2.04 Confirmation Establishing Aviation Rates Model for FY2019-2020

The administration requested the Board adopt a motion confirming the Aviation Rates Model for the fiscal year 2019-2020.

During the July 9, 2019, Governing Board meeting, the Board approved the college president or designee the authority to establish the rates for Aviation consistent with the Veteran’s Administration (VA), the Federal Aviation Administration (FAA), and all things related to federal financial aid and bring back to the Board for ratification.

Dr. Verlyn Fick, Executive Vice President/Provost, led a brief discussion presenting the established rates for Board’s confirmation, which were provided in the board packet.

Hourly Fees for FY19/20:
- Briefings - $60
- Dual Engine - $200
- Solo Flights - $135
- FTD - $95

Course Fee Totals for FY19/20
- Private - $8,774
- Instrument - $10,582
- Commercial - $21,979
- Certified Flight Instructor - $7,186
- Multi-Engine - $4,510
- Dispatch - $750
- Flight Instructor Instrument - $4,620
- Flight Instructor Multi-Engine - $4,400

The approved course fees and hours presented meet current FAA CTO approved hours, and the approved minimums meet the VA expectations. With the continuing difficulty to meet the VA requirements, the college expects to remove the Aviation program from the list of VA approved programs next year.
The approved rates model also adopts the rates for the next three years, FY19/20, 20/21, and 21/22, which will help support financial planning for students in the program. The fee increases over the approved three-year model also will help increase revenue to offset expenses, such as fuel, instructor, mechanics, etc.
