Title: Campus Planning and Construction

The Governing Board reviews and acts on recommendations made by the College administration regarding the selection and purchase of sites and selection of consultants and architects. The Board shall review and recommend approval of building drawings and specifications, bids on construction and contract documents, and acceptance of completed buildings.

The President of the College recommends policy and procedure and advises the Governing Board on all phases of the building program, such as providing assistance and advice on the educational program, the facilities needed to carry out the program, and the development of the educational specifications and space requirements of the contemplated buildings.
