Welcome to Cochise College

Dear students,

Thank you for choosing Cochise College! You have selected a school with an excellent reputation, and your studies will prepare you well for immediate employment or the next step in your academic journey. We are honored to serve you. The college also is embarking on a new chapter in its journey to provide accessible educational opportunities that are responsive to a diverse population and lead to constructive citizenship, meaningful careers, and lifelong learning. It is focused on enhancing the workforce by increasing the college going rate and the credential attainment rate. Part of this effort is improved services to reduce barriers to your success. In addition to attending class and completing assignments, I encourage you to take advantage of the full array of activities and services the college has to offer. These can help sharpen your focus on your future and also guide you efficiently toward completion. We wish you all the best in your educational journey here at Cochise College.

A handwritten signature in black ink, which appears to read "J.D. Rottweiler".

President

Cochise College is an equal-opportunity, affirmative-action employer and educational institution committed to excellence through diversity.

College Locations

Automotive Complex

645 State Highway 92
Sierra Vista, AZ 85635
(520) 224-5129

Automotive Complex Map -
www.cochise.edu/contact/automotive-complex/

In 2013 the automotive technology program began offering classes at the automotive complex on State Highway 92. All eleven courses of this degree are held at this facility. The automotive technology program offers degree and certificate programs, day and evening classes from full-time instructors.

Benson Center

1025 State Route 90
Benson, AZ 85602-6501
(520) 586-1981

Benson Center Map - www.cochise.edu/contact/benson-center/

The Benson Center is a 13,000-square-foot facility that includes classrooms, computer labs, a learning center and interactive television capabilities. For-credit, developmental, and personal interest classes are offered in the day and evening. Full-time staff assists students with admissions, registration, placement testing and financial aid.

Douglas Campus

4190 West Highway 80
Douglas, AZ 85607-6190
(520) 364-7943

Douglas Campus Map - www.cochise.edu/contact/douglas-campus/

The Douglas Campus is located in a scenic area between Douglas and Bisbee and serves approximately 1,000 students each semester with a diverse curriculum of general education, transfer and direct employment programs, and adult education classes. The campus includes residence halls, an on-campus airport and athletic facilities.

Douglas Prison

ASPC-Douglas
6911 North BDI Boulevard
Douglas, AZ 85607
(520) 364-7521, Extension 34130

Cochise College provides an opportunity for incarcerated students to further their educational goals by offering career and technical education programs at the Douglas prison. Full-time correctional education faculty teach classes that provide

incarcerated students with valuable knowledge and marketable skills necessary for them to contribute positively to their families and communities.

Downtown Center

2600 East Wilcox Drive
Sierra Vista, AZ 85635
Downtown Center Map -
www.cochise.edu/contact/downtown-center/

In 2016, Cochise College began offering classes in a new facility on Wilcox Drive in downtown Sierra Vista. The Downtown Center offers degrees and certificates in nursing and health sciences, online, culinary arts and electronics technology. The center also provides continuing education classes and entrepreneurial advising through the Center for Lifelong Learning and Small Business Development Center.

Fort Huachuca

Army Education Center
Building 52104
Fort Huachuca, AZ 85613-6000
(520) 533-2391
Fort Huachuca Center Map - www.cochise.edu/contact/fort-huachuca-center/

The Cochise College office on Fort Huachuca (Building 52104) provides advising and student services to military students and their families as well as civilians who can access Fort Huachuca. Classes are usually offered in eight-week sessions and meet in the classrooms at the Fort Huachuca Center (Building 67601).

Nogales Center* (through December of 2018)

870 W. Shell
Nogales, AZ 85621
(520) 287-5583
Nogales Center Map - www.cochise.edu/contact/nogales-center/

As of July 2017 Cochise College is no longer enrolling new students at our Santa Cruz Center; however, we are offering classes to enable our current students to complete their degrees. Students should contact the center staff for more information.

Sierra Vista Campus

901 North Colombo Avenue
Sierra Vista, AZ 85635-2317
(520) 515-0500

Sierra Vista Campus Map - www.cochise.edu/contact/sierra-vista-campus/

The Sierra Vista Campus is located at the eastern edge of Sierra Vista, approximately one mile northeast of the junction of state highways 90 and 92. The Sierra Vista Campus serves about 2,000 students each semester with a diverse curriculum of general education, transfer and direct employment programs, and adult education classes.

Willcox Center

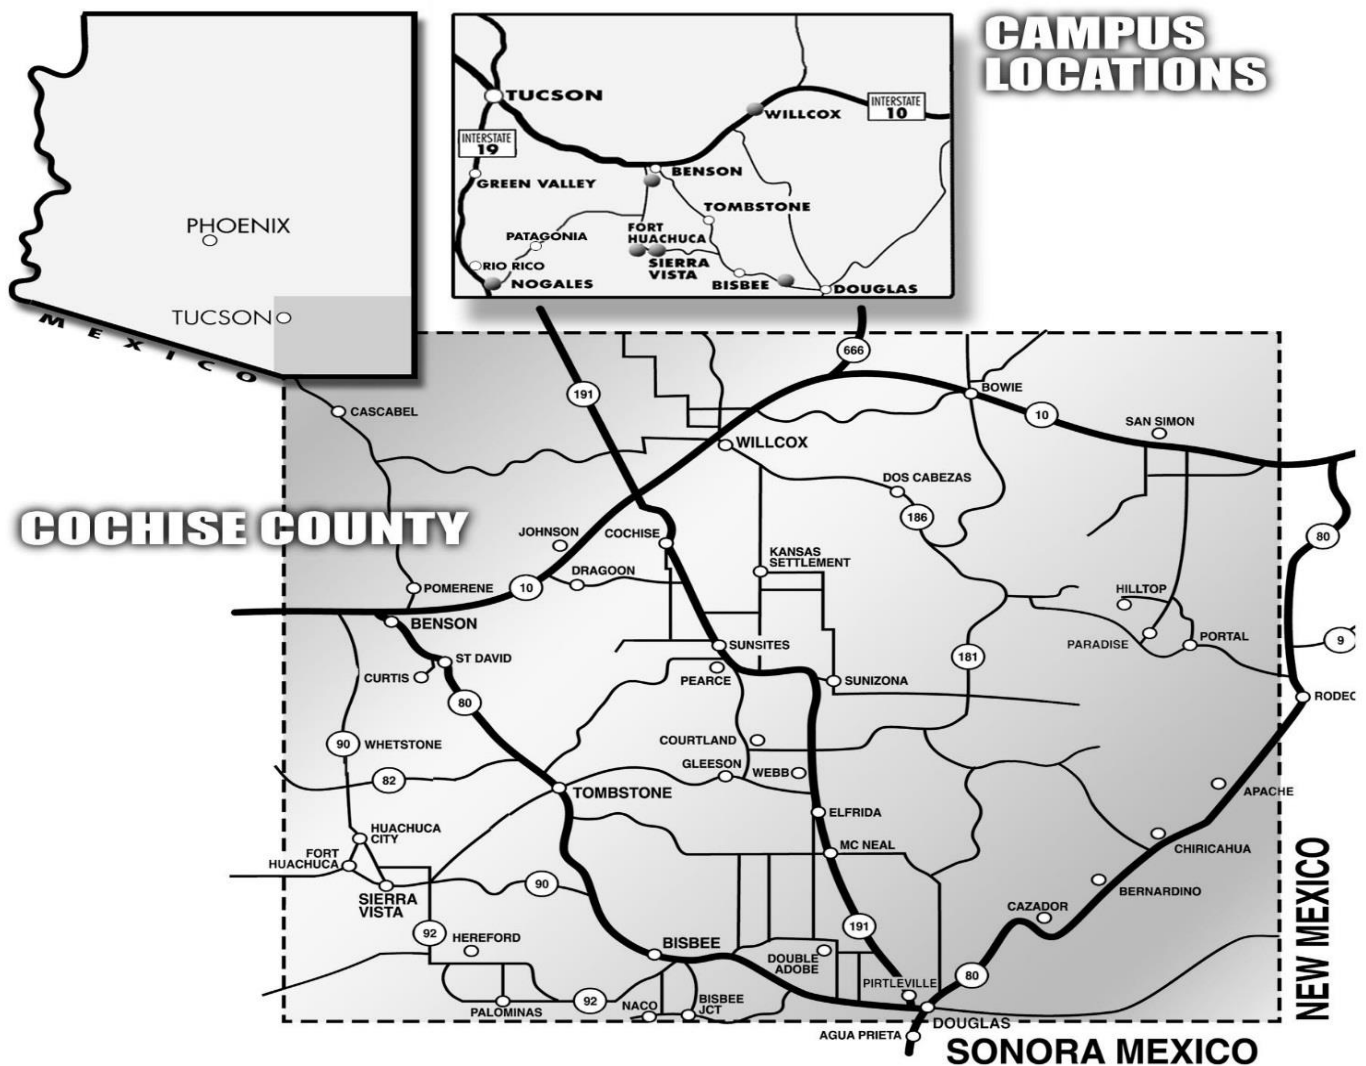

470 N. Bisbee Ave.
Willcox, AZ 85643-1500
(520) 384-4502

Willcox Center Map - www.cochise.edu/contact/willcox-center/

The Willcox Center is located on Willcox Unified School District property near the community high school. The center, serving approximately 200 students with day and evening classes, opened in 2010 with several classrooms, computer and science labs, open study space, and interactive television capabilities. Full-time staff assists with admissions, registration, placement testing and financial aid.

**Cochise College is no longer accepting new student applicants for the Santa Cruz Center. The college will offer a teach-out plan for existing Santa Cruz Center students in order to provide them equitable treatment.*

Martin Luther King Day	January 21
Lincoln/ Washington Presidents' Day	February 18
Spring Break	March 11 - 15

General Information

HISTORY

Cochise College opened its doors in 1964 as one of the first community colleges in Arizona. It is located in an area rich in history and cultural diversity and has come a long way from its humble beginnings, when the administration offices were housed in the Gadsden Hotel in Douglas.

From the beginning, the college has been committed to serving citizens throughout Cochise County. It has since extended its service area to neighboring Santa Cruz County through an agreement with the Santa Cruz County Provisional Community College District. Cochise College is Arizona's largest rural community college, serving approximately 15,000 students annually.

The establishment of the college can be attributed to the efforts of the dedicated citizens of Cochise County, who voted in 1961 to create a community college district. A 1962 bond election resulted in the construction of the Douglas Campus, a 540-acre facility featuring unique architecture and panoramic views of the Mule and Chiricahua mountains, as well as neighboring Sonora, Mexico.

The population growth of Fort Huachuca and Sierra Vista and the increased interest in higher education created a need for a second campus in the western part of the county. The campus in Sierra Vista evolved from a handful of temporary buildings at Buena High School in the early 1970s to the full-fledged separate campus that opened its doors to classes in 1978 at its present location on North Colombo Avenue. In partnership with Fort Huachuca, Cochise College also occupies a facility on post, providing classes and support services to active military and community-based residents.

The Benson Center opened in fall 2000 in the northwestern part of Cochise County. The Willcox Center opened in 2010 on Willcox Unified School District property in northeastern Cochise County. These centers provide a variety of programs and services throughout the region.

The development of community-directed services has included the Center for Lifelong Learning, the Small Business Development Center, the Virtual Campus, the Correctional Education Division, Adult Education, and the Center for Economic Research. The college has increased its offering of educational programs while expanding partnerships with K-12 schools, universities and local industries.

In recent years, the college has put significant resources toward facility renewal projects across the district. On both its Douglas and Sierra Vista campuses, new construction and major renovations provide space to meet the needs of 21st-century learners and educators. In addition, the college has made major technology investments in its classrooms and support areas.

Cochise College continues its journey as a learning community. This direction focuses on teaching and learning, access and diversity, and the use of technology and innovative instruction.

ACCREDITATIONS AND CERTIFICATIONS

Cochise College is accredited by the Higher Learning Commission of the North Central Association. In 2015, the college received the maximum accreditation of 10 years; the next re-accreditation visit will be in 2025-2026. The college holds memberships in the Council of North Central Two-Year Colleges, the American Association of Community Colleges, the Hispanic Association of Colleges and Universities (HACU), and the Association of Community College Trustees.

The professional pilot program is certified by the Federal Aviation Administration under 14 CFR Part 141.

GOVERNANCE

The college district is governed by a five-member governing board elected from precincts in Cochise County:

Mr. Danny Ortega Jr., Chair

Mr. David Di Peso, Secretary

Mrs. Jane Strain, Member

Mr. Tim Quinn, Member

Mr. Dennis L. Nelson, Member

The college is financed by legislative appropriation, a countywide tax levy and student tuition.

FOUNDATION

The Cochise College Foundation is a private, community-based nonprofit organization that is fiscally and organizationally separate from the college. Its mission is to promote student success, facilities development and program support. The foundation was established on March 20, 1967 and is recognized as a 501(c)(3) nonprofit organization (income tax-deductible) by the Internal Revenue Service and the Arizona Corporation Commission.

The foundation board of directors has a countywide membership. The foundation provides thousands of dollars in scholarships to Cochise College students each year and has assisted the college with several capital projects and academic program support. The foundation accepts monetary gifts, property, gifts-in-kind or other items of value bequeathed or donated for the benefit of the college. The Cochise College Foundation can be reached at (520) 417-4100 or foundation@cochise.edu.

MISSION, PHILOSOPHY, VISION AND VALUES

Mission

Cochise College provides accessible educational opportunities that are responsive to a diverse population and lead to constructive citizenship, meaningful careers and lifelong learning.

Philosophy

Cochise College provides post-secondary education and educational support services to students interested in and capable of benefiting from programs of higher education. The college prepares students for a successful life beyond the college by promoting the principles of general education as set forth in the college's general education mission statement. Students should leave Cochise College with varied learning experiences and an understanding of the diversity of life. The college makes students aware of their ethical responsibilities to the community, the environment and their fellow human beings. The college provides educational opportunities, resources and programs tailored to changing social, economic and technological needs.

Vision

Cochise College strives to be a learning community held in high esteem by members of its communities, providing high-quality learning opportunities for its citizens.

A learning community

- Places its highest priority, resources and energy on learning.
- Creates an environment and experiences, real or virtual, that encourage students to be active members of the learning community.
- Makes learning possible not only in the classroom but outside, through a myriad of activities and experiences, using any number of tools to enhance learning.
- Extends learning not only to students but to all members of the college community so that a feeling of collegiality abounds.
- Empowers students, faculty and staff to create a personally meaningful learning environment, where each accepts responsibility for contributing to the same.

Core Values

In all that we do—in teaching, learning and serving—we value quality, integrity, and diversity.

Quality: We commit to a quest for excellence and strive to achieve our highest potential.

Integrity: We base our decisions and interactions on honesty, trust, respect, responsibility, accountability, and ethical behavior.

Diversity: We respect differences between and among members of the community by embracing and encouraging the expression of ideas, opinions, and thoughts exchanged freely, respectfully, and civilly.

Getting Started

CAMPUS TOURS

Cochise College encourages new and prospective students to visit its campuses and centers. Tours for all campuses can be scheduled through the Recruiting Office by calling (520) 515-8753 or requested online at www.cochise.edu/contact/tours. The Recruiting Office arranges tours on an individual or group basis. Tours may include student leaders sharing their experiences at Cochise College and opportunities to meet faculty from various departments.

ADMISSION

Admission Criteria

Anyone who meets one of the following criteria will be admitted:

1. A graduate of a high school that is accredited by a regional accrediting association as defined by the United States Office of Education or approved by the Arizona Board of Education or the appropriate state educational agency;
2. An individual with a high school certificate of equivalency such as a GED;
3. A person 18 years or older on or before the first day of classes for which application is made;
4. A transfer student in good standing from another college or university; or
5. A high school student with a concurrent registration form signed by the designated school official and a parent.

Additional admission criteria are required for international, aviation, nursing, transfer and concurrent high school students.

Admission Procedures

Students will be admitted to Cochise College after the Admissions Office has received and approved their application for admission.

Border commuters and international students must submit an international student application and fee.

All applicants under the age of 18 must submit either an official high school transcript or GED certificate with test scores before registration is permitted. High school transcripts should be sent directly by the sending institution to the Admissions Office. Official transcripts carried by the applicant cannot be accepted if previously opened.

All applicants applying for admission to the aviation or nursing programs, those participating in athletics, or those who wish to live in the residence halls at the Douglas Campus must complete the Student Health Record: Part II. The college reserves the right to require a physical examination or

immunizations when deemed necessary by a particular college instructional program.

Re-Admission

Students who have been absent from Cochise College two semesters or longer will need to re-apply for admission prior to the beginning of the semester for which they desire to enroll.

TRANSFER TO COCHISE COLLEGE

Prospective students who have attended other regionally accredited colleges and universities must have official copies of their academic records sent to the Registration Office.

Accredited higher-education institutions are those that are accredited by the New England Association of Schools and Colleges, Middle States Association of Colleges and Schools, North Central Association of Colleges and Schools, Northwest Association of Schools and Colleges, Southern Association of Colleges and Schools and Western Association of Schools and Colleges.

Transfer of college- or university-level courses will be accepted from non-regionally accredited institutions that are listed in the latest edition of the Higher Education Directory, a directory of postsecondary, degree-granting institutions in the U.S. and its possessions and territories accredited by regional, national, professional and specialized agencies recognized as accrediting bodies by the U.S. Secretary of Education and by the Council for Higher Education Accreditation (CHEA). Students who are requesting an evaluation of transcripts for the purpose of seeking a Cochise College degree must have submitted an admissions application to create a student record.

The following regulations govern the acceptance of academic credit from other institutions:

1. Courses accepted for transfer-in credit must have been completed with a grade of C or better.
2. Cochise College may grant academic probation to students who transfer in with an earned grade point average (GPA) below 2.0.
3. Students who have been academically dismissed from another higher-education institution may not attend Cochise College for one full semester after dismissal.
4. At the discretion of the Aviation Department, a professional pilot candidate who transfers to Cochise College may receive credit for previously earned certificates and ratings if he/she completes at least one Cochise College flight course resulting in a certificate or rating.
5. Grade point averages earned at other institutions are not calculated with GPAs earned at Cochise College.

6. College transcripts must be mailed directly or sent electronically by the sending institution to the Registration Office. Official sealed transcripts carried by the applicant are acceptable.
7. Evaluation and posting of credits occurs once a student has been admitted to Cochise College. Students may not request an official Cochise College transcript until they have registered for and completed at least three credits of Cochise College coursework with a grade designation of A, B, C, D, F, P or AU (audit).

ACADEMIC RENEWAL - FORGIVENESS

Academic renewal/forgiveness allows a student who previously attended Cochise College to have selected grades (D, F and/or WF) excluded from the calculation of the grade point average (GPA). A student returning to the college after an absence of at least three years and has completed 12 or more credits with a minimum GPA of 2.00 following re-enrollment is eligible to pursue academic renewal/forgiveness. Contact the Admissions & Registration Office for more information.

STUDENT IDENTIFICATION AND EMAIL

Identification Number

Disclosure of social security numbers to Cochise College is voluntary and not required by either statute or regulation; however, social security numbers will aid in matching current and future academic records with any past records, ensuring that full credit is received for all academic work completed at Cochise College. If students decline to provide their social security number, opportunities for claiming tuition on taxes will not be available through the American Opportunity and Lifetime Learning Credits (Form 8863).

Students, faculty, and staff are assigned individual identification numbers—not identical to their social security numbers—during the admission and/or hiring processes. The student identification number, which is sent by mail and email to new students, is used to obtain most services provided by the college; however, a student's social security number may still be required for some services, such as financial aid and reporting education tax credit information to the federal government.

Email

Cochise College's email system is recognized as an official mode of communication between the college's faculty, staff, and students. Email accounts are free and provide a way to receive college news and other notifications. Login at my.cochise.edu to access a college email account.

ADMISSION OF INTERNATIONAL STUDENTS

Steps to Apply

International students are persons who are not citizens or residents of the United States of America who enter the US for the purpose of studying at a US educational facility.

International students require a student visa to enter the US for the purpose of studying.

The following must be submitted 60 days prior to the start of the semester in which the applicant plans to enroll:

1. Complete international application for admission online at www.cochise.edu/international
2. A non-refundable \$75.00 application fee
3. A copy of the identification page of the passport
4. The Financial Guarantee Form providing proof of funding for one academic year for college and living expenses.
5. College transcripts, certified and translated to English

Mail transcript(s) to:

International Student Office
COCHISE COLLEGE
4190 W. Highway 80
Douglas, AZ 85607

6. International transfer students: Provide all items listed above and also items listed below.
 - a. International students transferring from a college or university within the United States are required to inform their current institution the intent to transfer to Cochise College and submit a Transfer Authorization form
 - b. A copy of current F-1 student visa and I-20 issued from a U.S. educational institution
7. Student health record
8. Proof of U.S. medical/accident insurance or purchase insurance upon arrival at Cochise College
9. Complete and submit online Housing application with \$150 USD deposit

Border Commuter Students

Border commuter students from Mexico are permitted to attend Cochise College part time or full time. These students must apply for an F-1 student visa 120 days prior to attending. The Form I-20 will be issued to students once the following documents have been submitted to the International Student Office:

1. Complete international application for admissions online at www.cochise.edu/international
2. A non-refundable \$20.00 application fee
3. A copy of the identification page of the passport
4. The Financial Guarantee Form providing proof of funding for one academic year for college and living expenses
 - Full-time students \$2,560 USD
 - Part-time \$1,290.00 USD
5. Official high school transcripts, or certificate or diploma, with English translation

6. Student Health Record
7. Sonora Agreement form (if applicable)

Information on obtaining an F-1 international packet is available at www.cochise.edu/sonora or www.cochise.edu/international or from the International Student Office at (520) 417-4050 or (800) 966-7943.

Additional Requirements

International students must attend fall and spring semesters and take at least 12 credits hours each semester. International students are not permitted to enter the U.S. 30 days prior to their start of date on their SEVIS Form I-20. All international students are required to meet with a Designated School Official (DSO) immediately after arriving on campus to receive individual guidance. The DSO gives assistance to students in meeting U.S. Immigration and Customs Enforcement requirements concerning visas, passports, permits, permission to work, and related matters. Students are also assisted in making academic, social, and environmental adjustments to campus and community life. International students must carry medical insurance while studying and living in the U.S.

OFFICE OF DISABILITY SERVICES

The Office of Disability Services assists students in the spirit of the Americans with Disabilities Act of 1990 and Section 504 of the Rehabilitation Act of 1973, and most recently, the ADA Amendments Act of 2008. Cochise College Disability Services supports students in discovering and developing their full potential by providing support services to students who may need reasonable accommodation or adjustment in order to achieve academic success.

To be eligible to receive an accommodation from Disability Services, a student must be enrolled at Cochise College and have a mental or physical impairment that substantially limits a major life activity. The disability must be verified by appropriate documentation, which means a professional in the area of the disability must document the nature and severity of the disability. Professionals may include medical doctors, psychiatrists, psychologists, and learning specialists. An appointment must then be made with the Director of Disability Services for the student to complete the intake process necessary to request services and accommodations. Students who need accommodations for placement testing should contact the Office of Disability Services prior to testing. In addition, community members who attend functions at Cochise College campuses and centers who have a qualifying disability under the Americans with Disabilities Act may also schedule an intake appointment to discuss accommodations. Additional information is available at (800) 966-7943 or www.cochise.edu/disability or by calling the Office of Disability Services at (520) 515-5337 or completing the Request for Accommodations Form which is located on the department webpage.

RESIDENCY REQUIREMENTS

Proposition 300 Tuition Assessment

Cochise College's registration procedure for credit classes complies with the requirements of Proposition 300. Approved by Arizona voters in November 2006, Proposition 300 requires verification of eligibility for in-state tuition rates for U.S. citizens and qualifying legal immigrants.

The law does not prevent anyone from enrolling at Cochise College. It does require that students who are not citizens or legal residents pay out-of-state tuition rates. The law further states that persons who are not citizens or legal residents are not entitled to tuition waivers, fee waivers, grants, scholarship assistance, financial aid, tuition assistance, or any type of financial assistance that is subsidized with state monies. A list of qualifying documents to verify eligibility for in-state tuition is available online at www.cochise.edu/tuition. Documentation can be returned to the Registration Office or scanned and emailed to the attention of the registrar at adm@cochise.edu or reg@cochise.edu. Call (800) 593-9567 for more information.

Each applicant shall have legal residency determined prior to the time of registration and payment of fees. It is the student's responsibility to register under the correct residence determination. Enforcement of residency requirements and regulations are the responsibility of the Cochise College president.

Appeal of residency interpretation or judgments rendered by the college administration shall be handled through appeal channels as established by the district governing board in accordance with the Arizona Revised Statutes, which determine classification for tuition purposes.

Definitions

Arizona Revised Statutes (ARS 15-1801 et seq.) and Cochise College policies determine classification for tuition purposes.

Adult means a person who is 18 years of age or older.

Armed Forces of the United States means the Army, the Navy, the Air Force, the Marine Corps, the Coast Guard, the Commissioned Corps of the United States Public Health Services, and the National Oceanographic and Atmospheric Association. (ARS 15-1801)

Continuous attendance means enrollment at an educational institution in this state as a full-time student, as such term is defined by the governing body of the educational institution, for a normal academic year since the beginning of the period for which continuous attendance is claimed. Such person need not attend summer sessions or other such intersession beyond the normal academic year in order to maintain continuous attendance. (ARS 15-1801)

Domicile means a person's true, fixed and permanent home and place of habitation. It is the place where he/she intends to remain and to which he/she expects to return when he/she leaves without intending to establish a new domicile elsewhere. (ARS-15-1801)

State resident means a person who is domiciled in the State of Arizona for not less than one year or 365 days. (ARS 15-1802)

County resident means a person who is domiciled in the State of Arizona for not less than one year and who has been physically present in the county for at least 50 days prior to the first day of classes of the semester. (R7-1-23)

Dependent means any person (son, daughter, or legal ward) who receives more than half of his/her support for the calendar year from a parent or guardian, as documented on the federal income tax form, and who is domiciled in Arizona.

Alien means a person who has been granted refugee status in accordance with all applicable laws of the United States, has met all other requirements for domicile, and who is entitled to classification as an in-state refugee student.

Emancipated person means a person who is neither under a legal duty of service to his/her parent nor entitled to the support of such parent under the laws of this state. (ARS 15-1801)

Parent means a person's father or mother, or if one parent has custody, that parent. Or, if there is no surviving parent or the whereabouts of the parents are unknown, then a guardian of an unemancipated person (if there are no circumstances indicating that such guardianship was created primarily for the purpose of conferring the status of an in-state student on such unemancipated person). (ARS 15-1801)

Residency Status

In-State Status

Except as otherwise provided in this catalog, no person having a domicile elsewhere than in this state is eligible for classification as an in-state student for tuition purposes. (ARS 15-1802)

A person is not entitled to classification as an in-state student until he/she is domiciled in this state for one year, unless he/she meets one of the following requirements:

1. His/her parent's domicile is in this state for not less than one year and his/her parent is entitled to claim him/her as an exemption for state and federal tax purposes.
2. He/she is an employee of an employer that transferred him/her to this state for employment purposes or he/she is the spouse of such employee.
3. The domicile of an unemancipated person is that of such person's parent. Any unemancipated person who remains in this state when such person's parent, who had been domiciled in this state, moves from this state is entitled to classification as an in-state student until attainment of the degree for which currently enrolled, so long as such person maintains continuous enrollment.
4. A person who is a member of the armed forces of the United States stationed in this state pursuant to military orders, or who is the spouse or dependent child as defined in section 43-1001 of a person who is a member of the armed forces of the United States stationed in this state pursuant to military orders. The student, while in continuous attendance toward the degree for which

currently enrolled, does not lose in-state student classification.

5. A person who is honorably discharged from the United States armed forces and provides a DD Form 214 with honorable discharge notation.
6. A person who is a member of an Indian tribe recognized by the United States Department of the Interior, whose reservation land lies in this state and extends into another state and who is a resident of the reservation.

Proof of Residency

Students must file a domicile affidavit with the Admissions Office verifying continuous residency in the state for a 12-month period. At least three of the following items will be used to establish proof of residency:

1. Filing of state income tax report for the previous year
2. Current registration of motor vehicle in Arizona
3. Current registration as a voter in the state
4. Arizona driver's license issuance date
5. Graduation from an Arizona high school
6. Bank statement (checking or savings) from an Arizona banking institution
7. Source of support (employer)
8. Dependency as indicated on federal income tax declaration for dependents.

Concurrent Enrollment: Nonresident Tuition

It is unlawful for any nonresident student to register concurrently in two or more public institutions of higher education in this state, including any university or community college, for a combined student credit-hour enrollment of more than six semester hours without payment of nonresident tuition at one of such institutions.

Any nonresident student desiring to enroll concurrently in two or more public institutions of higher education in this state, including any university or community college, for a combined total of more than six semester hours and who is not subject to nonresident tuition at any of such institutions shall pay the nonresident tuition at the institution of his/her choice. The amount will be equivalent to nonresident tuition at such institution for the combined total of semester hours for which the nonresident student is concurrently enrolled. (ARS 15-1807)

ENROLLMENT VERIFICATION

Students requesting verification of their enrollment for any purpose, such as life insurance or loan deferment, must do so in person at the Registration Office at any time after the start of a semester. Enrollment verification is free of charge and processed within 48 hours of receiving the request. The National Student Clearinghouse is Cochise College's authorized agent for providing degree and enrollment verifications at www.degreeverify.org.

FAMILY EDUCATIONAL RIGHTS AND PRIVACY ACT (FERPA)

Cochise College shall not permit, without the written consent of the student, the disclosure of information from educational records—or personally identifiable information contained therein—other than directory information, to any individual, agency, or organization other than in specific situations as outlined by the Family Educational Rights and Privacy Act of 1974, its amendments and the final rule of the U.S.

Department of Education. Students may withhold disclosure of any directory information by submitting written notification to the Admissions Office prior to the first day of classes each semester. Failure on the part of any student to specifically request the withholding of directory information indicates individual approval for disclosure. One exception which permits disclosure without consent is disclosure to school officials with legitimate educational interests. A school official is a person employed by Cochise College in an administrative, supervisory, academic, research, or support staff position (including law enforcement personnel and health staff); or a person or company with whom Cochise College has contracted (such as an attorney, auditor, collection agent, or official of the National Student Clearinghouse).

Cochise College designates the following items as directory information: student name, major field of study, participation in officially recognized activities and sports, dates of attendance, degrees and awards received and most recent previous school attended. The college may disclose any of those items without prior written consent, unless notified in writing to the contrary by the student in advance of any request.

Money Matters

PAYMENT OF TUITION AND FEES

All fees approved by the governing board are subject to change. Tuition and fee information is available from the Admissions Office, the Business Office or at www.cochise.edu/tuition.

Class schedules include specific registration and payment dates. All tuition and fees are due as the final step in the registration process. Cochise College accepts checks or credit card payments.

If a check is returned unpaid, students will be assessed a service fee and dropped from all classes. If tuition and fees are not paid in full on or before the due date, students will be dropped from all classes and will be prohibited from any future registration. Past due accounts may be turned over to a collection agency and students are liable for any collection or attorney fees.

If students have been approved to receive financial aid, it will be applied to their accounts. If the financial aid award does not cover the amount owed, students need to pay their remaining balance. If the financial aid is more than the amount owed, students will receive a refund.

TUITION

In-state	\$85 per credit
In-state differential tuition (per credit hour) for NUR and PFT	\$119 per credit
Out-of-state 1-6 credits	\$128 per credit
Out-of-state over 6 credits (retroactive to first credit)	\$260 per credit
Out-of-state differential tuition for NUR and PFT	\$379 per credit
Student without Prop 300 documentation	\$260 per credit
Online courses	\$118 per credit
Online out-of-State (per credit hour)	\$133 per credit
Co-op education courses	\$43 per credit
New Mexico Tuition Waiver (NMW)*	\$85 per credit
NMW differential tuition (per credit hour) for NUR and PFT	\$119 per credit
Western Undergraduate Exchange Tuition (WUE)**	\$128 per credit

WUE differential tuition (per credit hour) for NUR and PFT \$179 per credit

Golden Apache (county resident 60+ years):

Regular course	\$43 per credit
Online courses	\$59 per credit

*A special tuition agreement exists for full-time students between Cochise College and Western New Mexico University. Information is available from the Admissions Office.

**Cochise College is a member of the Western Undergraduate Exchange (WUE) program. Residents of Alaska, California, Colorado, Hawaii, Idaho, Montana, Nevada, New Mexico, North Dakota, Northern Marianas Islands, Oregon, South Dakota, Utah, Washington or Wyoming should contact the Admissions Office for eligibility.

Special Tuition Rates

Special tuition rates are available to students, including those from Sonora who want to study at Cochise College. Information is available at www.cochise.edu/tuition/waiver.

FEES

Tuition payment plan fee (e-cashier)	\$35
Accuplacer testing retest - one subject	\$15
Accuplacer testing retest - two subjects	\$20
Accuplacer testing retest - three subjects	\$25
Proctor fee - one exam	\$20
Proctor fee - one course	\$30
CLEP proctor fee	\$25
DSST proctor fee	\$25
Credit by examination (per credit hour, non-refundable)	\$77
Myers-Briggs	\$20
Strong Interest Inventory	\$15
Other testing services	\$20
Placement scores (faxed)	\$10
MOS credentialing fee	\$60
Transcripts (official)	\$10
Transcripts (overnight)	\$75
Returned check fee (for each returned item)	\$50
Check re-issuance fee	\$50
Airport tie-down fee (per month)	\$100

Replacement of ID card or meal card	\$10
Border commuter application fee	\$20
International student application fee	\$75
International student illness/accident insurance	TBD

Fees are subject to change. The full tuition and fees schedule is at www.cochise.edu/tuition.

ON-CAMPUS LIVING

Rooms

Residence halls — Huachuca Hall (single occupancy) and Desert View Townhouses (double occupancy) — are available on the Douglas Campus. Room and board (meals) are combined. Students who live in single or double occupancy residence halls must participate in the meal program. Residents have access to Internet, laundry facilities, free cable, and local telephone services. Payment for room and board is due at registration or by the last day to add classes. On-campus residents must comply with rules and regulations as they appear in the residence hall contracts and the student handbook, as well as local, state and federal laws. The Residential Life Office can be reached at (520) 417-4062.

Deposit

Residence hall	\$150*
----------------	--------

*A refundable deposit required with the housing application that does not apply toward room and board fees and is refunded less any amounts due to the college for damages or other charges.

Regular Student – 17 Weeks

Meal program	\$2,481
Room rate	\$1,155

Combined Rate

Meal plan and housing with 16 or more credit hours of enrollment	\$2,481
Meal plan and housing with 12-15 credit hours of enrollment	\$3,196

Professional Pilot – 21 Weeks

Meal plan	\$3,046
Room rate	\$1,430

Combined Rate

Meal plan and housing with 16 or more credit hours of enrollment	\$3,046
Meal plan and housing with 12-15 credit hours of enrollment	\$3,820

REFUNDS

Tuition and Fee Refunds

Students must be signed up for a class the day prior to the course start date. To receive a full refund for a dropped course, it must be dropped prior to the start of the term. Students who drop a class within the first week of the term will be refunded 90 percent of their tuition. The refund can be applied to a new course added to their schedule as long as the new class has not met yet. No refund is available after the 90-percent refund window closes.

If a class is canceled by the college, students will receive a full refund for all tuition and fees. Refunds are issued within three weeks after the end of registration. Students may enroll in another class and apply the tuition and fees from the canceled class to a new class.

All refunds for tuition, fees, and deposits due to a student will first be applied to any amounts owed to the college. Sufficient time must be allowed for final clearance of fee payment checks before refunds are made.

Residence Hall Refunds

Students are eligible for a 50-percent refund of room fees if leaving residence within 21 days of the first day of classes for each semester or within 21 days of the start date of a specific program in which they are enrolled. Room fees will not be reimbursed after the 21st day as specified above.

Students withdrawing from the college may be eligible for a meal plan refund, prorated on a weekly basis, up to four weeks after the start of the 17-week term. Students who are enrolled in only a first or second eight-week term will be charged a prorated meal plan rate of 50 percent of a full 17-week meal plan. Departing eight-week-only students are eligible for refunds, prorated on a weekly basis, up to two weeks after the eight-week term begins. Any refund exceptions to this policy must be made in writing to the dean of Student Services and must contain the rationale for the request along with any documentation requested by the dean. Requests for exceptions to this policy will not be accepted by the dean after 15 working days from the departure of the student.

Flight Program Fees Refund

Students must register and have funding for the Cochise College Flight Program(s) (Private Pilot Certificate; Instrument Rating; Commercial Certificate; Certified Flight Instructor Certificate; CFI Instructor Rating; Multi-engine Rating; and Jet Transition Training) two weeks prior to the start date. Students who drop prior to the start of the fall term will receive a full refund of their flight program fees. After the start of the each term (Semester), students who withdraw/or are dropped; are eligible for a refund of the flight program fees and will be paid according to the following schedule:

Week of each Semester	% of Refund
Weeks 1-3	80%
Weeks 4-6	65%
Weeks 7-9	50%
Weeks 10-12	35%
Weeks 13-15	15%

Weeks 16-21 0%
There is no refund available after the 15th week.

Federal Title IV Financial Aid Refunds

The Federal Pell Grant, Supplemental Educational Opportunity Grant (SEOG), and Federal Direct Student Loan programs are subject to this repayment provision. Students who completely withdraw before completing 60 percent of the term are subject to this policy and may owe a repayment of the unearned portion of their grant funds. Students have 45 days to return the funds to Cochise College. If repayment is not made during the 45 days, the repayment owed will be turned over to the Department of Education for collection. Once a repayment is turned over to the Department of Education, eligibility for additional federal aid is suspended until satisfactory payment arrangements are made.

The Federal Pell Grant and Supplemental Educational Opportunity Grant (SEOG) programs are subject to this repayment provision. Students who have received student loan funds are responsible for completing an exit interview and for notifying their lender of the withdrawal. The federal work-study program is not subject to the refund policy.

The withdrawal date is the date:

- The student began the withdrawal process prescribed by the institution;
- The student otherwise provided the school with official notification of the intent to withdraw; or
- The last date the student academically participated in the course.

The percentage of the payment period or period of enrollment completed for which assistance was awarded is calculated by dividing the total number of calendar days comprising the payment period or period of enrollment for which the assistance is awarded into the number of calendar days completed in that period as of the day the student withdrew. Additional policy and regulatory information is available from the Financial Aid Office.

FINANCIAL AID, SCHOLARSHIPS AND GRANTS

Students applying for financial aid at Cochise College must be admitted into an eligible degree or certificate program of study and must meet any other eligibility requirements for each program.

Official academic transcripts are required of all transfer students. Transcripts are evaluated and restricted enrollment enforced when applicable. Students who have not met the college's academic standards (2.0 GPA and completion of 67 percent of classes attempted) at the prior institution(s) will be evaluated with the same probation and suspension standards currently in place for Cochise College students. Students who

consistently have received W and F grades may be required to complete a progress appeal.

Cochise College provides access to federal, state, and institutional financial aid through the Financial Aid Office. A number of institutional and private scholarship applications are also available. Financial aid may be awarded based on financial need, academic merit, athletic ability, or community service. The application process for most of the programs begins with completion of the Free Application for Federal Student Aid (FAFSA). Students complete the FAFSA online at www.FAFSA.gov. To assist in completing the online application, a FAFSA worksheet is available online or from the Financial Aid Office. Priority consideration for some grants is given to applications received in the Financial Aid Office by May 31.

Federal Pell Grants

A federal Pell Grant, unlike a loan, does not have to be repaid. It is restricted to undergraduate students. Eligibility is established by the federal government, and the grant is targeted to students with high need. The award adjusts to students' actual enrollment status. Students never attending a course or withdrawing from all of their courses could face repayment of all received Pell Grant monies.

Federal Direct Loans (Stafford Loans)

Low-interest student loans are available to help meet educational expenses. The loans must be repaid. Students must be enrolled in a minimum of six credit hours during a term (including eight-week terms) to be eligible. Loans can also be obtained by students who do not demonstrate a need. A student must complete loan entrance counseling, the master promissory note, and a direct loan request form before a student loan can be certified.

Work-Study Program

The work-study program offers students an opportunity to work up to 16 hours per week to assist with college expenses. Many of these jobs are career related and offer flexible work schedules. Students must be enrolled at least half time, have a minimum 2.0 GPA, and maintain Satisfactory Progress to qualify for these jobs. Work-study jobs are available both on and off campus. Information on student employment is available from the Human Resources Office.

Veterans Affairs

The Veterans Affairs Office is located within the Financial Aid Office on the Sierra Vista Campus. Information concerning attendance, benefits, and procedures is available. All veterans are advised to maintain close contact with the college's certifying official.

Veterans receiving VA benefits are required to immediately report to the college's certifying official when they add a course, drop a course or withdraw from college. Dropping or reducing enrollment may result in an overpayment of benefits by the VA and veterans may be required to repay all the money received during that term.

Veterans at Cochise College may register and have their classes put on hold to allow for payment to be made by the VA or the veteran. When a veteran enrolls they must notify the VA Office, by submitting a Semester Benefit Request form, the day they enroll or they may be dropped for non-payment of tuition. Veterans are responsible for payment of all tuition and fees, regardless of approval or denial of VA benefit payments.

Scholarships

Scholarships are offered by the Cochise College Foundation each year. These scholarships are funded by private donors. Financial need, grade point average, field of study, leadership and community service may be some of the eligibility requirements. Applications are accepted early in the spring semester for scholarships to be awarded for the following academic year. Notices of other scholarships are publicized periodically. The Cochise College Scholarship Portal application can be found at www.cochise.edu/fa.

Academic Procedures

CATALOG REQUIREMENTS

A student maintaining continuous enrollment in any public community college or public university in Arizona may graduate from Cochise College by meeting the requirements in the Cochise College Catalog in effect at the time of that student's initial enrollment, or by meeting the requirements in any single Cochise College Catalog in effect during any subsequent academic year (fall, spring, summer) of that student's continuous enrollment.

Continuous enrollment is defined as being enrolled during consecutive academic years in which course credit is earned. Noncredit and audited courses do not count toward continuous enrollment. For the purpose of determining a student's catalog requirements, continuous enrollment is limited to the five academic years prior to the student's current year of enrollment. The five-year continuous enrollment limit moves forward with the student into year six and beyond. Re-enrollment is required of any student who has not completed a course during a given academic year. In the event of re-enrollment, the student must meet the requirements of the catalog in effect at that time.

Military students and their dependents attending Cochise College under an SOCAD agreement are eligible for the catalog degree requirements of the catalog in effect when they begin taking courses and have a five-year period in which to complete the degree.

ACADEMIC CLASSIFICATION AND STATUS

Classification of Students

Freshman: Student with fewer than 32 passing college credits.

Sophomore: Student with 32 or more passing college credits.

Full-time: Student carrying 12 or more credits during a semester.

Three-quarter-time: Student carrying 9 or more but fewer than 12 credits during a semester.

Half-time: Student carrying 6 or more but fewer than 9 credits during a semester.

Less than half-time: Student carrying fewer than 6 credits during a semester.

Academic Status

Good Standing: A cumulative grade point average (GPA) of 2.0 or higher on a 4.0 scale.

Probation: After attempting 13 or more credits, a student's academic status is reviewed after each semester. A cumulative GPA below 2.0 places a student on academic probation, with the academic status noted on the student's transcript. While

on probation, a student is permitted to enroll in 12 or fewer credits.

Suspension: If a student's cumulative GPA falls below 2.0 for two consecutive terms, the student is suspended from school and the academic status noted on the student's transcript. A student suspended following the spring semester may not attend classes the following summer and fall terms. A student suspended following the fall semester may not attend classes the following spring and summer terms.

TEACHING MODALITIES

Classes taught at Cochise College may employ any one of these teaching modalities:

1. **Face-to-Face:** Classes that meet physically and students are required to attend regular face-to-face sessions.
2. **Live Streaming Room-to-Room:** A class where students participate in real time either in person or through a web conferencing system. All participants are required to be physically present in a Cochise College classroom or computer center and actively participate in class activities during the scheduled class times.
3. **Live Streaming Anywhere:** A class where students participate in real time through a web conferencing system. Students may utilize Cochise College computer resources to participate in the class but may also be able to join the class from other locations. All participants are required to be present and actively participate in class activities during the scheduled class times.
4. **Online:** Classes that require no on-site meetings. These classes may include one or two activities where the instructor and students meet in real time through a web conferencing system, but they are designed to be completed by students who do not need to be physically present. These classes may also require a proctored final examination.
5. **Hybrid-Online/Face-to-Face:** Classes where content is delivered using both online and face-to-face modalities in approximately equal proportions.
6. **Hybrid-Online/Live Streaming Room-to-Room:** Classes where content is delivered using both Online and Live Streaming Room-to-Room modalities in approximately equal proportions.
7. **Hybrid-Online/Live Streaming Anywhere:** Classes where content is delivered using both Online and Live Streaming Anywhere modalities in approximately equal proportions.

In addition to the above, the following types of specialized classes may be scheduled that use one or more of the teaching modalities:

1. **Modular:** A class where students complete a series of online modules and demonstrate mastery at the conclusion of each module. While these classes are somewhat self-paced, students are expected to reach specific milestones during the term of the class. Modular classes use a Face-to-Face, Online or Hybrid-Online/Face-to-Face modality.
2. **Collaborative:** Two or more independent classes where instructors conduct joint activities; for example, a reading and sociology collaboration may have reading activities assigned from sociology books. Students must register for both classes. The two classes may be taught using any of the modalities.
3. **Concurrent:** Two or more classes that meet as one. For example, a basic and advanced section of a class may meet as single class and the instructor would conduct activities appropriate for both sections. These classes can be taught using any of the modalities.
4. **Cooperative:** A class in which a student completes work-related objectives or projects that are negotiated between the student, an employer related to the student's field of study, and an instructor. The student regularly submits assignments and other reports to the instructor. These classes are coordinated by the cooperative education office and do not follow any particular modality.

GRADING SYSTEMS

The following are grade designations earned in each course and recorded on a student's permanent record.

- A** Indicates the highest academic grade possible. It is reserved for accomplishment that is truly distinctive and demonstrably outstanding.
- B** Denotes achievement considerably above acceptable standards and mastery of course materials.
- C** Indicates a satisfactory degree of attainment and is the least acceptable standard for graduation from college or for additional studies within the discipline. This grade implies completion of the minimum outcomes identified in the course curriculum.
- D** Denotes a limited understanding of the subject matter. This grade will not transfer to another institution of higher education and it is unacceptable for additional studies within the discipline.
- F** Indicates inadequate or unsatisfactory attainment, serious deficiency in understanding of course material or failure to complete requirements of the course.
- W** Indicates a withdrawal from the course by the designated drop date.
- I** Indicates that, for a justifiable reason, a student failed to complete all requirements of the course. The instructor has the option of issuing an incomplete rather than an F to the Registration Office. The student must make up an incomplete during the succeeding semester to avoid an F. An incomplete grade is not computed in the student's GPA.
- AU** Indicates that a student will not receive a grade or credit. Registration and fee policies apply. Pass/fail classes may not be audited. Instructors give priority to students registering for credit, and they do not require audit students to take

examinations or to hand in assignments. A student auditing a class may not change to a credit basis later than Friday of the second week of the semester. A student may change from a credit to an audit basis up to five calendar days prior to the start of finals. The drop/add procedure is used to effect such changes.

- IP** Indicates that a student's coursework is in progress at the time grades are due.
- P** Indicates C or higher work in a class taken for pass/fail.
- X** Indicates a D or failed grade in a class taken for pass/fail.

Grade Point Average (GPA)

Semester grades are assigned grade points as follows:

Grade	Points per credit earned
A	4
B	3
C	2
D	1
F	0

For example, a three-credit course with a grade of A earns 12 grade points. The total grade points accumulated are divided by the total credits attempted (excluding W, I and AU) to determine the GPA. In determining academic standing at Cochise College, the GPA of a transfer student is computed on the basis of credits attempted at Cochise College only and does not include credits and grade points earned at another college.

Grade Reports

Cochise College has an online student grade report system for viewing and printing grades.

Grade Change

A grade that has been reported to the registrar by an instructor may be changed only by the instructor issuing the grade or by the appropriate instructional manager.

ACADEMIC HONORS AND HONORS DISTINCTION

President's List and Dean's List

Students who complete 12 or more credits in one 16-week semester or term at Cochise College and maintain a semester GPA of 3.9 or higher are recognized as achieving high academic honors and placed on the President's List. Students who complete 12 or more credits in one 16-week semester or term at Cochise College and maintain a semester GPA of 3.5 to 3.899 are recognized as achieving academic honors and placed on the Dean's List.

Honors Program

General Eligibility: Students may join the Honors Program after completing 12 transfer-level credits with at least a 3.5 GPA.

Honors Distinction

Students completing 16 credits of honors coursework and having a 3.5 cumulative GPA or higher earn an Honors Program Distinction seal on their Cochise College diploma, a medallion, as well as a notation on their transcripts and in the commencement program.

Transfer to University Honors Programs

Students earning the Cochise College Honors Program Distinction are often invited to join university-level honors programs upon transfer. Scholarship opportunities are also available to honors students.

ACADEMIC RESTRICTIONS

Attendance

Student attendance is a major factor in academic success. Cochise College conducts a census report on the 10th day of each semester. Students who have not attended in that time are dropped for non-attendance. Instructors are responsible for establishing specific attendance criteria for each class and communicating the criteria to students in writing during the first week of class. Instructors may drop students who exceed their limit of absences. Students who are dropped during the census or by their instructor will not receive a refund on tuition and fees. Students on college-sponsored trips may be excused; however, they are responsible for all missed assignments.

Course Repeats

A course may be repeated six times for a grade. All courses will be listed on the student's transcript with the grade received. The highest grade earned will be computed for graduation and cumulative grade point average. Students are not required to repeat a failed course unless it is a prerequisite for another course or required for graduation or transfer.

Credit Load Limitations

Maximum educational benefits accrue when students enroll for a reasonable course load. The college has established the following credit load limitations:

Beginning freshmen (first-time college students) and returning students with a cumulative GPA of 2.0 or higher	19 credits
Concurrently enrolled high school students and returning students with a cumulative GPA below 2.0	12 credits

Final Exams

Final examinations are required and serve an important purpose in the academic process. Certain courses may call for demonstration of competency with final projects requiring more than two hours of work; these projects may serve as the final examination. Such projects must necessarily begin and

end before the examination period; however, these courses must meet during the scheduled examination period for review, critique or other meaningful activity. The final examination schedule is printed in the class schedule at the beginning of each semester. Students must attend all final examinations or their instructor may issue a failing grade.

Course Withdrawal

Students may withdraw from a course by logging into my.cochise.edu or by completing a drop/add form from the Registration Office. Failing to withdraw could jeopardize the receipt of any refunds and may result in an F grade.

Academic Dishonesty

Cochise College requires students to adhere to the highest level of ethical academic conduct and has no tolerance for academic dishonesty. The college may impose serious academic sanctions as a result of academic dishonesty up to and including suspension and expulsion from a specific program or from the college. A statement regarding and defining academic dishonesty must be part of every course procedure sheet.

Academic dishonesty consists of many forms of unethical academic conduct, including, but not limited to, cheating, fabrication, plagiarism, and facilitating academic dishonesty.

1. Cheating means intentionally using or attempting to use unauthorized materials, information or study aids, as well as unauthorized devices such as cell phones and other technology.
2. Fabrication means intentional falsification of any information or citation.
3. Plagiarism means intentionally or knowingly representing the words or ideas of another as one's own.
4. Facilitating academic dishonesty means intentionally or knowingly helping another to commit an act of academic dishonesty.
5. Other forms of academic dishonesty include:
 - a. Submitting work to more than one instructor for credit without disclosure and approval.
 - b. Knowingly violating the terms of any academic sanction imposed for an earlier violation of Policy 3010.

ADDING AND DROPPING COURSES

Adding Classes

Students who wish to add classes to their schedule must register the day before the class begins.

Dropping Classes

Classes dropped after the last day of the drop/add period and up to five calendar days prior to the start of finals result in a W on the student's transcript. After this time, instructors must assign a grade of A, B, C, D or F or an incomplete (I).

Wait Listed Classes

When a student is wait listed for a class it puts them on standby for future openings in the class. If an opening becomes available the student will receive notification through their Cochise College email. The student then has 24 hours to register for the class.

NON-TRADITIONAL LEARNING

A maximum of 30 credits are allowed for non-traditional learning experiences. In addition, certain departments allow students to receive credit for earned certificates if they are enrolled in a related Cochise College certificate or degree program. Non-traditional learning credits do not count toward the college residency requirement.

Advanced Placement

The Advanced Placement (AP) program offers college-level courses and examinations to high school students. AP exams are administered in high schools by the College Board each year in May. Students who receive a score of 3, 4 or 5 on an AP subject exam may be awarded college credit. Students should consult with an advisor in the Student Development Center to confirm AP credit. Information about the AP program is available on the College Board website at www.collegeboard.org. A list of available tests and their corresponding credits is available on www.aztransfer.com.

CLEP and DSST

Cochise College accepts both College Level Examination Program (CLEP) exams and DSST exams for college credits, provided satisfactory scores are attained. Students must have completed at least one Cochise College course before CLEP or DSST credit is granted. A list of available tests and their corresponding credits is available on www.aztransfer.com. Students cannot be awarded CLEP or DSST credit for courses taken in the same subject at the same level. Conversely, students cannot receive course credit at the same or lower level if they have already received CLEP or DSST credit. More information is available in Policy 3006.3 or at www.cochise.edu/transfer-to-cochise. Cochise College may award up to 30 credits for CLEP and DSST examinations; however, other colleges and universities are not obligated to accept these credits.

Military Service Schools, MOS and SOC Agreement

The college follows the credit recommendations of the American Council on Education (ACE) for Military

Occupational Specialty (MOS) training. Colleges differ on their policies related to credit allowed for military service schools. Credit granted by Cochise College does not obligate any other college or university to accept such credit. Evaluation and posting of credits occurs once a student has been admitted to Cochise College. Students may not request an official Cochise College transcript until they have registered for and completed at least three credits of Cochise College coursework with a grade designation of A, B, C, D, F, P or AU (audit). Credit earned for military service may not be used toward the college's 16-credit residency requirement. Cochise College is a participating Servicemembers Opportunity College (SOC). The SOC association of schools has agreed to work together to make it easier for you and your family members to enroll in college programs by simplifying credit transfers. In addition, SOC schools normally offer distance learning programs, as well as degree programs and individual courses. SOC Agreements with Cochise College are limited to a five-year period.

DEGREE AND CERTIFICATE REQUIREMENTS

Degree Requirements

A cumulative grade point average (GPA) of 2.0 or higher is required for any associate degree: Associate of Arts, Associate of Arts in Elementary Education, Associate of Business, Associate of Science, Associate of General Studies and Associate of Applied Science. All courses must be completed with a grade of C or better. A minimum of 16 credits of any degree granted must be completed in residency at Cochise College.

Additional degree requirements are found in the Degrees and Programs (p. 28) section of this catalog.

Bachelor's Degree Waiver of General Education Requirements

Students who have already earned a bachelor's degree from a regionally accredited institution and are interested in pursuing an Associate of Applied Science (AAS) degree may use a bachelor's degree to satisfy the general education requirements for most AAS degrees. Students should consult with an academic advisor to determine their eligibility to waive the general education requirements.

Certificate Requirements

A Certificate of Completion is awarded to students who complete a certificate program outlined in the Cochise College catalog. All courses must be completed with a grade of C or better. A minimum of 25 percent of the required credits must be taken in residency at Cochise College for each Certificate of Completion granted.

Additional Associate Degrees

Students may earn additional associate degrees at Cochise College if they complete the following for each additional degree:

- All requirements for the additional degree and
- Sixteen additional Cochise College credits not used in other Cochise College degree(s).

GRADUATION APPLICATION PROCESS

Graduating students must complete and submit the online graduation application at www.cochise.edu/advising/graduation. Students must notify the Student Development Center of any change of address that occurs during the application process period.

For associate degrees, students must file their application by the deadline listed in the academic calendar. Diplomas will be delayed and student names may not appear in the commencement program if students miss the deadline to file. For certificates, students must file an application at any time during the semester they are completing the requirements for their certificate.

Diplomas and Certificates of Completion are mailed after final grades are processed, and records evaluated and posted to official transcripts. Students must ensure there are no encumbrances or holds on their college account to avoid delays in distribution of their transcript, diploma or certificate.

TRANSCRIPTS

A transcript is a copy of a student's permanent academic record. Transcript processing time is normally five business days after receiving the signed request form and payment. Archived transcripts (prior to 1985) may require additional processing time. Transcripts are mailed via first-class mail. Cochise College offers an expedited service for an additional fee. According to federal law, transcript requests must be submitted in writing and include the student's signature; telephone requests are not honored. Transcript requests can be submitted online at www.GetMyTranscript.com or www.cochise.edu/transcripts or in person at the Admissions Office.

Transcript fees must be paid at the time the transcript request is submitted. Payment may be made by check or money order payable to Cochise College, or by credit card payment. The college accepts Visa, MasterCard, Discover, and American Express. Transcripts are not sent to students who have an outstanding financial obligation with the college.

Unofficial transcripts are strictly copies of the computerized records on file (after 1985) in the Student Information System. Unofficial transcripts are available at MyCochise or at www.cochise.edu/cc.

STUDENT COMPLAINTS AND GRIEVANCES

Students who have complaints, grievances or personal concerns about a Cochise College course, instructor or grade are encouraged to first discuss the problem with their instructor. Students who are still dissatisfied may contact the appropriate academic dean or director or submit a student complaint form at www.cochise.edu/feedback-complaint-form.

Student Complaint Log

All complaints directed to college personnel by students are considered important and will be addressed by the respective employee, department and/or office personnel pursuant to Policy 4008.

Complaints are documented and investigated, and their resolution and/or disposition noted, with a record of such complaints maintained for no less than two years. Information about these complaints will be shared with the college's accrediting agency, the Higher Learning Commission of the North Central Association; however, individual identities of students will be shielded without the express permission of said complainants. The complaint log is reviewed on an annual basis by the vice president for instruction/provost, who ascertains whether the complaints follow any particular pattern and whether special intervention, direction and/or staff development is needed to mitigate subsequent complaints or address institutional problems.

Services for Students

LIBRARIES

The Charles Di Peso Library on the Douglas Campus and the Andrea Cracchiolo Library on the Sierra Vista Campus house a diverse collection of books and media items, including DVDs and audiobooks, to support Cochise College curriculum and lifelong learning. Each library also has open study areas, study rooms, photocopiers, WEPA print stations, and computers with Internet access.

The online library, available at www.cochise.edu/library, provides access to magazines and scholarly journals, ebook collections, and streaming educational and documentary videos. The online library is available 24/7 to students, faculty, and staff from campus, home, and mobile devices. Cochise College librarians offer individual and group research instruction and are available to help with research in person, by phone, and by email.

BOOKSTORE

Barnes and Noble bookstores are located on both the Douglas and Sierra Vista campuses. Students can find textbooks, collegiate clothing, reference and trade books, classroom supplies and other items online at www.cochise.edu/bookstore. Book rental and digital options also are available. Student book buy-backs are held each semester during finals week. Graduation gowns may also be ordered in February for May graduates.

ACADEMIC SERVICES

Student Development Center

The Student Development Centers (SDC), located on the Douglas and Sierra Vista campuses, coordinate several key services supporting student learning: academic advising, counseling, testing, tutoring, referrals for experiential learning and CTEPS programs. Counselors and advisors assist students in defining, planning, and achieving success by helping them develop decision-making skills and personal strengths. Students can plan their program of study, learn about work/career options, explore transfer programs, and learn about college resources.

Placement Assessment

Students entering Cochise College programs are expected to possess basic academic proficiency in English, mathematics, and reading before taking college-level courses. Those students who do not demonstrate this proficiency may need to take courses which will not necessarily count toward their degree. Lack of academic preparation is one of several factors

affecting students' ability to complete their programs in a timely fashion while maximizing the advantages of financial aid.

All new students are required to demonstrate their skill levels in English, mathematics, and reading prior to registration. This is usually done by taking the college placement assessment. Students who place at the developmental level in any of the three areas above need to improve their skills and should consult an advisor to select the right courses designed to prepare them for college-level work. These courses currently include the following:

- ENG 095, Basic Writing
- ENG 096, Intermediate Writing
- MAT 081, Beginning Algebra
- MAT 091, Intermediate Algebra
- RDG 020, Basic Reading
- RDG 092, College Reading

The above developmental courses all count toward meeting full-time status for financial aid purposes but any course numbered 099 and below cannot be used to meet graduation requirements. Any student registering in his or her first developmental course(s) must enroll concurrently in CPD 150, Student Success Strategies, and complete it successfully.

ACCUPLACER

Applicants to Cochise College are required to complete the ACCUPLACER placement assessment or submit ACCUPLACER, Compass, ASSET, ACT, or SAT scores which are no more than two years old before registering for any courses that have academic skills prerequisites. Transferred scores must come directly from the institution previously attended or from the testing agency.

Normally, students must complete placement assessments in English, mathematics, and reading after which they meet with an advisor prior to registering in any course with an English, mathematics, and/or reading prerequisite. However, this placement testing may be waived for students who provide a transcript or diploma showing completion of an accredited associate or higher degree, or for transfer students whose official transcripts show completed coursework in a corresponding subject with a grade of C or better.

Course Sequencing toward College Level

English pathway

ENG 095 > ENG 096 > ENG 101

Mathematics pathway

MAT 081 > MAT 132

MAT 081 > MAT 142 > MAT 151, MAT 154, MAT 156, or

MAT 167 > MAT 212

MAT 091 > MAT 151, MAT 182, or MAT 187 > MAT 220 >

MAT 231 > MAT 241, MAT 252, or MAT 262

Reading pathway

RDG 020 > RDG 092

Typical English, Mathematics, and Reading Program Requirements

English requirement

AA, AAEE, AAS, ABUS, AGS, AS: ENG 101 and ENG 102

Mathematics requirement

AA and AAEE: MAT 142 or higher

AAS: MAT 132 or MAT 142 or higher

ABUS: MAT 212 or MAT 220

AGS: MAT 132 or higher

AS: MAT 220 or higher

Reading requirement

AA, AAEE, ABUS, AS, AGS, AAS: RDG 092 or exemption

Tutoring

Cochise College provides free tutoring in a number of academic areas. Professionals, para-professionals, and peer tutors work with students individually and in small groups to support them as they sharpen their academic skills. Staff members at the Tutoring and Learning Centers help students prepare for tests, understand mathematical concepts, generate ideas for essays, work through the writing process, conduct research, build confidence, and more. Tutoring services are also available online.

Career Technical Education Programs (CTEPS)

CTEPS offers a variety of support services to students enrolled in career and technical education programs, including academic advising, advocacy, career exploration, and financial assistance.

TRiO Student Support Services

The TRiO program helps students overcome class, social, and cultural barriers to their college education. To qualify, a student must be enrolled or accepted for full-time enrollment at Cochise College, be a U.S. citizen or legal permanent resident, demonstrate a need for academic support, and meet at least one of the following criteria:

- First-generation college student (parents or guardian did not receive a bachelor's degree);
- Low-income student as established by the Department of Education; or
- Learning or physically disabled student registered with the Office of Disability Services.

More information is available at www.cochise.edu/trio or at the TRiO Student Support Services Office on the Douglas Campus.

Career Services and Cooperative Education

Career services are designed to assist students in exploring career and employment options, in discovering personality strengths and interests, and in obtaining career information on specific majors and occupations.

The Student Development Center provides career information about employment options related to specific majors and degree programs. This includes resources and referrals pertaining to academic internships and post-graduation employment trends and opportunities.

STUDENT ACTIVITIES

Extracurricular activities include community service, civic engagement and campus events. Student government and various clubs plan activities that promote leadership and social development. More information is at www.cochise.edu/events/.

Student Government

Student Government Association (SGA) is established on both the Douglas and Sierra Vista campuses. At each campus, SGA is comprised of five appointed officers: president, vice president, secretary, treasurer and social events coordinator, who are selected based on an application process each spring. Student government plans, coordinates, and promotes student activities.

Clubs and Organizations

Many campus events are the result of student clubs and organizations, which are governed by the Student Government Association. More information is at www.cochise.edu/clubs.

Athletics

Student athletic programs reside on the Douglas Campus. Athletes compete in men's baseball, men's and women's basketball, men's and women's rodeo, and women's soccer. Cochise College is a Division I National Junior College Athletic Association school and a member of the National Intercollegiate Rodeo Association. The school colors are red and white, and the mascot is the Apaches.

OTHER EDUCATIONAL SERVICES**Learning Communities**

Learning communities use collaborative teaching to bring together different academic disciplines and teach students how these areas are related. Instructors from different academic disciplines restructure their curriculum thematically to foster community, coherence and connections among disciplines. Learning communities increase student engagement, motivation and intellectual development.

Dual Enrollment and Programs of Study

High school students taking certain academic and/or career and technical education classes in high school can earn college credit. These courses count for credit at both the high school and at Cochise College. A list of courses that meet dual

enrollment guidelines is available from high school counselors or the Cochise College K-12 outreach specialist. Programs of Study create a pathway between secondary and postsecondary education, providing students with the opportunity to acquire postsecondary credits while in high school. Information is at www.cochise.edu/highschool.

Adult Education

Cochise College Adult Education helps adult learners acquire the skills and knowledge necessary to enter the workforce or post-secondary education. Our focus areas are academics, technology, and communication in job and college contexts. Classes provide instruction for:

- Foundational skill building (reading, writing, math)
- High school equivalency test preparation (GED® Test prep)
- English language acquisition for nonnative speakers

Classes are held at Cochise College locations in Sierra Vista, Douglas, Benson, and Willcox. Fees are based on household income on a sliding scale. For more information visit www.cochise.edu/adulteducation/

Summer Spanish and English Immersion

The college offers summer Spanish and English immersion programs on the Douglas Campus. These intensive, day-long classes are designed to improve basic listening and speaking in the Spanish language, or to improve reading, writing, grammar, and oral communication proficiency in English. Students receive four to eight transferable credits of first-year Spanish, or completion of one level of English as a Second Language. Classroom instruction is enhanced by computer-assisted instruction, audio-visual materials, field trips, and social activities.

English as a Second Language (ESL)

ESL courses do not apply to a student's program but are considered prerequisites to the degree programs offered by the college. Similar to other remedial coursework, a student may receive financial aid for ESL courses and must be aware that the financial aid funds received can exhaust a student's eligibility for financial aid before completion of the program.

POLICIES

Title IX

Cochise College prohibits any discrimination as defined by Title IX of the Education Amendments of 1972 to include, but not limited to, gender based discrimination, sexual harassment, sexual misconduct, and sexual violence. Such acts can interfere with a student's ability to participate in or benefit from the college's academic and non-academic programs, an employee's ability to function in the workplace, or a campus visitor's ability to utilize the college. Accordingly, these behaviors are strictly prohibited.

Cochise College Administrative Policy 5009 Title IX Compliance describes the college's policy and procedures in detail. In an effort to ensure broad scale awareness of students' rights and responsibilities under Title IX Compliance, the college conducts training for students, required to be taken within the first six months following initial registration. Students shall receive two notices to complete the training within the six month period. Failure to complete the required training shall result in the student being unable to register for classes following the six month period until the training has been completed.

Questions regarding Title IX or the college's policies should be directed to the Title IX Coordinator at 520-515-3623 or the Dean of Students/Title IX Deputy Coordinator/Investigator at 520-417-4050.

Campus Crime Report

According to federal statute and regulations, colleges and universities are required to prepare and distribute each year an annual security report. The Campus SaVE Act details those reporting requirements. Within the report, colleges must set forth their policies on crime prevention and sex offenses and give statistics on the number of crimes reported on campus. Other reported crimes include the number of arrests for liquor law and drug violations and weapons possessions. The crime report is updated each September; the drug and alcohol free workplace report is updated each April. The reports may be reviewed at www.cochise.edu/securityemergency. Under the Violence Against Women Act (VAWA, 1994), colleges are required to provide "primary prevention and awareness programs" for all incoming students, as well as ongoing prevention and awareness campaigns. Information is available from the vice president for Human Resources or the dean of Student Services.

Alcohol- and Drug-Free Workplace

Cochise College is committed to the prevention of alcohol and drug abuse, recognizing that the abuse of alcohol or other drugs poses serious risks to a person's health. Cochise College conforms with and supports all federal, state, and local laws, and regulations that prohibit the unlawful manufacture, distribution, dispensation, possession, or use of alcohol or any prohibited or controlled substance at any college location. Students registered at Cochise College assume an obligation to conduct themselves in a manner compatible with the college's function as an educational institution and are expected to exercise personal responsibility and make informed choices concerning the use and misuse of alcohol and illicit drugs. Cochise College will impose disciplinary sanctions that include, but are not limited to, verbal or written reprimands, disciplinary probation, removal from classes, suspension, expulsion, or possible referral to local, state, or federal law enforcement agencies, for any unlawful on-campus

manufacture, distribution, use, or possession of alcohol or any prohibited controlled substance.

Smoking

Smoking is not permitted in any building or classroom at Cochise College. Designated smoking areas may be used outside of buildings on each campus and at each center. Information on designated smoking areas can be obtained from campus security or the dean of Student Services.

Sexual Harassment

Cochise College expressly forbids sexual harassment and discrimination of its employees and students by supervisors, other employees and students, and the general public. Behaviors considered to be sexual harassment include the following: unwanted physical touching (beyond normal greeting); sexual molesting; verbal insults; and sexually explicit suggestions or rumors designed to cause emotional distress, place an individual in bad light, substantially interfere with an individual's work or study performance, or create an intimidating, hostile, and offensive work or study environment.

Any persons who believe that they have been victims of sexual harassment may make a formal complaint to an immediate supervisor, the vice president for Human Resources, or the dean of Student Services. All such complaints are treated in a confidential manner and are investigated thoroughly and promptly. If the complaints are not resolved, persons believing themselves victimized by such alleged sexual harassment are free to pursue other administrative or judicial remedies available, including the pursuit of their rights under Title IX of the Education Amendments of 1972, through the vice president for Human Resources and affirmative action or the dean of Student Services.

Degrees and Programs

COCHISE COLLEGE GENERAL EDUCATION

Mission

General education at Cochise College creates opportunities for students to build the foundation of knowledge and skills necessary for lifelong success. It helps them enrich their quality of life by encouraging habits of mind that enable them to understand and value the world they live in and to contribute to its well-being.

Values

Through its general education curriculum, Cochise College strives to instill into the learning process a sense of interconnectedness and wholeness. We value learning as an ongoing process. We value effective communication; aesthetic investigation, innovative solutions, and creative self-expression; critical thinking in problem solving; awareness of and respect for diversity; appropriate evaluation and application of information; and technological skills in information management and presentation. We believe these values lead to ethical, responsible social behavior. Our values are reflected in our general education outcomes.

Outcomes

Students fulfill general education requirements at Cochise College by demonstrating competency in the following: communication, creativity, critical thinking, diverse and global perspectives, information literacy, and technology literacy. These outcomes clearly state the expected knowledge, skills, attitudes, competencies, and habits of mind that students are expected to have acquired at the college upon completion of a degree.

- **Communication:** Students, using writing and speaking skills, individually and collaboratively, discover, organize, and communicate information, ideas, and arguments in a clear and effective manner appropriate to the audience and purpose.
- **Creativity:** Students perform one or more of the following: analyze, evaluate, and reflect on aesthetic experiences; propose innovative solutions to technical, scientific, social, or individual problems; produce artifacts of self-expression.
- **Critical Thinking:** Students employ logical, analytical, analogical, and reflective reasoning in combination with scientific, mathematical, humanistic, or artistic inquiry to solve problems effectively.
- **Diverse and Global Perspectives:** Students demonstrate an understanding of the diversity of human experience and

the interdependent roles of historical, cultural, socio-economic, geographic, and ecological influences on this experience.

- **Information Literacy:** Students recognize that information is needed, and they use both traditional and modern technologies to effectively locate, evaluate, and apply the needed information.
- **Technology Literacy:** Students apply technological skills and processes to effectively acquire, manage, and present information.

Cochise College is committed to continuous improvement of its students' learning. The learning improvement process provides evidence of how well the college is meeting its objectives, helps identify areas of improvement, and allows improvements to be implemented. This is achieved by investigating current levels of learning, experimenting with ways to improve learning, and using the experimentation results to integrate successful strategies and actions for improving student learning into the college's curriculum or procedures.

TRANSFER DEGREES

Arizona Transfer

Cochise College offers the first two years of a four-year program for students who wish to earn a bachelor's degree. Transfer degree programs include the Associate of Arts (AA) for liberal arts, social science, and fine arts majors; Associate of Arts Elementary Education (AAEE); Associate of Business (ABUS) for business administration and computer information systems majors; and Associate of Science (AS) for natural, physical, and life science majors. These degrees are designed to transfer to all Arizona public universities. A student can enter the university as a junior after completing one of these associate degrees. Although these degrees are designed for transfer to all Arizona public universities, not all Arizona public universities offer majors in all areas. Students should consult with an advisor in the Student Development Center to ensure that their chosen university offers a degree in their area of study and that they select the most appropriate courses for this degree.

A statewide agreement between Arizona public community colleges and universities guarantees students two ways to transfer: (1) earning an associate degree or (2) completing a general education block called the Arizona General Education Curriculum (AGEC). The AGECE block fulfills the lower-division general education requirements at all Arizona public community colleges and universities. For most majors, Cochise College recommends students transfer after having

* indicates SUN course. ‡ indicates lab fees. ° indicates online. ~ indicates intensive writing.

All prerequisite coursework must be completed with a grade of C or better.

completed an AGECE or associate degree to ensure a seamless process.

Information on transfer to one of the three state universities—Arizona State University (ASU), Northern Arizona University (NAU), or the University of Arizona (U of A)—is available online at www.aztransfer.com. The AZTransfer website provides information regarding policies and procedures for transferring credits from community colleges to the public universities in the state of Arizona. Students can see how their coursework will transfer to Arizona's public universities by visiting the website of the Arizona Course Equivalency Guide (CEG) at <http://aztransmac2.asu.edu/cgi-bin/WebObjects/CEG>. In addition, the Shared Unique Number (SUN) System helps students identify courses that will directly transfer among Arizona's community colleges and three public universities. Using the SUN System, students can easily search for and enroll in courses that offer direct equivalency at other Arizona colleges and universities. Information is available online at www.aztransfer.com/sun. Cochise College also has some specific transfer agreements with each of these universities. Students should consult with an advisor for more detailed information on these options.

Private Transfer Agreements

Cochise College also has private articulation agreements with the following institutions. Students can check the websites or consult with a Cochise College advisor.

American Public University System	www.apus.edu
Arizona Christian University	www.arizonachristian.edu
Ashford University	www.ashford.edu

University of Phoenix	www.phoenix.edu
University of the Potomac	www.potomac.edu
Wayland Baptist University	www.wbu.edu
Western Governors University	www.wgu.edu
Western New Mexico University	www.wnmu.edu

OTHER ASSOCIATE DEGREES

Students should consult with an advisor in the Student Development Center concerning specific requirements and transfer options available for these degrees.

Associate of General Studies (AGS) Degrees - While not designed primarily for transfer, AGS degrees offer flexibility for the student who may wish to transfer to an out-of-state institution by including general education requirements. The student may also choose to complete an AGECE block to enhance possible transfer to an in-state institution.

Associate of Applied Science (AAS) Degrees - An extensive selection of AAS degree programs is available to students to prepare for employment in a specific career. In some cases, the programs are linked to agreements enabling a student with an AAS degree to transfer to an Arizona university without loss of credit. For more information, students should speak with an advisor or visit

www.aztransfer.com/associates_degrees/aas_bas.

COCHISE COLLEGE GENERAL EDUCATION COURSES - TRANSFER DEGREES

Arizona General Education Curriculum (AGECE)

Arizona public community colleges and universities have agreed upon a common structure for transfer of general education curriculum. The Arizona General Education Curriculum (AGECE) block fulfills the lower-division general education requirements at all Arizona public community colleges and universities. Arizona residents who complete only an AGECE need to have a minimum cumulative grade point average of 2.5 and a grade of C or better in each AGECE course for assured admission into an Arizona public university, while Arizona residents who complete an associate degree need to have a minimum cumulative grade point average of 2.0 for assured admission.

The AGECE block at Cochise College consists of 35-39 credits. The three types of AGECEs are:

AGECE-A	meets the general education requirements for arts and liberal arts majors in the Associate of Arts (AA) degrees and in the Associate of Arts Elementary Education (AAEE)
---------	--

* indicates SUN course. ‡ indicates lab fees. ° indicates online. ~ indicates intensive writing.

All prerequisite coursework must be completed with a grade of C or better.

degree.

AGEC-B meets the general education requirements for business and information systems majors in the Associate of Business (ABUS) degrees.

AGEC-S meets the general education requirements for math and science majors in the Associate of Science (AS) degrees.

Coursework should be chosen from the appropriate AGECE course list to meet specific degree requirements.

General education requirements are:

Composition	6 credits
Mathematics	3-5 credits
Laboratory sciences	8 credits
Arts	3 credits
Humanities	3 credits
Social and behavioral sciences	6 credits
Technology literacy (AGEC-B only)	3 credits
AGEC-A : general education electives	4-6 credits
AGEC-B: general education electives	1-3 credits
AGEC-S: additional mathematics and/or laboratory sciences	6-8 credits
TOTAL GENERAL EDUCATION REQUIREMENTS	35-39 CREDITS

The following applies to all Cochise College AGECE blocks:

- All courses must be completed with a grade of C or better.
- Six credits of coursework must be completed to fulfill the intensive writing requirement.
- The cultural and historical or global awareness requirements are satisfied by completing the arts, humanities, and social and behavioral science portion of the AGECE.
- A minimum of eight credits in the AGECE component of any transfer degree must be completed in residency at Cochise College.
- Placement testing is required and prerequisites may apply.

DEGREE PROGRAMS

In each of the six degrees—the AA, AAEE, ABUS, AS, AGS, and AAS—only approved general education courses may be used to satisfy the general education requirements. The AA, AAEE, ABUS, and AS degrees are designed for transfer to Arizona State University, Northern Arizona University, and the University of Arizona; however, not all three state universities offer majors in all areas. Students should consult with an advisor in the Student Development Center to ensure that their chosen university offers a degree in their area of study and that they select the most appropriate courses for their area of study. Since university requirements vary considerably, it is strongly recommended that students work closely with an academic advisor to plan their coursework.

ASSOCIATE OF ARTS DEGREE

The AA degree is recommended for liberal arts, social science, or fine arts students who plan to transfer to a university. These degrees are designed for transfer to all Arizona public universities; however, not all three state universities offer majors in all areas. Students should consult with an advisor in the Student Development Center to ensure that their chosen university offers a degree in their area of study. Cochise College has the following Associate of Arts degrees:

Administration of Justice (p. 41)	Major Code - AJS
Communications (p. 59)	Major Code - COM
Computer Science (p. 63)	Major Code - CSC
Early Childhood Care and Education (p. 71)	Major Code - ECE
Economics (p. 69)	Major Code - ECN
English (p. 75)	Major Code - ENG
Exercise Science, Health and Physical Education, Recreation and Wellness (p. 76)	Major Code - HPES
Fine Arts (p. 48)	Major Code - ARTF
General Requirements (p. 78)	Major Code - GENG
Humanities (p. 81)	Major Code - HUM
Journalism and Media Arts (p. 83)	Major Code - JMA
Music (p. 86)	Major Code - MUS
Philosophy (p. 89)	Major Code - PHI

* indicates SUN course. ‡ indicates lab fees. ° indicates online. ~ indicates intensive writing.

All prerequisite coursework must be completed with a grade of C or better.

Social and Behavioral Sciences (p. 90) Major Code - SBS

Theatre Arts (p. 92) Major Code - THE

GENERAL EDUCATION REQUIREMENTS, AGEC-A 35 CREDITS

Composition 6 credits

ENG 101 Composition*° 3

ENG 102 English Composition*° 3

Mathematics 3-5 credits

MAT 142 College Mathematics*° or higher (3-5 credits) 3

Laboratory Sciences 8 credits

Arts 3 credits

Humanities 3 credits

Social and Behavioral Sciences 6 credits

General Education Electives 4-6 credits

General education electives must be chosen from the general education course list.

LANGUAGE REQUIREMENT 0-16 CREDITS

University non-English language requirements vary. Check the language requirement for chosen major.

CORE CURRICULUM OR ELECTIVES 9-29 CREDITS

Elective courses must be transferable to the university or universities to which the student plans to transfer.

TOTAL DEGREE REQUIREMENTS 60-64 CREDITS

DEGREE REQUIREMENTS:

- General education requirements for AA degrees consist of 35 credits. Six credits of coursework must be completed to fulfill the intensive writing requirement. The cultural and historical or global awareness requirements are satisfied by completing the arts, humanities, and social and behavioral science portion of the AGEC.
- Specific courses are required for the completion of each transfer degree program.
- All courses must be completed with a grade of C or better.
- A minimum of 16 credits of any degree granted must be completed in residency at Cochise College.
- A minimum of 8 credits in the AGEC component of any transfer degree must be completed in residency at Cochise College.
- A cumulative grade point average (GPA) of 2.0 or higher is required for any transfer degree.

ASSOCIATE OF ARTS ELEMENTARY EDUCATION DEGREE

The AAEE degree is designed for elementary education majors who plan to transfer to a four-year university. This degree is designed for transfer to all Arizona public universities. Students should consult with an advisor in the Student Development Center to ensure they are making the correct choices for their target university.

Associate of Arts Elementary Education (p. 70) Major Code - EED

GENERAL EDUCATION REQUIREMENTS (AGEC-A) 35 CREDITS

Composition 6 credits

ENG 101 Composition*° 3

ENG 102 English Composition*° 3

Mathematics 3-5 credits

MAT 142 College Mathematics*° or higher (3-5 credits) 3

Laboratory Sciences 8 credits

8 credits must be taken from two different prefixes. BIO 100, BIO 105, BIO 201, GEO 101, PHY 111, CHM 130, AST 180, and GLG 101 are recommended.

Arts 3 credits

ART 120 or MUS 260 is recommended.

Humanities 3 credits

COM 102 is highly recommended; ART 107, ART 108, and MUS 101 are also recommended.

Social and Behavioral Sciences 6 credits

POS 220, HIS 110, and HIS 111 are highly recommended. PSY 101, ECN 201 or ECN 202, and PSY 240 are also recommended.

General Education Electives 4-6 credits

* indicates SUN course. ‡ indicates lab fees. ° indicates online. ~ indicates intensive writing.

All prerequisite coursework must be completed with a grade of C or better.

General education electives must be chosen from the general education course list.

Six credits of arts, humanities, social and behavioral sciences, or general education electives must be chosen from the current listing of intensive writing courses.

See www.cochise.edu/AGEC.

LANGUAGE REQUIREMENT 0-16 CREDITS

Non-English language second- or fourth-semester proficiency. University non-English language requirements vary. Check with an advisor.

MAT 156	Mathematics for Elementary Education Majors II ^o	3

ELECTIVES (AS NEEDED TO COMPLETE 64 CREDITS)

Elective courses must be transferable to the university or universities to which the student plans to transfer.

TOTAL DEGREE REQUIREMENTS 64 CREDITS

Some students will have more than 64 credits because of varying credits in language, mathematics, and other courses. 64 credits represent the minimum for this degree.

DEGREE REQUIREMENTS:

- General education requirements for the AAEE degree consist of 35 credits. Six credits of coursework must be completed to fulfill the intensive writing requirement. POS 220 is recommended to fulfill three of the six credits. The cultural and historical or global awareness requirements are satisfied by completing the arts, humanities, and social and behavioral science portion of the AGECE.
- Specific courses are required for the completion of each transfer degree program.
- All courses must be completed with a grade of C or better.
- A minimum of 16 credits of any degree granted must be completed in residency at Cochise College.
- A minimum of 8 credits in the AGECE component of any transfer degree must be completed in residency at Cochise College.
- A cumulative grade point average (GPA) of 2.0 or higher is required for any transfer degree.

ASSOCIATE OF BUSINESS DEGREE

The ABUS degree is designed to satisfy transfer requirements for business and computer information systems majors. These degrees are designed for transfer to all Arizona public universities. Students should consult with an advisor in the Student Development Center for assistance in degree

planning. Cochise College has the following Associate of Business degrees:

Business Administration (p. 57) Major Code - BUSG

Computer Information Systems (p. 60) Major Code - CISS

Based on chosen major and after consulting with an advisor, select MAT 231, MAT 241, MAT 252, MAT 262, and/or appropriate laboratory science courses. See <http://aztransmac2.asu.edu/cgi-bin/WebObjects/agec> for a complete list.

CORE CURRICULUM AND ELECTIVES 21-29 CREDITS

Elective courses must be transferable to the university or universities to which the student plans to transfer.

TOTAL DEGREE REQUIREMENTS 60-64 CREDITS

DEGREE REQUIREMENTS:

- General education requirements for AS degrees consist of 35-39 credits. Six credits of coursework must be completed to fulfill the intensive writing requirement. The cultural and historical or global awareness requirements are satisfied by completing the arts, humanities, and social and behavioral science portion of the AGEC.
- Specific courses are required for the completion of each transfer degree program.
- All courses must be completed with a grade of C or better.
- A minimum of 16 credits of any degree granted must be completed in residency at Cochise College.
- A minimum of 8 credits in the AGEC component of any transfer degree must be completed in residency at Cochise College.
- A cumulative grade point average (GPA) of 2.0 or higher is required for any transfer degree.

ASSOCIATE OF GENERAL STUDIES DEGREE

The AGS degree is designed for students who do not plan to transfer or who plan to transfer to an out-of-state university and want more flexibility in selecting courses. Choosing the AGS and fulfilling Arizona General Education Curriculum (AGEC) requirements will maintain an open door for transferring to an Arizona public university at a later time. The AGS degree is designed to be a general studies degree with no area of emphasis. Students planning to transfer to an out-of-state university should work closely with an academic advisor in choosing their coursework. Whenever possible, working with the catalog of the out-of-state university provides the best planning tool for students. Cochise College has the following Associate of General Studies degrees:

Aviation Dispatch (p. 52)	Major Code - AVD
General Studies (p. 79)	Major Code - AGS
Professional Pilot Technology (p. 50)	Major Code - PPT

GENERAL EDUCATION REQUIREMENTS 35 CREDITS

Social and Behavioral Sciences 6 credits

Foreign Language (100 or higher) or Communications (101 or higher) 3-4 credits

General Education Electives 6-7 credits

* indicates SUN course. ‡ indicates lab fees. ° indicates online. ~ indicates intensive writing.

All prerequisite coursework must be completed with a grade of C or better.

General education electives must be chosen from the general education course list.

ELECTIVES (AS NEEDED TO COMPLETE THE DEGREE)

Elective courses may be selected from any Cochise College course at the 100 level or higher.

TOTAL DEGREE REQUIREMENTS 60-64 CREDITS

DEGREE REQUIREMENTS:

- The AGS degree requires coursework at the 100 level or higher.
- General education requirements for AGS degrees consist of a minimum of 35 credits. Six credits of coursework must be completed to fulfill the intensive writing requirement. The cultural and historical or global awareness requirements are satisfied by completing the arts, humanities, and social and behavioral science courses in the degree.
- All courses must be completed with a grade of C or better.
- A minimum of 16 credits of any degree granted must be completed in residency at Cochise College.
- A cumulative grade point average (GPA) of 2.0 or higher is required for any AGS degree.

ASSOCIATE OF APPLIED SCIENCE DEGREE

The AAS degree is most commonly used to prepare students for employment in a specific career upon graduation. Some Arizona universities have responded to the needs in particular technical fields by creating two-plus-two programs enabling a student with an AAS degree to transfer to a university without loss of credit. These degree programs may require lower-division general education courses in the junior and senior years. Students should consult with an academic advisor for information about the Bachelor of Applied Science (BAS) degrees at Arizona public universities. Cochise College has the following Associate of Applied Science degrees:

Administration of Justice (p. 42)	Major Code - AJS
Agriculture (p. 43)	Major Code - AGR
Agronomy (p. 43)	Major Code - AGRO
Automotive Technology (p. 49)	Major Code - ATC
Building Construction Technology (p. 54)	Major Code - BCT
Business Management (p. 57)	Major Code - BMT
Cisco and Linux Networking (p. 66)	Major Code - CLN
Computer Information Systems (p. 61)	Major Code - CIS
Computer Programming (p. 61)	Major Code - CPG
Culinary Arts (p. 67)	Major Code - CUL
Cybersecurity (p. 63)	Major Code - CYB
Early Childhood Care and Education (p. 72)	Major Code - ECE
Education (p. 73)	Major Code - ED

* indicates SUN course. ‡ indicates lab fees. ° indicates online. ~ indicates intensive writing.

All prerequisite coursework must be completed with a grade of C or better.

Electronics Technology (p. 74)	Major Code - ELT
Fire Science Technology (p. 77)	Major Code - FST
Intelligence Operations Studies (p. 82)	Major Code - IOST
Logistics Supply Chain Management (p. 85)	Major Code - LGS
LPN to Professional Nurse (p. 87)	Major Code - NUR2
Media Production Arts (p. 84)	Major Code - MPA
Network Technology (p. 65)	Major Code - NWT
Nursing (p. 87)	Major Code - NUR
Paramedicine (p. 45)	Major Code - PAR
Professional Pilot Technology (p. 51)	Major Code - PPT
Residential Construction Technology (p. 54)	Major Code - RCT
Respiratory Therapy (p. 47)	Major Code - RTH
Unmanned Aerial Vehicle Flight Operator (p. 93)	Major Code - UAVO
Unmanned Aircraft Systems Technician (p. 93)	Major Code - UAVT
Welding Technology (p. 94)	Major Code - WLD

GENERAL EDUCATION REQUIREMENTS 18-19 CREDITS

BIO 156 or BIO 160 will satisfy the mathematics/laboratory science requirement for the paramedicine program only.

NUR 121A and NUR 121B will satisfy the mathematics/laboratory science requirement for the nursing program only.

PSY 101 will satisfy the mathematics/laboratory science requirement for the electronics technology program only.

Liberal Arts 6 credits

Technology Literacy 3 credits

CIS 116	Computer Essentials° OR	3
CIS 120	Introduction to Information Systems*°	3

CORE CURRICULUM (SEE AREAS OF STUDY)

ELECTIVES (AS NEEDED TO COMPLETE THE DEGREE)

* indicates SUN course. ‡ indicates lab fees. ° indicates online. ~ indicates intensive writing.

All prerequisite coursework must be completed with a grade of C or better.

TOTAL DEGREE REQUIREMENTS 60-64 CREDITS

DEGREE REQUIREMENTS:

- The AAS degree requires coursework at the 100 level or higher.
- General education requirements for AAS degrees consist of a minimum of 18 credits selected from the appropriate general education course list.
- All courses must be completed with a grade of C or better.
- A minimum of 16 credits of any degree granted must be completed in residency at Cochise College.
- A cumulative grade point average (GPA) of 2.0 or higher is required for any AAS degree.

GENERAL EDUCATION CERTIFICATES

The three types of AGECS are: AGECS-A for arts, AGECS-B for business, and AGECS-C for math and science. Cochise College has the following general education certificates:

AGECS-A (p. 80)	35 credits	Major Code - AGCA
AGECS-B (p. 80)	35 credits	Major Code - AGCB
AGECS-S (p. 81)	35-39 credits	Major Code - AGCS

CAREER CERTIFICATES

Cochise College offers many certificates designed for direct employment. A minimum of 25 percent of the required credits used in the certificate must be completed from Cochise College for each certificate granted. All courses must be completed with a grade of C or better. Gainful employment disclosure information for financial-aid eligible certificates includes cost, median loan debt, and normal completion time. Cochise College has the following career certificates:

Aerospace Thermal Fusion (p. 95)	30 credits	Major Code - AETF
Aerospace Welding Technology (p. 95)	18 credits	Major Code - AEWT
Automotive Technology (p. 50)	21 credits	Major Code - ATC
Carpentry Technology (p. 56)	23 credits	Major Code - CTC
Chef Patissier – Baker's Apprentice (p. 68)	24 credits	Major Code - BKRA
Cisco Networking (p. 67)	16 credits	Major Code - CNT
Computer Maintenance and Repair (p. 65)	19 credits	Major Code - COMR
Computer-Aided Drafting (p. 69)	27 credits	Major Code - CAD
Emergency Medical Technician (Prep for External Licensure) (p. 44)	8 credits	Major Code - EMT
Entrepreneurship/Small Business Management (p. 58)	30 credits	Major Code - ENTC
Fire Science Technology (p. 78)	23 credits	Major Code - FST
General Computer-Aided Drafting (p. 69)	18 credits	Major Code - GCAD
General Welding Technology (p. 94)	18 credits	Major Code - GWLD
HVAC (p. 55)	16	Major Code

	credits	- HVAC
Linux System Administrator (p. 64)	19 credits	Major Code - LSA
Medical Assistant (p. 45)	27 credits	Major Code - MEDA
Nursing Assistant (Prep for External Licensure) (p. 48)	6 credits	Major Code - CNA
Paramedicine (p. 46)	49-55 credits	Major Code - PAR
Practical Nurse (Prep for External Licensure)	43 credits	Major Code - LPN
Practical Nursing (Prep for External Licensure) (p. 89)	32 credits	Major Code - PN
Residential Construction Technology (p. 55)	38 credits	Major Code - RCC
Sous Chef Apprentice (p. 68)	40-43 credits	Major Code - SCCA
Technical Education Facilitator (p. 74)	16 credits	Major Code - TEF
Utility Industry (p. 56)	23 credits	Major Code - UI
Web Developer (p. 66)	26 credits	Major Code - WEBD
Welding Technology (p. 95)	30 credits	Major Code - WLD

ARIZONA DEPARTMENT OF CORRECTIONS CERTIFICATES

Advanced Automotive Technology (p. 96)	15 credits	Major Code - AATC
Advanced Building Construction Technology (p. 96)	16 credits	Major Code - ABCT
Basic Automotive Technology (p. 96)	15 credits	Major Code - BATC
Basic Building Construction Technology (p. 96)	15 credits	Major Code - BBCT
Cabinetmaker (p. 97)	12 credits	Major Code - CAB

Designed for the inmates of the Arizona Department of Corrections in Douglas.

* indicates SUN course. ‡ indicates lab fees. ° indicates online. ~ indicates intensive writing.

All prerequisite coursework must be completed with a grade of C or better.

Areas of Study

ADMINISTRATION OF JUSTICE

ADMINISTRATION OF JUSTICE - ASSOCIATE OF ARTS (MAJOR CODE - AJS)

The Administration of Justice Associate of Arts degree is designed to prepare students for a wide variety of criminal justice career fields or for transfer into university degree programs. The degree also provides additional training for certified law enforcement and corrections professionals. To ensure seamless transfer, students must develop their specific program of study in close coordination with a Cochise College advisor.

Learning Outcomes

Students who successfully complete this program will be able to do the following:

- Describe the history of criminal justice in the United States and in historically significant global societies, and explain its impact upon the modern day criminal justice system in the United States.
- Describe the organization and characteristics of the United States system of criminal justice, to include law enforcement, the courts, corrections, and juvenile justice.
- Define and effectively use civil law, criminal law, law enforcement, court or judicial, and juvenile justice terminology.
- Describe the fundamental ethical characteristics required in the criminal justice profession, and demonstrate critical reasoning in the application of ethics to common criminal justice ethical dilemmas.
- Describe, and utilize in critical analysis scenarios, the social and legal definitions of crime, the societal and psychological precursors of crime, and the various categories of crime.
- Describe the relationship of socio-economic status, gender, and race and ethnicity to the definition of crime, and to adjudication and sentencing.
- Identify current and emerging innovations in the criminal justice system to include technology and scientific advances.
- Describe career opportunities within the criminal justice field.

AGRICULTURE

AGRICULTURE - ASSOCIATE OF APPLIED SCIENCE (MAJOR CODE - AGR)

The Agriculture Associate of Applied Science degree is designed to prepare students for a career in the agricultural profession or for transfer to a university Bachelor of Applied Science degree program. It focuses on animal science, natural resources, and agribusiness management while introducing students to various careers in agriculture.

Learning Outcomes

Students who successfully complete this program will be able to do the following:

- Demonstrate an understanding of livestock production, plants, soils, biotechnology, natural resources, and sustainable agriculture as it relates to the global food industry.
- Explain the principles of range management, ecological systems, grazing systems and distribution, and stocking rates as they apply to livestock production; and identify range plants.
- Identify the principles of animal science and apply these principles to efficient livestock and poultry production.
- Demonstrate an understanding of soil science including the origin, nature, and composition of soils as well as their chemical, physical, and biological properties in relation to plant growth.
- Demonstrate an understanding of economic principles and their application to agribusiness management and of management principles in both domestic and international markets.
- Explain digestion and the digestibility of feeds, their nutritive values, grades, and classes; and identify the principles of selection, evaluation, and ration formulations for livestock and poultry.
- Explain the evolution and fundamentals of the genus Equus, anatomical systems, health management, and methods of identification.
- Demonstrate an understanding of the operational methods of livestock production; and identify economically important traits, principles of animal selection, breeding, and management techniques.

ELECTIVES (AS NEEDED TO COMPLETE THE DEGREE)
TOTAL DEGREE REQUIREMENTS 60 CREDITS

AGRONOMY - ASSOCIATE OF APPLIED SCIENCE (MAJOR CODE - AGRO)

The Agronomy Associate of Applied Science degree exposes students to the operations of various organizations comprising agriculture in Cochise County. Students learn about crop production through the study, in both theory and practice, of biology and chemistry, crop science, soil science, entomology, range management, natural resources management, and sustainability.

Learning Outcomes

Students who successfully complete this program will be able to do the following:

- Demonstrate an understanding of plant species and varieties.
- Explain what factors dictate crop yield.
- Demonstrate an understanding of plant breeding and various methods used in the agronomy industry.
- Identify and apply diagnostic clues used to determine causal agents of pest problems.
- Identify different classes and orders of insects according to their characteristics.
- Explain the impact that insects may have on businesses, the economy, and the environment.
- Explain the uses of different herbicides and fertilizers.
- Demonstrate an understanding of integrated pest management.
- Demonstrate an understanding of crop seasonality.
- Identify different business models used by crop consultants when entering the business world.

TOTAL DEGREE REQUIREMENTS 60-61 CREDITS**ALLIED HEALTH****EMERGENCY MEDICAL TECHNICIAN -
CERTIFICATE (MAJOR CODE - EMT)**

The Emergency Medical Technician Certificate provides a study of anatomy and physiology, signs and symptoms of illness and injury, patient assessment, procedures associated with the provision of emergency medical care, triage, basic life support systems, and basic legal responsibilities. Equips students with the knowledge and skills required by the National Registry of Emergency Medical Technicians (NREMT) and the Arizona Department of Health Services – Bureau of Emergency Medical Services (ADHS-BEMS) to practice as an Emergency Medical Technician. Students desiring NREMT/ADHS-BEMS certification must complete the state-required number of clinical experience hours with an Emergency Medical Service provider of out-of-hospital emergency care. Meets the ADHS-BEMS guidelines and is approved by the state of Arizona and the National Registry of EMTs.

Medical Direction: Arizona Certified EMTs are authorized to provide treatment, perform procedures, and utilize skills—as defined by the 2009 National EMS Education Standards—only under the medical control of an approved medical director or certified base hospital.

Learning Outcomes

Students who successfully complete this program will be able to do the following:

- Demonstrate the skills necessary to perform a wide range of duties for employment in a modern medical facility.
- Identify and assess the signs and symptoms of illness and injury in patients and conduct triage as needed.
- Demonstrate an understanding of basic human anatomy and physiology in the application of emergency medical care.
- Provide medical care and basic life support to patients with respiratory, cardiovascular, neurological, allergic, and OB/GYN emergencies, and with age-related and traumatic injuries.
- Demonstrate various examination techniques on patients with a medical- or injury-related complaint or problem.
- Demonstrate the skills required by the National Registry of Emergency Medical Technicians and the State of Arizona Department of Health Services, Bureau of Emergency Medical Services.

Degree Map**CORE CURRICULUM 8 CREDITS**

EMT 174	Emergency Medical Technician‡	8
---------	-------------------------------	---

* indicates SUN course. ‡ indicates lab fees. ° indicates online. ~ indicates intensive writing.

All prerequisite coursework must be completed with a grade of C or better.

Notes:

In order to complete the certificate, students must complete EMT 174 with a grade of B or better.

To prepare for state or national certification, students must 1) complete EMT 174 with a grade of B or better, 2) pass final exams with a grade of B or better, 3) document ten (10) patient contacts in the field, and 4) be 18 within six months of program completion.

TOTAL CERTIFICATE REQUIREMENTS 8 CREDITS

MEDICAL ASSISTANT - CERTIFICATE (MAJOR CODE - MEDA)

The Medical Assistant Certificate provides training for entry-level employment in a medical practice setting, with emphasis on the routine administrative and clinical tasks required in the day-to-day operation of offices and clinics of health professionals. It introduces students to telephone techniques and other front office functions such as filing and coding insurance claims, scheduling patients, and keeping electronic medical records. It also introduces them to back office skills that include taking vital signs, assisting with electrocardiograms and other special procedures, using medical terminology, and administering medication. The certificate's externship course offers practical experience in a medical office setting. Prior to certificate completion, students take the Medical Assistant certification examination to become certified as Registered Medical Assistants.

Gainful Employment

Learning Outcomes

Students who successfully complete this program will be able to do the following:

- Demonstrate the skills necessary to perform a wide range of duties for employment in a modern medical facility.
- Demonstrate a nationally-recognized measure of competency for national certification through the National Healthcareer Association (NHA).
- Perform administrative duties, including telephones, correspondence, insurance forms, medical records, billing, bookkeeping, and office supplies; and greeting, admitting, and scheduling patients.
- Perform clinical duties including taking vital signs and medical histories, explaining treatments, preparing patients for examination, and assisting physicians with lab procedures, EKGs, and medications.

HLT 111 must be taken at Cochise College or at an accredited college or university.

TOTAL CERTIFICATE REQUIREMENTS 27 CREDITS

PARAMEDICINE - ASSOCIATE OF APPLIED SCIENCE (MAJOR CODE - PAR)

The Paramedicine Associate of Applied Science degree prepares the student to become a Nationally Registered Paramedic. Paramedics render basic and advanced medical treatment before and during patient transport to a medical facility and they assess and treat a wide variety of medical emergencies. Paramedics work for fire departments, law enforcement agencies, private ambulance services, industrial companies, clinics, and hospitals.

Admission into the program requires a separate application.

Prior to enrollment in the paramedicine program, all students must pass a computer-based entrance examination.

Learning Outcomes

Students who successfully complete this program will be able to do the following:

- Demonstrate the legal, ethical, and professional conduct of an entry-level autonomous paramedic.
- Demonstrate an understanding of the roles and responsibilities of an entry-level autonomous paramedic with regard to personal safety and wellness as well as to the safety of others.
- Demonstrate self-confidence as an autonomous and effective team leader in the pre-hospital, hospital, and clinical environment.
- Describe and perform various techniques for successful assessment and treatment of patients of all ages and all complaints.
- Analyze the various considerations when determining ground versus air transport of a patient to an appropriate facility.
- Demonstrate proficiency in all required terminal competencies as verified by the medical director.
- Demonstrate the knowledge, skills, and abilities required for certification as a Nationally Registered Paramedic.

RESPIRATORY THERAPY - ASSOCIATE OF APPLIED SCIENCE (MAJOR CODE - RTH)

The Respiratory Therapy Associate of Applied Science degree prepares students to become allied health professionals specializing in the diagnosis, treatment, and care of patients suffering from cardiopulmonary disease. The program enables students to develop competencies in patient evaluation, mechanical ventilation treatment, and patient monitoring in a variety of clinical settings. Upon completion of the program, students are eligible to take national registry examinations required for certification as respiratory therapists.

Learning Outcomes

Students who successfully complete this program will be able to do the following:

- Demonstrate critical thinking and problem solving skills for efficient patient management and provide appropriate treatment interventions for patients with cardiopulmonary disease.
- Demonstrate the skills needed to manage stressful situations that require quick thinking and synchronized coordination of varying activities.
- Develop critical thinking skills to evaluate and treat patients with cardiopulmonary disease.
- Demonstrate manual dexterity, eye-hand coordination, fine and gross motor skills, and tactile ability, all required to perform duties as a respiratory therapist.
- Demonstrate visual and auditory ability to assess a patient's condition and administer effective therapy specific to cardiopulmonary disease.
- Perform duties requiring extended period of standing, stooping, squatting, bending, pushing, and pulling.
- Demonstrate efficient verbal and non-verbal communication skills with internal and external clients.
- Set up, initiate, and maintain non-invasive and invasive mechanical ventilation.

All prerequisite coursework must be completed with a grade of C or better.

NURSING ASSISTANT - CERTIFICATE (MAJOR CODE - CNA)

The Nursing Assistant Certificate, which requires one semester to complete, is approved by the Arizona State Board of Nursing to prepare students for nursing assistant certification. Emphasis is on communication, patient safety, anatomy and physiology, specific patient-care skills, and patient rights. Includes the nursing process and the legal and professional responsibilities of the nursing assistant. Also covers the basic physical, psychosocial, and cultural needs of all patients, with special emphasis on the geriatric population.

Students taking this program for state certification must be 16 prior to program completion, provide documentation of U.S. citizenship or qualifying alien status, undergo fingerprinting, pass a background check and drug screen, and have received absolute discharge from the sentence for any felony conviction no less than 3 years prior to submitting their application for state certification. The Arizona State Board of Nursing prohibits the use of medical marijuana.

Learning Outcomes

Students who successfully complete this program will be able to do the following:

- Demonstrate the knowledge and skills required for basic-level nursing assistant certification by the Arizona State Board of Nursing.
- Demonstrate skills in communication, patient safety, the nursing process, and specific patient care.
- Demonstrate skills in cardiopulmonary resuscitation (CPR) and basic first aid.
- Demonstrate an understanding of patient rights and legal and professional responsibilities.
- Apply the knowledge and skills required to address basic physical, psychosocial, and cultural needs of patients, especially those in the geriatric population.

Degree Map

CORE CURRICULUM 6 CREDITS

HLT 109	Nursing Assistant‡	5
HLT 111	CPR and First Aid‡	1
HLT 111: Possession of a current American Heart Association CPR and First Aid certification for healthcare providers satisfies this course requirement.		

TOTAL CERTIFICATE REQUIREMENTS 6 CREDITS

ART

The art program at Cochise College has been designed with three goals in mind: (1) as a source of personal growth and self-expression, (2) to fulfill general education requirements for associate or baccalaureate degrees, and (3) to successfully transfer credit to four-year institutions.

Students seeking a specialized career in art should see an art instructor for advisement.

FINE ARTS - ASSOCIATE OF ARTS (MAJOR CODE - ARTF)

The Fine Arts Associate of Arts degree prepares students for transfer to a university program in art. To ensure seamless transfer, students must develop their specific program of study in close coordination with a Cochise College advisor.

Learning Outcomes

Students who successfully complete this program will be able to do the following:

- Demonstrate skills in basic elements of design: line, shape, value, texture, and color.
- Demonstrate hand-to-eye coordination and represent drawing and pictorial design by applying freehand drawing.
- Demonstrate an understanding of and analyze the art and architecture of Western civilization.
- Demonstrate an understanding of and analyze the basic elements of three-dimensional design.

ELECTIVES (AS NEEDED TO COMPLETE 64 CREDITS)

Elective courses must be transferable to the university or universities to which the student plans to transfer. See www.aztransfer.com. The Art Department recommends the following: For a two-dimensional emphasis, select ART 216, ART 230, ART 245, ART 280, ART 281, ART 285, ART 286, ART 295, or ART 296; for a three-dimensional emphasis, select ART 270, ART 273, ART 274, ART 275A, ART 290, ART 291, ART 293, or ART 294.

TOTAL DEGREE REQUIREMENTS 64 CREDITS

AUTOMOTIVE TECHNOLOGY

AUTOMOTIVE TECHNOLOGY - ASSOCIATE OF APPLIED SCIENCE (MAJOR CODE - ATC)

The Automotive Technology Associate of Applied Science degree provides students with a working knowledge of the skills required for employment as automotive technicians. It benefits both students seeking marketable skills and experienced automotive technicians looking to upgrade their proficiency and obtain industry certification. Students successfully completing the program will be prepared to take the Automotive Service Excellence (ASE) Automobile & Light Truck Certification tests.

Learning Outcomes

Students who successfully complete this program will be able to do the following:

- Demonstrate the ability to select and use the proper hand tools and equipment for a variety of specific automotive repair tasks.
- Demonstrate the ability to use diagnostic equipment to analyze engine controls and other subsystems.
- Demonstrate the ability to use diagnostic charts, schematics, and meters to analyze faults.
- Demonstrate a general proficiency in areas of the ASE Master Certification Standard: Automobile & Light Truck Certification tests and Automobile Parts Specialist Certification test.

AVIATION

PROFESSIONAL PILOT TECHNOLOGY - ASSOCIATE OF GENERAL STUDIES (MAJOR CODE - PPT)

The Professional Pilot Technology Associate of General Studies degree is certified by the Federal Aviation

Administration (FAA certificate HR8S200Q) under Part 141 of its regulations. The degree program provides students with the knowledge, skills, and ratings necessary to become competent, qualified professional pilots. Areas of study include single-engine, multi-engine, flight instructor, and airline transport. All ratings are offered, and students may enter the program with or without prior flight training or certificates. For those with prior training, placement in the flight portion of the program will depend upon a skills analysis when they enter the program. A normal course of study will progress from the private pilot certificate to an FAA-certified commercial pilot degree with instrument and multi-engine ratings.

Learning Outcomes

Students who successfully complete this program will be able to do the following:

- Demonstrate the knowledge and skills needed to safely exercise the privileges and responsibilities of a commercial/instrument pilot acting as pilot-in-command of a multi-engine airplane.
- Demonstrate the knowledge and skills needed to pass the Commercial Pilot Certificate, multi-engine land rating, as outlined in the appropriate FAA Practical Test Standards and Federal Aviation Regulations.
- Identify aircraft design, engine design, airport and aviation support facilities, and the practical economics of airline operations as they support the air transportation industry.
- Apply knowledge of air traffic control (ATC) technology and terminology, career requirements, components, and the function of the National Airspace System and Terminal.
- Demonstrate an understanding of en-route ATC facilities as they support the ATC system.
- Identify aviation ground operations, technical operations, flight operations, and system operations as they support airline operations and management.
- State highlights in the history of aviation from its very beginnings to current endeavors.
- Explain pilot psychology, physiology, human factors, aircraft technology, crew resource management, and accident review and investigation as they relate to aspects of aviation safety.

**AVIATION DISPATCH - ASSOCIATE OF
GENERAL STUDIES (MAJOR CODE - AVD)**

The Aviation Dispatch Associate of General Studies degree provides students with the knowledge and skills required to take the Federal Aviation Administration written and practical examinations, which are necessary for a career as an aircraft dispatcher.

Learning Outcomes

Students who successfully complete this program will be able to do the following:

- Demonstrate the theoretical knowledge and practical skills to successfully pass the Federal Aviation Administration (FAA) Aircraft Dispatcher Practical Test.
- Analyze and interpret weather and aircraft performance charts, and load reports for aircraft operations.
- Demonstrate resource management skills involved in resolving interpersonal issues and in coordinating and optimizing the interface among dispatchers and machines.
- Demonstrate the ability to resolve conflict among team members, including pilots and maintenance personnel.
- Demonstrate problem-solving skills and aeronautical decision making as they support pilots in making go and no-go decisions related to flight operations.
- Demonstrate the FAA-required knowledge and skills used in the flight planning process.

All prerequisite coursework must be completed with a grade of C or better.

BUILDING CONSTRUCTION TECHNOLOGY

RESIDENTIAL CONSTRUCTION

TECHNOLOGY - ASSOCIATE OF APPLIED SCIENCE (MAJOR CODE - RCT)

The Residential Construction Associate of Applied Science degree helps students develop social consciousness by providing them with an experiential-learning opportunity which involves the construction of homes. Students interpret blueprint drawings and participate in all facets of their construction project while practicing worksite safety. They also learn about climate control in residential construction. Learning Outcomes

Students who successfully complete this program will be able to do the following:

- Identify all necessary stages of a residential construction build.
- Demonstrate the ability to lay a concrete foundation for a residential dwelling.
- Demonstrate the ability to apply wall coverings for a residential dwelling.
- Demonstrate the ability to apply finishing to the exterior of a residential dwelling.
- Demonstrate the ability to construct a functional roof on a residential dwelling.
- Demonstrate the ability to apply floor coverings in a residential dwelling.
- Demonstrate the ability to hang doors and cabinets.
- Identify and apply industry-standard safety strategies and techniques.
- Interpret blueprint drawings.
- Demonstrate mathematical and HVAC skills related to residential construction.

TOTAL DEGREE REQUIREMENTS 60-61 CREDITS

BUILDING CONSTRUCTION TECHNOLOGY - ASSOCIATE OF APPLIED SCIENCE (MAJOR CODE - BCT)

The Building Construction Technology Associate of Applied Science degree is intended for experienced construction workers looking to upgrade their skills and for students seeking employment as construction workers, supervisors, and estimators in the field. It gives students the skills required for the appropriate National Center for Construction Education and Research (NCCER) certification and for most construction apprenticeships. Learning Outcomes

Students who successfully complete this program will be able to do the following:

- Apply industry-recognized competency in various construction skills.
- Demonstrate the ability to follow a blueprint to estimate and build from foundation to finish using carpentry, electrical, plumbing, and HVAC skills.
- Demonstrate the ability to understand and incorporate sustainable (green) practices in the construction field.

TOTAL DEGREE REQUIREMENTS 60 CREDITS

RESIDENTIAL CONSTRUCTION TECHNOLOGY - CERTIFICATE (MAJOR CODE - RCC)

The Residential Construction Technology Certificate helps students develop social consciousness by providing them with an experiential-learning opportunity which involves the construction of homes. Students interpret blueprint drawings and participate in all facets of their construction project while practicing worksite safety.

Gainful Employment

Learning Outcomes

Students who successfully complete this program will be able to do the following:

- Identify all necessary stages of a residential construction build.
- Demonstrate the ability to lay a concrete foundation for a residential dwelling.
- Demonstrate the ability to apply wall coverings for a residential dwelling.
- Demonstrate the ability to apply finishing to the exterior of a residential dwelling.
- Demonstrate the ability to construct a functional roof on a residential dwelling.
- Demonstrate the ability to apply floor coverings in a residential dwelling.
- Demonstrate the ability to hang doors and cabinets.
- Identify and apply industry-standard safety strategies and techniques.
- Interpret blueprint drawings.
- Demonstrate mathematical skills related to residential construction.

TOTAL CERTIFICATE REQUIREMENTS 38 CREDITS

HVAC - CERTIFICATE (MAJOR CODE - HVAC)

The HVAC Certificate in heating, ventilation, and air conditioning prepares students for direct employment in the refrigeration industry by teaching the skills required to service, troubleshoot, and maintain residential and commercial HVAC systems.

Gainful Employment

Learning Outcomes

Students who successfully complete this program will be able to do the following:

- Identify the equipment and controls used in the heating and air conditioning field.
- Troubleshoot and solve problems associated with heating and air conditioning equipment.
- Identify and solve problems dealing with the refrigerants used in air conditioning equipment.
- Demonstrate the knowledge and skills required to take the test for the Environmental Protection Agency (EPA) certification under the Federal Clean Air Act.
- Troubleshoot and solve problems associated with gas heat and heat pump equipment.

Degree Map

CORE CURRICULUM 16 CREDITS

BCT 122	HVAC I‡	4
BCT 222	HVAC II‡	4
BCT 223	HVAC III‡	4

All prerequisite coursework must be completed with a grade of C or better.

CARPENTRY TECHNOLOGY - CERTIFICATE (MAJOR CODE - CTC)

The Carpentry Technology Certificate teaches basic carpentry, framing and finishing, form making, technical mathematics, and blueprint reading skills, all of which prepare students for National Center for Construction Education and Research (NCCER) certification and for eventual employment in the construction trades.

Gainful Employment

Learning Outcomes

Students who successfully complete this program will be able to do the following:

- Demonstrate the ability to apply industry-recognized competency in various carpentry skills.
- Demonstrate the ability to follow a blueprint to estimate and build from foundation to finish.
- Demonstrate the ability to understand and incorporate sustainable (green) practices in the carpentry field.

BCT 202	Carpentry Forms‡	4

TOTAL CERTIFICATE REQUIREMENTS 23 CREDITS

UTILITY INDUSTRY - CERTIFICATE (MAJOR CODE - UI)

The Utility Industry Certificate prepares students for employment as technicians and supervisors in the industry. Students gain an understanding of safety issues that pertain to the industry, and of mathematics, computer, and business communications skills. They then apply these skills in field experience.

Gainful Employment

Learning Outcomes

Students who successfully complete this program will be able to do the following:

- Demonstrate the ability to apply industry-recognized competency in various electrical skills.
- Demonstrate an understanding of electricity and its various functions.
- Follow a blueprint in order to safely and accurately wire various electrical devices while demonstrating an understanding of the functions and grounding requirements of such electrical devices.
- Demonstrate the ability to understand and incorporate sustainable (green) practices in the electrical industry.

BUSINESS

BUSINESS ADMINISTRATION - ASSOCIATE OF BUSINESS (MAJOR CODE - BUSG)

The Business Administration Associate of Business degree prepares students for transfer to a university program in management, marketing, or general business. It also trains them for direct employment in the business world. To ensure seamless transfer, students must develop their specific program of study in close coordination with a Cochise College advisor.

Learning Outcomes

Students who successfully complete this program will be able to do the following:

- Explain the process of maintaining proper accounting records for a business and demonstrate the skills required to maintain such records.
- Demonstrate the ability to interpret and communicate a business' financial information.
- Examine legal and ethical issues from the perspective of a business manager or owner.
- Demonstrate an understanding of the direct issues related to the economic conditions in America and other countries.

Degree Map

CIS 281	Advanced Computer Applications°	3

ELECTIVES (AS NEEDED TO COMPLETE 64 CREDITS)

Elective courses must be transferable to the university or universities to which the student plans to transfer. See www.aztransfer.com.

TOTAL DEGREE REQUIREMENTS 64 CREDITS

Students transferring to Arizona State University, Northern Arizona University, or the University of Arizona should consult the major guides at www.aztransfer.com and see an advisor for specific transfer information.

BUSINESS MANAGEMENT - ASSOCIATE OF APPLIED SCIENCE (MAJOR CODE - BMT)

The Business Management Associate of Applied Science degree prepares students for employment in business management or for transfer to a university Bachelor of Applied Science degree program.

Learning Outcomes

Students who successfully complete this program will be able to do the following:

- Demonstrate an understanding of planning for and operating a business.
- Explain the process of maintaining proper accounting records for a business and demonstrate the skills required to maintain such records.
- Demonstrate the ability to interpret and communicate a business' financial information.
- Demonstrate the knowledge and skills required to be successful in the business management environment.
- Demonstrate an understanding of the basic components needed in business management.

ELECTIVES (AS NEEDED TO COMPLETE 64 CREDITS)

Recommended electives: Students may consider two co-op credits in BUS 224 to gain workplace experience, and any course with a BUS/CIS/ECN prefix. Transfer AAS students should check with transfer school for transferability.

TOTAL DEGREE REQUIREMENTS 64 CREDITS

ENTREPRENEURSHIP/SMALL BUSINESS MANAGEMENT - CERTIFICATE (MAJOR CODE - ENTC)

The Entrepreneurship/Small Business Management Certificate teaches entrepreneurs a wide variety of small business skills. It is designed to develop entrepreneurs and foster economic growth in the community.

Gainful Employment**Learning Outcomes**

Students who successfully complete this program will be able to do the following:

- Explain and effectively pursue the ways businesses are financed.
- Examine legal and ethical issues from the perspective of a business manager or owner.
- Demonstrate the ability to interpret and communicate a business' financial information.
- Demonstrate the ability to lead and manage multiple employees in a day-to-day business environment.

TOTAL CERTIFICATE REQUIREMENTS 30 CREDITS**CHEMISTRY**

CHEMISTRY - ASSOCIATE OF SCIENCE (MAJOR CODE - CHM)

The Chemistry Associate of Science degree prepares students for transfer to a university program in chemistry, biochemistry, chemical engineering, or various health professions. To ensure seamless transfer, students must develop their specific program of study in close coordination with a Cochise College advisor.

Learning Outcomes

Students who successfully complete this program will be able to do the following:

- Calculate the pH, pOH, and the concentration of hydrogen ions and hydroxide ions for strong and weak acid and base solutions.
- Find the solubility of a solute using the solubility product constant and explain the effect a common ion has on solubility.
- Perform an acid-base titration to find the molarity of an acid solution using a base that has been standardized.
- Identify and describe patterns of functional group reactivity through the development of logical mechanistic schemes.
- Successfully complete the synthesis of organic products and their analysis by characterization of their functional groups.

(MAJOR CODE - COM)**

The Communications Associate of Arts degree prepares students for transfer to a university program in speech and communications. To ensure seamless transfer, students must develop their specific program of study in close coordination with a Cochise College advisor.

Learning Outcomes

Students who successfully complete this program will be able to do the following:

- Demonstrate an understanding of, analyze, and articulate basic communication skills and processes as they relate to a variety of communication situations.
- Demonstrate an understanding of, analyze, and articulate the theories and techniques of persuasion.
- Critically analyze oral presentations.
- Research, construct, and deliver public speeches.

COMPUTER INFORMATION SYSTEMS - ASSOCIATE OF APPLIED SCIENCE (MAJOR CODE - CIS)

The Computer Information Systems Associate of Applied Science degree provides broad preparation for entry into the field of information technology. Students develop essential skills in networking, operating systems, programming, database management, productivity applications, and technical communications.

Learning Outcomes

Students who successfully complete this program will be able to do the following:

- Effectively communicate technical concepts to a variety of stakeholders.
- Demonstrate broad knowledge across various types of information systems.
- Exhibit proficiency with the Internet and with World Wide Web technologies.
- Create solutions to typical information systems problems; and demonstrate an understanding of basic information systems functions.
- Utilize spreadsheet applications to support decision making and to facilitate effective problem solving.
- Utilize database applications to support decision making and to facilitate effective problem solving.
- Identify and explain the basic functions, uses, and features of any operating system using proper terminology.
- Describe the major components of a modern networked environment.

TOTAL DEGREE REQUIREMENTS 64 CREDITS

COMPUTER PROGRAMMING - ASSOCIATE OF APPLIED SCIENCE (MAJOR CODE - CPG)

The Computer Programming Associate of Applied Science degree prepares students to develop software applications that meet the needs of various organizations. Students create solutions to different programming issues across a wide range of modern computing environments.

Learning Outcomes

Students who successfully complete this program will be able to do the following:

- Create solutions to typical information systems problems.
- Demonstrate an understanding of basic information systems functions.
- Identify and explain the basic functions, uses, and features of any operating system using proper terminology.
- Describe the major components of a modern networked environment.
- Demonstrate the ability to program in at least three programming languages.
- Describe the features and functions of the Microsoft or Linux workstation operating systems in a client server environment.

COMPUTER SCIENCE - ASSOCIATE OF SCIENCE (MAJOR CODE - CSC)

The Computer Science Associate of Science degree prepares students for transfer to a university program in computer science. To ensure seamless transfer, students must develop their specific program of study in close coordination with a Cochise College advisor and in consultation with a CIS faculty member.

Learning Outcomes

Students who successfully complete this program will be able to do the following:

- Demonstrate mathematical proficiency at the Calculus III level.
- Create solutions to typical information systems problems.
- Correctly design modular programs.
- Correctly design assembler language programs.
- Apply Java language structures.
- Test and debug Java programs.
- Design and implement combinational logic circuits with SSI elements (AND, OR, NOT, NAND, NOR, XOR and XNOR gates).
- Design and implement combinational logic circuits with MSI elements (multiplexors, decoders, adders, comparators, multipliers, tri-state buffers), and programmable logic devices (PLDs).

Degree Map

GENERAL EDUCATION REQUIREMENTS (AGEC-S) 37-39 CREDITS

Composition 6 credits

ENG 101	Composition*°	3
ENG 102	English Composition*°	3

Mathematics 3-5 credits

MAT 220	Calculus I*°	5
	or higher (3-5 credits)	

Laboratory Sciences 8 credits

PHY 230	Physics with Calculus I*‡	4
	AND	
PHY 231	Physics with Calculus II*‡	4

Arts 3 credits

Humanities 3 credits

Social and Behavioral Sciences 6 credits

Additional Mathematics 8 credits

MAT 231	Calculus II*	4
MAT 241	Calculus III*	4

Six credits of arts, humanities, or social and behavioral sciences must be chosen from the current listing of intensive writing courses. See www.cochise.edu/AGEC.

CORE CURRICULUM 25 CREDITS

CIS 120	Introduction to Information Systems*°	3
CIS 206	Assembler with Architecture	4
CIS 208	Java Programming	4
CIS 220J	Data Structures-Java*	4
CIS 221	Digital Logic°	3
CHM 151	General Chemistry I*‡	4
MAT 227	Discrete Mathematics*	3

DEPARTMENT APPROVED ELECTIVES (AS NEEDED TO COMPLETE 64 CREDITS)

Elective courses must be transferable to the university or universities to which the student plans to transfer. See www.aztransfer.com.

TOTAL DEGREE REQUIREMENTS 64 CREDITS

* indicates SUN course. ‡ indicates lab fees. ° indicates online. ~ indicates intensive writing.

All prerequisite coursework must be completed with a grade of C or better.

COMPUTER SCIENCE - ASSOCIATE OF ARTS (MAJOR CODE - CSC)

The Computer Science Associate of Arts degree is designed for students interested in transferring to the University of Arizona South's computer science program. To ensure seamless transfer, students must develop their specific program of study in close coordination with a Cochise College advisor and in consultation with a CIS faculty member.

Learning Outcomes

Students who successfully complete this program will be able to do the following:

- Describe the mechanics of information transfer and control within a digital computer system.
- Design, code, test, and debug Java programs using object-oriented programming techniques in the command line environment.
- Design, code, test, and debug medium-difficulty C programs using structured and modular techniques.
- Correctly employ appropriate utility programs and libraries.
- Correctly design modular programs.
- Design and implement combinational logic circuits with SSI elements (AND, OR, NOT, NAND, NOR, XOR, and XNOR gates).
- Use data structures in solving programming problems.

CIS 220C	Data Structures-C	4

TOTAL DEGREE REQUIREMENTS 65 CREDITS

CYBERSECURITY - ASSOCIATE OF APPLIED SCIENCE (MAJOR CODE - CYB)

The Cybersecurity Associate of Applied Science degree prepares students for employment in the field of information systems security. Major areas of study include network fundamentals, operating systems, network defense, and computer forensics. The courses in this degree combine theory and application in order to develop and implement appropriate information security policies and procedures.

Learning Outcomes

Students who successfully complete this program will be able to do the following:

- Describe cybersecurity threats as they relate to confidentiality, integrity, and availability.
- Describe security ramifications that result from human error and from technology, configuration, and policy weaknesses.
- Secure workstations and servers running current Windows operating system software and test the effectiveness of various security measures.
- Investigate measures that can help ensure business continuity in the event of a disaster, such as contingency planning and power and backup options.
- Analyze network operations risks, conduct network penetration tests, and implement network countermeasures.
- Identify the basic components of a layered structure for network defense architecture; and describe access control objectives and auditing concepts.

LINUX SYSTEM ADMINISTRATOR - CERTIFICATE (MAJOR CODE - LSA)

The Linux System Administrator Certificate teaches the basic Linux operating skills related to user groups, Perl scripting, and system administration.

Learning Outcomes

Students who successfully complete this program will be able to do the following:

- Describe how the Linux operating system functions.
- Use the Linux file and directory system and the Linux vi editor.
- Add, change, and remove users, groups, and peripheral devices.
- Perform routine system administration duties.
- Implement literals, constants, variables, operators, arrays, structures, functions, classes, input and output, and file processing in Perl.
- Demonstrate the design, coding, testing, and debugging of Perl scripts using current computer problem-solving methodologies.
- Implement Dynamic Host Configuration Protocol (DHCP), Domain Name System (DNS), and security on a Linux server.

Degree Map

CORE CURRICULUM 19 CREDITS

CIS 120	Introduction to Information Systems**°	3
CIS 128	Linux Operating System°	4

CIS 248	Perl Scripting°	3
CIS 259	Advanced Linux Systems Administration°	4

TOTAL CERTIFICATE REQUIREMENTS 19 CREDITS

* indicates SUN course. ‡ indicates lab fees. ° indicates online. ~ indicates intensive writing.

All prerequisite coursework must be completed with a grade of C or better.

NETWORK TECHNOLOGY - ASSOCIATE OF APPLIED SCIENCE (MAJOR CODE - NWT)

The Network Technology Associate of Applied Science degree provides students with the knowledge and skills for immediate employment in the field of computer networking. Major areas of study include network fundamentals, Linux, network security, Active Directory, and network troubleshooting.

Learning Outcomes

Students who successfully complete this program will be able to do the following:

- Diagnose and remedy many of the common causes of network failure in current network operating systems.
- Demonstrate the ability to interconnect multiple networks and servers using current network operating systems.
- Install additional PC workstations by using current network technologies and by properly configuring network hardware, software, and user accounts.
- Determine with reasonable accuracy whether network user problems arise from the workstation, network cabling, network configuration, or network application; and take steps to correct the problems.
- Demonstrate proficiency with a variety of networking technologies including, but not limited to, network routing, Linux, and Microsoft.

TOTAL DEGREE REQUIREMENTS 66-67 CREDITS

COMPUTER MAINTENANCE AND REPAIR - CERTIFICATE (MAJOR CODE - COMR)

The Computer Maintenance and Repair Certificate teaches the skills necessary to integrate computer hardware in a modern, increasingly-connected, networked environment. It prepares students for jobs as computer or hardware technicians.

Gainful Employment

Learning Outcomes

Students who successfully complete this program will be able to do the following:

- Install and troubleshoot different operating systems.
- Install and troubleshoot peripheral devices.
- Demonstrate an understanding of the essential hardware components of a computer and how they work together.
- Demonstrate an understanding of effective troubleshooting techniques to resolve common hardware, operating system, and network-related issues.
- Communicate an understanding of the Internet and its supporting protocols.
- Observe the proper implementation of technology solutions.
- Effectively utilize modern productivity software.

TOTAL CERTIFICATE REQUIREMENTS 19 CREDITS

* indicates SUN course. ‡ indicates lab fees. ° indicates online. ~ indicates intensive writing.

All prerequisite coursework must be completed with a grade of C or better.

WEB DEVELOPER - CERTIFICATE (MAJOR CODE - WEBD)

The Web Developer Certificate teaches the skills necessary to develop and maintain websites. It includes instruction in computer systems and networks, operating systems and servers, web page design and editing, user interface design, and scripts for interactivity.

Gainful Employment

Learning Outcomes

Students who successfully complete this program will be able to do the following:

- Develop static and interactive web pages.
- Organize efficient websites.
- Manage information on web pages.
- Develop scripts for interactive connections to databases.
- Design visually appealing pages.
- Demonstrate an understanding of proper web development standards and technologies.

TOTAL CERTIFICATE REQUIREMENTS 26 CREDITS

CISCO AND LINUX NETWORKING - ASSOCIATE OF APPLIED SCIENCE (MAJOR CODE - CLN)

The Cisco and Linux Networking Associate of Applied Science degree prepares students to become networking associates in small to medium-sized businesses. Students develop multi-faceted skills in networking technology and learn to manage Linux-based servers powering the internet.

Learning Outcomes

Students who successfully complete this program will be able to do the following:

- Demonstrate proficiency with the Linux file system, commands, and utilities.
- Describe and apply the methods of securing a network.
- Describe, configure, and troubleshoot serial and broadband connections using debugging and troubleshooting tools.
- Demonstrate advanced management of Linux users and groups.
- Configure and troubleshoot basic operations of Cisco routers in a complex routed network for internet protocol version 4 (IPv4) and internet protocol version 6 (IPv6).

ELECTIVES (AS NEEDED TO COMPLETE THE DEGREE)

* indicates SUN course. ‡ indicates lab fees. ° indicates online. ~ indicates intensive writing.

All prerequisite coursework must be completed with a grade of C or better.

The CIS Department recommends any course from the list of department approved electives.

TOTAL DEGREE REQUIREMENTS 60 CREDITS

CISCO NETWORKING - CERTIFICATE (MAJOR CODE - CNT)

The Cisco Networking Certificate gives a comprehensive overview of networking, from fundamentals to advanced applications and services. It provides students with the knowledge and skills to design networks, and it trains them to install, operate, and maintain secure networks.

Gainful Employment

Learning Outcomes

Students who successfully complete this program will be able to do the following:

- Demonstrate an understanding of networking concepts through the hands-on use of a personal computer.
- Demonstrate the ability to compare and contrast the Open Systems Interconnection (OSI) reference model and the Transmission Control Protocol/Internet Protocol (TCP/IP) suite.
- Demonstrate an understanding of router configuration and operation.
- Demonstrate an understanding of and perform basic and intermediate configurations of a Cisco Internetwork Operating System (IOS)-based device.
- Demonstrate the ability to configure a wide area network (WAN).

CULINARY ARTS

CULINARY ARTS - ASSOCIATE OF APPLIED SCIENCE (MAJOR CODE - CUL)

The Culinary Arts Associate of Applied Science degree provides training in the culinary arts for the purpose of direct employment in the field of professional cooking as an assistant to the chef or to the food and beverage director.

Learning Outcomes

Students who successfully complete this program will be able to do the following:

- Demonstrate the ability to apply sanitation and safety procedures in the use of culinary tools and equipment.
- Demonstrate an understanding of purchasing, receiving, storage, and issuing controls, while applying the basic mathematical formulas for food and labor costs.
- Assemble and serve an international banquet.
- Plan and create a menu that incorporates theme, concept, nutrition, balance of flavor, proper preparation, cooking techniques, terminology, proper serving, and explanation of completed dishes.
- Demonstrate the cooking and leadership skills of a chef de cuisine by employing restaurant-style cookery, to include use of garde manger, saucier, and baking techniques.
- Transfer to a Bachelor of Arts program in the hospitality industry.

CHEF PATISSIER – BAKER’S APPRENTICE - CERTIFICATE (MAJOR CODE - BKRA)

The Chef Pâtissier – Baker’s Apprentice Certificate provides training in the principles of professional baking, food and beverage control, and restaurant sanitation. It is intended for those with a background in cooking who wish to become an assistant baker and work in a bakery.

Gainful Employment

Learning Outcomes

Students who successfully complete this program will be able to do the following:

- Identify and employ equipment and utensils used in baking and discuss their proper use and care.
- Demonstrate the proper selection of equipment and utensils for specific baking applications.
- Identify baking ingredients and describe their functions.
- Demonstrate proper scaling and measurement techniques.
- Apply basic mathematics skills to recipe conversions.

DRAFTING AND DESIGN

COMPUTER-AIDED DRAFTING - CERTIFICATE (MAJOR CODE - CAD)

The Computer-Aided Drafting Certificate teaches computer-aided design (CAD) skills using AutoCAD software. Students generate 2D and 3D technical plans and sketches used by engineers, architects, and other professionals.

Gainful Employment

Learning Outcomes

Students who successfully complete this program will be able to do the following:

- Use the AutoCAD® software program to create drawings from scratch and to modify, manipulate, copy, delete, save, and plot drawings.
- Create and manipulate 3D AutoCAD® drawings and convert 2D drawings to 3D drawings.
- Use the full range of AutoCAD® commands and options, use the keyboard, toolbar, and menu interfaces, and employ shortcuts and time-saving strategies to operate effectively as a CAD technician.
- Demonstrate oral and written communication, computation, and problem-solving skills appropriate to the drafting industry.
- Demonstrate basic knowledge of drafting techniques and blueprint reading.
- Demonstrate knowledge of basic materials and processes used in the current technology workplace.

ECONOMICS

ECONOMICS - ASSOCIATE OF ARTS (MAJOR CODE - ECN)

The Economics Associate of Arts degree prepares students for transfer to a university program in economics or business. To ensure seamless transfer, students must develop their specific program of study in close coordination with a Cochise College advisor.

Learning Outcomes

Students who successfully complete this program will be able to do the following:

- Demonstrate a detailed understanding of the direct issues related to the economic conditions in America and other countries.
- Transfer to an Arizona public university or apply skills to direct employment in the field of economics.
- Explain the process of maintaining proper accounting records for a business, with an emphasis on economics-

* indicates SUN course. ‡ indicates lab fees. ° indicates online. ~ indicates intensive writing.

All prerequisite coursework must be completed with a grade of C or better.

related issues, and demonstrate the skills required to maintain such records.

- Demonstrate the ability to interpret and communicate a business' financial information as it relates to economics.

Degree Map

GENERAL EDUCATION REQUIREMENTS (AGEC-A) 35 CREDITS

TOTAL DEGREE REQUIREMENTS 64 CREDITS

EDUCATION

ELEMENTARY EDUCATION-ASSOCIATE OF ARTS (MAJOR CODE - EED)

The Associate of Arts Elementary Education (AAEE) degree serves two primary groups: (1) future teachers seeking entrance into teacher education programs through transfer to one of Arizona's public universities, and (2) future and currently employed teacher aides seeking to comply with

* indicates SUN course. ‡ indicates lab fees. ° indicates online. ~ indicates intensive writing.

All prerequisite coursework must be completed with a grade of C or better.

federal regulations. The degree allows students to satisfy their Arizona General Education Curriculum (AGEC) requirements and to complete a number of teacher education and/or early childhood education courses. To ensure seamless transfer, students must develop their specific program of study in close coordination with a Cochise College advisor.

Learning Outcomes

Students who successfully complete this program will be able to do the following:

- Analyze public education, the education profession, educational institutions, and educational systems within American society, including the public school setting.
- Demonstrate an understanding of and analyze current educational issues and the role, responsibilities, and qualifications of educators.
- Demonstrate an understanding of and analyze connections between educational theories and methodologies.
- Demonstrate an understanding of special education, current educational practices, and related educational theories.
- Identify gifted children as well as those with emotional, learning, and mental disabilities; manage student transitions; and apply appropriate approaches to accommodating the special education student.
- Demonstrate an understanding of, analyze, and articulate the relationship of cultural values to the formation of the child's self concept and learning style.
- Analyze and articulate the impact of negative influences on the educational process.

ELECTIVES (AS NEEDED TO COMPLETE 64 CREDITS)

Elective courses must be transferable to the university or universities to which the student plans to transfer. See www.aztransfer.com.

TOTAL DEGREE REQUIREMENTS 64 CREDITS

Some students will have more than 64 credits because of varying credits in language, mathematics, and other courses. 64 credits represent the minimum for this degree.

EARLY CHILDHOOD CARE AND EDUCATION - ASSOCIATE OF ARTS (MAJOR CODE - ECE)

The Early Childhood Care and Education Associate of Arts degree prepares students for transfer to a university program in the care and education of young children. It offers in-depth child development theory, practical applications in the workplace, and comprehensive skills for working with children and their families. To ensure seamless transfer, students must develop their specific program of study in close coordination with a Cochise College advisor.

Learning Outcomes

Students who successfully complete this program will be able to do the following:

- Analyze public education, including the workings of a public school; current educational issues and the role, duties, and qualifications of educators; and educational theories and methods.
- Demonstrate an understanding of special education, current educational practices, and related educational theories.
- Identify emotionally disabled, learning disabled, mentally disabled, and gifted children.
- Analyze the relationship of culture on the child's self-concept and learning style.
- Demonstrate an understanding of and analyze children's language growth, literacy development, family and social input, and special cases in relation to the spoken language from birth to age five.
- Examine and analyze childcare or pre-school settings.
- Demonstrate an understanding of, analyze, and articulate the growth and development from conception to middle childhood, including socialization, health, safety, and nutrition.

Degree Map

GENERAL EDUCATION REQUIREMENTS (AGEC-A) 35 CREDITS

Composition 6 credits

ENG 101	Composition*	3
ENG 102	English Composition*	3

Mathematics 3-5 credits

MAT 142	College Mathematics*° or higher (3-5 credits)	3
---------	--	---

Laboratory Sciences 8 credits

Arts 3 credits

ART 120	Appreciation of the Visual Arts OR	3
MUS 260	Music Fundamentals through Experience	3

* indicates SUN course. ‡ indicates lab fees. ° indicates online. ~ indicates intensive writing.

All prerequisite coursework must be completed with a grade of C or better.

Humanities 3 credits**Social and Behavioral Sciences 6 credits****General Education Electives 4-6 credits**

General education electives must be chosen from the general education list. See www.cochise.edu/AGEC.

Six credits of arts, humanities, social and behavioral sciences, or general education electives must be chosen from the current listing of intensive writing courses. See www.cochise.edu/AGEC.

LANGUAGE REQUIREMENT 0-16 CREDITS

Non-English language second- or fourth-semester proficiency. University non-English language requirements vary. Check with an advisor.

CORE CURRICULUM 24 CREDITS

ECE 150	Introduction to Early Childhood Care and Education°	3
EDU 201	Introduction to Education	3
EDU 222	Introduction to Special Education°	3
EDU 226	Cultural Diversity in Education°	3
MAT 154	Mathematics for Elementary Education Majors I°	3
MAT 156	Mathematics for Elementary Education Majors II°	3

Select two of the following three (6 credits):

ECE 155	Children's Language Development°	3
ECE 156	Children's Literature and Literacy°	3
ECE 160	Early Childhood Growth and Development°	3

ELECTIVES (AS NEEDED TO COMPLETE 64 CREDITS)

Elective courses must be transferable to the university or universities to which the student plans to transfer. See www.aztransfer.com.

TOTAL DEGREE REQUIREMENTS 64 CREDITS

Note: Some students will have more than 64 credits because of varying credits in language, math, and other courses; 64 credits represent the minimum for this degree.

EARLY CHILDHOOD CARE AND EDUCATION - ASSOCIATE OF APPLIED SCIENCE (MAJOR CODE - ECE)

The Early Childhood Care and Education Associate of Applied Science degree is designed for those seeking to comply with industry regulations in child care and for those wishing to transfer to a university Bachelor of Applied Science degree program. Completion of this degree does not guarantee state licensure or certification. Students must obtain licensure through appropriate licensing agencies.

Learning Outcomes

Students who successfully complete this program will be able to do the following:

- Demonstrate an understanding of and analyze children's language growth and communication skills, and family and social input in relation to the spoken language from birth to age five.
- Demonstrate an understanding of, analyze, and articulate the growth and development from conception to middle childhood, including socialization, health, mental health, safety, and nutrition.
- Explain the role of cultural and community diversity in the education of young children.
- Select, plan, and present developmentally appropriate practices and create teaching activities that enhance children's optimum growth to age eight.
- Demonstrate an understanding of, analyze, and articulate child development and preschool program management principles and classroom management techniques.

Degree Map**GENERAL EDUCATION REQUIREMENTS 18-19 CREDITS****Composition 6 credits**

ENG 101	Composition*°	3
ENG 102	English Composition*°	3

Mathematics/Laboratory Sciences 3-4 credits

BUS 104	Business Math°	3
	OR	
MAT 142	College Mathematics*° or higher (3-4 credits)	3

Liberal Arts 6 credits

Select two of the following liberal arts courses:

ART 103	Design Fundamentals*‡	3
ART 120	Appreciation of the Visual Arts	3
COM 102	Essentials of Communication*°	3
MUS 101	Introduction to Music	3
PHI 130	Introduction to Ethics*°~	3
PSY 101	Introduction to Psychology*°	3
SOC 101	Introduction to Sociology*°	3
SOC 160	Sociology of Race and Ethnicity*°~	3

* indicates SUN course. ‡ indicates lab fees. ° indicates online. ~ indicates intensive writing.

All prerequisite coursework must be completed with a grade of C or better.

THE 103	Introduction to Theatre°	3
Technology Literacy 3 credits		
CIS 116	Computer Essentials°	3
	OR	
CIS 120	Introduction to Information Systems*°	3

CORE CURRICULUM 33 CREDITS

ECE 150	Introduction to Early Childhood Care and Education°	3
ECE 152	Observation, Behavior, and Guidance°	3
ECE 155	Children's Language Development°	3
ECE 158	Health, Safety, and Nutrition for Young Children°	3
ECE 160	Early Childhood Growth and Development°	3
ECE 161	Understanding Families, Community, and Diversity°	3
ECE 170	Curriculum Development for Early Childhood Education°	3
ECE 172	Teaching Strategies for Early Childhood Education°	3
ECE 173	Administration of Early Childhood Care and Education Programs°	3
EDU 201	Introduction to Education	3
EDU 230	Classroom Relationships°	3

ELECTIVES (AS NEEDED TO COMPLETE 64 CREDITS)

Recommended electives include, but are not limited to, the following: ECE 174, SOC 160, COM 204, PSY 240, EDU 222, and EDU 226. Students should consult an advisor for course selection.

TOTAL DEGREE REQUIREMENTS 64 CREDITS**EDUCATION - ASSOCIATE OF APPLIED SCIENCE (MAJOR CODE - ED)**

The Education Associate of Applied Science degree gives students affiliated with the military an understanding of the fundamental principles and techniques of learner-centric instruction. Emphasis is on the skills needed for training students in military subjects such as intelligence, electronics, and unmanned aerial systems.

THE EDUCATION ASSOCIATE OF APPLIED SCIENCE DEGREE IS RUN THROUGH THE MOS CREDENTIALING PROGRAM ON FORT HUACHUCA AND DOES NOT FOLLOW STANDARD SEMESTER SCHEDULING.

Learning Outcomes

Students who successfully complete this program will be able to do the following:

- Apply the principles of learner-centric instruction.
- Develop appropriate teaching methods to meet the needs of the military and to increase critical thinking skills that promote lifelong learning.
- Apply the skills used in training students in military subjects such as intelligence, electronics, and unmanned aerial systems.

Degree Map**GENERAL EDUCATION REQUIREMENTS 18-19 CREDITS****Composition 6 credits**

* indicates SUN course. ‡ indicates lab fees. ° indicates online. ~ indicates intensive writing.

All prerequisite coursework must be completed with a grade of C or better.

TECHNICAL EDUCATION FACILITATOR - CERTIFICATE (MAJOR CODE - TEF)

The Technical Education Facilitator Certificate teaches students affiliated with the military the theory and skills to serve as adult-learner facilitators. It supports the Army Learning Model, an initiative that emphasizes facilitation over traditional instruction. Emphasis is on increased depth of knowledge, critical thinking skills, and adaptation to an ever-changing environment.

THE TECHNICAL EDUCATION FACILITATOR CERTIFICATE IS RUN THROUGH THE MOS CREDENTIALING PROGRAM ON FORT HUACHUCA AND DOES NOT FOLLOW STANDARD SEMESTER SCHEDULING.

Learning Outcomes

Students who successfully complete this program will be able to do the following:

- Attain employment as an instructor with the Department of the Army, the Department of Defense, or with defense contracting companies.
- Employ the Analysis, Design, Development, Implementation, and Evaluation (ADDIE) instructional design method when creating live, online, or blended lessons.
- Utilize engaging instructional techniques and strategies appropriate for learner-centered technical education.
- Integrate critical thinking skills into learner-centered technical education lessons.
- Apply theoretical and practical mentoring methodologies to promote positive, technical teamwork.

EDU 207	Instructional Design for Adult Education	3

TOTAL CERTIFICATE REQUIREMENTS 16 CREDITS

ELECTRONICS

ELECTRONICS TECHNOLOGY - ASSOCIATE OF APPLIED SCIENCE (MAJOR CODE - ELT)

The Electronics Technology Associate of Applied Science degree prepares students for employment in the field of general electronics and computer systems. Focus is on the study of electricity, analog and digital devices and circuits, measurements, electronic communications, microprocessors,

microcomputers, and computer networking and software applications.

Learning Outcomes

Students who successfully complete this program will be able to do the following:

- Analyze voltage, current, power, resistance, impedance, reactance, and time constants for alternating current and direct current resistive circuits.
- Identify device types, determine expected voltages, and troubleshoot and isolate faults in analog power supply components and semiconductor devices.
- Perform numbering system conversions and calculations, and compare the operation of logic gates, flip-flops, registers, counters, and advanced digital circuits.
- Identify and measure various modulated signals, and interpret the signal characteristics using a spectrum analyzer and oscilloscope.
- Calculate amplifier gain, cable loss, and band pass measurements on radio frequency devices.
- Demonstrate an understanding of the importance and operation of microprocessors and microcomputers in communication systems.
- Create solutions to typical information systems problems; and demonstrate an understanding of basic information systems functions.
- Utilize database applications to support decision making and to facilitate effective problem solving.

ENGINEERING

ENGINEERING - ASSOCIATE OF SCIENCE (MAJOR CODE - EGR)

The Engineering Associate of Science degree prepares students for transfer to a university program in a wide variety of engineering majors. To ensure seamless transfer, students must develop their specific program of study in close coordination with a Cochise College advisor.

Learning Outcomes

Students who successfully complete this program will be able to do the following:

- Demonstrate the ability to apply mathematics and science knowledge and skills in an engineering context.
- Design a system, components, or process to meet given specifications and constraints, including economic, environmental, social, political, ethical, health and safety, manufacturing, and sustainability issues.
- Demonstrate an understanding of professional and ethical responsibility.
- Exhibit the ability to function on multidisciplinary teams.
- Demonstrate a knowledge of the techniques, skills, and modern engineering tools necessary for engineering practice.

TOTAL DEGREE REQUIREMENTS 64 CREDITS

ENGLISH

ENGLISH - ASSOCIATE OF ARTS (MAJOR CODE - ENG)

The English Associate of Arts degree prepares students for transfer to a university program in literature or written communication. To ensure seamless transfer, students must develop their specific program of study in close coordination with a Cochise College advisor.

Learning Outcomes

Students who successfully complete this program will be able to do the following:

- Demonstrate an understanding of and analyze major British authors.
- Demonstrate an understanding of and analyze major American authors.
- Evaluate or critique major British and American authors.

Degree Map

GENERAL EDUCATION REQUIREMENTS (AGEC-A) 35 CREDITS

Non-English language second- or fourth-semester proficiency. University non-English language requirements vary. Check with an advisor.

CORE CURRICULUM 12 CREDITS

ENG 220	British Literature I°~	3
ENG 221	British Literature II°~	3
	200-level literature course	3

Select one of the following (3 credits):

ENG 224	American Literature I°~	3
ENG 225	American Literature II°~	3
ENG 265	Major American Writers~	3

ELECTIVES (AS NEEDED TO COMPLETE 64 CREDITS)

Elective courses must be transferable to the university or universities to which the student plans to transfer. See www.aztransfer.com. The degree requires one of the following American literature courses: ENG 224, ENG 225, or ENG 265. The English Department recommends that students satisfy elective credits by selecting ENG 222, ENG 224, ENG 225, ENG 228, ENG 230, ENG 231, ENG 260, ENG 265, and ENG 273.

TOTAL DEGREE REQUIREMENTS 64 CREDITS

EXERCISE SCIENCE, HEALTH AND PHYSICAL EDUCATION, RECREATION AND WELLNESS

EXERCISE SCIENCE, HEALTH AND PHYSICAL EDUCATION, RECREATION AND WELLNESS - ASSOCIATE OF ARTS (MAJOR CODE - HPES)

The Exercise Science, Health and Physical Education, Recreation and Wellness Associate of Arts degree is intended for students interested in fitness, recreation, or sports, and it is designed for transfer into university degree programs in physical education teaching and/or athletic coaching. To ensure seamless transfer, students must develop their specific program of study in close coordination with a Cochise College advisor.

Learning Outcomes

Students who successfully complete this program will be able to do the following:

- Demonstrate an understanding of and analyze the physical, structural, and functional features of tissues, and of the integumentary, skeletal, muscular, and nervous systems.
- Demonstrate an understanding of and analyze the physical, structural, and functional features of the endocrine, cardiovascular, respiratory, lymphatic, urinary, digestive, and reproductive systems.
- Explain the benefits of, and participate in, activities related to fitness, recreation, or sports.
- Develop an individualized program of diet and exercise.
- Demonstrate an understanding of, analyze, and articulate practical and theoretical applications of current practices necessary for wellness and optimum health.

BIO 202	Human Anatomy and Physiology II*‡	4

BIO 201 requires BIO 156, BIO 181, or passing score on the biology placement exam.

ELECTIVES (AS NEEDED TO COMPLETE 64 CREDITS)

Elective courses must be transferable to the university or universities to which the student plans to transfer. See www.aztransfer.com.

TOTAL DEGREE REQUIREMENTS 64 CREDITS**FIRE SCIENCE TECHNOLOGY****FIRE SCIENCE TECHNOLOGY - ASSOCIATE OF APPLIED SCIENCE (MAJOR CODE - FST)**

The Fire Science Technology Associate of Applied Science degree teaches the complete set of skills needed in today's changing fire service. Through coursework in fire and emergency services, students learn to plan for, respond to, and mitigate various emergency situations. Emphasis is on career advancement.

Learning Outcomes

Students who successfully complete this program will be able to do the following:

- Demonstrate the knowledge and skills required to obtain certification in basic wildland firefighting, hazardous materials emergency response, and first aid and CPR.
- Demonstrate an understanding of fire behavior; and demonstrate abilities in basic firefighter orientation, fitness, and safety, as well as in building construction, rescue, extrication, and basic extinguishment methods.
- Demonstrate entry-level firefighter skills required in ladder applications and in basic fire hose techniques and applications.
- Demonstrate an understanding of fire detection and sprinkler systems, basic causes and origins of fire, and fire education practices.
- Demonstrate the knowledge and skills required to obtain the Firefighter I and II Certification from the state of Arizona through a rigorous testing process.

FST 113	Firefighter Fitness I	3
FST 114	Firefighter Fitness II	3
FST 115	Fire Service Apparatus Driver/Operator‡	3
FST 224	Field Experience in Fire Science Technology	3

ELECTIVES (AS NEEDED TO COMPLETE 64 CREDITS)

Note:

Students must complete EMT 174 with a grade of B or better. To prepare for state or national certification, students must 1) complete EMT 174 with a grade of B or better, 2) pass final exams with a grade of B or better, 3) document ten (10) patient contacts in the field, and 4) be 18 within six months of program completion.

TOTAL DEGREE REQUIREMENTS 64 CREDITS

FIRE SCIENCE TECHNOLOGY - CERTIFICATE (MAJOR CODE - FST)

The Fire Science Technology Certificate teaches the basic skills needed in today's changing fire service. Through coursework in fire and emergency services, students learn to plan for, respond to, and mitigate various emergency situations.

Emphasis is on employability.

Gainful Employment

Learning Outcomes

Students who successfully complete this program will be able to do the following:

- Demonstrate the knowledge and skills required to obtain certification in hazardous materials emergency response.
- Demonstrate the knowledge and skills required to obtain the Firefighter I and II Certification from the state of Arizona through a rigorous testing process.
- Demonstrate an understanding of the practical application of fire service knowledge and skills in the work environment.
- Demonstrate an understanding of the practical application of basic emergency medical skills.

	AND	
PHY 231	Physics with Calculus II*‡	4

Arts 3 credits

Humanities 3 credits

Social and Behavioral Sciences 6 credits

Additional Mathematics and/or Laboratory Sciences 6-8 credits

Based on chosen major and after consulting with an advisor, select MAT 231, MAT 241, MAT 252, MAT 262, and/or appropriate laboratory science courses. See <http://aztransmac2.asu.edu/cgi-bin/WebObjects/agec> for a complete list.

Six credits of arts, humanities, social and behavioral sciences, or general education electives must be chosen from the current listing of intensive writing courses. See www.cochise.edu/AGEC. The cultural and historical or global awareness requirements are satisfied by completing the arts, humanities, and social and behavioral science portion of the AGECS.

TOTAL CERTIFICATE REQUIREMENTS 35-39 CREDITS

HUMANITIES

HUMANITIES - ASSOCIATE OF ARTS (MAJOR CODE - HUM)

The Humanities Associate of Arts degree prepares students for transfer to a university program in the humanities. It comprises a study of history, art, philosophy, music, literature, and film, all in a cultural context. To ensure seamless transfer, students must develop their specific program of study in close coordination with a Cochise College advisor.

Learning Outcomes

Students who successfully complete this program will be able to do the following:

- Demonstrate an understanding of, analyze, and articulate the fundamentals of art, architecture, history, philosophy, music, literature, and film from ancient times to the present.
- Demonstrate an understanding of and articulate the value of the humanities in a cultural context.

HUM 206	Cultural Studies through the Humanities II*~	3

ELECTIVES (AS NEEDED TO COMPLETE 64 CREDITS)

* indicates SUN course. ‡ indicates lab fees. ° indicates online. ~ indicates intensive writing.

All prerequisite coursework must be completed with a grade of C or better.

Elective courses must be transferable to the university or universities to which the student plans to transfer. See www.aztransfer.com. The Humanities Department recommends ART 107, ART 108, ENG 220, ENG 221, ENG 228, HIS 243, HIS 244, HUM 101, HUM 110, HUM 115, HUM 200, and HUM 210.

TOTAL DEGREE REQUIREMENTS 64 CREDITS

INTELLIGENCE OPERATIONS STUDIES

Students should contact an advisor at the Fort Huachuca Center regarding the following areas of concentration:

Counterintelligence	(Major Code - IOST/CI)
General Intelligence	(Major Code - IOST/GIO)
Human Intelligence Collector	(Major Code - IOST/HIC)
Imagery Analyst	(Major Code - IOST/IMA)
Intelligence Analyst	(Major Code - IOST/IA)
Linguist	(Major Code - IOST/LIN)
Military Intelligence Systems Maintainer	(Major Code - IOST/MISM)
Signal Collector Analyst	(Major Code - IOST/SCA)
Signals Intelligence Analyst	(Major Code - IOST/SIA)

INTELLIGENCE OPERATIONS STUDIES - ASSOCIATE OF APPLIED SCIENCE (MAJOR CODE - IOST)

The Intelligence Operations Studies Associate of Applied Science degree addresses the career and educational goals of students currently in or preparing to be in the intelligence field. It is designed specifically for military intelligence specialists and for students who are interested in intelligence operations studies.

Military credit toward this degree may apply, based on skill level, training, and/or coursework from military schools attended. See an academic advisor for details.

Learning Outcomes

Students who successfully complete this program will be able to do the following:

- Demonstrate an understanding of information security programs and procedures used to develop, account for, control, protect, and eventually destroy sensitive information and material.
- Demonstrate the managerial skills required in assessment, decision making, problem solving, and resource allocation for intelligence and counterintelligence operations.
- Demonstrate knowledge of battlefield forensics, communication capabilities, automated intelligence systems, and targeting procedures used by the intelligence community.
- Explain the history, tactics, structure, and technology used by terrorists groups, and demonstrate an understanding of

the methods used by the intelligence community to combat terrorism.

- Demonstrate knowledge of the structure, function, capability, and contributions of the various national intelligence communities, and of the Intelligence, Surveillance and Reconnaissance (ISR) process.

Note: Depending upon area of concentration, additional learning outcomes may apply.

TOTAL DEGREE REQUIREMENTS 60 CREDITS

* indicates SUN course. ‡ indicates lab fees. ° indicates online. ~ indicates intensive writing.

All prerequisite coursework must be completed with a grade of C or better.

Note: A minimum of nine credits, from the 60 total credits in this degree, must be completed with 200-level courses.

JOURNALISM AND MEDIA ARTS

JOURNALISM AND MEDIA ARTS - ASSOCIATE OF ARTS (MAJOR CODE - JMA)

The Journalism and Media Associate of Arts degree prepares students for transfer to a university program in journalism and media arts. Students gain practical experience in news writing by contributing to the online college newspaper. To ensure seamless transfer, students must develop their specific program of study in close coordination with a Cochise College advisor.

Learning Outcomes

Students who successfully complete this program will be able to do the following:

- Demonstrate an understanding of, analyze, and articulate the basics of mass communications media.
- Gather, write, and evaluate news and other kinds of communication in newspapers, television, radio, magazines, wire services, books, movies, computer/digital form, and other media.
- Analyze and articulate news values, interviewing techniques, basic newspaper writing formats, and legal and ethical concerns of media, communication, and journalism professionals.
- Demonstrate an understanding of and analyze public speaking, the fundamentals of speech as they relate to communicating with an audience, and the theories and techniques of persuasion.
- Prepare and critically analyze oral presentations.
- Research, construct, and deliver speeches.

MEDIA PRODUCTION ARTS - ASSOCIATE OF APPLIED SCIENCE (MAJOR CODE - MPA)

The Media Production Arts Associate of Applied Science degree prepares students for entry-level employment as media specialists. Students gain the knowledge and skills necessary to seek careers in media industries such as broadcasting, music and sound production, marketing, and public relations.

Learning Outcomes

Students who successfully complete this program will be able to do the following:

- Understand, analyze, and articulate the fundamentals of speech as they relate to communicating with an audience; create, manipulate, and enhance digital images; and resolve image problems.
- Develop and describe strategies for conducting research, evaluating resources, and citing sources using the World Wide Web; and describe, analyze, and articulate legal issues in the media.
- Identify and detail the news values, interviewing techniques, basic newspaper writing formats, and legal and ethical concerns of media professionals.
- Demonstrate an understanding of, analyze, and articulate the purpose and processes of graphic design, research, and problem solving methodologies.
- Demonstrate, as a member of a production team, the uses of the digital video camera, camera lenses, and computer equipment in portfolio preparation and video production.
- Demonstrate and articulate the uses of still photography, including aspects of the digital medium, including camera, computer, lighting, lens, and composition requirements.
- Identify and evaluate the components and practices of electronic commerce, including advertising, marketing, security, and payment systems.
- Demonstrate the stages and uses of audio production, including recording, sound design, sound editing, audio mixing, and the addition of effects; and demonstrate competency in production in a media industry.

Note: Students pursuing a BAS degree must meet with an advisor to determine the appropriate general education and core curriculum requirements. Additional credits required in the general education block for BAS transfer may be used to fulfill core curriculum or elective requirements.

LOGISTICS

LOGISTICS SUPPLY CHAIN MANAGEMENT - ASSOCIATE OF APPLIED SCIENCE (MAJOR CODE - LGS)

The Logistics Supply Chain Management Associate of Applied Science degree provides students with an understanding of the fundamental principles of logistics and business, and with the working knowledge of inventory control, transportation, and warehouse management required for employment in the field of logistics.

Learning Outcomes

Students who successfully complete this program will be able to do the following:

- Demonstrate the skills required to be a successful leader or manager in the logistics industry.
- Demonstrate an understanding of the intricate details of logistics, inventory control, computerized logistics, and warehouse management.
- Demonstrate an understanding of how to integrate the concepts related to logistics with the business world.
- Apply hands-on experience and knowledge of the logistics industry gained through supervised cooperative education work experience.

ELECTIVES (AS NEEDED TO COMPLETE 64 CREDITS)

Recommended electives: Students may consider 2–3 co-op credits in LGS 224 to gain additional workplace experience, and any course with a BUS/CIS/ECN prefix. Transfer students should check with transfer school for transferability.

TOTAL DEGREE REQUIREMENTS 64 CREDITS

MATHEMATICS

MATHEMATICS - ASSOCIATE OF SCIENCE (MAJOR CODE - MAT)

The Mathematics Associate of Science degree prepares students for transfer to a university program in mathematics, computer science, or natural sciences. To ensure seamless transfer, students must develop their specific program of study in close coordination with a Cochise College advisor.

Learning Outcomes

Students who successfully complete this program will be able to do the following:

- Demonstrate an understanding of mathematical algorithms, definitions, and theorems in solving problems.
- Create, use, and analyze graphical representations of mathematical ideas.
- Write mathematical arguments using appropriate language, logic, and symbols.

MUSIC

MUSIC - ASSOCIATE OF ARTS (MAJOR CODE - MUS)

The Music Associate of Arts degree prepares students for transfer to a university program in music, interdisciplinary arts and performance, or related areas of study. To ensure seamless transfer, students should develop their specific program of study in close coordination with a Cochise College music instructor.

Learning Outcomes

Students who successfully complete this program will be able to do the following:

- Demonstrate an understanding of Western music theory from the Renaissance through the present day.
- Transcribe tonal and atonal passages of music into notation after hearing them.
- Sight sing musical melodies from notation on first view.
- Apply performance practices from various eras of Western art music with a chosen instrument or their voice.
- Collaborate and perform with others using a chosen instrument or one's voice.
- Perform alone using a chosen instrument or one's voice.
- Create original musical compositions.

NURSING

NURSING - ASSOCIATE OF APPLIED SCIENCE (MAJOR CODE - NUR)

Accredited by the Accreditation Commission for Education in Nursing and by the Arizona State Board of Nursing, the Nursing Associate of Applied Science degree teaches about common physical and psychosocial health needs and problems throughout the human lifespan, the body's responses to stressors, alterations in growth and development, and nursing interventions. Concepts include use of the framework for effective communication, philosophies of human development, and the utilization of the nursing process with emphasis on intervention and evaluation. The clinical setting helps students develop competence in discharge planning, community nursing, and leadership. Students utilize knowledge of new developments in health care to adapt to changes in the field and to be proactive in the nursing profession.

Students are required to complete program prerequisites prior to admission and must complete courses in the order outlined in the program.

Upon completion of the program, students are eligible to take the National Council Licensure Examination (NCLEX-RN) to be licensed by the State Board of Nursing as a registered nurse. Acceptance into the nursing program does not guarantee successful completion. Class attendance and clinical experience, which involves travel to various locations in Cochise County and elsewhere, are required. Experience in multiple clinical agencies is essential for completion of the program. Any potential legal impediment to licensure must be made known to the Nursing Department before assignment to any clinical agency. Completion of the program does not guarantee licensure by the Arizona State Board of Nursing.

Learning Outcomes

Students who successfully complete this program will be able to do the following:

- Deliver safe, competent, and quality patient-centered nursing care.
- Integrate biopsychosocial and scientific principles when providing technically competent care to groups of individuals and families in a variety of healthcare settings.
- Implement the nursing process, quality care, safety, caring, the wellness continuum, and lifespan diversity in providing care.
- Collaborate as a healthcare team member to manage the care of groups of individuals and families in a variety of healthcare settings.
- Delegate activities appropriately to manage the care of groups of individuals and families in a variety of healthcare settings.
- Utilize critical thinking skills, evidence-based practice, teamwork, and informatics to manage care.

- Demonstrate culturally sensitive, professional values and behaviors in legal and ethical situations.
- Exhibit accountability, lifelong learning, and dedication to the roles and responsibilities of the nursing profession.

PRACTICAL NURSING - CERTIFICATE (MAJOR CODE - PN)

The Practical Nursing Certificate prepares students to become Licensed Practical Nurses by enabling them to provide nursing care to clients of all ages across all cultures. Emphasis is on theory applied through laboratory and clinical experiences. Upon successful completion students are eligible to take the National Council Licensure Examination (NCLEX-PN) for licensing by the Arizona State Board of Nursing as practical nurses.

Gainful Employment**Learning Outcomes**

Students who successfully complete this program will be able to do the following:

- Demonstrate the knowledge and skills required for practical nursing certification by the Arizona State Board of Nursing.
- Demonstrate skills in patient safety, medication administration, the nursing process, and specific patient care.
- Demonstrate skills in cardiopulmonary resuscitation (CPR) and basic first aid.
- Recognize human differences and demonstrate cultural competence as managers of client care.
- Apply professional values and behaviors as acculturated members of the nursing profession.

TOTAL CERTIFICATE REQUIREMENTS 32 CREDITS**PHILOSOPHY**

PHILOSOPHY - ASSOCIATE OF ARTS (MAJOR CODE - PHI)

The Philosophy Associate of Arts degree prepares students for transfer to university programs in a variety of disciplines. To ensure seamless transfer, students must develop their specific program of study in close coordination with a Cochise College advisor.

Learning Outcomes

Students who successfully complete this program will be able to do the following:

- Identify, analyze, and articulate the history, key figures, and major branches of philosophy.
- Conduct critical reading of selected classical and contemporary texts and analyze their connections to the individual, to society, and to other bodies of knowledge.
- Engage in oral argumentation and write critical or analytical essays.
- Identify, analyze, and articulate the elements of formal logic, symbolic logic, logical fallacies, induction, argument, and language.
- Identify, analyze, and articulate the elements of moral philosophy with emphasis on the philosophical analysis of contemporary issues.

Six credits of arts, humanities, social and behavioral sciences, or general education electives must be chosen from the current listing of intensive writing courses. See www.cochise.edu/AGEC.

LANGUAGE REQUIREMENT 0-16 CREDITS

Non-English language second- or fourth-semester proficiency. University non-English language requirements vary. Check with an advisor.

CORE CURRICULUM 9 CREDITS

PHI 111	Introduction to Western Philosophy*~	3
PHI 113	Introduction to Logic*~	3
PHI 130	Introduction to Ethics*~	3

ELECTIVES (AS NEEDED TO COMPLETE 64 CREDITS)

Elective courses must be transferable to the university or universities to which the student plans to transfer. See www.aztransfer.com.

TOTAL DEGREE REQUIREMENTS 64 CREDITS

PHYSICS

PHYSICS - ASSOCIATE OF SCIENCE (MAJOR CODE - PHY)

The Physics Associate of Science degree prepares students for transfer to a university program in physics, physical science, or astronomy. To ensure seamless transfer, students must develop their specific program of study in close coordination with a Cochise College advisor.

Learning Outcomes

Students who successfully complete this program will be able to do the following:

- Identify, formulate, and solve basic physics problems in classical mechanics related to the motion of objects.
- Identify, formulate, and solve basic physics problems in electromagnetism related to electricity, magnetism, and electromagnetic fields.
- Integrate natural sciences to build a solid foundation in physics applications using appropriate mathematical skills.
- Design simple physics experiments based on the scientific method. Acquire the results of these experiments by analyzing and collecting data.

TOTAL DEGREE REQUIREMENTS 64 CREDITS

SOCIAL AND BEHAVIORAL SCIENCES

SOCIAL AND BEHAVIORAL SCIENCES - ASSOCIATE OF ARTS (MAJOR CODE - SBS)

The Social and Behavioral Sciences Associate of Arts degree prepares students for transfer to a university program in anthropology, history, political science, psychology, sociology, or related areas of study. To ensure seamless transfer, students must develop their specific program in close coordination with a Cochise College advisor and in cooperation with department faculty.

Learning Outcomes

Students who successfully complete this program will be able to do the following:

- Understand, analyze, and articulate the major topics in the social and behavioral sciences including anthropology, history, political science, psychology, and sociology.
- Demonstrate an understanding of, analyze, and articulate human biological origins, based upon paleontological and archaeological records.
- Analyze the effects of environment and geography on human evolution and cultural development and on the human physical and cultural development process.
- Critically analyze the evolution of the United States' political, economic, social, cultural and geographic

* indicates SUN course. ‡ indicates lab fees. ° indicates online. ~ indicates intensive writing.

All prerequisite coursework must be completed with a grade of C or better.

development from colonization to the present, and evaluate the causes and consequences of historical events.

- Critically analyze political events, persons, processes and principles, institutions, forces, theories, and practices.
- Identify and evaluate the historical, political, social, and economic forces that have shaped present-day United States government, as well as the underpinnings of the United States Constitution.
- Differentiate among and describe each of the key concepts, principles, and perspectives in psychology.
- Use basic psychological terminology, concepts, and theories in psychology to explain behavior and mental processes.
- Describe the sociological concepts of socialization, social interaction, culture, deviance, social control and forces, marginalization, global interdependence, social stratification, social organizations, race, ethnicity, gender, social roles and statuses, discrimination, and prejudice.
- Identify and detail the conceptual framework of the primary sociological theorists and of the fundamental sociological perspectives.
- Describe the evolution of sociology from the primary theorists through the Chicago school to the present.

TOTAL DEGREE REQUIREMENTS 64 CREDITS**THEATRE ARTS****THEATRE ARTS - ASSOCIATE OF ARTS
(MAJOR CODE - THE)**

The Theatre Arts Associate of Arts degree prepares students for transfer to a university program in drama production, education, or theory. To ensure seamless transfer, students must develop their specific program of study in close coordination with a Cochise College advisor.

Learning Outcomes

Students who successfully complete this program will be able to do the following:

- Demonstrate an understanding of and analyze theories of dramatic art and practice in acting situations: basic acting techniques, theatrical vocabulary and comportment, and character and script analysis.
- Demonstrate an understanding of, analyze, and articulate the history and tradition of Western theatre and its representative drama, from classical to contemporary.
- Examine and apply advanced techniques of acting through physical and vocal expression, improvisation, and scene work, with emphasis on the actor's approach to characterization.
- Demonstrate an understanding of, analyze, and articulate the structural elements of major dramatic forms and styles.
- Review representative plays and analyze their structures in relationship to modes of presentation and the resulting effects.

UNMANNED AIRCRAFT SYSTEMS

UNMANNED AERIAL VEHICLE FLIGHT OPERATOR - ASSOCIATE OF APPLIED SCIENCE (MAJOR CODE - UAVO)

The Unmanned Aerial Vehicle Flight Operator Associate of Applied Science degree is designed for unmanned aerial vehicle (UAV) flight operators currently in the military who are seeking to improve their credentials and career prospects in the field. It focuses on aviation systems and the flight operation of UAVs.

Military credit toward this degree may apply, based on skill level, training, and/or coursework from military schools attended. See an academic advisor for details.

THE UNMANNED AERIAL VEHICLE FLIGHT OPERATOR ASSOCIATE OF APPLIED SCIENCE DEGREE IS RUN THROUGH THE MOS CREDENTIALING PROGRAM ON FORT HUACHUCA AND DOES NOT FOLLOW STANDARD SEMESTER SCHEDULING.

Learning Outcomes

Students who successfully complete this program will be able to do the following:

- Apply the techniques required to effectively employ and retrieve an unmanned aerial vehicle (UAV) in modern operational environments.
- Demonstrate an understanding of aviation regulations and communications, and of the UAV's aerodynamic characteristics, special features, and major components.
- Apply the knowledge and skills required to safely operate the aircraft.
- Perform reconnaissance, surveillance, and target acquisition in support of ground forces.
- Demonstrate the skills required to interpret UAV electro-optical and infrared video, and provide rapid feedback on target identification and activities.

UNMANNED AIRCRAFT SYSTEMS TECHNICIAN - ASSOCIATE OF APPLIED SCIENCE (MAJOR CODE - UAVT)

The Unmanned Aircraft Systems Technician Associate of Applied Science degree is designed for unmanned aircraft systems (UAS) technicians currently in the military who are seeking to improve their credentials and career prospects in the field. It focuses on mechanical and electronic aircraft systems.

Military credit toward this degree may apply, based on skill level, training, and/or coursework from military schools attended. See an academic advisor for details.

THE UNMANNED AIRCRAFT SYSTEMS TECHNICIAN ASSOCIATE OF APPLIED SCIENCE DEGREE IS RUN THROUGH THE MOS CREDENTIALING PROGRAM ON FORT HUACHUCA AND DOES NOT FOLLOW STANDARD SEMESTER SCHEDULING.

Learning Outcomes

Students who successfully complete this program will be able to do the following:

- Demonstrate the knowledge and skills required to use specialty tools and to perform maintenance inspections, assembly, disassembly, and fault isolation of aircraft systems.
- Perform required maintenance on launch and recovery equipment and the power plant, and on the fuel system, flight control system, electrical system, and arresting gear and landing system.
- Apply the skills required to maintain, troubleshoot, and repair launch and recovery equipment, and support equipment.
- Apply the skills required to maintain, troubleshoot, and repair the ground control station and the ground data terminal, as well as aircraft avionics and mission payloads.
- Demonstrate the skills required in the emplacement and displacement of Shadow Unmanned Aircraft Systems (UAS).

WELDING TECHNOLOGY

WELDING TECHNOLOGY - ASSOCIATE OF APPLIED SCIENCE (MAJOR CODE - WLD)

The Welding Technology Associate of Applied Science degree is designed to prepare students to enter the workforce in almost any facet of the diverse field of welding technology. It addresses the needs of beginners as well as those of experienced welders looking to upgrade their skills and certifications.

Learning Outcomes

Students who successfully complete this program will be able to do the following:

- Demonstrate appropriate safe work habits when operating oxyfuel and electric arc welding equipment.
- Use proper terminology associated with welding to communicate effectively with co-workers, supervisors, customers, inspectors, engineers, and vendors.
- Successfully perform welding operations using appropriate processes on various metals and in various situations.

GENERAL WELDING TECHNOLOGY - CERTIFICATE (MAJOR CODE - GWLD)

The General Welding Technology Certificate prepares students to enter the workforce with diverse welding skills.

Gainful Employment

Learning Outcomes

Students who successfully complete this program will be able to do the following:

- Demonstrate appropriate safe work habits when operating oxyfuel and electric arc welding equipment.
- Use proper terminology associated with welding to communicate effectively with co-workers, supervisors, customers, inspectors, engineers, and vendors.
- Successfully perform basic welding operations using appropriate processes on various metals and in various situations with an emphasis on the shielded metal arc welding (SMAW) process.
- Demonstrate the ability to interpret blueprints and welding symbols in order to fabricate components.

Courses

Hazardous materials: Certain courses may require students to work with potentially hazardous materials as part of their course work in the laboratory, darkroom, or workshop. Instructors will provide information on the safe handling of all materials to include, upon request, material safety data sheets (MSDS). Questions regarding the use of these materials or any required protective equipment should be directed to the instructor or a member of the specific academic department.

AGR - AGRICULTURE

AGR 101 - Principles of Veterinary Science (3)

A study of the diseases and the health maintenance of domestic animals and livestock. For those interested in animal science or husbandry, or in veterinary science.

3 hours lecture.

Prerequisite(s): None.

AGR 102 - Introduction to Agriculture (3)

An introduction to agriculture which focuses on livestock production. Also deals with plants, soils, biotechnology, natural resources, and sustainable agriculture as it relates to the global food industry. Includes a survey of agricultural careers and safety practices.

3 hours lecture.

Prerequisite(s): None.

AGR 105 - Range Management (3)

An introduction to the principles of range management including rangeland types, characteristics, and management; ecological principles; range inventory and monitoring systems; grazing systems and stocking rates; grazing distribution and range plant identification; and management of range vegetation and wildlife. Also deals with livestock production on rangelands and career opportunities in range management.

3 hours lecture.

Prerequisite(s): ENG 096 or higher.

AGR 135 - Introduction to Crop Science (3)

A study of crop science including plant physiology as well as plant species and varieties. Covers horticultural crops, row orchards, cover crops, and weed science. Explores plant breeding and plant requirements such as fertilizers, soil conditions, and harvesting.

3 hours lecture.

Prerequisite(s): None.

AGR 142A - Varsity Rodeo I (1)

Designed to provide the rodeo student-athlete with a knowledge of the rules and with the elementary skills and strategies necessary to compete at the intercollegiate level.

1 hour lecture, 3 hours laboratory.

Prerequisite(s): Students must try out for the rodeo team.

AGR 142B - Varsity Rodeo II (1)

Designed to provide the rodeo student-athlete with the basic skills and strategies necessary to compete at the intercollegiate level.

1 hour lecture, 3 hours laboratory.

Prerequisite(s): AGR 142A or permission of instructor.

AGR 142C - Varsity Rodeo III (1)

Designed to provide the rodeo student-athlete with the intermediate skills and strategies necessary to compete at the intercollegiate level.

1 hour lecture, 3 hours laboratory.

Prerequisite(s): AGR 142B or permission of instructor.

AGR 142D - Varsity Rodeo IV (1)

Designed to provide the rodeo student-athlete with the advanced skills and strategies necessary to compete at the intercollegiate level.

1 hour lecture, 3 hours laboratory.

Prerequisite(s): AGR 142C or permission of instructor.

AGR 208 - Animal Science (4) ‡

An introduction to animal science as it relates to nutrition, digestion, breeding, and reproduction. Includes an overview of global agricultural systems and of the fundamental principles of the animal science industries as they relate to dairy, beef, poultry, and swine.

3 hours lecture, 3 hours laboratory.

Prerequisite(s): AGR 102.

AGR 214 - Soil Science (4) ‡

A study of the fundamental principles of soil science including the origin, nature, and composition of soils; their chemical, physical, and biological properties in relation to plant growth; and their non-plant uses.

3 hours lecture, 3 hours laboratory.

Prerequisite(s): CHM 130, CHM 138, or CHM 151.

AGR 220 - Agriculture Practicum (4)

In this practicum, students apply knowledge from their agriculture coursework in a work setting. They complete 320 supervised hours in their area of interest with a professional from the agricultural industry.

1 hour lecture, 11 hours laboratory.

* indicates SUN course. ‡ indicates lab fees. ° indicates online. ~ indicates intensive writing.

All prerequisite coursework must be completed with a grade of C or better.

Prerequisite(s): AGR 102 or AGR 237, sophomore standing, a declared major in agriculture, and approval of the agriculture committee.

AGR 225 - Principles of Agribusiness (3)

An introduction to the principles of economics and their application to real world agribusiness management. Topics include food production and processing, and marketing systems. Also covers management principles and processes for agricultural business firms in both domestic and international markets, as well as the development of problem-solving skills as they relate to agribusiness management.

3 hours lecture.

Prerequisite(s): MAT 091 or higher.

AGR 230 - Feeds and Feeding (3)

A study of the digestibility of feeds and their nutritive values, grades, and classes. Also covers the principles of selection, evaluation, traditional ration formulation, computer ration formulation, and feeding of livestock and poultry. Includes laws and labeling as they pertain to feeds, and a review of animal nutrition and ruminant and monogastric digestion.

3 hours lecture.

Prerequisite(s): AGR 208 or AGR 237; and CHM 130, CHM 138, or CHM 151.

AGR 235 - Introduction to Entomology (3)

An introduction to entomology as it pertains to agronomy. Topics include insects and their physiology, growth, and life cycles. Emphasis is on the classification of insects and their economic importance to and impact on the environment.

Students create their own insect collections.

2 hours lecture, 2 hours laboratory.

Prerequisite(s): AGR 135.

AGR 237 - Equine Science and Management (4) ‡

An introduction to the light horse industry. Topics include the evolution and fundamentals of Equus, as well as breeds, classes, and methods of identification. Also covers anatomical systems, the hoof, nutrition, disease, health management, and daily care. Introduces the student to various career opportunities in the equine industry.

3 hours lecture, 3 hours laboratory.

Prerequisite(s): ENG 096 or higher.

AGR 243 - Livestock Production and Management (3)

A study of the operational methods of livestock production utilized in the breeding and managing of beef and dairy cattle, swine, sheep, and goats. Emphasis is on economically important traits, animal selection, marketing and management, and on the economic principles of the livestock industry. Covers the impact of biotechnology on livestock. Additional topics include genetic defects, body conditioning scoring techniques within species, and current domestic and global trends in livestock production. Introduces the student to various career opportunities in livestock production.

3 hours lecture.

Prerequisite(s): AGR 102 and AGR 208.

AGR 255 - Sustainable Use of Natural Resources (3)

A study of the conservation and sustainable management of natural resources which exposes students to various careers in environmental science. Topics include social and ecological issues and how they affect policies at local, state, and national levels. Also covers soil, water, grazing, forestry, and wildlife as well the influence of humans on these resources.

3 hours lecture.

Prerequisite(s): AGR 105.

AGR 264 - Crop Consulting (4)

A study of crop consulting and its importance to the crop growing industry. Topics include crop needs, crop seasonality, and plant varieties. Also covers herbicides and fertilizers, integrated pest management, plant disorders, and irrigation management. Explores cost forecasting, business model options, and crop growing plans as they relate to the industry.

3 hours lecture, 3 hours laboratory.

Prerequisite(s): None.

AJS - ADMINISTRATION OF JUSTICE

AJS 101 - Introduction to Administration of Justice (3) *, °

A study of the philosophy, ethics, constitutional parameters, and organization of the criminal justice system. Also deals with legal terminology. Topics include causes of and responses to crime; the criminal justice system's law enforcement, judicial, and corrections components and their respective jurisdictions; and criminal justice issues.

3 hours lecture.

Prerequisite(s): RDG 092 or exemption.

AJS 109 - Substantive Criminal Law (3) °

A study of the philosophy of legal sanctions and their historical development, from common law to modern American criminal law. Topics include the judicial process, the classification of crimes, the elements of a crime, parties to a crime, inchoate offenses, and criminal defenses.

3 hours lecture.

Prerequisite(s): AJS 101, and RDG 092 or exemption.

AJS 192 - Special Topics in Administration of Justice (0.5-3) °

Seminars designed for professional development and personal skill enhancement within the criminal justice career field with emphasis on the mastery and effective utilization of the topic under study.

Prerequisite(s): Varies by topic. Permission of instructor or Administration of Justice department.

AJS 204 - Elements of Intercultural Communication (3) °, ~

* indicates SUN course. ‡ indicates lab fees. ° indicates online. ~ indicates intensive writing.

All prerequisite coursework must be completed with a grade of C or better.

An introduction to communication across cultures. Emphasis is on the theory underlying intercultural communication and on the practical application of communication strategies and skills that lead to improved communication among people of diverse cultural backgrounds in a multicultural society and world.

3 hours lecture.

Prerequisite(s): ENG 101 or permission of instructor. Cross-Listed as: COM 204.

AJS 224 - Field Experience in Administration of Justice (1-3)

A supervised cooperative education field experience involving the combined efforts of educators and employers. Students accomplish various academic and career-related objectives in administration of justice and related fields. Semester-long regular workplace participation and weekly contact with assigned faculty advisor are required.

Prerequisite(s): A declared major in administration of justice and AJS 101.

AJS 225 - Criminology (3) °

The study of deviance and the role of social context in defining criminal behavior. Covers theories of criminality; the economic, social, and psychological impact of crime; societal responses; and crime trends.

3 hours lecture.

Prerequisite(s): AJS 101, ENG 101, and RDG 092 or exemption. Recommended Preparation: PSY 101 or SOC 101.

AJS 230 - The Police Function (3) °

A study of the theories, procedures, and operational methods of public policing. Examines police discretion and ethics. Also acquaints students with the philosophy of community policing as well as current trends in law enforcement, and with career opportunities in the field.

3 hours lecture.

Prerequisite(s): AJS 101, ENG 101, and RDG 092 or exemption.

AJS 240 - The Correction Function (3) °

A study of the history and development of correctional theories and institutions. Includes the history of corrections and punishments in the United States. Also explores the purposes of punishment, and staff and inmate rights and issues.

3 hours lecture.

Prerequisite(s): AJS 101, ENG 101, and RDG 092 or exemption.

AJS 260 - Procedural Criminal Law (3) °

This course is an introduction to major court holdings, procedural requirements that stem from these holdings, and their effect on daily operations of the criminal justice system.

3 hours lecture.

Prerequisite(s): AJS 101, ENG 101, and RDG 092 or exemption.

AJS 275 - Criminal Investigations (3)

A study of the theory of criminal investigation, crime scene procedures, case preparation, interviewing, and basic investigative techniques.

3 hours lecture.

Prerequisite(s): AJS 101, ENG 101, and RDG 092 or exemption.

AMT - AVIATION MAINTENANCE TECHNOLOGY

AMT 210 - Unmanned Aircraft Systems Fundamentals (6)

An introduction to the fundamentals and maintenance of unmanned aircraft systems (UAS). Includes operational safety, basic flight principles, aviation maintenance fundamentals, common and precision tool usage, and maintenance management systems.

3 hours lecture, 9 hours laboratory.

Prerequisite(s): Must be a sponsored employee of the Department of Defense (DOD) or of a DOD UAS contractor.

AMT 212 - Unmanned Aircraft Systems Mechanical Maintenance (14)

A study focusing on the maintenance and repair of unmanned aircraft systems (UAS). Emphasis is on assembly and disassembly, periodic inspection, scheduled maintenance, preparation for flight, and repair. Includes takeoff and landing systems, aircraft operations, ground control stations, ground data terminals, and equipment used to perform operational checks.

8 hours lecture, 18 hours laboratory.

Prerequisite(s): Must be a sponsored employee of the Department of Defense (DOD) or of a DOD UAS contractor.

ANT - ANTHROPOLOGY

ANT 101 - The Origin and Antiquity of Humankind (3) °

A survey of human biological origins, based upon paleontological records, archaeological records, and recent developments in physical anthropology. Includes an exploration of evolutionary theory, archaeological methods, ancient civilizations, and New World civilizations.

3 hours lecture.

Prerequisite(s): RDG 092 or exemption.

ANT 102 - Society and Culture (3) °

A theoretical and practical introduction to cultural anthropology, which studies the cultural forces affecting the human way of life. Examines the history of Western culture as well as contemporary issues related to human culture. Topics include material culture, technology, religion, language, and social, political, and economic systems.

3 hours lecture.

Prerequisite(s): RDG 092 or exemption.

* indicates SUN course. ‡ indicates lab fees. ° indicates online. ~ indicates intensive writing.

All prerequisite coursework must be completed with a grade of C or better.

ANT 110 - Exploring Archaeology (3) °

An archaeological exploration tracing human cultural development from the earliest cultures using stone tools to the initial civilizations of the Old and New Worlds.

3 hours lecture.

Prerequisite(s): RDG 092 or exemption.

ANT 235 - Principles of Archaeology (3) °, ~

An introduction to the methods used in archaeological research and its interpretation, and to the theories used to reconstruct human prehistory. Emphasis is on the practical aspects of archaeology, including excavation techniques, and data analysis and interpretation.

3 hours lecture.

Prerequisite(s): ENG 101, and RDG 092 or exemption.

ANT 286 - Historic Indian Tribes of North America (3) ~

A history of the development of Native American cultures in the ten North American environmental regions, from their origins to the present. Topics include economic and social development, and contemporary political and cultural issues.

3 hours lecture.

Prerequisite(s): ENG 101, and RDG 092 or exemption.

ANT 287 - Archaeology of the Southwest (3) °, ~

A study of the prehistoric peoples of the American Southwest from the late Pleistocene period to the Spanish Conquest. Emphasis is on the use of archaeological methods to trace the development of prehistoric cultures within key regions of the Southwest.

3 hours lecture.

Prerequisite(s): ENG 101, and RDG 092 or exemption.

ANT 299 - Individual Studies (1-4)

Completion of a research problem or an outlined course of study under the direction of a faculty member with contract for the individual study agreed upon by the student, the instructor, and the appropriate instructional manager prior to initiation of the study.

Prerequisite(s): Approval of appropriate instructional manager and instructor.

ART - ART**ART 103 - Design Fundamentals (3) *, ‡**

An introduction to the basic elements of design: line, shape, value, texture, and color. Students learn to arrange these elements according to the basic principles of organization (harmony and variety) in a two-dimensional or a three-dimensional framework. For those interested in art as a career, or for personal growth and self-expression.

2 hours lecture, 4 hours studio.

Prerequisite(s): None.

ART 106 - Drawing I (3) *, ‡

An introduction to representational drawing and pictorial design with local landscapes, still-life objects, and photographs as subject matter. Emphasis is on freehand drawing to improve hand-eye coordination. Students are also encouraged to use their imagination and memory in the development of artistic ideas. For those interested in art as a career, or for personal growth and self-expression.

2 hours lecture, 4 hours studio.

Prerequisite(s): None.

ART 107 - Survey of World Art: Prehistoric - Gothic (3) *, °

A survey presentation of the art and architecture of Western civilizations through the Gothic era, including prehistoric cultures of the world.

3 hours lecture.

Prerequisite(s): RDG 092 or exemption.

ART 108 - Survey of World Art: Renaissance to the Twentieth Century (3) *, °

A survey presentation of the art and architecture of Western civilizations from the Renaissance through the 20th century.

3 hours lecture.

Prerequisite(s): RDG 092 or exemption.

ART 120 - Appreciation of the Visual Arts (3)

A general overview of the visual arts, including philosophies, history, techniques, various media, and elements of design. Fulfills the art education requirement for teacher certification at the University of Arizona.

3 hours lecture.

Prerequisite(s): ENG 096 or higher.

ART 130 - Painting for Personal Development I (2) ‡

An introduction to the techniques of either oil or acrylic painting, with an emphasis on materials and composition. For those interested in art as a career, or for personal growth and self-expression.

1 hour lecture, 3 hours studio.

Prerequisite(s): None. Recommended Preparation: ART 103.

ART 131 - Painting for Personal Development II (2) ‡

A continued study of either oil or acrylic painting, with emphasis on developing unique, expressive pictorial skills. For those interested in art as a career, or for personal growth and self-expression.

1 hour lecture, 3 hours studio.

Prerequisite(s): ART 130 or permission of instructor.

ART 216 - Drawing II (3) ‡

A continued study of representational drawing and pictorial design with local landscapes, still-life objects, and photographs as subject matter. Students use their creative initiative to develop individual projects, and they further improve their hand-eye coordination. For those interested in art as a career, or for personal growth and self-expression.

2 hours lecture, 4 hours studio.

* indicates SUN course. ‡ indicates lab fees. ° indicates online. ~ indicates intensive writing.

All prerequisite coursework must be completed with a grade of C or better.

Prerequisite(s): ART 106 or permission of instructor.
 Recommended Preparation: In addition, art majors must have ART 103 or permission of instructor.

ART 220 - Printmaking I (3) ‡

An introductory course in printmaking as a visual language of expression. Various relief printmaking processes are addressed through the exploration of basic tools, equipment and techniques used in these processes. Emphasis is placed on the proper use of the tools and equipment and the development of skills pertaining to form and content in the creation of individual works of art.

2 hours lecture, 4 hours studio.

Prerequisite(s): ART 103, ART 106, or permission of instructor. Recommended Preparation: ART 216 and ART 245.

ART 225 - Printmaking II (3) ‡

An intermediate course in printmaking as a visual language of expression. Various relief printmaking processes are addressed through the exploration of basic tools, equipment and techniques used in these processes. Emphasis is placed on the proper use of the tools and equipment and the continued development of skills pertaining to form and content in the creation of individual works of art.

2 hours lecture, 4 hours studio.

Prerequisite(s): ART 220 and either ART 103, ART 106, or permission of instructor. Recommended Preparation: ART 216 and ART 245.

ART 230 - Color and Design (3) ‡

Continued investigations into the elements and principles of design including line, shape, value, texture, and color within a two-dimensional framework. A variety of media and techniques will be used, and an emphasis will be placed on color and design theory.

2 hours lecture, 4 hours studio.

Prerequisite(s): None.

ART 231 - Three-Dimensional Design and Sculpture (3) *, ‡

An introduction to the basic elements of three-dimensional design: form, volume, space, mass, line, plane, proportion, balance, texture, structure, and site. Focus is on arranging these elements within a three-dimensional framework through techniques such as sculpting, carving, building, and assembling. For those interested in art as a career, or for personal growth and self-expression.

2 hours lecture, 4 hours studio.

Prerequisite(s): None. Recommended Preparation: Art majors must have ART 103, ART 106, or permission of instructor.

ART 245 - Figure Drawing (3) ‡

An introduction to figure drawing using live models. Designed to develop perceptual and pictorial skills, with an emphasis on

the human figure in its environment. For those interested in art as a career, or for personal growth and self-expression.
 2 hours lecture, 4 hours studio.

Prerequisite(s): ART 106 or permission of instructor.

ART 270 - Ceramics I (3) ‡

An introduction to clay and glaze, and to their contribution to the development of contemporary ceramic art. Covers techniques involved in the processes of hand building and wheel throwing. For those interested in art as a career, or for personal growth and self-expression.

2 hours lecture, 4 hours studio.

Prerequisite(s): None. Recommended Preparation: Art majors must have ART 103 or ART 106, and ART 231; or permission of instructor.

ART 273 - Ceramics IIA (3) ‡

A continuation of ART 270 which includes intermediate and advanced hand-building techniques and fabrication methods. Students develop projects with formal elements, build skills in surface treatment and firing, and explore topics on the history of clay. For those interested in art as a career, or for personal growth and self-expression.

2 hours lecture, 4 hours studio.

Prerequisite(s): ART 270. Recommended Preparation: In addition, art majors must have ART 103, ART 106, and ART 231; or permission of instructor.

ART 274 - Ceramics IIB (3) ‡

A continuation of ART 270 which includes intermediate and advanced wheel-throwing techniques and fabrication methods. Students develop projects with formal elements, build skills in surface treatment and firing, and explore topics on the history of clay. For those interested in art as a career, or for personal growth and self-expression.

2 hours lecture, 4 hours studio.

Prerequisite(s): ART 270. Recommended Preparation: In addition, art majors must have ART 103, ART 106, and ART 231; or permission of instructor.

ART 275A - Ceramics III (3) ‡

A continued study of ceramics with emphasis on developing unique, creative skills in hand building and fabrication or in wheel throwing and trimming. Students work on projects involving formal elements and various firing techniques, and they explore topics on the history of clay. For those interested in art as a career, or for personal growth and self-expression.

2 hours lecture, 4 hours studio.

Prerequisite(s): ART 273 or ART 274. Recommended Preparation: In addition, art majors must have ART 103, ART 106, and ART 231; or permission of instructor.

ART 276 - Soda and Salt Firing (1) ‡

An introduction to the traditional advanced process of soda and salt firing of ceramics. Topics include kiln loading, the use of refractory materials, and the introduction of sodium.

* indicates SUN course. ‡ indicates lab fees. ° indicates online. ~ indicates intensive writing.

All prerequisite coursework must be completed with a grade of C or better.

Students will experiment with various techniques and materials, including clay bodies, slips, engobes, oxides, and glazing. They will also explore historical and contemporary approaches to atmospheric sodium firings. For students interested in art for career opportunities or for personal growth and self-expression.

1 hour lecture, 1 hour studio.

Prerequisite(s): ART 270 and concurrent enrollment in ART 231, ART 275A, ART 290, or ART 292. Recommended Preparation: ART 275A.

ART 280 - Painting I (3) ‡

An introduction to the techniques of either oil or acrylic painting, with emphasis on color theory and mixing. Also covers the preparation of various painting surfaces. For those interested in art as a career, or for personal growth and self-expression.

2 hours lecture, 4 hours studio.

Prerequisite(s): None. Recommended Preparation: Art majors must have ART 103, ART 106, or permission of instructor.

ART 281 - Painting II (3) ‡

A continued study of either oil or acrylic painting, with emphasis on developing unique, expressive pictorial skills. Also covers three-dimensional techniques. For those interested in art as a career, or for personal growth and self-expression.

2 hours lecture, 4 hours studio.

Prerequisite(s): ART 280 or permission of instructor.

Recommended Preparation: In addition, art majors must have ART 103 and ART 106, or permission of instructor.

ART 285 - Beginning Photography (3) ‡

An introduction to cameras and the darkroom. Covers techniques involved in black-and-white film development and printing as well as principles and elements of design and aesthetics in photography. Students must have access to an adjustable 35mm camera.

2 hours lecture, 4 hours studio.

Prerequisite(s): None.

ART 286 - Intermediate Photography (3) ‡

An intermediate course in photography for those with a foundation in the basics of black-and-white film exposure, development, and printing. Emphasis is on photojournalism, art photography, portraiture, and landscapes, with additional attention to design and aesthetics. Students must have access to an adjustable 35mm camera.

2 hours lecture, 4 hours studio.

Prerequisite(s): ART 285 or permission of instructor.

ART 290 - Sculpture I (3) ‡

An introduction to traditional and contemporary sculptural concepts, mediums, and techniques. Students are involved in the process of selecting raw materials and creating a sculpture.

For those interested in art as a career, or for personal growth and self-expression.

2 hours lecture, 4 hours studio.

Prerequisite(s): None. Recommended Preparation: Art majors must have ART 103 or ART 106, and ART 231; or permission of instructor.

ART 291 - Sculpture II (3) ‡

A continuation of ART 290 which covers traditional and contemporary sculpture concepts, mediums, and techniques, with emphasis on basic designs. Students expand their ideas and develop their craftsmanship on sculptural forms. For those interested in art as a career, or for personal growth and self-expression.

2 hours lecture, 4 hours studio.

Prerequisite(s): ART 290. Recommended Preparation: In addition, art majors must have ART 103, ART 106, and ART 231; or permission of instructor.

ART 292 - Advanced Topics in Art (0.5-4) ‡

A rotating forum/seminar/workshop emphasizing regional art forms and the development and practical application of artistic skills using a variety of media. Topics will vary in accordance with changes in student needs and interests.

Cochise College elective credit only unless otherwise designated in degree programs. For students interested in art for career opportunities as well as personal growth and self-expression.

Prerequisite(s): None.

ART 293 - Sculpture III (3) ‡

A continuation of ART 291 which covers traditional and contemporary sculpture concepts, mediums, and techniques, with an emphasis on intermediate designs. Students continue to expand their ideas and develop their craftsmanship on sculptural forms. For those interested in art as a career, or for personal growth and self-expression.

2 hours lecture, 4 hours studio.

Prerequisite(s): ART 291. Recommended Preparation: In addition, art majors must have ART 103, ART 106, and ART 231; or permission of instructor.

ART 294 - Sculpture IV (3) ‡

A continuation of ART 293 which covers traditional and contemporary sculpture concepts, mediums, and techniques, with an emphasis on advanced designs, aesthetic forms, and fabrication methods. Students receive individual direction while working on projects involving formal elements and advanced techniques, and they explore the process involved in creating a sculptural form from raw material. For those interested in art as a career, or for personal growth and self-expression.

2 hours lecture, 4 hours studio.

Prerequisite(s): ART 293. Recommended Preparation: In addition, art majors must have ART 103, ART 106, and ART 231; or permission of instructor.

* indicates SUN course. ‡ indicates lab fees. ° indicates online. ~ indicates intensive writing.

All prerequisite coursework must be completed with a grade of C or better.

ART 295 - Watercolor Painting I (3) ‡

An introduction to watercolor painting which explores basic materials and techniques, with an emphasis on color theory and mixing. For those interested in art as a career, or for personal growth and self-expression.

2 hours lecture, 4 hours studio.

Prerequisite(s): None. Recommended Preparation: Art majors must have ART 103, ART 106, or permission of instructor.

ART 296 - Watercolor Painting II (3) ‡

A continued study of watercolor painting, with emphasis on developing unique, expressive pictorial skills. For those interested in art as a career, or for personal growth and self-expression.

2 hours lecture, 4 hours studio.

Prerequisite(s): ART 295 or permission of instructor.

Recommended Preparation: In addition, art majors must have ART 103 and ART 106, or permission of instructor.

ART 297 - Portfolio Review (1) ‡

A beginning through advanced studio course dealing with the process and purpose of artistic portfolios. This course will cover technical and aesthetic aspects of various artistic portfolios and their development and provide students with the opportunity for a critical/professional analysis and peer review of their portfolios.

0.5 hour lecture, 2 hours studio.

Prerequisite(s): None. Recommended Preparation: Three semesters of art coursework, including 200-level courses in chosen discipline, or permission of instructor.

ASL - AMERICAN SIGN LANGUAGE**ASL 101 - American Sign Language I (4) °**

An introduction to American Sign Language (ASL) which includes the development of sign vocabulary, fingerspelling, and numbers, all at the beginner skill level. Also presents a brief history of ASL and an overview of Deaf culture.

4 hours lecture, 1 hour laboratory.

Prerequisite(s): None.

ASL 102 - American Sign Language II (4) °

A continuation of ASL 101 which further develops sign vocabulary, fingerspelling, and numbers, all at the advanced-beginner skill level. Also examines the Deaf community and Deaf culture in a hearing society.

4 hours lecture, 1 hour laboratory.

Prerequisite(s): ASL 101 or permission of instructor.

ASL 201 - American Sign Language III (4) °

A continuation of ASL 102 which integrates receptive and expressive skills and presents grammar and syntax at the intermediate skill level. Covers idioms and introduces ASL linguistics and cross-cultural communication. Also examines

complex issues related to the Deaf community and Deaf culture in a hearing society.

4 hours lecture, 1 hour laboratory.

Prerequisite(s): ASL 102 or permission of instructor.

ASL 202 - American Sign Language IV (4) °

A continuation of ASL 201 which expands sign vocabulary and sharpens skills in fingerspelling, numbers, grammar, and syntax at the advanced-intermediate skill level. Offers further instruction in ASL linguistics and conversational techniques in a cross-cultural framework, and introduces passage translation. Also examines more complex issues related to the Deaf community and Deaf culture in a hearing society.

4 hours lecture, 1 hour laboratory.

Prerequisite(s): ASL 201 or permission of instructor.

AST - ASTRONOMY**AST 180 - Introduction to Astronomy (4) °, ‡**

A survey of astronomy which includes the solar system, exoplanetary systems, stars, and galaxies. Also covers the methods and technology used to explore planetary and stellar processes and the use of telescopes in astronomical observations.

3 hours lecture, 3 hours laboratory.

Prerequisite(s): MAT 091 or higher.

AUT - AUTOMOTIVE TECHNOLOGY**AUT 101 - Introduction to Automotive Technology (3) ‡**

A study of basic automotive systems, and of the diagnosis and repair of problems common to them. Students acquire skills in the care and maintenance of engine, suspension, brake, electrical, body control, and drivetrain systems.

2 hours lecture, 3 hours laboratory.

Prerequisite(s): None.

AUT 102 - Automotive Electrical Fundamentals (3) ‡

A study of automotive electrical and electronic systems, and of the diagnosis and repair of problems common to them. Students examine Ohm's Law and apply its principles in solving electrical system failures, and they use wiring and current-flow diagrams to diagnose and repair electrical and electronic systems in preparation for the Automotive Service Excellence (ASE) Certification test on electrical and electronic systems.

2 hours lecture, 3 hours laboratory.

Prerequisite(s): None.

AUT 103 - Internal Combustion Engines (3) ‡

A study of the theory of internal combustion engines, and of the diagnosis and repair of problems common to them. Students dismantle and reassemble engines in preparation for the Automotive Service Excellence (ASE) certification test on engine repair.

2 hours lecture, 3 hours laboratory.

* indicates SUN course. ‡ indicates lab fees. ° indicates online. ~ indicates intensive writing.

All prerequisite coursework must be completed with a grade of C or better.

Prerequisite(s): AUT 101 and AUT 102.

AUT 104 - Automotive Brake Systems (3) ‡

A study of the theory of automotive brake systems, and of the diagnosis and repair of problems common to them. Students repair and test various types of brake systems in preparation for the Automotive Service Excellence (ASE) Certification test on brake systems.

2 hours lecture, 3 hours laboratory.

Prerequisite(s): AUT 101 and AUT 102.

AUT 105 - Automotive Suspension and Steering Systems (3) ‡

A study of the theory of automotive suspension and steering systems, and of the diagnosis and repair of problems common to them. Students repair and test various suspension and steering systems in preparation for the Automotive Service Excellence (ASE) certification test on suspension and steering.

2 hours lecture, 3 hours laboratory.

Prerequisite(s): AUT 101 and AUT 102.

AUT 106 - Automotive Manual Drive Systems (3) ‡

A study of the theory of automotive manual drive systems, and of the diagnosis and repair of problems common to them. Students dismantle and reassemble different manual drive systems in preparation for the Automotive Service Excellence (ASE) certification test on manual drivetrain systems.

2 hours lecture, 3 hours laboratory.

Prerequisite(s): AUT 101 and AUT 102.

AUT 108 - Automotive Parts Specialist (3)

A study of the tasks performed by the automotive parts specialist in overseeing inventory responsibilities and managing the flow of incoming and outgoing parts and accessories in an automotive dealership or retail parts store.

3 hours lecture.

Prerequisite(s): None.

AUT 110 - Basic Auto Body Repair (3) ‡

This course will provide a basic study of automotive collision repair procedures. The course is designed to provide students with the basic knowledge necessary to perform minor auto body repair and preparation for painting.

2 hours lecture, 2 hours laboratory.

Prerequisite(s): None.

AUT 111 - Automotive Paint and Refinish (3) ‡

A continuation of Basic Auto Body Repair that focuses on the necessary skills used to paint and refinish an automobile to commercially acceptable standards.

2 hours lecture, 2 hours laboratory.

Prerequisite(s): AUT 110.

AUT 200 - Light Vehicle Diesel Engines (3) ‡

A study of the theory of light vehicle diesel engines and their various systems, and of the diagnosis and repair of problems

common to them. Students diagnose and repair these engines and systems in preparation for the Automotive Service Excellence (ASE) certification test on light vehicle diesel engines.

2 hours lecture, 3 hours laboratory.

Prerequisite(s): AUT 101 and AUT 102.

AUT 201 - Automotive Electrical Systems and Equipment (3) ‡

A study of the theory of automotive electrical systems and equipment, and of the diagnosis and repair of problems common to them, in preparation for the Automotive Service Excellence (ASE) certification test on electrical systems.

2 hours lecture, 3 hours laboratory.

Prerequisite(s): AUT 101 and AUT 102.

AUT 204 - Automatic Transmission/Transaxle Diagnostics and Rebuilding (3) ‡

A study of the theory of automatic transmissions and transaxles, and of the diagnosis and repair of problems common to them. Students dismantle and rebuild transmissions in preparation for the Automotive Service Excellence (ASE) certification test on automatic transmissions.

2 hours lecture, 3 hours laboratory.

Prerequisite(s): AUT 101 and AUT 102.

AUT 205 - Automobile Heating, Ventilation, and Air Conditioning (3) ‡

A study of heating, ventilation, and air conditioning systems, and of the diagnosis and repair of problems common to them. Students acquire the skills necessary to diagnose, test, and repair these systems in preparation for the Automotive Service Excellence (ASE) Certification test on heating, ventilation, and air conditioning.

2 hours lecture, 3 hours laboratory.

Prerequisite(s): AUT 101 and AUT 102.

AUT 206 - Engine Performance (3) ‡

A study of the theory of the components involved in engine performance, and of the diagnosis and repair of problems common to them, in preparation for the Automotive Service Excellence (ASE) certification test on engine performance.

2 hours lecture, 3 hours laboratory.

Prerequisite(s): AUT 103.

AUT 224 - Field Experience in Automotive Technology (1-3)

A supervised cooperative education field experience involving the combined efforts of educators and employers. Students accomplish various academic and career-related objectives in automotive technology and related fields. Semester-long regular workplace participation and weekly contact with assigned faculty advisor are required.

Prerequisite(s): A declared major in automotive technology, AUT 101, and AUT 102.

* indicates SUN course. ‡ indicates lab fees. ° indicates online. ~ indicates intensive writing.

All prerequisite coursework must be completed with a grade of C or better.

AVT - AVIONICS TECHNOLOGY

AVT 211 - Unmanned Aircraft Systems Avionics (7)

A practical study of unmanned aircraft systems (UAS) avionics. Covers the operation, inspection, troubleshooting, and repair of avionics systems. Also covers cabling and hardware in ground control stations, ground data terminals, and aircraft.

4 hours lecture, 9 hours laboratory.

Prerequisite(s): Must be a sponsored employee of the Department of Defense (DOD) or of a DOD UAS contractor.

BCT - BUILDING CONSTRUCTION TECHNOLOGY

BCT 100 - Technical Mathematics I (3)

A review of basic arithmetic and an introduction to the fundamentals of algebra and geometry. Focus is on solving practical problems commonly encountered in construction and engineering environments, and in professions such as machine shop and welding, heating and ventilation, plumbing, electrical maintenance, and carpentry.

3 hours lecture.

Prerequisite(s): None.

BCT 102 - Carpentry Fundamentals (4) ‡

An introduction to fundamental carpentry techniques. Students learn and apply these techniques to develop basic skills comparable to those acquired in a one-year carpentry apprenticeship. Focus is on shop safety, hand and power tools, floor systems, wall, ceiling, and roof framing, building materials, fasteners and adhesives, plans and elevations, concrete work, windows and doors, and basic stair layout.

3 hours lecture, 3 hours laboratory.

Prerequisite(s): None.

BCT 103 - International Residential Building Code (3)

An introduction to the current International Residential Code for one- and two-family dwellings. Topics include local home building and lot development, code interpretation and enforcement, and building components. For planners, designers, drafters, tradespeople, contractors, inspectors, and anyone else associated with the construction industry.

3 hours lecture.

Prerequisite(s): None.

BCT 104 - Electric I (4) ‡

An introduction to fundamental electrical theory and techniques. Students learn and apply these techniques to develop basic skills comparable to those acquired in a one-year electrical apprenticeship. Focus is on electrical safety, circuits and theory, and on the National Electrical Code, device boxes, conduit, raceways and fittings, conductors and cables, electrical drawings, residential services, and test equipment.

3 hours lecture, 3 hours laboratory.

Prerequisite(s): None.

BCT 105 - Electrical Theory (3)

An introduction to the fundamentals of electricity. Topics include Ohm's law, series and parallel circuits, the power factor, and harmonics as well as electrical meters, motors, generators, and transformers.

3 hours lecture.

Prerequisite(s): None.

BCT 106 - National Electrical Code I (3)

A study of the National Electrical Code, Articles 90 through 424, which covers general wiring requirements. Designed for those already working in the electrical field--electricians, inspectors, and maintenance workers--and those seeking employment in the construction trades.

3 hours lecture.

Prerequisite(s): None.

BCT 108 - Basics in Construction (2)

Students will receive a working knowledge of shop safety and the use of basic hand and power tools. They will learn the soft skills necessary to be successful in the construction industry. Students successfully completing this course will receive the Core Curriculum Certificate, which is required before any other certification in the National Center for Construction Education and Research (NCCER) curriculum.

2 hours lecture.

Prerequisite(s): None.

BCT 109 - Construction Safety (3) ‡

An introduction to the Occupational Safety and Health Administration's workplace and jobsite safety policies and procedures. Includes a study of safety practices, preventive measures, construction hazards, personal protective devices and equipment, and hazardous materials handling.

3 hours lecture.

Prerequisite(s): None.

BCT 110 - Cabinetmaking (3) ‡

A course in basic cabinetmaking which enables students to develop competency in the construction and installation of cabinets and countertops.

2 hours lecture, 3 hours laboratory.

Prerequisite(s): None.

BCT 111 - Plumbing I (4) ‡

An introduction to fundamental plumbing techniques. Students learn and apply these techniques to develop basic skills comparable to those acquired in a one-year plumbing apprenticeship. Focus is on plumbing safety, tools, math skills, and drawings; plastic, copper, and carbon steel pipes and fittings; tubing, fixtures, and faucets; drain, waste, and vent systems; and water distribution systems.

3 hours lecture, 3 hours laboratory.

Prerequisite(s): None.

* indicates SUN course. ‡ indicates lab fees. ° indicates online. ~ indicates intensive writing.

All prerequisite coursework must be completed with a grade of C or better.

BCT 112 - Introduction to the Utility Industry (3)

An introduction to the utility industry and careers such as electric utility line technician, gas industry technician, telecommunications technician, and utility supervisor. Topics include utility infrastructures, land and gas surveying techniques, power delivery, basic safety principles, systems troubleshooting, and regulatory issues.

3 hours lecture.

Prerequisite(s): None.

BCT 113 - Concrete (3)

A study of the basic concepts and materials used in concrete construction and finishing. Covers code and footer applications, stem walls, flat work, and the use of various reinforcement materials.

2 hours lecture, 3 hours laboratory.

Prerequisite(s): BCT 102 and BCT 109, or permission of instructor.

BCT 114 - Wall Coverings (3)

An overview of wall covering materials and terminology. Teaches the application of wall materials and the use of fasteners. Covers building codes as they relate to wall covering products and fire- and sound-rated walls.

2 hours lecture, 3 hours laboratory.

Prerequisite(s): BCT 102 and BCT 109, or permission of instructor.

BCT 115 - Exterior Finishing (3)

A study of the basic concepts and processes used in exterior finishing and in the installation of windows. Topics include thermal and moisture protection, exterior finish materials, exterior siding materials, and installation procedures.

2 hours lecture, 3 hours laboratory.

Prerequisite(s): BCT 102 and BCT 109, or permission of instructor.

BCT 116 - Roofing (3)

A study of roof covering materials and their application in residential construction. Covers shingles, tile, roll roofing, membrane materials, roof vents, and roof flashing.

2 hours lecture, 3 hours laboratory.

Prerequisite(s): BCT 102 and BCT 109, or permission of instructor.

BCT 117 - Floor Covering (3)

A study of floor materials and their application, including wood laminate, resilient floor tile, self-adhering floor tile, sheet vinyl, ceramic floor tile, and carpet.

2 hours lecture, 3 hours laboratory.

Prerequisite(s): BCT 102 and BCT 109, or permission of instructor.

BCT 118 - Doors, Cabinets, and Millwork (3)

A study of the basic concepts used in the installation of interior and exterior doors and trim and of their locks and hardware. Also covers the installation of factory-built cabinets and prefabricated countertops.

2 hours lecture, 3 hours laboratory.

Prerequisite(s): BCT 102 and BCT 109, or permission of instructor.

BCT 122 - HVAC I (4) ‡

An introductory course in the refrigeration process, which covers refrigerants, tools, equipment, brazing, and refrigerant management. Emphasis is on the temperature, pressure, and heat-transfer capabilities of refrigerants.

3 hours lecture, 2 hours laboratory.

Prerequisite(s): None.

BCT 127 - Blueprint Reading and Estimating (3)

An introduction to basic blueprint drawing, reading, and interpretation. Includes the abbreviations, symbols, and conventions specific to the trade disciplines used by architects and engineers. Students learn to interpret this information and apply it to construction activities. They also learn to estimate labor, equipment, and material costs from construction plans and shop drawings.

3 hours lecture.

Prerequisite(s): None.

BCT 130 - Introduction to Green Building (3)

An introduction to the fundamentals of green or sustainable building practices. Topics include energy use and efficiency, renewable energy technologies, water conservation, and basic building sciences. Also examined are the history of the green building industry, building retrofitting, rating and certification systems, sustainable materials, and careers within the industry.

3 hours lecture.

Prerequisite(s): None.

BCT 201 - Carpentry Framing and Finishing (4) ‡

A study of carpentry framing and finishing techniques. Students learn and apply these techniques to develop advanced skills comparable to those acquired in a two-year carpentry apprenticeship. Focus is on roofing, thermal and moisture protection, exterior finishing, steel framing, drywall installation and finishing, doors and door hardware, suspended ceilings, trim work, and cabinet installation and fabrication.

3 hours lecture, 3 hours laboratory.

Prerequisite(s): BCT 102 or permission of instructor.

BCT 202 - Carpentry Forms (4) ‡

A study of advanced carpentry techniques as they relate to concrete-form framing, placement, pouring, and finishing. Students develop skills operating circular and reciprocating saws, drills, impact wrenches, hand power planers, pneumatic nail guns, and various hand tools of the trade; and they

* indicates SUN course. ‡ indicates lab fees. ° indicates online. ~ indicates intensive writing.

All prerequisite coursework must be completed with a grade of C or better.

develop proficiency comparable to that of a third-year carpentry apprentice.

3 hours lecture, 3 hours laboratory.

Prerequisite(s): BCT 102 or permission of instructor.

BCT 204 - Electric II (4) ‡

An introduction to advanced electrical theory and techniques. Students learn and apply these techniques to develop advanced skills comparable to those acquired in a two-year electrical apprenticeship. Focus is on alternating current, motors, electric lighting, conduit bending, pull and junction boxes, conductor installations, terminations and splices, grounding and bonding, circuit breakers and fuses, and control systems.

3 hours lecture, 3 hours laboratory.

Prerequisite(s): BCT 104.

BCT 210 - Cabinetmaking II (3) ‡

This course provides students with a better understanding of, and increased skills in, the design, style, and construction of cabinets and countertops.

2 hours lecture, 3 hours laboratory.

Prerequisite(s): BCT 110.

BCT 211 - Cabinetmaking III (3) ‡

This course prepares students for employment in the areas of finish carpentry, cabinetmaking, cabinet installation, and countertop manufacturing and installation.

2 hours lecture, 3 hours laboratory.

Prerequisite(s): BCT 110 and BCT 210, or permission of instructor.

BCT 220 - Grounding and Bonding (3)

A study of wiring methods and of the theories of grounding and bonding as defined in Article 250 of the National Electrical Code. Covers the difference between grounding and bonding. Also covers how the provisions of this article apply to various devices and equipment to include swimming pools.

3 hours lecture.

Prerequisite(s): None. Recommended Preparation: BCT 104, BCT 105, BCT 106, and BCT 204.

BCT 222 - HVAC II (4) ‡

A continuation in the study of the fundamentals of refrigeration, which covers electrical components and the functions of motors, controls, and other electrical loads in refrigeration systems. Also covers schematics, power distribution, and troubleshooting.

3 hours lecture, 2 hours laboratory.

Prerequisite(s): BCT 122.

BCT 223 - HVAC III (4) ‡

A study of the various types of air conditioning systems.

Covers superheating, subcooling, pressures, and temperatures. Emphasis is on troubleshooting and repairs along with refrigerant management. Students are given the U.S. Environmental Protection Agency (EPA) Universal Certification test required for HVAC technicians who service all types of equipment.

3 hours lecture, 2 hours laboratory.

Prerequisite(s): BCT 222.

BCT 224 - Field Experience in Building Construction Technology (1-3)

A supervised cooperative education field experience involving the combined efforts of educators and employers. Students accomplish various academic and career-related objectives in building construction technology and related fields. Semester-long regular workplace participation and weekly contact with assigned faculty advisor are required.

Prerequisite(s): A declared major in building construction technology; and BCT 102, BCT 108, BCT 109, or BCT 112.

BCT 225 - HVAC IV (4) ‡

An advanced course in heating, ventilating, and air conditioning, which covers the operation and repair of heat pumps and other modern heating equipment. Also introduces students to customer service skills.

3 hours lecture, 2 hours laboratory.

Prerequisite(s): BCT 223.

BIO - BIOLOGICAL SCIENCES

BIO 100 - General Biology (for non-majors) (4) °, ‡

A laboratory science course for non-majors that surveys the concepts of introductory biology. Topics include scientific inquiry, cell biology, metabolism, cell division, genetics, evolution, ecology, and a survey of life on Earth.

3 hours lecture, 3 hours laboratory.

Prerequisite(s): RDG 092 or exemption.

BIO 105 - Environmental Biology (4) ‡

An introductory course in environmental biology with emphasis on the major themes of ecology and the environment. Deals with evolution and with issues concerning human ecology and sustainability including biodiversity, water, climate change, resource use, pollution, and the local environment.

3 hours lecture, 3 hours laboratory.

Prerequisite(s): RDG 092 or exemption. Recommended Preparation: ENG 101 and MAT 081.

BIO 156 - Introductory Biology for Allied Health (4) ‡

An introductory course for allied health majors which concentrates on human biology. Covers the fundamental concepts of chemistry and biology including cell biology, metabolism, microbiology, genetics, evolution, and histology.

3 hours lecture, 3 hours laboratory.

* indicates SUN course. ‡ indicates lab fees. ° indicates online. ~ indicates intensive writing.

All prerequisite coursework must be completed with a grade of C or better.

Prerequisite(s): RDG 092 or exemption. Recommended Preparation: MAT 081 or higher.

BIO 160 - Introduction to Human Anatomy and Physiology (4) °, ‡

An examination of the structure and dynamics of the human body based on the chemical, physical, cellular, and tissue levels of organization. Includes the major structures and functions of the integumentary, skeletal, muscular, nervous, endocrine, cardiovascular, lymphatic, respiratory, digestive, urinary, and reproductive systems. For students in programs that require a one-semester anatomy and physiology course, or for students fulfilling a one-semester laboratory science requirement. 3 hours lecture, 3 hours laboratory.

Prerequisite(s): RDG 092 or exemption. Recommended Preparation: ENG 101 and MAT 081.

BIO 181 - General Biology I (for majors) (4) *, ‡

A study of the structure and function of living things at the molecular, cellular, and organismic levels of organization. Topics include cell structure, metabolism, reproduction, genetics, and evolution. 3 hours lecture, 3 hours laboratory.

Prerequisite(s): RDG 092 or exemption. Recommended Preparation: CHM 130, CHM 138, or one year of high school chemistry; ENG 096; and some knowledge of college algebra and/or trigonometry.

BIO 182 - General Biology II (4) *, ‡

A continuation of general biology for majors. Topics include the evolution, biodiversity, and ecology of multicellular organisms. 3 hours lecture, 3 hours laboratory.

Prerequisite(s): BIO 181. Recommended Preparation: Knowledge of general chemistry.

BIO 192 - Special Topics and Applications in Biology (1-4)

Designed to supplement general study in the various fields of biology. Entails research in specific topics determined by student needs and interests.

Prerequisite(s): None.

BIO 201 - Human Anatomy and Physiology I (4) *, ‡

An integrated study of the physical, structural, and functional features of tissues, and of the integumentary, skeletal, muscular, and nervous systems. 3 hours lecture, 3 hours laboratory.

Prerequisite(s): BIO 156, BIO 181, or passing score on the biology placement exam. Recommended Preparation: CHM 138.

BIO 202 - Human Anatomy and Physiology II (4) *, ‡

An integrated study of the physical, structural, and functional features of the endocrine, cardiovascular, respiratory, lymphatic, urinary, digestive, and reproductive systems. 3 hours lecture, 3 hours laboratory.

Prerequisite(s): BIO 201.

BIO 205 - Microbiology (4) *, ‡

A study of the structure and characteristics of the major groups of microorganisms and their importance to humans. Emphasis is on best methods for the control and treatment of microbial infection and disease. 3 hours lecture, 3 hours laboratory.

Prerequisite(s): BIO 156, BIO 181, or passing score on the biology placement exam. Recommended Preparation: ENG 101 and MAT 081.

BIO 226 - Ecology (4) ‡

An introduction to ecological concepts and methods in biology including: ecological niche, species diversity, population biology, ecosystems, life history strategies, environmental factors, environmental cycles, animal behavior and evolution, and their functions in the environment. 3 hours lecture, 3 hours laboratory.

Prerequisite(s): MAT 081, ENG 101, and either BIO 100, BIO 105, BIO 160, BIO 181, or BIO 201.

BUS - BUSINESS ADMINISTRATION

BUS 104 - Business Math (3) °

This course examines the fundamentals of business mathematics and the use of the number language to communicate in the business world. 3 hours lecture.

Prerequisite(s): None. Recommended Preparation: Knowledge of basic mathematics.

BUS 106 - Administrative Assistant Skills I (4)

An introduction to keyboarding skills as they apply to letters, memos, and reports, with an expected outcome of 35 words per minute for five minutes. Emphasis is on formatting and editing. 3 hours lecture, 2 hours laboratory.

Prerequisite(s): CIS 116. Recommended Preparation: Keyboarding skills of 30 WPM.

BUS 109 - Survey of Business (3) °

An examination of the fundamental characteristics and functions of modern business, with emphasis on career opportunities. 3 hours lecture.

Prerequisite(s): None.

BUS 123 - Human Resource Management (3) °

A study of human resource management policies and techniques pertaining to the recruitment, selection,

* indicates SUN course. ‡ indicates lab fees. ° indicates online. ~ indicates intensive writing.

All prerequisite coursework must be completed with a grade of C or better.

development, compensation, evaluation, retention, and promotion of personnel within an organization.

3 hours lecture.

Prerequisite(s): None.

BUS 127 - Leadership and Supervision (3) °

An in-depth study of the supervision and leadership functions of management, with an emphasis on case studies.

3 hours lecture.

Prerequisite(s): None.

BUS 143 - Principles of Management (3) °

A study of managerial principles emphasizing effective business decisions for planning, organizing, leading, and motivating, and for controlling variables in today's changing global business environment. Also covers issues of ethics, social responsibility, diversity, and ethnicity.

3 hours lecture.

Prerequisite(s): None.

BUS 145 - Principles of Marketing (3) °

A study of marketing principles involved in the distribution, from producer to consumer, of goods and services. Topics include wholesaling, retailing, direct selling, risk taking, and warehousing.

3 hours lecture.

Prerequisite(s): None.

BUS 146 - Introduction to Accounting (3) °

The basic accounting cycle for service and merchandising firms: analyzing business transactions, journalizing and posting entries, developing financial statements, administering end-of-accounting-period activities, controlling cash, and preparing payroll.

3 hours lecture, 1 hour laboratory.

Prerequisite(s): None. Recommended Preparation: BUS 104 or MAT 091.

BUS 160 - Essential Workplace Success Skills (3) °

Designed to teach the skills needed for successful employment. Topics include job seeking and communication skills, professional dress and self-esteem, and decision-making and stress-coping strategies.

3 hours lecture.

Prerequisite(s): None.

BUS 167 - Business Communications (3) °

A study of internal and external business communications such as letters, memos, proposals, and reports. Emphasis is on writing fundamentals--usage, syntax, and organization--and on listening and speaking skills. Also deals with the technology used to conduct research and create documents.

3 hours lecture.

Prerequisite(s): CIS 116 or CIS 120, and placement in ENG 101.

BUS 172 - Quantitative Methods in Business (3) °

An introduction to the application of quantitative methods and modeling that support optimal business decision making.

3 hours lecture.

Prerequisite(s): MAT 151 or permission of instructor.

Recommended Preparation: Knowledge of Excel spreadsheets or completion of CIS 181.

BUS 183 - Starting a Business (3) °

An investigation and evaluation of business opportunities with emphasis on acquiring skills and knowledge to establish a business. Covers practical problems in marketing, management, organization, and financial analysis and control.

3 hours lecture.

Prerequisite(s): None.

BUS 201 - Financial Accounting (3) *, °

An introductory course in gathering, recording, and using the financial data of a business. Focus is on the accounting cycle, debits and credits, classification of accounts, recording of transactions, and preparation of financial statements for single proprietorships, partnerships and corporations.

3 hours lecture, 2 hours laboratory.

Prerequisite(s): BUS 104, MAT 091, or placement in MAT 151. Recommended Preparation: Knowledge of Excel spreadsheets or completion of CIS 181.

BUS 202 - Managerial Accounting (3) *, °

An introductory course in accounting concepts, methods, and techniques used by managers to support financial and operational decision making within an organization.

3 hours lecture, 2 hours laboratory.

Prerequisite(s): BUS 201 and CIS 181.

BUS 206 - Administrative Assistant Skills II (4)

A continuation of keyboarding skills used in preparing business letters, printed forms, manuscripts, and tables, with an expected outcome of 40 words per minute for five minutes. Emphasis is on increased proficiency.

3 hours lecture, 2 hours laboratory.

Prerequisite(s): BUS 106 or permission of instructor.

BUS 207 - Office Administration (3)

An analysis of the functions of office departments which is designed for prospective office supervisors, training directors, administrative assistants, and executive secretaries. Topics include office organization, administration, and management; human relations; and information management systems.

3 hours lecture.

Prerequisite(s): BUS 167 and CIS 116, or permission of instructor.

BUS 209 - Business Speech Communications (3)

* indicates SUN course. ‡ indicates lab fees. ° indicates online. ~ indicates intensive writing.

All prerequisite coursework must be completed with a grade of C or better.

A study of the principles of business speech communications including topic selection, research, organization, audience, and delivery. Also covers listening skills, verbal and nonverbal language, one-on-one communication, and effective interview techniques. Students prepare persuasive speeches for small and large groups.

3 hours lecture.

Prerequisite(s): None.

BUS 210 - Automated Office Procedures (3)

A study of computer applications, information processing, project development, and workflow procedures and standards. Also covers a variety of data entry applications for spreadsheets and databases, and for accounting, banking, and point-of-sale entries.

3 hours lecture.

Prerequisite(s): CIS 116 and CIS 181, or permission of instructor.

BUS 211 - Automated Office Practice (3)

A study of best practices for the modern office as they relate to business communications, information systems, meetings, and travel plans. Also covers administrative duties and responsibilities as well as resumes and interviews.

3 hours lecture, 1 hour laboratory.

Prerequisite(s): BUS 210 or BUS 216.

BUS 213 - Word Processing (3)

An application of word processing skills using current systems and equipment, with emphasis on editing and formatting techniques.

3 hours lecture, 1 hour laboratory.

Prerequisite(s): CIS 116. Recommended Preparation:

Keyboarding skills of 25 WPM.

BUS 216 - Administrative Assistant Skills III (4)

A further development of computer skills including word processing, spreadsheets, presentations, and the integration of applications. Students develop an electronic employment portfolio.

3 hours lecture, 2 hours laboratory.

Prerequisite(s): CIS 116 and CIS 181, or permission of instructor.

BUS 217 - Administrative Assistant Skills IV (4)

An integration of word processing, spreadsheet, database, and presentation applications. Students in this capstone course complete an electronic employment portfolio.

3 hours lecture, 2 hours laboratory.

Prerequisite(s): BUS 216 or permission of instructor.

BUS 219 - Business Statistics (3) *, °

Business applications of descriptive and inferential statistics, measurement of relationships, and statistical process management.

3 hours lecture.

Prerequisite(s): MAT 142 or MAT 151. Recommended Preparation: Knowledge of Excel spreadsheets or completion of CIS 181.

BUS 224 - Field Experience in Business Administration (1-3)

A supervised cooperative education field experience involving the combined efforts of educators and employers. Students accomplish various academic and career-related objectives in business and related fields. Semester-long regular workplace participation and weekly contact with assigned faculty advisor are required.

Prerequisite(s): A declared major in business; and BUS 109, BUS 160, or BUS 167.

BUS 227 - Field Experience in Legal Procedures (1-3)

A supervised cooperative education field experience involving the combined efforts of educators and employers. Students accomplish various academic and career-related objectives in law or public administration and related fields. Semester-long regular workplace participation and weekly contact with assigned faculty advisor are required.

Prerequisite(s): A declared major in any related field; and BUS 109, BUS 160, or BUS 167.

BUS 228 - Financial Planning (3) °

An introduction to the principles and techniques of personal financial planning, including preparation of personal financial statements; budgeting; goal setting; investing; determining insurance needs; and tax, retirement, and estate planning. A strong emphasis is placed on the process of drawing up a personal financial plan.

3 hours lecture.

Prerequisite(s): BUS 104, BUS 146, or BUS 201.

BUS 233 - The Legal Environment of Business (3) °

An examination of the legal framework that governs the rules of conduct affecting policy making among businesses. Topics include laws, torts, government regulations, business ethics, and corporate responsibility in today's business environment.

3 hours lecture.

Prerequisite(s): None.

BUS 245 - Seminar: Trends and Practices in Business (3) °

A capstone business management course applying problem-solving and decision-making techniques to practical business situations. Students produce a major project or presentation using current business theories and practices.

3 hours lecture.

Prerequisite(s): BUS 146; BUS 160; BUS 167 or concurrent enrollment; ECN 201 or ECN 202; ENG 101; and BUS 104, MAT 091, or higher. Recommended Preparation: Sophomore standing.

BUS 283 - Small Business Management (3) °

An analysis of the problems associated with successfully organizing and managing a small business. Emphasis is on

* indicates SUN course. ‡ indicates lab fees. ° indicates online. ~ indicates intensive writing.

All prerequisite coursework must be completed with a grade of C or better.

research, budgeting, financial analysis, control procedures, and marketing in the establishment and operation of any small business.

3 hours lecture, 1 hour laboratory.

Prerequisite(s): BUS 183.

BUS 285 - Electronic Commerce (3) °

Studies the components and practices of electronic commerce. Addresses advertising and marketing on the World Wide Web, as well as legal and ethical issues related to e-commerce.

Examines security and payment systems for online transactions.

3 hours lecture.

Prerequisite(s): CIS 116, CIS 120, or CIS 185.

CED - COOPERATIVE EDUCATION

CED 224 - Field Experience in Cooperative Education (1-3)

A supervised cooperative education field experience involving the combined efforts of educators and employers. Students accomplish various academic and career-related objectives in an area of study at Cochise College. Semester-long regular workplace participation and weekly contact with assigned faculty advisor are required.

Prerequisite(s): Any declared major at Cochise College.

CHM - CHEMISTRY

CHM 130 - Fundamental Chemistry (4) *, °, ‡

Introduces students with no prior chemistry instruction to the fundamentals of general inorganic chemistry, and prepares them for General Chemistry I.

3 hours lecture, 3 hours laboratory.

Prerequisite(s): MAT 081 or higher, and RDG 092 or exemption.

CHM 138 - Chemistry for Allied Health (4) °, ‡

An introduction to the fundamentals of general inorganic, organic, and biological chemistry focusing on the principles important to the understanding of human biological functions and their related medical aspect. Especially adapted to the needs of students in health related fields and nursing.

3 hours lecture, 3 hours laboratory.

Prerequisite(s): MAT 081 or higher, and RDG 092 or exemption.

CHM 151 - General Chemistry I (4) *, ‡

An introduction to the general principles of inorganic chemistry, with focus on quantitative relationships including properties of matter, chemical bonding and structure, nomenclature, chemical equations, stoichiometry, gas laws, thermochemistry, states of matter, and reactions in aqueous solutions.

3 hours lecture, 3 hours laboratory.

Prerequisite(s): CHM 130, CHM 138, or one year of high school chemistry; MAT 091 or higher; and RDG 092 or exemption.

CHM 152 - General Chemistry II (4) *, ‡

A continuation of General Chemistry I and the general principles of inorganic chemistry, with focus on quantitative relationships including acids and bases, equilibrium, kinetics, electrochemistry, and nuclear chemistry.

3 hours lecture, 3 hours laboratory.

Prerequisite(s): CHM 151.

CHM 192 - Special Topics and Applications in Chemistry (0.25-4)

A rotating forum/seminar/course or supplement to an existing chemistry course emphasizing chemistry related topics. The title and credit hours for this course will vary each term depending on the topic.

Prerequisite(s): None. Recommended Preparation: Permission of the instructor is strongly recommended.

CHM 235 - General Organic Chemistry I (4) *, ‡

An introduction to the naming, structure, and properties of organic compounds with an emphasis on alkanes, stereochemistry, alkyl halides, alkenes, and spectroscopy. Focus is on the mechanisms that reveal the relationships between these different classes of organic compounds. Deals with general techniques unique to organic chemistry, separations, chromatography, boiling and melting points, and other physical properties.

3 hours lecture, 3.5 hours laboratory.

Prerequisite(s): CHM 152.

CHM 236 - General Organic Chemistry II (4) *, ‡

A continued study of the naming, structure, and properties of organic compounds with an emphasis on alcohols, ethers, epoxides, aromatics, ketones, aldehydes, amines, carboxylic acids and their derivatives, enols, and enolate ions. Focus is on mechanisms and syntheses that reveal the relationships between these different classes of organic compounds.

3 hours lecture, 3.5 hours laboratory.

Prerequisite(s): CHM 235.

CHM 299 - Individual Studies (1-4)

Completion of a research problem or an outlined course of study under the direction of a faculty member, with contract for the individual study agreed upon by the student, the instructor, and the appropriate instructional manager prior to the initiation of the study.

Prerequisite(s): Approval of appropriate instructional manager and instructor.

* indicates SUN course. ‡ indicates lab fees. ° indicates online. ~ indicates intensive writing.

All prerequisite coursework must be completed with a grade of C or better.

CIS - COMPUTER INFORMATION SYSTEMS

CIS 116 - Computer Essentials (3) °

A hands-on introduction to the operating system and applications of the personal computer and to the internet. Emphasis is placed on Word, Excel, and PowerPoint, and on the integration of these applications.

3 hours lecture.

Prerequisite(s): None.

CIS 120 - Introduction to Information Systems (3) *, °

An introduction to digital basics, hardware, software, operating systems, local area networks, wide area networks, internet, web, email, digital media, basic programming, and the computer industry. Also includes an in-depth application of the business intelligence perspective, which uses database and spreadsheet software packages to achieve efficient and effective problem solving.

3 hours lecture.

Prerequisite(s): None.

CIS 128 - Linux Operating System (4) °

An introduction to the Linux operating system which covers its history, internal organization, and directory and file system. Additional topics include installation, vi editor, user commands, and utilities. For those interested in Linux as well as those interested in pursuing the CompTIA Linux+ certification.

3 hours lecture, 3 hours laboratory.

Prerequisite(s): CIS 120.

CIS 129 - Introduction to Programming Logic (1) °

An introduction to programming concepts for students interested in visual or scripting languages. Topics include notations, expressions, data types, sequence, selection, repetition, and modularization.

1 hour lecture.

Prerequisite(s): None.

CIS 130 - Programming Logic (3) °

A study of software and programming concepts. Topics include programming methodologies, structures, and functions; notations and expressions; data, data types, and data files; file processing; and the software life cycle.

3 hours lecture.

Prerequisite(s): MAT 081 or higher, and RDG 092 or exemption.

CIS 140 - Introduction to Operating Systems (3) °, ‡

Provides students with a knowledge of operating systems and prepares them to take the CompTIA A+ Essentials certification examination. Topics include system components, storage, networking, security, and system management.

3 hours lecture, 1 hour laboratory.

Prerequisite(s): None. Recommended Preparation: CIS 116.

CIS 150 - Essentials of Networking (3) °, ‡

Provides students with knowledge of networking technologies and prepares them to take the CompTIA Network+ certification examination. Topics include networking basics, Ethernet, implementation, wireless networking, security, and network management.

3 hours lecture.

Prerequisite(s): None.

CIS 160 - Introduction to Information Security (4) °, ‡

Provides students with a knowledge of security concepts and with the skills required to react to security incidents, and prepares them to take the CompTIA Security+ certification examination. Topics include network security; compliance and operational security; threats and vulnerabilities; application, data, and host security; access control and identity management; and cryptography.

3 hours lecture, 2 hours laboratory.

Prerequisite(s): None.

CIS 161 - Network Security (4) °

A detailed study of network security principles and their implementation. Topics include the fundamentals of network security: implementation of firewalls, infrastructure security, and Windows operating system security and its impact on network security. Also covers the various utilities used to manage network security and troubleshoot problems.

3 hours lecture, 3 hours laboratory.

Prerequisite(s): CIS 140, CIS 150, and CIS 160; or permission of instructor.

CIS 164 - Introduction to Scripting Using Python (4) °

An introduction to scripting using Python. Topics include basic data types, control structures, decision constructs, regular expressions, input and output techniques, and textual analysis.

3 hours lecture, 2 hours laboratory.

Prerequisite(s): CIS 120.

CIS 179 - Applied Technical Writing (3) °

An application of technical writing skills used in organizational reports and communications. Focus is on the processes for reporting technical information, with emphasis on writing mechanics and syntax, forms and formatting, and technical style.

3 hours lecture.

Prerequisite(s): CIS 116 or CIS 120, ENG 096 or higher, and RDG 092 or exemption.

CIS 181 - Computer Applications (3) °

An introduction to the uses of spreadsheets and database software. Spreadsheet emphasis is on the use of formulas and functions, the development of charts and graphs, the creation and manipulation of lists, the creation of pivot tables, and the

* indicates SUN course. ‡ indicates lab fees. ° indicates online. ~ indicates intensive writing.

All prerequisite coursework must be completed with a grade of C or better.

role of the internet in spreadsheets. Database software emphasis is on data entry, on the creation of queries, forms, and reports, and on the design and maintenance of databases. 3 hours lecture.

Prerequisite(s): CIS 116 or CIS 120.

CIS 185 - Internet Essentials (3) °

A survey of the internet that covers browser capabilities and management, real-time and mass communications, and social networks. Also covers email management, ecommerce, online security, and other internet services; and teaches the basics of HTML.

3 hours lecture.

Prerequisite(s): CIS 116 or concurrent enrollment.

CIS 204 - C Programming (4) °

An introduction to the C programming language. Includes syntax and semantics, data types, operators, looping and decision structures, functions, arrays, pointers, and file handling.

3 hours lecture, 3 hours laboratory.

Prerequisite(s): CIS 130 or score of 70 or higher on the waiver exam.

CIS 206 - Assembler with Architecture (4)

A detailed study of the assembly programming language for 8086 and 8088 microprocessors in which individual instructions written in symbolic form are converted into machine code. Provides an introduction to the architecture, organization, and structure of major hardware components of a microcomputer to include primary memory, the control unit, and the arithmetic logic unit.

3 hours lecture, 3 hours laboratory.

Prerequisite(s): CIS 221 and either CIS 130 or a score of 70 or higher on the waiver exam.

CIS 208 - Java Programming (4)

An introduction to the Java programming language. Includes a study of the basic concepts associated with object-oriented programming, terminology, notation, and the syntax and semantics of the language.

3 hours lecture, 3 hours laboratory.

Prerequisite(s): CIS 130 or a score of 70 or higher on the waiver exam.

CIS 217 - Introduction to Visual C#.NET Programming (4) °

A study of the fundamentals of computer programming using Visual C#.NET. Emphasis is on the Microsoft Integrated Development Environment (IDE) and the .NET environment, as well as on proper programming strategies with Visual C#.NET.

3 hours lecture, 3 hours laboratory.

Prerequisite(s): CIS 129 or concurrent enrollment, or CIS 130.

CIS 218 - Visual Basic Programming (4) °

A study of the fundamentals of computer programming within the Windows environment. Emphasis is on the use of Visual Basic objects, events, and projects to create Windows programs.

3 hours lecture, 3 hours laboratory.

Prerequisite(s): CIS 129 or concurrent enrollment, or CIS 130.

CIS 220B - Data Structures-Assembler (4)

A study of data structures and advanced programming concepts. Includes the design, implementation, and application of stacks, queues, lists, trees, and sequential and direct access to files. Students implement the data structures in Assembler.

3 hours lecture, 3 hours laboratory.

Prerequisite(s): CIS 206.

CIS 220C - Data Structures-C (4)

A study of data structures and advanced programming concepts. Includes the design, implementation, and application of stacks, queues, lists, trees, and sequential and direct access to files. Students implement the data structures in C.

3 hours lecture, 3 hours laboratory.

Prerequisite(s): CIS 204.

CIS 220J - Data Structures-Java (4) *

A study of data structures and advanced programming concepts. Includes the design, implementation, and application of stacks, queues, lists, trees, and sequential and direct access to files. Students implement the data structures in Java.

3 hours lecture, 3 hours laboratory.

Prerequisite(s): CIS 208.

CIS 221 - Digital Logic (3) °

A study of number systems, conversion methods, binary and complement arithmetic, Boolean and switching algebra, circuit minimizations, read-only memory, programmable logic arrays, flip-flops, synchronous sequential circuits, and register transfer design.

2 hours lecture, 2 hours laboratory.

Prerequisite(s): CIS 116 or CIS 120, and CIS 129 or CIS 130; or permission of instructor.

CIS 229 - Linux System Administration (4) °

An introductory course in Linux system administration.

Covers starting, stopping, backing up, tuning, and troubleshooting the system; administering users and groups; and scripting. Also deals with file systems, terminals, printers, disks, and electronic mail.

3 hours lecture, 3 hours laboratory.

Prerequisite(s): CIS 128.

CIS 232 - Digital Communications and Network Hardware (4) °

* indicates SUN course. ‡ indicates lab fees. ° indicates online. ~ indicates intensive writing.

All prerequisite coursework must be completed with a grade of C or better.

Course topics include binary and hex number systems, Boolean algebra, circuit optimization, switches, routers, firewall configuration and installations. Students will implement network management.
3 hours lecture, 3 hours laboratory.
Prerequisite(s): CNT 140 or CIS 150, and CIS 128 or CIS 236.

CIS 236 - Microsoft Workstation Operating Systems (4) °

Microsoft is the leading supplier of desktop operating systems for home and business use. This course will use the most current and widely accepted version of Microsoft's business desktop operating system. Students will learn proper installation of the operating system, the features of the system, maximum utilization of the user interface, and efficient file handling. They will also learn to create, edit and delete user profiles, create a functional user environment, create and utilize shared network resources, and utilize and administer the workstation as a server in a hands-on environment. They will also utilize troubleshooting skills to overcome simple and complex problems in the Microsoft operating system environments.
3 hours lecture, 3 hours laboratory.
Prerequisite(s): CIS 140, CIS 160, and either CNT 140 or CIS 150.

CIS 242 - World Wide Web Programming (3)

This capstone course for the Web Developer Certificate provides an advanced study of web programming. Emphasis is on server-side scripting and the use of databases on web sites. Also covers web design and ecommerce issues.
3 hours lecture, 1 hour laboratory.
Prerequisite(s): CIS 129 or CIS 130, and CIS 287.
Recommended Preparation: CIS 244.

CIS 244 - World Wide Web Graphics (3)

An overview of the creation and modification of graphics for the World Wide Web. Topics include their formatting and optimization. Students create a variety of graphics and incorporate them into a web site.
3 hours lecture.
Prerequisite(s): CIS 185, and CIS 287 or concurrent enrollment. Recommended Preparation: DMA 110 or prior digital imagery experience.

CIS 245 - Microsoft Server and Active Directory (4)

Fundamentals of Microsoft Server and Active Directory. Topics include server hardware, installation, and configuration; Active Directory replication; Microsoft Group Policy; and system security. Explores the role of the network administrator and offers hands-on application of various approaches to user and server management.
3 hours lecture, 3 hours laboratory.
Prerequisite(s): CIS 236.

CIS 248 - Perl Scripting (3) °

A study of the creation and maintenance of the Perl script programming language. Emphasis is on the application of Perl scripts to the World Wide Web and on their applications in different operating system environments.
3 hours lecture.
Prerequisite(s): CIS 129 or CIS 130.

CIS 250 - Database Management (4) °

A study of the management of data in business organizations. Combines theory with a hands-on emphasis on the techniques used to develop, implement, and administer databases.
4 hours lecture.
Prerequisite(s): CIS 181.

CIS 255 - Microsoft PowerShell Scripting (4)

A study of the fundamentals of the Microsoft PowerShell scripting language, which is used to automate various tasks on Windows-based systems. Emphasis is on Windows PowerShell command-line features and techniques.
3 hours lecture, 2 hours laboratory.
Prerequisite(s): CIS 164.

CIS 259 - Advanced Linux Systems Administration (4) °

An advanced course in Linux System Administration. Topics include implementing Dynamic Host Control Protocol (DHCP) and Domain Name Service (DNS); managing file systems; securing networks; maintaining and troubleshooting servers.
3 hours lecture, 3 hours laboratory.
Prerequisite(s): CIS 229 and CIS 248.

CIS 260 - Service and Maintenance of Personal Computers (4)

Theory and application of servicing personal computers. Students diagnose and repair common problems. Topics include advanced configuration and hardware problems, workstation setup for configuration, storage and optical drives, random-access memory modules, and motherboard-level diagnosis and repair.
3 hours lecture, 3 hours laboratory.
Prerequisite(s): CIS 140.

CIS 262 - Network Support and Troubleshooting (4)

A capstone course in network support and troubleshooting. Topics include installation of network operating software, local area network (LAN) diagnostic utilities, installation and configuration of client software and of adaptor cards, physical and data link layer troubleshooting of networks, bridging and routing, and configuration problems.
3 hours lecture, 3 hours laboratory.
Prerequisite(s): CIS 229, CIS 245, and CIS 260.

CIS 263 - Network Defense (4) °

An advanced course in cybersecurity principles and techniques. Topics include the tools and tactics used in assessing the security posture of computer networks; the steps

* indicates SUN course. ‡ indicates lab fees. ° indicates online. ~ indicates intensive writing.

All prerequisite coursework must be completed with a grade of C or better.

involved in a penetration testing methodology-network footprinting and discovery, service enumeration, attack vector evaluation, and vulnerability assessments; and the legal and ethical issues raised by penetration testing.

3 hours lecture, 3 hours laboratory.

Prerequisite(s): CIS 128, CIS 161, CIS 236, and CIS 255.

CIS 264 - Ruby Programming (4)

A study of the fundamentals of the Ruby programming language. Emphasis is on the proper development of Ruby programs, on the language's syntax and semantics, and on appropriate debugging techniques for the language.

3 hours lecture, 2 hours laboratory.

Prerequisite(s): CIS 164.

CIS 267 - Mobile Security (3)

A survey of mobile security as it relates to mobile computing devices such as smart phones and tablets. Focus is on the technologies, policies, and procedures used to secure these devices and on the security of their wireless transmissions.

3 hours lecture.

Prerequisite(s): CIS 160. Recommended Preparation: CIS 120.

CIS 268 - Technical Presentations (3) °

A practical application of the principles of effective communication. Students integrate current technologies to prepare and deliver effective, professional presentations.

3 hours lecture.

Prerequisite(s): CIS 116 or CIS 120.

CIS 270 - Systems Analysis (4) °

An investigation of the analysis, design, and implementation of computer information systems. Students study the methods used to analyze both existing and proposed systems and projects, and they incorporate various software, techniques, and methodologies.

3 hours lecture, 3 hours laboratory.

Prerequisite(s): CIS 120.

CIS 275 - Computer Forensics (4)

Fundamentals of computer forensics. Topics include forensic evidence preservation, computer forensic tools, evidence analysis, chain of custody, and data retrieval from computer hardware and software applications using both Windows and Linux operating systems. Explores the role of the computer forensics examiner and offers hands-on application of various computer forensic tools, evidence preservation techniques, and documentation.

3 hours lecture, 3 hours laboratory.

Prerequisite(s): CIS 236. Recommended Preparation: CIS 120.

CIS 281 - Advanced Computer Applications (3) °

Advanced applications of spreadsheet and database software to solve practical problems. Spreadsheet emphasis is on formulas and functions; data analysis, reporting, and importing; spreadsheet applications; and macros. Database emphasis is

on relational databases, advanced querying techniques, forms with multiple tables, advanced report forms, macros, and development of database applications.

3 hours lecture.

Prerequisite(s): CIS 181.

CIS 287 - World Wide Web Development (3)

An introduction to the principles of good web page design. Topics include the use of HyperText Markup Language (HTML) and Cascading Style Sheets (CSS) to create multimedia pages, interactive forms, and mobile sites for the web that are compatible with the latest standards. Students create and post a web site on the internet.

3 hours lecture.

Prerequisite(s): CIS 185.

CIS 291 - Practical Applications in Cybersecurity (4)

Examines the combination of technical, management, and presentation skills needed by cybersecurity professionals. Integrates the planning, implementation, maintenance, and defense of organizational networks, using a variety of tools and techniques. Provides extensive hands-on exercises to reinforce key course concepts.

3 hours lecture, 3 hours laboratory.

Prerequisite(s): CIS 161, CIS 236, and CIS 267.

CIS 294 - Field Experience in Computer Information Systems (1-3)

A supervised cooperative education field experience involving the combined efforts of educators and employers. Students accomplish various academic and career-related objectives in computer information systems and related fields. Semester-long regular workplace participation and weekly contact with assigned faculty advisor are required.

Prerequisite(s): A declared major in computer information systems; and CIS 140, CIS 150, CIS 160, or CIS 181.

CNT - CISCO NETWORK TECHNOLOGY

CNT 140 - Introduction to Cisco Networks (3) ‡

An introduction to the architecture, structure, functions, components, and models of the internet and other computer networks. Topics include the principles and structure of internet protocol (IP) addressing and the fundamentals of Ethernet concepts, media, and operations. Students build simple local area networks (LANs), perform basic configurations for routers and switches, and implement IP addressing schemes. This is the first in a series of four courses in the Cisco Networking Technology (CNT) curriculum.

2 hours lecture, 2 hours laboratory.

Prerequisite(s): None.

CNT 150 - Cisco Routing and Switching Essentials (3) ‡

A study of the architecture, components, and operations of routers and switches in a small network. Students configure routers and switches for basic and advanced functionality, and

* indicates SUN course. ‡ indicates lab fees. ° indicates online. ~ indicates intensive writing.

All prerequisite coursework must be completed with a grade of C or better.

troubleshoot and resolve common problems—in both IPv4 and IPv6 networks—with Routing Information Protocol (RIPV2) and virtual local area networks (VLANs). Includes the configuration of Network Time Protocol (NTP), host routes, and the recovery of lost passwords in an Internetwork Operating System. This is the second in a series of four courses in the Cisco Networking Technology (CNT) curriculum. 2 hours lecture, 2 hours laboratory. Prerequisite(s): CNT 140.

CNT 240 - Scaling Cisco Networks (3) ‡

An investigation into the architecture, components, and operations of routers and switches in a large, complex network. Students configure routers and switches for advanced functionality, and troubleshoot and resolve common problems—in both IPv4 and IPv6 networks—with Open Shortest Path First (OSPF), Enhanced Interior Gateway Routing Protocol (EIGRP), Spanning Tree Protocol (STP), extended Virtual Local Area Network (VLAN), Dynamic Trunking Protocol (DTP), and VLAN Trunking Protocol (VTP). Students develop the knowledge and skills needed to implement the following: Switched Virtual Interface (SVI), Inter-VLAN Routing, Hot Swappable Router Protocol (HSRP), LAN security, Dynamic Host Configuration Protocol (DHCP), and Domain Name System (DNS) operations in a network. They also examine the benefits of switch stacking in a small to medium-sized network. This is the third in a series of four courses in the Cisco Networking Technology (CNT) curriculum. 2 hours lecture, 2 hours laboratory. Prerequisite(s): CNT 150.

CNT 250 - Connecting Cisco Networks (3) ‡

An examination of the Wide Area Network (WAN) technologies and network services required in converged applications in a complex network. Covers the criteria for selecting network devices and WAN technologies to meet network requirements. Students troubleshoot and resolve common problems with network devices and data link protocols; and they implement the following: Network Address Translation (NAT), Virtual Private Network (VPN), Quality of Service (QoS), Point-to-Point Protocol over Ethernet (PPPoE), external Border Gateway Protocol (eBGP), Switch Port Analyzer (SPAN), Extended IPv4 Access Control Lists (ACLs), and IPv6 ACLs. They also examine the uses of network programming, LAN security, the Cloud, and virtualization in medium- to large-sized networks. This is the last in a series of four courses in the Cisco Networking Technology (CNT) curriculum. 2 hours lecture, 2 hours laboratory. Prerequisite(s): CNT 240.

COM - COMMUNICATIONS

COM 102 - Essentials of Communication (3) *, °

A study of the communication process as it relates to a variety of communication situations: one-on-one dialogues, small group discussions, and large group presentations. The course covers basics in communication, including listening skills, verbal and nonverbal language analysis, communication styles, gender and cultural comparisons, and bridging strategies. 3 hours lecture. Prerequisite(s): ENG 096 or higher.

COM 110 - Public Speaking (3) °

A study of public speaking that reviews the fundamentals of speech as they relate to communicating with an audience, with special emphasis on the theories and techniques of persuasion. Students give speeches and they critique those of others from the perspective of topic selection, organization, and delivery. 3 hours lecture. Prerequisite(s): COM 102 or permission of instructor.

COM 204 - Elements of Intercultural Communication (3) °, ~

An introduction to communication across cultures. Emphasis is on the theory underlying intercultural communication and on the practical application of communication strategies and skills that lead to improved communication among people of diverse cultural backgrounds in a multicultural society and world. 3 hours lecture. Prerequisite(s): ENG 101 or permission of instructor. Cross-Listed as: AJS 204.

COM 270 - Interpersonal Communications (3) *, °

A course to develop self-awareness and insight into interpersonal relationships with emphasis upon the development of communication skills and techniques for one-on-one professional communication. 3 hours lecture. Prerequisite(s): ENG 101.

COM 271 - Communications in Small Groups (3) *

A continuation of COM 270 refining skills and techniques learned and adding analysis and presentation with emphasis on small-group communication processes. 3 hours lecture. Prerequisite(s): COM 270 or permission of instructor.

CPD - COUNSELING AND PERSONAL DEVELOPMENT

CPD 150 - Student Success Strategies (3) °

An introduction to learning in higher education, with emphasis on developing a growth mindset and key behaviors and attitudes that foster success. Covers academic and career goals, campus resources, effective learning strategies, time

* indicates SUN course. ‡ indicates lab fees. ° indicates online. ~ indicates intensive writing.

All prerequisite coursework must be completed with a grade of C or better.

management skills, information literacy, financial literacy, and communication skills.

3 hours lecture.

Prerequisite(s): None.

CUL - CULINARY ARTS

CUL 101 - Cake Decorating (3) ‡

Covers all aspects of cake decorating including leveling and torting, and introduces butter cream and fondant cakes, borders, flowers, color flow, and gum paste and fondant work.

2 hours lecture, 2 hours laboratory.

Prerequisite(s): None.

CUL 105 - Nutrition in Food Service (3)

An introduction to the principles of culinary nutrition. Topics include the scientific aspects of nutrition, the impact of lifestyle on food production and consumption, and the practical applications of nutrition in food service.

3 hours lecture.

Prerequisite(s): None.

CUL 107 - Restaurant Sanitation (3) ‡

An examination of techniques for controlling sanitation in food service operations. Includes a kitchen orientation and basic knife handling and safety. Prepares students to take the ServSafe industry certification. (Students wishing to re-certify may pay a fee for the certification test without having to retake the course.)

2 hours lecture, 2 hours laboratory.

Prerequisite(s): None.

CUL 204 - Food Service Purchasing and Control (3)

A study of the principles in selecting sources, quality, and types of food, and in determining purchase quantities. Also deals with receiving operations and volume assurance including planning, control systems, cost analysis, sales income, and labor costs.

3 hours lecture.

Prerequisite(s): BUS 104 or placement in MAT 091.

Recommended Preparation: CUL 215.

CUL 215 - Cooking Essentials (3) ‡

An introduction to food costs, recipes, pre-preparation, and basic cooking principles. Involves the preparation of stocks and sauces, vegetables, starches, breakfast products, meats, poultry, fish, and shellfish.

2 hours lecture, 2 hours laboratory.

Prerequisite(s): CUL 107, concurrent enrollment, or permission of instructor.

CUL 217 - Saucier (3) ‡

Focus is on the cooking principles and techniques used in the preparation of stocks, soups, classic and contemporary sauces

and accompaniments, and on the pairing of sauces with a variety of foods.

2 hours lecture, 2 hours laboratory.

Prerequisite(s): CUL 107, concurrent enrollment, or permission of instructor.

CUL 220 - Breads and Baking Theory (3) ‡

An introduction to the essentials of baking theory, gluten development, and baking mathematics, with a focus on the use of proper kitchen equipment. Includes instruction in the preparation of yeast doughs and the baking of quick breads, lean and rich dough breads, and artisan breads.

2 hours lecture, 2 hours laboratory.

Prerequisite(s): CUL 107, concurrent enrollment, or permission of instructor.

CUL 221 - Pastry Basics (3) ‡

A continuation of CUL 220 that includes advanced baking principles as they relate to pastry cream, meringues, icings, pie doughs, éclair paste, pie production, cakes, cookies and their characteristics, custards and mousses; frozen desserts; fruit desserts; souffles, doughnuts, and crepes. Additional topics include dessert presentation and baking for special diets.

2 hours lecture, 3 hours laboratory.

Prerequisite(s): CUL 220.

CUL 222 - Advanced Confections and Pastries I (3) ‡

Continued instruction in baking skills focusing on sophisticated pastry techniques including advanced laminated dough, specialty gateau and torten (gourmet cakes), and complex sauces and creams.

2 hours lecture, 3 hours laboratory.

Prerequisite(s): CUL 221.

CUL 223 - Advanced Confections and Pastries II (3) ‡

Advanced confectionary-showpiece work designed to develop chocolate decorative techniques such as tempering, molding, rolling, curling, shaving, and others, as well as sophisticated methods used in working with pulled, blown, poured, spun, and cast sugar.

2 hours lecture, 3 hours laboratory.

Prerequisite(s): CUL 222.

CUL 224 - Field Experience in Culinary Arts (1-4)

A supervised cooperative education field experience involving the combined efforts of educators and employers. Students accomplish various academic and career-related objectives in culinary arts and related fields. Semester-long regular workplace participation and weekly contact with assigned faculty advisor are required.

Prerequisite(s): A declared major in culinary arts and CUL 107.

CUL 225 - Garde Manger I (3) ‡

* indicates SUN course. ‡ indicates lab fees. ° indicates online. ~ indicates intensive writing.

All prerequisite coursework must be completed with a grade of C or better.

Covers the creation and storage of salads, sandwiches, and appetizers. Includes purchasing practices, food platter layout and presentation, and cooking methods. Also includes salads and dressings, poultry, seafood, meats, show pieces, and canapes and hors d'oeuvres.

2 hours lecture, 2 hours laboratory.

Prerequisite(s): CUL 215.

CUL 226 - Garde Manger II (3) ‡

A continuation of CUL 225, the garde manger culinary specialty. Emphasis is on preparing, presenting, and decorating cold food, including aspic and chaud froid, various formereats, cheeses, cured and smoked products, and charcuterie. Topics also include garde manger production, purchasing and procurement of specialty products, dinner and theme buffets, ice carvings, and plate presentations.

2 hours lecture, 3 hours laboratory.

Prerequisite(s): CUL 225.

CUL 242 - Dining Service Management (3)

A study of the concepts of dining room operations and the duties of a table server. Includes creative selling, basic etiquette and styles of service, electronic service, teamwork, generic and varietal wines, wine and food pairings, and bar service. Does not include mixology or wine tasting.

3 hours lecture.

Prerequisite(s): None.

CUL 275 - International Cuisine (3) ‡

An introduction to regional ingredients in traditional international cuisine, with focus on planning, preparation, and presentation of foods from around the world. Emphasis is on trends, flavor profiles, plate presentations, and cooking techniques unique to various world regions.

2 hours lecture, 3 hours laboratory.

Prerequisite(s): CUL 226 or permission of instructor.

CUL 280 - Advanced Techniques in Gourmet Food Preparation I (3) ‡

The first of two capstone courses in the culinary arts program with emphasis on advanced techniques for the preparation of gourmet food including proper flavorings, spirits, garnishes, and flambé in haute cuisine.

2 hours lecture, 3 hours laboratory.

Prerequisite(s): CUL 217 and CUL 275, or permission of instructor.

CUL 281 - Advanced Techniques in Gourmet Food Preparation II (3) ‡

The second of two capstone courses in the culinary arts program with emphasis on advanced techniques for the preparation of gourmet food including proper flavorings, spirits, garnishes, and flambé in haute cuisine.

2 hours lecture, 3 hours laboratory.

Prerequisite(s): CUL 280.

DFT - DRAFTING

DFT 150 - Fundamentals of AutoCAD (3)

An introduction to automated computer-aided design using Autodesk's AutoCAD software. Focus is on developing the knowledge and skills required to create, edit, and manipulate simple drawings using AutoCAD.

2 hours lecture, 3 hours laboratory.

Prerequisite(s): None. Recommended Preparation: Computer literacy with a working knowledge of Windows and its functions, and a basic knowledge of drafting.

DFT 201 - Topics in Drafting (3)

An application of automated computer-aided design using Autodesk's AutoCAD software. Topics include architectural, civil, mechanical, and electrical drafting. Covers how different drafting disciplines are used in current fields of technology.

2 hours lecture, 3 hours laboratory.

Prerequisite(s): DFT 150.

DFT 250 - Advanced AutoCAD (3)

An advanced application of automated computer-aided design using Autodesk's AutoCAD software. Covers complex two-dimensional drawings, and three-dimensional drawings and modelings.

2 hours lecture, 3 hours laboratory.

Prerequisite(s): DFT 150.

DFT 270 - AutoCAD 3D (3)

An introduction to the concepts and methodologies of 3D modeling and rendering using Autodesk's AutoCAD 3D software. Covers solids, surfaces, space, visualizations, and drawings.

2 hours lecture, 3 hours laboratory.

Prerequisite(s): CIS 116, DFT 150, and DFT 250.

DMA - DIGITAL MEDIA ARTS

DMA 110 - Digital Imaging I (3) °, ‡

An introduction to the creation, manipulation, and enhancement of digital images. Using appropriate software, students apply fundamental composition and image-preparation techniques to create basic digital images and to resolve simple image problems.

3 hours lecture, 1 hour laboratory.

Prerequisite(s): CIS 116, CIS 120, or permission of instructor.

DMA 111 - Computer Animation I (3) °, ‡

A study of the beginning and intermediate features of animation software developed through the practical application of basic computer animation skills.

3 hours lecture, 1 hour laboratory.

Prerequisite(s): None.

* indicates SUN course. ‡ indicates lab fees. ° indicates online. ~ indicates intensive writing.

All prerequisite coursework must be completed with a grade of C or better.

DMA 140 - Digital Photography for Personal Growth (2) °, ‡

An introduction to the use and function of the digital camera and the hardware, software, and techniques necessary to electronically store, transfer, manipulate, and print digital photographs. Students will learn basic design concepts as they relate to digital photography as an art form. This includes skill development in basic elements of design: line, shape, value, texture, and color. Students will acquire skills in using a digital camera as a photographic tool for career, work or personal pleasure and self-expression.

1 hour lecture, 3 hours laboratory.

Prerequisite(s): None.

DMA 210 - Digital Imaging II (3) °, ‡

An advanced study of the creation, manipulation, and enhancement of digital images. Using appropriate software, students apply advanced composition and image-preparation techniques to create complex digital images and to resolve difficult image problems.

3 hours lecture, 1 hour laboratory.

Prerequisite(s): DMA 110. Recommended Preparation: ART 103 or ART 106.

DMA 211 - Computer Animation II (3) °, ‡

A study of the advanced and multifaceted features of animation software as they are developed through the practical application of advanced computer animation skills.

3 hours lecture, 1 hour laboratory.

Prerequisite(s): DMA 111. Recommended Preparation: ART 103 or ART 106.

DMA 214 - Creating Multimedia Presentations (4) ‡

This course is the capstone course in the 2D animation and imagery series. This course will produce multimedia presentations encompassing techniques learned in all the prerequisite courses. This course is taught in a hands-on environment.

4 hours lecture.

Prerequisite(s): DMA 110, DMA 111, DMA 210, and DMA 211.

DMA 260 - Graphic Design I (3) °, ‡

A studio course introducing the process and purpose of graphic design. Studio, research, and problem-solving methodologies; review of basic design principles; and design applications to include identity and information, editorial, promotional, and advertising. This class serves as the foundation for intermediate and advanced graphic design course work and will focus on the use of Macintosh computers and Adobe software including Photoshop and Illustrator.

2 hours lecture, 4 hours laboratory.

Prerequisite(s): ART 103, ART 106, or permission of instructor.

DMA 261 - Graphic Design II (3) ‡

An advanced studio course dealing with the process and purpose of graphic design. Studio, research, and problem-solving methodologies; review of basic design principles; and design applications to include identity and information, editorial, promotional, and advertising. This class serves the intermediate and advanced graphic designer and will focus on the use of Macintosh computers and Adobe software including Photoshop and Illustrator.

2 hours lecture, 4 hours laboratory.

Prerequisite(s): DMA 260 and either ART 103, ART 106, or permission of instructor.

DMA 262 - Digital Video Production (3) ‡

This course will introduce the student to the fundamental aspects of video production. It will include a history of digital video, an introduction to the digital video camera, camera lenses and associated computer equipment. Students will also work as members of a production team and receive instruction on composition, portfolio preparation, and possible career options.

2 hours lecture, 4 hours laboratory.

Prerequisite(s): None. Recommended Preparation: Art majors must have ART 103 and DMA 266, or permission of instructor. Additional preparation may include ART 285.

DMA 263 - Digital Video Production II (3) ‡

An advanced studio course dealing with the process and production of the digital video. This course will include: advanced digital topics in camera usage, digital formats and scripting, production plan, lighting equipment in/on various locations, post production, editing approaches, developing a visual storyline, and building a portfolio.

2 hours lecture, 4 hours laboratory.

Prerequisite(s): DMA 262. Recommended Preparation: ART 103.

DMA 266 - Digital Photography (3) ‡

An introduction to digital photography which will emphasize technical and aesthetic issues associated with this medium. This course is designed to acquaint students with the history of still photography, aspects of the digital medium, camera and computer requirements, lighting, lenses, elements of composition, portfolio, and career options in this artistic field.

2 hours lecture, 4 hours laboratory.

Prerequisite(s): None. Recommended Preparation: Art majors must have ART 103 or permission of instructor. Additional preparation may include ART 285.

DMA 267 - Digital Photography II (3) ‡

This course is a continuation of DMA 266 Digital Photography I which will emphasize intermediate technical and aesthetic issues associated with this medium. This course will address intermediate, aspects of digital photography including: digital output, lighting, computer/computer

* indicates SUN course. ‡ indicates lab fees. ° indicates online. ~ indicates intensive writing.

All prerequisite coursework must be completed with a grade of C or better.

software and digital camera usage, composition, critical analysis, and portfolio development.

2 hours lecture, 4 hours laboratory.

Prerequisite(s): DMA 266. Recommended Preparation: ART 103 and DMA 260.

ECE - EARLY CHILDHOOD EDUCATION

ECE 150 - Introduction to Early Childhood Care and Education (3) °

An overview of early childhood education and its teachers. Topics include current issues and trends in the profession, instructional methods, classroom ethics, teachers' qualifications, and their roles and responsibilities in the classroom.

3 hours lecture.

Prerequisite(s): None. Recommended Preparation: Concurrent employment in an early childhood care or education facility, or concurrent enrollment in EDU 224.

ECE 152 - Observation, Behavior, and Guidance (3) °

An introductory course in communication skills, concepts, and techniques for observing and recording child characteristics and behaviors in the early childhood setting. Areas of focus are objective observation techniques, guidance, behavior modification techniques, listening skills, and classroom management. Meaningful two-way communication is emphasized.

3 hours lecture.

Prerequisite(s): None. Recommended Preparation: Concurrent employment in an early childhood care or education facility, or concurrent enrollment in Cooperative Education in an early childhood care or education facility.

ECE 155 - Children's Language Development (3) °

An overview of the development of language from birth to age five. Topics include sound, structure, meaning, the role of society in language development, and mixed and multiple language acquisition. Also covers hearing and sight impairment and the relationship of spoken to written language. Designed to enable students to facilitate language growth in child-care and preschool settings.

3 hours lecture.

Prerequisite(s): ECE 150 or concurrent enrollment.

Recommended Preparation: Concurrent employment in an early childhood care or education facility, or concurrent enrollment in EDU 224.

ECE 156 - Children's Literature and Literacy (3) °

An overview of the process by which children become literate, with emphasis on language and literacy development from birth to age five. Samples children's literature and examines language activities that support child literacy across languages and cultures. Studies the role of narration and storytelling as well as the sequential nature of speaking, reading, and writing

acquisition. Designed to enable students to facilitate literacy development in child-care and preschool settings.

3 hours lecture.

Prerequisite(s): ECE 150 or concurrent enrollment.

Recommended Preparation: Concurrent employment in an early childhood care or education facility, or concurrent enrollment in EDU 224.

ECE 158 - Health, Safety, and Nutrition for Young Children (3) °

In-depth examination of comprehensive health, mental health, safety, and nutrition concepts and their applications and implications for developing quality child development and early childhood education programs.

3 hours lecture.

Prerequisite(s): None.

ECE 160 - Early Childhood Growth and Development (3) °

This course addresses growth and development from conception to middle childhood, and socialization from infancy to middle childhood, with implications for childcare providers and primary school teachers. Topics covered also include health, safety, and nutrition.

3 hours lecture.

Prerequisite(s): None. Recommended Preparation:

Concurrent employment in an early childhood care or education facility, or concurrent enrollment in Cooperative Education in an early childhood care or education facility.

ECE 161 - Understanding Families, Community, and Diversity (3) °

An exploration of the resources, skills, and strategies used by early childhood caregivers and teachers to deal with and assist families in the community. Emphasis is on the role of cultural and community diversity in the education of young children.

3 hours lecture.

Prerequisite(s): ECE 150 or concurrent enrollment.

Recommended Preparation: Concurrent employment in an early childhood care or education facility, or concurrent enrollment in EDU 224.

ECE 170 - Curriculum Development for Early Childhood Education (3) °

A study of the methods used to select and present developmentally appropriate curricular practices and activities that enhance optimal growth from infancy to age eight. Emphasis is on planning, developing, implementing, and evaluating activities used in child-care settings.

3 hours lecture.

Prerequisite(s): ECE 150 or concurrent enrollment.

Recommended Preparation: Concurrent employment in an early childhood care or education facility, or concurrent enrollment in EDU 224.

* indicates SUN course. ‡ indicates lab fees. ° indicates online. ~ indicates intensive writing.

All prerequisite coursework must be completed with a grade of C or better.

ECE 172 - Teaching Strategies for Early Childhood Education (3) °

An overview of the techniques used in early childhood education to accommodate a variety of learning styles, with emphasis on developmentally appropriate activities for young children. Emphasis is on teaching strategies that create an environment where children experience optimum growth. 3 hours lecture.

Prerequisite(s): ECE 150 or concurrent enrollment.

Recommended Preparation: Concurrent employment in an early childhood care or education facility, or concurrent enrollment in EDU 224.

ECE 173 - Administration of Early Childhood Care and Education Programs (3) °

An in-depth examination of the principles and practices used to soundly administer early childhood programs. Topics include record keeping methods, budgeting strategies, and staffing plans; legal responsibilities and mandates; and the managing of programs that are developmentally, culturally, and geographically appropriate. 3 hours lecture.

Prerequisite(s): ECE 150 or concurrent enrollment.

Recommended Preparation: Concurrent employment in an early childhood care or education facility, or concurrent enrollment in EDU 224. .

ECE 174 - Behavior Management (3) °

Instructs teachers, prospective teachers, parents, and caregivers of young children in behavior management. Topics include discipline techniques, behavioral expectations, behavior modification, stress management, and ethics and bias. Emphasis is on creating a nurturing environment for young children. 3 hours lecture.

3 hours lecture.

Prerequisite(s): ECE 150 or concurrent enrollment.

Recommended Preparation: Concurrent employment in an early childhood care or education facility, or concurrent enrollment in EDU 224. .

ECN - ECONOMICS**ECN 201 - Principles of Macroeconomics (3) *, °, ~**

A broad overview of the national and international economy, with emphasis on supply and demand as it relates to macroeconomic issues such as unemployment, inflation, and economic growth. Topics include national income accounting, fiscal policy, monetary policy, and international trade theory. 3 hours lecture.

Prerequisite(s): ENG 101.

ECN 202 - Principles of Microeconomics (3) *, °, ~

A study of individual markets with focus on supply and demand. Topics include consumer theory, cost and

production for businesses, pure competition, pure monopoly, and international finance markets.

3 hours lecture.

Prerequisite(s): ENG 101.

EDU - EDUCATION**EDU 020 - Fundamental Academic Skills Training (3)**

A review of reading comprehension strategies, vocabulary, and practical mathematics. Provides students with the skills required for further developmental English and mathematics courses.

3 hours lecture.

Prerequisite(s): Placement measurement and recommendation of the Army Education Center counselor.

EDU 021 - ASVAB Test Preparation (1)

Designed to improve basic test-taking skills for the Armed Services Vocational Aptitude Battery (ASVAB). Emphasis is on arithmetic reasoning, word analysis, and reading comprehension.

1 hour lecture.

Prerequisite(s): Placement measurement and recommendation of the Army Education Center counselor.

EDU 101 - Fundamentals of Education (3)

A survey of the American education system, including its history and structure. Topics include the developmental stages of children; the role of diversity in education and its effects on schools, teachers, and students; and the legal, ethical, and financial issues facing today's schools. Designed to articulate with high school Education Professions programs.

3 hours lecture.

Prerequisite(s): RDG 092 or exemption.

EDU 201 - Introduction to Education (3)

An overview of public education: the education profession, educational institutions, and educational systems within American society. Includes the study of current educational issues and of educators' roles, responsibilities, and qualifications; and offers the opportunity to apply educational theories and methodologies during 32 hours of supervised classroom observations in public school settings. Requires appropriate Department of Public Safety fingerprint clearance and related fees.

2 hours lecture, 2 hours laboratory.

Prerequisite(s): ENG 101 or concurrent enrollment, and RDG 092 or exemption.

EDU 203 - Foundations of Instructional Techniques (3)

A study of learner-centric instructional techniques. Emphasis is on verbal and nonverbal instructional behaviors, and on classroom management strategies. Attention is paid to collaborative problem-solving and active learning techniques, generational attributes, and various learning styles.

3 hours lecture.

* indicates SUN course. ‡ indicates lab fees. ° indicates online. ~ indicates intensive writing.

All prerequisite coursework must be completed with a grade of C or better.

Prerequisite(s): None.

EDU 204 - Learner-Centered Instruction (3) °

An in-depth study of how to structure student-centric instruction, with emphasis on critical thinking and lifelong learning.

3 hours lecture.

Prerequisite(s): EDU 203 or permission of instructor.

EDU 205 - Theoretical Dynamics of Instruction (3) °

An analysis of various learning and motivational theories and their application to adult learning.

3 hours lecture.

Prerequisite(s): EDU 204 or permission of instructor.

EDU 206 - Mentoring Practicum (4) °

A practical application of mentoring theory based on the pairing of an experienced instructor with a protégé. Requires a minimum of 45 hours of direct mentoring.

3 hours lecture, 3 hours laboratory.

Prerequisite(s): EDU 205 or permission of instructor.

EDU 207 - Instructional Design for Adult Education (3)

An introduction to the instructional design technique of Analysis, Design, Development, Implementation, and Evaluation (ADDIE). Topics include learning rubrics, assessment, and delivery considerations.

3 hours lecture.

Prerequisite(s): EDU 205 or permission of instructor.

EDU 208 - Capstone Practicum in Instructional Techniques (4)

A capstone project that applies both learner-centric instructional techniques and the elements of Analysis, Design, Development, Implementation, and Evaluation (ADDIE) to a curriculum of the student's choosing.

3 hours lecture, 3 hours laboratory.

Prerequisite(s): EDU 207.

EDU 218 - Introduction to Structured English Immersion (3) °

This course addresses current educational and legal requirements for serving English Language Learners (ELL). Topics include ELL proficiency standards, assessment, foundations of Structured English Immersion (SEI), and SEI strategies. Focus is on SEI; however, comparison and evaluation of various types of language education models, such as English as a Second Language (ESL) and bilingual instruction, are included. This course meets Arizona Department of Education requirements for three semester hours (45 contact hours) and leads to augmented provisional SEI endorsement, required for Teaching and/or Administrative certification.

3 hours lecture.

Prerequisite(s): Arizona Teaching and/or Administrative certification or departmental approval.

EDU 221 - Structured English Immersion (SEI) (3) °

A study of the theories and methodologies used to plan, develop, and evaluate lesson plans in all content areas as they relate to Structured English Immersion (SEI) and English Language Learner (ELL) standards. Emphasis is on curriculum content, teaching strategies, SEI foundations, assessment and data analysis, and the role of culture in learning. Meets the Arizona Department of Education's requirements for SEI endorsement.

3 hours lecture.

Prerequisite(s): EDU 201, EDU 222, and EDU 230.

Recommended Preparation: Arizona Teaching and/or Administrative certification. .

EDU 222 - Introduction to Special Education (3) °

A study of special education with emphasis on current educational theories and practices. Attention is given to identifying the characteristics of emotionally handicapped, learning disabled, mentally handicapped, and gifted children. Topics include autism spectrum disorder, attention deficit/hyperactivity disorder (ADHD), special education considerations in early childhood and K-12 settings, and accommodations for special education students.

3 hours lecture.

Prerequisite(s): EDU 201.

EDU 224 - Field Experience in Education (1-3)

A supervised cooperative education field experience involving the combined efforts of educators and employers. Students accomplish various academic and career-related objectives in education and related fields. Semester-long regular workplace participation and weekly contact with assigned faculty advisor are required.

Prerequisite(s): A declared major in education, and ECE 150 or EDU 201.

EDU 226 - Cultural Diversity in Education (3) °

An analysis of the correlation between children's cultural values and the formation of their self-concepts and learning styles. Examines the impact of prejudice, stereotyping, and cultural differences on the educational process. Emphasis is on training future teachers to be culturally sensitive to students of all racial and ethnic backgrounds.

3 hours lecture.

Prerequisite(s): EDU 201 or concurrent enrollment.

Recommended Preparation: ENG 102 or concurrent enrollment.

EDU 230 - Classroom Relationships (3) °

A study of the fundamentals of classroom management and of communication techniques. Deals with creating a positive

* indicates SUN course. ‡ indicates lab fees. ° indicates online. ~ indicates intensive writing.

All prerequisite coursework must be completed with a grade of C or better.

learning environment, accommodating cultural diversity and various learning styles, and applying effective communication strategies and classroom discipline techniques.

3 hours lecture.

Prerequisite(s): EDU 201.

EGR - ENGINEERING

EGR 102 - Principles of Engineering (3) ‡

An introduction to general engineering principles and to the role of systems, design, and testing in the engineering process. Students investigate the interaction between engineering and various business departments. They also use tools such as Excel and MATLAB for data reduction and presentations, and they apply learned skills while working on group projects.

3 hours lecture.

Prerequisite(s): MAT 151 and MAT 182, MAT 187, or concurrent enrollment in MAT 220.

EGR 103 - Electrical Components and Systems (4) ‡

An introduction to the basics of electrical components in a complex system. Students investigate the physical properties and functions of these components and the role they play within the system. Students also utilize technical documents such as data sheets, schematics, circuit and timing diagrams, and system specifications to identify, localize, and correct malfunctions in the system; and they perform preventive maintenance on the system's components.

3 hours lecture, 3 hours laboratory.

Prerequisite(s): None.

EGR 104 - Introduction to Programmable Logic Controllers (4) ‡

An introduction to the fundamentals of digital logic and to programmable logic controllers (PLCs) in a complex system. Using computer simulations, students explore the role PLCs play within a given system and its subsystems, and they demonstrate PLC functions by writing basic programs and testing them on the actual system. They also apply troubleshooting strategies to identify malfunctioning PLCs and to localize problems caused by PLC hardware.

3 hours lecture, 3 hours laboratory.

Prerequisite(s): None.

EGR 107 - Introduction to RF Communication Systems (4) ‡

An overview of modern communication waveforms. Topics include the radio spectrum; radio propagation; co-channel and adjacent channel interference; power and spectral measurement; data capture, reduction, and presentation; and the safe and correct handling of RF equipment connections.

3 hours lecture, 3 hours laboratory.

Prerequisite(s): EGR 103 and MAT 182.

EGR 122 - Programming for Engineering and Science (4) ‡

An introduction to computer programming with an emphasis on problem-solving applications in the fields of engineering

and science. Includes structured programs, data types, operations, repetitions, arrays, functions, data files, address pointers, and character strings.

3 hours lecture, 2 hours laboratory.

Prerequisite(s): MAT 151.

EGR 202 - Electrical Circuits (4) ‡

A fundamental study of electrical and electronic circuits, and of the principles for analyzing linear and nonlinear circuits. Topics include circuit elements, Ohm's Law, Kirchhoff's Laws, the superposition theorem, Thevenin's and Norton's theorems, amplifiers, electrical networks with capacitors and/or inductors, and alternating current (AC) power.

3 hours lecture, 3 hours laboratory.

Prerequisite(s): MAT 262 and PHY 231.

EGR 210 - Statics (3)

A basic analysis of static mechanical systems for civil, as well as structural, and mechanical engineering students. Topics include vector algebra, equilibrium of particles and rigid bodies, forces, moments, couples, equivalent force systems, analysis of simple structures (trusses, beams, frames, cables, and simple machines), friction, and first and second moments of area (moment of inertia).

3 hours lecture.

Prerequisite(s): MAT 231 and PHY 230.

EGR 213 - Mechanics of Materials (3)

An introduction to the analysis of the mechanical properties of materials for civil as well as structural engineering students. Topics include thin-walled pressure vessels, direct shear stresses, torsion, shearing force and bending moment, and elastic deflection of beams, columns, combined stresses, and members subject to combined loadings.

3 hours lecture.

Prerequisite(s): EGR 210.

EGR 214 - Dynamics (3)

An advanced analysis of dynamic mechanical systems (the study of the motion of body under the action of forces) for civil, as well as structural, and mechanical engineering students. Topics include rectilinear and curvilinear motion; and rectangular, tangential, normal, radial, and transverse components. Also covers acceleration, D'Alembert's principle, plane of a rigid body, and rotation.

3 hours lecture.

Prerequisite(s): EGR 210.

ELT - ELECTRONICS

ELT 100 - Electronics Foundations (3)

An introduction to the principles of electronics. Topics include direct and alternating circuits, passive and active components, Ohm's and Watt's Laws, network theorems, series and parallel resonance, and schematic diagrams. This

* indicates SUN course. ‡ indicates lab fees. ° indicates online. ~ indicates intensive writing.

All prerequisite coursework must be completed with a grade of C or better.

course is offered only at the Arizona Department of Corrections in Douglas.
3 hours lecture.
Prerequisite(s): None.

ELT 102 - Basic Information Systems Installation (8)

A theoretical and practical study of the installation and repair of information systems, focusing on standard practices and techniques of communications-electronics installation.
4 hours lecture, 12 hours laboratory.
Prerequisite(s): Approval of the Army Training and Doctrine Command.

ELT 105 - Introduction to DC Circuits (3) ‡

The analysis of direct current resistive circuits, with an emphasis on Ohm's Law and Kirchhoff's Laws, the superposition theorem, and Thevenin's and Norton's theorems.
2 hours lecture, 3 hours laboratory.
Prerequisite(s): None.

ELT 106 - Introduction to AC Circuits (4) ‡

An introduction to alternating current passive circuits and the application of basic trigonometry and vectors to circuit solutions.
3 hours lecture, 3 hours laboratory.
Prerequisite(s): ELT 105.

ELT 110 - Mathematics for Electronics (3)

A review of basic arithmetic and the study of algebraic principles as they relate to electronic circuitry. Includes fractions, decimals, fundamental algebra, scientific notation, graphing, linear equations, and DC electric circuits.
3 hours lecture.
Prerequisite(s): One year of high school algebra or equivalent.

ELT 125 - Electronic Circuits and Systems (4) ‡

A study of large signal diode and filter analysis, voltage, and current regulation, with an emphasis on the field effect transistor as an amplifier, the Miller Effect, frequency response, and feedback.
3 hours lecture, 3 hours laboratory.
Prerequisite(s): ELT 106.

ELT 131 - FCC Regulations (2)

An in-depth preparation for the Federal Communications Commission examination.
2 hours lecture.
Prerequisite(s): None.

ELT 133 - Digital Circuits and Systems (4) ‡

A study of number systems, Boolean algebra, and combinational and sequential logic circuits and systems.
3 hours lecture, 3 hours laboratory.
Prerequisite(s): One year of high school algebra or equivalent.

ELT 135 - Digital and Microprocessor Fundamentals (4) ‡

A study of digital concepts, logic elements, control applications, programming, interfacing, basic networking, and networking to data links. Emphasis is on combinational and sequential logic, and on the memory and support circuits of various components of microcomputers.
3 hours lecture, 3 hours laboratory.
Prerequisite(s): ELT 106.

ELT 222 - Semiconductors and Transistors (4) ‡

A comprehensive study of semiconductor devices, with an emphasis on the qualitative and quantitative analysis of semiconductor circuits. Includes the small signal analysis of diodes and transistors, DC biasing, load lines, approximate hybrid parameters, and multistate systems.
3 hours lecture, 3 hours laboratory.
Prerequisite(s): ELT 106.

ELT 227 - Autonomous Systems and Control Stations (3) ‡

A study of autonomous systems and their capabilities, of control stations, and of electrical power and computer sub-systems. Topics include automated takeoff and landing systems, navigation sub-systems, data link sub-systems and data processing equipment, tactical communication sub-systems, and control workstations.
2 hours lecture, 3 hours laboratory.
Prerequisite(s): ELT 222.

ELT 245 - Communication Electronics I (4) ‡

The application of qualitative and quantitative theoretical concepts to communications circuits. Includes AM and FM receiver systems, voltage and power amplifiers, feedback, oscillators, resonance, filters, coupling, frequency synthesizers, and phaselock techniques.
3 hours lecture, 3 hours laboratory.
Prerequisite(s): ELT 125.

ELT 247 - Communication Electronics II (4) ‡

A continuation of ELT 245 that includes AM and FM transmitter systems, transmission lines, antennas, and propagation devices. Emphasis is on the use of electronic test equipment in the analysis and adjustment of receivers and transmitters.
3 hours lecture, 3 hours laboratory.
Prerequisite(s): ELT 245.

ELT 265 - Microprocessors and Microcomputers (4) ‡

An introduction to the architecture of microprocessors and to the organization, programming, interfacing, and control applications of microcomputers.
3 hours lecture, 3 hours laboratory.
Prerequisite(s): ELT 133.

EMT - EMERGENCY MEDICAL TECHNOLOGY

* indicates SUN course. ‡ indicates lab fees. ° indicates online. ~ indicates intensive writing.

All prerequisite coursework must be completed with a grade of C or better.

EMT 174 - Emergency Medical Technician (8) ‡

A study of anatomy and physiology, signs and symptoms of illness and injury, patient assessment, procedures associated with the provision of emergency medical care, triage, basic life support systems, and basic legal responsibilities. Equips students with the knowledge and skills required by the National Registry of Emergency Medical Technicians (NREMT) and the Arizona Department of Health Services - Bureau of Emergency Medical Services (ADHS-BEMS) to practice as an Emergency Medical Technician. Students desiring NREMT/ADHS-BEMS certification must complete the state-required number of clinical experience hours with an Emergency Medical Service provider of out-of-hospital emergency care. Meets the ADHS-BEMS guidelines and is approved by the state of Arizona and the National Registry of EMTs.

Medical Direction: Arizona Certified EMTs are authorized to provide treatment, perform procedures, and utilize skills--as defined by the 2009 National EMS Education Standards--only under the medical control of an approved medical director or certified base hospital.

7 hours lecture, 3 hours laboratory.

Prerequisite(s): RDG 092 or exemption. Students taking this course for state or national certification must be 18 within six months of course completion.

ENG - ENGLISH**ENG 095 - Basic Writing (4) °**

A review of English grammar, mechanics, terminology, and rules as they apply to writing and revising at the sentence and paragraph levels. Includes techniques for creating introductions, thesis statements, transitional sentences, and conclusions. Also emphasizes vocabulary development.

4 hours lecture, 1 hour laboratory.

Prerequisite(s): Appropriate placement measurement, and CPD 150 or concurrent enrollment.

ENG 096 - Intermediate Writing (3) °

A study of intermediate writing skills, with emphasis on unity, support, and coherence of ideas. Includes a general review of vocabulary, homophones, grammar, punctuation, usage, and paragraph and essay writing skills. Also covers college-level research skills and analysis of short fiction.

3 hours lecture.

Prerequisite(s): Appropriate placement measurement or ENG 095, and CPD 150 or concurrent enrollment.

ENG 101 - Composition (3) *, °

A study of and practice in the process of writing, methods of organization, and expository patterns. Students write a documented paper based on library and other sources.

3 hours lecture.

Prerequisite(s): Appropriate placement measurement or ENG 096.

ENG 101A - Composition - Flex A (3)

Study of and practice in the process of writing, methods of organization, expository patterns, and a documented paper based on library and other resources, with a review of usage and syntax.

3 hours lecture.

Prerequisite(s): Appropriate placement measurement or ENG 096.

ENG 101B - Composition - Flex B (3)

Study of and practice in the process of writing, methods of organization, expository patterns, and a documented paper based on library and other resources, with a review of usage and syntax.

3 hours lecture.

Prerequisite(s): Placement measurement, ENG 101A, or instructor recommendation. Recommended Preparation: Keyboarding skills.

ENG 102 - English Composition (3) *, °

A continuation of ENG 101 with special emphasis on the techniques involved in writing argument, persuasion, and literary analysis.

3 hours lecture.

Prerequisite(s): ENG 101.

ENG 102H - English Composition (3)

A continuation of ENG 101 with special emphasis on the techniques involved in writing argument, persuasion and literary analysis.

3 hours lecture.

Prerequisite(s): ENG 101 with a grade of A, recommendation of ENG 101 instructor, minimum 3.5 GPA, completion of 12 Cochise College transfer credits, or permission of instructor.

ENG 119 - Creative Writing (3) °, ~

An introduction to creative writing which models examples of narrative prose, poetry, and drama. In addition, students' original work is analyzed and critiqued.

3 hours lecture.

Prerequisite(s): ENG 102 or permission of instructor.

ENG 219 - Advanced Creative Writing (3) °, ~

A continuation of creative writing which models examples of narrative prose, poetry, and drama. In addition, students' original work is analyzed and critiqued.

3 hours lecture.

Prerequisite(s): ENG 119 or permission of instructor.

ENG 220 - British Literature I (3) °, ~

A survey of the major British authors from the beginnings to the early 18th century.

3 hours lecture.

Prerequisite(s): ENG 102 or permission of instructor.

ENG 221 - British Literature II (3) °, ~

* indicates SUN course. ‡ indicates lab fees. ° indicates online. ~ indicates intensive writing.

All prerequisite coursework must be completed with a grade of C or better.

A survey of the major British authors from the 18th century to the present.

3 hours lecture.

Prerequisite(s): ENG 102 or permission of instructor.

ENG 222 - Introduction to Shakespeare (3) °, ~

An exploration of selected histories, tragedies, and problem plays/comedies by William Shakespeare.

3 hours lecture.

Prerequisite(s): ENG 102 or permission of instructor.

ENG 224 - American Literature I (3) °, ~

A survey of American literature from the pre-colonial period to 1860.

3 hours lecture.

Prerequisite(s): ENG 102 or permission of instructor.

ENG 225 - American Literature II (3) °, ~

A survey of selected works by major American authors from post-Civil War to the present.

3 hours lecture.

Prerequisite(s): ENG 102 or permission of instructor.

ENG 228 - Mythology and Folklore (3) °, ~

A survey of myths and folktales from classical to present times. Covers the basic concepts of myths and the approaches to understanding them. Includes the role of folklore in culture.

3 hours lecture.

Prerequisite(s): ENG 102 or permission of instructor.

ENG 230 - Literature of the Southwest (3) ~

Introduction to the literature of the American Southwest, spanning historical through contemporary times. Emphasis on the environmental, historical, and cultural influences on southwestern literary styles, genres, themes, and images.

3 hours lecture.

Prerequisite(s): ENG 102 or permission of instructor.

ENG 231 - Native American Literature (3) °, ~

An introduction to Native American literature which includes oral traditions and stories, autobiographies, fiction, and poetry. Emphasis is on the influences of culture and history on Native themes and symbols.

3 hours lecture.

Prerequisite(s): ENG 102 or permission of instructor.

ENG 255 - Introduction to the English Language (3) °, ~

An introduction to the basic concepts in the study of the English language: structure, interpretation, variation and changes. Overview of several specializations within linguistics with special attention to language acquisition and application to the teaching of English.

3 hours lecture.

Prerequisite(s): ENG 101, ENG 102, or permission of instructor.

ENG 257 - Literary Magazine Production (3)

Production of the college literary and arts magazine. Includes application of promotion, editing, design, layout, and production techniques.

3 hours lecture.

Prerequisite(s): ENG 101. Cross-Listed as: JRN 257.

ENG 260 - Irish Literature (3) ~

An exploration of selected traditional, modern, and contemporary Irish literary works.

3 hours lecture.

Prerequisite(s): ENG 102 or permission of instructor.

ENG 265 - Major American Writers (3) ~

An exploration of selected works by major American authors from the last century to the present.

3 hours lecture.

Prerequisite(s): ENG 102 or permission of instructor.

ENG 273 - Women and Literature (3) °, ~

This course is a survey of literature by and about women, including the study of issues concerning women in literature and the changing images of women. It includes literary analysis of selected writings.

3 hours lecture.

Prerequisite(s): ENG 102 or permission of instructor.

ESL - ENGLISH AS A SECOND LANGUAGE

ESL 010 - ESL Grammar I (3)

An introduction to basic English grammar skills for beginning to high-beginning students whose native language is not English, with emphasis on the syntax and structure of simple sentences.

3 hours lecture, 2 hours laboratory.

Prerequisite(s): Placement measurement.

ESL 012 - ESL Reading I (3)

An introduction to basic reading skills for beginning to high-beginning students whose native language is not English, with emphasis on vocabulary development, comprehension, and structure.

3 hours lecture, 2 hours laboratory.

Prerequisite(s): Placement measurement.

ESL 014 - ESL Writing I (3)

An introduction to basic English writing skills for beginning to high-beginning students whose native language is not English, with emphasis on writing paragraphs about simple topics using certain specific tenses.

3 hours lecture, 2 hours laboratory.

Prerequisite(s): Placement measurement.

ESL 016 - ESL Oral Communication I (3)

An introduction to oral communication skills in English for beginning to high-beginning students whose native language

* indicates SUN course. ‡ indicates lab fees. ° indicates online. ~ indicates intensive writing.

All prerequisite coursework must be completed with a grade of C or better.

is not English, with emphasis on vocabulary, pronunciation, and basic listening and speaking skills.

3 hours lecture, 2 hours laboratory.

Prerequisite(s): Placement measurement.

ESL 017 - ESL Intensive Reading and Writing I (3)

An introduction to basic reading and writing skills for beginning to high-beginning students whose native language is not English, with emphasis on vocabulary, reading comprehension, paragraph development, and writing mechanics.

3 hours lecture.

Prerequisite(s): Placement measurement.

ESL 018 - ESL Intensive Grammar, Listening, and Speaking I (3)

An introduction to basic grammar and oral communication skills for beginning to high-beginning students whose native language is not English, with emphasis on syntax and structure, pronunciation, and basic listening and speaking skills.

3 hours lecture.

Prerequisite(s): Placement measurement.

ESL 020 - ESL Grammar II (3)

A continuation of basic English grammar skills and strategies for high-beginning to low-intermediate students whose native language is not English, with emphasis on the syntax and structure of simple and compound sentences.

3 hours lecture, 2 hours laboratory.

Prerequisite(s): ESL 010 or placement measurement.

ESL 022 - ESL Reading II (3)

A continuation of basic reading skills and strategies for high-beginning to low-intermediate students whose native language is not English, with emphasis on vocabulary development, comprehension, and structure.

3 hours lecture, 2 hours laboratory.

Prerequisite(s): ESL 012 or placement measurement.

ESL 024 - ESL Writing II (3)

A continuation of basic English writing skills and strategies for high-beginning to low-intermediate students whose native language is not English, with emphasis on topic sentences, paragraph development, and organization.

3 hours lecture, 2 hours laboratory.

Prerequisite(s): ESL 014 or placement measurement.

ESL 026 - ESL Oral Communication II (3)

A continuation of oral communication skills in English for high-beginning to low-intermediate students whose native language is not English, with emphasis on additional vocabulary, pronunciation, and listening and speaking skills.

3 hours lecture, 2 hours laboratory.

Prerequisite(s): ESL 016 or placement measurement.

ESL 027 - ESL Intensive Reading and Writing II (3)

A continuation of basic reading and writing skills and strategies for high-beginning to low-intermediate students whose native language is not English, with emphasis on additional vocabulary, reading comprehension, paragraph development, and writing mechanics.

3 hours lecture.

Prerequisite(s): Either ESL 012 and ESL 014, ESL 017, or placement measurement.

ESL 028 - ESL Intensive Grammar, Listening, and Speaking II (3)

A continuation of basic grammar and oral communication skills and strategies for high-beginning to low-intermediate students whose native language is not English, with emphasis on syntax and structure, pronunciation, and listening and speaking skills in controlled situations.

3 hours lecture.

Prerequisite(s): ESL 010 and ESL 016, ESL 018, or placement measurement.

ESL 030 - ESL Grammar III (3)

A review of English grammar skills and strategies for low-intermediate to intermediate students whose native language is not English, with emphasis on the syntax and structure of simple, compound, and complex sentences.

3 hours lecture, 2 hours laboratory.

Prerequisite(s): ESL 020 or placement measurement.

ESL 032 - ESL Reading III (3)

A review of reading skills and strategies for low-intermediate to intermediate students whose native language is not English, with emphasis on vocabulary development, comprehension, structure, and basic study skills.

3 hours lecture, 2 hours laboratory.

Prerequisite(s): ESL 022 or placement measurement.

ESL 034 - ESL Writing III (3)

A review of English writing skills and strategies for low-intermediate to intermediate students whose native language is not English, with emphasis on multi-paragraph development leading to short essays with clearly stated theses.

3 hours lecture, 2 hours laboratory.

Prerequisite(s): ESL 024 or placement measurement.

ESL 036 - ESL Oral Communication III (3)

A review of oral communication skills and strategies for low-intermediate to intermediate students whose native language is not English, with emphasis on more advanced vocabulary, pronunciation, and listening and speaking skills.

3 hours lecture, 2 hours laboratory.

Prerequisite(s): ESL 026 or placement measurement.

ESL 037 - ESL Intensive Reading and Writing III (3)

A review of reading and writing skills and strategies for low-intermediate to intermediate students whose native language is not English, with emphasis on more advanced vocabulary,

* indicates SUN course. ‡ indicates lab fees. ° indicates online. ~ indicates intensive writing.

All prerequisite coursework must be completed with a grade of C or better.

reading comprehension, paragraph development, and writing mechanics.

3 hours lecture.

Prerequisite(s): ESL 022 and ESL 024, ESL 027, or placement measurement.

ESL 038 - ESL Intensive Grammar, Listening, and Speaking III (3)

A review of grammar and oral communication skills and strategies for low-intermediate to intermediate students whose native language is not English, with emphasis on advanced sentence structure, and listening and speaking skills in various situations.

3 hours lecture.

Prerequisite(s): ESL 020 and ESL 026, ESL 028, or placement measurement.

ESL 040 - ESL Grammar IV (3)

A review of English grammar skills and strategies for intermediate to high-intermediate students whose native language is not English. Focus is on increasing mastery of syntax and improving command of simple, compound, and complex sentence structures.

3 hours lecture, 2 hours laboratory.

Prerequisite(s): ESL 030 or placement measurement.

ESL 042 - ESL Reading IV (3)

A review of reading skills and strategies for intermediate to high-intermediate students whose native language is not English. Focus is on expanding vocabulary, increasing comprehension and the understanding of structure, and improving study skills.

3 hours lecture, 2 hours laboratory.

Prerequisite(s): ESL 032 or placement measurement.

ESL 044 - ESL Writing IV (3)

A review of English writing skills and strategies for intermediate to high-intermediate students whose native language is not English. Focus is on improved writing mechanics leading to coherent essays and well developed academic discourse.

3 hours lecture, 2 hours laboratory.

Prerequisite(s): ESL 034 or placement measurement.

ESL 046 - ESL Oral Communication IV (3)

A review of oral communication skills and strategies for intermediate to high-intermediate students whose native language is not English. Focus is on expanding vocabulary, improving pronunciation, and developing academic listening and speaking skills.

3 hours lecture, 2 hours laboratory.

Prerequisite(s): ESL 036 or placement measurement.

ESL 047 - ESL Intensive Reading and Writing IV (3)

A review of fundamentals and an introduction to more complex reading and writing skills and strategies for

intermediate to high-intermediate students whose native language is not English. Focus is on increasing vocabulary and on improving reading comprehension and writing mechanics.

3 hours lecture.

Prerequisite(s): ESL 032 and ESL 034, ESL 037, or placement measurement.

ESL 048 - ESL Intensive Grammar, Listening, and Speaking IV (3)

A review of fundamentals and an introduction to more complex grammar and oral communication skills and strategies for intermediate to high-intermediate students whose native language is not English. Focus is on improving sentence structure, and on improving listening and speaking skills in various situations.

3 hours lecture.

Prerequisite(s): ESL 030 and ESL 036, ESL 038, or placement measurement.

ESL 070 - ESL for Professionals I (6)

An introduction to basic grammar and oral communication skills for students with little or no knowledge of English. Emphasis is on basic vocabulary, pronunciation, and listening and speaking skills used in daily activities.

6 hours lecture.

Prerequisite(s): Placement measurement.

ESL 072 - ESL for Professionals II (6)

A continuation of basic grammar and oral communication skills for high-beginning students whose native language is not English. Emphasis is on vocabulary, pronunciation, and listening and speaking skills used in daily activities and professional communications.

6 hours lecture.

Prerequisite(s): ESL 070 or placement measurement.

ESL 074 - ESL for Professionals III (6)

A review of grammar and oral communication skills and strategies for low-intermediate students whose native language is not English. Focus is on advanced sentence structure and on listening and speaking skills used to express personal views and to voice professional communications.

6 hours lecture.

Prerequisite(s): ESL 072 or placement measurement.

ESL 076 - ESL for Professionals IV (6)

A review of grammar and oral communication skills and strategies for high-intermediate students whose native language is not English. Emphasis is on expanding vocabulary, improving sentence structure, and developing advanced listening and speaking skills for professional communications.

6 hours lecture.

Prerequisite(s): ESL 074 or placement measurement.

FON - FOOD AND NUTRITION

* indicates SUN course. ‡ indicates lab fees. ° indicates online. ~ indicates intensive writing.

All prerequisite coursework must be completed with a grade of C or better.

FON 201 - Applied Nutrition (3) °

A study of various aspects of nutrition as they relate to health and activity. Covers health promotion, structure and function of the digestive system, nutrition through the lifecycle, and clinical nutrition.

3 hours lecture.

Prerequisite(s): BIO 156, CHM 130, CHM 138, or passing score on the biology placement exam.

FOR - FORENSIC SCIENCE**FOR 105 - Forensic Science: Physical Evidence (4) ‡**

An introduction to the basic concepts of physical science and their application to forensic science, including the scientific examination, comparison, and analysis of physical evidence for forensic purposes. Topics include the role of forensic science and evidence analysis as they relate to motion, optics, pattern evidence, and firearms and ballistics. The course also examines the basic principles of atomic theory, nuclear chemistry, and weapons of mass destruction.

3 hours lecture, 3 hours laboratory.

Prerequisite(s): MAT 081 or higher, and RDG 092 or exemption.

FST - FIRE SCIENCE**FST 100 - Introduction to Firefighting (3)**

An introduction to firefighting including safety, fire behavior, equipment, operations, rescue, and communications.

3 hours lecture.

Prerequisite(s): None.

FST 107 - Introduction to Fire and Emergency Services (4) ‡

The first of three courses designed to train students for a career in the fire service. Covers firefighter health and safety, fire service history, professional ethics and customer service, CPR and first aid, and hazardous materials first responder awareness and operations. Prepares students to take the Hazardous Materials First Responder Awareness and Operations Certification test. This test is taken through the Arizona Center for Fire Service Excellence (AzCFSE) and is required for Firefighter I and II Certification.

3 hours lecture, 2 hours laboratory.

Prerequisite(s): RDG 092 or exemption.

FST 108 - Fire Operations I (4) ‡

The second of three courses designed to train students for a career in the fire service. Covers firefighter personal protective equipment, fire service communications, incident response, incident management, fire behavior, building construction, firefighting tools and equipment, portable extinguishers, forcible entry, ladders, and ropes and knots.

3 hours lecture, 2 hours laboratory.

Prerequisite(s): FST 107.

FST 109 - Fire Operations II (4) ‡

The third of three courses designed to train students for a career in the fire service. Covers search and rescue, ventilation, water supply, salvage and overhaul, firefighter rehabilitation, firefighter survival, fire suppression, ground cover fires, and vehicle extrication. Upon completion, students are prepared to take the Firefighter I and II certification exam through the Arizona Center for Fire Service Excellence (AzCFSE).

3 hours lecture, 2 hours laboratory.

Prerequisite(s): FST 108.

FST 113 - Firefighter Fitness I (3)

A practical application of the knowledge and skills acquired in other fire science courses, with emphasis on developing the basic level of fitness required of firefighters. Identifies and introduces critical skills, proper nutrition principles, strength-training and endurance techniques, and job-related agility assessments.

2 hours lecture, 2 hours laboratory.

Prerequisite(s): Concurrent enrollment in FST 108.

FST 114 - Firefighter Fitness II (3)

A continued practical application of the knowledge and skills acquired in other fire science courses, with emphasis on the mental aspects of job performance and on the assessment of agility and personal fitness.

2 hours lecture, 2 hours laboratory.

Prerequisite(s): FST 113.

FST 115 - Fire Service Apparatus Driver/Operator (3) ‡

An introduction to the operation of different types of fire service apparatus. Includes driver/operator responsibilities and operation of emergency vehicles and aerial apparatus; inspection, testing, and maintenance of apparatus; and water supply systems, hydraulic calculations, and fire pump operations.

3 hours lecture, 1 hour laboratory.

Prerequisite(s): Arizona Firefighter I and II Certification or other equivalent certification.

FST 224 - Field Experience in Fire Science Technology (1-3)

A supervised cooperative education field experience involving the combined efforts of educators and employers. Students accomplish various academic and career-related objectives in fire science technology and related fields. Semester-long regular workplace participation and weekly contact with assigned faculty advisor are required.

Prerequisite(s): A declared major in fire science technology and FST 109.

GEO - GEOGRAPHY**GEO 101 - Physical Geography (4) °, ‡**

An introduction to the physical elements of the Earth and their effects on human society. Includes the relationship between the Earth and sun; atmospheric processes; and the effects of global heat balance, pressure, temperature, and

* indicates SUN course. ‡ indicates lab fees. ° indicates online. ~ indicates intensive writing.

All prerequisite coursework must be completed with a grade of C or better.

climate patterns on weather. Also examines urban influences on climate, climate regimes, and climate change. Provides an introduction to the surface of the Earth and to interior Earth processes. Studies geomorphic processes, plate tectonics, earth materials, geologic hazards, water resources, the hydrologic cycle, topographic map reading, and geographic information systems.

3 hours lecture, 3 hours laboratory.

Prerequisite(s): ENG 096 or higher, MAT 081 or concurrent enrollment, and RDG 092 or exemption.

GEO 121 - World Regional Geography (3) °

An exploration of major world geographical regions with emphasis upon human cultural adaptation to the physical habitat.

3 hours lecture.

Prerequisite(s): ENG 101 or concurrent enrollment, and RDG 092 or exemption.

GLG - GEOLOGY

GLG 101 - Introduction to Geology I (Physical) (4) *, °, ‡

An introduction to the physical aspects of the Earth's crust. Includes scientific measurements, maps, and the scientific method; the hands-on identification and assessment of rocks and minerals; and basic geology--earth composition, surface processes, subsurface processes, investigative tools, geologic structures, geologic resources, and Earth history.

3 hours lecture, 3 hours laboratory.

Prerequisite(s): None. Recommended Preparation: MAT 081 or higher, and RDG 092 or exemption.

GLG 102 - Introduction to Geology II (Historical) (4) °, ‡

An introduction to the basic geologic principles underlying historical geology and the evolution of landforms and life forms through geologic time. Deals with the identification and classification of major fossil groups; the identification and interpretation of rocks and of sedimentary textures, environments, and structures; plate tectonics, geologic time, and planetary evolution; and human evolution. Teaches how geologic features such as rock types and fossils are used to interpret and date past events. Emphasizes the evolving geology of North America and the evolution of life on Earth.

3 hours lecture, 3 hours laboratory.

Prerequisite(s): None. Recommended Preparation: GLG 101, MAT 081 or higher, and RDG 092 or exemption.

GLG 192 - Special Topics and Applications in Geology (0.25-4) ‡

A rotating forum/seminar/course or supplement to an existing geology course emphasizing geology or related topics. The title and credit hours for this course will vary each term depending on the topic.

Prerequisite(s): None. Recommended Preparation: Permission of instructor is strongly recommended.

GTC - GENERAL TECHNOLOGY

GTC 105 - Manufacturing Materials and Processes (3)

The study of manufacturing materials, operations, procedures, and processes, with emphasis on their utilization in manufacturing design.

3 hours lecture.

Prerequisite(s): None.

GTC 121 - Painting and Finishing Techniques (3)

Student preparation for proficiency in patching, repainting, and maintaining painted surfaces on the interior and exterior of building and structures with an emphasis on surface preparation, the selection of paints, their application and the safe and proper storage of all painting materials and tools.

This course is offered only at the Arizona Department of Corrections in Douglas.

2 hours lecture, 4 hours laboratory.

Prerequisite(s): None.

HIS - HISTORY

HIS 110 - History of the United States 1607-1877 (3) *, °

A study of the development of the American nation from its colonial beginnings through Reconstruction, with emphasis on the events and forces leading to the Revolution, the Constitution, westward expansion, sectionalism, and the Civil War.

3 hours lecture.

Prerequisite(s): RDG 092 or exemption.

HIS 111 - History of the United States Since 1877 (3) *, °

A study of the social, economic, and political forces that have shaped the United States from the post-Reconstruction era to the present. Emphasis is on domestic and foreign affairs in the country's last century of development.

3 hours lecture.

Prerequisite(s): RDG 092 or exemption.

HIS 192 - Special Topics in History (1-3)

Designed for professional development and personal enrichment through the exploration of special topics in history. Topics will vary according to student needs and interests.

Prerequisite(s): None.

HIS 201 - History of Women in the United States (3) ~

The history of women in United States society from colonial times to the present with an emphasis on female leadership; the social, political, and economic roles of women; and the impact of women on the United States' historical evolution.

3 hours lecture.

Prerequisite(s): ENG 101, and RDG 092 or exemption.

* indicates SUN course. ‡ indicates lab fees. ° indicates online. ~ indicates intensive writing.

All prerequisite coursework must be completed with a grade of C or better.

HIS 229 - History of Mexico I (3) °, ~

An in-depth study of the political, economic, social, and cultural development of Mexico from pre-Columbian civilizations to the end of the First Mexican Empire. Emphasis is on Mexico's cultural evolution and on the relationships between its various historical periods.

3 hours lecture.

Prerequisite(s): ENG 101, and RDG 092 or exemption.

HIS 230 - History of Mexico II (3) °, ~

An in-depth study of the political, economic, social, and cultural development of Mexico from the early Mexican Republic to the present day. Emphasis is on Mexico's cultural evolution, the relationships between its various historical periods, and its place in today's world community.

3 hours lecture.

Prerequisite(s): ENG 101, and RDG 092 or exemption.

HIS 243 - Western Civilization I (3) °, ~

A study of major historical trends from the emergence of Western civilization through the scientific revolution of the 17th century, with emphasis on various cultural periods in relationship to one another.

3 hours lecture.

Prerequisite(s): ENG 101, and RDG 092 or exemption.

HIS 244 - Western Civilization II (3) °, ~

A study of major historical trends in Western civilization from the Enlightenment to the present, with emphasis on various cultural periods in relationship to one another and their impact on the future.

3 hours lecture.

Prerequisite(s): ENG 101, and RDG 092 or exemption.

HIS 274 - The Holocaust (3) ~

A study of the causes, events, and legacies of World War II's Holocaust. Includes the history of European anti-Semitism, the historical antecedents and preconditions of the Holocaust, the Third Reich and the creation of a racial state, the "Final Solution," and the aftermath of the Holocaust. Also addresses the challenges posed by similar genocides in contemporary history. 3 hours lecture.

Prerequisite(s): ENG 101.

HLT - HEALTH TECHNOLOGY**HLT 100 - Health Technology Careers (3)**

An exploration of healthcare careers and related job skills. Topics include ethics and professional conduct, safety and infection control practices, communication, and basic anatomy and physiology.

3 hours lecture.

Prerequisite(s): None.

HLT 101 - Medical Terminology (2) °

An introduction to the body systems approach to learning medical language. Students use word parts to build, analyze, define, and spell medical terms. Topics include structural, directional, surgical, and diagnostic terms; disease and disorders; and pronunciations and abbreviations.

2 hours lecture.

Prerequisite(s): RDG 092 or exemption.

HLT 109 - Nursing Assistant (5) ‡

Approved by the Arizona State Board of Nursing to prepare students for nursing assistant certification. Emphasis is on communication, patient safety, anatomy and physiology, specific patient-care skills, and patient rights. Includes the nursing process and the legal and professional responsibilities of the nursing assistant. Also covers the basic physical, psychosocial, and cultural needs of all patients, with special emphasis on the geriatric population.

3 hours lecture, 6 hours laboratory.

Prerequisite(s): Appropriate placement measurement, MAT 081, or higher; placement into RDG 092 or exemption; and current American Heart Association CPR and First Aid certification for healthcare providers or concurrent enrollment in HLT 111. Students taking this course for state certification must be 16 prior to course completion, provide documentation of U.S. citizenship or qualifying alien status, undergo fingerprinting, pass a background check and drug screen, and have received absolute discharge from the sentence for any felony conviction no less than 3 years prior to submitting their application for state certification. The Arizona State Board of Nursing prohibits the use of medical marijuana.

HLT 111 - CPR and First Aid (1) ‡

Training in cardiopulmonary resuscitation and basic first aid for healthcare providers in compliance with American Heart Association requirements. CPR and first aid cards for healthcare providers are awarded upon successful course completion.

1 hour lecture.

Prerequisite(s): None.

HLT 112 - Assisted Living Facility Caregiver (2) ‡

Training in personal, supervisory, and direct care services for current Arizona certified nursing assistants. Topics include medication management, infection control, nutrition and safety, and emergency management; communication, mental health, and social needs; and legal and ethical issues. Upon course completion, students are eligible to take the Arizona Assisted Living Facility Caregiver exam for certification in the state of Arizona.

2 hours lecture, 1 hour laboratory.

* indicates SUN course. ‡ indicates lab fees. ° indicates online. ~ indicates intensive writing.

All prerequisite coursework must be completed with a grade of C or better.

Prerequisite(s): Current CPR, first aid, and CNA certifications; minimum 18 years of age and three months of related experience.

HLT 139 - Medical Assistant I (8) ‡

Teaches the concepts, skills, and terminology necessary to function as a medical assistant. Emphasis is on entry-level administrative skills and clinical functions required in a medical office, and on communication skills for patient care assessment. The laboratory portion of the course simulates various situations which teach the specific skills needed in a medical office.

7 hours lecture, 3 hours laboratory.

Prerequisite(s): BIO 160 or concurrent enrollment, HLT 101 or concurrent enrollment, MAT 081 or higher, and placement in RDG 092 or exemption. Prior to enrollment, students must also meet the following requirements: 1) minimum 18 years of age upon course completion, 2) negative tuberculin (TB) skin test or negative chest x-ray report, 3) current Arizona Department of Public Safety Fingerprint Clearance Card, and 4) acceptance into the medical assistant program.

HLT 140 - Medical Assistant II (12) ‡

A continuation of HLT 139, this course teaches students additional concepts, skills, and terminology. Emphasis is on administrative aspects of running a medical practice, such as billing and coding, scheduling appointments, and keeping electronic medical records. The laboratory portion of the course simulates hands-on application in a medical office setting. The clinical externship focuses on therapeutic skills and on effective communication with clients, physicians, physician assistants, nurse practitioners, and other health care professionals. Students learn the front and back office skills required to pass the Medical Assistant certification examination.

7 hours lecture, 16 hours laboratory.

Prerequisite(s): BIO 160, HLT 101, HLT 111, and HLT 139.

HON - HONORS

HON 101 - Introduction to Honors (1) °

An introduction to the honors philosophy, and a study of critical and creative thinking skills, learning techniques, academic ethics, research methods, and presentation practices.

1 hour lecture.

Prerequisite(s): None.

HON 250 - Honors: Individual Project (1-4)

A contractual project between student and faculty mentor focusing on creative scholarship. Contracts for honors projects are available at www.cochise.edu/honors.

Prerequisite(s): Permission of the honors chair.

Recommended Preparation: ENG 102H.

HON 260 - The Human Quest for Utopia (3) ~

An interdisciplinary exploration of the history, literature, culture, art, philosophy, technology, sciences, and economies of utopian communities.

3 hours lecture.

Prerequisite(s): ENG 102 and permission of the honors chair.

Recommended Preparation: ENG 102H.

HPE - HEALTH AND PHYSICAL EDUCATION

HPE 110A - Body Conditioning (1) ‡

A practical application of principles and concepts conducive to the development and maintenance of overall fitness.

Introduces aerobic and anaerobic activities that promote flexibility, cardiovascular endurance, and muscular endurance.

1 hour lecture, 1 hour laboratory.

Prerequisite(s): None.

HPE 110B - Body Conditioning - Extended Duration (2) ‡

A practical application of principles and concepts conducive to the development and maintenance of overall fitness.

Introduces extended-duration aerobic and anaerobic activities that promote flexibility, cardiovascular endurance, and muscular endurance.

1 hour lecture, 2 hours laboratory.

Prerequisite(s): None.

HPE 111B - Body Dynamics - Extended Duration (2) ‡

A practical application of principles and concepts conducive to the development and maintenance of overall fitness.

Introduces the extended use of a variety of exercise equipment to perform aerobic and anaerobic activities that promote flexibility, cardiovascular endurance, and muscular endurance.

1 hour lecture, 2 hours laboratory.

Prerequisite(s): None.

HPE 112A - Weight Training (1) ‡

An introduction to the skills needed to develop a proper weight training program that promotes cardiovascular endurance.

1 hour lecture, 1 hour laboratory.

Prerequisite(s): None.

HPE 112B - Weight Training - Extended Duration (2) ‡

An introduction to the skills needed to develop a proper extended-duration weight training program that promotes cardiovascular endurance.

1 hour lecture, 2 hours laboratory.

Prerequisite(s): None.

HPE 113A - Athletic Conditioning I (2)

A practical introduction to fitness activities conducive to the development of strength, flexibility, endurance, and

* indicates SUN course. ‡ indicates lab fees. ° indicates online. ~ indicates intensive writing.

All prerequisite coursework must be completed with a grade of C or better.

cardiovascular health. Designed to enhance the performance of the first-semester student-athlete.

1 hour lecture, 3 hours laboratory.

Prerequisite(s): None.

HPE 113B - Athletic Conditioning II (2)

A continuation of fitness activities conducive to the development of strength, flexibility, endurance, and cardiovascular health in the second-semester student-athlete. 1 hour lecture, 3 hours laboratory.

Prerequisite(s): HPE 113A and acceptance on a college sports team.

HPE 113C - Athletic Conditioning III (2)

Advanced fitness activities conducive to the continued development of intermediate strength, flexibility, endurance, and cardiovascular health in the third-semester student-athlete.

1 hour lecture, 3 hours laboratory.

Prerequisite(s): HPE 113B.

HPE 113D - Athletic Conditioning IV (2)

Advanced fitness activities conducive to the continued development of advanced strength, flexibility, endurance, and cardiovascular health in the fourth-semester student-athlete.

1 hour lecture, 3 hours laboratory.

Prerequisite(s): HPE 113C.

HPE 115 - Personal Fitness I (2) ‡

A study of the fundamentals of physical fitness, with an emphasis on the physical activities and behavioral changes necessary to develop and sustain a high level of fitness.

2 hours lecture.

Prerequisite(s): None.

HPE 116 - Personal Fitness II (1-2) ‡

A study of the fundamentals of physical fitness, with an emphasis on the physical activities and behavioral changes necessary to develop and sustain a high level of fitness.

Prerequisite(s): None.

HPE 117A - Individualized Fitness I (1) ‡

A study of the fundamentals of physical fitness, with an emphasis on the physical activities and behavioral changes necessary to develop and sustain a high level of fitness.

1 hour lecture.

Prerequisite(s): None.

HPE 117B - Individualized Fitness II (2) ‡

A study of the fundamentals of physical fitness, with an emphasis on the physical activities and behavioral changes necessary to develop and sustain a high level of fitness.

2 hours lecture.

Prerequisite(s): None.

HPE 118B - Indoor Court Sports and Physical Fitness (3) ‡

An introduction to indoor court sports including squash, handball, wallyball, and racquetball. Also presents the information and skills necessary for proper weight training and jogging as they relate to indoor court sports.

3 hours lecture.

Prerequisite(s): None.

HPE 135 - Open Water Scuba Diver (3) ‡

This course provides students with the knowledge, training, and skills to understand and safely navigate the underwater environment while scuba diving. It adheres to the guidelines and requirements of the Recreational Scuba Training Council (RSTC) for Open Water Scuba Diver and Advanced Open Water Scuba Diver certifications.

2 hours lecture, 3 hours laboratory.

Prerequisite(s): None.

HPE 145 - Beginning Golf (1)

An introduction to the basic skills, rules, and etiquette of golf. Designed to instill an appreciation of and participation in this lifelong leisure activity.

1 hour lecture, 1 hour laboratory.

Prerequisite(s): None.

HPE 170A - Baseball I (1)

Designed to allow the first-semester student-athlete to develop and demonstrate the minimum skills and strategies to compete in baseball at the intercollegiate level.

1 hour lecture, 3 hours laboratory.

Prerequisite(s): Students must try out for the team.

HPE 170B - Baseball II (1)

Designed to allow the student-athlete to develop and demonstrate the basic skills and strategies to compete in baseball at the intercollegiate level.

1 hour lecture, 3 hours laboratory.

Prerequisite(s): HPE 170A and acceptance on the team.

HPE 170C - Baseball III (1)

Designed to allow the more advanced student-athlete to develop and demonstrate the intermediate skills and strategies to compete in baseball at the intercollegiate level.

1 hour lecture, 3 hours laboratory.

Prerequisite(s): HPE 170B.

HPE 170D - Baseball IV (1)

Designed to allow the fourth-semester student-athlete to develop and demonstrate the advanced skills and strategies to compete in baseball at the intercollegiate level. Also provides the opportunity to demonstrate leadership and sportsmanship on and off the field.

1 hour lecture, 3 hours laboratory.

Prerequisite(s): HPE 170C.

HPE 171A - Men's Basketball I (1)

* indicates SUN course. ‡ indicates lab fees. ° indicates online. ~ indicates intensive writing.

All prerequisite coursework must be completed with a grade of C or better.

Designed to allow the first-semester student-athlete to develop and demonstrate the minimum skills and strategies to compete in men's basketball at the intercollegiate level.

1 hour lecture, 3 hours laboratory.

Prerequisite(s): Students must try out for the team.

HPE 171B - Men's Basketball II (1)

Designed to allow the student-athlete to develop and demonstrate the basic skills and strategies to compete in men's basketball at the intercollegiate level.

1 hour lecture, 3 hours laboratory.

Prerequisite(s): HPE 171A and acceptance on the team.

HPE 171C - Men's Basketball III (1)

Designed to allow the more advanced student-athlete to develop and demonstrate the intermediate skills and strategies to compete in men's basketball at the intercollegiate level.

1 hour lecture, 3 hours laboratory.

Prerequisite(s): HPE 171B.

HPE 171D - Men's Basketball IV (1)

Designed to allow the fourth-semester student-athlete to develop and demonstrate the advanced skills and strategies to compete in men's basketball at the intercollegiate level. Also provides the opportunity to demonstrate leadership and sportsmanship on and off the court.

1 hour lecture, 3 hours laboratory.

Prerequisite(s): HPE 171C.

HPE 172A - Women's Basketball I (1)

Designed to allow the first-semester student-athlete to develop and demonstrate the minimum skills and strategies to compete in women's basketball at the intercollegiate level.

1 hour lecture, 3 hours laboratory.

Prerequisite(s): Students must try out for the team.

HPE 172B - Women's Basketball II (1)

Designed to allow the student-athlete to develop and demonstrate the basic skills and strategies to compete in women's basketball at the intercollegiate level.

1 hour lecture, 3 hours laboratory.

Prerequisite(s): HPE 172A and acceptance on the team.

HPE 172C - Women's Basketball III (1)

Designed to allow the more advanced student-athlete to develop and demonstrate the intermediate skills and strategies to compete in women's basketball at the intercollegiate level.

1 hour lecture, 3 hours laboratory.

Prerequisite(s): HPE 172B.

HPE 172D - Women's Basketball IV (1)

Designed to allow the fourth-semester student-athlete to develop and demonstrate the advanced skills and strategies to compete in women's basketball at the intercollegiate level. Also provides the opportunity to demonstrate leadership and sportsmanship on and off the court.

1 hour lecture, 3 hours laboratory.

Prerequisite(s): HPE 172C.

HPE 174A - Women's Soccer I (1)

Designed to allow the first-semester student-athlete to develop and demonstrate the minimum skills and strategies to compete in women's soccer at the intercollegiate level.

1 hour lecture, 3 hours laboratory.

Prerequisite(s): Students must try out for the team.

HPE 174B - Women's Soccer II (1)

Designed to allow the student-athlete to develop and demonstrate the basic skills and strategies to compete in women's soccer at the intercollegiate level.

1 hour lecture, 3 hours laboratory.

Prerequisite(s): HPE 174A and acceptance on the team.

HPE 174C - Women's Soccer III (1)

Designed to allow the more advanced student-athlete to develop and demonstrate the intermediate skills and strategies to compete in women's soccer at the intercollegiate level.

1 hour lecture, 3 hours laboratory.

Prerequisite(s): HPE 174B.

HPE 174D - Women's Soccer IV (1)

Designed to allow the fourth-semester student-athlete to develop and demonstrate the advanced skills and strategies to compete in women's soccer at the intercollegiate level. Also provides the opportunity to demonstrate leadership and sportsmanship on and off the field.

1 hour lecture, 3 hours laboratory.

Prerequisite(s): HPE 174C.

HPE 179 - Lifelong Wellness (3)

An introduction to nutrition, stress management, fitness regimens, and other practices as they relate to wellness and optimum health. Under faculty supervision, students develop an individualized program of diet and exercise.

3 hours lecture.

Prerequisite(s): None.

HPE 193 - Theory of Coaching Baseball (3)

A theoretical and practical study of how to coach baseball at the youth, secondary, and college levels.

3 hours lecture.

Prerequisite(s): None.

HPE 194 - Theory of Coaching Basketball (3)

A theoretical and practical study of how to coach basketball at the youth, secondary, and college levels.

3 hours lecture.

Prerequisite(s): None.

HUM - HUMANITIES

HUM 101 - Humanities in Contemporary Life (3) °

* indicates SUN course. ‡ indicates lab fees. ° indicates online. ~ indicates intensive writing.

All prerequisite coursework must be completed with a grade of C or better.

A study of contemporary thought, literature, art, and music as they occur in the mass media: print, motion pictures, television, and the internet.

3 hours lecture.

Prerequisite(s): ENG 096 or higher.

HUM 110 - Introduction to Film (3) °

A study of film as an art form and medium for the expression of ideas, and an introduction to the principles of film criticism.

3 hours lecture.

Prerequisite(s): None.

HUM 115 - Cultural Heritage of the Southwest (3) °

A general survey of the cultural heritage of the Southwest. A cultural look at the significant events, historical figures, customs, ways and institutions that have contributed to the unique cultural heritage in the Southwest.

3 hours lecture.

Prerequisite(s): ENG 101 or permission of instructor.

HUM 116 - Middle Eastern Humanities (3) °

A study of the art, religion, literature, music, philosophy, and cultural traditions of the Middle Eastern world.

3 hours lecture.

Prerequisite(s): ENG 101 or permission of instructor.

HUM 200 - Film History (3) °, ~

Survey of film history focusing on the development of important themes, movements, and techniques in international narrative films.

3 hours lecture.

Prerequisite(s): ENG 101 and ENG 102. Recommended

Preparation: HUM 110.

HUM 205 - Cultural Studies through the Humanities I (3) °, ~

Art, architecture, and ideas from ancient times through the Renaissance.

3 hours lecture.

Prerequisite(s): ENG 102 or permission of instructor.

HUM 206 - Cultural Studies through the Humanities II (3) °, ~

Art, architecture, and ideas from the Reformation to the present.

3 hours lecture.

Prerequisite(s): ENG 102 or permission of instructor.

HUM 210 - Foreign Film Classics (3) °

A survey of major foreign films from 1893 through the present, emphasizing film criticism and theory.

3 hours lecture.

Prerequisite(s): ENG 101 or permission of instructor.

IOS - INTELLIGENCE OPERATIONS STUDIES

IOS 100 - Introduction to Intelligence Operations Studies (3) °

Introduces students to the basic elements of intelligence: collection, analysis, dissemination, counterintelligence, and covert action. Examines the difference between intelligence and information. Details the structure, functions, capabilities, and contributions of the national intelligence community, including Congress, the military, joint and unified commands, and law enforcement agencies. Students will study the various steps of the intelligence cycle and learn their purposes.

3 hours lecture.

Prerequisite(s): None.

IOS 101 - Counterintelligence Investigations (3)

Introduces students to the principles, objectives, procedures, and reports used to conduct counterintelligence investigations within various investigational contexts. This process includes the planning, communicating, operating, credentialing, and investigating processes associated with counterintelligence investigations.

3 hours lecture.

Prerequisite(s): None.

IOS 102 - Security Programs (3) °

Introduces students to the principles, objectives, and basic procedures used to develop, account for, control, protect, and arrange for the eventual destruction of sensitive information and material. Helps equip students for the investigation of security crimes and the protection of classified information and material in the custody of counterintelligence agents.

3 hours lecture.

Prerequisite(s): None.

IOS 103 - Intelligence Law and Administration of Justice (1)

Introduces students to the legal principles of intelligence law as those principles apply to counterintelligence investigations and operations. Prepares students to use the principles of intelligence law and the administration of justice in the performance of their duties as counterintelligence agents.

1 hour lecture.

Prerequisite(s): None.

IOS 104 - Analytical Process and Product (3) °

Introduces students to the three analytical processes in the intelligence cycle: intelligence preparation of the battlefield, intelligence surveillance and reconnaissance, and targeting. Students learn to leverage analytical products associated with these processes such as PMESII, ASCOPE, Link-Pattern-Nodal analysis, threat characteristics, threat objectives, threat templates, the oil spot, and the situation template.

3 hours lecture.

Prerequisite(s): None.

IOS 105 - Interrogation Operations (3)

* indicates SUN course. ‡ indicates lab fees. ° indicates online. ~ indicates intensive writing.

All prerequisite coursework must be completed with a grade of C or better.

Introduces students to the basic skills and knowledge to support the collection, dissemination, and protection of intelligence information during human intelligence operations. Using conventional and unconventional sources, students perform as members of an interrogation team during simulated operations at both tactical and strategic levels.

3 hours lecture.

Prerequisite(s): None.

IOS 106 - Map Reading and Analysis (3)

A study of map reading and analysis including marginal data, identification of terrain features, and calculation of azimuths. Provides students with analytical skills essential to information gathering, collection capabilities, and interpretation of assets.

3 hours lecture.

Prerequisite(s): None.

IOS 108 - Signal Theory (3)

A study of the basic skills to intercept, analyze, and report non-communication signals. Includes the handling of classified material. Focus is on signal and wavelength theory, radar theory, electronic intelligence parameters, and basic collection operations. Students learn about worldwide non-communications threats to include weapons systems operations, message information extraction, opposing forces operations, and situation analysis.

3 hours lecture.

Prerequisite(s): None.

IOS 109 - Signal Analysis and Security (3)

Trains students to operate the All Source Analysis System-Single Source Enclave (ASAS-SSE) software, to display automated situation map updates, and to operate electronic messaging as analysis control element team members.

3 hours lecture.

Prerequisite(s): None.

IOS 110 - Remote Sensing (3)

Trains students to analyze hardcopy and softcopy imagery collected from the electronic magnetic spectrum. Students use intelligence databases as well as automated processing and dissemination systems to provide valid, accurate, and timely intelligence to appropriate agencies.

3 hours lecture.

Prerequisite(s): None.

IOS 111 - Information Security for Intelligence Operations (1)

A brief overview of information security as it applies to intelligence operations in the military (INFOSEC). Topics include safekeeping and storage of classified materials, application of classification markings to appropriate documents, and proper destruction of classified materials.

1 hour lecture.

Prerequisite(s): None.

IOS 112 - Imagery Analysis Techniques (3)

Develops the basic skills to successfully employ and analyze imagery in an operational environment. Introduces students to basic analytical techniques, sensor capabilities and limitations, characteristics of observed operational activity, spectral and stereoscopic imagery, and full motion video.

3 hours lecture.

Prerequisite(s): None.

IOS 113 - Terrorism and Counterterrorism (3) °

An examination of the history of terrorism and the tactics and technologies used by terrorist groups. Examines the nature of the terrorist threat and countermeasures to combat terrorism.

3 hours lecture.

Prerequisite(s): None. Recommended Preparation: ENG 101.

IOS 114 - Reporting of Intelligence Data (3)

Identification of the essential elements of information, selection of reporting vehicle, and production of concise and timely technical summaries.

3 hours lecture.

Prerequisite(s): None.

IOS 115 - Briefing Skills (1-4)

Training in the skills required to perform the duties and operations necessary to conduct briefings in the intelligence operations field. May be taken four times for a total of four credits.

Prerequisite(s): None.

IOS 116 - Imagery Identification (6)

Students will be trained in the identification from aerial images of threat and operational equipment including naval vessels; fixed, swing, and rotary wing aircraft; engineer and decontamination equipment; truck models and functions; armored personnel carriers (APCs); missiles, rockets, and launch sites; communication and radar sites; artillery and artillery related equipment; and tanks and armored recovery vehicles (ARVs). In addition, students will learn to identify from aerial imagery organizations and activity in relation to the Ground Order of Battle (GOB).

6 hours lecture.

Prerequisite(s): None.

IOS 117 - Symbology (3)

Trains students in the skills necessary to translate incoming message traffic into military symbols.

3 hours lecture.

Prerequisite(s): None.

IOS 118 - Intelligence Preparation of the Battlefield (3) °

Teaches students to identify characteristics of the modern battlefield and to analyze how the operational environment of the battlefield can affect friendly and threat operations. Students define the operational environment, consider the effects of weather and terrain, evaluate threat, and determine potential threat courses of action.

* indicates SUN course. ‡ indicates lab fees. ° indicates online. ~ indicates intensive writing.

All prerequisite coursework must be completed with a grade of C or better.

3 hours lecture.

Prerequisite(s): None.

IOS 119 - Introduction to Communications for Intelligence Operations (3)

Study and practice in basic oral communication in English for non-native speakers. Includes the fundamentals of oral communications in interpersonal, small-group, and large-group situations in the field of intelligence operations.

2 hours lecture, 2 hours laboratory.

Prerequisite(s): None.

IOS 120 - Records Management (3)

Introduces students to the procedures, regulations, and forms used to accurately account for and manage an organization's records and funds. Students will learn these skills as custodians in a simulated large agency operating environment.

3 hours lecture.

Prerequisite(s): CIS 116.

IOS 121 - Counterintelligence Investigations II (3)

A course in the collection, evaluation, and use of information to produce justifiable conclusions in support of the counterintelligence mission.

3 hours lecture.

Prerequisite(s): None.

IOS 122 - Intelligence, Surveillance, and Reconnaissance (ISR) (3) °

Teaches students the Intelligence, Surveillance, and Reconnaissance (ISR) process across the scope of military operations from Joint Task Force level to Battalion level. Students learn the functions of the ISR process and its relationship to decision making. Students are taught how to develop an ISR plan, disseminate the information, evaluate the reporting, and update the plan.

3 hours lecture.

Prerequisite(s): None.

IOS 123 - Targeting (3)

Teaches students the targeting process across the scope of intelligence operations. Students are introduced to the decide, detect, deliver, and assess (D3A) methodology of targeting. Students learn the functions associated with the D3A methodology and how these functions interact with the decision-making process.

3 hours lecture.

Prerequisite(s): None.

IOS 124 - Cellular Communication Fundamentals (3)

Trains students in cellular technologies used around the world to deploy enhanced wireless capabilities. Covers the evolution of cellular capabilities to current protocols and standards.

Provides a comprehensive overview of the options available in handling voice and data transmitted through wireless technologies. Explores variations among Frequency Division

Multiple Access (FDMA), Time Division Multiple Access (TDMA), Code Division Multiple Access (CDMA), and Global System for Mobile communications (GSM).

3 hours lecture.

Prerequisite(s): None.

IOS 131 - Personal Identification Methods in Battlefield Forensics (2)

An introduction to the methods used to identify individuals based on evidence collected at an incident scene in a battlefield environment. Emphasis is on the identification, collection, and preservation of biological evidence for criminal investigations and legal procedures. Topics include fingerprints, facial recognition, bloodstain analysis, and biometrics.

1 hour lecture, 3 hours laboratory.

Prerequisite(s): None.

IOS 141 - Battlefield Forensic Investigations I (4)

A study in battlefield forensic investigation procedures and techniques. Emphasis is on incident scene management; and on the identification, collection, and preservation of material evidence related to the manufacture and use of improvised explosive devices (IEDs).

3 hours lecture, 3 hours laboratory.

Prerequisite(s): None.

IOS 142 - Battlefield Forensic Investigations II (4)

An in-depth study of the technical aspects of the collection and preservation of physical evidence from a battlefield environment. Emphasis is on the processes involved in identifying persons assembling improvised explosive devices (IEDs), and on the tactics and techniques used in the employment of those devices.

3 hours lecture, 3 hours laboratory.

Prerequisite(s): IOS 141.

IOS 201 - Collection Operations (3)

Trains students in source collection operations in the operational cycle. Includes collection planning, identifying, assessing, recruiting, training, tasking, interviewing, and providing source operations support.

3 hours lecture.

Prerequisite(s): IOS 101 or permission of instructor.

IOS 202 - Force Protection Operations and Support (3)

Teaches students how to assimilate, analyze, and distribute multidiscipline counterintelligence products in support of tactical force protection. Areas covered include counterintelligence operations in a deployed environment and current threat assessment technology.

3 hours lecture.

Prerequisite(s): IOS 101, IOS 102, IOS 103, or permission of instructor.

IOS 203 - Combating Terrorism (3) °

* indicates SUN course. ‡ indicates lab fees. ° indicates online. ~ indicates intensive writing.

All prerequisite coursework must be completed with a grade of C or better.

Familiarizes students with the history and development of terrorism. Trains students to recognize the phases of a terrorist incident and to understand a terrorist group's structure, degree of support, and scope of operations. Teaches students to use the basic analytical tools available to combat terrorism.

3 hours lecture.

Prerequisite(s): IOS 101, IOS 102, IOS 103, or permission of instructor.

IOS 204 - Interrogation and Interviewing Techniques (3)

Teaches students how to prepare for and question a source, collect all information of intelligence value, and report this information in the proper format. Training includes appropriate approach and questioning techniques, effective listening and note-taking methods, source screening procedures, and proper exploitation phases to collect intelligence information.

3 hours lecture.

Prerequisite(s): IOS 104, IOS 105, or permission of instructor.

IOS 209 - Automated Intelligence Systems (4)

Covers the use of automated intelligence systems in the field of intelligence operations. Students learn basic system operations and conventions.

4 hours lecture.

Prerequisite(s): CIS 116.

IOS 210 - Intermediate Remote Sensing (3)

An intermediate course which builds on the topics presented in IOS 110. Students apply their knowledge of intelligence operations, and they use observed activity in the analysis of hardcopy and softcopy imagery. They query imagery databases to provide organizations with accurate and timely reports, intelligence briefs, and assessments based on given scenarios and Priority Intelligence Requirements (PIRs).

3 hours lecture.

Prerequisite(s): IOS 110.

IOS 211 - Military Decision Making (1-3) °

A practical study of mission analysis and the military decision-making process. Includes a review of situation analysis, problem analysis, and decision analysis; and a review of the relationship between the decision maker and the decision environment. May be taken three times for a total of three credits.

Prerequisite(s): None.

IOS 212 - Intermediate Imagery Analysis Techniques (3)

This course builds on the fundamentals taught in IOS 112. Students develop their ability to apply photogrammetry techniques, equipment identification techniques, and softcopy and hardcopy imagery manipulation techniques to produce accurate imagery analyses and activity assessments.

3 hours lecture.

Prerequisite(s): IOS 112.

IOS 214 - Reporting of Intelligence Data II (3)

A course in the preparation of intelligence reports using pertinent information to satisfy the appropriate requirements.

3 hours lecture.

Prerequisite(s): ENG 102.

IOS 215 - Briefing Skills II (1-3)

An advanced course in the preparation and delivery of briefings in the intelligence operations field. May be taken three times for a total of three credits.

Prerequisite(s): None. Recommended Preparation: IOS 115.

IOS 220 - Reporting of Intelligence Data III (3)

A tactical human intelligence (HUMINT) course designed for the advanced intelligence operations practitioner maintaining a HUMINT-specific occupational specialty. It enhances the student's ability to plan and prepare timely and effective intelligence reports in both urban and rural environments.

3 hours lecture.

Prerequisite(s): ENG 102. Recommended Preparation: IOS 114.

IOS 221 - Counterintelligence Investigations III (3)

An advanced course that trains students to understand the objectives, apply the procedures, and produce the reports used in advanced counterintelligence investigations. Students will expand their knowledge and abilities in the planning, communicating, operating, credentialing, and investigating processes related to advanced counterintelligence investigations. This course is designed for the tactical human intelligence (HUMINT) practitioner.

3 hours lecture.

Prerequisite(s): ENG 101. Recommended Preparation: IOS 101.

IOS 223 - Intelligence Law and Administration of Justice II (1)

An advanced course in the legal principles and regulations of intelligence law as they apply to counterintelligence investigations and operations. Prepares students to apply the principles of intelligence law and of the administration of justice in the performance of their duties as tactical human intelligence (HUMINT) practitioners.

1 hour lecture.

Prerequisite(s): None. Recommended Preparation: IOS 103.

IOS 224 - Force Protection Operations and Support II (3)

A tactical course designed to improve the human intelligence (HUMINT) practitioner's ability to assimilate, analyze, and distribute multidiscipline human products in support of tactical force protection operations. Focus is on human intelligence operations in a tactically deployed environment.

3 hours lecture.

Prerequisite(s): None. Recommended Preparation: IOS 202.

* indicates SUN course. ‡ indicates lab fees. ° indicates online. ~ indicates intensive writing.

All prerequisite coursework must be completed with a grade of C or better.

IOS 225 - Analytical Process and Product II (3)

A tactical human intelligence (HUMINT) course designed to improve students' ability to prepare analytical tools to assess a combat environment. Students must have a good understanding of conventional and unconventional threat forces, various types of organizations, and associated weapons and equipment, as well as a working knowledge of the tactics, techniques, and procedures of groups or forces identified as posing a threat to U.S. interests.

3 hours lecture.

Prerequisite(s): None. Recommended Preparation: IOS 104.

IOS 226 - Interrogation and Interviewing Techniques II (3)

An advanced tactical human intelligence (HUMINT) course that further trains students to prepare for questioning and to question a human intelligence source, and to collect and report information that is of intelligence value.

3 hours lecture.

Prerequisite(s): None. Recommended Preparation: IOS 204.

IOS 241 - Management of Intelligence and Counterintelligence Operations I (4)

A study of the organizational management of intelligence and counterintelligence operations. Topics include the theoretical and practical perspectives of managing increasing levels of responsibility, with emphasis on problem-solving and decision-making processes and on the role of the leader.

3 hours lecture, 3 hours laboratory.

Prerequisite(s): IOS 211.

IOS 242 - Management of Intelligence and Counterintelligence Operations II (4)

An in-depth study of the managerial challenges related to the multidiscipline roles in intelligence and counterintelligence operations. Emphasis is on the assessment of external and internal environments, strategic initiatives, and communication techniques, and on the allocation and coordination of personnel and resources.

3 hours lecture, 3 hours laboratory.

Prerequisite(s): IOS 241.

JRN - JOURNALISM**JRN 101 - Introduction to Mass Communications (3)**

An introduction to mass communications media with emphasis on understanding basic concepts of gathering, writing, and evaluating news and other kinds of communication in newspapers, television, radio, magazines, wire services, books, movies, computer/digital and other media.

3 hours lecture.

Prerequisite(s): ENG 101 or permission of instructor.

JRN 102 - Essentials of News Writing (3) *

Entry-level course in media arts/communications or journalism. Students will be introduced to news values, interviewing techniques, basic newspaper writing formats, and legal and ethical concerns of media professionals.

3 hours lecture.

Prerequisite(s): ENG 101 or concurrent enrollment, and CIS 116 or concurrent enrollment.

JRN 201 - Essentials of Newspaper Publishing (3)

Introduces students to the publication of a college newspaper, with focus on newsworthiness and appropriateness, news gathering, news and editorial writing, headline writing, editing, page design, photography, and other publishing activities. Newsroom management and ethical and legal considerations are also covered.

2 hours lecture, 3 hours laboratory.

Prerequisite(s): JRN 102 and CIS 116, or permission of instructor.

JRN 224 - Field Experience in Communication or Media Technology (1-6)

A supervised cooperative education field experience involving the combined efforts of educators and employers. Students accomplish various academic and career-related objectives in communication or media technology and related fields. Semester-long regular workplace participation and weekly contact with assigned faculty advisor are required.

Prerequisite(s): A declared major in communication or media technology; and COM 102, DMA 110, or JRN 101.

JRN 257 - Literary Magazine Production (3)

Production of the college literary and arts magazine. Includes application of promotion, editing, design, layout, and production techniques.

3 hours lecture.

Prerequisite(s): ENG 101 or permission of instructor. Cross-Listed as: ENG 257.

LGS - LOGISTICS**LGS 101 - Principles of Logistics (3)**

An introduction to the field of logistics including the development of logistics systems, careers in logistics, distribution planning, supply chain security, and customer service. Also deals with the roles and functions of purchasing, inventory control, physical distribution, warehousing, transportation methods, packaging, and customs.

3 hours lecture.

Prerequisite(s): None.

LGS 102 - Inventory Control (3)

A study of inventory-control concepts and techniques. Includes examining cost concepts, determining nature and size of inventory, forecasting, and planning and controlling inventory. Also includes ordering methods, pilferage control, and customer satisfaction strategies.

* indicates SUN course. ‡ indicates lab fees. ° indicates online. ~ indicates intensive writing.

All prerequisite coursework must be completed with a grade of C or better.

3 hours lecture.

Prerequisite(s): None.

LGS 103 - Freight Claims and Contracts (3)

A study of the mitigation of losses in transit and of the various aspects of negotiating and drafting freight and logistics contracts. Includes claim preparation, filing procedures, and claim dispute resolution. Also includes legal and regulatory requirements applicable to product transportation contracts, and considerations for drafting and negotiating contracts with freight carriers, warehousemen, and other logistics-service providers.

3 hours lecture.

Prerequisite(s): None.

LGS 104 - Computerized Logistics (2)

An analysis of the use of computers in the logistics industry, and an introduction to available logistics software. Discusses why computers are needed, their history and possible future uses in the logistics industry, and their impact on customer service. Also includes logistics software availability, selection, and implementation; and computer security measures.

2 hours lecture.

Prerequisite(s): None.

LGS 105 - Warehouse Management (3)

A study of the managing of warehouses. Includes analysis of warehouse location and operations, controls and procedures, finances, security, cargo and materials handling, and productivity.

3 hours lecture.

Prerequisite(s): None.

LGS 106 - Transportation and Traffic Management (3)

A study of the domestic freight transportation system. Addresses patterns of freight movement, and laws, regulations, pricing, and policies of freight transportation. Examines issues related to traffic management, security, and international transportation.

3 hours lecture.

Prerequisite(s): None.

LGS 107 - Introduction to Purchasing (3)

A study of the basic purchasing functions: establishing inventory requirements and quantities, developing policies and procedures for purchasing, making purchasing decisions, receiving goods, arranging packaging and shipping, and managing inventory levels.

3 hours lecture.

Prerequisite(s): None.

LGS 108 - International Logistics (3)

An introduction to the role of logistics in global business. Examines international logistics as they apply to processes, terms, and transportation networks. Addresses the role of governments and intermediaries in the preparation of

international transportation documents. Also reviews the fundamentals of effective import and export management.

3 hours lecture.

Prerequisite(s): None.

LGS 224 - Field Experience in Logistics (1-3)

A supervised cooperative education field experience involving the combined efforts of educators and employers. Students accomplish various academic and career-related objectives in logistics and related fields. Semester-long regular workplace participation and weekly contact with assigned faculty advisor are required.

Prerequisite(s): A declared major in logistics and LGS 101.

MAT - MATHEMATICS

MAT 081 - Beginning Algebra (4) °

Prepares students for MAT 091, MAT 132, or MAT 142.

Topics include fundamental properties and operations of real numbers, algebraic expressions, properties of exponents, linear equations and inequalities, literal equations, dimensional analysis, linear function graphs, and probability.

4 hours lecture.

Prerequisite(s): Appropriate placement measurement, and CPD 150 or concurrent enrollment.

MAT 091 - Intermediate Algebra (4) °

Prepares students to take MAT 151 or MAT 182. A review of the algebra required for college algebra and precalculus courses. Topics include linear equations and inequalities, rational expressions, polynomials, exponents, radicals, linear equation graphs, and quadratic equations.

4 hours lecture.

Prerequisite(s): Appropriate placement measurement, and CPD 150 or concurrent enrollment.

MAT 092 - Special Topics and Applications in Developmental Mathematics (0.25-4)

A rotating forum/seminar/course or supplement to an existing mathematics course emphasizing mathematics or related topics. The title and credit hours for this course will vary each term depending on the topic.

Prerequisite(s): For MAT 092 in conjunction with an existing course, concurrent enrollment in the existing course is required.

MAT 132 - Applied Mathematics (3) °

A survey of mathematical concepts including numeric and fundamental algebraic operations, measurement, geometric figures, right-triangle trigonometry, and statistical measures of center. Focus is on solving technology-related problems.

3 hours lecture.

* indicates SUN course. ‡ indicates lab fees. ° indicates online. ~ indicates intensive writing.

All prerequisite coursework must be completed with a grade of C or better.

Prerequisite(s): Appropriate placement measurement or MAT 081.

MAT 142 - College Mathematics (3) *, °

The practical application of mathematical concepts to real-life situations. Topics include problem solving, mathematical modeling, exponential growth, probability, statistics, and finance mathematics.

3 hours lecture.

Prerequisite(s): Appropriate placement measurement or MAT 081.

MAT 151 - Precalculus Algebra (4) *, °

College-level algebra that prepares students for statistics and calculus courses. Topics include function notation, analysis of graphs, asymptotic behavior, symmetry, inequalities, analysis of polynomials, the rational root theorem, and logarithmic and exponential functions.

4 hours lecture.

Prerequisite(s): Appropriate placement measurement or MAT 091.

MAT 154 - Mathematics for Elementary Education Majors I (3) °

Designed to deepen understanding of some of the mathematical concepts taught in elementary and middle schools. Topics include numeration systems, sets and functions, reasoning, number theory, and operations on whole numbers, integers, and rational numbers.

3 hours lecture.

Prerequisite(s): MAT 142 or MAT 151.

MAT 156 - Mathematics for Elementary Education Majors II (3) °

Designed to deepen understanding of some of the mathematical concepts that are taught in elementary and middle schools. Topics include probability, statistics, geometry, graphing, and problem solving.

3 hours lecture.

Prerequisite(s): MAT 142 or MAT 151.

MAT 167 - Elements of Statistics (3) *, °

Basic concepts of descriptive and inferential statistics with applications in business, economics, the natural sciences, and the social and behavioral sciences. Topics include methods of data collection, sampling techniques, probability distributions, confidence intervals, hypothesis testing, regression and correlation, and various parametric and non-parametric statistical tests.

3 hours lecture.

Prerequisite(s): MAT 142, MAT 151, or MAT 187.

MAT 182 - Precalculus Trigonometry (3) °

An analytical study of trigonometry which--along with MAT 151--prepares students for calculus courses. Topics include trigonometric functions, graphs, identities, conditional

equations, right and oblique triangles, inverse trigonometric functions, and trigonometric forms of complex numbers.

3 hours lecture.

Prerequisite(s): MAT 151 or concurrent enrollment.

MAT 187 - Precalculus (5) *, °

A combination of college-level algebra and trigonometry. Algebra topics include analysis of graphs, asymptotic behavior, symmetry, inequalities, analysis of polynomials, the rational root theorem, and logarithmic and exponential functions with applications. Trigonometry topics include the trigonometric functions, inverse functions, identities, formulas, and angle measures.

5 hours lecture.

Prerequisite(s): Appropriate placement measurement or MAT 091. Recommended Preparation: Some knowledge of college algebra and/or trigonometry.

MAT 192 - Special Topics and Applications in College Mathematics (0.25-6)

A rotating forum/seminar/course or supplement to an existing mathematics course emphasizing mathematics or related topics. The title and credit hours for this course will differ each term, depending on the topic being covered when the course is offered.

Prerequisite(s): For MAT 192 in conjunction with an existing course, concurrent enrollment in the existing course is required. Recommended Preparation: For MAT 192 offered as a special topic seminar or course, permission of the instructor is strongly recommended.

MAT 212 - Calculus for Business (3) *, °

A brief introduction to calculus with emphasis on business applications. Topics include limits, derivatives, and definite and indefinite integrals.

3 hours lecture.

Prerequisite(s): Appropriate placement measurement, MAT 151, or MAT 187. Recommended Preparation: Placement should have occurred within the last twelve months.

MAT 220 - Calculus I (5) *, °

An integrated study using analytic geometry to develop and apply calculus concepts, including techniques and applications of differentiation and integration of elementary functions. Additional topics are absolute value and inequality, relations and functions, graphs, limits and continuity, and definition and application of the derivative, anti-derivative, and definite integral.

5 hours lecture.

Prerequisite(s): Appropriate placement measurement, MAT 187, or both MAT 151 and MAT 182.

MAT 227 - Discrete Mathematics (3) *

An introduction to the study of non-continuous mathematics. Topics include formal proof techniques, propositional logic,

* indicates SUN course. ‡ indicates lab fees. ° indicates online. ~ indicates intensive writing.

All prerequisite coursework must be completed with a grade of C or better.

set theory, combinatorics, elementary number theory, graph theory, and partially ordered sets.

3 hours lecture.

Prerequisite(s): MAT 151 or MAT 187. Recommended

Preparation: MAT 220.

MAT 231 - Calculus II (4) *

A continuation of MAT 220 expanding to include transcendental, inverse trigonometric, and hyperbolic functions. Additional topics are indeterminate forms, improper integrals, sequences and infinite series, conic sections, parametric equations, and polar coordinates.

4 hours lecture.

Prerequisite(s): MAT 220.

MAT 241 - Calculus III (4) *

A continuation of MAT 231 focusing on the calculus of multivariate functions including limits, derivatives, and integrals. Also introduces vector analysis, including Green's and Stokes' theorems.

4 hours lecture.

Prerequisite(s): MAT 231.

MAT 252 - Introduction to Linear Algebra (3)

A study of the properties of vector spaces. Topics are introduced in the context of real valued matrices and then generalized to more abstract spaces. Basic arithmetic of matrices is reviewed and then extended to cover linear transformations, eigenvalues, eigenvectors, and applications.

3 hours lecture.

Prerequisite(s): MAT 231.

MAT 262 - Differential Equations (3) *

An introduction to the study of ordinary differential equations. Topics include the theory, methods of solution, and applications of the following: first-order differential equations, nth-order linear differential equations, systems of linear differential equations, and series solutions.

3 hours lecture.

Prerequisite(s): MAT 231.

MUS - MUSIC

MUS 100 - Fundamentals of Music Notation (3) °

An introduction to the fundamentals of music notation including pitch, rhythm, meter, scales, and intervals. Also introduces basic harmonic structures and the elements of composition. Students use music software to create original musical pieces.

3 hours lecture.

Prerequisite(s): None.

MUS 101 - Introduction to Music (3)

An introduction to the elements of music, illustrated with important musical literature from various periods of music history. Covers music from the Middle Ages and the

Renaissance, as well as the Baroque, Classical, Romantic, and Twentieth-Century periods.

3 hours lecture.

Prerequisite(s): None.

MUS 103 - Voice Class Instruction (1)

The study and development of basic vocal techniques such as breath management, tone quality, projection, and diction. Guided practice includes singing in class, both in group and solo situations.

1 hour lecture.

Prerequisite(s): None.

MUS 109 - Orchestra I (1)

The study and performance of various pieces of the orchestral literature from different musical periods. Emphasis is on sight reading, mind and body control, rhythms, and orchestral performance at a beginning level. Includes public performances at college and community events.

2 hours rehearsal/performance.

Prerequisite(s): Audition.

MUS 109A - Orchestra II (1)

The continued study and performance of various pieces of the orchestral literature from different musical periods. Emphasis is on sight reading, mind and body control, rhythms, and orchestral performance at an intermediate level. Includes public performances at college and community events.

2 hours rehearsal/performance.

Prerequisite(s): MUS 109 and audition.

MUS 110 - Chorus I (1)

The study and performance of various pieces of the choral literature from different musical periods. Emphasis is on beginning vocal and choral techniques as applied through the rehearsal of repertoire. Includes public performances at college and community events.

3 hours rehearsal/performance.

Prerequisite(s): Audition. Recommended Preparation:

Previous choral experience.

MUS 110A - Chorus II (1)

The continued study and performance of various pieces of the choral literature from different musical periods. Emphasis is on intermediate vocal and choral techniques as applied through the rehearsal of repertoire. Includes public performances at college and community events.

3 hours rehearsal/performance.

Prerequisite(s): MUS 110 and audition.

MUS 111 - Band I (1)

The study and performance of various pieces of the standard concert band literature from different musical periods.

Emphasis is on sight reading, mind and body control, scales, and band performance at a beginning level. Includes public performances at college and community events.

* indicates SUN course. ‡ indicates lab fees. ° indicates online. ~ indicates intensive writing.

All prerequisite coursework must be completed with a grade of C or better.

2 hours rehearsal/performance.

Prerequisite(s): Audition.

MUS 111A - Band II (1)

The continued study and performance of various pieces of the standard concert band literature from different musical periods. Emphasis is on sight reading, mind and body control, scales, and band performance at an intermediate level. Includes public performances at college and community events.

2 hours rehearsal/performance.

Prerequisite(s): MUS 111 and audition.

MUS 112 - Instrumental Class Instruction (1) ‡

The study and development of basic instrumental techniques such as coordination, and of rhythms, scales, and sight reading. Guided practice includes performing in class, both in group and solo situations.

1 hour lecture.

MUS 112A Piano Class Instruction

MUS 112E String Class Instruction

Prerequisite(s): None.

MUS 113 - Instrument - Individual Instruction (1-2) ‡

A systematic study of technique and repertoire on an instrument of the student's choice. May be taken twice for a total of two credits.

MUS 113A Individual Instruction - Piano

MUS 113B Individual Instruction - Brass

MUS 113C Individual Instruction - Woodwind

MUS 113D Individual Instruction - Percussion

MUS 113E Individual Instruction - Strings

MUS 113F Individual Instruction - Guitar

Prerequisite(s): Audition or permission of instructor.

MUS 115 - Voice - Individual Instruction (1-2) ‡

A study of the basics of vocal technique and a preparation for the performance of pieces in the vocal literature. May be taken twice for a total of two credits.

Prerequisite(s): Audition or permission of instructor.

MUS 123 - American Popular Music (3) °

This course is an introduction to elements, forms, and uses of popular music beginning with the early 20th Century in America. Course content is illustrated by recordings and videos of influential performers and composers, with an emphasis on the music industry within the context of popular culture.

3 hours lecture.

Prerequisite(s): None.

MUS 132 - Music Theory I (3) °

This first course in music theory is a study of the construction and of the analysis of music including scales, intervals, transposition, figured bass symbols, cadences, non-harmonic tones, and melodic organization.

3 hours lecture.

Prerequisite(s): MUS 100 or permission of instructor, and concurrent enrollment in MUS 134. Recommended Preparation: In addition, music majors should enroll in either MUS 113 or MUS 115.

MUS 133 - Music Theory II (3) °

This second course in music theory includes voice-leading, seventh chords, modulation types, secondary dominants, secondary leading-tone chords, and binary and ternary forms.

3 hours lecture.

Prerequisite(s): MUS 132 and MUS 134, or permission of instructor; and concurrent enrollment in MUS 135.

Recommended Preparation: In addition, music majors should enroll in either MUS 113 or MUS 115.

MUS 134 - Aural Skills I (1)

A progressive series of exercises in sight singing, rhythmic dictation, and melodic dictation.

1 hour lecture.

Prerequisite(s): Concurrent enrollment in MUS 132.

MUS 135 - Aural Skills II (1)

A continuation of the progressive series of exercises in sight singing, rhythmic dictation, and melodic dictation introduced in MUS 134.

1 hour lecture.

Prerequisite(s): MUS 134 and concurrent enrollment in MUS 133.

MUS 201 - Ensemble (1)

The study and performance of music written or arranged for small ensembles. Emphasis is on performance techniques for small vocal and/or instrumental groups.

2 hours rehearsal/performance.

MUS 201A Voice Ensemble (laboratory fee)

MUS 201D Percussion Ensemble (laboratory fee)

MUS 201F Guitar Ensemble (laboratory fee)

MUS 201G Jazz Ensemble

Prerequisite(s): Audition.

MUS 210 - Music Theatre Workshop (2)

A practical study of vocal and performance strategies for projection and communication. Students will participate in a college-sponsored operatic or musical production.

1 hour lecture, 3 hours rehearsal/performance.

Prerequisite(s): Audition or permission of instructor.

MUS 232 - Music Theory III (3) *, °

This third music theory course focuses in chronological order on art music from the late Renaissance period through the early 20th century. Major forms are analyzed through melody, harmony, and various musical motives.

3 hours lecture, 1 hour laboratory.

Prerequisite(s): MUS 133 and MUS 135.

MUS 233 - Music Theory IV (3) *, °

* indicates SUN course. ‡ indicates lab fees. ° indicates online. ~ indicates intensive writing.

All prerequisite coursework must be completed with a grade of C or better.

This fourth music theory course focuses in chronological order on art music from the late 19th century through the middle of the 20th century. Major forms are analyzed through melody, harmony, and various musical motives.

3 hours lecture, 1 hour laboratory.

Prerequisite(s): MUS 232.

MUS 236 - Repertoire Strategy (1) ‡

Exploration of choral and instrumental chamber repertoire from the Middle Ages through the mid-18th century.

Emphasis is on technique and interpretation. Performing groups include duets, trios, and small chamber groups.

3 hours rehearsal/performance.

Prerequisite(s): Permission of instructor.

MUS 260 - Music Fundamentals through Experience (3)

An introduction to musical skills, the mechanics of music, and musical experiences as a background for teaching music to children. Introduction to playing keyboard, autoharp, and recorder, as well as singing. Previous musical experience is not required. Fulfills the music education requirement for teacher certification.

3 hours lecture.

Prerequisite(s): None.

NUR - NURSING

NUR 112 - Introduction to Pharmacology (3) ‡

An introduction to the basic principles and legal implications of pharmacology, and to the safe administering of medications. Includes pharmacokinetics, pharmacodynamics, drug classifications, drug dosage calculation, and medication administration. Students convert and calculate oral, injectable, and intravenous drug dosages for adults and children, and they calculate intravenous flow rates.

3 hours lecture.

Prerequisite(s): None.

NUR 113 - Practical Nursing I (8) ‡

An introduction to the fundamental concepts and skills necessary to provide basic nursing care to clients in a variety of settings. Focus is on basic physiological and psychological needs of clients of all ages across all cultures.

4 hours lecture, 12 hours laboratory.

Prerequisite(s): BIO 160, NUR 112, and NUR 121A, all with a grade of B or better; and HLT 101 and HLT 111.

NUR 114 - Practical Nursing II (9) ‡

A study of the concepts and skills needed to provide nursing care throughout the adult lifespan. Focus is on the application across all cultures of skills necessary in the care of adults with diseases and disorders.

5 hours lecture, 12 hours laboratory.

Prerequisite(s): NUR 113 with a grade of B or better and concurrent enrollment in NUR 115.

NUR 115 - Practical Nursing III (3) ‡

A study of the concepts and skills needed to provide nursing care to obstetrical and pediatric clients in family care applications across all cultures. Focus is on nursing skills, on biopsychosocial and cultural concepts relating to growth and development, and on disorders and diseases of pediatric and normal obstetrical clients. Upon successful completion of NUR 114 and NUR 115, students are eligible to take the National Council Licensure Examination for Practical Nurses (NCLEX-PN).

2 hours lecture, 3 hours laboratory.

Prerequisite(s): NUR 113 with a grade of B or better and concurrent enrollment in NUR 114.

NUR 120 - Transition to Practical Nurse (1) ‡

For first-year re-entering nursing students who have been out of nursing studies at Cochise College for less than one year. Provides an update of the philosophy, policies, and procedures of the Cochise College nursing program. Emphasis is on the nursing process, patient care planning, therapeutic use of self, clinical expectations, and basic nursing skills.

1 hour lecture, 0.5 hour laboratory.

Prerequisite(s): NUR 122 with a grade of B or better at Cochise College within the last twelve months and approval of Nursing Department.

NUR 121A - Medication Math I (2)

This course gives students the math skills necessary to convert and calculate drug dosages for oral, injectable, and intravenous drugs. Experience is provided in techniques for the calculation of oral and parenteral drug dosages for adults and children, and for the calculation of intravenous flow rates.

2 hours lecture, 1 hour laboratory.

Prerequisite(s): Appropriate placement measurement or MAT 081, and acceptance into the nursing program.

NUR 121B - Medication Math II (2)

This course reinforces the skills necessary to convert and calculate drug dosages for oral, injectable, and intravenous drugs; it reviews techniques for the calculation of oral and parenteral drug dosages for adults and children, and for the calculation of intravenous flow rates. Focus is on these skills and techniques as they apply to pediatrics, critical care, pediatric critical care, labor and delivery, and the general community.

2 hours lecture, 1 hour laboratory.

Prerequisite(s): NUR 121A with a grade of B or better, and concurrent enrollment in NUR 232.

NUR 122 - Nursing I (8) ‡

In this first-semester course in the nursing program, students learn concepts and skills necessary to provide basic nursing care to healthy adults in a variety of settings. Focus is on basic

* indicates SUN course. ‡ indicates lab fees. ° indicates online. ~ indicates intensive writing.

All prerequisite coursework must be completed with a grade of C or better.

physiological and psychological needs of clients throughout the adult lifespan across all cultures.

4 hours lecture, 12 hours laboratory.

Prerequisite(s): BIO 201, BIO 202, and NUR 203, all with a grade of B or better; ENG 101 and ENG 102; and admission into the nursing program.

NUR 123 - Nursing II-A (5) ‡

In this second-semester course in the nursing program, students continue to build on the basic concepts and skills needed to provide nursing care throughout the adult lifespan. Focus is on the application across all cultures of skills necessary in the care of adults with diseases and disorders.

Upon successful completion of Nursing II-A and Nursing II-B, students are eligible to take the National Council Licensure Examination for Practical Nurses (NCLEX-PN).

3 hours lecture, 6 hours laboratory.

Prerequisite(s): NUR 121A and NUR 122, both with a grade of B or better, and PSY 101.

NUR 124 - Nursing II-B (5) ‡

In this additional second-semester course in the nursing program, students build on the basic concepts and skills necessary to provide nursing care to obstetrical and pediatric clients. Focus is on family care and the application across all cultures of nursing skills, on biopsychosocial-cultural concepts relating to growth and development, on disorders and diseases of pediatric clients, and on normal and high-risk obstetrical clients. Upon successful completion of Nursing II-A and Nursing II-B, students are eligible to take the National Council Licensure Examination for Practical Nurses (NCLEX-PN).

3 hours lecture, 6 hours laboratory.

Prerequisite(s): NUR 121A and NUR 122, both with a grade of B or better, and PSY 101.

NUR 130 - LPN to Professional Nurse I (4) ‡

For licensed practical nurses with one year's experience who have been out of a nursing program for more than one year. This first-semester course in the LPN to Professional Nurse program updates students on the philosophy, policies, and procedures of the Cochise College nursing program and on changes within the profession. Emphasis is on the nursing process, patient care planning, therapeutic use of self, and basic nursing skills.

4 hours lecture, 1 hour laboratory.

Prerequisite(s): BIO 201, BIO 202, and NUR 203, all with a grade of B or better; concurrent enrollment in NUR 121A; ENG 101, ENG 102, and PSY 101; and current unencumbered Arizona LPN license, one year's experience as an LPN, and admission into the LPN to Professional Nurse program.

NUR 201 - Infusion Therapy/Venipuncture by Licensed Practical Nurses (3) ‡

Teaches the theory and technical skills necessary to provide intravenous (IV) therapy and venipuncture, including the administering of premixed intravenous medications and

solutions through an IV line. Adheres to the competencies for infusion therapy/venipuncture outlined in the Arizona State Board of Nursing Advisory Opinion. Upon successful completion, students receive a departmental Certificate of Competency indicating they have met state guidelines.

3 hours lecture, 1 hour laboratory.

Prerequisite(s): Current unencumbered LPN license or two semesters of nursing.

NUR 203 - Update on Pharmacology (3) °

This course applies information about current medications to patient care. Students learn to assess, evaluate and analyze information and situations, think critically, and make decisions necessary for the safe administering of medications.

3 hours lecture.

Prerequisite(s): ENG 101, and RDG 092 or exemption.

NUR 220 - Transition: Practical Nurse to Registered Nurse (1) ‡

For second-year re-entering nursing students who have been out of nursing studies at Cochise College for less than one year. Provides a review and an update of the philosophy, policies, and procedures of the Cochise College nursing program. Emphasis is on the nursing process, patient care planning, therapeutic use of self, clinical expectations, and more advanced nursing skills.

1 hour lecture, 0.5 hour laboratory.

Prerequisite(s): NUR 123 or NUR 232 with a grade of B or better at Cochise College within the last twelve months and approval of Nursing Department.

NUR 230 - LPN to Professional Nurse II (10) ‡

This second-semester course in the LPN to Professional Nurse program focuses on the problems and the physical and psychosocial health needs of acutely-ill adult clients. Topics include effective communication, advanced nursing care using evidence-based practices, and intervention and evaluation strategies in the nursing process. The course's clinical setting helps students gain experience and competency in the following areas: discharge planning, community nursing, advanced medical surgical nursing, delegation, and leadership. Students utilize their knowledge of new developments in health care to adapt and be proactive as professional nurses.

6 hours lecture, 12 hours laboratory.

Prerequisite(s): NUR 121A and NUR 130, both with a grade of B or better; and concurrent enrollment in NUR 121B.

NUR 231 - LPN to Professional Nurse III (10) ‡

This third-semester course in the LPN to Professional Nurse program focuses on the complex problems and the physical and psychosocial health needs of critically-ill adult clients. Attention is given to enhanced communication and to advanced nursing care. The course's preceptorship, a capstone

* indicates SUN course. ‡ indicates lab fees. ° indicates online. ~ indicates intensive writing.

All prerequisite coursework must be completed with a grade of C or better.

to the students' work in a clinical setting, facilitates the transition from student to nurse. Upon successful completion, students are eligible to take the National Council Licensure Examination for Registered Nurses (NCLEX-RN).

6 hours lecture, 12 hours laboratory.

Prerequisite(s): NUR 121B and NUR 230, both with a grade of B or better; and PSY 240.

NUR 232 - Nursing III (10) ‡

In this third-semester course in the nursing program, the focus is on the problems and the physical and psychosocial health needs of acutely-ill adult clients. Topics include the framework for effective communication and the nursing process with emphasis on intervention and evaluation. A clinical setting helps students develop competence in discharge planning, community nursing, and leadership. Students utilize knowledge of new developments in health care to adapt to changes in the field and to be proactive in the nursing profession.

6 hours lecture, 12 hours laboratory.

Prerequisite(s): NUR 123 and NUR 124, both with a grade of B or better; and PSY 240.

NUR 233 - Nursing IV (10) ‡

In this fourth-semester course in the nursing program, the focus is on the complex problems and the physical and psychosocial health needs of critically-ill adult clients. During their nursing preceptorship, students work intensively with a registered nurse in their transition from student to nurse. Upon successful completion of this course, students are eligible to take the National Council Licensure Examination for Registered Nurses (NCLEX-RN).

6 hours lecture, 12 hours laboratory.

Prerequisite(s): NUR 121B and NUR 232, both with a grade of B better.

PFT - PROFESSIONAL FLIGHT TECHNOLOGY

PFT 100 - Introduction to Aviation (1)

Instruction in the program-specific requirements, policies, and aircraft procedures which are not covered in Federal Aviation Administration training course outlines. Designed to prepare students who have been accepted into the aviation program for flight training.

1 hour lecture.

Prerequisite(s): Acceptance into the aviation program.

PFT 101 - Private Pilot Ground School (5) °

A comprehensive course that prepares students for the Federal Aviation Administration Private Pilot Airplane knowledge exam. Prepares students to acquire the knowledge and skills necessary to operate as a private pilot and to pursue a career in aviation.

5 hours lecture.

Prerequisite(s): Acceptance into the aviation program.

PFT 103 - Private Pilot Review (1)

A review of the course materials and of the flight proficiency requirements for the Federal Aviation Administration Private Pilot Certification. Also prepares those seeking to satisfy FAA currency requirements.

1 hour lecture.

Prerequisite(s): Acceptance into the aviation program.

Recommended Preparation: Successful completion of the FAA Private Pilot knowledge test.

PFT 105 - Crew Resource Management - Flight (2)

A study of resources available to flight crews to assure safe and efficient flight operations and reduce cockpit errors. Focus is on the development of cognitive and interpersonal skills such as situational awareness, communication, teamwork, task allocation, and decision making, which are needed to manage flights.

2 hours lecture.

Prerequisite(s): Acceptance into the aviation program.

PFT 111 - Solo Flight Preparation (3.5)

Designed to prepare the student for solo flight in accordance with FAA requirements.

3.5 hours lecture.

Prerequisite(s): Concurrent enrollment in PFT 101 or permission of the Aviation Department.

PFT 112 - Cross-Country Navigation (1.5)

Designed to prepare the student for cross-country navigation in accordance with FAA requirements.

1.5 hours lecture.

Prerequisite(s): PFT 101 and concurrent enrollment in PFT 111, or permission of the Aviation Department.

PFT 113 - Private Pilot Certification (1)

Designed to prepare the student for private pilot certification in accordance with FAA requirements.

1 hour lecture.

Prerequisite(s): PFT 111 and concurrent enrollment in PFT 112, or permission of the Aviation Department.

PFT 121 - Commercial Flight I (3)

The first in a series of three courses designed to prepare students for a Commercial Pilot Airplane Single Engine Land Certificate. Topics include preflight preparations and procedures, flight maneuvers, and postflight operations, with emphasis on the airmanship skills and aeronautical knowledge stipulated by the Federal Aviation Administration for commercial pilots. Provides a foundation for the development of a professional pilot career.

3 hours lecture.

Prerequisite(s): Possession of a Private Pilot Airplane Single Engine Land Certificate.

* indicates SUN course. ‡ indicates lab fees. ° indicates online. ~ indicates intensive writing.

All prerequisite coursework must be completed with a grade of C or better.

PFT 122 - Aviation Weather (3) °

A continuation of the study of aviation weather theory, one of the topics introduced in PFT 101. Includes an in-depth study of weather elements and hazards, and of aviation weather reports and forecasts. Covers weather conditions as they relate to aircraft and flight performance.

3 hours lecture.

Prerequisite(s): PFT 101 or permission of instructor.

PFT 130 - Commercial Pilot Ground School (5) °

A comprehensive course that prepares students for the Federal Aviation Administration Commercial Pilot Airplane knowledge exam. Focuses on improving students' aeronautical knowledge as well as their decision-making, aviation-safety, and risk-management skills in preparation for a career as a commercial pilot.

5 hours lecture.

Prerequisite(s): PFT 101 or possession of a Private Pilot Certificate, and acceptance into the aviation program.

PFT 131 - Commercial Flight II (3)

The second in a series of three courses designed to prepare students for a Commercial Pilot Airplane Single Engine Land Certificate. Focus is on commercial pilot-level airmanship skills and aeronautical knowledge. Continues developing the foundation for a professional pilot career.

3 hours lecture.

Prerequisite(s): PFT 121, concurrent enrollment, or permission of the director of aviation; and possession of a Private Pilot Certificate with Airplane Single Engine Land.

PFT 204 - Instrument Rating Ground School (5) °

A comprehensive course that prepares students for the Federal Aviation Administration Instrument Rating Airplane exam. Focuses on air traffic control procedures, the national airspace system, aviation weather, risk management, aeronautical decision making, and aviation safety as they all relate to instrument flight operations in preparation for a career as a professional pilot.

5 hours lecture.

Prerequisite(s): PFT 101 or possession of a Private Pilot Certificate, and acceptance into the aviation program.

PFT 206 - Aircraft Systems (3) °

A study of the fundamentals of physics, and of various aircraft systems-mechanical, electrical, and hydraulic-used to manage complex aircraft operations.

3 hours lecture.

Prerequisite(s): PFT 101 or permission of the director of aviation.

PFT 208 - Jet Transition Training (3)

A CRJ 700 passenger jet simulation-based flight-training experience that teaches principles common to many modern jet and turbo propeller airliners. The training utilizes an

integrated flight and navigation management system with displays, aircraft and flight control systems, realistic views of the environment, and simulated malfunctions that mimic emergency situations.

3 hours lecture.

Prerequisite(s): Concurrent enrollment in PFT 218 or possession of a Commercial Pilot Airplane Certificate.

PFT 210 - Multi-Engine Rating Ground School (1) °

A comprehensive course covering the aeronautical knowledge required for a Multi-Engine Land Airplane Class Rating.

1 hour lecture.

Prerequisite(s): Possession of a Private Pilot Certificate with Airplane Single Engine Land.

PFT 211 - Multi-Engine Rating Flight (1)

A comprehensive course that develops the required airmanship skills, knowledge, and proficiency for a Multi-Engine Land Airplane Class Rating per the Federal Aviation Administration Practical Test Standards.

1 hour lecture.

Prerequisite(s): PFT 210 or concurrent enrollment; and possession of a Private Pilot Certificate with Airplane Single Engine Land.

PFT 214 - Instrument Rating Flight I (3.5)

The first of two courses designed to prepare the student for instrument flight navigation and air traffic control rating in accordance with FAA requirements.

3.5 hours lecture.

Prerequisite(s): PFT 204.

PFT 215 - Instrument Rating Flight II (1.5)

The second of two courses designed to prepare the student for instrument flight navigation and air traffic control rating in accordance with FAA requirements.

1.5 hours lecture.

Prerequisite(s): PFT 214.

PFT 217 - Instrument Pilot Review (1)

A review of the course materials and of the flight proficiency requirements for the Federal Aviation Administration Instrument Rating Certification. Also prepares those seeking to satisfy FAA currency requirements.

1 hour lecture.

Prerequisite(s): Acceptance into the aviation program.

Recommended Preparation: Successful completion of the FAA Instrument Rating knowledge test.

PFT 218 - Commercial Flight III (1)

The third in a series of three courses designed to prepare the student for a Commercial Pilot Airplane Single Engine Land Certificate. Emphasis is on correlating the aeronautical knowledge and airmanship skills developed in PFT 121 and PFT 131 with the Federal Aviation Administration Commercial Pilot Practical Test Standards.

* indicates SUN course. ‡ indicates lab fees. ° indicates online. ~ indicates intensive writing.

All prerequisite coursework must be completed with a grade of C or better.

1 hour lecture.

Prerequisite(s): PFT 121 or concurrent enrollment and PFT 131 or concurrent enrollment, or permission of the director of aviation; and possession of a Private Pilot Certificate with Airplane Single Engine Land.

PFT 220 - Commercial Pilot Review (1)

A review of the course materials and of the flight proficiency requirements for the Federal Aviation Administration Commercial Pilot Certification. Also prepares those seeking to satisfy FAA currency requirements.

1 hour lecture.

Prerequisite(s): Acceptance into the aviation program.

Recommended Preparation: Successful completion of the FAA Commercial Pilot knowledge test.

PFT 222 - Aircraft Dispatcher (7) ‡

A comprehensive course that prepares students for the Federal Aviation Administration Aircraft Dispatcher Certificate required for a career as a licensed dispatcher. Topics include FAA regulations, weather protocol, flight planning and decision making, and navigation and dispatch procedures.

7 hours lecture.

Prerequisite(s): PFT 101, PFT 122, PFT 204, and PFT 206.

PFT 230 - Flight Instructor - Fundamentals Ground School (3)

A study of the principles of teaching and performance assessment, and an analysis of student behavior and learning as they all relate to aviation students. Offered in preparation for the Federal Aviation Administration Fundamentals of Instruction knowledge exam.

3 hours lecture.

Prerequisite(s): PFT 130 and PFT 204, or permission of the director of aviation.

PFT 231 - Flight Instructor - Airplane Ground School (5)

An application of the fundamentals of instruction as they relate to aviation students. Emphasis is on the development and demonstration of the instructional knowledge and skills required for the Federal Aviation Administration Flight Instructor Airplane Single Engine practical test.

5 hours lecture.

Prerequisite(s): PFT 130, PFT 204, and PFT 230 or concurrent enrollment.

PFT 233 - Flight Instructor - Airplane Review (1)

A review of the course materials and of the flight proficiency requirements for the Federal Aviation Administration Flight Instructor Airplane Certification. Also prepares those seeking to satisfy FAA currency requirements.

1 hour lecture.

Prerequisite(s): Acceptance into the aviation program.

Recommended Preparation: Successful completion of the FAA Fundamentals of Instruction and Flight Instructor Airplane knowledge tests.

PFT 235 - Flight Instructor - Airplane Stage I (1.5)

The first of two courses that apply the fundamentals of instruction, with a demonstration of the aeronautical knowledge and airmanship skills required for students seeking the Flight Instructor Airplane Single Engine Certification.

Flight training occurs in a non-complex aircraft.

1.5 hours lecture.

Prerequisite(s): Possession of a Commercial Airplane Single Engine Land Certificate with an Instrument Airplane Rating.

Recommended Preparation: PFT 230 and PFT 231, or successful completion of the FAA Flight Instructor Airplane and FAA Fundamentals of Instruction knowledge tests.

PFT 236 - Flight Instructor - Airplane Stage II (1.5)

The second of two courses that apply the fundamentals of instruction, with a demonstration of the aeronautical knowledge and airmanship skills required for students seeking the Flight Instructor Airplane Single Engine Certification.

Flight training occurs in a complex aircraft.

1.5 hours lecture.

Prerequisite(s): PFT 235 and possession of a Commercial Airplane Single Engine Land Certificate with an Instrument Airplane Rating.

PFT 240 - Flight Instructor - Multi-Engine Ground School (2)

An application of the fundamentals of instruction as they relate to aviation students. Emphasis is on the development and demonstration of the instructional knowledge and skills required for the Federal Aviation Administration Flight Instructor Airplane Multi-Engine practical test.

2 hours lecture.

Prerequisite(s): PFT 230 or concurrent enrollment and PFT 231 or concurrent enrollment, or possession of a Flight Instructor Airplane Single Engine Certificate and a Commercial Airplane Multi-Engine Land Certificate.

PFT 241 - Flight Instructor - Multi-Engine Flight (2)

An application of the fundamentals of instruction, and a demonstration of the aeronautical knowledge and airmanship skills required for students seeking the Flight Instructor Airplane Multi-Engine Certification.

2 hours lecture.

Prerequisite(s): PFT 230, PFT 231, and possession of a Flight Instructor Airplane Single Engine Certificate and a Commercial Airplane Multi-Engine Land Certificate with Instrument Rating.

PFT 250 - Flight Instructor - Instrument Ground School (3)

An application of the fundamentals of instruction as they relate to aviation students. Emphasis is on the development and demonstration of the instructional knowledge and skills required for the Federal Aviation Administration Flight Instructor Instrument Ground practical test.

3 hours lecture.

* indicates SUN course. ‡ indicates lab fees. ° indicates online. ~ indicates intensive writing.

All prerequisite coursework must be completed with a grade of C or better.

Prerequisite(s): PFT 230 or concurrent enrollment, PFT 231 or concurrent enrollment, PFT 235 or concurrent enrollment, and PFT 236 or concurrent enrollment; or possession of a Flight Instructor Airplane Single Engine Certificate.

PFT 251 - Flight Instructor - Instrument Flight (3)

An application of the fundamentals of instruction, and a demonstration of the aeronautical knowledge and airmanship skills required for students seeking the Flight Instructor Instrument Airplane Certification.

3 hours lecture.

Prerequisite(s): PFT 230 or concurrent enrollment, PFT 231 or concurrent enrollment, PFT 235 or concurrent enrollment, and PFT 236 or concurrent enrollment; and possession of a Flight Instructor Airplane Single Engine Certificate and a Commercial Airplane Single Engine Land Certificate with Instrument Rating.

PFT 260 - Airline Transport Pilot - Ground School (3)

A comprehensive review of the aeronautical knowledge required for the Federal Aviation Administration Airline Transport Pilot certification.

3 hours lecture.

Prerequisite(s): Possession of a Commercial Pilot Airplane Certificate with Instrument Rating.

PFT 261 - Airline Transport Pilot - Flight (1)

Comprehensive flight training in order to complete the Federal Aviation Administration requirements for Airline Transport Pilot certification.

1 hour lecture.

Prerequisite(s): Possession of a Commercial Pilot Airplane Certificate with Instrument Rating.

PFT 271 - Unmanned Aerial Vehicle (UAV) Operator (29)

Teaches the theory of UAV systems, with emphasis on aerial vehicles, mission payload, and flight line operations. Students gain the knowledge and practical skills required to safely employ UAV systems in any theater of operation.

20 hours lecture, 27 hours laboratory.

Prerequisite(s): PFT 101 or completion of an FAA approved Stage One Ground School, and a sponsored employee of the Department of Defense or of a DOD UAV contractor.

PHI - PHILOSOPHY

PHI 111 - Introduction to Western Philosophy (3) *, °, ~

A study of the most influential philosophers and philosophies in the Western tradition. Topics include the possibility of knowledge, free will, and morality and their natures; and the distinction between appearance and reality.

3 hours lecture.

Prerequisite(s): ENG 101.

PHI 113 - Introduction to Logic (3) *, °, ~

A study of various topics in logic, including the evaluation of arguments, the detection of formal and informal fallacies, the construction of truth tables, and the process of natural deduction in propositional logic.

3 hours lecture.

Prerequisite(s): ENG 101.

PHI 130 - Introduction to Ethics (3) *, °, ~

A study of the most influential philosophers and philosophies in the moral tradition. Topics include the nature of values, right conduct, and character; and the application of theory to real-world actions and situations.

3 hours lecture.

Prerequisite(s): ENG 101.

PHI 201 - Introduction to Eastern Philosophy (3) °, ~

A study of the most influential philosophers and philosophies in the Eastern tradition. Topics include the possibility of knowledge, free will, and morality and their natures; and the distinction between appearance and reality.

3 hours lecture.

Prerequisite(s): ENG 101.

PHI 202 - Philosophy of Religion (3) °, ~

A study of the most influential philosophers and philosophies in the religious tradition. Topics include the nature and existence of God, the value of faith versus knowledge, the possibility of religious pluralism, and the problem of evil.

3 hours lecture.

Prerequisite(s): ENG 101.

PHT - PHARMACY TECHNOLOGY

PHT 224 - Field Experience in Pharmacy Technology (1-3)

A supervised cooperative education field experience involving the combined efforts of educators and employers. Students accomplish various academic and career-related objectives in pre-pharmacy and related healthcare fields. Semester-long regular workplace participation and weekly contact with assigned faculty advisor are required.

Prerequisite(s): A declared major in any related field; and BIO 156, BIO 181, or concurrent enrollment in either.

PHY - PHYSICS

PHY 111 - General Physics I (4) *, ‡

An introduction to the general principles of physics in the area of classical mechanics. Special emphasis is placed on algebra in solving word problems. Topics include kinematics, dynamics, energy, momentum, motion, fluids, elasticity and oscillations, and waves and sounds. For students whose degree programs do not require physics with calculus.

3 hours lecture, 3 hours laboratory.

Prerequisite(s): MAT 091 or higher.

* indicates SUN course. ‡ indicates lab fees. ° indicates online. ~ indicates intensive writing.

All prerequisite coursework must be completed with a grade of C or better.

PHY 112 - General Physics II (4) *, ‡

Introductory physics without calculus. Topics include electrostatics, electric potential, resistance, circuits, electromagnetism, and Faraday's law; light, lenses, optical instruments, and interference; and quantum physics, atoms, and nuclei. For students whose degree programs do not require physics with calculus.

3 hours lecture, 3 hours laboratory.

Prerequisite(s): PHY 111.

PHY 230 - Physics with Calculus I (4) *, ‡

A fundamental calculus-based study of classical mechanics. Topics include kinematics, dynamics, energy, linear and angular momentum, and oscillations. For engineering students and others who require physics with calculus.

3 hours lecture, 3 hours laboratory.

Prerequisite(s): MAT 220 and either PHY 111 or one year of high school physics.

PHY 231 - Physics with Calculus II (4) *, ‡

A study, using calculus concepts, of electromagnetic fields and their various applications. Topics include electrical and magnetic properties of matter, and circuit devices used in DC and simple AC circuits. For engineering students and others who require physics with calculus.

3 hours lecture, 3 hours laboratory.

Prerequisite(s): PHY 230.

PMD - PARAMEDICINE**PMD 101 - Paramedicine I (6) ‡**

An introductory course that includes an EMT refresher, an overview of hazardous materials first responder operations, and a review of human anatomy and physiology.

6 hours lecture, 1 hour laboratory.

Prerequisite(s): Appropriate placement measurement, MAT 081, or higher; and RDG 092 or exemption. Prior to enrollment, students must meet the following requirements: 1) current certification as an EMT (Arizona or National Registry), 2) score of 75% or higher on computer-based entrance exam, 3) proof of vaccinations, to include negative tuberculin (TB) skin test, measles, mumps, rubella (MMR), varicella, and hepatitis B series, and 4) acceptance into the paramedicine program. Once enrolled, the following are required: 5) drug screen and 6) background check.

PMD 201 - Paramedicine II (7) ‡

An introduction to the roles and responsibilities of the paramedic and to advanced pre-hospital care. Topics include the medical and legal aspects of pre-hospital care, and the general principles of pathophysiology, pharmacology, and medication administration.

6 hours lecture, 2 hours laboratory.

Prerequisite(s): PMD 101.

PMD 202 - Paramedicine III (7) ‡

A continued study of pre-hospital care to include advanced airway management, therapeutic communication, physical examination techniques, and patient assessment in the field, with an overview of trauma and burns.

6 hours lecture, 2 hours laboratory.

Prerequisite(s): PMD 201.

PMD 203 - Paramedicine IV (10) ‡

An in-depth study of pulmonary- and cardiac-related medical emergencies. Focuses on cardiac anatomy and physiology, electrocardiogram interpretations and interventions, and preparation for certification in Advanced Cardiac Life Support (ACLS). Students begin clinical rotations during this course.

6 hours lecture, 8 hours laboratory.

Prerequisite(s): PMD 202.

PMD 204 - Paramedicine V (10) ‡

A continued study of medical emergencies with focus on neurology, endocrinology, allergic reactions, anaphylaxis, gastroenterology, urology, nephrology, toxicology, and gynecology and obstetrics. Students continue clinical rotations.

6 hours lecture, 8 hours laboratory.

Prerequisite(s): PMD 203.

PMD 205 - Paramedicine VI (9) ‡

An overview of the various responses to and treatments for infectious diseases, psychological emergencies, and conditions requiring attention in the areas of neonatology, pediatrics, geriatrics, and challenged patients. Additional topics include the incident command system (ICS) and special operations such as rescue situations, hazardous materials, and terrorism as they relate to medical emergencies. Includes certification in Pediatric Advanced Life Support (PALS). Students increase their number of clinical rotations.

2 hours lecture, 14 hours laboratory.

Prerequisite(s): PMD 204.

PMD 206 - Paramedicine VII (6) ‡

The capstone course of the paramedicine program, offered primarily as a field internship. Students are assigned to a paramedic preceptor on an advanced life support (ALS) ambulance where they operate as the lead paramedic in the field. Students, preceptors, and instructors meet weekly to discuss student progress.

1 hour lecture, 10 hours laboratory.

Prerequisite(s): PMD 205.

PMD 210 - Paramedic Refresher (3) ‡

A refresher course that equips students with the knowledge and skills required of paramedics seeking recertification.

Topics include preparatory information--roles and responsibilities of the paramedic, medical and ethical issues, and basic anatomy and physiology--as well as airway management and ventilation, patient assessment, trauma, and

* indicates SUN course. ‡ indicates lab fees. ° indicates online. ~ indicates intensive writing.

All prerequisite coursework must be completed with a grade of C or better.

medical conditions as they relate to emergency medical systems. May be repeated as required for recertification.

3 hours lecture, 1 hour laboratory.

Prerequisite(s): Certification as an Arizona or nationally-registered paramedic in good standing.

POS - POLITICAL SCIENCE

POS 110 - American National Government (3) *, °

A study of the United States political system with emphasis on constitutional democracy, political parties, elections and voting, and the three branches of government. Also covers the impact of race, gender, and ethnicity on the political process, and the role of civil rights and civil liberties in the protection of American citizens. Satisfies the United States Constitution requirement for Arizona K-12 teacher certification.

3 hours lecture.

Prerequisite(s): RDG 092 or exemption.

POS 220 - Federal and Arizona Constitutions (3) °, ~

A study of the federal government of the United States and the state government of Arizona accomplished through the examination and interpretation of their constitutions. Satisfies both the United States and the Arizona Constitution requirements for Arizona K-12 teacher certification.

3 hours lecture.

Prerequisite(s): ENG 101, and RDG 092 or exemption.

POS 221 - Arizona Constitution (1) °

A study of the Arizona government through the examination and interpretation of its constitution. Satisfies the Arizona Constitution requirement for Arizona K-12 teacher certification.

1 hour lecture.

Prerequisite(s): ENG 101, and RDG 092 or exemption.

POS 230 - World Politics (3) *, °, ~

A study of international politics and the relations among nation-states. Topics include the development of international systems, the Cold War and its aftermath, the use of power in the pursuit of national political objectives, the evolution of international alignments, the rise of terrorism, and various areas of conflict.

3 hours lecture.

Prerequisite(s): ENG 101, and RDG 092 or exemption.

Recommended Preparation: HIS 244, POS 110, or POS 220.

POS 240 - Comparative Politics (3) *, °

The study of comparative politics with emphasis on political systems, movements, ideologies, and economic development.

3 hours lecture.

Prerequisite(s): RDG 092 or exemption. Recommended

Preparation: HIS 244, POS 110, or POS 220.

PSY - PSYCHOLOGY

PSY 101 - Introduction to Psychology (3) *, °

A study of psychology, its history, and its research methods. Topics include sensation and perception, consciousness, learning, memory, motivation and emotion, lifespan development, and personality. Also covers biopsychology, social psychology, abnormal behavior, and therapy.

3 hours lecture.

Prerequisite(s): RDG 092 or exemption.

PSY 103 - Foundations of Psychology (3) °

A study of the basic theoretical principles of psychology and their applications to human behavior and growth. Students explore psychology as a practical science and they examine how psychological research can lead to improved personal and professional relationships.

3 hours lecture.

Prerequisite(s): RDG 092 or exemption.

PSY 210 - Social Psychology (3) °, ~

A study of the basic concepts, theories, and research pertaining to human interaction. Topics include attribution, attitude formation and change, interpersonal interaction, altruism and aggression, environmental psychology, and group structure and processes.

3 hours lecture.

Prerequisite(s): ENG 101 and PSY 101.

PSY 231 - Human Sexuality (3) °

An overview of human sexuality during the life cycle, viewed from both sociological and psychological perspectives. Includes an exploration of the biological and cultural foundations of gender and sexuality, sexual orientations and identities, intimate relationships and intimate communication, sexual behaviors, sexual dysfunctions, and social issues surrounding sexuality.

3 hours lecture.

Prerequisite(s): RDG 092 or exemption. Recommended

Preparation: ANT 102, PSY 101, or SOC 101. Cross-Listed as: SOC 230.

PSY 240 - Developmental Psychology (3) °, ~

A sequential study of the human lifespan, from conception through death, emphasizing theories and applications in the biological, cognitive, psychoanalytic, and psychosocial domains.

3 hours lecture.

Prerequisite(s): ENG 101 and PSY 101.

PSY 250 - Introduction to Statistics (4) °, ‡, ~

An introduction to the basic concepts of experimental design, with emphasis on measurement and descriptive and inferential statistics as they apply to psychological research.

* indicates SUN course. ‡ indicates lab fees. ° indicates online. ~ indicates intensive writing.

All prerequisite coursework must be completed with a grade of C or better.

3 hours lecture, 3 hours laboratory.

Prerequisite(s): ENG 101, MAT 142, and PSY 101.

PSY 270 - Abnormal Psychology (3) °, ~

An examination of various psychological disorders. Includes theoretical, clinical, and experimental perspectives on the study of abnormal psychology. Emphasis is on terminology, classification, etiology, assessment of symptoms, and therapeutic techniques for the treatment of the major disorders.

3 hours lecture.

Prerequisite(s): ENG 101 and PSY 101.

PSY 290 - Research Methods (3) °, ~

A review and analysis of the scientific literature, with specific attention to experimental research designs. Students design psychological studies, collect and analyze data, and interpret and report research results.

3 hours lecture.

Prerequisite(s): ENG 101, PSY 101, and PSY 250.

RDG - READING

RDG 020 - Basic Reading (4)

The first of two reading courses designed to equip students with the skills necessary to succeed in college-level content area courses and to become lifelong readers. Emphasis is on vocabulary development, study skills, and basic reading skills. Attention is also given to higher-level reading skills.

4 hours lecture, 1 hour laboratory.

Prerequisite(s): Appropriate placement measurement, and CPD 150 or concurrent enrollment.

RDG 092 - College Reading (4) °

The second of two reading courses designed to equip students with the skills necessary to succeed in college-level content area courses and to become lifelong learners. Emphasis is on advanced vocabulary development, critical reading and study skill strategies, and literal comprehension skills.

4 hours lecture, 1 hour laboratory.

Prerequisite(s): Appropriate placement measurement or RDG 020, and CPD 150 or concurrent enrollment.

RTH - RESPIRATORY THERAPY

RTH 110 - Introduction to Respiratory Care (3) ‡

An introduction to the respiratory care profession. Topics include respiratory care and the healthcare system; computer applications; patient safety, communication, and record keeping; principles of infection control; and ethical and legal implications in the practice of the profession.

3 hours lecture.

Prerequisite(s): BIO 156, BIO 160, ENG 102, MAT 151 or higher, and two PSY or SOC courses. Concurrent enrollment

in RTH 121, RTH 123, and RTH 124; and acceptance into the respiratory therapy program.

RTH 112 - Respiratory Physiology (3) ‡

A study of the cardiopulmonary system and its associated structures. Topics include the anatomy of the respiratory system, ventilation and diffusion of pulmonary gases, the circulatory system, oxygen and carbon dioxide transport, control of ventilation, and renal failure and its effects on the cardiopulmonary system.

3 hours lecture.

Prerequisite(s): RTH 110, RTH 121, RTH 123, and RTH 124; and concurrent enrollment in RTH 162, RTH 235, and RTH 246.

RTH 121 - Basic Therapeutics (4) ‡

An introduction to the therapeutics of basic respiratory care, equipment functions, and clinical indications and contraindications. Topics include medical gas therapy, oxygen delivery devices, humidity and aerosol therapy, hyperinflation therapy, chest physiotherapy, and basic airway management.

3 hours lecture, 3 hours laboratory.

Prerequisite(s): BIO 156, BIO 160, ENG 102, MAT 151 or higher, and two PSY or SOC courses. Concurrent enrollment in RTH 110, RTH 123, and RTH 124; and acceptance into the respiratory therapy program.

RTH 123 - Basic Assessment and Monitoring (3) ‡

A study of the basic assessment and monitoring of cardiopulmonary-impaired patients. Topics include bedside respiratory assessment, clinical laboratory studies and their assessment, oxygenation and ventilation, pulmonary function measurements, clinical application of chest radiography, basic interpretation of electrocardiogram tracing, and advanced cardiac life support (ACLS).

3 hours lecture.

Prerequisite(s): BIO 156, BIO 160, ENG 102, MAT 151 or higher, and two PSY or SOC courses. Concurrent enrollment in RTH 110, RTH 121, and RTH 124; and acceptance into the respiratory therapy program.

RTH 124 - Pharmacology for Respiratory Care (3)

A study of the principles of pharmacology and of drug receptor theory as they relate to patients with cardiopulmonary disease. Topics include general principles of pharmacology, drug dose calculations, effects of pharmacological agents on the central and peripheral nervous systems, bronchodilators, drugs used to control airway mucus and edema, and drugs used in the management of ventilator patients and patients with cardiorespiratory disorders.

3 hours lecture.

Prerequisite(s): BIO 156, BIO 160, ENG 102, MAT 151 or higher, and two PSY or SOC courses. Concurrent enrollment in RTH 110, RTH 121, and RTH 123; and acceptance into the respiratory therapy program.

* indicates SUN course. ‡ indicates lab fees. ° indicates online. ~ indicates intensive writing.

All prerequisite coursework must be completed with a grade of C or better.

RTH 162 - Principles of Mechanical Ventilation (3) ‡

An introduction to the concepts of mechanical ventilation for adult patients. Topics include reasons for mechanical ventilation, principles of non-invasive and invasive mechanical ventilation, physiological basis of ventilatory support, physical principles of positive pressure ventilation, physical assessment of critically ill patients, and respiratory monitoring in the intensive care unit.

2 hours lecture, 3 hours laboratory.

Prerequisite(s): RTH 110, RTH 121, RTH 123, and RTH 124; and concurrent enrollment in RTH 112, RTH 235, and RTH 246.

RTH 235 - Clinical Procedures I (5) ‡

A clinical application of respiratory care coursework. Included are a site orientation; a review of the hospital's respiratory department and its policies, procedures, and reporting systems; an introduction to medical records; and a study of patient assessment and monitoring. Also included are various respiratory therapies, infection control procedures, techniques for medical asepsis and equipment disinfection, patient care plans, and case studies.

1 hour lecture, 12 hours laboratory.

Prerequisite(s): RTH 110, RTH 121, RTH 123, and RTH 124; and concurrent enrollment in RTH 112, RTH 162, and RTH 246.

RTH 241 - Critical Care Therapeutics (4) ‡

A study of critical care principles and procedures in adult patients. Topics include airway management, mechanical ventilation waveform graphics, selected mechanical ventilators and their troubleshooting, care of mechanically ventilated patients, alternative modes of mechanical ventilation, and home mechanical ventilation.

3 hours lecture, 3 hours laboratory.

Prerequisite(s): RTH 112, RTH 162, RTH 235, and RTH 246; and concurrent enrollment in RTH 245 and RTH 251.

RTH 243 - Advanced Assessment and Monitoring (4)

A study of the assessment of critical respiratory patients. Topics include cardiac output, invasive hemodynamics, sleep-related breathing disorders, nutritional assessment, advanced cardiac arrhythmia interpretation, and bronchoscopy.

4 hours lecture.

Prerequisite(s): RTH 241, RTH 245, and RTH 251; and concurrent enrollment in RTH 255 and RTH 256.

RTH 245 - Clinical Procedures II (5)

A continuation of RTH 235. Topics include basic and advanced airway care and management, arterial blood gases, advanced respiratory monitoring, mechanical ventilation, and care decisions for adult patients. Additional topics include hemodynamic assessment of critically ill patients, respiratory

care delivery environments, and the presentation of case studies.

1 hour lecture, 12 hours laboratory.

Prerequisite(s): RTH 112, RTH 162, RTH 235, and RTH 246; and concurrent enrollment in RTH 241 and RTH 251.

RTH 246 - Cardiorespiratory Disorders I (3)

A study of commonly encountered respiratory disorders in adult patients. Topics include infectious pulmonary diseases, obstructive pulmonary diseases, traumatic lung and chest injuries, pulmonary vascular diseases, disorders of the pleura and chest wall, and important issues related to cardiopulmonary disorders.

3 hours lecture.

Prerequisite(s): RTH 110, RTH 121, RTH 123, and RTH 124; and concurrent enrollment in RTH 112, RTH 162, and RTH 235.

RTH 251 - Advanced and Specialty Therapeutics (4) ‡

A study of respiratory therapies used in specialized populations. Topics include development and care of the fetus and care of the neonatal and pediatric patient: management of ventilation and oxygenation, transport, home care, pulmonary rehabilitation, and advanced cardiorespiratory care therapies.

4 hours lecture.

Prerequisite(s): RTH 112, RTH 162, RTH 235, and RTH 246; and concurrent enrollment in RTH 241 and RTH 245.

RTH 255 - Clinical Procedures III (6)

A continuation of RTH 245. Topics include clinical assessment, advanced airway management, and advanced respiratory monitoring of neonatal and pediatric patients; and mechanical ventilation and care decisions for adult as well as neonatal and pediatric patients. Additional topics include various respiratory care delivery environments, presentation of case studies, and professional development.

2 hours lecture, 12 hours laboratory.

Prerequisite(s): RTH 241, RTH 245, and RTH 251; and concurrent enrollment in RTH 243 and RTH 256.

RTH 256 - Cardiorespiratory Disorders II (3) ‡

A continuation of RTH 246. Topics include neuromuscular disorders that affect ventilation, and neoplastic and environmental lung diseases. Additional topics include assessment of the fetus and the neonate, neonatal cardiovascular disorders and congenital anomalies, neonatal cardiopulmonary disorders, and pediatric cardiopulmonary disorders.

3 hours lecture.

Prerequisite(s): RTH 241, RTH 245, and RTH 251; and concurrent enrollment in RTH 243 and RTH 255.

SLE - SERVICE LEARNING**SLE 192 - Special Topics in Service Learning (1-3)**

* indicates SUN course. ‡ indicates lab fees. ° indicates online. ~ indicates intensive writing.

All prerequisite coursework must be completed with a grade of C or better.

Students engage in a formal, community-based service learning experience and reflect on how it applies to the content of the course they are concurrently enrolled in, thereby deepening their understanding of the relationship between community and classroom learning.

Prerequisite(s): Concurrent enrollment in a course approved by the instructor.

SLE 292 - Special Topics in Service Learning II (1-3)

An advanced, community-focused service-learning experience that provides an opportunity for students to hone service and engagement skills acquired in SLE 192, to participate actively in an organized service experience and, through reflection activities, to relate those experiences to academic or occupational course content. A minimum of 25 direct service hours per credit is required in addition to periodic instructor or mentor meetings and training sessions.

Prerequisite(s): SLE 192. Recommended Preparation: Sophomore standing.

SOC - SOCIOLOGY

SOC 101 - Introduction to Sociology (3) *, °

An overview of sociology focusing on its main perspectives, theories and research methods. Areas of emphasis include culture, socialization and social institutions, social interaction, groups and organizations, social class and social stratification, deviance and crime, race and ethnicity, and gender and sexuality.

3 hours lecture.

Prerequisite(s): RDG 092 or exemption.

SOC 160 - Sociology of Race and Ethnicity (3) *, °, ~

An exploration of the social construction of race and ethnicity and how it shapes social interactions and institutions. Includes the history of race relations leading to an exploration of contemporary relations among racial groups, with emphasis on the consequences of power, privilege, and oppression.

3 hours lecture.

Prerequisite(s): ENG 101, and RDG 092 or exemption.

Recommended Preparation: SOC 101.

SOC 192 - Special Topics in Sociology (1-3)

Designed for professional development and personal enrichment through the exploration of special topics in sociology. Topics will vary according to student needs and interests.

Prerequisite(s): ENG 101 and SOC 101. Recommended Preparation: SOC 160, SOC 202, or SOC 212.

SOC 202 - Social Problems (3) *, °, ~

An exploration of social problems through the lens of traditional and current theoretical perspectives. Includes how social problems are perpetuated through social institutions such as education, government, family, health care, and the economy. Students investigate how these institutions reinforce

discrimination based on race, gender, sexual orientation, and age.

3 hours lecture.

Prerequisite(s): ENG 101, and RDG 092 or exemption.

Recommended Preparation: SOC 101.

SOC 212 - Sociology of Gender (3) °, ~

An exploration of the social construction of gender throughout history and how it has shaped current social interactions and institutions. Focus is on the sociological concepts and theories used to explore cultural explanations of gender, as well as on the biological theories of sex, gender, and sexuality. Includes an examination of gender as it intersects with race, ethnicity, social class, age, and sexual orientation; and a study of the consequences of sex and gender in the lives of men, women, and gender non-conforming individuals.

3 hours lecture.

Prerequisite(s): ENG 101, and RDG 092 or exemption.

Recommended Preparation: SOC 101.

SOC 230 - Human Sexuality (3) °

An overview of human sexuality during the life cycle, viewed from both sociological and psychological perspectives.

Includes an exploration of the biological and cultural foundations of gender and sexuality, sexual orientations and identities, intimate relationships and intimate communication, sexual behaviors, sexual dysfunctions, and social issues surrounding sexuality.

3 hours lecture.

Prerequisite(s): RDG 092 or exemption. Recommended

Preparation: ANT 102, PSY 101, or SOC 101. Cross-Listed as: PSY 231.

SPA - SPANISH

SPA 101 - Elementary Spanish I (4) *, °

An introduction to the Spanish language, its pronunciation, and its basic grammar structures. Develops the student's ability to speak, read, and write simple sentences based on personal and classroom experience, and explores a variety of topics related to Hispanic culture, history, geography, and arts.

4 hours lecture, 1 hour laboratory.

Prerequisite(s): None. Recommended Preparation: SPA 115 or previous experience in a second language.

SPA 102 - Elementary Spanish II (4) *, °

A continued study of the Spanish language, its pronunciation, and its basic grammar structures, with emphasis on more complex verb tenses and sentence structure. Further develops the student's ability to speak, read, and write simple sentences based on personal and classroom experience, and explores additional topics related to Hispanic culture, history, geography, and arts.

4 hours lecture, 1 hour laboratory.

* indicates SUN course. ‡ indicates lab fees. ° indicates online. ~ indicates intensive writing.

All prerequisite coursework must be completed with a grade of C or better.

Prerequisite(s): SPA 101, one year of high school Spanish, or permission of instructor.

SPA 115 - Conversational Spanish I (3)

A beginning conversational experience in Spanish through which students build oral proficiency while increasing their awareness of Hispanic culture.

3 hours lecture.

Prerequisite(s): None.

SPA 116 - Conversational Spanish II (3)

A beginning conversational experience in Spanish through which students continue to build oral proficiency while further increasing their awareness of Hispanic culture.

3 hours lecture.

Prerequisite(s): SPA 101, SPA 115, or permission of instructor.

SPA 201 - Intermediate Spanish I (4) *, °

A continued study of the Spanish language, its pronunciation, and its grammar structures, with emphasis on intermediate-level verb tenses and sentence structure. Further develops the student's ability to speak, read, and write even more complex sentences based on personal and interpersonal experiences, and explores additional topics related to Hispanic culture, history, geography, and arts.

4 hours lecture, 1 hour laboratory.

Prerequisite(s): SPA 102, two years of high school Spanish, or permission of instructor.

SPA 202 - Intermediate Spanish II (4) *, °

An exploration of Hispanic cultures presented through authentic literary works and audio-visual media with integrated practice in reading, writing, speaking, and understanding the Spanish language.

4 hours lecture, 1 hour laboratory.

Prerequisite(s): SPA 201, three years of high school Spanish, or permission of instructor.

SPA 215 - Conversational Spanish III (3)

An intermediate conversational experience in Spanish through which students build oral proficiency while increasing their awareness of Hispanic culture.

3 hours lecture.

Prerequisite(s): SPA 102, SPA 116, or permission of instructor.

SPA 216 - Conversational Spanish IV (3)

An intermediate conversational experience in Spanish through which students continue to build their oral proficiency while further increasing their awareness of Hispanic culture.

3 hours lecture.

Prerequisite(s): SPA 201, SPA 215, or permission of instructor.

SSV - SOCIAL SERVICES

SSV 224 - Field Experience in Social Services (1-3)

A supervised cooperative education field experience involving the combined efforts of educators and employers. Students accomplish various academic and career-related objectives in social services and related fields. Semester-long regular workplace participation and weekly contact with assigned faculty advisor are required.

Prerequisite(s): A declared major in any related field, ENG 101, and SOC 101.

THE - THEATRE ARTS

THE 101 - Acting I (3)

Introduction to theories of dramatic art and practice in acting situations. This course includes basic acting techniques, theatrical vocabulary and comportment, and character and script analysis.

3 hours lecture.

Prerequisite(s): None.

THE 103 - Introduction to Theatre (3) °

History and tradition of western theatre with analysis and discussion of representative drama, classical to contemporary.

3 hours lecture.

Prerequisite(s): None.

THE 110 - Theatre Workshop (3)

A study of the components of the theatrical process, to include acting, directing, production design, and management. Students participate in a drama in an acting or production capacity.

2 hours lecture, 4 hours rehearsal/performance.

Prerequisite(s): Audition or permission of instructor.

THE 201 - Acting II (3)

Exploration and application of advanced techniques of acting through physical and vocal expression, improvisation, and scene work. Emphasis on the actor's approach to characterization. Opportunity for experience in production.

3 hours lecture.

Prerequisite(s): THE 101.

THE 220 - Dramatic Structure (3) *

Examination of the structural elements of major dramatic forms and styles. Includes reading and viewing of representative plays and analysis of their structures in relationship to modes of presentation and the resulting effects.

3 hours lecture.

Prerequisite(s): THE 101 or permission of instructor.

UAS - UNMANNED AIRCRAFT SYSTEMS

UAS 121 - Remote Sensing and Imagery (3)

A study of the theory and operation of common sensors—visual spectrum, infrared, and synthetic aperture radar

* indicates SUN course. ‡ indicates lab fees. ° indicates online. ~ indicates intensive writing.

All prerequisite coursework must be completed with a grade of C or better.

(SAR)—used by operators of unmanned aircraft systems. Topics include equipment acquisition and characteristics, sensor limitations and restrictions, and data analysis and image interpretation.

3 hours lecture.

Prerequisite(s): None.

WLD - WELDING TECHNOLOGY

WLD 105 - Oxyacetylene Welding (3) ‡

A study of the safety practices associated with oxyacetylene cutting and welding, and a practical application of equipment setup and operation. Students perform welds on standard alloys of steel in flat, horizontal, vertical, and overhead positions. Also covers the brazing and soldering of ferrous metals.

2 hours lecture, 3 hours laboratory.

Prerequisite(s): None.

WLD 106 - Basic Shield Metal Arc Welding (3) ‡

A study of the safety practices associated with shield metal arc welding (SMAW), and a practical application of equipment setup and operation. Students use SMAW to apply various techniques of joining gauge thickness carbon steel.

2 hours lecture, 3 hours laboratory.

Prerequisite(s): None.

WLD 114 - Welding for Metal Sculpture (3) ‡

Focuses on basic welding processes and techniques used in the design and fabrication of metal sculptures. Team taught by welding and art faculty.

2 hours lecture, 3 hours laboratory.

Prerequisite(s): None.

WLD 128 - Gas Metal Arc Welding (3) ‡

An introduction to the gas metal arc welding (GMAW) process. Emphasis is on the set up and operation of GMAW equipment, and on the use of solid wire on various thicknesses of ferrous metal. Also covers precautions and safe practices in welding.

2 hours lecture, 3 hours laboratory.

Prerequisite(s): None.

WLD 202 - Welding Survey (4)

A practical application of major welding practices to include shield metal arc, gas metal arc, gas tungsten, oxyacetylene, brazing, and soldering processes. Also covers welding metallurgy, weldment design and inspection, and safety.

4 hours lecture, 1 hour laboratory.

Prerequisite(s): None.

WLD 203 - Blueprint Interpretation (3)

An introduction to the principles and procedures used to interpret structural blueprints and engineering drawings. Covers the essential concepts of blueprint formatting for

structural applications and for aircraft applications. Also covers welding symbols and their specific meanings.

3 hours lecture.

Prerequisite(s): None. Recommended Preparation: Basic mathematics skills.

WLD 209 - Gas Tungsten Arc Welding (3) ‡

A study of the safety practices associated with gas tungsten arc welding (GTAW), and a practical application of equipment setup and operation. Students use GTAW on non-ferrous metals.

2 hours lecture, 3 hours laboratory.

Prerequisite(s): WLD 105 or permission of instructor.

WLD 210 - Advanced Shield Metal Arc Welding (3) ‡

A continued study of the shield metal arc welding process. Topics include safety, equipment care and operation, and rod and current selection. Students perform out-of-position welding of heavy steel plate in open root configuration in preparation for welding pipe to API 1104 standards.

2 hours lecture, 3 hours laboratory.

Prerequisite(s): WLD 105 and WLD 106, or permission of instructor.

WLD 211 - Pipe Fitting and Welding (3) ‡

An overview of the fitting and welding of various sizes of pipe according to the standards of the American Welding Society (AWS) and the American Petroleum Institute (API). Students weld pipe using the shield metal arc welding process.

2 hours lecture, 3 hours laboratory.

Prerequisite(s): WLD 210.

WLD 212 - Advanced Shield Metal Arc Welding II (3) ‡

An advanced study of the shielded metal arc welding (SMAW) process, this course is designed to prepare students for the American Welding Society (AWS) D 1.1 Structural Steel certification test.

2 hours lecture, 3 hours laboratory.

Prerequisite(s): WLD 210.

WLD 215 - Welding Design and Fabrication (3) ‡

A study of the proper methods of welding design, layout, and fabrication. Students with demonstrated welding skills work on specific projects, using appropriate cutting and welding equipment.

2 hours lecture, 3 hours laboratory.

Prerequisite(s): MAT 132, WLD 105, WLD 106, WLD 128, and WLD 203.

WLD 217 - Pipe Layout and Fitting (3) ‡

A continuation of pipe fitting and welding. Topics include layout methods, and the fitting and welding of various sizes and types of pipe.

2 hours lecture, 3 hours laboratory.

Prerequisite(s): MAT 132 and WLD 211.

WLD 218 - Advanced GTAW - Soft Metals (3) ‡

* indicates SUN course. ‡ indicates lab fees. ° indicates online. ~ indicates intensive writing.

All prerequisite coursework must be completed with a grade of C or better.

A continuation of WLD 209 designed to develop the skills necessary to meet aerospace certification standards for aircraft. Emphasis is on advanced welding of aluminum alloys. 2 hours lecture, 3 hours laboratory. Prerequisite(s): WLD 209.

WLD 219 - Advanced GTAW - Hard Metals (3) ‡

A continuation of WLD 209 designed to develop the skills necessary to meet aerospace certification standards for aircraft. Emphasis is on advanced welding of stainless steel and 4130 chromoly steel. 2 hours lecture, 3 hours laboratory. Prerequisite(s): WLD 209.

WLD 220 - Advanced GTAW - Exotic Metals (3) ‡

A continuation of WLD 219 designed to develop skills necessary to meet aerospace certification standards for aircraft. Emphasis is on advanced welding application of titanium and Inconel alloys. 2 hours lecture, 3 hours laboratory. Prerequisite(s): WLD 219.

WLD 228 - Advanced Gas Metal Arc Welding (3) ‡

An advanced study of the gas metal arc welding process that is designed to prepare students for the American Welding Society (AWS) D1.1 Structural Steel Certification test. 2 hours lecture, 3 hours laboratory. Prerequisite(s): WLD 128.

WLD 229 - Advanced Flux-Cored Arc Welding (3) ‡

This is an advanced course in the flux-cored arc welding process which prepares the student for American Welding Society (AWS) D1.1 Structural Steel Certification. 2 hours lecture, 3 hours laboratory. Prerequisite(s): WLD 128 and WLD 228.

* indicates SUN course. ‡ indicates lab fees. ° indicates online. ~ indicates intensive writing.
All prerequisite coursework must be completed with a grade of C or better.

Administration

President

James Dale (J.D.) Rottweiler
University of Wyoming, B.A., M.A.
University of Utah, Ph.D.

Oklahoma State University, B.S., M.Ed., M.S.

INSTRUCTIONAL STAFF

Geronimo Arciniega; Instructor, Automotive Technology (2007)

Melesa Ashline; Instructor, Nursing (2013)
Cochise College, A.A.
University of Phoenix, B.S.N., M.S.N.

Celeste Atkins; Instructor, Social/Behavioral Sciences (2011)
California State University, B.A.
University of Southern California, M.A.

Shirley Bayham-Hicks; Instructor of Nursing (2018)
University of Arizona, M.S.N.
Arizona State University, B.S.N.

Amy Baker; Instructor, Adult Education Bridge Program (2016)
Knox College, B.A.
Northern Arizona University, M.A.

Dr. Rowshan Begum; Instructor, Chemistry (2014)
University of Dhaka, Bangladesh, B.S., M.S.
Nara Women's University, Japan, Ph.D.

Terri Berg; Instructor, Student Success (2017)
University of Washington, B.A.
University of Arizona M.S.

Ben Berry; Instructor, History/Political Science/Education (2017)
Northern Arizona University, B.S., M.Ed.

Tanya Biami; Instructor, English (1994)
Michigan State University, B.A., M.A.

Patricia Bigwood; Instructor, Sociology (2014)
Northern Arizona University, B.S., M.A.

Theresa Biron; Instructor, Nursing (2013)
Hampton University, B.S.N.
University of South Carolina, M.S.N.

Ronald Bosley; Instructor, Automotive Technology (2014)
Dr. Roman Briggs; Instructor, Humanities (2011)
Ouachita Technical College, A.A.
Henderson State University, B.A.
University of Arkansas, M.A., Ph.D.

Scott Brown; Instructor, Welding Technology (1998)
Paola Denisse Cañez; Instructor, English/Reading (2011)
Cochise College, A.A.
University of Arizona, B.A.E.E.
Western New Mexico University, M.A.T.

Danielle Cardella; Instructor, Culinary Arts (2015)
Culinary Institute of America, B.P.S.

Jerry Carrillo; Head Coach, Men's Basketball (1995)
University of Arizona, B.S.
University of Northridge, M.A.

Dr. Christi Charters; Instructor, Biology (2005)
California State University Fresno, B.A., M.A.
Capella University, Ph.D.

Kenneth Charters; Instructor, Biology (1998)
Kings River Community College, A.A.
California State University Fresno, B.A.
Northern Arizona University, M.S.

Alicia Chaouchi; Instructor, Adult Education Technology (2014)
University of Florida, B.A.
Hebrew University of Jerusalem, M.A.
University of Arizona, M.A.

Noelle Coats; Clinical Coordinator Respiratory Therapy (2016)
Indiana University, B.S.

Mary Cole; Instructor, Biology (2013)
Bowling Green State University, B.S., M.S.

Mary B. Coyle; Instructor, English (1998)
Fitchburg State College, B.A.
Clark University, M.A.

James Cruze; Instructor, Aviation (2016)
Cochise College, A.A.S.

Douglas Curtis; Instructor, Building Technology (2008)
Joann Deakin; Instructor, Physics/Geology (2008)
University of Nevada, B.S.
Arizona State University, M.S.
Mississippi State University, M.S.

Arleene Djordjevic; LPN Coordinator/Instructor of Nursing (2018)
Walden University, M.S.N.
Grand Canyon University, B.S.N.
Cochise College, A.D.N.
Horizon Health Care Institute, C.N.A.

Kari Durham; Instructor, Biology (2013)
University of South Florida, B.S., M.S.

Graham Eberly; Instructor, Welding Technology (2015)
Frank Emanuele; Instructor, Biology (2016)
Gannon University, B.S.
Edinboro University of Pennsylvania, M.S.

Pamela Enright; Instructor, Nursing (2016)
Cochise College, A.A., A.S.
University of Phoenix, B.S.N.
Frontier School of Midwifery and Family Nursing, M.S.N.

Margarita Fate; Instructor, Business Administration (2005)
Florissant Valley Community College, A.A.
Columbia College, B.S.
Webster University, M.A.

Alexandra Felton; Librarian (2011)
California State University, B.A.
Simmons College, M.L.I.S.

Randall Fox; Instructor, Welding Technology (2005)
Charles Frisco; Coach, Women's Soccer (2013)
Wichita State University, B.F.A., M.F.A.

Angela Garcia; Instructor, Mathematics (2011)
Cochise College, A.A.S.
University of Arizona, B.S.
Northern Arizona University, M.Ed.

Daniel Guilmette; Instructor, CIS/Security (2003)
United States Military Academy, B.S.
Naval Post Graduate School, M.S.

Bryan Homrighausen; Instructor, Student Success (2014)
Colorado Christian University, B.A.
Northern Arizona University, M.Ed.

Laura Hughes; Head Coach, Women's Basketball (2011)
Santa Clara University, B.S.
Northern Arizona University, M.S.

Alma Hunt; Instructor, Building Construction Trades (2006)
Cochise College, A.G.S.

Todd Inglehart; Head Coach, Men's Baseball (1999)
Saddleback College, A.A.
University of Wyoming, B.A., M.S.

Janell Jackson; Instructor, Nursing (2015)
Northern Arizona University, B.S.N.
Grand Canyon University, M.S.N.

Star Jermyn; Instructor, Nursing (2015)
Thomas Jefferson University, B.S.N.
University of Phoenix, M.S.N.

Patrick Jones; Instructor, Mathematics (2002)
Harvey Mudd College, B.S.
University of Washington, M.S.

Kristin Juarez; Instructor, Psychology (2016)
Baylor University, B.S.
Walden University, M.S.

Kelly Juvera; Nursing Lab Assistant/CNA Instructor (2013)
Cochise College, A.G.S., A.A.S.

Dr. Lori Keyne; Instructor, Music (2009)
Concordia College, B.A.
University of Michigan, M.M.
University of Arizona, D.M.A.

Vicky King; Instructor, Nursing (2011)
Westmar College, B.A.
University of Arizona, B.S.N.
Northern Arizona University, M.S.

James Krause; Instructor, Automotive Technology (2012)
Glendale Community College, A.A.S.

Barbara Krueger; Instructor, Mathematics (1989)
New Mexico Institute of Mining and Technology, B.S., M.S.

Derek Lane; Assistant Coach, Men's Basketball (2016)
Grand Canyon University, B.S.
Cochise College, A.S.

Dr. Cecilia Lewis; Instructor, English (2007)
Cochise College, A.A.
University of Arizona, B.A.
Middlebury College, M.A.
University of Arizona, Ph.D.

Dr. Eric Lodge; Instructor, Chemistry (2013)
University of Rochester, B.S.
University of California at Berkeley, Ph.D.

Kevin Martin; Instructor, English (2004)
Cochise College, A.A.
University of Arizona, B.A.
Utah State University, M.A.

Michael McGrath; Instructor, Professional Flight (2018)
Cochise College, A.A.S.

Mr. Michael McLain; Instructor, Cybersecurity (2016)
Chapman University, B.S.
Western International University, M.S.

Christine McVean; Instructor, Office Administration (1986)
Eastern Arizona College, A.A.
University of Arizona, B.S.

Ella Melito; Instructor, English (2016)
Northern Arizona University, M.A.
University of Arizona, B.S.

Matthew Melito; Instructor, Mathematics (2013)
Northern Arizona University, B.S., M.A., M.M.

Lora Miller; Instructor, Culinary Arts (2013)
Glendale Community College, A.A.

Elizabeth Mondeaux, Clinical Coordinator Respiratory
Therapy (2017)
Northern Arizona University, B.S.
Pima Community College, A.A.S.

Stacie Munger; Instructor, Spanish (1999)
Western Michigan University, B.A., M.A.

Jeannie Neeley; Instructor, Computer Information Systems
(2000)
North Central State College, A.A.S.
Ashland University, B.S.B.A.
University of Phoenix, M.S.

Garry Nix; Instructor, Administration of Justice (2017)
National University, M.A.
Fort Hayes State University, B.S.

Alexander O'Meara; Instructor, English (2011)
Long Island University, B.A.
University of Texas at El Paso, M.A.

Rebecca Orozco; Instructor, History (2004)
University of Arizona, B.A., M.A.

Tetima Parnprome; Librarian (2009)
University of Southern California, B.S.
Simmons College, M.L.S.

Jennifer Patton; Instructor, Computer Information Systems (1998)

Portland State University, B.S.
California State University, M.S.

Margarita Ramirez-Loya; Instructor, ESL (2010)
Universidad del Noroeste, B.A.
Arizona State University, M.Ed.

Lisa Reed; Instructor, Biology (2005)
Southern Illinois University, B.S., M.S.

Guillermo Retana; Instructor, Spanish (1994)
University of California, Riverside, B.A., M.A.

Tate Rich; Instructor, Art (2005)
Saint John's University, B.A.
California State University, M.A., M.F.A.,

Rebecca Richardson; Instructor, Biology (1991)
University of Pittsburgh, B.S.
Slippery Rock University, M.S.

Christopher Ritter; Instructor, Avionics (2010)
Cochise College, A.A.S.

Dr. Kristy Ritter; Instructor, Mathematics (2009)
Regis University, B.A., M.Ed.
University of Idaho, M.A.T.
Walden University, Ed.D.

Dr. Jana Rivers Norton; Instructor, English (2013)
Humboldt State University, B.A., M.A.
Saybrook University, Ph.D.

Steven Roark; Instructor, Mathematics (2006)
University of Arizona, B.S.
University of Nevada, M.A.T.

Kim Rogalski; Instructor, Mathematics (1988)
Northern Arizona University, B.S., M.S.

Mary Jenea Sanchez; Instructor, Digital Media Arts (2016)
Arizona State University, B.A, M.A.

Susana Sanders; Instructor, Mathematics (2002)
Purdue University, B.S., M.S.

Douglas Schlarbaum; Instructor, Constructions Trades Residential (2018)
University of Northern Colorado, B.A.

Eugene Schmall; Instructor, Professional Flight Technician (2011)

Dr. Paul Sebesta; Instructor, Agriculture (2018)
Oklahoma State University, B.S., M.S., Ph.D.

Timothy Seguin; Instructor, Administration of Justice (2015)
Saginaw Valley State University, B.A.
National University, M.S.

Mickey Sizemore; Instructor, Adult Ed Math & Science (2017)
Excelsior College, B.S.

Barbara Smith; Instructor, Computer Information Systems (1989)
Purdue University, B.S., M.S.

Curtis Smith; Instructor, Spanish/ESL (1978)
Kansas State University, B.A.
University of Arizona, M.A., M.Ed.

Douglas Smith; Instructor, Computer Information Systems (1995)
Graceland College, B.A.
Western International University, M.B.A.

Jesse Ann Smith; Instructor, American Sign Language (2017)
Cochise College A.A.
Gallaudet University, B.A.
University of Northern Colorado, M.A.

Richard Smith; Head Coach, Rodeo (2012)
James Squire; Instructor, Professional Flight (2017)
Cochise College, A.S.

Beth Suby; Instructor, Reading (2003)
Grand Canyon University, M.S.
University of Arizona, B.A.

Pamela Thompson; Instructor, ESL (1999)
Northern Arizona University, B.A., M.A.

Virginia Thompson; Instructor, Art (2012)
Hardin-Simmons University, B.S.
Rochester Institute of Technology, M.F.A.

Jay Treiber; Instructor, English (1996)
Northern Arizona University, B.S.
University of Montana, M.F.A.

Dr. Susanne Trimbath; Instructor, Business (2016)
California State East Bay, B.S.
Golden State, M.B.A.
New York University, Ph.D.

Teresa Vernon; Instructor, Nursing (2006)
Cochise College, A.A., A.A.S., A.G.S.
Western New Mexico University, B.S.

Iztac Villanueva; Instructor, Professional Flight Technician (2013)

Linda Vincent; Instructor, Nursing (2010)
Excelsior College, B.S.
Rutgers, State University of New Jersey, M.S.

Dr. Kristen Welch; Instructor, English (2014)
University of Central Oklahoma, B.A., M.A.
University of Arizona, Ph.D.

Ian Wilson; Instructor, Aviation Pathways (2017)
Cochise College, A.S.

Cindy Ziegler; Instructor, Nursing (2013)
 Lansing Business Institute, A.A.
 University of North Dakota, B.S.N.
 Grand Valley State University, M.S.N.

Disclaimers

RIGHT TO MAKE CHANGES OR CORRECT ERRORS

Cochise College reserves the right to make changes without notice in fees, faculty assignments, time schedules, courses, curricula, and policies; to cancel classes when necessary; to set maximum and minimum limits for enrollments in certain classes; and to make changes to other matters contained in this catalog.

RESPONSIBILITY FOR PERSONAL PROPERTY

Cochise College is not responsible for loss, theft or damage to individuals' personal property.

EQUAL OPPORTUNITY/STUDENTS WITH DISABILITIES POLICY

Cochise College does not discriminate in admission or access to, or treatment or employment in, its services, programs, or activities on the basis of race, color, national origin, sex, religion, age (40+) or disability, in compliance with the laws of the United States and the state of Arizona.

The college seeks to provide disabled or handicapped students with any reasonable accommodation in order to facilitate access to college classes and activities. Students seeking such an accommodation should make an official request through Student Services.

A lack of English language skills will not be a barrier to admission and participation in the career and technical (vocational) education programs of the college.

Any questions regarding the applicability of state and federal anti-discrimination laws to Cochise College and its services, programs or activities, and any grievances or claims of violation of such laws, should be directed to the Title IX and Section 504 compliance officer:

Wendy Davis, VPHR

LA POLITICA DE IGUALDAD DE OPORTUNIDADES Y LOS ESTUDIANTES CON INCAPACIDADES

En cumplimiento con las leyes de los Estados Unidos y del Estado de Arizona, Cochise College no discrimina en base a la raza, el color, la nacionalidad, el sexo, la religión, la edad (el ser mayor de 40 años) o la discapacidad de las personas en sus procesos de empleo, de admisión o al tratar de obtener los servicios, programas o las actividades que ofrece esta institución.

Cochise College trata de proporcionar un acomodo razonable a sus estudiantes incapacitados o con limitaciones físicas para facilitarles el acceso a las clases o actividades. Aquellos estudiantes que necesiten este tipo de acomodo deberán formalmente solicitarlo al departamento de Servicios para Estudiantes.

La habilidad limitada del idioma inglés no es una barrera para la admisión o la participación de las carreras técnicas y vocacionales disponibles en la institución.

Cualquier pregunta sobre la administración de las leyes sobre discriminación en Cochise College en sus servicios, programas o actividades, así mismo como cualquier queja o reclamo de violación de dichas leyes se debe dirigirse al oficial a cargo de la administración y el cumplimiento de Título IX y Sección 504
