COBOL programming language and the organization of a COBOL program. Computer organization, data structure, program procedures, input/output and operation considerations.

Three hours lecture; three hours laboratory.

CIS 203 FORTRAN PROGRAMMING (4)

Prerequisite(s): CIS 130 with a grade of C or better or pass the placement exam and MAT 151 with a grade of C or better or pass the placement exam.

A detailed study of the FORTRAN programming language to include organization of data structures, input/output operations, and control considerations. Structured programming practices are used.

Three hours lecture; three hours laboratory.

CIS 204* C PROGRAMMING (4)

Prerequisite(s): CIS 130 with a grade of C or better or pass the placement exam.

A beginning course in the C programming language. Topics include syntax and semantics, data types, operators, looping structures, decision structures, functions, arrays, pointers and file handling.

Three hours lecture; three hours laboratory.

CIS 205 ADA PROGRAMMING (4)

Prerequisite(s): CIS 130 with a grade of C or better or pass the placement exam.

A beginning course in the ADA programming language. Topics include syntax and semantics, data types, operators, looping structures, decision structures, functions, procedures, packages, exception handlers and file handling.

Three hours lecture; three hours laboratory.

CIS 206 ASSEMBLER WITH ARCHITECTURE (4)

Prerequisite(s): CIS 130 with a grade of C or better or pass the placement exam and CIS 221 with a grade of C or better.

A detailed study of the 8088/8086 Assembly Programming language that takes individual instructions written in symbolic form and converts them into machine language. Includes an introduction to the organization and structure of the major hardware components of a micro-computer to include primary memory, the control unit and the arithmetic logic unit.

Three hours lecture; three hours laboratory.

CIS 208* JAVA PROGRAMMING (4)

Prerequisite(s): CIS 130 with a grade of C or better or pass the placement exam.

A beginning course in the JAVA programming language. Topics include object-oriented programming concepts, terminology, notation, and the syntax and semantics of the JAVA programming language.

Three hours lecture, three hours laboratory.

CIS 209 ADVANCED JAVA PROGRAMMING (4)

Prerequisite(s): CIS 208 with a grade of C or better.

An advanced course in the JAVA programming language, covering such topics as JAVA networking implementations, JAVA security features, the JAVA foundation classes, World Wide Web components, and handling graphics and other media.

Three hours lecture; three hours laboratory.

CIS 218 VISUAL BASIC PROGRAMMING (4)

Prerequisite(s): CIS 130 with a grade of C or better or pass the placement exam and CIS 140 with a grade of C or better.

A study of the fundamentals of computer programming within the Windows environment. Emphasis is placed on visual basic, objects, projects and simple Windows programs.

Three hours lecture; three hours laboratory.

CIS 220A DATA STRUCTURES ADA (4)

Prerequisite(s): CIS 130 with a grade of C or better or the CIS 130 waiver exam, and CIS 205 with a grade of C or better.

A course in data structures and advanced programming concepts. Topics include the design, implementation and application of stacks, queues, lists, trees, sequential and direct access to files. Students will implement the data structures in ADA.

Three hours lecture; three hours laboratory.

CIS 220B DATA STRUCTURES-ASSEMBLER (4)

Prerequisite(s): CIS 130 with a grade of C or better or the CIS 130 waiver exam, and CIS 206 with a grade of C or better.

A course in data structures and advanced programming concepts. Topics include the design, implementation and application of stacks, queues, lists, trees, sequential and direct access to files. Students implement the data structures in Assembler.

Three hours lecture; three hours laboratory.

CIS 220C DATA STRUCTURES-C (4)

Prerequisite(s): CIS 130 with a grade of C or better or the CIS 130 waiver exam, and CIS 204 with a grade of C or better.

A course in data structures and advanced programming concepts. Topics include the design, implementation and application of stacks, queues, lists, trees, sequential and direct access to files. Students will implement the data structures in C.

Three hours lecture; three hours laboratory.

CIS 220D DATA STRUCTURES-C++ (4)

Prerequisite(s): CIS 130 with a grade of C or better or the CIS 130 waiver exam, and CIS 227 with a grade of C or better.

A course in data structures and advanced programming concepts. Topics include the design, implementation and application of stacks, queues, lists, trees, sequential and direct access to files. Students implement the data structures in C++.

Three hours lecture; three hours laboratory.

CIS 220E DATA STRUCTURES-COBOL (4)

Prerequisite(s): CIS 130 with a grade of C or better or the CIS 130 waiver exam, and CIS 202 with a grade of C or better.

A course in data structures and advanced programming concepts. Topics include the design, implementation and application of stacks, queues, lists, trees, sequential and direct access to files. Students implement the data structures in COBOL.

Three hours lecture; three hours laboratory.

CIS 220F DATA STRUCTURES-FORTRAN (4)

Prerequisite(s): CIS 130 with a grade of C or better or the CIS 130 waiver exam, and CIS 203 with a grade of C or better.

A course in data structures and advanced programming concepts. Topics include the design, implementation and application of stacks, queues, lists, trees, sequential and direct access to files. Students implement the data structures in FORTRAN.

Three hours lecture; three hours laboratory.

CIS 220G DATA STRUCTURES-PASCAL (4)

Prerequisite(s): CIS 130 with a grade of C or better or the CIS waiver exam, and CIS 201 with a grade of C or better.

A course in data structures and advanced programming concepts. Topics include the design, implementation and application of stacks, queues, lists, trees, sequential and direct access to files. Students implement the data structures in PASCAL.

Three hours lecture; three hours laboratory.

CIS 220J DATA STRUCTURES-JAVA (4)

Prerequisite(s): CIS 130 with a grade of C or better or the CIS waiver exam, and CIS 208 with a grade of C or better.

A course in data structures and advanced programming concepts. Topics include the design, implementation and application of stacks, queues, lists, trees, sequential and direct access to files. Students implement the data structures in JAVA.

Three hours lecture; three hours laboratory.

CIS 221 DIGITAL LOGIC (3)

Prerequisite(s): One semester of programming with a grade of C or better or one semester of networking with a grade of C or better.

Number systems, conversion methods, binary and complement arithmetic, Boolean and switching algebra, circuit minimizations, ROMs, PLAs, flipflops, synchronous sequential circuits, register transfer design.

Three hours lecture and/or laboratory.

CIS 222 COMPUTER ARCHITECTURE (3)

Prerequisite(s): CIS 130 and MAT 227.

An introduction to the organization and structuring of the major hardware components of a microcomputer to include primary memory, control unit and arithmetic logic. The student will study machine data representation, the mechanics of information transfer and control within a digital computer system, and the fundamentals of logic design.

Three hours lecture.

CIS 223 ADVANCED VISUAL BASIC PROGRAMMING (4)

Prerequisite(s): CIS 218 with a grade of C or better.

An examination of advanced topics in Windows programming and Visual Basic. Topics include file access, data base access, help system development and graphics. Emphasis is placed on the development of Windows systems to include specification, development and documentation.

Three hours lecture; three hours laboratory.

CIS 227* C++ PROGRAMMING (4)

Prerequisite(s): CIS 130 with a grade of C or better or pass the placement exam.

A beginning course in object-oriented programming using the C++ language. Topics include object oriented concepts, terminology, notation, and the syntax and semantics of the C++ language.

Three hours lecture; three hours laboratory.

CIS 229* UNIX SYSTEM ADMINISTRATION (4)

Prerequisite(s): CIS 248 with a grade of C or better or CIS 257 with a grade of C or better.

An introductory course in UNIX system administration. Topics include: starting and stopping the system; security; administering users, groups, file systems, terminals, printers, disks; electronic mail; backing up the system; tuning and troubleshooting the system.

Three hours lecture; three hours laboratory.

CIS 232 DIGITAL COMMUNICATIONS AND NETWORK HARDWARE(4)

Prerequisite(s): CIS 150 with a grade of C or better and one of the following: CIS 128, CIS 234, CIS 236, with grades of C or better.

Binary and hex number systems, Boolean algebra, circuit optimization, switches, routers, firewall configuration and installations. Implement network management.

Three hours lecture; three hours laboratory.

CIS 234 INTRODUCTION TO NOVELL NETWORKS (4)

Prerequisite(s): CIS 140 and CIS 150, with grades of C or better.

The Local Area Network (LAN) is among the more important tools that supports office automation. Novell NetWare is one of the market leaders in LAN operating systems. This course is presented as an introduction to the administration of LANs. The student will study network configuration and operation.

Three hours lecture; three hours laboratory.

CIS 235 NOVELL NETWORK MANAGEMENT (4)

Prerequisite(s): CIS 234 with a grade of C or better.

This course is designed for individuals who manage a Novell network and is the third in a series of networking courses. Topics include Novell's client-server platform, supervisor utilities, server and workstation configuration, network security, file server memory, utilization and tuning, network management procedures and design concepts.

Three hours lecture; three hours laboratory.

CIS 236 MICROSOFT BUSINESS DESKTOP COMPUTER OPERATING SYSTEMS (4)

Prerequisite(s): CIS 150 with a grade of C or better.

Microsoft NT workstation is becoming the standard office platform. Students learn the features of workstation, the utilization of the workstation desktop, efficient file handling, creating a functional user environment, utilizing the workstation as a server and the administration of the workstation as a server. Students learn to use troubleshooting skills to overcome simple and complex problems in the workstation environment.

Three hours lecture; three hours laboratory.

CIS 237 ADVANCED MICROSOFT NETWORK MANAGEMENT (4)

Prerequisite(s): CIS 236 with a grade of C or better.

This course concentrates on the advanced techniques required to effectively administer a Microsoft network. This includes the installation and use of Windows NT server and remote administration products, as well as the concepts behind the Microsoft network. The course currently concentrates on Microsoft Windows NT server products, preparing the student to serve as a network administrator utilizing Microsoft products.

Three hours lecture; three hours laboratory.

CIS 238 INTRODUCTION TO TRANSMISSION CONTROL PROTOCOL/INTERNET PROTOCOL (3)

Prerequisite(s): CIS 237 with a grade of C or better.

This class gives the student a basic understanding of the TCP/IP protocol suite as instituted by Microsoft Windows NT, to include a working knowledge of routing, IP addressing, domain name service, Windows Internet name service, and dynamic host configuration protocol.

Three hours lecture.

CIS 239 IMPLEMENTING EXCHANGE SERVER 5.5 (4)

Prerequisite(s): CIS 237 with a grade of C or better.

In this course, the students are expected to acquire an adequate knowledge of Microsoft exchange server and its technology. This course provides the student with skills to install, configure, and administer Microsoft exchange server and clients in a single exchange site environment and customize exchange using its form designer.

Three hours lecture; three hours laboratory.

CIS 240 ADVANCED MICROSOFT SERVER (4)

Prerequisite(s): CIS 237

In this course, students will be exposed to the latest Microsoft server operating system, Windows 2000 server. The class includes the installation of Windows 2000 server; configuration of the Windows 2000 server environment; connection of Windows 2000 clients and other network resources; creation, editing and deletion of user accounts, profiles and groups; implementation, configuration and security of the NTFS file system; understanding and configuring security settings; configuring network protocols for use in a multi-vendor environment; and identifying and resolving network conflicts and connectivity issues using Windows 2000 server troubleshooting tools.

Three hours lecture; three hours laboratory.

CIS 242 WWW PROGRAMMING (3)

Prerequisite(s): CIS 129 or CIS 130, with grades of C or better, or pass the placement exam, and CIS 287 with a grade of C or better.

Introduction to WWW programming using JavaScript. Emphasis is on the use of existing scripts to create dynamic web pages. Limited script development is introduced.

Three hours lecture; one hour laboratory.

CIS 244 WORLD WIDE WEB GRAPHICS (3)

Prerequisite(s): CIS 185 with a grade of C or better.

Graphics are the heart of the World Wide Web. This course addresses creation and modification of graphics. Properties of web graphic formats and conversions are also addressed. Strategies for incorporating graphics into websites for effective presentation are covered.

Three hours lecture.

CIS 246 WORLD WIDE WEB ADMINISTRATION (3)

Prerequisite(s): CIS 242 and CIS 244.

Capstone course for Webmaster Certificate. Addresses elements of administering a complete website to include security, web organization, and user accounts. Each student will administer a virtual server.

Three hours lecture.

CIS 248* PERL SCRIPTING (3)

Prerequisite(s): CIS 129 or CIS 130, with grades of C or better, or pass the CIS 130 waiver exam.

Provides Perl script creation and maintenance. Emphasis is on application of Perl scripts to the World Wide Web and web applications. Perl scripts are run on Unix and Windows NT systems.

Three hours lecture.

CIS 250 DATABASE MANAGEMENT (4)

Prerequisite(s): CIS 181 with a grade of C or better.

A study of the management of data in business organizations. Students are presented with the opportunity to combine theory with a hands-on emphasis on techniques for developing and using databases.

Three hours lecture; three hours laboratory.

CIS 257* UNIX SHELL PROGRAMMING (4)

Prerequisite(s): CIS 129 or CIS 130, with grades of C or better, or pass CIS 130 waiver exam, and CIS 128 with a grade of C or better.

A beginning course in UNIX Shell Programming. Topics include the find, awk, grep, and sed utilities, regular expressions, Bourne, C and Korn shell programming languages.

Three hours lecture; three hours laboratory.

CIS 260 SERVICE AND MAINTENANCE OF PERSONAL COMPUTERS (4)

Prerequisite(s): CIS 140 with a grade of C or better.

Designed to provide intermediate and advanced hands-on experience and information on computer servicing, enabling the student to diagnose and repair problems. Intermediate and complicated configuration and hardware problems will be covered. Some of the topics covered will be PC setup and configuration, floppy and hard disk drives, replacing and upgrading RAM chips, board level diagnosis and repair. This course is taught in a lab environment.

Three hours lecture; three hours laboratory.

CIS 262 NETWORK SUPPORT AND TROUBLESHOOTING (4)

Prerequisite(s): CIS 232 with a grade of C or better and CIS 260 with a grade of C or better and two of: CIS 128 with a grade of C or better, CIS 234 with a grade of C or better, CIS 236 with a grade of C or better.

A course designed for individuals who intend to support a network. Topics include installation of network operating software, LAN diagnostic utilities, client software installation and configuration, adapter card installation and configuration, common network physical and data-link layer troubleshooting, bridging and routing, and application configuration problems. This is the capstone class for the networking program and should be taken during the final semester of the degree or certificate networking program.

Three hours lecture; three hours laboratory.

CIS 270 SYSTEMS ANALYSIS (3)

Prerequisite(s): CIS 120 with a grade of C or better.

A study of structured methods used to analyze existing and proposed information systems and the techniques employed using CASE tools.

Three hours lecture.

CIS 279 ADVANCED APPLIED TECHNICAL WRITING (3)

Prerequisite(s): CIS 179 with a grade of C or better.

An applied skill course on writing effective, clear technical reports and communications with confidence, skill and flair. Emphasis on using appropriate processes and products for reporting technical information. Industry-standard writing mechanics/syntax, forms/formats and technical style are stressed. Identical to ENG 279.

Three hours lecture.

CIS 281 ADVANCED COMPUTER APPLICATIONS (3)

Prerequisite(s): CIS 181 with a grade of C or better.

Advanced applications of spreadsheet and database software on the personal computer. Emphasis on the spreadsheet will be placed on the use of formulas and functions, analyzing data, and using the World Wide Web for data reporting. Database emphasis will be on the design of a relational database, enhanced querying techniques, creating forms using multiple tables and developing advanced report forms.

Three hours lecture.

CIS 285 INTRODUCTION TO DESKTOP PUBLISHING (3)

Prerequisite(s): Typing, word processing or computer experience helpful.

Principles and practice of creating printed materials combining text and graphics using major desktop publishing programs, with emphasis on the practical aspects of production. Identical to MED 207 and JRN 207.

Three hours lecture.

CIS 286 ADVANCED DESKTOP PUBLISHING (3)

Prerequisite(s): CIS 285 with a grade of C or better.

Advanced techniques and practices to create printed materials of diverse size and complexity using a desktop publishing system and a drawing software package. Emphasis will be on improving and enhancing the visual appearance of printed materials.

Three hours lecture.

CIS 287 WORLD WIDE WEB DEVELOPMENT (3)

Prerequisite(s): CIS 185 with a grade of C or better.

Provides learning opportunities in web design and authoring. Emphasis is placed on cohesive web design and web authoring environments. Use and management of text, graphics, video and audio through hypertext links are also covered. No programming experience is required.

Three hours lecture.

CIS 288* DEVELOPING ONLINE COURSES (3)

Prerequisite(s): CIS 185 with a grade of C or better.

This course provides practical experience in converting existing courses and course materials from traditional modes to an online format. Students are expected to have an existing course to use as a project. A variety of online techniques will be addressed, including World Wide Web development, use of e-mail and lists, and applicability of chat facilities. Students will prepare all materials for a course as a project.

Three hours lecture.

CIS 294 FIELD EXPERIENCE IN COMPUTER INFORMATION SYSTEMS (1-6)

Prerequisite(s): A declared major in computer information systems, permission and approval of a cooperative education program coordinator.

Recommended: Sophomore standing.

A supervised cooperative education work experience involving the combined efforts of educators and employers to accomplish career objectives in computer information systems and related fields. Variable credit (1-6) is available by special arrangement. May be taken four times for a maximum of 16 credit hours, with no more than six credits in a given semester.

Consumer Electronics Repair

The following courses — CER 100, 102, 104, 200, 202, 204, 205 and 206 — were designed specifically for the Arizona Department of Corrections in Douglas.

CER 100 RADIO THEORY AND REPAIR (3)

Prerequisite(s): General Electronic Technician Certificate

A course designed to teach students radio receiver theory, mechanical components, and electronic circuit operation of the AM/FM radio receiver, with special emphasis on alignment procedures, proper replacement parts selection and substitution using small tools, test equipment, and a soldering iron.

Three hours lecture plus individualized laboratory instruction.

CER 102 AUDIO TAPE RECORDER/PLAYER REPAIR (3)

Prerequisite(s): CER 100

A course designed to make students proficient in repairing audiotape recorder/player equipment. Students learn magnetic media storage, sound amplification, tape drive systems, types of record and playback heads, microphone and ear phone apparatus used in recording and playback, and how to use diagnostic equipment, diagnostic and repair techniques, hand tools, soldering equipment and repair procedures to facilitate repairs.

Three hours lecture plus individualized laboratory instruction.

CER 104 TELEVISION THEORY AND REPAIR (4)

Prerequisite(s): CER 100

A course designed to teach students television receiver theory and the diagnostic techniques used to repair malfunctions, with special emphasis on using test equipment, alignment procedures, and the safe use of maintenance tools, materials and supplies to facilitate repairs of television receivers.

Four hours lecture plus individualized laboratory instruction.

CER 200 VIDEO CASSETTE RECORDER REPAIR (4)

Prerequisite(s): CER 104

A course designed to make students proficient in video-cassette recorder repair. Students learn video and sound recording and playback using magnetic media and how to troubleshoot defective circuits using materials, supplies and diagnostic procedures with emphasis on test equipment and alignment procedures to facilitate repairs.

Four hours lecture plus individualized laboratory instruction.

CER 202 COMPACT DISC PLAYER REPAIR (3)

Prerequisite(s): CER 102

A course designed to make students proficient in compact disc player repair. Students learn sound recording and playback using optical laser technology, as well as how to troubleshoot and repair defective equipment by safely using maintenance tools, gauges, materials and supplies, with emphasis on test equipment and alignment procedures to facilitate repairs.

Three hours lecture and individualized laboratory instruction.

CER 204 MICROWAVE OVEN REPAIR (4)

Prerequisite(s): General Electronics Technician Certificate.

A course designed to make the student proficient in microwave oven repair. The student learns to schedule maintenance, allot maintenance task hours, and the cost-efficient and safe use of maintenance tools, gauges, materials and supplies, with emphasis on test equipment and alignment procedures to facilitate repairs.

Four hours lecture plus individualized laboratory instruction.

CER 205 POWER AMPLIFIER REPAIR (3)

Prerequisite(s): CER 100

A course designed to teach students advanced power amplifier theory such as integrated amplifiers, integrated stereo systems, graphic equalizers and high power amplifiers. Students learn the diagnostic techniques used to repair malfunctions with special emphasis on test equipment use, alignment procedures, and the safe use of maintenance tools, materials and supplies to facilitate repairs.

Three hours lecture and individualized laboratory instruction.

CER 206 ADVANCED TELEVISION REPAIR (4)

Prerequisite(s): CER 104

A course designed to teach students advanced television receiver theory picture-in-picture, projection and high definition televisions. Students learn the diagnostic techniques used to repair malfunctions with special emphasis on test equipment, alignment procedures, and the safe use of maintenance tools, materials and supplies to facilitate repairs.

Four hours lecture and individualized laboratory instruction.

CER 224 FIELD EXPERIENCE IN CONSUMER ELECTRONICS REPAIR (1-6)

Prerequisite(s): Sophomore standing in a declared major or prior approval of cooperative education program coordinator.

A supervised cooperative education work experience involving the combined efforts of educators and employers to accomplish career objectives in consumer electronics repair. Variable credit (1-6) is available by special arrangement. May be taken four times for a maximum of 16 credit hours, with no more than six credits in a given semester. NOTE: Lower- and upper-division cooperative education courses may be combined but cannot exceed 16 credits.

Cooperative Education

GED 120 SEMINAR: JOB SEARCH TECHNIQUES (1)

Prerequisite(s): None

A course to assist students in acquiring knowledge and basic employment skills, including job-hunting techniques, job applications, resumés, and interviewing. Identical to CPD 120.

One hour lecture.

GED 124 WORK EXPERIENCE IN COOPERATIVE EDUCATION (1-4)

Prerequisite(s): Prior approval of cooperative education program coordinator or faculty advisor.

A supervised cooperative work experience in cooperative education allowing students to apply entry-level skills gained in the classroom in a real world-of-work situation. Variable credit is available by special arrangement. May be taken four times for a maximum of 16 credit hours.

GED 224 FIELD EXPERIENCE IN COOPERATIVE EDUCATION (1-6)

Prerequisite(s): Sophomore standing in a declared major and prior approval of cooperative education program coordinator.

A supervised cooperative education work experience involving the combined efforts of educators and employers to accomplish career objectives in the student's chosen occupation. Variable credit (1-6) is available by special arrangement. May be taken four times for a maximum of 16 credit hours, with no more than six credits in a given semester.

Corrections Training Academy

COR 109 PRISONERS' RIGHTS (1)

Prerequisite(s): None

A practical overview of prisoners' procedural due process and substantive constitutional rights. Credit awarded for successful completion of the Arizona Correctional Officer Training Academy.

One hour lecture.

COR 113 CRISIS INTERVENTION (1)

Prerequisite(s): None

A practical study of conflict-resolution techniques, including assertive communication, force, safety procedures and referrals. Emphasis on appropriate use by police and correctional officers. Credit awarded for successful completion of the Arizona Correctional Officer Training Academy.

One hour lecture.

COR 118 COMMUNICATIONS IN CRIMINAL JUSTICE (1)

Prerequisite(s): None

A practical study of effective intradepartmental and interdepartmental communication within the criminal justice profession, including barriers to effective communication, communication with the community and communication within the courtroom. Credit awarded for successful completion of the Arizona Correctional Officer Training Academy.

One hour lecture.

COR 119 FIREARMS (1)

Prerequisite(s): None

A practical approach to the moral aspects, legal provisions, safety precautions and restrictions covering the use of firearms and the firing of the sidearm and shotgun. Restricted to law enforcement personnel.

One hour lecture.

COR 121 RANGEMASTER CERTIFICATION (3)

Prerequisite(s): None

Designed to certify Arizona Department of Corrections security staff as rangemasters and to prepare the rangemaster to operate a shooting range and teach formal classes. Restricted to law enforcement personnel.

Three hours lecture.

COR 192 CRITICAL ISSUES IN PENOLOGY (.5-1)

Prerequisite(s): None

A revolving seminar/forum emphasizing current areas of critical concern to corrections personnel. May be repeated for Cochise College credit.

Thirty minutes to one hour lecture.

Counseling and Personal Development

CPD 010 BUILDING SELF-ESTEEM (1)

Prerequisite(s): None

A course to help students become more aware of themselves and their relationships with others. Assists students in exploring personal strengths and resources. Includes assessment of values, feelings, attitudes and communication skills needed for improving self-confidence.

One hour lecture.

CPD 101 COLLEGE SEMINAR (1)

Prerequisite(s): None

A course designed to promote academic success and to instill individual confidence. Students, traditional and non-traditional, have an opportunity to become familiar with a campus-wide support system. Students are given an opportunity to discover personal strengths, values, goals and aspirations in relation to their past and to consider all available options in achieving future goals.

One hour lecture.

CPD 104 TECHNOLOGY CAREER SAMPLER (2)

Prerequisite(s): None

An exploration of existing and emerging technologically advanced careers with a focus on the technology, processes, work environment and employment potential in each field. Includes direct hands-on activities as well as a study of the academic and skill requirements for entry-level employment and for advancement in each career. Careers explored may include, but are not limited to, any combination of the following: computer-aided drafting, machine technology, avionics, welding, aviation mechanics, building trades, computer service and repair, health technology and professions, fire science, and law enforcement. The course may be offered in a pass/fail format. Identical to GTC 104.

Two hours lecture.

CPD 105 CHALLENGE OF PARENTING (3)

Prerequisite(s): None

The application of principles and concepts of effective parenting to more effectively meet the challenges and problems of being a parent in a modern American society.

Three hours lecture.

CPD 107 STRESS MANAGEMENT (2)

Prerequisite(s): None

A review of the various physiological and psychological approaches to the management of stress with emphasis on personal options and methodologies for coping with anxiety and stress.

Two hours lecture.

CPD 118 EMPLOYMENT WORKSHOP (4)

Prerequisite(s): None

A practical introduction to and analysis of the means to achieve self-sufficiency by obtaining employment. Emphasizes the identification of employment opportunities; the ability to identify and explore career opportunities; and the development of effective job search, communication, interviewing and stress-management techniques. Offered on a pass/fail basis.

Four hours lecture (This class meets for 10 days, seven hours per day.)

CPD 119 SEMINAR: CAREER PLANNING (2)

Prerequisite(s): None

A course to assist students in acquiring the information and skills necessary for effective career planning and decision making.

Two hours lecture.

CPD 120 SEMINAR: JOB SEARCH TECHNIQUES (1)

Prerequisite(s): None

A course to assist students in acquiring knowledge and basic employment skills, including job-hunting techniques, job applications, resumés, and interviewing. Identical to CED 120.

One hour lecture.

CPD 121 CAREER AND LIFE PLANNING (3)

Prerequisite(s): None

An exploration of career opportunities to assist students in deciding on and planning for their chosen careers.

Three hours lecture.

Custodial Maintenance

CMS 101 INTRODUCTION TO CUSTODIAL MAINTENANCE (3)

Prerequisite(s): None

History and importance of custodial services; the basic mathematics necessary in the industry; trends in the industry; current custodial opportunities locally, regionally, and nationally; and job-seeking skills to enhance employability.

Three hours lecture; one hour laboratory.

CMS 110 CUSTODIAL CHEMICALS, USAGE AND SAFETY (3)

Prerequisite(s): CMS 101 or permission of instructor.

Hands-on practical introduction to the types of cleaning chemicals, their proper use and safety, including the OSHA Hazard Communication standard. Covers the basic chemistry of cleaning chemicals, then explains the correct use of detergents, soaps, solvents, disinfectants, and other cleaning chemicals. Explains how chemicals are packaged, labeled, mixed and applied in order to make working with chemicals safer.

Two hours lecture; three hours laboratory.

CMS 120 FLOORS AND FLOOR-CARE EQUIPMENT (3)

Prerequisite(s): CMS 101 or permission of instructor.

A practical analysis of the methods, skills, chemicals, equipment, and tools used in the maintenance and care of resilient, natural hard, synthetic hard, wood and special flooring.

One hour lecture; four hours laboratory.

CMS 130 MAINTAINING WALLS, WINDOWS, AND OTHER SURFACES (3)

Prerequisite(s): CMS 101 or permission of instructor.

A practical analysis of the methods, skills, chemicals, and tools used to clean and maintain wood, metal, painted surfaces, and fiberglass surfaces.

One hour lecture; four hours laboratory.

CMS 140 CLEANING CARPET AND FABRIC (3)

Prerequisite(s): CMS 101 or permission of instructor.

A practical analysis of the methods and skills for the cleaning of carpet, upholstered furniture, draperies, and fabric wall coverings.

One hour lecture; five hours laboratory.

CMS 150 REST ROOM CLEANING (3)

Prerequisite(s): CMS 101 or permission of instructor.

A practical analysis of the elements of routine rest room cleaning. Covers the specifics of cleaning rest room plumbing fixtures; describes the periodic tasks required to keep rest rooms in good condition; and stresses the importance of disinfecting rest rooms and how to perform this task safely.

One hour lecture; five hours laboratory.

CMS 210 CUSTODIAL SAFETY AND SECURITY TRAINING (3)

Prerequisite(s): Completion of custodial services program.

Covers custodial workplace issues dealing with employee behavior and well-being. These include drug and alcohol abuse, workplace hazards, security issues, and unionization.

Three hours lecture.

CMS 220 CUSTODIAL PERSONNEL POLICIES (3)

Prerequisite(s): Completion of custodial services program.

Teaches the impact on business of the convergence of personnel policies and legal and regulatory mandates. Also addresses compliance with applicable federal and state laws.

Three hours lecture.

CMS 230 CUSTODIAL HIRING AND FIRING (3)

Prerequisite(s): Completion of custodial services program.

Teaches the significance of selecting and hiring quality custodial employees; effectively training and directing employees; and termination.

Three hours lecture.

CMS 240 CUSTODIAL MOTIVATION AND TRAINING (3)

Prerequisite(s): Completion of custodial services program.

Teaches the student/manager to get the greatest return from custodial workers. Shows the value of employees to a company.

Three hours lecture.

CMS 250 CUSTODIAL ACCOUNT MANAGEMENT (4)

Prerequisite(s): Completion of custodial services program.

Teaches custodial management skills in many areas, from customer relations to workloading, from quality control programs to understanding responsibilities within an organization. This course is designed to help both new and experienced custodial managers.

Four hours lecture.

Drafting

DFT 100 BLUEPRINT INTERPRETATION AND BASIC DRAFTING (3)

Prerequisite(s): None

Introductory course in blueprint reading and interpretation; basic drafting skills, including lettering, sketching, orthographic projection, dimensioning, and pictorial drawing, related to mechanical and architectural requirements.

Two hours lecture; four hours laboratory.

DFT 112* TECHNICAL GRAPHICS I (3)

Prerequisite(s): None

Introductory course in technical drafting including orthographic and axonometric projection, geometric construction, sketching, lettering, dimensioning, and section conventions, with emphasis on industrial drafting standards.

Two hours lecture; four hours laboratory.

DFT 113* TECHNICAL GRAPHICS II (3)

Prerequisite(s): DFT 112

Study of auxiliary and oblique surfaces, intersections, detailing standards, fasteners, materials, and dimensioning with emphasis on elements of descriptive geometry.

Two hours lecture; four hours laboratory.

DFT 150* COMPUTER-AIDED DRAFTING (3)

Prerequisite(s): None

An introduction to the computer as a drafting tool. Multi-view, pictorial and electronic drawings will be completed using computer graphics techniques.

Two hours lecture; four hours laboratory.

DFT 170* ILLUSTRATION (3)

Prerequisite(s): None

A study of illustration and rendering techniques used to describe three-dimensional objects with special emphasis placed on graphic construction and the depiction of shade, shadow, and texture to assist the student in graphic communication.

Two hours lecture; four hours laboratory.

DFT 201* TOPICS IN DRAFTING (4)

Prerequisite(s): DFT 112, 120

A study of drafting related to industrial problems common to machine drafting and electro-mechanical drafting. Emphasis is placed on dimensioning standards, fabrication procedures, cable and wiring diagrams, and detailing.

Three hours lecture; five hours laboratory.

DFT 210* SPATIAL RELATIONSHIPS (3)

Prerequisite(s): DFT 112 or concurrent enrollment.

Solution of points, lines and planes, single-curved, double-curved and warped surfaces. Emphasis on mechanical, civil and mining engineering applications.

Two hours lecture; four hours laboratory.

DFT 224 FIELD EXPERIENCE IN DRAFTING (1-6)

Prerequisite(s): A declared major in drafting. Permission and approval of cooperative education program coordinator.

Recommended: Sophomore standing.

A supervised cooperative education work experience involving the combined efforts of educators and employers to accomplish career objectives in drafting and related fields. Variable credit (1-6) is available by special arrangement. May be taken four times for a maximum of 16 credit hours, with no more than six credits in a given semester.

DFT 231* PRODUCT DESIGN (3)

Prerequisite(s): DFT 112

A study of the design process as applied to industrial design problems. Included are elements of human factors engineering, mechanical design, and systems design as a means to designing industrial design products.

Two hours lecture; four hours laboratory.

DFT 232* DESIGN AND FABRICATION (3)

Prerequisite(s): DFT 112

An advanced study of design applied to feasibility determination and prototype construction. Included are elements of ergonomics, anthropometry, and systems design. Feasibility is explored through cost estimation and manufacturability inquiry.

Two hours lecture; four hours laboratory.

DFT 233* RESIDENTIAL ARCHITECTURE (3)

Prerequisite(s): None

Recommended: DFT 112 or DFT 150.

An introduction to American architectural styles and periods with emphasis on modern construction materials and methods. Professions and trades related to construction and design are explored with aspects of construction documentation. Case studies in residential architecture are introduced, and an applied project allows the student to concentrate on design, drafting, or historical aspects of residential architecture and design.

Three hours lecture; two hours laboratory.

DFT 241* ENGINEERING DESIGN (4)

Prerequisite(s): DFT 112, DFT 120, and DFT 150.

A study of standardized tooling components including jigs, fixtures, and gauges with emphasis on design of the various tooling elements. Included is a study of automation for manufacturing applications.

Three hours lecture; five hours laboratory.

DFT 250* COMPUTER AIDED DRAFTING II (3)

Prerequisite(s): DFT 150

A continuation of DFT 150 at an advanced level to include three-dimensional construction, pictorial drawings, and complex two-dimensional working drawings. This course also includes an introduction to solid modeling and animation techniques.

Two hours lecture; four hours laboratory.

Economics

ECN 201* PRINCIPLES OF MACROECONOMICS (3)

Prerequisite(s): ENG 101

A broad overview of national and international macroeconomy. The course focuses on the study of total supply and demand as applied to the macroeconomic problems of unemployment, inflation, and economic growth. Specific areas of study will include national income accounting, fiscal policy, monetary policy, and international trade theory.

Three hours lecture.

ECN 202* PRINCIPLES OF MICROECONOMICS (3)

Prerequisite(s): ENG 101

A study of individual market interaction with a focus on individual supply and demand. Specific topics include the study of consumer theory, cost and production for the individual firm, pure competition, pure monopoly, and the international finance markets.

Three hours lecture.

ECN 221* INTERNATIONAL TRADE (3)

Prerequisite(s): None

The purpose of this course is to survey the basics of international trade and finance and to examine the effects of various international economics policies on domestic and world welfare.

Three hours lecture.

Education

EDU 020 FUNDAMENTAL ACADEMIC SKILLS TRAINING (3)

Prerequisite(s): Placement by Army Education Center counselor.

A review of basic skills for reading, spelling, grammar, composition and mathematics with emphasis on improving test-taking skills. Upon successful completion, students will be prepared to enter ENG 100 and MAT 072 or higher.

Three hours lecture.

EDU 021 PREPARING FOR ASVAB TEST TAKING (1)

Prerequisite(s): Placement by Army Education Center counselor.

Course is designed to improve basic test-taking skills for the Armed Services Vocational Aptitude Battery (ASVAB) with emphasis on arithmetic reasoning, word knowledge and reading comprehension.

One hour lecture.

EDU 193 SPECIAL TOPICS IN EDUCATION (1)

Prerequisite(s): None

A forum/seminar emphasizing topics of current interest to public school and/or community college teachers, para-professionals and administrators. Seminars will focus on those topics having practical application for the improvement of classroom instruction and educational management.

One hour lecture.

193A Effectively Dealing with Linguistic Diversity in the Classroom

193B Curriculum Development for a Culturally Diverse Student Population

193C Content-Specific Teaching Strategies for Bilingual and Limited English Proficiency Students

193D A Holistic Approach to Language and Literacy

193E Cooperative Learning

193F Effectively Managing the Educational Institution

193G Professional Development of Instructional Staff

193H Involving Parents and the Community in the Educational Process

193I Minimizing the Adverse Impact of Social Problems

193J Technology and Teaching

EDU 200* THE COMMUNITY COLLEGE (3)

Prerequisite(s): Arizona community college certification complete except for this course.

A study of the history, philosophy, role, objectives and educational functions of the community college with emphasis on organization, operation, curriculum and instruction at Cochise College in particular and Arizona community colleges in general.

Three hours lecture.

EDU 201 INTRODUCTION TO EDUCATION (3)

Prerequisite(s): RDG 122 or exemption and ENG 101 or concurrent enrollment. Elementary education majors must concurrently enroll in EDU 202.

Recommended: Secondary education majors may concurrently enroll in EDU 202 for elective credit.

An overview of education, the education profession, educational institutions, and the education system within the American society. Includes the study of current educational issues and of the role, responsibilities and qualifications of educators. Concurrent enrollment in EDU 224 (1-4 credits) required.

Three hours lecture.

EDU 202 INTRODUCTORY INTERNSHIP IN PUBLIC EDUCATION (2)

Prerequisite(s): ENG 101 or concurrent enrollment, reading level 12.0 or equivalent. Concurrent enrollment in EDU 201.

A supervised classroom observation and internship in the public school setting, combined with regularly scheduled seminars and required reflexive writings, which enables the student to make connections between the educational theory and methodologies learned in EDU 201 and real world classroom practices. Students are responsible for obtaining the appropriate department of public safety fingerprint clearance and fees. Requires concurrent enrollment in EDU 201.

One hour lecture; two hours laboratory.

EDU 222 INTRODUCTION TO SPECIAL EDUCATION (3)

Prerequisite(s): ENG 101 with a grade of C or better, reading level 12.0 or official Cochise College equivalent.

Recommended: EDU 201 and ENG 102 or concurrent enrollment.

The study of special education with emphasis on current educational practices and related educational theories; and on identification and characteristics of emotionally handicapped, learning disabled, mentally handicapped and gifted children. Includes a review of appropriate classroom and community-based approaches to accommodating the special education student.

Three hours lecture.

EDU 224 FIELD EXPERIENCE IN EDUCATIONAL INSTRUCTION (1-6)

Prerequisite(s): A declared major in education or closely related field; approval of a cooperative education program coordinator.

Recommended: Sophomore standing.

A supervised internship in a pre-school, elementary or secondary educational institution designed to provide hands-on classroom experience. Number of credits determined by the total hours to be spent at the job site in a given semester. May be taken four times for a maximum of 16 credits, with a maximum of six credits per semester.

EDU 226 CULTURAL DIVERSITY IN EDUCATION (3)

Prerequisite(s): ENG 101, 12.0 or higher reading grade level or official Cochise College equivalent.

Recommended: EDU 201 and ENG 102 or concurrent enrollment.

An analysis of the relationship of cultural values to the formation of the child's self-concept and learning style as well as an examination of the impact of prejudice, stereotyping and cultural incompatibilities on the efficacy of the educational process. This course emphasizes preparing future teachers who will provide an equal educational opportunity to all students regardless of their racial/cultural group or background.

Three hours lecture.

EDU 290 INSTRUCTOR SKILL DEVELOPMENT (3)

Prerequisite(s): 12.0 reading level.

Designed to impart a wide range of teaching skills, concepts, and techniques applicable to adult learning situations. Topics covered include adult learning, training needs, research methodology, instructional objectives, program development, instructional methodology, and evaluation techniques. Identical to AJS 290.

Three hours lecture.

Electronics

ELT 100 ELECTRONICS FOUNDATIONS (3)

Prerequisite(s): MAT 082 or equivalent.

An introduction to electronic principles including DC and AC circuits, passive and active circuits, and applications that will give the student a general concept of the electronics field.

Three hours lecture.

ELT 101 BEGINNING DIGITAL ELECTRONICS (3)

Prerequisite(s): None

A beginning course in digital electronics for students planning to enter the electronics field.

Three hours lecture.

ELT 102 BASIC INFORMATION SYSTEMS INSTALLATION COURSE (8)

Prerequisite(s): Approval for enrollment from the Army Training and Doctrine Command.

A theoretical and practical study of the restoration and installation of information systems, focusing on standard practices and techniques of communications-electronics (C-E) installation. As an Army Training and Doctrine Command-recognized course of study, successful course completers will be awarded a skill identifier I.

Three hours lecture; 13 hours laboratory.

ELT 105* INTRODUCTION TO DC CIRCUITS (3)

Prerequisite(s): ELT 110 or concurrent enrollment.

The analysis of direct current resistive circuits, emphasizing Ohm's Law, Kirchoff's Law, Thevenin's, Norton's and superposition theorems.

Two hours lecture; three hours laboratory.

ELT 106* INTRODUCTION TO AC CIRCUITS (4)

Prerequisite(s): ELT 105

An introduction to alternating current passive circuits, and the application of trigonometry and vectors to circuit solutions.

Two hours lecture; three hours laboratory.

ELT 107* BASIC COMPUTER PROGRAMMING (3)

Prerequisite(s): MAT 122

An introduction to computers and the BASIC language with emphasis on the concepts, writing and execution of computer programs, processing of data, and the development of algorithms for the computer solution to problem solving.

Two hours lecture; three hours laboratory.

ELT 110 MATH FOR ELECTRONICS (3)

Prerequisite(s): One year of high school algebra or equivalent.

A review of arithmetic and the study of algebraic principles necessary to analyze electronic circuitry and provide a firm background for advanced studies. Topics include fractions, decimals, fundamental concepts of algebra, scientific notation, graphing, linear equations and the solution of DC electric circuits.

Three hours lecture.

ELT 120 ADVANCED MATHEMATICS FOR ELECTRONICS (3)

Prerequisite(s): ELT 110 or equivalent.

Study of basic trigonometric relations to electronics with emphasis on network problems and analysis of alternating circuits.

Three hours lecture.

ELT 122* SEMICONDUCTORS AND TRANSISTORS (4)

Prerequisite(s): ELT 106, and ELT 110 or MAT 122.

A comprehensive study of semiconductor devices stressing the qualitative and quantitative analysis of semiconductor circuits with major emphasis on DC biasing, small signal analysis of diodes and transistors, load lines, approximate hybrid parameters, and multistage systems.

Three hours lecture; three hours laboratory.

ELT 125* ELECTRONIC CIRCUITS AND SYSTEMS (4)

Prerequisite(s): ELT 105, ELT 106 and concurrent enrollment in ELT 120 or equivalent.

A study of large signal diode and filter analysis, voltage and current regulations, with emphasis on the field effect transistor as an amplifier, the Miller effect, frequency response and feedback.

Three hours lecture; three hours laboratory.

ELT 224 FIELD EXPERIENCE IN ELECTRONICS (1-6)

Prerequisite(s): A declared major in electronics and approval of a cooperative education program coordinator.

Recommended: Sophomore standing.

A supervised cooperative education work experience involving the combined efforts of educators and employers to accomplish career objectives in electronics and related fields. Variable credit (1-6) is available by special arrangement. May be taken four times for a maximum of 16 credit hours, with no more than six credits in a given semester.

ELT 231* PULSE CIRCUITS (4)

Prerequisite(s): ELT 122

A study of waveforms, RC and RL networks, passive and active pulse circuitry, diode and transistor switching circuits, nonlinear waveshaping and multivibrators.

Three hours lecture; three hours laboratory.

ELT 233* DIGITAL CIRCUITS AND SYSTEMS (4)

Prerequisite(s): ELT 122

A study of number systems, Boolean algebra, combinational and sequential logic, circuits and systems.

Three hours lecture; three hours laboratory.

ELT 243* MODERN ELECTRONIC DEVICES (4)

Prerequisite(s): ELT 122

A study of the characteristics of differential and operational amplifiers, applications, and analysis of practical op amp circuits, photoconductive and photovoltaic devices, unijunction transistors, silicon controlled rectifiers, and selected materials covering other electronic devices.

Three hours lecture; three hours laboratory.

ELT 245* COMMUNICATIONS ELECTRONICS I (4)

Prerequisite(s): ELT 120, 122, 125.

The application of qualitative and quantitative theoretical concepts to practical communications circuits, AM and FM receiver systems, voltage and power amplifiers, feedback, oscillators, resonance, filters, coupling, frequency synthesizers and phaselock techniques are studied.

Three hours lecture; three hours laboratory.

ELT 247* COMMUNICATIONS ELECTRONICS II (4)

Prerequisite(s): ELT 245

A continuation of Communications Electronics I, including AM transmitters, frequency modulation systems, transmission lines, antennas and propagation. Laboratory emphasis on the use of electronic test equipment in the analysis and adjustment of receivers and transmitters.

Three hours lecture; three hours laboratory.

ELT 265* MICROPROCESSORS AND MICROCOMPUTERS (4)

Prerequisite(s): ELT 233

An introduction to the architecture of microprocessors and the organization, programming, interfacing, and control application of microcomputers.

Three hours lecture; three hours laboratory.

ELT 270* MICROCOMPUTER SYSTEMS (4)

Prerequisite(s): ELT 233 and concurrent enrollment in ELT 265.

Analysis of small computer systems. Computer organization and the hardware and software required for peripheral interfacing.

Three hours lecture; three hours laboratory.

Emergency Medical Technology

EMT 101 FIRST RESPONDER TRAINING (2)

Prerequisite(s): None

A practical study of the role of the first responder as a provider of immediate emergency medical care, with emphasis upon evaluating accidents, patient assessment, CPR, emergency care for internal and external injuries, emergency childbirth, poisons and drugs, and the minimization of further injury and complications.

Two hours lecture; one hour laboratory.

EMT 174* EMERGENCY MEDICAL TECHNOLOGY (8)

Prerequisite(s): Student must 1) be at least 18 years of age at class start time; 2) possess a valid CPR card at the Health Care Provider Level from American Heart Association or American Red Cross; 3) read at least the ninth grade level; 4) have a negative TB test or chest x-ray within six months prior to class start date; 5) demonstrate immunity to rubella by immunization record or titer results; 6) demonstrate immunity to rubeola by immunization record or titer results.

Provides the student with preparation for vocational work as an ambulance attendant and is required by the Arizona Department of Health Services (ADHS) for certification. The course also prepares students for industrial, OSHA and virtually any other occupational safety standards certification. Students wishing certification must complete the state-mandated hours of clinical experience in a hospital emergency room. The course covers basic knowledge of the symptoms of illness and injury, the concomitant procedures considered the responsibility of the emergency medical technician (EMT), basic legal responsibilities, anatomy and physiology, triage, assessment, and life-support systems. Curriculum meets ADHS standards set in 1994. Program is certified by the state.

Seven hours lecture; three hours laboratory.

EMT 176* EMERGENCY MEDICAL TRAINING REFRESHER (2)

Prerequisite(s): EMT 174

A refresher course to maintain and update emergency medical technician skills. May be repeated as required for recertification.

Two hours lecture; one hour laboratory.

EMT 201* PARAMEDICINE I (12)

Prerequisite(s): Tenth grade reading level.

Co-requisite(s): BIO 160 or BIO 201, ENG 100 or above.

Further requirements are: Certification as an Arizona emergency medical technician, immunity against rubella, rubeola, and hepatitis B as proven by immunization record or titer and negative TB test or chest x-ray.

Applicant selection process: Individuals who wish to enter the paramedicine core classes must undergo written and practical examinations as well as an interview process. Arizona Department of Health/Emergency Medical Services (ADHS/EMS) guidelines are followed in these processes. See program description for details regarding the selection process.

Paramedicine I is the first in a series of three courses that prepare the student to perform as a paramedic. This course provides the initial education required to achieve student readiness to sit for the State Certification Exam in Paramedicine as well as the National Register Exam. Topics include preparatory information, including roles and responsibilities of the EMT and medical and ethical issues, airway management and ventilation, patient assessment, trauma, and medical systems as related to emergency medical systems.

Ten hours lecture; six hours clinical/laboratory.

EMT 202* PARAMEDICINE II (14)

Prerequisite(s): EMT 201

This course provides the second sequential step in achievement of student readiness to sit for the State Certification Exam in Paramedicine as well as the National Registry Exam. Emergency medical techniques are presented in the areas of pre-hospital management of illnesses and injuries including medical treatments and special considerations, assessment based management, and ambulance operations.

Ten hours lecture; 12 hours clinical/laboratory.

EMT 203* PARAMEDICINE III (2)

Prerequisite(s): EMT 202

This course provides the final clinical hours required to meet state requirements to sit for the State Certification Exam in Paramedicine as well as the National Registry Exam. The student will complete hours in rotations required by state mandate. These can be in vehicular rotations, emergency room rotations, pediatric trauma experiences in state metropolitan areas, etc.

Six hours clinical and vehicular rotation.

English

ENG 001 STUDY SKILLS (1)

Prerequisite(s): None

A review of basic techniques for success in college, including practical exercises in listening to lecturers, concentration, time management, note-taking, test-taking, textbook analysis and review, outlining, summarizing, writing essay questions, and using the library and the microcomputer to study spelling and vocabulary.

One hour lecture.

ENG 004 SPELLING IMPROVEMENT (1)

Prerequisite(s): None

A review of spelling fundamentals helps freshmen conceptualize words used in various content fields as well as basic function words for college writing. A review of basic phonetics, common roots, silent consonants and vowel blends introduces strategies for learning to visualize English spelling. The one-unit module can be included in the reading improvement block or taught individually by student contract through the Student Development Center.

One hour lecture.

ENG 010A ENGLISH FUNDAMENTALS I (3)

Prerequisite(s): Placement or permission of instructor.

Recommended: Keyboarding skills.

A whole language approach to learning with review of standard oral and written English and an emphasis on vocabulary building. Instructors diagnose students' use of non-standard grammar usage, spelling and punctuation and assign exercises and tutorials appropriate to individual students.

Three hours lecture; one or two hours laboratory.

ENG 010B ENGLISH FUNDAMENTALS II (3)

Prerequisite(s): Placement or ENG 010A or permission of instructor.

Recommended: Keyboarding skills.

A review of standard oral and written English that continues the developmental sequence begun in ENG 010A focusing on spelling/vocabulary, grammar, usage, punctuation, studying a text and responding to text in writing of paragraphs and short essays. Appropriate exercises and tutorials may be assigned.

Three hours lecture; one or two hours laboratory.

ENG 011 BASIC GRAMMAR (1)

Prerequisite(s): None

An introduction to English grammar terminology. This course will prepare students who plan to study a foreign language by introducing them to general grammatical terms and usage. In addition, this course will review basic terms for English speaking students to facilitate improved sentence structure and punctuation. This course is not designed for ESL students who do not already have a strong command of English.

One hour lecture.

ENG 020 READING FUNDAMENTALS (5)

Prerequisite(s): None

A review of basic skills for college reading emphasizing content, vocabulary growth, improved rate of comprehension in various materials, review of phonetic rules applied to English spelling, dictionary and library use complementing general study skills.

Five hours lecture.

ENG 078 SKILLS FOR SUCCESSFUL WRITING (3)

Prerequisite(s): Writing placement score and/or recommendation from previous instructor or academic advisor.

Individualized practice in writing based on student responses to articles in current periodicals. Practice will address specific error patterns to prepare students for success in university transfer or in direct employment or in class work on the college level. Uses word processing and group editing as a means of composition.

Three hours lecture; one or two hours laboratory.

ENG 092 ENGLISH FOR OCCUPATIONS (1)

Prerequisite(s): Permission of instructor.

Intensive practice with English vocabulary and specialized terminology useful in the workplace.

Two hours laboratory.

ENG 094 INTRODUCTION TO TRANSLATION AND INTERPRETATION (1)

Prerequisite(s): Permission of instructor.

An introduction to basic concepts and procedures useful in translation and interpretation between Spanish and English. Experience working with both general language and materials in the student's occupational specialty.

Two hours laboratory.

ENG 100* INTERMEDIATE WRITING (3)

Prerequisite(s): Placement or ENG 010B or permission of instructor.

Recommended: Keyboarding skills.

Introduction to and review of paragraph and essay writing skills with emphasis on unity, support, and coherence of ideas. A general review of vocabulary, homophones, grammar, punctuation, and usage. An introduction to college-level research skills and analysis of short fiction.

Three hours lecture; one or two hours laboratory.

ENG 101* COMPOSITION (3)

Prerequisite(s): Placement or ENG 100 or its equivalent.

Recommended: Keyboarding skills.

Study of and practice in the process of writing, methods of organization, expository patterns, and a documented paper based on library and other resources, with a review of usage and syntax.

Three hours lecture.

ENG 102* ENGLISH COMPOSITION (3)

Prerequisite(s): ENG 101

Recommended: Keyboarding skills.

A continuation of ENG 101 with special emphasis on the techniques involved in writing argument, persuasion, and literary analysis.

Three hours lecture.

ENG 102H ENGLISH COMPOSITION (3)

Prerequisite(s): Completion of ENG 101 with a grade of A, recommendation of ENG 101 instructor, GPA of 3.5 or above, completion of 12 college transfer credits or permission of instructor.

A continuation of ENG 101 with special emphasis on the techniques involved in writing argument, persuasion and literary analysis.

Three hours lecture.

ENG 104 INTRODUCTION TO LITERATURE (3)

Prerequisite(s): ENG 101

A study of major literary genres: drama, poetry, fiction, and criticism. Emphasis on writing critically about literature.

Three hours lecture.

ENG 106 INTERMEDIATE WRITING FOR FOREIGN STUDENTS (3)

Prerequisite(s): Placement test score or ENG 010B.

Designed to improve the writing ability of foreign students. Includes a review of the mechanics of writing, punctuation, spelling and capitalization, vocabulary development exercises, reading, and intensive practice in writing at the sentence and paragraph levels.

Three hours lecture; two hours laboratory.

ENG 107 ENGLISH COMPOSITION FOR FOREIGN STUDENTS I (3)

Prerequisite(s): Placement test score or ENG 100 or ENG 106.

College composition course for non-native speakers of English, with emphasis on writing about prose readings, summary and analysis, documentation, library research methods, and writing a research paper.

Three hours lecture; two hours laboratory.

ENG 108 ENGLISH COMPOSITION FOR FOREIGN STUDENTS II (3)

Prerequisite(s): ENG 107 or ENG 101.

A continuation of ENG 107 with emphasis on argumentation and persuasion and an introduction to the research paper for students whose native language is not English.

Three hours lecture.

ENG 109 WRITTEN COMMUNICATIONS AND REPORTS (3)

Prerequisite(s): ENG 101 or permission of instructor.

Development of the skills of effective written communications and reports with emphasis on clarity and accuracy. Assignments will be individualized by occupational discipline.

Three hours lecture.

ENG 111 GRAMMAR, USAGE AND PUNCTUATION (3)

Prerequisite(s): ENG 100, placement in ENG 101 or permission of instructor.

An in-depth study of the mechanics of English required for academic and workplace communication. Emphasis is placed on grammar, word usage, punctuation, spelling, conciseness and clarity in both spoken and written language. The rules and style recommendations covered are those that should prove helpful in the academic and/or business communities.

Three hours lecture; one hour laboratory.

ENG 112 CHILDREN'S LITERATURE (3)

Prerequisite(s): None

A survey of literary materials available for children from their very early years through their teens, exploring the means through which children may enjoy literature, selection tools available for adults, use of reference materials and audio-visuals.

Three hours lecture.

ENG 115 THE GENEALOGY OF ENGLISH WORDS (3)

Prerequisite(s): None

Designed to assist the student in increasing his command of modern English. Emphasis is primarily on words derived from Latin. Etymological meanings and modern meanings will be considered along with semantic and phonetic changes.

Three hours lecture.

ENG 116 GENEALOGY OF ENGLISH WORDS (3)

Prerequisite(s): None

Designed to assist the student in increasing his command of modern English emphasizing words derived from Greek. Etymological meanings and modern meanings will be considered along with semantic and phonetic changes. ENG 115 is not a prerequisite(s) to 116.

Three hours lecture.

ENG 119* CREATIVE WRITING (3)

Prerequisite(s): ENG 102 or permission of instructor.

An introduction to creative writers and writing, using professional models of narrative prose, drama, fiction, and poetry, along with original student work to analyze and critique.

Three hours lecture.

ENG 167 BUSINESS COMMUNICATIONS (3)

Prerequisite(s): CIS 116 and one of the following: ENG 101 or ENG 111 or OAD 111.

A study of business communications prepared in a business organization, including typical internal and external communications (letters, memos, proposals and reports). Emphasis will be on applying English fundamentals, usage, syntax and organization ideas as well as on using technology appropriately to conduct research and to create documents. This course will also stress listening and speaking skills. Identical to BUS 167 and OAD 167.

Three hours lecture.

ENG 179 APPLIED TECHNICAL WRITING (3)

Prerequisite(s): ENG 100 or placement into ENG 101.

An applied skills course on writing clear, applied organizational reports and communications. Assignments will stress the processes and products for reporting technical information with emphasis on writing mechanics/syntax, forms/formats and technical style. Identical to CIS 179 and BUS 179.

Three hours lecture.

ENG 192 SPECIAL TOPICS IN LANGUAGE AND LITERATURE (.5-1)

Prerequisite(s): None

A rotating forum/seminar emphasizing linguistic development and change, regional literature, literary styles, folklore and related topics. Topics vary in accordance with changes in student need and interest. Cochise College elective credit only unless otherwise designated in degree programs.

Thirty minutes to one hour lecture.

ENG 192A	Word Foraging
ENG 192B	True Tales and Tall Tales of Southwestern Indians
ENG 192C	High Speed Reading
ENG 192D	Stories of the Old West
ENG 192E	Satire, Irony and Humor
ENG 192F	Linguistic History of the English Language
ENG 192G	Evolution of a Hero: Prince Hal to Hamlet
ENG 192H	Books and People
ENG 192I	Memoir Writing
ENG 192J	Writing Poetry

ENG 203 ADVANCED COMPOSITION (3)

Prerequisite(s): ENG 102

An introduction to writing critically about literature with analysis of various literary genres. Credit for ENG 104 will not be granted if the student has taken ENG 203.

Three hours lecture.

ENG 206 CRITICAL WRITING (3)

Prerequisite(s): ENG 101 and 102 or permission of instructor.

A study of composition as an analytical, interpretative process requiring the student to make rational judgments based on valid criteria. For students who wish to pursue further composition and reading skills, to prepare for upper-division writing at the university level, or to improve critical-thinking skills.

Three hours lecture.

ENG 209 INTRODUCTION TO POETRY (3)

Prerequisite(s): ENG 102 or permission of instructor.

An exploration of selected traditional, modern, and contemporary world poetry.

Three hours lecture.

ENG 210 THE BIBLE AS LITERATURE (3)

Prerequisite(s): ENG 102 or permission of instructor.

A study of the Bible as a work of literature emphasizing historical development, types of literature, allusions, impact upon later writers and the literary expression of cultural values.

Three hours lecture.

ENG 219* ADVANCED CREATIVE WRITING (3)

Prerequisite(s): ENG 102, ENG 119 or permission of instructor.

This is the second semester of a one-year creative writing sequence beginning with ENG 119 and will address advanced student projects in prose or poetry. Students will continue to read and analyze the best professional models in creative writing from around the world.

Three hours lecture.

ENG 220* BRITISH LITERATURE I (3)

Prerequisite(s): ENG 102 or permission of instructor.

A survey of the major British authors from the beginnings to the early 18th century.

Three hours lecture.

ENG 221 BRITISH LITERATURE II (3)

Prerequisite(s): ENG 102 or permission of instructor.

A survey of the major British authors from the 18th century to the present.

Three hours lecture.

ENG 222 INTRODUCTION TO SHAKESPEARE (3)

Prerequisite(s): ENG 102 or permission of instructor.

An exploration of selected histories, tragedies, and problem plays/comedies by William Shakespeare.

Three hours lecture.

ENG 224* AMERICAN LITERATURE I (3)

Prerequisite(s): ENG 102 or permission of instructor.

A survey of major American authors from the colonial period to 1860. Works studied may include selections from Hawthorne, Poe, Melville, and Emerson.

Three hours lecture.

ENG 225 AMERICAN LITERATURE II (3)

Prerequisite(s): ENG 102 or permission of instructor.

A survey of selected works by major American authors from post-Civil War to the present.

Three hours lecture.

ENG 226 WORLD LITERATURE I (3)

Prerequisite(s): ENG 102 or permission of instructor.

A study of some of the master works of world literature through the Renaissance. Works studied may include selections from Homer, the Greek tragic writers, Virgil, Dante, Chaucer, Cervantes and Shakespeare, as well as samplings from outside the western tradition.

Three hours lecture.

ENG 227 WORLD LITERATURE II (3)

Prerequisite(s): ENG 102 or permission of instructor.

A study of eight major literary works from the Renaissance to the present, including selections of Voltaire, Goethe, Stendahl, Dickens, Dostoevsky, Turgenev, Flaubert, and Mann. ENG 226 is not a prerequisite(s) to ENG 227.

Three hours lecture.

ENG 228 MYTHOLOGY AND FOLKLORE (3)

Prerequisite(s): ENG 102 or permission of instructor.

A survey of beliefs, customs and symbols from Neolithic times to the present. Emphasis on Sumerian, Babylonian, Hebrew, Egyptian, Anatolian, Cretan, Greek, Roman, Celtic myths and legends. Belief systems and symbols traced through the ages to the present times.

Three hours lecture.

ENG 230 LITERATURE OF THE SOUTHWEST (3)

Prerequisite(s): ENG 102 or permission of instructor.

Introduction to the literature of the American Southwest, spanning historical through contemporary times. Emphasis on the environmental, historical, and cultural influences on southwestern literary styles, genres, themes, and images.

Three hours lecture.

ENG 231 NATIVE AMERICAN LITERATURE (3)

Prerequisite(s): ENG 102 or permission of instructor.

Introduction to Native American literature, including oral traditions and stories, autobiographies, fiction, and poetry, with emphasis on the cultural and historical influences on indigenous themes and representations.

Three hours lecture.

ENG 255 INTRODUCTION TO THE ENGLISH LANGUAGE (3)

Prerequisite(s): Two of the following: ENG 101, ENG 102, ENG 111 or permission of instructor.

An introduction to the basic concepts in the study of the English language: structure, interpretation, variation and changes. Overview of several specializations within linguistics with special attention to language acquisition and application to the teaching of English.

Three hours lecture.

ENG 257 LITERARY MAGAZINE PRODUCTION (3)

Prerequisite(s): ENG 101

Recommended: CIS 285/JRN207/MED 207.

Production of the College literary and arts magazine. Includes application of promotion, editing, design, layout, and production techniques. May be taken more than once for credit. Identical to JRN 257.

Three hours lecture.

ENG 260 IRISH LITERATURE (3)

Prerequisite: ENG 102 or permission of instructor.

An exploration of selected traditional, modern, and contemporary Irish literary works.

Three hours lecture.

ENG 265 MAJOR AMERICAN WRITERS (3)

Prerequisite(s): ENG 102 or permission of instructor.

An exploration of selected works by major American authors from the last century to the present.

Three hours lecture.

ENG 273 WOMEN AND LITERATURE (3)

Prerequisite(s): ENG 102 or permission of instructor.

This course is a survey of literature by and about women, including the study of issues concerning women in literature and the changing images of women. It includes literary analysis of selected writings.

Three hours lecture.

ENG 279* ADVANCED APPLIED TECHNICAL WRITING (3)

Prerequisite(s): CIS 179/ENG 179.

An applied skill course on writing effective, clear, technical reports and communications with confidence, skill and flair. Emphasis on using appropriate processes and products for reporting technical information. Industry-standard writing mechanics/syntax, forms/formats and technical style are stressed. Identical to CIS 279.

Three hours lecture.

English as a Second Language

ESL 001 WORKPLACE ENGLISH I (3)

Prerequisite(s): Recommendation from placement test.

Beginning-level practice communicating in English with emphasis on those elements of language most useful in the workplace.

Three hours lecture.

ESL 002 WORKPLACE ENGLISH II (3)

Prerequisite(s): Recommendation from placement test and/or completion of ESL 001 with a grade of C or better within the preceding six months.

High-beginner/low-intermediate level practice communicating in English with emphasis on those elements of language most useful in the workplace.

Three hours lecture.

ESL 003 WORKPLACE ENGLISH III (3)

Prerequisite(s): Recommendation from placement test and/or completion of ESL 002 with a grade of C or better within the preceding six months.

Low-intermediate to intermediate practice communicating in English with emphasis on those elements of language most useful in the workplace.

Three hours lecture.

ESL 004 WORKPLACE ENGLISH IV (3)

Prerequisite(s): Recommendation from placement test and/or completion of ESL 003 with a grade of C or better within the preceding six months.

High-intermediate practice communicating in English with emphasis on those elements of language most useful in the workplace.

Three hours lecture.

ESL 009 ADULT BASIC READING FOR ESL (3)

Prerequisite(s): Recommendation from placement test.

An introduction to reading and writing English for non-literate, non-native speakers of English who need an adult basic education approach to the alphabet, English phonetics, and how to read print and to form words into basic English sentences.

Three hours lecture.

ESL 010 ESL GRAMMAR I (3)

Prerequisite(s): Recommendation from placement test.

An introduction to basic English grammar for beginning/high-beginning students whose native language is not English, with emphasis on the syntax and structure of simple sentences.

Three hours lecture; two hours laboratory.

ESL 012 ESL READING I (3)

Prerequisite(s): Recommendation from placement test.

An introduction to basic reading skills for beginning/high-beginning students whose native language is not English, with emphasis on vocabulary development, comprehension, and structure.

Three hours lecture; two hours laboratory.

ESL 014 ESL WRITING I (3)

Prerequisite(s): Recommendation from placement test.

A beginning/high-beginning level writing course for students learning English as a second language designed to preview the writing process with emphasis on writing paragraphs on simple, controlled topics which require mainly isolated tense usage.

Three hours lecture; two hours laboratory.

ESL 016 ORAL COMMUNICATION I (3)

Prerequisite(s): Recommendation from placement test.

An introduction to oral communication skills in English for beginning/high-beginning students whose native language is not English, with emphasis on vocabulary, fundamentals of English pronunciation and development of basic listening and speaking skills.

Three hours lecture; two hours laboratory

ESL 017 INTENSIVE READING AND WRITING LEVEL I (3)

Prerequisite(s): Recommendation from placement test.

An introduction to basic reading and writing skills for beginning/high beginning students whose native language is not English.

Three hours lecture.

ESL 018 INTENSIVE GRAMMAR, LISTENING AND SPEAKING LEVEL I (3)

Prerequisite(s): Recommendation from placement test.

An introduction to basic grammar, listening and speaking skills for beginning/high beginning students whose native language is not English.

Three hours lecture.

ESL 020 ESL GRAMMAR II (3)

Prerequisite(s): ESL 010 with a grade of C or better or recommendation from placement test.

A review of basic English grammar and an introduction to fundamental English grammar for high-beginning/low-intermediate students whose native language is not English, with emphasis on the syntax and structure of simple and compound sentences.

Three hours lecture; two hours laboratory.

ESL 022 ESL READING II (3)

Prerequisite(s): Completion of ESL 012 with a grade of C or better or recommendation from placement test.

An introduction to basic reading skills and strategies for high-beginning/low-intermediate students whose native language is not English, with emphasis on vocabulary development, comprehension and structure.

Three hours lecture; two hours laboratory.

ESL 024 ESL WRITING II (3)

Prerequisite(s): Completion of ESL 014 with a grade of C or better or recommendation from placement test.

A high-beginning to low-intermediate writing course designed to introduce the writing process with emphasis on topic sentences, paragraph development, cognitive skills and logical organization.

Three hours lecture; two hours laboratory.

ESL 026 ORAL COMMUNICATION II (3)

Prerequisite(s): Completion of ESL 016 with a grade of C or better or recommendation from placement test.

A review and continuation of oral communication skills in English for high-beginning/low-intermediate students whose native language is not English, with emphasis on vocabulary, pronunciation, and development of basic listening and speaking skills.

Three hours lecture; two hours laboratory.

ESL 027 INTENSIVE READING AND WRITING LEVEL II (3)

Prerequisite(s): Completion of ESL 012 and ESL 014, or completion of ESL 017 or ESL 018, all with grades of C or better, or recommendation from placement test.

A continuation of basic reading and writing strategies for high-beginning/low-intermediate students whose native language is not English.

Three hours lecture.

ESL 028 INTENSIVE GRAMMAR, LISTENING AND SPEAKING LEVEL II (3)

Prerequisite(s): ESL 018

A review and continuation of basic English structure as needed for general proficiency at the high-beginning/low-intermediate level for students whose native language is not English. The course also includes study of vocabulary, listening comprehension, and speaking in controlled communication practice.

Three hours lecture.

ESL 030 ESL GRAMMAR III (3)

Prerequisite(s): ESL 020 with a grade of C or better or recommendation from placement test.

A review of fundamental and an introduction to more complex English grammar for low-intermediate/intermediate students whose native language is not English, with emphasis on the syntax and structure of simple, compound, and complex sentences.

Three hours lecture; two hours laboratory.

ESL 032 ESL READING III (3)

Prerequisite(s): Completion of ESL 022 with a grade of C or better or recommendation from placement test.

A review of reading skills and strategies for low-intermediate/intermediate students whose native language is not English, with emphasis on vocabulary development, comprehension, structure and basic study skills.

Three hours lecture; two hours laboratory.

ESL 034 ESL WRITING III (3)

Prerequisite(s): Completion of ESL 024 with a grade of C or better or recommendation from placement test.

A low-intermediate level to intermediate level writing course for students learning English as a Second Language, designed to develop the writing process with emphasis on topic sentences, methods of multi-paragraph development, cognitive skills and logical organization.

Three hours lecture; two hours laboratory.

ESL 036 ORAL COMMUNICATION III (3)

Prerequisite(s): Completion of ESL 026 with a grade of C or better or recommendation from placement test.

A review and continuation of oral communication skills in English for low-intermediate/intermediate students whose native language is not English, with emphasis on vocabulary, pronunciation, and development of listening and speaking skills.

Three hours lecture, two hours laboratory.

ESL 037 INTENSIVE READING AND WRITING LEVEL III (3)

Prerequisite(s): Completion of ESL 022 and ESL 024, or completion of ESL 027, all with grades of C or better, or recommendation from placement test.

A review of fundamental and an introduction to more complex reading and writing skills in English for low-intermediate/intermediate students whose native language is not English.

Three hours lecture.

ESL 038 INTENSIVE GRAMMAR, LISTENING AND SPEAKING LEVEL III (3)

Prerequisite(s): Completion of ESL 020 and ESL 026, or completion of ESL 028, all with grades of C or better, or recommendation from placement test.

A review of fundamental and an introduction to more complex grammar, listening and speaking skills in English for low-intermediate/intermediate students whose native language is not English.

Three hours lecture.

ESL 040 ESL GRAMMAR IV (3)

Prerequisite(s): ESL 030 with a grade of C or better or recommendation from placement test.

A review of basic and intermediate and an introduction to advanced English grammar for intermediate/high-intermediate students whose native language is not English, with emphasis on the syntax and structure of simple, compound, and complex sentences.

Three hours lecture, two hours laboratory.

ESL 042 ESL READING IV (3)

Prerequisite(s): Completion of ESL 032 with a grade of C or better or recommendation from placement test.

A review of reading skills and strategies for intermediate/high-intermediate students whose native language is not English, with emphasis on expanding their vocabulary, increasing comprehension, understanding structure and using basic study skills.

Three hours lecture; two hours laboratory.

ESL 044 ESL WRITING IV (3)

Prerequisite(s): Completion of ESL 034 with a grade of C or better or recommendation from placement test.

An intermediate to high-intermediate level writing course for students learning English as a Second Language, designed to review the writing process, develop coherent essays and increase vocabulary suitable for academic discourse.

Three hours lecture; two hours laboratory.

ESL 046 ORAL COMMUNICATION IV (3)

Prerequisite(s): Completion of ESL 036 with a grade of C or better or recommendation from placement test.

A review and continuation of oral communication skills in English for intermediate/high-intermediate students whose native language is not English, with emphasis on vocabulary, pronunciation, and development of academic listening and speaking skills in English.

Three hours lecture, two hours laboratory.

ESL 047 INTENSIVE READING AND WRITING IV (3)

Prerequisite(s): Completion of ESL 032 and ESL 034, or completion of ESL 037, all with grades of C or better, or recommendation from placement test.

A review of fundamentals and an introduction to more complex reading and writing skills in English for intermediate to high-intermediate students whose native language is not English.

Three hours lecture.

ESL 048 INTENSIVE GRAMMAR, LISTENING AND SPEAKING LEVEL IV (3)

Prerequisite(s): Completion of ESL 030 and ESL 036, or completion of ESL 038, all with grades of C or better, or recommendation from placement test.

A review of fundamentals and an introduction to more complex grammar, listening and speaking skills in English for intermediate to high-intermediate students whose native language is not English.

Three hours lecture.

ESL 056 ORAL COMMUNICATION V (3)

Prerequisite(s): Recommendation from ESL oral placement testing or final oral assessment from previous semester.

A continuation of English oral communication skills for students whose native language is not English, this course addresses the development of skills needed to handle complex communicative tasks at the fifth-semester level. Extensive work on accent reduction and oral communication strategies for social and business purposes.

Three hours lecture; two hours laboratory.

ESL 066 ADVANCED ORAL COMMUNICATION (3)

Prerequisite(s): Recommendation from ESL oral placement testing or final oral assessment from previous semester.

Advanced oral communication skills for students whose native language is not English, this course addresses the development of skills needed to handle complex communicative tasks. Further work on accent reduction, oral communication strategies for a full range of social and business purposes, and extended oral discourse.

Three hours lecture; two hours laboratory.

ESL 070 ESL FOR PROFESSIONALS I (6)

Prerequisite(s): No previous English necessary; placement is determined by test.

An integrated-skills, content-based course designed for students who have little or no knowledge of English. Introduction to the sounds and intonation patterns of English, elementary vocabulary, and the structure of English as used in simple sentences.

ESL 072 ESL FOR PROFESSIONALS II (6)

Prerequisite(s): Completion of ESL 070; placement determined by standardized test.

A continuation of ESL 070; an integrated-skills, content-based course designed to give high-beginner level students practice using English. Covers grammar, reading, vocabulary, listening comprehension, pronunciation and intonation patterns. Activities build on skills developed in ESL 070.

ESL 074 ESL FOR PROFESSIONALS III (6)

Prerequisite(s): Completion of ESL 072 with a grade of C or better; placement may also be determined by standardized test.

A continuation of ESL 072; an integrated-skills course designed to give low-intermediate students practice using English. The course covers grammar, reading, vocabulary, listening comprehension, pronunciation and intonation patterns. Activities build on skills developed in ESL 072.

ESL 076 ESL FOR PROFESSIONALS IV (6)

Prerequisite(s): Completion of ESL 074 with a grade of C or better; placement may also be determined by standardized test.

A continuation of ESL 074; an integrated-skills, content-based course designed to give high-intermediate students practice using English. Covers grammar, reading, vocabulary, listening comprehension, pronunciation and intonation patterns. Activities build on skills developed in ESL 074.

ESL 091 PRONOUNCING ENGLISH (1)

Prerequisite(s): Recommendation from placement test or instructor assessment.

Introduction to the sounds, rhythm, stress patterns, and intonation of English, with emphasis on those aspects of the oral language that make it easier to understand and to be understood.

Two hours laboratory.

ESL 100 ACADEMIC SKILLS (3)

Prerequisite(s): Placement test.

A course designed to develop and integrate students' academic language proficiency and study skills through tasks, which simulate the American college classroom. Emphasis is on note-taking from lectures and texts, previewing and reviewing research, asking questions and participating in discussions. Recommended concurrent enrollment in COM 100.

Three hours lecture; two hours individualized instruction.

ESL 193 AMERICAN IDIOMS (1)

Prerequisite(s): None

An overview of common idiomatic expressions, collocations and phrasal verbs that can be confusing or difficult for students whose native language is not English.

One hour lecture.

Environmental Studies

EVS 192 SPECIAL TOPICS IN ENVIRONMENTAL STUDIES (.5)

Prerequisite(s): None

A rotating forum/seminar emphasizing environmental topics of current interest to public and private sector organizations. Includes seminars based upon EPA and OSHA regulations.

Thirty minutes lecture.

- | | |
|------|-----------------------------------------------|
| 192A | OSHA Hazmat and Emergency Response Refresher |
| 192B | Asbestos Awareness |
| 192C | Lead Awareness - In Paint, Soil, and Water |
| 192D | Confined Space Safety/Rescue |
| 192E | State Water/Wastewater Operator Certification |
| 192F | Respiratory Protection |

EVS 193 SPECIAL TOPICS IN ENVIRONMENTAL STUDIES (1)

Prerequisite(s): None

A rotating forum/seminar emphasizing environmental topics of current interest to public and private sector organizations. Includes seminars based upon EPA and OSHA regulations.

One hour lecture.

- | | |
|------|-------------------------------------------------|
| 193A | Environmental Law and Its Impact |
| 193B | Basic Wastewater Treatment |
| 193C | Safety Management for Health Care Professionals |

Family & Consumer Sciences

FCS 184 CHILDHOOD DEVELOPMENT (3)

Prerequisite(s): ENG 101

This course is designed to address growth, development, and socialization of the child within the family setting from conception to the middle school years. Includes childcare implications.

Three hours lecture.

Fire Science

FST 101 INTRODUCTION TO FIRE SCIENCE (3)

Prerequisite(s): None

A study of the historical and scientific background of the fire protection field. Includes a review of the history and future role of fire protection; governmental, industrial, and private fire protection organizations; and employment/promotional opportunities presently available in the fire protection field. Modern methods in fire prevention and protection also will be explored.

Three hours lecture.

FST 103 HAZARDOUS MATERIALS FIRST RESPONDER (3)

Prerequisite(s): None

Recommended: FST 101

This course is designed for firefighters, emergency medical personnel and law enforcement personnel. This course will emphasize hazardous materials response and stabilization. The practical exercise of the course will be conducted at an outdoor site where the student will practice and demonstrate their individual proficiency in commanding a mock haz-

ardous materials incident. This course meets the standards of National Fire Protection Association (NFPA) 472 and the Occupational Safety and Health Administration (OSHA).

Three hours lecture.

FST 106 FUNDAMENTALS OF FIRE PREVENTION (3)

Prerequisite(s): None

A survey of the basic principles of fire prevention with special emphasis on fire detection and extinguishing systems and on the interpretation and enforcement of fire regulations. Includes the study of hazards associated with heating equipment and building design as well as chemicals and explosives.

Three hours lecture.

FST 110 FIRE FIGHTER I (6)

Prerequisite(s): None

An introduction to the operations and individual skills involved in the extinguishment of fire. Completion of this course will prepare the student for certification as Fire Fighter I by the Office of the State Fire Marshall.

Six hours lecture.

FST 111 FIRE FIGHTER II (6)

Prerequisite(s): FST 110 or permission of the instructor.

A continuation of Fire Fighter I with emphasis on fire hydrants and pumps, use of ropes, ventilation, salvage, forcible entry tools, rescue techniques and record keeping in the fire service workplace. Completion of this course will qualify the student to take the Firefighter II certification exam through the State Fire Marshall's office.

Six hours lecture.

FST 112 EMERGENCY VEHICLE OPERATIONS (1)

Prerequisite(s): Valid driver's license, enrolled in a certified police academy or be sworn officer or certified EMS provider.

This course is designed for emergency and commercial vehicle operators. The course will emphasize the legal aspects of emergency vehicle operation, vehicle dynamics, vehicle maintenance, vehicle inspections and human dynamics. The practical exercise of the course will be conducted at an outdoor site where the student will practice then demonstrate individual proficiency in operating the type of vehicle appropriate for individual operation. The outdoor course will be set up in conformance with the recommended National Law Enforcement Drivers Training Guide and Federal Emergency Management Agency Training Guide. Identical to AJS 112.

One hour lecture.

FST 120 FIRE SERVICE HYDRAULICS (3)

Prerequisite(s): FST 110, FST 111 or permission of the instructor.

A review of basic math, hydraulic laws and formulas as applied to the fire service with emphasis upon the application of formulas and mental calculations to hydraulic problems, water supply problems, underwriters requirements and pumps.

Three hours lecture.

FST 193 SPECIAL TOPICS IN FIRE SCIENCE (1)

Prerequisite(s): None.

A rotating forum/seminar emphasizing fire science topics of current interest to area fire departments and related public service agencies. Includes seminars based upon National Fire Academy field courses.

One hour lecture.

- 193A Incident Command System
- 193B Fire Science Supervision: Increasing Personal Effectiveness
- 193C Fire Science Supervision: Increasing Team Effectiveness
- 193D Volunteer Fire Service Management
- 193E Firefighter Health and Safety
- 193F Firefighter Safety and Survival: The Company Officer's Responsibility
- 193G Public Fire Education Planning
- 193H Instructional Techniques for Company Officers
- 193I Basic Fire Prevention Inspections
- 193J Ventilation
- 193K Self-Contained Breathing Apparatus

FST 200 FIRE APPARATUS AND EQUIPMENT (3)

Prerequisite(s): FST 110 and FST 111 or permission of instructor.

A practical study of the selection, care, construction, operation and maintenance of fire department equipment. The basic principles of equipment, trouble-shooting, and testing will be investigated.

Three hours lecture.

FST 220 RESCUE PRACTICES (3)

Prerequisite(s): FST 110 and FST 111 or permission of instructor.

A practical study of life-saving practices pertaining to the fire company. Emphasis is placed on training for resuscitator squads, rescue equipment, the fire department's role in civil defense and other disasters, chemicals and diseases that affect breathing, and breathing apparatus.

Three hours lecture.

FST 224 FIELD EXPERIENCE IN FIRE SCIENCE TECHNOLOGY (1-6)

Prerequisite(s): A declared major in fire science technology. Permission and approval of cooperative education program coordinator.

Recommended: Sophomore standing.

A supervised cooperative education work experience involving the combined efforts of educators and employers to accomplish career objectives in fire science technology and related fields. Variable credit (1-6) is available by special arrangement. May be taken four times for a maximum of 16 credit hours, with no more than six credits in a given semester.

FST 240 FIRE FIGHTING TACTICS AND STRATEGY (3)

Prerequisite(s): FST 110 and FST 111 or permission of the instructor.

A practical study of the organization and use of manpower, equipment and apparatus in fire fighting with emphasis on practical methods of attacking, controlling and extinguishing various types of fires.

Three hours lecture.

FST 260 FIRE INVESTIGATION (3)

Prerequisite(s): Current employment with a fire department or law enforcement agency or permission of instructor.

A practical introduction to accidental, suspicious, and incendiary fire cause determination with special emphasis on arson and incendiarism as well as appropriate procedures for handling each situation.

Three hours lecture.

FST 265 SUPERVISORY TRAINING FOR FIREFIGHTERS (3)

Prerequisite(s): FST 110 and FST 111 or permission of the instructor.

A study of administrative methods and practices as applied to the fire service, including departmental organization, and personnel management. Emphasis is placed on employee selection procedures, employee discipline, performance evaluations, elements of supervision, labor relations, fire service planning and relationships with other organizational units.

Three hours lecture.

Food And Nutrition

FON 101 NUTRITION (3)

Prerequisite(s): None

A study of the basic nutritional principles and their application to the normal diet, health and cultural patterns. Some emphasis will be placed upon diet modification in common health disorders, i.e., obesity, diabetes mellitus and cardiovascular disease.

Three hours lecture.

FON 201 APPLIED NUTRITION (3)

Prerequisite(s): FON 101 or equivalent, or permission of instructor.

A study of the principles of human nutrition and their application in health and illness.

Three hours lecture.

French

FRE 101 ELEMENTARY FRENCH (4)

Prerequisite(s): None

For beginning students: conversation, comprehension of the spoken language, pronunciation, grammar, reading and composition.

Four hours lecture; one hour laboratory.

FRE 102 ELEMENTARY FRENCH (4)

Prerequisite(s): FRE 101 or two years high school French.

Continuation of FRE 101 with further development of conversation, grammar, reading and composition. Stress on language use and vocabulary development.

Four hours lecture; one hour laboratory.

FRE 201 INTERMEDIATE FRENCH (4)

Prerequisite(s): FRE 102 or three years of high school French.

A review of grammar, pronunciation, and development of patterns of speech in French, with additional practice in reading, writing, speaking, and understanding the language. Supplemental readings and assignments to enrich the student's vocabulary.

Four hours lecture; one hour laboratory.

FRE 202 INTERMEDIATE FRENCH (4)

Prerequisite(s): FRE 201 or four years high school French.

A review of grammar, pronunciation, and development of patterns of speech in French, with additional practice in reading, writing, speaking, and understanding the language. Supplemental readings and assignments will enrich the student's vocabulary.

Four hours lecture; one hour laboratory.

General Electronics Technician

The following classes, GET 103, 104, 108, 123, and 240 were designed specifically for the Arizona Department of Corrections in Douglas.

GET 103 BASIC ELECTRONIC CIRCUITS AND DIAGNOSTICS (3)

Prerequisite(s): None

A course designed to develop student proficiency in diagnosing basic electronic circuits, defective components, and in performing repair procedures for basic series, parallel and series/parallel circuits using appropriate supplies and test equipment to facilitate repairs.

Three hours lecture plus individualized laboratory instruction.

GET 104 DIRECT CURRENT CIRCUIT DIAGNOSTICS (3)

Prerequisite(s): GET 103

A comprehensive course designed to make the student proficient in diagnosing complex direct current circuits and defective components, and in performing repair procedures for complex series, parallel, and series/parallel circuits using appropriate test equipment and supplies to facilitate repairs. Use schematic diagrams as a diagnostic tool. Learn how components are made and how to select the proper replacement or substitution part.

Three hours lecture plus individualized laboratory instruction.

GET 108 ALTERNATING CURRENT CIRCUIT DIAGNOSTICS (4)

Prerequisite(s): GET 104

A comprehensive course designed to make the student proficient in diagnosing complex alternating current circuits, defective components, and in performing repair procedures for complex series, parallel, and series/parallel circuits using appropriate test equipment and supplies to facilitate repairs. Use schematic diagrams as a diagnostic tool. Learn how components are made and how to select the proper replacement or substitution part.

Four hours lecture plus individualized laboratory instruction.

GET 123 SEMICONDUCTOR DEVICE DIAGNOSTICS AND REPAIR (4)

Prerequisite(s): GET 108

A comprehensive course designed to make the student proficient in diagnosing simple and complex semiconductor device circuits and defective components, and in performing repair procedures using appropriate test equipment and supplies. Use schematic diagrams as a diagnostic tool. Learn how components are made and how to select the proper replacement or substitution part.

Four hours lecture plus individualized laboratory instruction.

GET 240 ELECTRONIC SYSTEMS DIAGNOSTICS AND REPAIR (6)

Prerequisite(s): GET 123

A comprehensive course designed to make the student proficient in diagnosing power supplies, amplifiers, oscillators, digital and microprocessor circuits, and in using schematic diagrams as diagnostic tools, and locating defective components, selecting proper replacement part, and in performing repair procedures using appropriate test equipment, tools and supplies, and in performing system checks to verify proper operation, and that repairs were successful.

Four hours lecture plus four hours of individualized laboratory instruction.

General Technology

GTC 001 HOME MAINTENANCE (2)

Prerequisite(s): None

A “do-it-yourself” home maintenance course covering use of common hand and power tools for routine electrical, carpentry, and plumbing repairs.

One hour lecture; three hours laboratory.

GTC 002 GENERAL TECHNICAL MATH I (1)

Prerequisite(s): Math placement test scores below requirements for successful completion of MAT 072 and low for successful completion of MAT 005.

A general technology arithmetic course in an open-entry/open-exit format emphasizing drill in computation skills and techniques. Includes basic operations with whole numbers and addition of fractions using terminology of different technologies. Completion of the GTC 002/003/004 sequence is equivalent to MAT 005.

One hour lecture.

GTC 003 GENERAL TECHNICAL MATH II (1)

Prerequisite(s): GTC 002

A general technology arithmetic course in an open-entry/open-exit format emphasizing drill in skills and techniques of computation. Includes basic operations with fractions and decimals using terminology of different technologies. Completion of the GTC 002/003/004 sequence is equivalent to MAT 005.

One hour lecture.

GTC 004 GENERAL TECHNICAL MATH III (1)

Prerequisite(s): GTC 003

A general technology arithmetic course in an open-entry/open-exit format emphasizing drill in skills and techniques of computation. Includes basic operations and applications of decimals, ratio, proportion, and percent using terminology of different technologies. Completion of the GTC 002/003/004 sequence is equivalent to MAT 005.

One hour lecture.

GTC 005 READ-STUDY SKILLS (1)

Prerequisite(s): Referral from faculty or college counselor to Student Development Center director concerning “a special needs student.”

Tutorial for pre-vocational students functioning below the eighth-grade level. A review of reading comprehension necessary to a vocational program. Required competencies include study strategies for textbooks, vocabulary, interpreting visuals, writing related to study assignments, and exams.

One hour lecture.

GTC 006 WORD ID-SPELLING (1)

Prerequisite(s): Recommendation by a counselor or vocational program advisor to the Student Development Center director for individualized instruction. The class may be repeated once for credit.

Introduction to basic decoding/spelling rules with application for adults functioning below grade level 7.0 on a standardized placement test indicating a need for phonetic/structural analysis.

One hour lecture.

GTC 007 GENERAL TECHNICAL MATH IV (1)

Prerequisite(s): Indicated mathematics deficiency.

A general technology arithmetic course in an open-entry/open-exit format emphasizing drill in computational skills and techniques. Includes fundamental math operations with whole numbers, fractions, and prime factorization. Completion of the GTC 007/008/009 sequence is equivalent to MAT 072.

One hour lecture.

GTC 008 GENERAL TECHNICAL MATH V (1)

Prerequisite(s): GTC 007

A general technology arithmetic course in an open-entry/open-exit format emphasizing drill in computational skills and techniques. Includes basic operations with fractions, decimals, ratio, and proportion. Completion of the GTC 007/008/009 sequence is equivalent to MAT 072.

One hour lecture.

GTC 009 GENERAL TECHNICAL MATH VI (1)

Prerequisite(s): GTC 008

A vocationally oriented basic arithmetic course in an open-entry/open-exit format emphasizing drill in skills and techniques of computation. Includes operations with percentages and signed numbers. Also emphasized are conversions within and between English and metric systems of measurement. Completion of the GTC 007/008/009 sequence is equivalent to MAT 072.

One hour lecture.

GTC 012* GENERAL AUTOMOTIVE MECHANICS (3)

Prerequisite(s): None

Automotive maintenance and repair including tune-up, electrical systems, fuel systems, cooling systems, lubrication systems and oils, transmissions and clutches, brake systems and accessories, such as air conditioning.

Two hours lecture; three hours laboratory.

GTC 014* KNOW YOUR AUTOMOBILE (3)

Prerequisite(s): None

A course to develop entry-level auto mechanic skills. This is classroom theory and supporting laboratory experience for basics of engine operation, powertrain operation, use of tools, care and selection of tires, use of jack, changing tires, lubrication system service, checking of all fluid levels, cooling system and minor service, use of repair manuals, brake system theory and minor service, repack wheel bearings, fuel system theory and very minor service, basics of electricity, basics of battery, starter and charging system theory, ignition system service, diagnosis: what to do if the car won't start, and selecting a used car.

Three hours lecture.

GTC 016* BASIC AUTO REFRIGERATION (3)

Prerequisite(s): None

Basic application of theory of refrigeration and techniques of servicing automotive air conditioners.

One hour lecture; four hours laboratory.

GTC 017* ADVANCED AUTOMOBILE REFRIGERATION (3)

Prerequisite(s): GTC 016 or permission of instructor.

Advanced techniques of testing, trouble-shooting and repair of automotive air conditioner.

One hour lecture; four hours laboratory.

GTC 018* COMMERCIAL REFRIGERATION (3)

Prerequisite(s): GTC 016

Theory, techniques and practices of commercial refrigeration and servicing of refrigerators, freezers, and commercial air conditioners.

One hour lecture; four hours laboratory.

GTC 022 WATER AND WASTE WATER PLANT OPERATION (3)

Prerequisite(s): Admissibility to Cochise College.

A course designed to provide the student with the knowledge, skills, and techniques required to pass a State of Arizona Certification Examination or Class I or Class II or Waste Water Plant Operator.

Two hours lecture; three hours laboratory.

GTC 025 SOLAR ENERGY SYSTEMS (3)

Prerequisite(s): MAT 122 and knowledge of basic hand tools.

Design, installation and operation of residential solar energy systems. Basic solar heating and cooling theory and laboratory experience to develop student understanding of solar energy systems. Emphasis on selection of components and operation of the system.

Two hours lecture; three hours laboratory.

GTC 092 ENGLISH FOR OCCUPATIONS (1)

Prerequisite(s): Permission of instructor.

Intensive practice with English vocabulary and specialized terminology useful in the workplace.

Two hours laboratory.

GTC 100 TECHNICAL MATHEMATICS I (3)

Prerequisite(s): One semester of high school algebra or permission of instructor.

A review of arithmetic and the study of fundamentals of algebra and geometry applied to practical problems of the drafting room, machine shop, and engineering.

Three hours lecture.

GTC 101 TECHNICAL MATHEMATICS II (3)

Prerequisite(s): GTC 100 or permission of instructor.

A comprehensive study of trigonometry as applied to electronics and drafting industrial situations with an introduction to calculus.

Three hours lecture.

GTC 104 TECHNOLOGY CAREER SAMPLER (2)

Prerequisite(s): None

An exploration of existing and emerging technologically advanced careers with a focus on the technology, processes, work environment and employment potential in each field. Includes direct hands-on activities as well as a study of the academic and skill requirements for entry-level employment and for advancement in each career. Careers explored may include, but are not limited to, any combination of the following: computer-aided drafting, machine technology, avionics, welding, aviation mechanics, building trades, computer service and repair, health technology and professions, fire science, and law enforcement. The course may be offered in a pass/fail content.

Two hours lecture.

GTC 105 MANUFACTURING MATERIALS AND PROCESSES (3)

Prerequisite(s): None

The study of manufacturing materials, their characteristics and applications; manufacturing processes including machining, forming, welding and automated manufacturing techniques with emphasis on their relationship to drafting and design.

Three hours lecture.

GTC 110 MASONRY I (3)

Prerequisite(s): None

An examination of the masonry profession with an emphasis upon the use of masonry tools and the techniques of laying brick and block.

Two hours lecture; three hours laboratory.

GTC 111 MASONRY II (3)

Prerequisite(s): GTC 110

A continuation of Masonry I, with emphasis on the decorative and design possibilities of brick and block and upon the development of a smooth style of work with different types and patterns of brick and block.

Two hours lecture; three hours laboratory.

GTC 112 MASONRY III (3)

Prerequisite(s): GTC 111

A continuation of Masonry II concentrating on the design and construction of various types of fireplaces and on decorative stone-work, arches and tile.

Two hours lecture; three hours laboratory.

GTC 114 KNOW YOUR AUTOMOBILE (3)

Prerequisite(s): None

Principles of basic automotive repair and maintenance. Essential concepts of buying an automobile to preventive maintenance will be covered.

Two hours lecture; three hours laboratory.

GTC 117 SMALL ENGINE OPERATION & REPAIR (3)

Prerequisite(s): None

A study of the operation, maintenance, troubleshooting and repair of various types and models of air-cooled engines up to 18 horsepower. Emphasis will be given to as much hands-on small engine operation and repair experience as possible. Knowledge gained will prepare students to begin entry-level jobs in small-engine service centers.

Two hours lecture; two hours laboratory.

GTC 119 INTRODUCTION TO FACILITY MAINTENANCE (3)

Prerequisite(s): None

An introduction to construction/maintenance of exterior and interior walls, ceilings, floors, windows, doors, furniture, roofs, concrete, masonry, plumbing, and basic electricity. Emphasis on the proper use of hand and power tools with a focus on safety.

Three hours lecture.

GTC 120 CONCRETE CONSTRUCTION AND FINISH (3)

Prerequisite(s): None

A combination of step-by-step layout and finish techniques with the theory of practical concrete formulation.

Two hours lecture; three hours laboratory.

GTC 121 PAINTING AND FINISHING TECHNIQUES (3)

Prerequisite(s): None

Student preparation for proficiency in patching, repainting, and maintaining painted surfaces on the interior and exterior of building and structures with an emphasis on surface preparation, the selection of paints, their application and the safe and proper storage of all painting materials and tools.

Two hours lecture; four hours laboratory.

GTC 122 REFRIGERATION I (3)

Prerequisite(s): None

A course to provide the student with proficiency in inspecting, trouble-shooting, repairing and maintaining air conditioning and evaporative cooling systems with an emphasis on scheduling of seasonal maintenance, start-up and shut-down procedures.

Two hours lecture; four hours laboratory.

GTC 123 ELECTRICAL REPAIR AND MAINTENANCE (3)

Prerequisite(s): None

A course to provide the student with proficiency in maintaining trouble-shooting, and repairing existing residential and industrial circuitry and equipment. The student will install original circuitry in newly remodeled spaces or additions.

Three hours lecture.

GTC 124 CARPENTRY REPAIR TECHNIQUES (3)

Prerequisite(s): None

A course to provide the student with proficiency in maintaining, repairing, replacing, and remodeling existing or new building components, including floor coverings, wall coverings, and glazing.

Three hours lecture.

GTC 125 PLUMBING & CLIMATE SYSTEMS MAINTENANCE (3)

Prerequisite(s): None

A course to provide the student with proficiency in the maintenance, trouble-shooting, repair, and replacement of liquid supply and waste removal or drainage systems.

Three hours lecture.

GTC 126 FACILITY MAINTENANCE MANAGEMENT (3)

Prerequisite(s): None

A course to provide the student with proficiency in scheduling maintenance, allotting maintenance task hours, and the cost-efficient and safe use of maintenance tools and materials with an emphasis on the cost of preventive maintenance versus unscheduled maintenance.

Three hours lecture.

GTC 127 BLUEPRINT READING AND ESTIMATING (3)

Prerequisite(s): None

A course to provide the student with proficiency in reading and understanding blueprints and their use in locating plumbing, electrical and waste disposal systems. The student will learn the symbols and abbreviations used by architects and draftsmen, how to apply them to maintenance techniques, and how to estimate material from architectural specifications.

Three hours lecture.

GTC 128 HAZARDOUS MATERIALS AND THE EPA (3)

Prerequisite(s): None

An introduction to the safe handling of refrigerants and hazardous materials in relation to the air conditioning and refrigeration field. Emphasis will be placed on EPA regulations and guidelines.

Three hours lecture.

GTC 130 ESTIMATING CONSTRUCTION (3)

Prerequisite(s): GTC 100 and DFT 100.

Techniques and procedures of contract interpretation; material selection; and materials, labor and time estimation.

Three hours lecture.

GTC 131 PRINCIPLES OF TECHNOLOGY I (6)

Prerequisite(s): GTC 101

An introductory course in applied science and associated mathematics to study how concepts such as force, work, rate, resistance and energy apply to mechanical, fluidic, electrical and thermal energy systems for those students preparing to enter high-technology career fields.

Three hours lecture; six hours laboratory and/or individualized instruction.

GTC 132 PRINCIPLES OF TECHNOLOGY II (6)

Prerequisite(s): GTC 131

An intermediate course in applied science and related mathematics to study how concepts such as power, force transformation, momentum, waves, vibrations and energy conversion apply to mechanical, fluidic, electrical and thermal energy systems for the student preparing to enter high-technology career fields.

Three hours lecture; six hours laboratory and/or individualized instruction.

GTC 133 PRINCIPLES OF TECHNOLOGY III (6)

Prerequisite(s): GTC 132

An advanced course in applied science and associated mathematics to study how concepts such as transducers, radiation, light, optics, and time constants apply to mechanical, fluidic, electrical and thermal energy systems for students preparing to enter high-technology career fields.

Three hours lecture; six hours laboratory and/or individualized instruction.

GTC 134 BUSINESS AND INDUSTRIAL CLEANING (3)

Prerequisite(s): None

A course to provide the student with proficiency in business and industrial cleaning techniques and their practical application with a concern for safety. The student will identify various types of chemicals and equipment used in industrial and business cleaning and how to properly handle, store and use them.

Two hours lecture; three hours laboratory.

GTC 140 MACHINE TECHNOLOGY (3)

Prerequisite(s): None

A course in basic machine shop operations; to include drilling, milling, grinding and lathe processes.

Two hours lecture; three hours laboratory.

GTC 206 ENGINEERING MATERIALS AND PROCESSES (4)

Prerequisite(s): GTC 105

Materials, their structures, properties, fabrication characteristics and applications. Material forming, joining and finishing processes. Automation and quality control.

Five hours lecture.

GTC 222 REFRIGERATION II (3)

Prerequisite(s): GTC 122

A continuation of the fundamentals of refrigeration with an emphasis on the function of motors, controls, and the major components of the refrigeration system, to include evaporators, condensers, compressors, and expansion devices.

Three hours lecture.

GTC 223 HEATING AND AIR CONDITIONING (4)

Prerequisite(s): GTC 222

An introduction to the various types of heating and air conditioning systems. Electrical devices, valves, controls and duct systems will also be explored. An emphasis will be placed on troubleshooting and repair.

Three hours lecture.

GTC 224 FIELD EXPERIENCE IN MASONRY TECHNOLOGY (1-6)

Prerequisite(s): Sophomore standing in a declared major or prior approval of cooperative education program coordinator.

A supervised cooperative education work experience involving the combined efforts of educators and employers to accomplish career objectives in masonry technology. Variable credit (1-6) is available by special arrangement. May be taken four times for a maximum of 16 credit hours, with no more than six credits in a given semester.

NOTE: Lower- and upper-division cooperative education courses may be combined but cannot exceed 16 credits.

GTC 225 FIELD EXPERIENCE IN BUSINESS & INDUSTRIAL CLEANING (1-6)

Prerequisite(s): Sophomore standing in a declared major or prior approval of cooperative education program coordinator.

A supervised cooperative education work experience involving the combined efforts of educators and employers to accomplish career objectives in business and industrial cleaning. Variable credit (1-6) is available by special arrangement. May be taken four times for a maximum of 16 credit hours, with no more than six credits in a given semester.

NOTE: Lower- and upper-division cooperative education courses may be combined but cannot exceed 16 credits.

GTC 226 FIELD EXPERIENCE IN BUILDING MAINTENANCE TECHNOLOGY (1-6)

Prerequisite(s): Sophomore standing in a declared major or prior approval of cooperative education program coordinator.

A supervised cooperative education work experience involving the combined efforts of educators and employers to accomplish career objectives in building maintenance technology. Variable credit (1-6) is available by special arrangement. May be taken four times for a maximum of 16 credit hours, with no more than six credits in a given semester.

NOTE: Lower- and upper-division cooperative education courses may be combined but cannot exceed 16 credits.

GTC 231* MANUFACTURING PROCESSES (4)

Prerequisite(s): GTC 105, GTC 206.

A course in both theoretical and practical experience related to the machining of ferrous and nonferrous metals. Designed to develop a basic understanding of machining operations related to drilling, milling, grinding and lathe processes.

Three hours lecture; two hours laboratory.

Geography

GEO 101 PHYSICAL GEOGRAPHY (4)**

Prerequisite(s): RDG 122 or exemption. MAT 082 or concurrent enrollment. ENG 100 or concurrent enrollment.

An introduction to the various features of the earth's physical environment including the origin and development of landforms and the composition of the earth's crust, weather, climate, vegetation, soils and mineral resources.

Three hours lecture; three hours laboratory.

GEO 102* INTRODUCTION TO HUMAN GEOGRAPHY (3)

Prerequisite(s): None

A study of the cultural regions of the world and the important world geographical characteristics.

Three hours lecture.

GEO 104 POLITICAL GEOGRAPHY (3)

Prerequisite(s): ENG 100 or concurrent enrollment. RDG 122 or exemption.

A study of political phenomena in different locations in conjunction with the physical features of the earth's landscape.

Three hours lecture.

GEO 105 ECONOMIC GEOGRAPHY (3)

Prerequisite(s): ENG 100 or concurrent enrollment. RDG 122 or exemption.

A survey of the world's economics, including subsistence economic activities, commercial gathering of animals and plants, commercial bioculture, mining, manufacturing, transportation and trade, and tertiary economic activities centering on basic economics and their relationship to the natural resources of the area involved and the relationship of the physical features: climate, soil, vegetation, and topography.

Three hours lecture.

GEO 121 WORLD REGIONAL GEOGRAPHY (3)

Prerequisite(s): RDG 122 or exemption. ENG 101 or concurrent enrollment.

An exploration of major world geographical regions with emphasis upon human cultural adaptation to the physical habitat.

Three hours lecture.

Geology

GLG 101* INTRODUCTION TO GEOLOGY I (PHYSICAL) (4)

Prerequisite(s): None

Principles of physical geology for both general-interest students and those who plan to major in geology. Includes material of interest on recent trends in earth sciences and environmental sciences.

Three hours lecture; three hours laboratory.

GLG 102* INTRODUCTION TO GEOLOGY II (HISTORICAL) (4)

Prerequisite(s): None

Recommended: GLG 101

Presents the most current model of the development of the surface of our planet and the life found upon it. For general-interest students and those majoring in geology, archaeology, or the biological sciences.

Three hours lecture; three hours laboratory.

GLG 110* ENVIRONMENTAL GEOLOGY (4)

Prerequisite(s): None

Recommended: GLG 101

An introduction to understanding geologic events and environmental issues and their impact on populations. The course will include hazardous geologic aggrading and degrading processes; soils and land use; air, water and waste pollution; mining practices; energy and fossil and nuclear fuels. Population, economic, ecological and bioethical issues are also covered.

Three hours lecture; three hours laboratory.

GLG 192 SPECIAL TOPICS IN GEOLOGY (.5-1)

Prerequisite(s): None

A rotating forum/seminar emphasizing geological topics of current regional significance; topics to vary in accordance with scientific advances and with changes in student needs and interests. May be repeated for Cochise College credit. Cochise College elective credit only unless otherwise designated in degree programs.

Thirty minutes to one hour lecture.

German

GER 001 CONVERSATIONAL GERMAN (3)

Prerequisite(s): None

Essentials of German conversation in everyday situations designed for students who intend to use the language for business, pleasure or travel. Transferable to a four-year institution only upon satisfactory performance on a proficiency examination.

Three hours lecture.

GER 101 ELEMENTARY GERMAN (4)

Prerequisite(s): None

Comprehension of the spoken language, understandable pronunciation, recognition of basic grammar structures, ability to converse, read and write in simple sentences on topics related to personal and classroom experiences.

Four hours lecture; one hour laboratory.

GER 102 ELEMENTARY GERMAN (4)

Prerequisite(s): GER 101 or two years of high school German or permission of instructor.

Comprehension of the spoken language, understandable pronunciation, recognition of basic grammar structures, ability to converse, read and write in simple sentences on topics related to personal and classroom experiences.

Four hours lecture; one hour laboratory.

GER 201 INTERMEDIATE GERMAN (4)

Prerequisite(s): GER 102 or three years of high school German or permission of instructor.

An intermediate course in speaking, writing, understanding and reading German. Integration and utilization of new structures, with emphasis on longer non-technical essays and analysis of short stories and socially pertinent texts.

Four hours lecture; one hour laboratory.

GER 202 INTERMEDIATE GERMAN (4)

Prerequisite(s): GER 201 or four years of high school German or permission of instructor.

A continuation of GER 201, with emphasis on understanding of the usage and structure in the language and familiarity with German culture. Students will read material in such fields as art, literature and technology. Students will also write and present brief term papers.

Four hours lecture; one hour laboratory.

Health and Physical Education

HPE 104A SCULPT AND STRETCH (1)

Prerequisite(s): None

An introduction to exercises and activities focusing on the development of muscular strength, muscular endurance and overall flexibility. Also includes the discussion and practice of breathing and relaxation techniques that promote wellness.

One hour lecture; one hour laboratory.

HPE 104B SCULPT AND STRETCH-EXTENDED DURATION (2)

Prerequisite(s): None

An introduction to exercises and activities focusing on the development of muscular strength, muscular endurance and overall flexibility. Also includes the discussion and practice of breathing and relaxation techniques that promote wellness. HPE 104B is an extended duration version of HPE 104A and as such is devoted to optimizing physical fitness and wellness.

One hour lecture; two hours laboratory.

HPE 105A* STEP AEROBICS (1)

Prerequisite(s): None

A practical introduction to step aerobic exercises and activities with emphasis upon the acquisition of basic skills and movement, as well as the improvement and maintenance of individual fitness. Recommended for the poorly conditioned, novice student.

One hour lecture; one hour laboratory.

HPE 105B* STEP AEROBICS-EXTENDED DURATION (2)

Prerequisite(s): None

A practical introduction to step aerobic exercises and activities with emphasis upon the acquisition of basic skills and movement, as well as the improvement and maintenance of individual fitness. Recommended for the poorly conditioned, novice student.

One hour lecture; two hours laboratory.

HPE 106A* CROSS TRAINING AEROBIC EXERCISE (1)

Prerequisite(s): None

A practical introduction to cross training aerobic exercise with emphasis upon the acquisition of basic skills and movements as well as the improvement and maintenance of individual fitness.

One hour lecture; one hour laboratory.

HPE 106B* CROSS TRAINING AEROBIC EXERCISE (2)

Prerequisite(s): None

A practical introduction to cross training aerobic exercises and activities with emphasis upon the acquisition of basic skills and movements, as well as the improvement and maintenance of individual fitness.

One hour lecture; two hours laboratory.

HPE 107* AQUA AEROBICS (1)

Prerequisite(s): None

Stretching and toning aerobic exercises conducted in a swimming pool, with emphasis upon cardiovascular fitness. Individual needs and limitations are considered, and each student progresses at his/her own rate. No swim skills necessary.

One hour lecture; one hour laboratory.

HPE 110A* BODY CONDITIONING (1)

Prerequisite(s): None

A practical application of the accepted fitness principles and concepts conducive to the development and maintenance of an adequate level of overall fitness. The course introduces the student to aerobic and anaerobic activities that promote cardiovascular endurance, flexibility, and muscular endurance.

One hour lecture; one hour laboratory.

HPE 110B* BODY CONDITIONING-EXTENDED DURATION (2)

Prerequisite(s): None

A practical application of the accepted fitness principles and concepts conducive to the development and maintenance of an adequate level of overall fitness. The course introduces the student to aerobic and anaerobic activities that promote cardiovascular endurance, flexibility, and muscular endurance.

One hour lecture; two hours laboratory.

HPE 111A* BODY DYNAMICS (1)

Prerequisite(s): None

A practical introduction to the principles and concepts of physical fitness through the use of various exercise equipment and activities.

One hour lecture; one hour laboratory.

HPE 111B* BODY DYNAMICS-EXTENDED DURATION (2)

Prerequisite(s): None

A practical introduction to the principles and concepts of physical fitness through the use of various exercise equipment and activities.

One hour lecture; two hours laboratory.

HPE 112A* WEIGHT TRAINING (1)

Prerequisite(s): None

An activity course introducing basic skills and knowledge necessary to develop a proper weight training program and cardiovascular development.

One hour lecture; one hour laboratory.

HPE 112B* WEIGHT TRAINING-EXTENDED DURATION (2)

Prerequisite(s): None

An activity course introducing basic skills and knowledge necessary to develop a proper weight training program for cardiovascular development.

One hour lecture; two hours laboratory.

HPE 113* ATHLETIC CONDITIONING (2)

Prerequisite(s): None

A practical introduction to fitness activities conducive to the development of strength, flexibility, endurance and cardiovascular fitness. Designed to enhance athletic performance of the athlete.

One hour lecture; three hours laboratory.

HPE 114A WEIGHT LIFTING FOR WOMEN (1)

Prerequisite(s): None

The course will introduce female students to anaerobic activities related to the development of muscular strength, muscular endurance and flexibility. It will provide the female student with exercise techniques related to the development of overall body strength and the reduction of body fat.

One hour lecture; one hour laboratory.

HPE 114B WEIGHT LIFTING FOR WOMEN-EXTENDED DURATION (2)

Prerequisite(s): None

The course will introduce female students to anaerobic activities related to the development of muscular strength, muscular endurance and flexibility. It will provide the female student with exercise techniques related to the development of overall body strength and the reduction of body fat.

One hour lecture; two hours laboratory.

HPE 115* PERSONAL FITNESS I (2)

Prerequisite(s): None

A practical introduction to the theory and skills of lifetime fitness with emphasis upon aerobic activities to maintain and/or improve the student's cardiorespiratory system and overall fitness level. Student fitness profiles are developed and utilized to determine an individualized exercise program in the exercise physiology lab.

One hour lecture; two hours laboratory.

HPE 116* PERSONAL FITNESS II (1-2)

Prerequisite(s): HPE 115 or permission of instructor.

A continuation of the theory and skills of lifetime fitness introduced in HPE 115 Personal Fitness. Student fitness profiles are developed and utilized to determine an individualized exercise program in the exercise physiology lab.

Two to four hours laboratory.

HPE 121A TAI CHI (1)

Prerequisite(s): None

A highly philosophical internal system of Chinese martial art used to help develop proper movement of the body. Tai Chi is used to aid the body and mind to develop power and strength through slow, continuous movement.

One hour lecture; one hour laboratory.

HPE 122* BEGINNING KARATE (1)

Prerequisite(s): None

Introduction to basic karate with emphasis upon the underlying theory and practical application of beginning karate techniques.

One hour lecture; one hour laboratory.

HPE 123* INTERMEDIATE KARATE (1)

Prerequisite(s): HPE 122 or permission of instructor.

A theoretical and practical study of intermediate karate skills with emphasis upon sparring and self-defense techniques. Elements of advanced techniques will provide a basis for continued study by the individual student.

One hour lecture; one hour laboratory.

HPE 124 PRACTICAL SELF-DEFENSE (1)

Prerequisite(s): None

An introduction to the art of self-defense with emphasis upon practical instruction in various self-defense techniques and their appropriate situational applications and the prevention of dangerous or compromising situations.

One hour lecture; one hour laboratory.

HPE 125 HIKING (1)

Prerequisite(s): None

An introduction to wilderness trail and off-trail hiking with emphasis on the care and handling of equipment, the use of maps, the care and protection of wilderness trails, the use of emergency first aid, and the importance of physical conditioning.

One hour lecture; one hour laboratory.

HPE 130* BEGINNING SWIMMING (1)

Prerequisite(s): None

An introduction to the primary skills of swimming for the non-swimmer with emphasis upon water safety, basic strokes and developing the ability to swim 30 yards.

One hour lecture; one hour laboratory.

HPE 131* INTERMEDIATE SWIMMING (1)

Prerequisite(s): HPE 130 or permission of instructor.

A practical study of swimming designed to improve skills in the four fundamental strokes: crawl, breast, back and side. Upon course completion, students will have the ability to swim continuously for five minutes on front, side, and back.

One hour lecture; one hour laboratory.

HPE 132* ADVANCED SWIMMING AND WATER SPORTS (1)

Prerequisite(s): HPE 131 or permission of instructor.

A study of advanced swimming techniques, emphasizing variations on the four fundamental strokes, water sports, synchronized swimming and other aquatic activities.

One hour lecture; one hour laboratory.

HPE 133* LIFE SAVING AND WATER SAFETY (1)

Prerequisite(s): HPE 131 or permission of instructor.

A practical study of life saving skills and water safety with emphasis upon water extrication/rescue, emergency first aid and cardiorespiratory resuscitation. American Red Cross Advanced Life Saving Certificate available to successful course completers.

One hour lecture; one hour laboratory.

HPE 134 WATER SAFETY INSTRUCTOR (2)

Prerequisite(s): Current Red Cross Advanced Life Saving Certification, competency in swimming strokes and lifesaving skills.

Development of swimming and life-saving instructional skills. Meets the requirements for American National Red Cross Water Safety Instructor Certification.

Two hours lecture; one hour laboratory.

HPE 142 BASKETBALL (1)

Prerequisite(s): None

A practical introduction to the basic skills, rules and strategies of recreational basketball to prepare the student for participation in a lifelong leisure activity.

One hour lecture; one hour laboratory.

HPE 143* BEGINNING BOWLING (1)

Prerequisite(s): None

A practical introduction to bowling with emphasis on the acquisition of basic skills and knowledge of bowling and on bowling as a lifelong leisure activity.

One hour lecture; one hour laboratory.

HPE 144* INTERMEDIATE BOWLING (1)

Prerequisite(s): HPE 143 or permission of instructor.

A practical introduction to the advanced skills and knowledge of bowling with emphasis on the acquisition of a lifelong leisure activity.

One hour lecture; one hour laboratory.

HPE 145* BEGINNING GOLF (1)

Prerequisite(s): None

A practical introduction to the basic skills, rules and etiquette of golf to prepare the student for participation in a lifelong leisure activity.

One hour lecture; one hour laboratory.

HPE 146* INTERMEDIATE GOLF (1)

Prerequisite(s): HPE 145

A practical introduction to the advanced skills and strategies of golf with emphasis on the acquisition of a lifelong leisure activity.

One hour lecture; one hour laboratory.

HPE 148* BEGINNING RACQUETBALL (1)

Prerequisite(s): None

A practical introduction to racquetball with emphasis upon the acquisition of the basic skills and knowledge necessary for participation in racquetball. The student shall also acquire an appreciation for the sport as a lifelong leisure activity.

One hour lecture; one hour laboratory.

HPE 150 SOFTBALL (1)

Prerequisite(s): None

A practical introduction designed to provide the student with the basic skills, rules and strategies necessary to participate in recreational softball as a lifelong leisure activity.

One hour lecture; one hour laboratory.

HPE 151* BEGINNING TENNIS (1)

Prerequisite(s): None

A practical introduction designed to provide the student with the basic skills, rules and strategies necessary to participate in recreational tennis as a lifelong leisure activity.

One hour lecture; one hour laboratory.

HPE 152* INTERMEDIATE TENNIS (1)

Prerequisite(s): HPE 151

A practical introduction designed to provide the student with the advanced skills and strategies necessary to participate in recreational tennis as a lifelong leisure activity.

One hour lecture; one hour laboratory.

HPE 153* VOLLEYBALL (1)

Prerequisite(s): None

A practical introduction to the basic skills, rules and strategies of recreational volleyball to prepare the student for participation in a lifelong leisure activity.

One hour lecture; one hour laboratory.

HPE 170 VARSITY BASEBALL (1)

Prerequisite(s): None

Designed to provide the intermediate/advanced athlete with the skills and strategies necessary to compete at the intercollegiate level.

One hour lecture; three hours laboratory.

HPE 171 VARSITY MEN'S BASKETBALL (1)

Prerequisite(s): None

Designed to provide the intermediate/advanced athlete with the skills and strategies necessary to compete in basketball at the intercollegiate level.

One hour lecture; three hours laboratory.

HPE 172 VARSITY WOMEN'S BASKETBALL (1)

Prerequisite(s): None

Designed to provide the intermediate/advanced athlete with the skills and strategies necessary to compete at the intercollegiate level.

One hour lecture; three hours laboratory.

HPE 173 VARSITY VOLLEYBALL (1)

Prerequisite(s): None

Designed to provide the intermediate/advanced athlete with the skills and strategies necessary to compete at the intercollegiate level.

One hour lecture; three hours laboratory.

HPE 174 VARSITY WOMEN'S SOCCER (1)

Prerequisite(s): None

Designed to provide advanced female soccer athlete the opportunity to develop skills and strategies necessary to compete at the intercollegiate level.

One hour lecture; three hours laboratory.

HPE 179 LIFELONG WELLNESS (3)

Prerequisite(s): None

A practical and theoretical introduction to current practices necessary for wellness and optimum health. The student will develop an individualized program of diet and exercise supervised by the instructor.

Three hours lecture.

HPE 180 ORIENTATION TO PHYSICAL EDUCATION (3)

Prerequisite(s): None

A comprehensive introduction to the basic foundations of physical education and sport. Includes an examination of career preparation and opportunities.

Three hours lecture.

HPE 181 ORIENTATION TO RECREATION (3)

Prerequisite(s): None

A comprehensive introduction to the basic foundations of recreation. An examination of career opportunities in the field of recreation.

Three hours lecture.

HPE 185 ELEMENTARY SCHOOL PHYSICAL EDUCATION (3)

Prerequisite(s): None

A comprehensive overview of child development theories, general and specific physical education instructional procedures, and activity sequences.

Three hours lecture.

HPE 186 SCHOOL AND COMMUNITY HEALTH (3)

Prerequisite(s): None

The basic plan of the school health program, health services, health instruction and healthful school environment. The role of the teacher in relation to the school health program and the community health program.

Three hours lecture.

HPE 187 PERSONAL HEALTH (3)

Prerequisite(s): None

A survey of human adaptation emphasizing study of birth, growth and development, drugs, disease, lifestyle, marriage and parenthood, quality life and death.

Three hours lecture.

HPE 189 FIRST AID AND SAFETY (3)

Prerequisite(s): None

A study of first aid and cardiopulmonary resuscitation skills for first responders in an emergency. American Red Cross First Aid and CPR certification and the option to qualify for instructor status will be awarded upon successful course completion.

Three hours lecture.

HPE 190 SPORTS OFFICIATING (3)

Prerequisite(s): None

An overview of officiating skills in several sports including baseball, basketball, football and volleyball. Emphasis upon the acquisition of skills and knowledge essential to serve as a coach and/or as an official with the Arizona Interscholastic Association.

Three hours lecture.

HPE 192 COACHING TEAM SPORTS (2)

Prerequisite(s): None

An overview of coaching skills and theory with emphasis upon coaching team sports at the youth and secondary levels. Introduces the student to career and professional opportunities in the coaching field. Basic and intermediate skills inherent in several team sports (as selected by the instructor) will be introduced to the student.

Two hours lecture.

HPE 193 THEORY OF COACHING BASEBALL (3)

Prerequisite(s): None

An overview of coaching skills and theory with emphasis upon coaching baseball at the youth and secondary levels. Introduces the student to the aspects of coaching baseball at the collegiate level.

Three hours lecture.

HPE 194 THEORY OF COACHING BASKETBALL (3)

Prerequisite(s): None

A theoretical and practical study of coaching with emphasis upon coaching basketball at the youth and secondary levels. Introduces the student to the aspects of coaching basketball at the collegiate level.

Three hours lecture.

HPE 195 THEORY OF COACHING VOLLEYBALL (3)

Prerequisite(s): None

An overview of coaching skills and theory with emphasis upon coaching volleyball at the youth and secondary levels. Introduces the student to the aspects of coaching volleyball at the collegiate level.

Three hours lecture.

HPE 197 CARE & PREVENTION OF ATHLETIC INJURIES (3)

Prerequisite(s): None

A theoretical and practical study of common athletic injuries including appraisal, treatment, prevention, psychological implications, and legal issues.

Three hours lecture.

HPE 198F* WEIGHT TRAINING, RACQUETBALL AND JOGGING (2)

Prerequisite(s): None

An integrated activity course introducing basic skills and knowledge necessary to develop a proper weight training, racquetball, and jogging program.

One hour lecture; two hours laboratory.

HPE 224 FIELD EXPERIENCE IN RECREATION OCCUPATIONS (1-6)

Prerequisite(s): A declared area of emphasis in recreation occupations. Permission and approval of cooperative education program coordinator.

Recommended: Sophomore standing.

A supervised cooperative education work experience involving the combined efforts of educators and employers to accomplish career objectives in recreation occupations. Variable credit (1-6) is available by special arrangement. May be taken four times for a maximum of 16 credit hours, with no more than six credits in a given semester.

Health Technology

HLT 109* NURSING ASSISTANT (5)

Prerequisite(s): Completion of MAT 005 or math placement test score of 30 or higher and reading level 9.0 or higher.

A course approved by the Arizona Board of Nursing to prepare the basic level of nursing assistant to take the state exam for certification with emphasis on basic concepts of communication, patient safety, anatomy and physiology, nursing process, patient rights, legal and professional responsibilities, and specific patient care skills. The student will learn to recognize and meet basic physical, psychosocial, and cultural needs of patients especially those needs of the geriatric patient.

Three hours lecture; five hours clinical.

HLT 114* HOME HEALTH ASSISTANT (3)

Prerequisite(s): Nursing assistant

A course to prepare the nursing assistant to function in a home setting either performing specifically assigned tasks or giving complete care within the legal and ethical limits of the role. Adaptation of existing certified nursing assistant skills and those new skills such as food preparation, asepsis in the house and good communications skills necessary for giving safe care in the home are included. A certificate of completion will be awarded following satisfactory completion of this course.

Two hours lecture; three hours laboratory.

HLT 120 INTRODUCTION TO COMMUNITY HEALTH ADVISOR (3)

Prerequisite(s): None

Recommended: Students are encouraged to meet with a program advisor before enrolling in the CHA courses.

The first course of a 16-credit Community Health Advisor Certificate program. It prepares the individual to provide outreach health prevention, advocacy, education, and referral services within prescribed neighborhoods. Competencies taught include community health and human services, communication, organization, and advocacy skills.

Three hours lecture.

HLT 121 COMMUNITY HEALTH ADVISOR PRACTICUM (6)

Prerequisite(s): HLT 120

The second course of a 16-credit Community Health Advisor Certificate program. Community health advisor skills are practiced and evaluated in community-based health and human service agencies/settings. Students complete 320 clock hours of direct service.

Twenty-four hours laboratory per week (four- to six-hour days for six weeks).

HLT 130 INTRODUCTION TO MEDICAL ASSISTING (3)

Prerequisite(s): BIO 160 and CIS 116.

Recommended: Meeting with program advisor.

This course provides the student with an understanding of the concepts and skills that are necessary to function as a medical assistant. The student will gain an overview of medical assisting as a profession; will understand the health care environment; will be exposed to an overview of the history of medicine, medical insurance, coding terminology, and administrative procedures; and will understand the roles, responsibilities, and liabilities of the medical assistant.

Three hours lecture.

HLT 131 MEDICAL ASSISTANT LAW AND BIOETHICS (3)

Prerequisite(s): HLT 130

This course provides the student with an understanding of medical law, federal and state regulations and guidelines, infection control, applied ethical concepts, bioethical dilemmas, and risk management governing the profession of medical assistant, including CDC, CLIA, OSHA, and AMA.

Three hours lecture.

HLT 132 MEDICAL ASSISTANT TERMINOLOGY (2)

Prerequisite(s): HLT 131

A required course designed to acquaint students enrolled in the Medical Assistant Certificate program with the language of the profession. This course will enable them to communicate, both verbally and in writing, in a competent, professional manner as medical assistants.

Two hours lecture.

HLT 133 SPECTRUM OF HUMAN BEHAVIOR FOR MEDICAL ASSISTANTS (3)

Prerequisite(s): HLT 132

A required course designed to acquaint the student with an overview of the basic principles of human behavior including psychological, social, and cultural awareness as applied to the medical office practice. This course will assist the student in understanding and meeting client needs in a medical office setting.

Three hours lecture.

HLT 134* CLINICAL PROCEDURES FOR MEDICAL ASSISTANTS (SKILLS LAB I) (4)

Prerequisite(s): HLT 133

This skills laboratory course will prepare students to understand and to practice basic skills and procedures required to work as a medical assistant in a medical practice setting. Competencies learned will include, but are not limited to: CPR, first aid, medical emergencies, asepsis, infection control, medical history taking, vital signs, physical exam, minor surgical set-up and assist, rehabilitation treatment modalities, and nutritional assessment and treatment.

Three hours lecture; three hours laboratory.

HLT 135* MEDICATION ADMINISTRATION FOR MEDICAL ASSISTANTS (2)

Prerequisite(s): HLT 134

This course will provide the student with the knowledge and skills related to pharmacology, dosage and calculation of medication, and administration of medication given within the scope of practice of medical assistants in medical practice settings.

One hour lecture; three hours laboratory.

HLT 136* CLINICAL PROCEDURES FOR MEDICAL ASSISTANTS (SKILLS LAB II) (4)

Prerequisite(s): HLT 135

This skills laboratory course will prepare students to understand and gain practice in advanced skills and procedures necessary to successfully work as a medical assistant in a medical office setting. Competencies learned will include, but are not limited to, medical specialty exams and procedures for: pediatrics, female reproductive system, male reproductive system, urinary system, digestive system, sensory system, respiratory system, musculoskeletal system, neurological system, circulatory system, blood and lymph system, and integumentary system. The class will also prepare students to perform electrocardiography, venipuncture, and give them an overview of a medical laboratory.

Three hours lecture; three hours laboratory.

HLT 137 PROFESSIONAL DEVELOPMENT AND INTERPERSONAL SKILLS FOR THE MEDICAL ASSISTANT (3)

Prerequisite(s): HLT 136

This course provides the student with an overview and practice of the communication, coping, and therapeutic skills necessary to successfully provide care to patients in a medical practice setting and effectively communicate with medical providers, professionals, and the general public. It will prepare the student to complete the clinical practicum in an ambulatory health care setting, to complete the steps necessary to become certified and/or registered as a medical assistant, and to seek employment as a medical assistant.

Three hours lecture.

HLT 138 MEDICAL ASSISTANT - FRONT OFFICE (2)

Prerequisite(s): None

Recommended: Completion of HLT 130-137 or the equivalent, and concurrent enrollment in HLT 201 or employment in a medical office as a medical assistant.

This course provides an overview of the administrative procedures required of the medical assistant who performs front office functions. An awareness of the following topics are included in this course: creating the facility environment, computer use, telephone techniques, patient scheduling, medical records management, written communications, financial practices, insurance and coding, billing and collections, accounting practices, and office management. The application of this knowledge will take place in HLT 201, Medical Assistant Clinical Practicum.

Two hours lecture.

HLT 201* PRACTICUM FOR MEDICAL ASSISTANT (4)

Prerequisite(s): HLT 137

This course provides the student with an opportunity to apply the Medical Assistant Program-Back Office theory learned in the classroom setting to a healthcare setting through practical, hands-on experience. The practicum is planned and supervised by a college instructor in collaboration with a health care agency nurse or certified medical assistant. The student will be provided with objectives on which he/she will be evaluated during and upon completion of the practicum.

Eight hours clinical.

HLT 219 BORDER HEALTH ISSUES (3)

Prerequisite(s): Second year of nursing or social service programs; paramedicine student; or permission of instructor.

Recommended: SOC 101 and/or ANT 102; ENG 102.

Selected health issues pertaining to the U.S.-Mexico border region are surveyed including the epidemiology of certain communicable and chronic diseases; barriers to, and enabling factors for, the prevention and treatment of those diseases; environmental issues; utilization of health services across the border; historical, cultural, legal, and socio-economic factors; bilateral and binational cooperation. Guest speakers from various fields are invited to present their perspectives.

Three hours lecture.

HLT 225 MEDICAL ETHICS (3)

Prerequisite(s): ENG 101 or equivalent, college reading grade level.

An introduction to medical ethics with an emphasis on analysis and problem solving techniques within the medical/nursing arena. Medical ethical theories are explored. Ethical/legal case studies in a broad range of areas are considered.

Three hours lecture.

HLT 240 DENTAL PROPHYLAXIS TECHNICIAN (6)

Prerequisite(s): CPR certification and permission of the instructor.

This course offers the dental assistant an opportunity to pursue training in providing supragingival oral prophylaxis for patients without periodontitis and in promoting oral wellness through application of many aspects of preventive dentistry. This course is divided into didactic and clinical phases. The didactic phase, which is presented as a self-instructional module, includes an overview of oral anatomy, patient evaluation, the etiology of dental diseases, preventive dentistry measures, and instrumentation principles and concepts.

The clinical phase includes hands-on training under the guidance of a registered dental hygienist in providing supragingival oral prophylaxis and preventive dentistry procedures using various instruments and materials.

After students demonstrate competency in delivering patient care under direct supervision, they will work more independently as they progress through a two-week internship before achieving certification.

Four hours lecture; four hours laboratory.

History

HIS 110* HISTORY OF THE UNITED STATES 1607-1877 (3)

Prerequisite(s): RDG 122 or exemption or concurrent enrollment in a collaborative course. RDG 110.

A study of the development of American characteristics and nationality from colonial beginnings through the period of Reconstruction, emphasizing the factors and forces which produced the Revolution, the Constitution, westward expansion, sectionalism and the Civil War.

Three hours lecture.

HIS 111* HISTORY OF THE UNITED STATES SINCE 1877 (3)

Prerequisite(s): RDG 122 or exemption or concurrent enrollment in a collaborative course. RDG 110.

A study of the social, economic, and political forces that moved the United States through changing times from the post-Reconstruction era to the present, focusing on both domestic and foreign affairs in the country's last century of development.

Three hours lecture.

HIS 115 SURVEY OF THE AMERICAN WEST (3)

Prerequisite(s): RDG 110 or exemption.

A study of the methods of penetration and the patterns of westward expansion and settlement with emphasis on the Southwest. Analysis and criticism of the conquest, exploitation and settlement of the last frontiers, including the contribution of minority groups in the American West.

Three hours lecture.

HIS 130 ARIZONA HISTORY (3)

Prerequisite(s): RDG 110 or exemption.

The history of Arizona from the entrance of the Spaniards in 1539 to its emergence as a modern state in the Southwest.

Three hours lecture.

HIS 140 SURVEY OF WESTERN CIVILIZATION I (3)

Prerequisite(s): RDG 122 or exemption. ENG 101.

Recommended: 12.0 reading level or official Cochise College equivalent.

A study of major historical trends from the emergence of western civilization through the early Middle Ages, with emphasis upon the cultural development of humankind and historical relationships.

Three hours lecture.

HIS 141 SURVEY OF WESTERN CIVILIZATION II (3)

Prerequisite(s): RDG 122 or exemption. ENG 101.

Recommended: 12.0 reading level or official Cochise College equivalent.

A study of major historical trends in western civilization from the Middle Ages to the emergence of nation-states and the Enlightenment, with emphasis on the cultural development of humankind and upon historical relationships.

Three hours lecture.

HIS 142 SURVEY OF WESTERN CIVILIZATION III (3)

Prerequisite(s): RDG 122 or exemption. ENG 101.

Recommended: 12.0 reading level or official Cochise College equivalent.

A study of the major historical trends in western civilization from 1800 and early modern civilization to the present, with emphasis on the cultural development of humankind and upon historical relationships.

Three hours lecture.

HIS 160 A HISTORY OF RUSSIA (3)

Prerequisite(s): RDG 122 or exemption. ENG 101.

A survey of Russian history from Peter the Great to the present. The course includes a study of Russia's geography, ethnic minorities, economics and religions. The Russian Empire; the Romanov Dynasty; the Russian Revolution and Lenin; Stalin, the Cold War and Communism, as well as the Gorbachev and Yeltsin period, are covered in the course.

Three hours lecture.

HIS 192 SPECIAL TOPICS IN HISTORY (.5-1)

Prerequisite(s): None

A rotating forum/seminar emphasizing local, regional and international historical topics, which will vary with changes in student, needs and interests. May be repeated for Cochise College credit. Cochise College elective credit only unless otherwise designated in degree programs.

Thirty minutes to one hour lecture.

HIS 192A	The History of Rodeo
HIS 192B	Ghost Towns of Cochise County
HIS 192C	History of Transportation in Arizona
HIS 192D	Arizona Place Names
HIS 192E	Women and the West
HIS 192F	John H. (Doc) Holliday
HIS 192G	History of Tombstone During Arizona's Territorial Period
HIS 192H	History of Cochise County
HIS 192I	Coronado and the Spanish Legacy in the West
HIS 192J	History of the American West as seen through the Writings of John Myers
HIS 192K	The Real West (The Good, Bad and The Ugly)
HIS 192L	The History of Southwestern Ranching
HIS 192M	Military History of Fort Huachuca, Arizona
HIS 192N	Islamic Civilization in World History
HIS 192O	Family History (Genealogy)
HIS 192P	History and Art of Heraldry
HIS 192Q	Conflict in the Middle East

HIS 193 SPECIAL TOPICS IN HISTORY (1)

Prerequisite(s): None

A rotating forum/seminar emphasizing local, regional and international historical topics, which will vary with changes in student, needs and interests. May be repeated for Cochise College credit. Cochise College elective credit only unless otherwise designated in degree programs.

One hour lecture.

HIS193A	The History of Rodeo
HIS193B	Ghost Towns of Cochise County
HIS193C	History of Transportation in Arizona
HIS193D	Arizona Place Names
HIS193E	Women and the West
HIS193F	John H. (Doc) Holliday
HIS193G	History of Tombstone During Arizona's Territorial Period
HIS193H	History of Cochise County
HIS193I	Coronado and the Spanish Legacy in the West
HIS193J	History of the American West as seen through the Writings of John Myers
HIS193K	The Real West (The Good, Bad and The Ugly)
HIS193L	The History of Southwestern Ranching
HIS193M	Military History of Fort Huachuca, Arizona
HIS193N	Islamic Civilization in World History
HIS193O	Family History (Genealogy)
HIS193P	History and Art of Heraldry
HIS193Q	Conflict in the Middle East
HIS193R	The Border: From Heroic Past to Present-day Controversies
HIS193S	History of Bisbee

HIS 229 HISTORY OF MEXICO I (3)

Prerequisite(s): RDG 122 or exemption and ENG 101.

A study of political, economic, social, and cultural developments from pre-Columbian civilizations to the War for Independence.

Three hours lecture.

HIS 230 HISTORY OF MEXICO II (3)

Prerequisite(s): RDG 122 or exemption and ENG 101.

A study of political, economic, social, and cultural developments from the War for Independence to modern times.

Three hours lecture.

Honors

HON 250 HONORS: INDIVIDUAL PROJECT (1-4)

Prerequisite(s): 12 credits completed at Cochise College, minimum GPA 3.5 or exception through petition of the honors committee.

A non-traditional project mutually agreed upon between student and mentor. Student must obtain an honors contract from the honors program secretary/treasurer.

One to four hours lecture/laboratory.

HON 251 HONORS SEMINAR (1)

Prerequisite(s): Completion of 12 credits in a degree program, with a GPA of 3.5 or higher (or petition to the honors committee).

Recommended: Honors committee approval.

A seminar for current and potential honors students to share information and participate in networking regarding individual honors projects.

One hour lecture.

HON 255 LEADERSHIP/SERVICE (3)

Prerequisite(s): Completion of 12 credits in an accredited degree program, with a GPA of 3.5 or higher (or petition to the honors committee).

Recommended: Completion of one, one-credit honors contract.

Complete major service project at Cochise College and/or the community.

Three hours lecture.

HON 260 THE HUMAN QUEST FOR UTOPIA (3)

Prerequisite(s): Completion of 12 credits in an accredited degree program, with a GPA of 3.5 or higher (or petition to the honors committee).

Recommended: ENG 102H and completion of one, one-credit honors contract.

Inclusive study of the history, literature, philosophy, technology, ecology, sociology, psychology, mythology, tradition, research, and economy of utopian communities.

Three hours lecture.

Horticulture

The horticulture courses are designed for the Arizona Department of Corrections in Douglas.

HRT 101 BASIC HORTICULTURE (3)

Prerequisite(s): High School diploma, GED or instructor approval.

An examination of the horticulture industry, including the study of safety measures, terminology and tools with an emphasis on available occupational opportunities.

Two hours lecture; three hours laboratory.

HRT 110 LANDSCAPE PLANT MATERIAL (3)

Prerequisite(s): HRT 101

Identification and utilization of plant materials used for landscaping purposes in the desert Southwest with emphasis on cultural requirements, soils and water-plant relationships.

Two hours lecture; three hours laboratory.

HRT 111 LANDSCAPE CONSTRUCTION AND MAINTENANCE (3)

Prerequisite(s): HRT 110

A study of landscape materials, the planting and maintenance of commercial and residential landscapes, sprinkler systems and the use of concrete, brick and wood in landscape construction.

Two hours lecture; three hours laboratory.

HRT 115 GARDEN CROP PRODUCTION (3)

Prerequisite(s): HRT 110, HRT 111, or permission of instructor.

A review of propagation, cultivation, and harvest of popular garden fruits and vegetables, from seedbed preparation to retail/wholesale distribution. Focus is on original production of high-demand products created from raw materials and labor.

One hour lecture; five hours laboratory.

HRT 118 FLORICULTURE (3)

Prerequisite(s): HRT 110 or permission of instructor.

Hands-on introduction to creation of floral arrangements and a practical review of propagation, culture, and economic production of flower and foliage plants.

One hour lecture; five hours laboratory.

HRT 120 PEST CONTROL (3)

Prerequisite(s): HRT 111

A practical analysis of plant pest identification and control methods. Environmental protection agency regulations and pertinent federal laws will be covered.

Two hours lecture; three hours laboratory.

HRT 130 ORGANIC GARDENING (3)

Prerequisite(s): HRT 101

Practical applications in the utilization of natural, organic methods of pest control and soil fertilization. Advantages and disadvantages of organic gardening routines will be examined.

One hour lecture; five hours laboratory.

HRT 140 LANDSCAPE IRRIGATION SYSTEMS (3)

Prerequisite(s): HRT 111 or permission of instructor.

The course will develop skills in designing, installing, operating and maintaining traditional irrigation systems, emphasis on current developments to include sprinklers, bubblers, drip emitters, manual and automated systems.

Three hours lecture.

HRT 201 LANDSCAPE DESIGN (3)

Prerequisite(s): HRT 120

The principles of landscape design focusing on the utilization of varied plant materials, environmental requirements, drawing and layout techniques and reading landscape blueprints.

Three hours lecture; one hour laboratory.

HRT 208 GREENHOUSE MANAGEMENT (3)

Prerequisite(s): HRT 110, HRT 111 and HRT 120.

Focus on actual problems and opportunities in daily activities as well as seasonal projects involved in greenhouse operation. Emphasis will include greenhouse construction, maintenance, environment control, and commercially-oriented production.

One hour lecture; five hours laboratory.

HRT 216 LANDSCAPE ESTIMATING (3)

Prerequisite(s): HRT 111, HRT 140, HRT 201, or permission of instructor.

Emphasis on completed job estimates based on current labor costs and material prices. Various practical projects including landscape construction, installation, and maintenance contract bids will be developed.

One hour lecture; five hours laboratory.

HRT 224 CERTIFIED NURSERY PROFESSIONAL (3)

Prerequisite(s): None

A review of technical practices and knowledge necessary in the nursery/landscape industry as specified by the Arizona Nursery Association. Emphasis is on preparation for the examination leading to certification as a nursery professional.

Two hours lecture; four hours laboratory and directed study.

HRT 232 NATIVE PLANTS OF THE DESERT SOUTHWEST (3)

Prerequisite(s): HRT 101 or permission of the instructor.

This course researches the production and environmental needs of native Southwestern desert plants in conjunction with today's landscapes. Focus is on how to use native plants in a landscape properly.

One hour lecture; four hours laboratory.

Hospitality Administration

HAD 100 INTRODUCTION TO THE HOSPITALITY INDUSTRY (3)

Prerequisite(s): None

An introductory course of the hospitality industry which includes the hotel-restaurant-resort career, a review of the industry's history, career opportunities, training and motivation, labor relations and management principles as they relate to the hospitality industry.

Three hours lecture.

HAD 105 NUTRITION IN FOOD SERVICE (3)

Prerequisite(s): None

Principles of culinary nutrition. Includes scientific aspects, life-style impact on food consumption and production, and nutrition applications in food service.

Three hours lecture.

HAD 107 RESTAURANT SANITATION (3)

Prerequisite(s): None

This course is an examination of techniques for controlling sanitation in the food service operations including ensuring product quality, and managing time and costs. Cochise County Food Handlers Certificate is the test given at midterm. Industry certifications available on request with payment for test administration.

Three hours lecture.

HAD 110 FOOD SERVICE MATH PRINCIPLES (3)

Prerequisite(s): None

This course includes the advanced use of culinary weights and measures and conversions, principles of converting standard recipes, sales checks, using the cashier's worksheet, pricing menus, maintaining perpetual and physical inventories and budgeting.

Three hours lecture.

HAD 120 INTRODUCTION TO PROPERTY MANAGEMENT (3)

Prerequisite(s): None

An introductory course to professional housekeeping and housekeeping administration, including maintenance and logistical supply, employee supervision and safety.

Three hours lecture.

HAD 181 EXPLORATION IN MODERN COOKING (1)

Prerequisite(s): None

Each semester, this course explores a new specialty in culinary arts, to enhance the specialized skills necessary to progress in haute cuisine settings. Specialized courses shall include: ice carving, sauces of the world, chocolate fantasies, food sculptures, table top designs, desserts of the world, and regional cuisine.

One hour lecture.

HAD 204 FOOD SERVICE PURCHASING AND CONTROL (3)

Prerequisite(s): None

Recommended: HAD 110

The course includes the principles of selecting sources as well as quality and type of foods, and determining quantities to purchase. Fundamentals of receiving operations, quality and volume assurance. Includes planning, control system design, cost analysis and control of sales income and labor costs.

Three hours lecture.

HAD 208 MEAT CUTTING FOR THE FOOD SERVICE INDUSTRY (2)

Prerequisite(s): HAD 107

This course encompasses the butchering of meat for quantity food preparation including history, purchasing guidelines, government regulations, cuts, and usage for pork, lamb/veal, and beef. This course does not include a laboratory.

Two hours lecture.

HAD 210 GUEST SERVICES MANAGEMENT (3)

Prerequisite(s): HAD 100

Front desk management and operations of a hotel, including bell service, clerking, cashier functions, guest reception, reservation systems, guest and building security, night audit and inter-organizational liaison.

Three hours lecture.

HAD 215 FOOD SERVICE SPECIALTY: CULINARY PREPARATION (3)

Prerequisite(s): HAD 107

This course includes the preparation of cuisine specialties. Includes basic cooking principles, recipes, pre-preparation, stocks and sauces, vegetable cookery, starches, breakfast preparation, meat cookery, poultry, fish and shellfish, salads and salad dressings, sandwiches, presentation and garnishing, and bake shop production.

Two hours lecture; two hours laboratory.

HAD 216 FOOD SERVICE SPECIALTY: CULINARY PREPARATION II (2)

Prerequisite(s): HAD 215

Recommended: HAD 107

This course is a continuation of HAD 215. The course includes a review of the rules of good sanitation, modern kitchen equipment, cooking methods, art of seasoning, creating recipes, food cost, menu development, nutritional considerations, healthy alternatives, soups, family of sauces, meats, cooking methods, vegetable cookery, and potatoes and other starches.

One hour lecture; three hours laboratory.

HAD 220 FOOD SERVICE SPECIALTY: BAKING (3)

Prerequisite(s): HAD 107

This course includes the essentials of baking including basic principles, ingredients, quick breads, yeast dough, syrups, creams, icings, and sauces, pastries, pies, cake mixing and decorating, cookies, custards, puddings and mousses, and display pieces.

Two hours lecture; two hours laboratory.

HAD 221 FOOD SERVICE SPECIALTY: BAKING II (2)

Prerequisite(s): HAD 220

This course is a continuation of HAD 220. It includes advanced baking principles, baking process, muffins and biscuits, yeast doughs, stages of cooking sugar, pastry cream, meringues, icings, pie doughs, puff pastry, éclair paste, phyllo dough, pie production, cakes, cookies and their characteristics, and soufflés.

One hour lecture; three hours laboratory.

HAD 224 FIELD EXPERIENCE IN HOSPITALITY ADMINISTRATION (1-6)

Prerequisite(s): A declared major in hospitality administration. Permission and approval of cooperative education program coordinator, HAD 107.

Recommended: Sophomore standing.

A supervised cooperative education work experience involving the combined efforts of educators and employers to accomplish career objectives in hospitality administration and related fields. Variable credit (1-6) is available by special arrangement. May be taken four times for a maximum of 16 credit hours, with no more than six credits in a given semester.

HAD 225 FOOD SERVICE SPECIALTY: GARDE-MANGER (3)

Prerequisite(s): HAD 107

Recommended: HAD 215 and HAD 240.

This course encompasses the creation and storage of salads, sandwiches, and appetizers. Includes purchasing practices, food platter layout and presentation, cooking methods, salads and dressings, poultry, seafood, meats, show pieces, and canapés and hors d'oeuvres.

Two hours lecture; two hours laboratory.

HAD 226 FOOD SERVICE SPECIALTY: GARDE-MANGER II (2)

Prerequisite(s): HAD 225

This course is a continuation of HAD 225. It includes review of the garde-manger department, aspic and chaud-froid, garde-manger department production, purchasing and procurement of specialty products, various force meats, dinner and theme buffets, ice carvings, plate presentations, cheeses, cured and smoked products, and charcuterie.

One hour lecture; three hours laboratory.

HAD 235 HOSPITALITY LAW (3)

Prerequisite(s): HAD 100 and HAD 120.

Common law and its application to the hospitality industry, including basic contracts, administrative law and government regulations and legal concerns resulting from the innkeeper-guest relationship and the establishment and operation of a place of public accommodation. The impact of the legal environment and process on the day-to-day aspects of the hospitality industry, including preventative measures to limit or eliminate liability and litigation.

Three hours lecture.

HAD 240 COMMERCIAL FOOD PREPARATION THEORY (3)

Prerequisite(s): HAD 107

A course outlining the basic principles of food selection and purchase, storage, menu planning, preparation, service, kitchen organization and sanitation in commercial food preparation.

Three hours lecture.

HAD 241* ADVANCED COMMERCIAL FOOD PREPARATION AND LAB (4)

Prerequisite(s): HAD 240

Basic principles, procedures, operations and techniques in quantity commercial food preparation and service, including planning, storage, cooking equipment, sanitation and service.

Two hours lecture; eight hours laboratory.

HAD 242 DINING SERVICE MANAGEMENT (1)

Prerequisite(s): HAD 107

This course includes the concepts of dining room operations and the duties of a table server. Includes creative selling, basic etiquette and styles of service, electronic service, teamwork, basics of generic and varietal wines, wine and food affinities, bar service, sanitation and safety, and review/performance appraisals. The course does not include mixology or wine tasting.

One hour lecture.

HAD 250 HOSPITALITY FINANCIAL MANAGEMENT (3)

Prerequisite(s): BUS 201

A study of financial statement analysis, management of assets, ratio analysis, analytical techniques and investment decision making as they apply to the hospitality industry.

Three hours lecture; two hours laboratory.

HAD 270* HOSPITALITY AUTOMATION (3)

Prerequisite(s): HAD 210

An exploration and application of computer technology to front desk operations, including reservations, guest accounting and manager's reports.

Three hours lecture.

HAD 280 ADVANCED TECHNIQUES IN GOURMET FOOD PREPARATION (3)

Prerequisite(s): HAD 226 or concurrent enrollment.

Recommended: HAD 110

This course encompasses the preparation of haute cuisine, including proper flavorings, spirits, garnishes and flam-bé in gourmet food preparation.

Two hours lecture; three hours laboratory.

Humanities

HUM 093 CULTURAL CONTEXT: CASE STUDIES (1)

Prerequisite(s): Permission of instructor.

Introduction to the social norms, cultural values and assumptions underlying workplace behavior with emphasis on case studies and practical application.

Two hours laboratory.

HUM 100 EXPLORING UNITED STATES CULTURES (3)

Prerequisite(s): Concurrent placement in ENG 100 or RDG 020 or equivalent proficiency in reading and writing.

Recommended: Basic word processing proficiency.

An exploration of diverse cultural patterns in the United States, including consideration of geography, climate, immigration, and historical shaping of present day society with concentration on language, religion, food, festivals, and work.

Three hours lecture.

HUM 101 HUMANITIES IN CONTEMPORARY LIFE (3)

Prerequisite(s): ENG 100 or placement into ENG 101.

A study of contemporary thought, literature, art and music as they occur in mass media: journalism, motion pictures, and television. Students will be required to attend assigned concerts, plays, motion pictures, art exhibits, and will be required to submit written critical reports.

Three hours lecture.

HUM 104 HERITAGE FROM MEXICO (3)

Prerequisite(s): None

A study of the various facets of culture and their historical settings which have contributed to the traditions, lifestyle and uniqueness of Mexicans and Americans of Mexican heritage both past and present.

Three hours lecture.

HUM 105 BALLET FOLKLÓRICO (2)

Prerequisite(s): None

An introduction to the study and performance of Ballet Folklórico with emphasis upon basic dance steps, dances from different regions of Mexico, and group performances. Includes an overview of the history and cultural heritage of Ballet Folklórico. May be taught in a bilingual English/Spanish format. May be offered on a pass/fail basis.

One hour lecture; three hours rehearsal/performance.

HUM 110 INTRODUCTION TO FILM AND VIDEO (3)

Prerequisite(s): None

A study of film and video as art forms and as media for the expression of ideas and an introduction to the principles of film criticism.

Three hours lecture.

HUM 115 CULTURAL HERITAGE OF THE SOUTHWEST (3)

Prerequisite(s): ENG 101 or permission of instructor.

A general survey of the cultural heritage of the Southwest. A cultural look at the significant events, historical figures, customs, ways and institutions that have contributed to the unique cultural heritage in the Southwest.

Three hours lecture.

HUM 167 CULTURAL VALUES IN THE BORDERLANDS WORKPLACE (3)

Prerequisite(s): ENG 101

Recommended: Concurrent enrollment in HUM 101 or HUM 104.

An overview of cultural patterns, values, beliefs and customs prevalent in business and industry on the United States/Mexico border, with emphasis on practical application.

Three hours lecture.

HUM 192 SPECIAL TOPICS IN THE HUMANITIES (-.5-1)

Prerequisite(s): None

A rotating forum/seminar emphasizing connections among literature, philosophy and the arts. Topics will vary in accordance with changes in student need and interest. Cochise College elective credit only unless otherwise designated in degree programs.

Thirty minutes to one hour lecture.

HUM 205* MAJOR ANCIENT CULTURES (3)

Prerequisite(s): ENG 102 or permission of instructor.

Art, architecture, literature, music and ideas in the western world from ancient times to the Middle Ages, with emphasis on people's relationship to their gods or God.

Three hours lecture.

HUM 206 EUROPEAN CULTURE (3)

Prerequisite(s): ENG 102 or permission of instructor.

Art, architecture, literature, music and philosophy from the Middle Ages to the Industrial Revolution with emphasis on the development of humanism and science.

Three hours lecture.

HUM 207* THE MODERN WORLD (3)

Prerequisite(s): ENG 102 or permission of instructor.

A global view of art, literature, music, philosophy, and ideas from the 18th century to the present time.

Three hours lecture.

HUM 210 FOREIGN FILM CLASSICS (3)

Prerequisite(s): ENG 101 or permission of instructor.

A survey of major foreign films from 1893 through the present, emphasizing film criticism and theory.

Three hours lecture.

Intercultural Studies

ICS 193 SPECIAL TOPICS IN INTERCULTURAL STUDIES (1)

Prerequisite(s): High school level reading ability in English or Spanish, and some speaking knowledge of both English and Spanish preferred

A rotating forum/seminar on a variety of topics of interest to individuals who wish to learn more about the values and interactions of Spanish-speaking and English-speaking people and their cultural foundation. Topics will vary in accordance with changes in student need and interest.

One hour lecture.

Journalism

JRN 101 INTRODUCTION TO MASS COMMUNICATIONS (3)

Prerequisite(s): ENG 101 or permission of instructor.

An introduction to mass communications media with emphasis on understanding basic concepts of gathering, writing, and evaluating news and other kinds of communication in newspapers, television, radio, magazines, wire services, syndication, books, movies, computer/digital and other media. Identical to MED 101.

Three hours lecture.

JRN 102 WRITING FOR PUBLICATIONS (3)

Prerequisite(s): ENG 101 or permission of instructor.

Recommended: Computer literacy.

Entry-level course in media arts/communications or journalism. Students will be introduced to news writing, editing, assignments and deadlines. Identical to MED 102.

Three hours lecture.

JRN 103 NEWS REPORTING (3)

Prerequisite(s): JRN/MED 102 or permission of instructor.

A course in writing and editing news and feature articles. Special emphasis on news gathering and reporting of real-life situations. Class will supply articles for the journalism workshop newsletter or college newspaper. Identical to MED 103.

Two hours lecture; two hours laboratory.

JRN 201* STUDENT NEWSPAPER (3)

Prerequisite(s): JRN/MED 102 or JRN/MED 207, CIS 285 or permission of instructor.

A guided workshop for publication of a student-based college newspaper, emphasizing techniques for editing, layout, headline and caption writing, photo/art assignment and selection, and computer production techniques. May be repeated twice for Cochise College degree credit. Identical to MED 201.

Two hours lecture; four hours laboratory.

JRN 207* INTRODUCTION TO DESKTOP PUBLISHING (3)

Prerequisite(s): None

Recommended: Computer literacy.

Principles and practice of creating printed materials combining text and graphics using major desktop publishing programs, with emphasis on the practical aspects of production. Identical to CIS 285 and MED 207.

Three hours lecture.

JRN 224 FIELD EXPERIENCE IN COMMUNICATION & MEDIA TECHNOLOGY (1-6)

Prerequisite(s): Permission and approval of cooperative education program coordinator.

Recommended: Sophomore standing.

A supervised cooperative education work experience involving the combined efforts of educators and employers to accomplish career objectives in communication and media technology and related fields. Variable credit (1-6) is available by special arrangement. May be taken four times for a maximum of 16 credit hours, with no more than six credits in a given semester.

JRN 257 LITERARY MAGAZINE PRODUCTIONS (3)

Prerequisite(s): ENG 101 or permission of instructor.

Recommended: CIS 285/JRN 207/MED 207

Production of the college literary and arts magazine. Includes application of promotion, editing, design, layout, and production techniques. May be taken more than once for credit. Identical to ENG 257.

Three hours lecture.

JRN 287* COMPUTERIZED PHOTOGRAPHY I (3)

Prerequisite(s): None

An introduction to digital photography and the electronic darkroom. A blending of traditional film-based picture-taking techniques with computer-aided photo manipulation. Photo lab and computer lab will both be used. Emphasis on scanning and on-screen photo-manipulation software. Identical to MED 287.

Three hours lecture/discussion/demonstration with practical experimentation.

Korean

KOR 115 CONVERSATIONAL KOREAN I (3)

Prerequisite(s): None

An introduction to beginning-level Korean, including its basic structures and Hangul (Korean script). Designed for students who wish to use Korean for business, pleasure, or travel, with some emphasis on traditions, culture and customs. May be used for elective credit toward an AA degree. Emphasis is on speaking, reading and writing.

Three hours lecture.

KOR 116 CONVERSATIONAL KOREAN II (3)

Prerequisite(s): KOR 115

Continuation of conversational KOR 115 using similar methods and format. Essentials of Korean for conversational situations coupled with some reading skills to enable the reading of signs, etc., with a continuing emphasis on customs, traditions and culture. Designed for students who wish to use Korean for business, pleasure or travel. May be used for elective credit toward and AA degree. Emphasis is on speaking, reading and writing.

Three hours lecture.

Latin

LAT 101 ELEMENTARY LATIN (4)

Prerequisite(s): None

A study of grammar and vocabulary of Latin and of ancient authors with emphasis on the etymological indebtedness of English to Latin.

Four hours lecture.

LAT 102 ELEMENTARY LATIN (4)

Prerequisite(s): LAT 101 or at least one year of high school Latin or permission of instructor.

A study of grammar and vocabulary of Latin and of ancient authors; a continuation of LAT 101.

Four hours lecture.

LAT 201 INTERMEDIATE LATIN I (4)

Prerequisite(s): LAT 102 or at least two years of high school Latin or permission of instructor.

Review of Latin language through selected readings from the prose of the Golden Age (80 BC - AD 14) and Silver Age (AD 15 - 138) of Latin literature (e.g., Cicero, Caesar, Seneca, Tacitus, et al.).

Four hours lecture/recitation.

LAT 202 INTERMEDIATE LATIN II (4)

Prerequisite(s): LAT 201 or equivalent; or at least three years of high school Latin, or permission of instructor.

Review of Latin language through selected readings from the poetry of the Golden Age (80 BC - AD 14) and the Silver Age (AD 15 - 138) of Latin literature (e.g., Catullus, Virgil, Horace, Martial, Juvenal).

Four hours lecture/recitation.

Linguistics

LIN 101 INTRODUCTION TO LINGUISTICS (3)

Prerequisite(s): ENG 101

Survey of linguistic concepts and methods; communication among animals; physiology of human speech; elementary phonology, morphology, syntax and semantics; language variation, borrowing and change; language and the brain; language and thought.

Three hours lecture.

LIN 180 EFFECTIVE MESSAGES (3)

Prerequisite(s): ENG 167 and SPA 267 or permission of instructor.

Theory and practice of encoding and decoding electronically transmitted messages: telegraph or Telex, telephone or radio, television. Consideration of teleconferencing included. Communications strategies to reduce interference and ambiguity in messages; techniques to increase comprehension. Taught in English and Spanish.

Two hours lecture; three hours laboratory.

LIN 290 FUNDAMENTALS OF TRANSLATION AND INTERPRETATION (3)

Prerequisite(s): ENG/BUS/OAD 167 and SPA 267, or permission of instructor.

An introduction to translation and interpretation theory and practice. Emphasis on application; translation of representative texts chosen from general and commercial contexts; interpretation of representative discourse chosen from a variety of social and business contexts. Familiarity with professional translation and interpretation practices, ethics and technology. Identical to SPA 290.

Three hours lecture.

Management

MGT 101 INTRODUCTION TO MANAGEMENT SKILLS (2)

Prerequisite(s): Sponsorship by a private or non-profit sector employer or approval of the coordinator of the Center for Professional Development.

A practical introduction to private and non-profit sector management for first-line supervisors or potential supervisors. Focus is on communication techniques, delegation of authority, quality management, performance evaluation, discipline, and employee orientation. May be offered in a pass/fail grading format. Identical to PAD 101.

MGT 101 - MGT 103 is offered as a single program and may not be taken individually or out of sequence.

Two hours lecture.

MGT 102 THE MANAGER AND SYSTEMS RELATIONSHIPS (2)

Prerequisite(s): MGT 101

A practical study of the manager as a member of an organization with emphasis upon the processes and procedures necessary for managerial competence. Topics include management practices, employee motivation, organizational communications, budgetary systems and management, equal employment opportunity, and employee-management relations. May be offered in a pass/fail grading format. Identical to PAD 102.

MGT 101-103 is offered as a single program and may not be taken individually, or out of sequence.

Two hours lecture.

MGT 103 THE MANAGER AND THE WORKGROUP (2)

Prerequisite(s): MGT 102

A practical analysis of the manager as a group/team leader, focusing on group dynamics, behavioral analysis, group problem solving and decision making, change management, conflict management, and group interaction. May be offered in a pass/fail grading format. Identical to PAD 103.

MGT 101-103 is offered as a single program and may not be taken individually, or out of sequence.

Two hours lecture.

MGT 201 LEADERSHIP SKILLS FOR MANAGERS (3)

Prerequisite(s): Sponsorship by a private or non-profit sector employer, and successful completion of MGT 101-103 or PAD 101-103 or possession of the equivalent level of training as certified by the CPD Coordinator.

A practical, in-depth study of private and non-profit sector management techniques focusing on leadership, ethics, management in a political environment, management of fiscal resources and organizational planning. Also includes the study of marketing fundamentals, marketing strategy, and linking marketing with organizational goals. MGT 201 is offered as part of a management certificate program and may not be taken as an individual course or out of sequence. May be offered in a pass/fail grading format.

Three hours lecture.

MGT 202 EFFECTIVE DECISION MAKING (3)

Prerequisite(s): MGT 201

A practical, in-depth study of private sector management techniques focusing on effective decision making, conflict management, performance evaluation and achieving organizational goals through teamwork. MGT 202 is offered as part of a management certificate program and may not be taken individually or out of sequence.

Three hours lecture.

MGT 203 SUCCESSFUL PROJECT MANAGEMENT (3)

Prerequisite(s): MGT 202

A practical, in-depth study of private and non-profit sector management techniques focusing on project management, managing and achieving organizational goals and effectively managing organizational change. MGT 203 is offered as part of a management certificate program and may not be taken individually, or out of sequence.

Three hours lecture.

Mathematics

MAT 005 DEVELOPMENTAL MATHEMATICS (3)

Prerequisite(s): Math placement test scores below requirements for successful completion of MAT 072.

MAT 005 is a course in basic mathematics. Math pre-test and student inventory responses are used to place students. Topics of instruction include addition, subtraction, multiplication, division of whole numbers, functions, decimals and percentage applications.

Three hours lecture.

MAT 011 CONQUERING MATH ANXIETY (1)

Prerequisite(s): None

Recommended: Reading at 8.0 level.

A study in the causes and treatments of math anxiety, study skills, education, anxiety reduction techniques.

One hour lecture.

MAT 072 FUNDAMENTAL MATHEMATICS (3)

Prerequisite(s): Indicated mathematics placement score.

A study of basic arithmetic concepts with drill in skills and techniques of computation. Includes fundamental operations with whole numbers, fractions and decimals, percent, units of measure, geometry, scientific notation, ratio and proportion, averages, basic operations with signed numbers and solving simple algebraic equations.

Three hours lecture.

MAT 082 ELEMENTARY ALGEBRA (3)

Prerequisite(s): Indicated mathematics placement score or MAT 072 with a grade of C or better.

An introduction to the basic algebra normally included in a first-year high school algebra course. Includes fundamen-

tal axioms and operations applied to rational numbers, laws of integral exponents, solutions of equations, polynomials and factoring, systems of equations, graphing equations and inequalities, rational expressions, radicals and quadratic equations and applications.

Three hours lecture.

MAT 122* INTERMEDIATE ALGEBRA (3)

Prerequisite(s): Indicated mathematics placement score or MAT 082 with a grade of C or better or one year of high school algebra with a grade of C or better.

A continuation of algebra concepts which parallels the content generally included in a second-year high school algebra course: real number system, linear equations, absolute value and inequalities, functions, basic analytical geometry, systems of equations, polynomials, exponents, radicals and quadratic equations. May or may not transfer for credit to four-year universities.

Three hours lecture.

MAT 125 MATHEMATICS FOR ELEMENTARY EDUCATION MAJORS I (3)

Prerequisite(s): MAT 122

The objective of this course is to provide an understanding of problem solving, sets and functions, numeration systems, whole numbers, integers, rational numbers, decimals, and number theory.

Three hours lecture.

MAT 126 MATHEMATICS FOR ELEMENTARY EDUCATION MAJORS II (3)

Prerequisite(s): MAT 125

The objective of this course is to provide an understanding of probability, statistics, introductory geometrics, problem solving and LOGO turtle graphics (optional).

Three hours lecture.

MAT 142 APPLICATIONS OF COLLEGE ALGEBRA (3)

Prerequisite(s): MAT 122 or placement.

An overview of areas of modern mathematical applications to include: problem solving, mathematical modeling, logic, geometry, probability, statistics, and consumer mathematics.

Three hours lecture.

MAT 151* COLLEGE ALGEBRA (4)

Prerequisite(s): Indicated mathematics placement score or MAT 122 or two years of high school algebra with grades of C or better.

A logical development of the real number system, field axioms as applied to algebra, sets and set notation, inequalities and absolute value, polynomial functions and their graphs, determinants and matrices, inverse functions, logarithmic and exponential functions, complex numbers, sequences, binomial theorem, and mathematical induction.

Four hours lecture.

MAT 167 ELEMENTS OF STATISTICS (3)

Prerequisite(s): MAT 151

Basic concepts of descriptive and inferential statistics with applications in business and economics, the natural sciences, and the social and behavioral sciences. Methods of data collection, sampling techniques, experimental design, probability distributions, hypothesis testing, regression and correlation, various parametric and non-parametric statistical tests.

Three hours lecture.

MAT 172 FINITE MATHEMATICS (3)

Prerequisite(s): MAT 151

An introduction to finite mathematics, with applications including: linear equations to supply and demand functions, systems of linear equations with applications to optimization, systems of linear inequalities with application matrices, linear programming and the simplex method, and mathematics of finance.

Three hours lecture.

MAT 182* PLANE TRIGONOMETRY (3)

Prerequisite(s): MAT 151

An analytical approach to trigonometry based upon the unit circle concept: trigonometric functions, identities, conditional equations, radian measure graphs, logarithms, solution of right and oblique triangles, inverse trigonometric functions and trigonometric form of complex numbers.

Three hours lecture.

MAT 187* PRECALCULUS (5)

Prerequisite(s): Indicated mathematics placement score or MAT 122 or two years of high school algebra with grades of C or better.

Topics from college-level algebra and trigonometry essential to the study of calculus and analytic geometry. Includes algebraic, exponential, logarithmic, trigonometric, and inverse trigonometric functions, complex numbers, linear and nonlinear systems of equations and inequalities, and sequences and series.

Five hours lecture.

MAT 188 COMPUTER SKILLS FOR MATHEMATICS W/ APPLICATIONS (3)

Prerequisite(s): MAT 122

Recommended: Strongly recommend MAT 151 or MAT 187.

This course is an informative hands-on introduction to computers covering applications both basic and advanced. Basic skills are graphing, solving equations and a system of equations numerically, rates of change of functions, linear regression, linear extrapolation and iteration. Advanced topics are presented in simple but non-trivial ways that show connections to basic skills. Topics may include falling bodies, spring motions, planetary motions, harmonic analysis of data, signal processing, spectral analysis, finite differences, Laplace's equation, dynamical systems, and cellular automata. This course is appropriate for students with little or no background in computers who may be required to have some proficiency in computers for other math or science courses. This course is designed for math students, educators, or others with a general interest in computers who want to broaden their understanding of math and science.

Three hours lecture.

MAT 212* CALCULUS FOR BUSINESS (3)

Prerequisite(s): MAT 151 or MAT 187.

Elementary topics in analytic geometry, and differential and integral calculus with business applications.

Three hours lecture.

MAT 220 CALCULUS I (5)

Prerequisite(s): MAT 187, or MAT 151 and MAT 182.

An integrated study in which analytic geometry is used to develop, understand, and apply calculus concepts. Includes absolute value and inequality, relations and functions, graphs, limits and continuity, definition and application of the derivative, antiderivative and definite integral.

Five hours lecture

MAT 227 DISCRETE MATH (3)

Prerequisite(s): MAT 151 or MAT 187.

Recommended: MAT 220

The objective of this course is to provide an understanding of formal logic, proofs, induction, recursion, sets, counting, permutations and combinations, relations, functions, matrices, graphs, trees, Boolean algebra, and logic networks.

Three hours lecture.

MAT 231 CALCULUS II (4)

Prerequisite(s): MAT 220

A continuation of MAT 220. Includes techniques of differentiation and integration of transcendental functions, and an introduction to infinite series. Also covers topics in analytic geometry, parametric equations, and polar coordinates.

Four hours lecture.

MAT 241 CALCULUS III (4)

Prerequisite(s): MAT 231

A continuation of MAT 231 to conclude the three-semester calculus sequence. Topics include vectors, vector-valued functions, partial differentiating, and multiple integration.

Four hours lecture.

MAT 252 INTRODUCTION TO LINEAR ALGEBRA (3)

Prerequisite(s): MAT 231

Matrices and systems of linear equations, determinants, vector spaces, linear transformations, eigenvalues and eigenvectors, and applications.

For math majors, physics majors, pre-engineering, and computer science majors.

Three hours lecture.

MAT 262 DIFFERENTIAL EQUATIONS (3)

Prerequisite(s): MAT 231 with a grade of C or better.

Ordinary differential equations with applications including linear equations, nonlinear and separable equations, homogeneous equations, power series solutions, Euler equations, LaPlace transforms (optional) and numerical methods (optional).

Three hours lecture.

MAT 299 INDIVIDUAL STUDIES (1-4)

Prerequisite(s): Approval of the associate dean and instructor.

Completion of a research problem or an outlined course of study under the direction of a faculty member with contract for the individual study agreed upon by the student, the instructor and the associate dean prior to initiation of the study. May be repeated for credit.

Media

MED 101 INTRODUCTION TO MASS COMMUNICATIONS (3)

Prerequisite(s): ENG 101 or permission of instructor.

An introduction to mass communications media with emphasis on understanding basic concepts of gathering, writing, and evaluating news and other kinds of communication in newspapers, television, radio, magazines, wire services, syndication, books, movies, computer/digital, and other media. Identical to JRN 101.

Three hours lecture.

MED 102 WRITING FOR PUBLICATIONS (3)

Prerequisite(s): ENG 101 or permission of instructor.

Recommended: Computer literacy.

Entry level course in media arts/communications or journalism. Students will be introduced to news writing, editing, assignments and deadlines. Identical to JRN 102.

Two hours lecture; two hours laboratory.

MED 103 NEWS REPORTING (3)

Prerequisite(s): MED/JRN 102 or permission of instructor.

A course in writing and editing news and feature articles. Special emphasis on news gathering and reporting of real-life situations. Class will supply articles for the journalism workshop newsletter or college newspaper. Identical to JRN 103.

Two hours lecture; two hours laboratory.

MED 125* INTRODUCTION TO VIDEO PRODUCTION (3)

Prerequisite(s): Placement in ENG 101 or permission of instructor.

An introduction to the elements of video production. Includes operation of video, audio, lighting, and other resources. Emphasis is placed on theory and practical applications used in video production.

Three hours lecture.

MED 130* INTRODUCTION TO TV, RADIO, AND FILM PRODUCTION (3)

Prerequisite(s): None

An introduction to the elements of television, radio, and film production. Includes operation of video, audio, lighting, sound, and other resources. Emphasis is placed on theory and practical applications used in all aspects of production.

Three hours lecture and studio.

MED 192* SPECIAL TOPICS IN MEDIA (1-3)

Prerequisite(s): None

A rotating forum/seminar emphasizing a variety of areas in media, including but not limited to, television, radio, film, electronic media, newspapers, magazines, and books. Topics will vary in accordance with changes in student need and interest. Cochise College elective credit only, unless otherwise designated in degree programs.

One to three hours lecture.

MED 201* STUDENT NEWSPAPER (3)

Prerequisite(s): JRN/MED 102 or JRN/MED 207 or CIS 285 or permission of instructor.

A guided workshop for the publication of a student-based college newspaper, emphasizing techniques for editing, layout, headline and caption writing, photo/art assignment and selection, and computer production techniques. May be repeated twice for Cochise College degree credit. Identical to JRN 201.

Two hours lecture; four hours laboratory.

MED 207 INTRODUCTION TO DESKTOP PUBLISHING (3)

Prerequisite(s): None

Recommended: Computer literacy.

Principles and practice of creating printed materials combining text and graphics using major desktop publishing programs, with emphasis on the practical aspects of production. Identical to CIS 285 and JRN 207.

Three hours lecture.

MED 209 COMPUTER ILLUSTRATION & DESIGN (3)

Prerequisite(s): None

Recommended: Computer knowledge.

Principles and practices of design and applications of computer graphics using Corel Draw and Windows Paintbrush. Emphasis on the practical aspects of production.

Three hours lecture.

MED 265* BEGINNING COMMERCIAL DESIGN (3)

Prerequisite(s): ART 103 or permission of instructor.

An introduction to the basic elements and principles of commercial design and the techniques of advertising layout. This includes their practical applications with the tools and materials used in the field of advertising. Identical to ART 265.

Two hours lecture; four hours studio.

MED 285* BEGINNING PHOTOGRAPHY (3)

Prerequisite(s): None

An introduction to the use and function of the camera and black-and-white darkroom technique. Students must have access to a fully adjustable 35mm camera. Identical to ART 285.

Two hours lecture; four hours studio.

MED 286* INTERMEDIATE PHOTOGRAPHY (3)

Prerequisite(s): ART/MED 285 or permission of instructor.

An intermediate course in photography for students who understand the basics of black-and-white film exposure, development, and printing. Emphasis on photojournalism, art photography, portraiture, and landscapes. Students must have access to a fully adjustable 35mm camera. Identical to ART 286.

Two hours lecture; four hours laboratory.

MED 287 COMPUTERIZED PHOTOGRAPHY I (3)

Prerequisite(s): None

An introduction to digital photography and the electronic darkroom. A blending of traditional film-based picture-taking techniques with computer-aided photo manipulation. Photo lab and computer lab will both be used. Emphasis on scanning and on-screen photo-manipulation software. Identical to JRN 287.

Three hours lecture/discussion/demonstration with practical experimentation.

Military Intelligence Operations

MIO 101 COUNTERINTELLIGENCE INVESTIGATIONS (3)

Prerequisite(s): None

A course designed to introduce the student to the principles, objectives, procedures, and reports used to conduct counterintelligence investigations under U.S. Army jurisdiction. This includes the planning, communicating, operating, credentialing, and investigatory processes related to counterintelligence investigations. This is a pass/fail course with a minimum grade of C to pass.

Three hours lecture with practical exercise.

MIO 102 SECURITY PROGRAMS (1)

Prerequisite(s): None

A course designed to provide an overview of the principles, objectives and basic procedures used to develop, protect, control, account for and destroy department of defense information and material relating to national security. This knowledge assists in the investigation of national security crimes as well as in continued protection of classified information/material given into custody of counterintelligence agents. This is a pass/fail course with a minimum grade of C to pass.

One hour lecture.

MIO 103 MILITARY JUSTICE AND INTELLIGENCE LAW (1)

Prerequisite(s): None

A course designed to provide an overview of the legal principles of military intelligence law as they apply to counterintelligence investigations and operations. The course will prepare the student to apply the legal aspects of military justice and intelligence law in the performance of their duty as a counterintelligence special agent.

One hour lecture with practical experience.

MIO 104 ANALYTICAL PROCESS AND PRODUCTS (1)

Prerequisite(s): None

A course designed to provide the student with the basic knowledge needed to prepare and use the time-event chart, association matrix, activity matrix and link diagram as analytical tools to perform analysis and threat assessment. Training includes conventional and non-traditional THREAT forces, various types of organizations, associated weapons and equipment and tactics. This is a pass/fail course with a minimum grade of C to pass.

One hour lecture and practical exercise.

MIO 105 INTERROGATION OPERATIONS (2)

Prerequisite(s): None.

A course designed to provide the student with the basic skills and knowledge needed to support collection, dissemination, and protection of intelligence information during HUMINT operations. Training includes conventional and unconventional sources in various situations that require students to perform as a member of an interrogation team during simulated operations at both the tactical and strategic level. This is a pass/fail course with a minimum grade of C to pass.

Two hours lecture with practical experience.

MIO 106 MAP READING AND ANALYSIS (3)

Prerequisite(s): None

A study of map analysis and reading including marginal data, identification of terrain features, calculation of azimuths, and foundation analytical skills. Map analytical skills include gathering information, collection capabilities, and interpretation of assets.

Three hours lecture with practical exercise.

MIO 107 INTERNATIONAL MORSE CODE (3)

Prerequisite(s): None

A study of the language known as International Morse Code. The International Morse Code process, transmission, and required formats will use a computer based recording, forwarding, and storing system. The student will be prepared to format and copy International Morse Code letters, numbers and special characters.

Three hours lecture with practical exercise.

MIO 108 SIGNAL THEORY (3)

Prerequisite(s): None

A study of the basic skills necessary to intercept, analyze, and report noncommunication signals including the handling of classified material, signal and wavelength theory, radar theory, use of electronic intelligence parameters, and basic collection operations. Student will learn worldwide noncommunications threats to include weapons systems operations, message information extraction, opposing forces operations, and situation analysis.

Three hours lecture with practical exercise.

MIO 109 SIGNAL ANALYSIS AND SECURITY (3)

Prerequisite(s): None

A study of All Source Analysis System Single Source Enclave (ASAS-SSE). Students learn how to operate the ASAS-SSE software functions, display automated situation map updating and operate electronic messaging including participating as a team member of an analysis control element.

Three hours lecture.

MIO 110 REMOTE SENSING (3)

Prerequisite(s): None

A course designed to provide the student with the basic knowledge to analyze hard and soft copy imagery collected from the electronic magnetic spectrum. Students will use intelligence databases, automated processing and dissemination systems to provide valid, accurate, and timely intelligence to appropriate agencies.

Three hours lecture with practical experience.

MIO 201 COLLECTION OPERATIONS (3)

Prerequisite(s): MIO 101 or permission of the instructor.

A course designed to develop student counterintelligence source operations learning in the operational cycle. Course includes counterintelligence planning, identifying, assessing, recruiting, training, tasking, interviewing, and providing source operations support. This is a pass/fail course with a minimum grade of C to pass.

Three hours lecture with practical exercise.

MIO 202 FORCE PROTECTION OPERATIONS AND SUPPORT (2)

Prerequisite(s): MIO 101 or 102 or 103 or permission of instructor.

A course designed to teach how to assimilate, analyze, and distribute multidiscipline counterintelligence products in support of tactical force protection. Areas covered will include counterintelligence operations in a deployed environment. This is a pass/fail course with a minimum grade of C to pass.

Two hours lecture and field exercises.

MIO 203 COMBATting TERRORISM (1)

Prerequisite(s): MIO 101 or 102 or 103 or permission of instructor.

A course designed to familiarize the student with the history and development of terrorism; train the student to recognize the phases of a terrorist incident; understand a terrorist group's structure, degree of support and scope of operation; and teach the student to use the basic analytical tools available to combat terrorism. This is a pass/fail course with a minimum grade of C to pass.

One hour lecture and field exercises.

MIO 204 INTERROGATION AND INTERVIEWING TECHNIQUES (3)

Prerequisite(s): MIO 104 or 105 or permission of instructor.

A course designed to provide the student with the basic skills and knowledge needed to prepare for and question a source, collect all information of intelligence value, and report this information in the proper format. Training includes the questioning techniques needed to collect intelligence information using the Order of Battle model. This is a pass/fail course with a minimum grade of C to pass.

Three hours lecture with practical exercise.

Motor Transportation Technology

MTT 101* MOTOR TRANSPORT BASIC (4)

Prerequisite(s): Satisfactory completion of physical examination and truck driver license applications, minimum age 21 years.

A beginning course preparing the student to understand the role of motor transportation industry and to prepare for the Arizona State License and Department of Transportation's certification examinations. Initial development of basic skills and techniques required to control the tractor-trailer transport vehicle.

Two hours lecture; four hours laboratory.

MTT 102* OVER THE ROAD OPERATIONS (5)

Prerequisite(s): Satisfactory completion of MTT 101.

Students will study and operate in the highway traffic environment to develop vehicle handling skills, safe and efficient operating practices, perceptual skills necessary to recognize potential hazards, and manipulative skills needed to handle a vehicle in an emergency. A study and practice of defensive driving techniques, accident prevention in heavy vehicle operation, and the use of energy efficient driving techniques.

Three hours lecture; five hours laboratory.

MTT 103* VEHICLE MAINTENANCE AND INSPECTION (1.5)

Prerequisite(s): MTT 101 or concurrent enrollment.

This course provides the student with knowledge and skills required to keep a tractor-trailer rig in safe and efficient operating condition.

One hour lecture; thirty minutes laboratory.

MTT 104* FREIGHT AND TRUCK OPERATIONS (5.5)

Prerequisite(s): MTT 101 or concurrent enrollment.

A course designed to cover non-driving activities which must be performed by tractor-trailer drivers. Students will perform these auxiliary activities to assure safety to the driver, the vehicle, cargo, and other road users. Development of knowledge and skills to assist the student in securing desired employment, understanding the importance of health maintenance practices and industrial safety procedures, effectively communicating in verbal and written forms, and positively interacting with fellow employees, customers, and the general public.

Three hours, thirty minutes lecture; four hours laboratory.

MTT 105 COMMERCIAL DRIVER LICENSE (2)

Prerequisite(s): At least 21 years of age and eligible to apply for a Commercial Driver License (CDL) or at least 18 years of age and eligible for a restricted CDL for in-state driving.

Designed to train third party examiners in the conduct of CDL test administration procedures. Through implementation of the Arizona Department of Transportation (ADOT) Motor Vehicle Division (MVD) approved training program, the course will prepare the examiner in accordance with the guidelines and criteria established by the Arizona Association of Motor Vehicle Administrators (AAMVA).

One hour lecture; two hours laboratory.

MTT 106 OVER-THE-ROAD PRACTICUM (6)

Prerequisite(s): MTT 104

Students demonstrate driving skills, maintenance skills, and evaluation skills in an employment environment. Students will experience various road and environmental conditions. Driving hours, miles, and locations are logged, and skills are evaluated by an employer or potential employer.

Eighteen hours laboratory.

MTT 224 FIELD EXPERIENCE IN MOTOR TRANSPORTATION TECHNOLOGY (1-6)

Prerequisite(s): Successful completion of MTT 101, 102, 103, and 104. Permission and approval of a cooperative education program coordinator.

Recommended: Sophomore standing.

A supervised cooperative education work experience involving the combined efforts of educators and employers to accomplish career objectives in motor transportation technology and related fields. Variable credit (1-6) is available by special arrangement. May be taken four times for a maximum of 16 credit hours, with no more than six units in a given semester.

Motorcycle Safety Education

MSE 101 MOTORCYCLE RIDERS COURSE I: RIDING & STREET SKILLS (1)

Prerequisite(s): Access to an insured, licensed motorcycle, which is able to pass a recognized safety inspection. Approved, instructor specified rider apparel.

An introduction to motorcycle safety and operation, utilizing a coordinated program of classroom instruction and range exercises. Includes a review of controls; mechanicals; and riding in a straight line, on curves and in corners. Emphasis on rider safety and on the identification and minimization of common risks. Motorcycle Safety Foundation certification and waiver from ADOT-MVD motorcycle knowledge and skills test awarded for successful completion.

One hour lecture and demonstration.

Music

MUS 100 FUNDAMENTALS OF MUSIC NOTATION (3)

Prerequisite(s): None

An introduction to the fundamental structures of music including rhythm, note reading, scales, intervals, chords, and beginning composition.

Three hours lecture

MUS 101 INTRODUCTION TO MUSIC (3)

Prerequisite(s): None

An introduction to the elements, form and design of music, illustrated with recordings of important musical literature from various periods of music history with an emphasis on the Medieval, Renaissance and Baroque periods of music history.

Three hours lecture.

MUS 102 INTRODUCTION TO MUSIC (3)

Prerequisite(s): None

An introduction to the elements, form and design of music, illustrated with recordings of important musical literature from various periods of music history, with an emphasis on the classical, romantic, and 20th century periods of music history.

Three hours lecture.

MUS 103 VOICE-CLASS INSTRUCTION (1)

Prerequisite(s): None

The study of basic foundations of vocal techniques, i.e., breath control, tonal support, tone production, vocal projection and diction.

One hour lecture/laboratory.

MUS 104 VOICE-CLASS INSTRUCTION (1)

Prerequisite(s): MUS 103

An intermediate study of basic foundations of vocal techniques, i.e., breath control, tonal support, tone production, vocal projection and diction.

One hour lecture/laboratory.

MUS 105* THEATRE DANCE (1)

Prerequisite(s): None

Study and practice in stage movement and choreography for theatrical production designed for students in musical theatre productions. Meets one day a week for three hours. (Not intended for transfer credit.)

Three hours rehearsal/performance.

MUS 108 MARIACHI (2)

Prerequisite(s): Permission of instructor.

A performing art class which is a practical introduction to the study and performance of Mariachi. Includes a study of the history and cultural heritage of Mariachi, with an emphasis upon the refinement of basic vocal and instrumental skills and the ability to perform musically as a group. May be offered on a pass/fail basis.

One hour lecture; three hours rehearsal/performance.

MUS 109 ORCHESTRA (1)

Prerequisite(s): Permission of instructor.

Study and performance of orchestral musical literature from various periods of musical composition. May be repeated for credit.

Two hours rehearsal/performance.

MUS 110 COLLEGE CHOIR (1)

Prerequisite(s): Audition

Study and performance of outstanding choral literature from various periods of musical composition. May be repeated for credit.

Three hours rehearsal/performance.

MUS 111 COLLEGE BAND (1)

Prerequisite(s): Audition

Study and performance of instrumental music from various periods of musical composition.

Two hours rehearsal/performance.

MUS 112 INSTRUMENTAL CLASS INSTRUCTION (1)

Prerequisite(s): None

An introduction to and development of basic instrumental skills, note reading, coordination, rhythm, and sight reading. May be repeated for credit.

One hour lecture/laboratory.

MUS 112A	Piano
MUS 112B	Brass
MUS 112C	Woodwind
MUS 112D	Percussion
MUS 112E	String
MUS 112F	Guitar

MUS 113* INSTRUMENT-INDIVIDUAL INSTRUCTION (1-2)

Prerequisite(s): Audition

A semester-long systematic study in technique and repertoire of an instrument of the student's choice. May be repeated for credit.

Thirty minutes per week per credit.

MUS 113A	Piano
MUS 113B	Brass
MUS 113C	Woodwind
MUS 113D	Percussion
MUS 113E	Strings
MUS 113F	Guitar

MUS 115* VOICE-INDIVIDUAL INSTRUCTION (1-2)

Prerequisite(s): Audition

A semester-long study of basic foundations of vocal techniques and preparation of vocal literature. May be repeated for credit.

Thirty-minute lesson per week per credit.

MUS 130 KEYBOARD HARMONY (1)

Prerequisite(s): Some experience in musical performance, either singing or playing a musical instrument and a knowledge of scales, key signatures, triads, and intervals.

Special work on the application of musical theory to the keyboard emphasizing exercises in scales, chords, and especially harmonic progression to provide the student with a functional knowledge of the keyboard for further study of music or as a vehicle of classroom demonstration.

Two hours lecture/rehearsal.

MUS 132 MUSIC THEORY (3)

Prerequisite(s): MUS 100 or permission of instructor.

A study of the construction of music including scales, intervals, transposition, analysis and figured bass symbols, types of cadences and non-harmonic tones, and melodic organization.

Three hours lecture.

MUS 133 MUSIC THEORY (3)

Prerequisite(s): MUS 132 or permission of instructor.

A continuation of MUS 132, including voice-leading, seventh chords, modulation types, secondary dominants and leading tone chords, and binary and ternary forms.

Three hours lecture.

MUS 134 AURAL SKILLS (1)

Prerequisite(s): None

Aural skills are a progressive series of exercises in sight singing, rhythmic dictation, and melodic dictation. This course is required for students registering for MUS 132.

One hour lecture.

MUS 135 AURAL SKILLS (1)

Prerequisite(s): MUS 134

A continuation of MUS 134. Aural skills are a progressive series of exercises in sight singing, rhythmic dictation, and melodic dictation. This course is required for students registering for MUS 133.

One hour lecture.

MUS 192 SPECIAL TOPICS IN MUSIC (1)

Prerequisite(s): None

Basic instruction; introduction and development of basic skills, breathing, diction, tone, rhythm, sight singing, repertory songs in English and foreign languages; practical training in singing with and/or without specialization; practical instruction in singing different styles of music from different genres. Basic instruction in singing in harmony; working with a conductor, and singing with other voice parts.

One hour lecture.

MUS 201 ENSEMBLE (1)

Prerequisite(s): Audition

Trios, quartets, quintets, etc., will be formed to perform and study music written or arranged for the small ensemble. In addition to rehearsal, groups will occasionally perform in public, either on campus or in surrounding communities. Course may be repeated for credit.

Two hours rehearsal/performance.

MUS 201A	Voice Ensemble
MUS 201B	Brass Ensemble
MUS 201C	Woodwind Ensemble
MUS 201D	Percussion Ensemble
MUS 201E	String Ensemble
MUS 201F	Guitar Ensemble
MUS 201G	Jazz Ensemble

MUS 210 MUSIC THEATRE WORKSHOP (1-3)

Prerequisite(s): Audition or permission of instructor.

Participation in a college musical or operatic production either in a performance capacity or as production crew.

Three to 10 hours rehearsal/laboratory/performances.

MUS 230 ART SONG REPERTORY I (1)

Prerequisite(s): Permission of instructor.

Class performance of representative selections from the standard vocal repertory. Art songs in German, Italian, French and English will be sung as well as other vocal literature.

One hour lecture; one hour studio.

MUS 231 ART SONG REPERTORY II (1)

Prerequisite(s): Permission of instructor.

Class performance of representative selections from the standard vocal repertory. Art songs in German, Italian, French and English will be sung as well as other vocal literature.

One hour lecture; one hour studio.

MUS 232 MUSIC THEORY (3)

Prerequisite(s): MUS 132 and 133.

Continuation of MUS 132 and 133, dealing with music from the late Medieval period through early-19th century art and music in chronological order. Major forms are analyzed both melodically and harmonically.

Three hours lecture.

MUS 233 MUSIC THEORY (3)

Prerequisite(s): MUS 232

Continuation of MUS 132 and 133, dealing with art music from the 19th and early 20th centuries. Major forms are analyzed both melodically and harmonically.

Three hours lecture.

MUS 236 REPERTOIRE STRATEGY (1-3)

Prerequisite(s): Permission of instructor.

Designed for music teachers and students interested in the keyboard and chamber music repertoire from the late Baroque to the 20th century. Exploration of the works of representative composers such as J.S. Bach, C.P.E. Bach, Gretchaninov, Khachaturian, and Shostakovich. Emphasis on technique and interpretation. Performing groups, such as duets and trios.

One to three hours lecture.

MUS 260 MUSIC FUNDAMENTALS THROUGH EXPERIENCE (3)

Prerequisite(s): None

An introduction to musical skills, the mechanics of music, and musical experiences as a background for teaching music to children. Introduction to playing keyboard, autoharp, and recorder, as well as singing. Previous musical experience is not required. Fulfills the music education requirement for teacher certification.

Three hours lecture with laboratory.

Networking

NET 101 A+ CERTIFICATION (2)

Prerequisite(s): None, exposure to DOS, Windows 3.1, Windows 95 and Mac OS is beneficial.

A+ certification is an industry-recognized credential, which validates that the holder has achieved a level of competence that is accepted, valued, and in some cases, demanded by the microcomputer industry. This course is designed to help students pass the A+ Certification tests as quickly and easily as possible.

Thirty-two contact hours.

NET 201 803 ADMINISTERING MICROSOFT NT 4.0 (2)

Prerequisite(s): Substantial knowledge of the Microsoft Windows 95 or Windows NT 4.0 interface, including the ability to: use Windows Explorer, start applications, size and position windows, and switch between applications and tasks. Knowledge of basic computer hardware components, including: computer memory, hard disks, central processing unit (CPU), communication and printer ports, display adapters, and pointing devices. Knowledge of major networking concepts, including: client, server, local area network (LAN), wide area network (WAN), network adapter card, driver, protocol, and network operating system.

This course provides students with the knowledge and skills necessary to perform post-installation and day-to-day administration tasks in a single-domain or multiple-domain NT network. It also provides the prerequisite knowledge and skills required for NET 202.

Thirty-two contact hours.

NET 202 922 SUPPORTING NT 4.0 CORE TECHNOLOGIES (2.5)

Prerequisite(s): NET 201, or equivalent knowledge such as: working knowledge of the Microsoft Windows 95 interface, customizing the start menu, configuring the desktop, using control panel, moving and sizing windows, and switching between applications and tasks. Student should also have an understanding of the following: the Microsoft MS-DOS operating system, memory, hard disks, types of central processing units (CPUs), communication ports, printer ports, display adapters, and pointing devices, experience supporting networks or end users in the workplace or through instructor-led class experience.

This course provides the core foundation for supporting Microsoft NT 4.0 operating system. Students will learn the skills necessary to install, configure, customize, optimize, network, integrate, and troubleshoot Windows NT Server and Workstation 4.0. The knowledge gained through a combination of courses NET 201 and NET 202 prepares students for two Microsoft exams: #70-073 Implementing and Supporting Microsoft NT Workstation 4.0 and #70-067 Implementing and Supporting Microsoft NT Server 4.0.

Forty contact hours.

NET 203 X578 NETWORKING ESSENTIALS (2.5)

Prerequisite(s): NET 201 and NET 202. Working knowledge of software and hardware on a PC to include the understanding of software installation and the creation and editing of AUTOEXEC.BAT and CONFIG.SYS files. NET 203 will not substitute for CIS 150.

Provides students with the background necessary to understand local area networks in Microsoft courses on workstations and networking. Serves as a general introduction for students who need a foundation in current networking technology for local area networks, wide-area networks and the Internet.

Forty contact hours.

NET 204 1303 MASTERING MICROSOFT VISUAL BASIC 6.0 FUNDAMENTALS (2.5)

Prerequisite(s): Solid knowledge of object-oriented programming concepts.

This course teaches programmers the skills necessary to create Microsoft Visual Basic programming system desktop applications and satisfies the Visual Basic prerequisites for course NET 205.

Forty contact hours.

NET 205 1013 MASTERING MICROSOFT VISUAL BASIC 6.0 DEVELOPMENT (2.5)

Prerequisite(s): NET 204, or a good working knowledge of the Microsoft Visual Basic programming system. Potential students should be able to accomplish the following tasks before taking this training:

- Create an application with multiple forms
- Write a function procedure and a sub procedure
- Declare variables and use conditional statements
- Describe the use of the controls in the toolbox
- Add a simple menu interface to an application
- Retrieve and validate information from a user
- Add a custom control to a project
- Describe properties, methods, and objects
- Add run-time error handling to an application
- Run the application and use debug mode
- Create an EXE file from the project files
- Design and use a relational database
- Use SQL syntax to create database queries

This course will teach Microsoft Visual Basic programmers how to create database applications using components.

Forty contact hours.

NET 206 1016 MASTERING ENTERPRISE DEVELOPMENT USING MICROSOFT VISUAL BASIC 6.0 (2.5)

Prerequisite(s): NET 205 or equivalent knowledge. Know how to build and debug a simple Visual Basic-based application, invoke and control an automation server, such as Microsoft Excel or Microsoft Word, from a Visual Basic-based application, create COM components using Visual Basic and invoke them from a client application, use ActiveX Data Objects to open a database and work with record sets, understand and use basic syntax for SQL.

This course will teach Microsoft Visual Basic programmers, who currently build desktop applications and access corporate databases, the basics of how to build three-tier client/server solutions. Upon completion of the course, students will be able to use the Application Architecture Model from the Microsoft Solutions Framework to organize applications into user, business, and data services. Students will also learn to implement business and data services in a Microsoft SQL server database through the use of stored procedures.

Forty contact hours.

NET 207 1298 DESIGNING DISTRIBUTED APPLICATION DESIGN USING MICROSOFT VISUAL STUDIO (1.5)

Prerequisite(s): NET 204, and NET 205.

This course assumes that the student has a minimum of beginning/intermediate programming skills such as understanding basic programming terms and concepts and building and debugging simple single-user desktop applications.

Building custom software applications for today's complex business world requires a solid, well-rounded education in program design. This course teaches students to analyze the scope of a project before writing the first line of code. Security requirements, performance requirements, existing applications and data, scalability issues, data storage, and other critical development considerations will be discussed during this hands-on course.

Twenty-four contact hours.

NET 208 NETWORK+ CERTIFICATION (2.5)

Prerequisite(s): Typical student would be a technician with 18-24 months experience in the IT industry or have an A+ certification or equivalent knowledge.

This course is a comprehensive approach to providing the knowledge and skills required to prepare for CompTIA's Network+ exam. It also develops proficiency in networking fundamentals, network protocols, cabling and devices, network design/implementation/troubleshooting as well as installation and maintenance of the TCP/IP client, and installation of Windows NT 4.0 and NetWare 4.x.

Forty contact hours.

Nursing

NUR 120* TRANSITION NA/PN (2)

Prerequisite(s): Admission into NUR 123 and concurrent enrollment in NUR 232.

This course will provide the challenging, transferring or re-entering nursing student with an understanding of the philosophy, policies and procedures of the Cochise College Nursing program. The emphasis will be on the nursing process, patient care planning, therapeutic use of self, clinical expectations and basic nursing skills.

Two hours lecture.

NUR 121 MEDICATION MATH (1)

Prerequisite(s): Admission to Nursing program

Recommended: MAT 122

The accurate calculation of drug dosages is an essential skill in nursing. This course will give the student the skills necessary to calculate drug dosages, convert numbers from one measurement system to another, and measure accurately in the devices (tools, implements, equipment, etc.) used for medication administration. Experience and techniques are provided for calculation of oral and parenteral drug dosages for adults and children, and in the calculation of intravenous flow rates.

One hour lecture; one hour laboratory.

NUR 122* NURSING I (8)

Prerequisite(s): Admission to the Cochise College Nursing program.

Nursing I, NUR 122, which is the first semester of the associate degree Nursing program, is designed to help the nursing student learn the basic concepts and skills necessary to provide basic nursing care to clients in a variety of settings. Concepts included in this course are: the roles of the nurse and other health care professionals, ethical and legal issues in nursing, the nursing process, therapeutic communication skills, functional health patterns, theories of growth and development, introduction to pharmacology, and normal psychological and physiology patterns as they relate to nursing care of individuals. All of these concepts assist the first semester nursing student to recognize and meet the basic psychological and physiological needs of persons of all ages and cultures.

Four hours lecture; 12 hours laboratory.

NUR 123* NURSING II (10)

Prerequisite(s): NUR 121, NUR 122, BIO 201, ENG 101.

Nursing II, NUR 123, which is the second semester of the associate degree Nursing program, is designed to help the nursing student continue to build on the basic concepts and skills necessary to provide nursing care to clients in primary care, acute and chronic care settings. Concepts included in this course are: the roles and responsibilities of the professional nurse, alterations in growth and development throughout the life span, and the application of the nursing process in normal/abnormal psychological and physiological patterns of individual care of persons of all ages and cultures.

Six hours lecture; 12 hours laboratory.

NUR 201* INFUSION THERAPY/VENIPUNCTURE BY LPN (4)

Prerequisite(s): Current unencumbered LPN license.

This course provides instruction in classroom techniques of peripheral IV initiation (venipuncture) and the administration of premixed intravenous medications and solutions to an IV line. It addresses the theory and technical skills necessary to provide intravenous therapy. The curriculum is based on the competencies included in the Arizona State Board of Nursing Advisory Opinion "Infusion Therapy/Venipuncture by LPNs," May 2001. The student will receive a certificate upon successful completion of the course.

Three hours lecture; one hour laboratory.

NUR 203 UPDATE ON PHARMACOLOGY (3)

Prerequisite(s): LPN, RN, Paramedic or NUR 123.

This course is designed for the sophomore nursing student, LPN, RN and paramedic who wish to broaden his/her knowledge of pharmacology. Information about current medications will be presented and applied to client care. The student will learn to evaluate information, think critically, evaluate situations and make decisions for the safe administration of medications.

Three hours lecture.

NUR 220* TRANSITION LPN/RN (1)

Prerequisites: Admission into NUR 232 and concurrent enrollment in NUR 232.

This course will provide the challenging, transferring or re-entering nursing student with an understanding of the philosophy, policies and procedures of the Cochise College Nursing program. The emphasis will be on the nursing process, patient care planning, therapeutic use of self and basic nursing skills.

One hour lecture.

NUR 224 FIELD EXPERIENCE IN NURSING (1-6)

Prerequisite(s): A declared major in nursing. Permission and approval of cooperative education program coordinator.

Recommended: Sophomore standing.

A supervised cooperative education work experience involving the combined efforts of educators and employers to accomplish career objectives in nursing and related fields. Variable credit (1-6) is available by special arrangement. May be taken four times for a maximum of 16 credit hours, with no more than six units in a given semester.

NUR 232* NURSING THREE (9)

Prerequisite(s): ENG 101, PSY 101, BIO 201, BIO 202, NUR 121, NUR 122, and NUR 123.

Nursing Three is based on nursing practice set at the associate degree nurse level associated with common physical and psychosocial health needs/problems throughout the life span. The body's response to stressors, nursing interventions relative to common health needs/problems, and alterations in growth and development are presented. Within these areas, nursing care to be explored will include the use of a framework, which promotes effective communication, understanding philosophies of human development and the utilization of the nursing process with emphasis on intervention and evaluation. The clinical setting includes assisting the student in developing competence in discharge planning, community nursing, and leadership. The student will utilize knowledge of trends in health care to adapt changes and to be proactive in the profession of nursing.

Five hours lecture; four hours laboratory.

NUR 233* NURSING FOUR (9)

Prerequisite(s): BIO 205, SOC 101 or ANT 102, controlled elective, and NUR 232.

Nursing Four is a continuation of NUR 232. This course is based on nursing practice set at the associate degree nurse level associated with common physical and psychosocial health needs/problems throughout the life span. The body's response to stressors, nursing interventions relative to common health needs/problems, and alterations in growth and development are presented. Within these areas, nursing care to be explored will include the use of a framework, which promotes effective communication, understanding philosophies of human development and the utilization of the nursing process with emphasis on intervention and evaluation. The clinical setting builds on learning from NUR 232 to assist students in applying the nursing process with emphasis on implementation and evaluation. During the nursing preceptorship, students work intensively with a RN to promote the transition from student to beginning RN.

Four hours lecture; five hours laboratory.

NUR 240 CRITICAL CARE NURSING FOR THE HEALTH CARE PRACTITIONER (3)

Prerequisite(s): Licensed nurse or paramedic, both with ACLS certification.

Recommended: Basic knowledge of ECG.

This course is designed to assist the acute care provider in updating his or her knowledge of anatomy and physiology, and pathophysiology as related to the disease process. The participant will develop knowledge of advanced assessment skills, pharmacology, and the physical and emotional needs of the critically ill patient. This course is focused on skill development

Three hours lecture

Office Administration

OAD 101 COMPUTER KEYBOARDING (3)

Prerequisite(s): None

Specifically designed for (but not limited to) students with no knowledge of touch keyboarding or prior computer experience. Skill development on keyboarding techniques will be utilized to develop speed and accuracy on the computer keyboard.

Three hours lecture.

OAD 102 DOCUMENT FORMATTING (3)

Prerequisite(s): Prerequisite keyboarding speed of 30 wpm and CIS 116.

Continued development of keyboarding and techniques needed to master letter styles, tables, memos, and reports with an expected outcome of 35 wpm for three minutes.

Three hours lecture; one hour laboratory.

OAD 111 BUSINESS ENGLISH (3)

Prerequisite(s): None

An in-depth study of the mechanics of English required for workplace communication. Emphasis is placed on grammar, word usage, punctuation, spelling, conciseness and clarity in both spoken and written language. The rules and style recommendations covered are those that should prove helpful in the academic and/or business communities.

Three hours lecture.

OAD 116 LEARN TO USE MICROCOMPUTERS (3)

Prerequisite(s): None

A concentrated study of computerized office applications for occupational or instructional use. This lecture-based, hands-on approach leads the student step by step through the various stages of the application being presented. Students acquire entry-level job skills with word processing, database and spreadsheet software.

Three hours lecture.

OAD 150 BUSINESS ETIQUETTE (3)

Prerequisite(s): None

A study of business etiquette as it applies to today's multicultural and global business environment. A step-by-step guide to making introductions, making small talk, professional presence, office courtesies, diplomacy, telephone techniques, netiquette rules, written communications, protocol of meetings, business dining, business travel, and how to do business around the world.

Three hours lecture.

OAD 161 WRITING WITHIN ORGANIZATIONS (2)

Prerequisite(s): None

The study of organizational writing to include its purposes, strategies, and processes. Emphasis on the production of clear, concise, and accurate communications ranging in form from simple to complex memos, short reports, long reports, proposals, feasibility studies and evaluation reports.

Two hours lecture.

OAD 193 CURRENT OFFICE APPLICATIONS (1)

Prerequisite(s): None

One-unit modules designed for personal/professional improvement. Principles and practice of various office applications, each session covering mastery of a particular application, with emphasis on the effective use of the application under study.

One hour lecture/laboratory.

OAD 193A	Elementary Keyboarding
OAD 193B	Intermediate Keyboarding
OAD 193C	Advanced Keyboarding
OAD 193D	Beginning Data Entry
OAD 193E	Intermediate Data Entry
OAD 193F	Advanced Data Entry
OAD 193G	Windows I
OAD 193H	Windows II
OAD 193I	Windows III
OAD 193J	Document Preparation Review I
OAD 193K	Document Preparation Review II
OAD 193L	Document Preparation Review III

OAD 193N	PowerPoint 2000 II
OAD 193O	PowerPoint 2000 III
OAD 193Q	Internet
OAD 193R	Introduction to Computers I
OAD 193S	Introduction to Computers II

OAD 193T	Introduction to Computers III
OAD 193U	Introduction to Email
OAD 193V	Word 2000 I
OAD 193W	Word 2000 II
OAD 193X	Word 2000 III
OAD 193Z	Introduction to Outlook 2000
OAD A193	EXCEL 2000 I
OAD B193	EXCEL 2000 II
OAD C193	EXCEL 2000 III
OAD D193	ACCESS 2000 I
OAD E193	ACCESS 2000 II
OAD F193	ACCESS 2000 III
OAD G193	Computerized Accounting I
OAD H193	Computerized Accounting II
OAD I193	Computerized Accounting III
OAD J193	Developing Proofreading Skills I
OAD K193	Developing Proofreading Skills II
OAD L193	Developing Proofreading Skills III
OAD M193	Speedbuilding I
OAD N193	Speedbuilding II
OAD O193	Speedbuilding III

OAD 201 ADVANCED DOCUMENT FORMATTING (3)

Prerequisite(s): OAD 102 with a grade of C or permission of instructor. Must also have had or be currently enrolled in OAD 214. Must key 35 wpm or higher.

A study of advanced formatting preparation skills needed to become proficient at typing business letters, printed forms, manuscripts, and tabulation problems in the employment field through the use of individualized units of work with an expected outcome of 40 wpm for five minutes.

Three hours lecture, one hour laboratory.

OAD 202 PROFESSIONAL DOCUMENT PREPARATION (3)

Prerequisite(s): OAD 201 or OAD 216.

A comprehensive study of professional document preparation techniques using the computer and a variety of document preparation software. Students will explore production skills used in today's offices including specialized documents, sophisticated business letters, manuscripts, tabulations, and various forms.

Three hours lecture.

OAD 206 RECORDS MANAGEMENT (3)

Prerequisite(s): OAD 210 or OAD 216.

A study of the principles and practices of effective records management for manual and computerized records systems.

Three hours lecture.

OAD 207 OFFICE ADMINISTRATION (3)

Prerequisite(s): CIS 116 and OAD 167.

An analysis of functions of office departments, their organization and administration; management principles and functions; problem solving techniques; human relations issues, communication, employee selection, training, information technology tools, and legal implications for the office supervisors, training directors, administrative assistants, and executive secretaries.

Three hours lecture.

OAD 209 BUSINESS SPEECH COMMUNICATIONS (3)

Prerequisite(s): None

A study of the principles of business speech communications, choosing appropriate topics, researching techniques, organizing material, analyzing audiences, and delivering courtesy, information, demonstration, and persuasive speeches to small and large groups. This course will also integrate the skills of perception, listening, language, speech, nonverbal communication, one-on-one, and effective interviewing techniques.

Three hours lecture.

OAD 210 AUTOMATED OFFICE PROCEDURES (3)

Prerequisite(s): OAD 213

An introduction to the basic skills, responsibilities, and duties of office workers. These include utilizing mathematical skills on calculating machines, and document-processing skills with both transcription equipment and the microcomputer. Practice sets are available in specialized areas: legal, medical, and executive.

Three hours lecture.

OAD 211 AUTOMATED OFFICE PRACTICE (3)

Prerequisite(s): OAD 210 or OAD 216.

Practice in using transcription equipment, preparing business letters, news releases, and reports. Workflow procedures and standards, and personal grooming techniques will also be reviewed using practice sets in specialized areas: executive, medical, and legal.

Three hours lecture.

OAD 212 TRANSCRIPTION/TERMINOLOGY (3)

Prerequisite(s): OAD 111 and OAD 213 or OAD 216.

A study of complex terminology encountered in medical records, legal documents, or technical business documents with emphasis on machine transcription. Practice sets in medical records, legal documents, or technical documents will be utilized.

Three hours lecture.

OAD 213 WORD PROCESSING (3)

Prerequisite(s): CIS 116

A study of current word processing concepts, systems and equipment emphasizing text-editing and text formatting techniques. Prerequisite keyboarding speed of 25 wpm.

Three hours lecture; one hour laboratory.

OAD 214 ADVANCED WORD PROCESSING (3)

Prerequisite(s): OAD 213 or OAD 216.

An advanced study of word processing concepts, software, equipment and required skills for career usage using special entry/editing techniques.

Three hours lecture; one hour laboratory.

OAD 215 ADVANCED MEDICAL TRANSCRIPTION/TERMINOLOGY (3)

Prerequisite(s): OAD 213 and OAD 212.

A further study of medical terminology encountered in medical records and medical office machine transcription. Practice sets in medical records will be utilized.

Three hours lecture.

OAD 216 COMPUTERIZED OFFICE MANAGEMENT (3)

Prerequisite(s): CIS 116 or OAD 210 or OAD 213.

A study of computerized office applications including correspondence, mailings, focused reports, desktop publishing, inventory, budgets, graphical representation of data, business presentations, and software management. Techniques will be taught on the microcomputer. The course is designed to prepare the individual for a better-than-entry-level position.

Three hours lecture; one hour laboratory.

OAD 217 ADVANCED COMPUTERIZED OFFICE MANAGEMENT (3)

Prerequisite(s): OAD 216

A concentrated study of electronic records management for occupational or personal use. This lecture-based, hands-on approach leads the student through various electronic records management programs, systems, technologies, equipment and methods.

Three hours lecture; one hour laboratory.

OAD 221 LEGAL ASSISTANT I (3)

Prerequisite(s): OAD 213 or OAD 216.

The above may be waived by permission of the instructor or department head.

A study of legal writing, legal analysis, interviewing, non-verbal communications, human relations, legal terminology, legal ethics, general law, the American legal system, and judicial remedies.

Three hours lecture.

OAD 222 LEGAL ASSISTANT II (3)

Prerequisite(s): OAD 213 or OAD 216.

The above may be waived by permission of the instructor or department head.

A study of the areas of law and the basic documents required in initiating contested and uncontested actions and finalizing default actions.

Three hours lecture.

OAD 223 BASIC LEGAL RESEARCH (3)

Prerequisite(s): OAD 213 or OAD 216.

The above may be waived with permission of the instructor or department head.

A continuing study of legal writing and analysis; a review of the organizational structure of the American court system; study of case reporting systems and other legal research tools; finding and verifying validity of case opinions; case citation; and electronic research.

Three hours lecture.

OAD 224 FIELD EXPERIENCE IN OFFICE TECHNOLOGY (1-6)

Prerequisite(s): A declared major in office technology. Permission and approval of cooperative education program coordinator.

Recommended: Sophomore standing

A supervised cooperative education work experience involving the combined efforts of educators and employers to accomplish career objectives in office technology and related fields. Variable credit (1-6) is available by special arrangement. May be taken four times for a maximum of 16 credit hours, with no more than six units in a given semester.

OAD 226 FIELD EXPERIENCE IN MEDICAL TRANSCRIPTION (1-6)

Prerequisite(s): OAD 212. Permission and approval of a cooperative education program coordinator.

Recommended: Sophomore standing.

A supervised cooperative education work experience involving the combined efforts of educators and employers to accomplish career objectives in medical transcription/terminology and medical records. Variable credit (1-6) is available by special arrangement. May be taken four times for a maximum of 16 credit hours, with no more than six credits in a given semester.

OAD 227 FIELD EXPERIENCE IN LEGAL PROCEDURES (1-6)

Prerequisite(s): OAD 222. Permission and approval of a cooperative education program coordinator.

Recommended: Sophomore standing.

A supervised cooperative education work experience involving the combined efforts of educators and employers to accomplish course objectives for law office procedures and document preparation. Variable credit (1-6) is available by special arrangement. May be taken four times for a maximum of 16 credit hours, with no more than six credits in a given semester.

OAD 268 TECHNICAL PRESENTATIONS (3)

Prerequisite(s): CIS 116 or CIS 120.

Recommended: Student should have strong background in at least one application software, i.e., word processing, etc.

A study of the principles of effective communication skills integrating the latest electronic technology in order to prepare and deliver state-of-the-art business and technical speeches. Business speech course or equivalent is suggested prior to enrolling.

Three hours lecture.

OAD 293 ADVANCED CURRENT OFFICE APPLICATIONS (1)

Prerequisite(s): Permission of division advisor.

One-unit modules designed for personal/professional improvement. Principles and practice of various computer applications, each session directed toward skills mastery of a particular instance of microcomputer applications software with emphasis on the effective use of the software under study.

One hour lecture/laboratory.

OAD 293A	Advanced Word 2000 I
OAD 293B	Advanced Word 2000 II
OAD 293C	Advanced Word 2000 III
OAD 293D	Advanced Outlook
OAD 293E	Machine Transcription/Terminology
OAD 293F	Legal Terminology
OAD 293G	Legal Transcription
OAD 293H	Medical Terminology
OAD 293I	Medical Transcription
OAD 293J	Advanced Legal Applications
OAD 293K	Advanced Medical Applications
OAD 293L	Advanced Office Professional I
OAD 293M	Advanced Office Professional II
OAD 293N	Advanced Office Professional III
OAD 293O	Advanced Word 2000 Projects
OAD 293P	Advanced Word Applications I

OAD 293Q	Advanced Word Applications II
OAD 293R	Advanced Word Applications III
OAD 293S	Advanced Medical Terminology/Transcription
OAD 293T	Advanced Medical Specialty Terminology
OAD 293U	Advanced Medical Specialty Transcription
OAD 293V	Advanced Medical Specialty Transcription/Terminology
OAD 293W	Medical Transcription of Foreign Accents I
OAD 293X	Medical Transcription of Foreign Accents II
OAD 293Y	Medical Transcription of Foreign Accents III

Philosophy

PHI 111* INTRODUCTION TO PHILOSOPHY (3)

Prerequisite(s): ENG 101 or permission of instructor.

An introduction to the history, key figures, and major branches of philosophy. Critical reading of selected classical and contemporary texts and analysis of their connections to the individual, society and to other bodies of knowledge; practice in oral argumentation through participation in class discussions; writing of critical/analytical essays grounded in readings and class discussions.

Three hours lecture.

PHI 113 INTRODUCTION TO LOGIC AND LANGUAGE (3)

Prerequisite(s): Completion of, or concurrent enrollment in, ENG 101 and placement in MAT 122 or higher.

Elementary study of formal logic, symbolic logic, logical fallacies, induction, argument and language.

Three hours lecture.

PHI 130 ETHICS (3)

Prerequisite(s): Completion of, or concurrent enrollment in, ENG 101, and placement in MAT 122 or higher.

Recommended: Sophomore standing.

An introduction to moral philosophy with emphasis on philosophical analysis of contemporary issues.

Three hours lecture.

PHI 201 PHILOSOPHIES OF THE EAST (3)

Prerequisite(s): ENG 101 or permission of instructor.

Recommended: Computer literacy.

Hinduism, Buddhism, Taoism, and Confucianism with emphasis on their roles in the modern world.

Three hours lecture.

PHI 202 PHILOSOPHY OF RELIGION (3)

Prerequisite(s): ENG 101 or permission of instructor.

Introduction to the nature of religion, nature and existence of God and major religious tenets of western thought.

Three hours lecture

PHI 299 INDIVIDUAL STUDIES (1-4)

Prerequisite(s): Approval of the associate dean and instructor.

Completion of a research problem or an outlined course of study under the direction of a faculty member with contract for the individual study agreed upon by the student, the instructor and the associate dean prior to initiation of the study.

May be repeated for credit.

Physics

PHY 111* GENERAL PHYSICS I (4)

Prerequisite(s): MAT 122

Introduction to the general principles of physics in the area of classical mechanics. Special emphasis is placed on algebra in solving word problems.

Three hours lecture; three hours laboratory.

PHY 112* GENERAL PHYSICS II (4)

Prerequisite(s): PHY 111

Introduction to the general principles of physics in the areas of thermodynamics, waves, sound, light, electricity, magnetism, atomic structure, and radioactivity.

Three hours lecture; three hours laboratory.

PHY 230* PHYSICS WITH CALCULUS I (4)

Prerequisite(s): MAT 220

Coverage of the same areas as PHY 111(classical mechanics) but in greater depth by the use of calculus. For engineering students and others who require physics with calculus.

Four hours lecture; two hours laboratory.

PHY 231* PHYSICS WITH CALCULUS II (4)

Prerequisite(s): PHY 230

Coverage of the same areas as PHY 112 (thermodynamics, waves, sound, light, electricity, magnetism, atom structure, and radioactivity) but in greater depth by the use of calculus. For engineering students and others who require physics with calculus.

Four hours lecture; two hours laboratory.

PHY 299 INDIVIDUAL STUDIES (1-4)

Prerequisite(s): Approval of the associate dean and instructor.

Completion of a research problem or an outlined course of study under the direction of a faculty member with contract for the individual study agreed upon by the student, the instructor and the associate dean prior to initiation of the study.

May be repeated for credit.

Political Science

POS 100 INTRODUCTION TO POLITICAL SCIENCE (3)

Prerequisite(s): RDG 122 or exemption. ENG 100 or concurrent enrollment.

A comprehensive introductory study of the nature and practice of politics, focusing mainly on significant political principles and institutions as they relate to American and foreign governments.

Three hours lecture.

POS 110 AMERICAN NATIONAL GOVERNMENT (3)

Prerequisite(s): RDG 122 or exemption. ENG 100 or concurrent enrollment.

A study of the political system of the United States with emphasis on constitutional development, political culture, voting, political parties, campaigns and elections, interest groups, public opinion, and the three branches of the national government. Designed to increase the student's awareness and understanding of the political process of the impact of race, gender and ethnicity upon the political process and of the citizen's role within that process. Fulfills the federal Constitution requirement for Arizona Teaching Certification.

Three hours lecture.

POS 220 FEDERAL AND ARIZONA CONSTITUTION (3)

Prerequisite(s): RDG 122 or exemption. ENG 101.

A study of the governments of the United States and Arizona through the interpretation of the constitution of each political entity. Approved for teacher certification. Teachers needing only Arizona Constitution should enroll in POS 221.

Three hours lecture.

POS 221* ARIZONA CONSTITUTION (1)

Prerequisite(s): RDG 122 or exemption. ENG 101.

A study of the government of Arizona through the interpretation of its constitution. Approved for teacher certification. Taught concurrently with POS 220.

One hour lecture.

POS 230 WORLD POLITICS (3)

Prerequisite(s): RDG 122 or exemption. ENG 101.

A study of the international political system and nation-state relations, including the development of the international system, the Cold War, state power, the pursuit of national objectives, and the analysis of current international problems.

Three hours lecture.

POS 240 COMPARATIVE POLITICS (3)

Prerequisite(s): RDG 122 or exemption. ENG 101.

Introduction to the study of comparative politics with emphasis on the comparison of political systems, movements, ideologies and economic development.

Three hours lecture.

POS 299 INDIVIDUAL STUDIES (1-4)

Prerequisite(s): Approval of the associate dean and instructor.

Completion of a research problem or an outlined course of study under the direction of a faculty member with contract for the individual study agreed upon by the student, the instructor and the associate dean prior to initiation of the study. May be repeated for credit.

Professional Flight Technology

PFT 100 INTRODUCTION TO AVIATION (3)

Prerequisite(s): None

This course will serve as an overview of aviation including careers, the training process, qualification requirements, job duties, Federal Aviation Regulations, aerodynamics and navigation. The course can also prepare the 14CFR Part 61 student to take, with approval of the instructor, the Private Pilot Computer Knowledge Examination, or serve as review of material for the oral portion of a biennial flight review.

Three hours lecture.

PFT 101 PRIVATE PILOT GROUND SCHOOL (5)

Prerequisite(s): None

A comprehensive course leading to completion of the FAA Private Pilot Certificate knowledge requirements and preparation for introduction to commercial pilot certification requirements.

Five hours lecture.

PFT 102 PRIVATE PILOT PRACTICUM (1)

Prerequisite(s): PFT 101 or equivalent

This course serves as a review of the knowledge areas required in the Private Pilot Practical Test Standards.

One hour lecture.

PFT 103 PRIVATE PILOT REVIEW (1)

Prerequisite(s): FAA written exam passed, and FAA Private Pilot airplane experience requirements met by the FAA.

Review of all items listed in the Private Pilot Airplane Single Engine Land Test Standards to prepare for Private Pilot Certification.

One hour individual ground and flight instruction.

PFT 111 SOLO FLIGHT PREPARATION (3.5)

Prerequisite(s): PFT 101

A course designed to prepare the student to complete the FAA pre-solo flight and knowledge requirements.

Three hours, 30 minutes individual ground and flight instruction.

PFT 112 CROSS-COUNTRY NAVIGATION (1.5)

Prerequisite(s): PFT 122

A course designed to prepare the student to complete the FAA pre-solo cross-country flight and knowledge requirements.

One hour, 30 minutes individual ground and flight instruction.

PFT 113 PRIVATE PILOT CERTIFICATION COMPLETION (1)

Prerequisite(s): PFT 111, 112 or equivalent.

A course designed to provide students who meet FAA solo and solo cross country requirements with a means to complete the flight skill and knowledge requirements for FAA Private Pilot Certification.

One hour individual ground and flight instruction.

PFT 121 COMMERCIAL PILOT FLIGHT I (3)

Prerequisite(s): Completion of PFT 111, 112, 113 with a grade of C or better or possession of a Private Pilot Certificate.

An introduction to commercial pilot flight maneuvers, and completion of one-half of the solo cross-country requirements for Commercial Pilot Certification.

One hour, 30 minutes individual ground and flight instruction.

PFT 122 METEOROLOGY (1)

Prerequisite(s): PFT 101 or permission of instructor.

A continuation of the study of aviation weather theory introduced in PFT 101 includes an in-depth study of weather elements, weather hazards, and aviation weather reports and forecasts.

One hour lecture.

PFT 130 COMMERCIAL PILOT GROUND SCHOOL (5)

Prerequisite(s): Completion of PFT 120 with a grade of C or better or possession of a Private Pilot Certificate.

A comprehensive course leading to completion of the FAA requirements for a Commercial Pilot Certification.

Five hours lecture.

PFT 131 COMMERCIAL FLIGHT II (3)

Prerequisite(s): Completion of PFT 111, 112, 113, with a grade of C or better or possession of a Private Pilot Certificate.

A continuation of the development of the requirements for the Commercial Pilot Certificate.

One hour, 30 minutes individual ground and flight instruction.

PFT 200 INTRODUCTION TO AVIATION OPERATIONS MANAGEMENT (3)

Prerequisite(s): None

An introduction to basic management principles as they apply to aviation-oriented businesses.

Three hours lecture.

PFT 204 INSTRUMENT RATING GROUND SCHOOL (5)

Prerequisite(s): Completion of PFT 101, 102, 103 ground schools.

Completion of the knowledge requirements to obtain Instrument Pilot certification.

Five hours lecture.

PFT 206 AIRCRAFT SYSTEMS (4)

Prerequisite(s): PFT 101 or equivalent or permission of instructor.

An in-depth study of aircraft systems, to include components, functions, construction, operating theory and practice; applied physics and electrical principles; and systems problem-solving techniques for pilots.

Four hours lecture.

PFT 210 MULTI-ENGINE RATING GROUND SCHOOL (1)

Prerequisite(s): Five hours solo in a complex airplane.

A comprehensive course leading to completion of the knowledge level requirements for a Multi-Engine Land Airplane Class Rating.

One hour lecture.

PFT 211 MULTI-ENGINE RATING FLIGHT (1)

Prerequisite(s): Five hours solo in a complex airplane. Concurrent enrollment or prior completion of PFT 210.

A comprehensive course leading to completion of the FAA requirements for a Multi-Engine Land Airplane Class Rating.

One hour individual ground and flight instruction.

PFT 214 INSTRUMENT RATING FLIGHT I (3.5)

Prerequisite(s): PFT 204

A course designed to prepare the student to meet the FAA instrument flight navigation and air traffic control procedures requirements.

Three hours, 30 minutes individual ground and flight instruction.

PFT 215 INSTRUMENT RATING FLIGHT II (1.5)

Prerequisite(s): PFT 214

A course designed to prepare the student with instrument flight navigation skills to complete the FAA practical test certification requirements.

1.5 hours individual ground and flight instruction.

PFT 216 INSTRUMENT PILOT PRACTICUM (1)

Prerequisite(s): PFT 204 or equivalent.

A review of all required areas enumerated in the Instrument Rating Practical Test Standards issued by the FAA.

One hour lecture.

PFT 217 INSTRUMENT PILOT REVIEW (1)

Prerequisite(s): FAA written exam passed and FAA Instrument Pilot Airplane experience requirement met.

Review of all items listed in the Instrument Pilot Airplane Single Engine Land Test Standards to prepare for Instrument Pilot Certification.

One hour individual ground and flight instruction.

PFT 218 COMMERCIAL FLIGHT III (1)

Prerequisite(s): Completion of PFT 215.

This course will enable the student to complete the flight skill level requirements for the flight portion of the FAA Commercial Pilot Practical Test.

One hour individual ground and flight instruction.

PFT 219 COMMERCIAL PILOT PRACTICUM (1)

Prerequisite(s): PFT 121, 130 or equivalent.

A review of the material enumerated in the Commercial Pilot Single Engine Land Practical Test Standards.

One hour lecture.

PFT 220 COMMERCIAL PILOT REVIEW (1)

Prerequisite(s): FAA written exam passed, and FAA Commercial Pilot Airplane experience requirements met.

Review of all items listed in the appropriate Commercial Pilot Airplane Land Test Standards to prepare for Commercial Pilot Certification.

One hour individual ground and flight instruction.

**PFT 230 FLIGHT INSTRUCTOR FUNDAMENTALS
GROUND SCHOOL (3)**

Prerequisite(s): PFT 130 and PFT 204 or permission from the instructor.

A study of the basic principles and processes of learning and teaching as it relates to the task of conveying aeronautical knowledge and skills to students.

Three hours lecture.

**PFT 231 FLIGHT INSTRUCTOR AIRPLANE GROUND
SCHOOL (5)**

Prerequisite(s): Completion of PFT 130, PFT 204.

A comprehensive course leading to completion of the ground school requirements for an FAA Flight Instructor Airplane Certification.

Five hours lecture.

PFT 232 FLIGHT INSTRUCTOR INITIAL FLIGHT (3)

Prerequisite(s): Possession of a Commercial Pilot airplane certificate with an Instrument Rating. Concurrent enrollment or prior completion of PFT 231.

A comprehensive course leading to completion of the FAA requirements for a Flight Instructor Airplane Certification.

Three hours individual ground and flight instruction.

PFT 233 FLIGHT INSTRUCTOR AIRPLANE REVIEW (1)

Prerequisite(s): FAA written exam passed and FAA flight instructor airplane experience requirements met by the student.

Review of all test items for the Flight Instructor Airplane Certification test as outlined in the Practical Test Standards published by the FAA.

One hour individual ground and flight instruction.

PFT 234 FLIGHT INSTRUCTOR PRACTICUM (2.5)

Prerequisite(s): PFT 230 and 231 or equivalent.

A review of the knowledge areas enumerated in the Flight Instructor Airplane Single Engine Land Practical Test Standards.

Two hours, 30 minutes lecture.

**PFT 237 INTRODUCTION TO AVIATION RISK
MANAGEMENT & INSURANCE (3)**

Prerequisite(s): None

An introductory analysis of aviation risk management and insurance functions; concept and analysis of risk; insurability and risk retention; and analysis and use of insurance contracts as they apply to aviation property, liability, and employee exposure. This course is designed for prospective employees and supervisors in aviation-related businesses.

Three hours lecture.

**PFT 240 FLIGHT INSTRUCTOR MULTI-ENGINE GROUND
SCHOOL (2)**

Prerequisite(s): Possession of a Flight Instructor Airplane Certificate and Multi-Engine Land Airplane Rating.

A comprehensive course leading to completion of the FAA requirements for a Multi-Engine Flight Instructor Certificate.

Two hours lecture.

PFT 241 FLIGHT INSTRUCTOR MULTI-ENGINE FLIGHT (2)

Prerequisite(s): Flight Instructor Certification and a Multi-Engine Airplane Rating. Completion of PFT 240.

A comprehensive course designed to complete the requirements for an FAA Multi-Engine Instructor Certificate.

One hour individual ground and flight instruction.

PFT 243 PILOT-IN-COMMAND, TAILWHEEL AIRPLANE (.5)

Prerequisite(s): Private Pilot Certificate.

Provide individualized instruction to the holder of a pilot certificate in the procedures and operations required by Federal Aviation Regulation 61.31(d)(2) to be pilot-in-command of a tailwheel airplane.

Thirty minutes individual ground and flight instruction.

PFT 245 AIR TRANSPORTATION (3)

Prerequisite(s): None

A survey of the development and operation of the air transportation system, including air carrier regulation, deregulation, economics, and organization.

Three hours lecture.

PFT 247 AVIATION LAW (3)

Prerequisite(s): Sophomore standing or permission of instructor.

An introduction to the legal environment of aviation, including operation of the United States Constitution relating to aviation matters, the Warsaw Convention, legal definitions, worker's compensation, liability to others, and crimes as they relate to aviation and aircraft.

Three hours lecture.

PFT 250 FLIGHT INSTRUCTOR INSTRUMENT GROUND SCHOOL (3)

Prerequisite(s): Possession of an Airplane Flight Instructor Certificate and Instrument Rating.

A comprehensive course leading to completion of the requirements for FAA certification as a Flight Instructor Instrument Airplane.

Three hours lecture.

PFT 251 FLIGHT INSTRUCTOR INSTRUMENT FLIGHT (3)

Prerequisite(s): Possession of an Airplane Flight Instructor Certificate and Instrument Rating. Concurrent enrollment or prior completion of PFT 250.

A comprehensive course leading to completion of the FAA requirements for an Instrument Flight Instructor Airplane Rating.

Three hours individual ground and flight instruction.

PFT 260 AIRLINE TRANSPORT PILOT GROUND SCHOOL (3)

Prerequisite(s): Possession of a Commercial Pilot Airplane Certificate with an Instrument Rating.

A comprehensive course leading to completion of the FAA requirements for an Airline Transport Pilot Certification.

Three hours lecture.

PFT 261 AIRLINE TRANSPORT PILOT FLIGHT (1)

Prerequisite(s): Possession of a Commercial Pilot Airplane Certificate with an Instrument Rating.

A comprehensive course leading to completion of the FAA requirements for an Airline Transport Pilot Certification.

One hour individual ground and flight instruction.

PFT 271 UNMANNED AERIAL VEHICLE (UAV) OPERATOR (29)

Prerequisite(s): PFT 101 or successful completion of a FAA approved Stage One Ground School. Sponsored employee of the department of defense or of a DOD UAV contractor.

Provides the student with the theoretical and practical skills and knowledge necessary to safely employ, in any theater of operation, the Hunter UAV system, incorporating the aerial vehicle, mission payload and flight line operations.

Twenty-one hours lecture; 26 hours laboratory.

PFT 272 UNMANNED AERIAL VEHICLE (UAV) EXTERNAL PILOT (26)

Prerequisite(s): PFT 101, or completion of a FAA certified Stage One Ground School, and PFT 171. Sponsored employee of the department of defense or of a DOD UAV contractor.

Designed to provide the student with the theoretical knowledge and practical skills necessary to perform the external pilot functions of the Hunter unmanned aerial vehicle system, including launch and recovery operations, traffic pattern operations, and emergency recovery procedures and operations.

Eighteen hours lecture; 20 hours laboratory.

PFT 294 FIELD EXPERIENCE IN PROFESSIONAL FLIGHT TECHNOLOGY (1-6)

Prerequisite(s): A declared major in professional flight technology. Permission and approval of a cooperative education program coordinator.

Recommended: Sophomore standing.

A supervised cooperative education work experience involving the combined efforts of educators and employers to accomplish career objectives in professional flight technology and related fields. Variable credit (1-6) is available by special arrangement. May be taken four times for a maximum of 16 credit hours, with no more than six units in a given semester.

NOTE: Lower- and upper-division cooperative education courses may be combined but cannot exceed 16 units.

Psychology

PSY 010 PROBLEM-SOLVING SKILLS DEVELOPMENT (3)

Prerequisite(s): Referral by developmental studies department.

A self-paced individualized course designed to develop independent problem-solving skills. Students are exposed to information needed for problem conceptualization and are required to understand rules and their applications in problem solution. Students also develop attitudes needed for problem mastery such as perseverance and acceptance of negative feedback.

In completing this course students are interviewed and tested to determine their special educational needs and provided with individualized study plans. Because it is self-paced, this course may be repeated and a grade of I will be assigned until course objectives are met with a grade of C or better.

Three hours lecture.

PSY 101* INTRODUCTION TO PSYCHOLOGY (3)

Prerequisite(s): Reading level of 12.0.

A survey of major topics in psychology to include: history of psychology, research methods, biopsychology, sensation and perception, consciousness, learning, memory, motivation and emotion, human development, personality, abnormal behavior and therapy.

Three hours lecture.

PSY 103 PERSONALITY AND ADJUSTMENT (3)

Prerequisite(s): None

A study of basic theoretical principles of psychology and their application to human behavior and growth. Emphasis on scientific psychology's contributions to more effective professional and personal relationships. Group activities and self-evaluation included.

Three hours lecture.

PSY 210* SOCIAL PSYCHOLOGY (3)

Prerequisite(s): PSY 101 and ENG 101 with a grade of C or better.

A study of basic concepts, theories and research pertaining to human interaction. Topics include attribution, attitude formation and change, interpersonal interaction, altruism and aggression, environmental psychology, and group structure and processes.

Three hours lecture.

PSY 218* LOSS, GRIEF AND DYING (3)

Prerequisite(s): Reading level of 12.0.

An exploration of grief, dying and the loss of loved persons as individuals as well as global human experiences. The primary focus will be upon the coping skills of the affected persons and helping skills of others. Values, behaviors and intervention strategies will be studied in international, medical, diverse, social and legal contexts.

Three hours lecture.

PSY 230* PERSONALITY THEORIES AND RESEARCH (3)

Prerequisite(s): PSY 101 and ENG 101 with a grade of C or better.

A survey of major psychological theories of personality including psychoanalytic, neo-Freudian, dispositional/trait, learning and humanities/existential theories. Personality assessment based upon theory and research, normal and abnormal personality types, and exploration of one's own personality are also addressed.

Three hours lecture.

PSY 240* DEVELOPMENTAL PSYCHOLOGY (3)

Prerequisite(s): PSY 101 and ENG 101.

A sequential study of human life-span development emphasizing theories and research in the following areas: biological maturation, perceptual and motor skills development, language development, cognitive development, emotional development, personality and social development.

Three hours lecture.

PSY 250 INTRODUCTION TO PSYCHOLOGICAL RESEARCH, MEASUREMENTS AND STATISTICS (3)

Prerequisite(s): MAT 122, PSY 101, and ENG 101 with a grade of C or better.

Basic concepts of experimental design, measurement, and descriptive and inferential statistics as applied to psychological variables.

Three hours lecture.

PSY 290 EXPERIMENTAL PSYCHOLOGY (4)

Prerequisite(s): PSY 101, PSY 250 and ENG 101.

Student involvement in the review and analysis of scientific literature, designing and implementing experiments, collecting and analyzing data, interpreting results and reporting experimental findings using A.P.A. format.

Three hours lecture; three hours laboratory.

Public Administration

PAD 101 INTRODUCTION TO MANAGEMENT SKILLS (2)

Prerequisite(s): Sponsorship by a public sector employer.

A practical introduction to public sector management for the first-line supervisor or potential supervisor. Focus is on communication techniques, delegation of authority, quality management, performance evaluation, discipline, and employee orientation. May be offered in a pass/fail grading format. Identical to MGT 101.

Two hours lecture.

PAD 102 THE MANAGER AND SYSTEM RELATIONSHIPS (2)

Prerequisite(s): PAD 101

A practical study of the manager as a member of an organization with emphasis upon the processes and procedures necessary for managerial competence. Topics include management practices, employee motivation, organizational communications, budgetary systems and management, equal employment opportunity, and employee-management relations. May be offered in a pass/fail format. Identical to MGT 102.

Two hours lecture.

PAD 103 THE MANAGER AND THE WORK GROUP (2)

Prerequisite(s): PAD 102

A practical analysis of the manager as a group/team leader focusing on group dynamics, behavioral analysis, group problem solving and decision making, change management, conflict management, and group interaction. May be offered in a pass/fail grading format. Identical to MGT 103.

Two hours lecture.

PAD 192 APPLICATIONS IN PUBLIC ADMINISTRATION (.5)

Prerequisite(s): None

A study of topics related to applications in public sector employment. Subjects covered include: the strategic planning process, leadership practices, policy analysis, program evaluation and budgeting including financial management, information management, organizational design, culture and productivity.

Thirty minutes lecture.

PAD 192A FUNDAMENTALS OF SUPERVISION (.5)

Prerequisite(s): None

A practical introduction to the major concepts and skills needed by supervisors in today's diverse workforce. Topics covered are: the changing role of supervisors; managing your leadership style; techniques to plan, organize, prioritize and delegate work requirements; methodology of effective communication; ethical issues and quality management's impact on today's workforce.

Thirty minutes lecture.

PAD 192B PERSONNEL ASPECTS OF SUPERVISION (.5)

Prerequisite(s): None

This course is a continuation of the Fundamentals of Supervision course. Topics covered are: conducting an effective (and legal) interview; legal aspects of supervision including EEO, sexual harassment, ADA, affirmative action; discipline and grievance procedures; effective and productive performance appraisals; cultural diversity and its effect on the workplace; methods to motivate and empower employees, and the role group dynamics play in effective supervision.

Thirty minutes lecture

PAD 201 MANAGEMENT IN THE PUBLIC ORGANIZATION (4)

Prerequisite(s): Successful completion of PAD 101-103 or a formal request for advanced entry, approved by the Center for Professional Development coordinator and ASU.

A practical study of management designed to provide the public sector professional with the analytical approaches and skills necessary to function effectively within a management setting bound by human, fiscal, and environmental constraints. Focuses upon productivity, employee diversity, and political environments as well as on the management of planning, programs, human and financial resources and organizational change.

Four hours lecture.

PAD 202 SYSTEMS APPROACH TO PUBLIC MANAGEMENT (3)

Prerequisite(s): Successful completion of PAD 201.

A practical analysis of the public organization as a system. Includes the study of effective decision making, teams and team performance, the management function of information systems, the relationship of various systems approaches to organizational improvement/transformation, and the impact of the internal and external environment on organizational performance and organizational change. Incorporates an analytical problem-solving approach to actual situations faced by the public sector organizations.

Three hours lecture.

PAD 203 DECISION-MAKING PROCESS (2)

Prerequisite(s): Successful completion of PAD 202.

A theoretical and practical study of case analysis and the decision making process within public sector organizations. Includes a review of situational analysis, problem analysis, decision analysis and the relationship between the decision maker and the decision environment.

Two hours lecture.

Reading

RDG 019 TRANSITIONAL READING (3-4)

Prerequisite(s): Placement test score.

Recommended: Keyboarding skills.

A course designed for students beginning regular college classes and for basic readers of English. Emphasis is on literal comprehension, vocabulary building and reading rate improvement.

Three to four hours lecture.

RDG 020A READING FUNDAMENTALS I (3-4)

Prerequisite(s): Placement test score or RDG 019.

Recommended: Keyboarding skills.

A review of basic reading, spelling and study skills. This class emphasizes literal and inferential comprehension, vocabulary development, review of spelling rules, dictionary skills and library use.

Three to four hours lecture.

RDG 020B READING FUNDAMENTALS II (3-4)

Prerequisite(s): Placement test score or RDG 020A.

Recommended: Keyboarding skills.

A continuing review of basic reading, spelling and study skills. This class emphasizes literal and inferential comprehension, vocabulary development, review of spelling rules, dictionary skills, basic study skills, and library use.

Three to four hours lecture.

RDG 020C READING FUNDAMENTALS III (5)

Prerequisite(s): RDG 020B or permission of instructor.

A review of basic reading, spelling and study skills for college students placing below the 9.5 reading level on the standardized reading placement test. This class emphasizes literal comprehension, rate improvement, vocabulary development, review of phonetics and spelling rules applied to English, dictionary skills, basic study skills and library use.

Five hours lecture.

RDG 021 POWER READING (3)

Prerequisite(s): Placement test score or RDG 020.

Recommended: Keyboarding skills.

A course emphasizing literal and inferential comprehension, rate building, vocabulary development and textbook reading strategies.

Three hours lecture.

RDG 022 INDIVIDUALIZED READING (3)

Prerequisite(s): ENG 020

A continuation of reading ENG 020 for second semester students whose Nelson-Denny scores remain below 12.1; individualized approaches to reading for mature adults, part-time evening vocational students or those who wish to concentrate on selected aspects of literal and critical comprehension while developing higher level thinking skills using college vocabulary.

Three hours lecture.

RDG 110 COLLEGE STUDY SKILLS (3)

Prerequisite(s): Placement test score.

Recommended: Keyboarding skills.

A course emphasizing literal and critical reading strategies applied to content area textbooks and essays, general study skills application, and content area vocabulary acquisition.

Three hours lecture.

RDG 122 READING CRITICALLY (3)

Prerequisite(s): Placement test score or RDG 021 or RDG 110.

Recommended: Keyboarding skills.

An advanced course in reading for critical thinking using college level study strategies, vocabulary, and logical analysis of texts involving research across the disciplines. Upon completion of RDG 122, students receiving a C or higher will have attained the college reading requirement for graduation.

Three hours lecture.

Russian

RUS 101 ELEMENTARY RUSSIAN (4)

Prerequisite(s): None

Comprehension of the spoken and written language, proper pronunciation, usage of proper grammar, oral reading skills, composition and conversation.

Four hours lecture; one hour laboratory.

RUS 102 ELEMENTARY RUSSIAN (4)

Prerequisite(s): RUS 101 or two years of high school Russian or permission of instructor.

Continuation of RUS 101. Comprehension of the spoken and written language, proper pronunciation, usage of proper grammar, oral reading skills, composition, and conversation.

Four hours lecture; one hour laboratory.

RUS 115 CONVERSATIONAL RUSSIAN I (3)

Prerequisite(s): None

Essentials of Russian for conversational situations. Designed for students who wish to use Russian for business, pleasure, or travel. May be used for elective credit toward the AA degree, but is transferable to a four-year institution only upon satisfactory performance on a proficiency examination.

Three hours lecture.

RUS 116 CONVERSATIONAL RUSSIAN II (3)

Prerequisite(s): RUS 115 or permission of instructor.

Continuation of RUS 115 with emphasis on role playing and use of everyday vocabulary and conversational phrases. Additional practice in reading, writing, speaking and understanding the language with short stories to enrich the student's vocabulary. May be used for elective credit toward the AA degree, but is transferable to a four-year institution only upon satisfactory performance on a proficiency examination.

Three hours lecture.

Social Services

SSV 183 SUBSTANCE ABUSE: CAUSES AND TREATMENT (3)

Prerequisite(s): None

A practical and theoretical introduction to psychological and socio-cultural aspects of substance abuse.

Three hours lecture.

SSV 221 PREVENTION OF DRUG AND ALCOHOL ABUSE (3)

Prerequisite(s): Reading level of 12.0.

This course will examine strategies and programs used to prevent drug and alcohol abuse problems with focus on the work place, schools, and community.

Three hours lecture.

SSV 222 TREATMENT AND REHABILITATION FOR DRUG AND ALCOHOL DEPENDENCY (3)

Prerequisite(s): SSV 183 or SSV 221 and reading level of 12.0.

This course will examine the various modalities used to help persons recover from drug and alcohol dependency. There will be a focus on the different treatment models used for intervention, rehabilitation and recovery, and the rationale for their use.

Three hours lecture.

SSV 223 PSYCHO-PHARMACOLOGY (3)

Prerequisite(s): SSV 183 and reading level of 12.0.

An in-depth examination of the physiological effects of alcohol and other drugs. The focus will be on how alcohol and drugs affect the central nervous system and human behavior on both a short and long term basis.

Three hours lecture.

SSV 224 FIELD EXPERIENCE IN SOCIAL SERVICES (1-6)

Prerequisite(s): Permission and approval of a cooperative education program coordinator. Sophomore standing.

A supervised cooperative education work experience involving the combined efforts of educators and employers to accomplish career objectives in social services and related fields. Variable credit (1-6) is available by special arrangement. May be taken four times for a maximum of 16 credit hours, with no more than six credits in a given semester.

SSV 225 SUBSTANCE ABUSE AND THE FAMILY (3)

Prerequisite(s): None

Recommended: SSV 183 or SSV 221 and reading level of 12.0.

An in-depth examination of the effects of drug and alcohol abuse on families and how to assist family members in understanding and coping with the substance abuser. The approach will be experiential, emphasizing learning effective skills and strategies to use when counseling the families of substance abusers. Students will learn through role-playing and group interaction.

Three hours lecture.

SSV 270 INTERPERSONAL COMMUNICATIONS (3)

Prerequisite(s): COM 102 or SOC 101 or PSY 101 with a grade of C or better and reading level of 12.0.

A course to develop self-awareness and insight into interpersonal relationships with emphasis upon the development of communication skills and techniques for one-on-one professional communication. Identical with COM 270.

Three hours lecture.

SSV 271 COMMUNICATIONS IN SMALL GROUPS (3)

Prerequisite(s): COM 102 or SOC 101 or PSY 101 with a grade of C or better and reading level of 12.0.

A continuation of SSV 270 and COM 270 refining skills and techniques learned first semester and adding analysis and presentation with emphasis on small-group communication processes. Identical to COM 271.

Three hours lecture.

SSV 272 HUMAN SERVICES RESOURCES (3)

Prerequisite(s): PSY 101 or SOC 101.

A capstone course designed for advanced students, featuring individual study, discussion exchange and reports on practical resource issues and problems. This resource development group is intended for the student enrolled in the AAS Social Services program.

Three hours lecture.

SSV 273 DETERMINANTS OF HUMAN BEHAVIOR (3)

Prerequisite(s): PSY 101 or SOC 101.

A review of the historical developments that have occurred in the field of mental health treatment. An examination of the founders and theories associated with therapeutic intervention. Examples include psychoanalytic, behavioral, person-centered, existential, and gestalt therapies.

Three hours lecture.

Sociology

SOC 101* INTRODUCTION TO SOCIOLOGY (3)

Prerequisite(s): Concurrent enrollment in RDG 110 or reading level of 12.0.

A survey of the science of sociology including: research methodology, the theoretical schools of sociology, culture, socialization, social institutions, collective behavior, social change, and the components of social structure from a global perspective.

Three hours lecture.

SOC 160* ETHNIC GROUPS AND MINORITIES (3)

Prerequisite(s): ENG 101 with a grade of C or better and SOC 101 or ANT 101 with a grade of C or better and reading level of 12.0.

A theoretical analysis of prejudice, discrimination and minority group relations from a sociological viewpoint. Includes an in-depth analysis of the historical and sociological underpinnings of the racial and ethnic based minority status of African Americans, Hispanic Americans, Asian Americans, Native Americans, Jewish Americans and women. Also includes a review of the present socio-economic and cultural status of each group, their relationship with other social groups and future trends.

Three hours lecture.

SOC 202* SOCIAL PROBLEMS (3)

Prerequisite(s): ENG 101 with a grade of C or better, and SOC 101 or ANT 102 with a grade of C or better and reading level of 12.0.

Topics to be covered include issues, questions and problems affecting women, racial and ethnic minorities, and the aged. In addition, inequalities dealing with social, educational and financial institutions will be covered. Also to be considered are problems of drug and alcohol use, physical and mental health care, crime and sexual deviance. The course is designed to prepare students to assess social problems and propose resolutions in a logical and scientific manner.

Three hours lecture.

SOC 207 INTRODUCTION TO SOCIAL WELFARE (3)

Prerequisite(s): ENG 101 or concurrent enrollment, and SOC 101 or ANT 108 or PSY 101, all with a grade of C or better and reading level of 12.0.

An introduction to traditional social work institutions and contemporary human services organizations, locally and globally. Designed to acquaint the student with various programs, such as the social insurance system, available to the general public through legislation and/or private means.

Three hours lecture.

SOC 210* MARRIAGE AND THE FAMILY (3)

Prerequisite(s): ENG 101 and SOC 101 or ANT 102 or PSY 101 and reading level of 12.0.

Courtship, mate selection, marital adjustment, parenthood and family living from sociological and psychological points of view.

Three hours lecture.

SOC 212 WOMEN AND MEN IN A CHANGING SOCIETY (3)

Prerequisite(s): ENG 101 with a grade of C or better and SOC 101 or ANT 102 with a grade of C or better and reading level of 12.0.

A study of the way culture shapes and defines the positions and roles of both men and women in society. Major emphasis on social conditions which lead to sex roles and may lead to a reduction of sex-role stereotypes and to a broadening of sex roles. Also includes an analysis of the implications of potential social change.

Three hours lecture.

SOC 230 HUMAN SEXUALITY AND GENDER AWARENESS (3)

Prerequisite(s): PSY 101 or SOC 101 or ANT 102, with grades of C or better and ENG 101 with a grade of C or better and reading level of 12.0.

Study of human sexuality and gender awareness from biological, psychological, sociological, cultural, and ethical perspectives.

Three hours lecture.

SOC 299 INDIVIDUAL STUDIES (1-4)

Prerequisite(s): Approval of the associate dean and instructor.

Completion of a research problem or an outlined course of study under the direction of a faculty member with contract for the individual study agreed upon by the student, the instructor and the associate dean prior to initiation of the study. May be repeated for credit.

Spanish

SPA 011 SPANISH ORTHOGRAPHY (1)

Prerequisite(s): None

A concentrated study of Spanish spelling with emphasis on a step-by-step procedure from the simplest to the most complex words in Spanish. Special attention is given to the accent mark, colloquial and common errors and to areas of special spelling problems.

One hour lecture.

SPA 025 SPANISH FOR TEACHERS (3)

Prerequisite(s): None

A course especially designed for the classroom teacher who needs a basic familiarity with Spanish in order to effectively communicate with his/her Spanish-speaking pupils and their parents.

Three hours lecture.

SPA 026 SPANISH FOR MEDICAL PERSONNEL (3)

Prerequisite(s): None

A course especially designed for doctors, nurses, and all other medical personnel who wish to effectively communicate with their Spanish speaking patients and their families.

Three hours lecture.

SPA 027 SPANISH FOR BEGINNERS (3)

Prerequisite(s): None

A preparatory course in conversational Spanish with an emphasis on basic grammar, punctuation, patterns of speech, and language skills necessary for effective communication-oriented introduction to the Hispanic culture. Requires no previous exposure to the Spanish language. May be offered in a pass/fail format.

Three hours lecture.

SPA 092 SPANISH FOR OCCUPATIONS (1)

Prerequisite(s): Concurrent enrollment in SPA 102 or permission of instructor.

Intensive practice with Spanish vocabulary and specialized terminology useful in the workplace.

Two hours laboratory.

SPA 094 INTRODUCTION TO TRANSLATION AND INTERPRETATION (1)

Prerequisite(s): Concurrent enrollment in SPA 216 or 202 or permission of instructor.

An introduction to basic concepts and procedures useful in translation and interpretation between Spanish and English. Experience working with both general language and materials in the student's occupational specialty.

Two hours laboratory.

SPA 101 ELEMENTARY SPANISH (4)

Prerequisites: None

Recommended: SPA 115 or previous experience/instruction in a second language.

Comprehension of the spoken language, understandable pronunciation, recognition of basic grammar structures, ability to converse, read and write in simple sentences on topics related to personal and classroom experiences.

Four hours lecture; one hour laboratory.

SPA 102 ELEMENTARY SPANISH (4)

Prerequisite(s): SPA 101 or two years high school Spanish.

Recommended: SPA 116 or previous experience/instruction in a second language.

Comprehension of the spoken language, understandable pronunciation, recognition of basic grammar structures, ability to converse, read and write in simple sentences on topics related to personal and classroom experiences.

Four hours lecture; one hour laboratory.

SPA 115 CONVERSATIONAL SPANISH (3)

Prerequisite(s): None

Essentials of Spanish for conversational situations, designed for students who wish to use Spanish for business, pleasure or travel.

Three hours lecture.

SPA 116 CONVERSATIONAL SPANISH (3)

Prerequisite(s): SPA 115 or permission of instructor.

Continuation of SPA 115 with emphasis on role playing and use of everyday vocabulary and conversational phrases.

Three hours lecture.

SPA 189 UNDERSTANDING SPANISH (1)

Prerequisite(s): Concurrent enrollment in or prior completion of SPA 101.

Beginning-level practice listening to Spanish with emphasis on those elements of language most useful in the workplace. Intended for concurrent enrollment with SPA 101.

Two hours laboratory.

SPA 190 PRONOUNCING SPANISH (1)

Prerequisite(s): Concurrent enrollment in or prior completion of SPA 101.

Introduction to the sounds, rhythm, and intonation of Spanish, with emphasis on those aspects of the oral language which make it easier to understand and to be understood in Spanish.

Two hours laboratory.

SPA 191 SPANISH FOR OCCUPATIONS (1)

Prerequisite(s): Concurrent enrollment in or prior completion of SPA 102 or permission of instructor.

Intensive practice with Spanish vocabulary and specialized terminology useful in the workplace.

Two hours laboratory.

SPA 192 SPECIAL TOPICS IN LANGUAGE, LITERATURE & CULTURE (.5-1)

Prerequisite(s): None

A rotating forum/seminar emphasizing linguistic development and change, regional literature, literary styles, folklore and related topics. Topics will vary in accordance with changes in student need and interest. Cochise College elective credit only unless otherwise designated in degree programs.

Thirty minutes to one hour lecture.

SPA 201* INTERMEDIATE SPANISH (4)

Prerequisite(s): SPA 102 with a grade of C or better or two years of high school Spanish or competency based on travel and experience demonstrated to the satisfaction of the instructor.

A review of grammar, pronunciation and development of patterns of speech in Spanish with additional practice in reading, writing, speaking and understanding the language, supplemented by essays and short stories to enrich the student's vocabulary.

Four hours lecture; one hour laboratory.

SPA 202 INTERMEDIATE SPANISH (4)

Prerequisite(s): SPA 201 with a grade of C or better or three years of high school Spanish or competency based on travel and experience demonstrated to the satisfaction of the instructor.

A review of grammar, pronunciation, and development of patterns of speech in Spanish with additional practice in reading, writing, speaking and understanding the language supplemented by essays and short stories to enrich the student's vocabulary.

Four hours lecture; one hour laboratory.

SPA 203 SPANISH FOR NATIVE SPEAKERS I (4)

Prerequisite(s): Placement by interview and/or writing sample.

Intensive work in speaking, reading and writing standard Latin American Spanish for native and bilingual speakers of Spanish; special attention will be given to regional and stylistic variations.

Four hours lecture.

SPA 215 CONVERSATIONAL SPANISH (3)

Prerequisite(s): SPA 116 or permission of instructor.

Continuation of SPA 116 with drill patterns to reinforce vocabulary and use of verb tense, with a minimum of formal grammar study, with emphasis on practice in the spoken language.

Three hours lecture.

SPA 216 CONVERSATIONAL SPANISH (3)

Prerequisite(s): SPA 215 or permission of instructor.

A continuation of SPA 115, 116, and 215. Essentials of Spanish for conversational situations, designed for students who wish to use Spanish for business, pleasure, or travel.

Three hours lecture.

SPA 220 INTRODUCTION TO SPANISH LITERATURE I (3)

Prerequisite(s): SPA 202 or completion of equivalent course with permission of instructor.

A survey of the development of Spanish literature emphasizing the development of the literary genres with relation to the historical and social backgrounds of Spain. The beginnings of Spanish literature to 1700.

Three hours lecture.

SPA 221 INTRODUCTION TO SPANISH LITERATURE II (3)

Prerequisite(s): SPA 202 or completion of equivalent course with permission of instructor.

A survey of the development of Spanish literature emphasizing the development of the literary genres with relation to the historical and social backgrounds of Spain after the 18th century with emphasis on the generation of 1898 and after.

Three hours lecture.

SPA 224 INTRODUCTION TO MEXICAN LITERATURE I (3)

Prerequisite(s): SPA 202 or permission of instructor.

An introduction to the works of representative Mexican authors and a historical look at the literature of Mexico before the Conquest, during the colonial period and the period when Mexico achieved independence from Spain.

Three hours lecture.

SPA 225 INTRODUCTION TO MEXICAN LITERATURE II (3)

Prerequisite(s): SPA 202 or permission of instructor.

An introduction to the works of representative Mexican authors and a historical look at the literature of Mexico after its independence from Spain and its revolution of 1910.

Three hours lecture.

SPA 267 SPANISH BUSINESS COMMUNICATIONS (3)

Prerequisite(s): SPA 202

A study of business compositions prepared in a business organization, typical internal and external communications (letters, memos, and reports), with emphasis on applying Spanish fundamentals, usage, syntax, and methods of organization.

Three hours lecture.

SPA 275 INTERMEDIATE SPANISH CONVERSATION AND COMPOSITION (3)

Prerequisite(s): SPA 202 or permission of instructor.

A study of short excerpts from Hispanic literature to promote topic-centered discussions and compositions in Spanish, conducted principally in Spanish. Review and application of Spanish grammar rules and building of Spanish vocabulary.

Three hours lecture.

SPA 276 INTERMEDIATE COMPOSITION AND CONVERSATION (3)

Prerequisite(s): SPA 275 or permission of instructor.

Continuation of SPA 275; conducted in Spanish. Further readings and discussions of short stories, articles and other pertinent materials to provide continued exposure to new vocabulary and enhance usage of the Spanish language.

Three hours lecture.

SPA 283 CULTURAL CONTEXT: CASE STUDIES (1)

Prerequisite(s): SPA 202 or permission of instructor.

Introduction to the social norms, cultural values and assumptions underlying workplace behavior with emphasis on comparative case studies and practical application to interaction between U.S. and Latin American cultures.

Two hours laboratory.

SPA 284 INTRODUCTION TO TRANSLATION AND INTERPRETATION (1)

Prerequisite(s): SPA 202 or permission of instructor.

An introduction to basic concepts and procedures useful in translation and interpretation between Spanish and English. Experience working with both general language and materials in the student's occupational specialty.

Two hours laboratory.

SPA 290 FUNDAMENTALS OF TRANSLATION AND INTERPRETATION (3)

Prerequisite(s): ENG/BUS/OAD 167 and SPA 267 or permission of instructor.

An introduction to translation and interpretation theory and practice. Emphasis on application; translation of representative texts chosen from general and commercial contexts; interpretation of representative discourse chosen from a variety of social and business contexts. Familiarity with professional interpretation practices, ethics and technology. Identical with LIN 290.

Three hours lecture.

SPA 294 FIELD EXPERIENCE IN SPANISH (1-6)

Prerequisite(s): Approval of cooperative education program coordinator.

A supervised cooperative education work experience involving the combined efforts of educators and employers to accomplish career objectives in Spanish. Variable credit (1-6) is available by special arrangement. May be taken four times for a maximum of 16 credit hours, with no more than six units in a given semester. NOTE: Lower- and upper-division cooperative education courses may be combined but cannot exceed 16 units.

SPA 299 INDIVIDUAL STUDIES (1-4)

Prerequisite(s): Approval of the associate dean and instructor.

Completion of a research problem or an outlined course of study under the direction of a faculty member, with contract for the individual study agreed upon by the student, the instructor and the associate dean prior to initiation of the study. May be repeated for credit.

Spanish Immersion Program

Intensive day-long instruction in Spanish for seven weeks for non-native speakers, designed to provide a basic speaking-understanding facility in Spanish language. Eight units of college credit are available in this summer program which is equivalent to Spanish 101 and 102.

Teleservices

TLS 101 INTRODUCTION TO TELESERVICES (6)

Prerequisite(s): Sponsorship by a teleservices provider.

A comprehensive, practical introduction to the teleservices industry, emphasizing teleservices processes and the roles and duties of the entry-level customer service representative. Includes an in-depth review of the product, service, and the procedural and technical knowledge necessary to perform duties in an efficient and competent manner.

Five hours lecture; three hours laboratory.

TLS 102 TELESERVICES PRACTICUM I (1.5)

Prerequisite(s): TLS 101 and sponsorship by a teleservices provider.

A practical guide to the use of information management systems in teleservice processes and in fulfilling the roles and duties of the entry level teleservices employee. Includes a comprehensive introduction to and extensive use of computer based teleservice operating systems.

Four hours, 30 minutes laboratory.

TLS 103 CUSTOMER SERVICE IN THE TELESERVICE INDUSTRY (6)

Prerequisite(s): TLS 101 and 102 and sponsorship by a teleservices provider.

A practical study of the duties and responsibilities of the teleservices employee, focusing on the customer enrollment process, customer service responsibilities and the creation and maintenance of customer accounts. Includes a review of customer confidentiality and the issue of fraud, both internal and external.

Five hours lecture; three hours laboratory.

TLS 104 TELESERVICES PRACTICUM II: CUSTOMER SERVICE (1.5)

Prerequisite(s): TLS 101, 102 and 103 sponsorship by a teleservices provider.

A practical guide to the use of information management systems in teleservice customer service activities. Includes a comprehensive introduction to and extensive use of computer based resources.

Four hours, 30 minutes laboratory.

Theatre Arts (Drama)

THE 101 ACTING (3)

Prerequisite(s): None

Introduction to theories of dramatic art and practice in acting situations. This is an intensive course in learning about deportment, how to deal with the demands of the theater, how to comport oneself on the stage, how to enter, exit, or steal attention. The method is the use of basic acting techniques.

Three hours lecture plus performance.

THE 102 ACTING (3)

Prerequisite(s): THE 101

Through class discussion, directed reading, pantomime, improvisation, and performance of play cuttings, the student will gain understanding and skill in the creative process of acting.

Three hours lecture.

THE 103 INTRODUCTION TO THEATRE (3)

Prerequisite(s): None

History and tradition of western theatre with analysis and discussion of representative drama, classical to contemporary.

Three hours lecture.

THE 104 PRINCIPLES AND TECHNIQUES OF PLAY PRODUCTION (3)

Prerequisite(s): None

Introduction to the theory and practice of directing, set design, costuming, stage lighting, make-up and production organization.

Three hours lecture.

THE 105* THEATRE DANCE (1)

Prerequisite(s): None

The study, comprehension and execution of basic dance styles often used in musical theater (ballet, modern, tap, and improvisation); introduction of basic steps, skills, combinations and short routines.

Three hours lecture, demonstrations and laboratory.

THE 110 THEATRE WORKSHOP (1-3)

Prerequisite(s): Permission of instructor/audition.

Actual participation in a college dramatic production either in an acting or production role. No student will be awarded more than four such credits.

One to three hours lecture/laboratory.

THE 299 INDIVIDUAL STUDIES (1-4)

Prerequisite(s): Approval of the associate dean and instructor.

Completion of a research problem or an outlined course of study under the direction of a faculty member with contract for the individual study agreed upon by the student, the instructor and the associate dean prior to initiation of the study. May be repeated for credit.

Welding Technology

WLD 105* OXYACETYLENE WELDING (3)

Prerequisite(s): None

Safety practices, set-up and operation of oxyacetylene welding equipment. Welding in flat, horizontal and overhead positions of standard alloys of steel. Also brazing ferrous metals.

Two hours lecture; three hours laboratory.

WLD 106* ARC WELDING (3)

Prerequisite(s): None

Safety practices, set-up and operation of arc welding equipment. Techniques of joining metals in all positions by electric arcs with the use of the electrode.

One hour lecture; four hours laboratory.

WLD 202* WELDING SURVEY (4)

Prerequisite(s): None

Theory and application of all major welding processes, including parameters, advantages and limitations, equipment, health and safety; introductory welding metallurgy, weldment design and inspection, and application of SMAW, oxyacetylene, brazing, GTAW and GMAW. This is an engineering course required for manufacturing engineering, welding technology and drafting design majors. Not recommended as a general interest course.

Five hours lecture.

WLD 203* BLUEPRINT INTERPRETATION (3)

Prerequisite(s): Permission of instructor.

Principles and procedures for interpreting structural blueprints and engineering drawings. Essential concepts of blueprint format for structural and aircraft applications, as well as weld symbols and their specific meaning will be covered.

Three hours lecture.

WLD 207* GAS METAL ARC AND GAS TUNGSTEN ARC WELDING (3)

Prerequisite(s): WLD 105 or permission of instructor.

Safety practices, set-up and operation of gas metal arc and gas tungsten arc welding equipment. Proper welding technique for ferrous and non-ferrous material.

Two hours lecture; three hours laboratory.

WLD 208* GAS METAL ARC WELDING (3)

Prerequisite(s): WLD 105 or permission of instructor.

Safety practices, set-up and operation of gas metal arc welding equipment, using flux core and hard wire on ferrous metals.

Two hours lecture; three hour laboratory.

WLD 209* GAS TUNGSTEN ARC WELDING (3)

Prerequisite(s): WLD 105 or permission of instructor.

Safety practices, set up and operation of gas tungsten arc welding (GTAW) equipment, using ferrous and non-ferrous metals.

Two hours lecture; three hours laboratory.

WLD 210* PIPE AND PLATE WELDING (3)

Prerequisite(s): WLD 105 and 106 or permission of instructor.

An advanced course on the shield metal arc welding process. It covers safety, equipment care and operation, rod and current selection. Welding to include out-of-position welding of heavy steel plate to AWS certification standard.

Two hours, 30 minutes lecture; two hours, 30 minutes laboratory.

WLD 211* PIPE FITTING AND WELDING (3)

Prerequisite(s): WLD 210

Fitting and welding of various sizes of pipe to AWS and API code. Students will learn to weld pipe with SMAW, GTAW and GMAW processes.

Two hours lecture; three hours laboratory.

WLD 215* WELDING DESIGN AND FABRICATION (3)

Prerequisite(s): WLD 105, 106, 208.

A course for students with demonstrated welding skills to learn proper methods of design, layout and fabrication for welding. A specific project, selected by the student or assigned by the instructor, will use electric arc, oxyacetylene, GMAW or GTA welding.

Two hours lecture; three hours laboratory.

WLD 217* PIPE LAYOUT AND FITTING (3)

Prerequisite(s): WLD 211

Continuation of WLD 211 Pipe Welding, to include methods of layout, fitting, and welding of pipe of various sizes and types.

Two hours lecture; three hours laboratory.

WLD 218* ADVANCED GTAW SOFT METALS (3)

Prerequisite(s): WLD 106 and 209.

A continuation of WLD 209 to include advanced welding of aluminum alloys. This course will help develop the skills necessary to meet aircraft aerospace certification standards.

Two hours lecture; three hours laboratory.

WLD 219* ADVANCED GTAW HARD METALS (3)

Prerequisite(s): WLD 218

A continuation of WLD 209 to include advanced welding application of stainless steel and nickel alloys. This course will develop skills to aircraft, aerospace certification standards.

Two hours lecture; three hours laboratory.

WLD 220* ADVANCED GTAW EXOTIC METALS (3)

Prerequisite(s): WLD 219

A continuation of WLD 219, to include advanced welding application of titanium, inconel, hastaloy and waspoloy. This course will help develop skills to aircraft, aerospace certification standards.

Two hours lecture; three hours laboratory.

WLD 224 FIELD EXPERIENCE IN WELDING TECHNOLOGY (1-6)

Prerequisite(s): A declared major in welding technology. Permission and approval of a cooperative education program coordinator.

Recommended: Sophomore standing.

A supervised cooperative education work experience involving the combined efforts of educators and employers to accomplish career objectives in welding technology and related fields. Variable credit (1-6) is available by special arrangement. May be taken four times for a maximum of 16 credit hours, with no more than six units in a given semester.

Zoology

Please see Biological Sciences.

Administration

PRESIDENT

Karen Nicodemus;
John F. Kennedy College, B.A.
University of Nebraska, M.P.E., Ph.D.

VICE PRESIDENT FOR INSTRUCTION/PROVOST

Joanna K. Michelich;
Cochise College, A.A.
Northern Arizona University, B.S.
University of Arizona, M.Ed.
Washington State University, Ph.D.

FACULTY EMERITI

Dr. John Doty;
University of Southern California, A.B., M.S.
California State University at L.A., M.A.
University of Michigan, D.A.

Dr. Joe Gilliland;
University of Texas, B.A., M.A.
Arizona State University, Ph.D.

Mr. George Huncovsky;
University of North Dakota, B.S., M.S.

Dr. Donald Johnson;
San Francisco State College, B.A.
Los Angeles State College, M.A.
Arizona State University, Ph.D.

Ms. Catherin Lincer; (posthumous)
Colorado State University, B.A.
University of Denver, M.L.S.

Mr. Lee Oppenheim;
University of New Mexico, B.A.
University of Phoenix, M.A.

Dr. Dan Rehurek;
University of South Dakota, B.S.
University of North Colorado, M.A.
Nova University, Ed.D.

Mary Lee Sheldon;
Phoenix College, A.A.
Northern Arizona University, B.S.
University of Arizona, Ph.D.

Mr. Thomas Waddoups;
University of Idaho, B.S.
Arizona State University, M.S.

FACULTY & PROFESSIONAL STAFF

William Akins; Director, Online Campus
Instructor, CIS, (1986)
San Francisco State University, B.A.
Kansas State University, M.S.

Yolanda Anderson; Dean, Extended Campus (1998)
University of Arizona, B.A., M.A.

Meredith Anderson; Instructor, Science (2000)
University of Georgia, M.A.
University of Arizona, B.S.

Bruce Andrews; Accountant (1998)
University of New Orleans, B.S.

Tasneem Ashraf; Coordinator, Science Lab (1999)
Federal Government College, F.S.
Punjab University, B.S.
Islamabad University, M.S., M.P.

Dartle Atherton; Assistant Director, Financial
Aid (1990)
Grand View College, B.A.
University of Arizona, M.A.

Robert Atkinson; Instructor, History (1990)
Adelphi University, B.A.
University of Notre Dame, M.A.

Norman Bates; Instructor, English (1994)
United States Military Academy, B.S.
University of Massachusetts, M.A.

William Bates; Director, Prison Center (1996)
Creighton University, B.A.
University of Maryland, B.S., M.A.

Raymond Battee; Department Head, Math,
Science & HPE, Douglas Campus
Instructor, Mathematics (1997)
CSU-Long Beach, B.A., M.A.

Barbara Bean; Instructor, Nursing (1975)
University of Delaware, B.S.N.
University of Phoenix, M.N.A.

Barry Bender; Instructor, Aviation Mechanics (1996)
Northrop Institute of Technology, B.S.

Lois Bennett; Coordinator, Tutoring (1986)
Cornell University, B.S.

Byron Berry; Manager, Facilities Maintenance
Sierra Vista Campus (1997)
Cochise College, A.A.

Tanya Biami; Associate Dean,
Humanities, Sierra Vista Campus,
Instructor, English (1994)
Michigan State University, B.A., M.A.

Martha Bordelois; Instructor, Spanish (1993)
Maximo Gorki Foreign Language Institute, B.A.
University of Havana, M.S.

Bruce Bordwell; Instructor, Math (2000)
University of North Dakota, M.S.
Bemedji State University, B.S.
Central Lake College, A.A.

Juan Borquez; Instructor, Fire Science (1998)
Cochise College, A.A.

Paul Bovee; Instructor; ESL (1982)
University of Utah, B.A.
University of Arizona, M.A.

Ruth Britton; Instructor, Reading (1994)
Concordia Teachers College, B.A.
Kansas State University, M.S.

Scott Brown; Instructor, Welding Technology (1998)

LeSandra Bryan; Systems Analyst (1993)
University of Arizona, B.S., B.A.

Belinda Burnet; Instructor, Flight (1988)
Cochise College, A.A.S. Pro-Pilot

Randy Burns; Instructor, Business Administration (1988)
Central Michigan University, B.A.
Golden Gate University, M.B.A.

Thomas Cargill; Instructor, Aviation Mechanics (2000)
Indian Hills Community College, A.A.S.

Craig Carlson; Counselor (1992)
Arizona State University, B.S.
University of Arizona, M.S.

Jerry Carrillo; Instructor, Health and Physical Education
Head Coach, Men's Basketball (1995)
University of Arizona, B.S.
University of Northridge, M.A.

Carol Chamberlain; Instructor, Nursing (1994)
University of Iowa, B.S.N.

Kenneth Charters; Instructor, Biology (1998)
Kings River Community College, A.A.
CSU-Fresno, B.A.

Northern Arizona University, M.S.

Debbie Chavez; Systems Analyst (1994)
Cochise College, A.A.

Luba Chliwniak; Executive Director, Workforce
and Institutional Development (1999)
University of Arizona, B.A., M.Ed., Ph.D.

Fred Close Jr.; Instructor, Business Administration (2000)
University of Texas at Arlington, B.B.A.
University of Alabama, M.A.

Beth Colburn; Instructor, English (2001)
Mount Mary College, B.A.
Northern Arizona University, M.Ed.

Marguerite H. Connors; Coordinator,
Career Services Center, Douglas Campus (1996)
Northern Arizona University, B.S.

Callie Conrad; Instructor, English and Reading (1987)
University of Arizona, B.A., M.A., M.Ed.
Bachelor of Architecture

Loren Cooper; Instructor, Motor Transport (1987)

Pete Cordova; Transition Specialist (1998)
American Indian College, B.A.

Brian Cox; Department Head, Science,
Sierra Vista Campus,
Instructor, Chemistry and Biology (1984)
Northern Arizona University, B.S.
San Diego State University, M.A.

Gary Cross; Adult Education Teacher (1999)
Cochise College, A.A.
University of Colorado, B.A.

Kenneth Dale; Hall Director,
Head Women's Soccer Coach (1998)
University of Arizona, B.A., M.A.

Joanne Darbee; Coordinator, Career Services
Center, Sierra Vista Campus (1996)
State University of New York, B.A.

Alan Davis; Director, Aviation Programs (1999)
University of Illinois, B.S., M.B.A.
Northern Arizona University, M.A.

Delmas Dawley; Research and Information Specialist
(2000)
Pima Community College, A.S.
University of Arizona, A.S.

Sheila DeVoe Heidman; Director, SBDC (1992)
Iowa State University, B.B.A., M.B.A.

Mary Diaz; Workforce Developer (2000)
Cochise College, A.A., A.A.S.

Jessica Dilworth; Director, Adult Education (2001)
State University College at Buffalo, B.A.
University of Arizona, M.A.

Randall Dorman; Department Head, Math,
Sierra Vista Campus
Instructor, Mathematics (1987)
Northern Arizona University, B.S., M.S.

Rebecca Dorman; Coordinator, Writing Lab (1995)
Northern Arizona University, B.S.

Faye Douglas; Director, Student Development Center,
Douglas Campus (1974)
Wheaton College, B.A.

Eastern New Mexico University, M.A.
University of Arizona, M.A.

Rhonda Douglas; Coordinator, Tech-Prep (1992)
Cochise College, A.A.S.

Lynn (Bud) Drago; Adult Education Teacher Lead (1996)
University of Arizona, B.A.
Chapman University, M.A.

Jesus Duarte; Director, Housing and Student Life (1993)
University of Arizona, B.A.

Darryl Duncan; Director, Computer Systems (1999)
Roane State Community College, A.A.S.

Lynn Duncan; Transfer Analyst (1999)
Roane State Community College, A.A.S.

Dori DuVall; Academic Counselor (1994)
Nova University, B.A., M.B.A.

Frank Dykstra; Director, Facilities Management
Sierra Vista Campus (1989)
West Texas State University, B.S.

Gerald Eades; Coordinator, Print Services (1993)
Kansas State College, B.S.I.T.

Shelli Echave; Database Administrator (1996)
Southern Arkansas University, A.A.S.

Debra Ellis; Director, Willcox Center (1986)
Northern Arizona University, B.S., M.Ed.

Jack Emery; Instructor, CIS (1997)
Utah State University, B.S.
Arizona State University, M.S., J.D.

Mike Erway; Instructor, Building Maintenance (1999)
Sand Hills Community College, A.A.
Troy State University, B.S.

Deborah Evinrude; Instructor, Nursing (2000)
St. Vincent School of Nursing, Diploma
Dickson State University, B.S.N.
University of Phoenix, M.S.N.

Emily Fairbank; Director, Center for
Professional Development (1987)
Cochise College, A.A.S.

Marietta Forrest; Adult Education Teacher (2001)
Pennsylvania State University, B.A.
Kent State University, M.A.

Kenneth Fox; Assistant Program Coordinator,
Ft. Huachuca (1999)
Hartnell College, A.A.
San Francisco State University, B.A.
San Jose State University, M.A.

Arnold Fuller; Instructor, Aviation Mechanics (1978)
Cochise College, A.A., A.A.S., A.S., A.G.S.
University of Nebraska, B.A.
University of Arizona, M.T.

David Gage; Accounting Supervisor (1995)
Taft College, A.A.
University of Arizona, B.S.

Mildred Galliher; Instructor, Science and Math (1970)
University of Arizona, B.S., M.S.

Richard Gill; Instructor, CIS (1994)
University of Maryland, B.A.
Golden Gate University, M.S.

Cynthia Gobel; Accountant (1983)
Cochise College, A.G.S.

Rafael Gonzales; Coordinator,
Latin American Program (1995)
Aeronautica Panamericana,
Private Pilot Course Cochise College,
Airframe Certificate, Powerplant Certificate

David Gordon; Graphic Designer (2001)
Art Center of Tucson, A.A.

Martha Green; Human Resources Analyst (1994)
Cochise College, A.A.S.

Raymond Green; Director, Aviation
Maintenance and Quality Control (1990)
Cochise College, A.A.S.

Kelly Grgas-Wheeler; Instructor, English,
Assistant Women's Soccer Coach (2000)
Ottawa University, B.A.

James A. Hall; Dean, Student Services/
Athletic Director (1983)
Cochise College, A.A.
Grand Canyon College, B.A.
University of Arizona, M.Ed., Ed.D.

Richard Hall; Instructor, Mathematics (1993)
Cochise College, A.G.S.
Oklahoma City University, B.S.
Northern Arizona University, M.Ed.

Jill Hamilton; Instructor, Nursing (1993)
University of Texas, B.S.N.
Arizona State University, M.S.

Darrell Handelsman; Assistant Head Resident,
Assistant Men's Baseball Coach (2001)
Cal State Northridge, B.A.

Paul Hollinshead; Instructor, Avionics (2000)
Lincoln Land Community College, A.A.S.

Ralph Hooten; Instructor, Electronic Repair (1998)
Central Texas College, A.G.S.
University of Phoenix, B.A., M.B.A.

Patricia Hotchkiss; Director, College Libraries (1978)
Lake Erie College, B.A.
University of Texas, M.L.S.

Charles Hoyack; Campus Dean, Douglas Campus (1988)
Instructor, History
University of Arizona, B.A.
Northern Arizona University, M.Ed.

Roberta Ibarra; Librarian (1982)
Western Washington University, B.A.
University of Washington, M.L.S.

Todd Inglehart; Instructor, HPE;
Head Baseball Coach (1999)
Saddleback College, A.A.
University of Wyoming, B.A., M.S.

Myron Jaworsky; Instructor,
Classics and Philosophy (1989)
Rutgers University, B.A.
Harvard University, M.A.
Georgetown University, M.S.

Doris Jensen; Campus Dean, Sierra Vista Campus (2000)
Graceland College, A.A.
Central Missouri State University, B.S., M.A.
University of Missouri-Kansas City, Ph.D.

Star Jermyn; Instructor, Nursing (1995)
Thomas Jefferson University, B.S.N.
University of Phoenix, M.S.N.

Katherine Johnson; Career Services Specialist,
Douglas Campus (1999)

Kenley Jones; Director, Center for Economic
Research (1992)
Mount St. Clare College, B.A.
University of Arizona, M.B.A.

Paula Jones; Instructor, Office Education (1993)
U.C.L.A. Los Angeles, A.B.
Boston University, M.Ed.

Mary Kelly; Coordinator, ADA (1996)
Cochise College, A.A.
University of Arizona, B.A.

Suzanne Kemerly; Adult Education Teacher (1999)
McNeese State University, B.A.

Laura Kerr; Adult Education Teacher Lead (2001)
Beloit College, B.A.
University of Arizona, M.A.

Joseph Klimes; Instructor, Aviation (1990)
City College of Chicago, A.A.
Western International University, B.A.

Albert Kogel; Department Head, Art,
Sierra Vista Campus
Instructor, Humanities and Fine Arts (1977)
University of Arizona, B.F.A., M.F.A.

Kris Kraly; Department Head, Languages,
Douglas Campus
Instructor, English (1996)
University of Wyoming, B.A., M.A.
University of Arizona, M.A.

Barbara Krueger; Instructor, Mathematics (1989)
New Mexico Institute of Mining and
Technology, B.S., M.S.

Kathleen Kruger; Instructor, Nursing (2000)
Mesa State College, B.S.N.
University of CO, M.S.

Charles LaClair; Instructor, Business Admin (1977)
University of Florida, B.S., B.A.
University of South Florida, M.B.A.
University of Arizona, Ph.D.

Claudia LaClair; Department Head, Business,
Office Administration, Sierra Vista Campus
Instructor, CIS (1978)
University of Arizona, B.S, M.Ed., Ph.D.

Steve Lane; Instructor, Social Sciences,
Head Women's Basketball Coach (1992)
Texas Wesleyan College, B.A.
Pepperdine University, M.A.E.

Lizabeth Lillard; Career Services Specialist,
Sierra Vista Campus (2001)
Community College at Denver, A.A.
Metro State College, B.S.

James Lively; Adult Education Teacher Lead (2001)
Okaloosa-Walton Junior College, A.A.
University of West Florida, B.A.
Arkansas State University, M.A., A.B.D.

Susan MacDonald; Director, Nursing and
Health Sciences (1992)
University of Phoenix,
B.H.S.A., B.S.N., M.B.A., M.S.N.Ed.
Triton College, A.D.N.

Regina Mangold; Director, Benson Campus (1997)
Towson State, B.S.
Western Maryland, M.Ed.

Eric Mapp; Instructor, Business Skills (1997)
Cochise College, A.S.
Lamar University, B.B.A.
Western International University, M.B.A.

Jim Martin; Instructor, Mathematics (1990)
Lenoir Rhyne College, B.A.
Appalachian State University, M.A.

Manuel Martinez; Instructor,
Humanities and Fine Arts (1974)
University of New Mexico, B.F.A.
Texas Christian University, M.F.A.

Janet Martinez-Bernal; Instructor,
English and Spanish (1979)
University of Arizona, B.A.
University of Michigan, M.A.
Georgetown University, Ph.D.

Larry McAlister; Media Specialist (1978)
University of Arizona, B.A., M.Ed.

Margeret McKay; Instructor, Journalism (2000)
Arizona State University, B.S.
Arizona State University, M.M.C.

Christine McVean; Instructor,
Office Administration, (1987)
University of Arizona, B.S.

Denise Merkel; Public Information Officer (2001)
Indiana University of PA, B.A.

William Michalek; Instructor, Psychology (1986)
Valparaiso University, B.A.
Arizona State University, M.S.
Cornell University, Ph.D.

Bruce Miller; Instructor, Aviation Mechanics (1992)
Cochise College, A & P License

Patricia Mohead; Credentials Evaluator (1987)
Cochise College, A.G.S., A.A.

Sharilyn Joanie Morris; Director,
Student Development Center,
Sierra Vista Campus (1991)
Northern Arizona University, B.S.
Arizona State University, M.C.

Alan Murray; Counselor (1992)
University of Prince Edward Island, B.A.
Francis Xavier University, B.Ed.
Columbia University, M.Ed., M.A.
University of Arizona, Ph.D.

Manuel Murrieta; Instructor, Agriculture,
Assistant Rodeo Coach (1999)

Merilyn Nance; Instructor, Behavioral Sciences (1988)
California State University, B.A., M.A.
United States International University, Ph.D.

Jeannie Neeley; Instructor, CIS (2000)
North Central State College A.A.S.
Ashland University, B.S.B.A.

Shirley Neese; Academic Support Tech (1991)
Cochise College, A.A.S., A.D.N.

David Nelson; Instructor, English (2001)
University of Hawaii, B.A., M.A.

Darrell Noble; Instructor, Aviation Mechanics (1992)
Cochise College, A.A.S.

Vincent Pachulo; Controller (1994)
University of Arizona, B.S.
Western International University, M.B.A.

Gilbert Parra; Network Manager (1994)
Cochise College, A.A.S.

David Parry; Athletic Trainer (1993)
New Mexico State University, B.S.
Ohio University, M.S.

Jennifer Patton; Department Head, CIS,
Instructor, CIS (1997)
Portland State University, B.S.

Charles Perry; Instructor, Flight (1984)
University of Denver, B.S.
The American College, M.A.

David Pettes; Associate Dean, Douglas Campus
Instructor, Sociology (1968)
Duke University, B.A.
Emory University, M.A.T.

Rebecca Pickett; Instructor, HPE and Biology,
Assistant Women's Basketball Coach (1998)
Ohawa University, B.A.

Elizabeth Poe, Instructor, ESL (1988)
University of Arizona, B.A., M.A.

Nancy Potenza; Adult Education Teacher (2001)
University of Arizona, B.A.

Lawrence Prevett; Instructor, Math (2001)
Northern Arizona University, B.S., M.S.

Debra Quick; Coordinator, Admissions (1997)
Austin Peay State University, A.A.S., B.S.

David Raber; Instructor, Custodial Services (2001)
Community College of the Air Force, A.A.S.
Southern Illinois University, B.S.

Guillermo Retana; Instructor, Spanish (1994)
University of California, Riverside, B.A., M.A.

Rebecca Richardson; Instructor, Biology (1991)
University of Pittsburgh, B.S.
Slippery Rock University, M.S.

Mark Rinehart; Instructor,
Assistant Men's Basketball Coach (2000)
Ashland University, B.S., M.Ed.

Harold Robison; Counselor (1973)
Troy State University, B.S.
University of Arizona, M.Ed.

Annie Roeben; Instructor, Nursing (2000)
University of Arizona, B.S.N.
University of North Texas, M.S.

Kim Rogalski; Instructor, Mathematics (1988)
Northern Arizona University, B.S., M.S.

Bill Saathoff, Associate Dean, Technology,
Department Head, Welding, MTT, Drafting, General Tech
Sierra Vista Campus
Instructor, Welding (1980)
Moorhead Technical Institute
Cochise College, A.A.S., A.A.

Kristi Saathoff; Director,
Marketing and Media Services (1983)
Moorhead Technical Institute

Max Schoenhals; Instructor, Drafting (1984)
University of Arizona, B.Arch.
Arizona State University, M.S.D.

George Self; Instructor, CIS (1999)
Missouri Valley College, B.S.
Troy State University, M.S.

Barbara Smith; Instructor, CIS (1989)
Purdue University, B.S., M.S.

Curtis Smith; Instructor, Spanish and ESL (1978)
Kansas State University, B.A.
University of Arizona, M.A., M.Ed.

Responsibility For Personal Property and Right To Make Changes or Correct Errors

Cochise College reserves the right to make changes without notice in fees, faculty assignments, time schedules, courses, curricula, and policies, to cancel classes when necessary, to set maximum and minimum limits for enrollments in certain classes, and to make changes to other matters contained in this catalog.

Cochise College is not responsible for loss, theft or damage to individuals' personal property.

Campus Crime Report/Alcohol-Free Workplace

According to federal statute and regulations, colleges and universities are required to prepare and distribute each year an annual security report. Within the report, colleges must set forth their policies on crime prevention and sex offenses and give statistics on the number of crimes reported on campus. Other reported crimes include the number of arrests for liquor law and/or drug violations and weapons possessions. The crime report is updated each September; the drug and alcohol free workplace report is updated each April. The reports may be reviewed at www.cochise.edu/crime_report.

EQUAL EDUCATIONAL OPPORTUNITY STATEMENT

Cochise College complies with the Family Education Rights and Privacy Act (FERPA) of 1974.

Cochise College, in support of the Civil Rights Act of 1964, Title IX of the Education Amendments of 1972, Section 504 of the Rehabilitation Act of 1972, and the Americans with Disabilities Act of 1990 (ADA) does not discriminate on the basis of race, color, national origin, sex, age or disability in any of its programs or activities.

In accordance with Section 504 of the Rehabilitation Act of 1972, and the Americans with Disabilities Act of 1990, Cochise College seeks to provide support services to those students whose disabilities require special assistance. The College makes reasonable accommodations to allow students with disabilities to participate in the educational process.

This EQUAL OPPORTUNITY policy covers admissions, accessibility, and employment in the College's programs and activities, including academic, vocational or other educational programs. Inquiries regarding equal opportunity and accommodation may be directed to the following individuals:

- Title IX: Dean of Student Services
- Equal Employment Opportunity: Executive Director of Human Resources
- Section 504 of the Rehabilitation Act of 1972: Coordinator of ADA
- The Americans with Disabilities Act: Coordinator of ADA
- Dean of Student Services
