Welcome to Cochise College

Dear Students,

I am pleased you have chosen to pursue your academic goals with us at Cochise College.

Over the past several years, student success has been a strategic initiative for us. We embrace the opportunity to empower and transform our students as they realize their dreams. As we continue to face unknown challenges in unprecedented times, our goal has become even more focused on helping our students succeed.

In classrooms at Cochise, our devoted faculty provide high-quality and hands-on instruction based on their real-world experiences. We hope you take advantage of all that Cochise College offers, whether to collaborate with other students, engage in student leadership and projects, gain hands-on experience at campus jobs and internships, or participate in college ambassador roles. Our caring staff is available to support you through every step and milestone, from academic advising and financial counseling to tutoring and library services.

We hope you enjoy your time at Cochise and we wish you the very best in your academic journey here at Cochise College.

Sincerely,

J.D. Rottweiler, Ph.D.
President

Cochise College is an equal-opportunity, affirmative-action employer and educational institution committed to excellence through diversity.
College Locations

Benson Center
1025 State Route 90
Benson, AZ 85602-6501
(520) 586-1981
Benson Center Web Page - www.cochise.edu/benson-center/

The Benson Center is a 13,000-square-foot facility that includes classrooms, computer labs, a learning center and interactive television capabilities. For-credit, developmental, and personal interest classes are offered in the day and evening. Full-time staff assists students with admissions, registration, placement testing and financial aid.

Douglas Campus
4190 West Highway 80
Douglas, AZ 85607-6190
(520) 364-7943
Douglas Campus Web Page - www.cochise.edu/douglas-campus/

The Douglas Campus is located in a scenic area between Douglas and Bisbee and serves approximately 1,000 students each semester with a diverse curriculum of general education, transfer and direct employment programs, and adult education classes. The campus includes residence halls, an on-campus airport and athletic facilities.

Downtown Center
2600 East Wilcox Drive
Sierra Vista, AZ 85635
(520) 515-0500
Downtown Center Web Page - www.cochise.edu/downtown-center/

In 2016, Cochise College began offering classes in a new facility in downtown Sierra Vista. The Downtown Center offers degrees and certificates in nursing and health sciences, online, culinary arts and electronics technology. The center also provides continuing education classes and entrepreneurial advising through the Center for Lifelong Learning and Small Business Development Center.

Fort Huachuca
Army Education Center
Building 52104
Fort Huachuca, AZ 85613-6000
(520) 533-2391
Fort Huachuca Center Web Page - www.cochise.edu/ft-huachuca-center/

The Cochise College office on Fort Huachuca (Building 52104) provides advising and student services to military students and their families as well as civilians who can access Fort Huachuca. Classes are usually offered in eight-week sessions and meet in the classrooms at the Fort Huachuca Center (Building 67601).

Sierra Vista Campus
901 North Colombo Avenue
Sierra Vista, AZ 85635-2317
(520) 515-0500
Sierra Vista Campus Web Page - www.cochise.edu/contact/sierra-vista-campus/

The Sierra Vista Campus is located at the eastern edge of Sierra Vista, approximately one mile northeast of the junction of state highways 90 and 92. The Sierra Vista Campus serves about 2,000 students each semester with a diverse curriculum of general education, transfer and direct employment programs, and adult education classes.

Willcox Center
470 N. Bisbee Ave.
Willcox, AZ 85643-1500
(520) 384-4502
Willcox Center Web Page - www.cochise.edu/willcox/

The Willcox Center is located on Willcox Unified School District property near the community high school. The center, serving approximately 200 students with day and evening classes, opened in 2010 with several classrooms, computer and science labs, open study space, and interactive television capabilities. Full-time staff assists with admissions, registration, placement testing and financial aid.

Grades due by noon

Financial Aid:

Summer freeze date*

Summer disbursement date

Last day to accept summer financial aid applications

* Financial aid will not pay for classes added after this date.

* Holidays (no classes):

Memorial Day

Independence Day
HISTORY

Cochise College opened its doors in 1964 as one of the first community colleges in Arizona. It is located in an area rich in history and cultural diversity and has come a long way from its humble beginnings, when the administration offices were housed in the Gadsden Hotel in Douglas. From the beginning, the college has been committed to serving citizens throughout Cochise County. Cochise College is Arizona’s largest rural community college, serving approximately 15,000 students annually. The establishment of the college can be attributed to the efforts of the dedicated citizens of Cochise County, who voted in 1961 to create a community college district. A 1962 bond election resulted in the construction of the Douglas Campus, a 540-acre facility featuring unique architecture and panoramic views of the Mule and Chiricahua mountains, as well as neighboring Sonora, Mexico.

The population growth of Fort Huachuca and Sierra Vista and the increased interest in higher education created a need for a second campus in the western part of the county. The campus in Sierra Vista evolved from a handful of temporary buildings at Buena High School in the early 1970s to the full-fledged separate campus that opened its doors to classes in 1978 at its present location on North Colombo Avenue. In partnership with Fort Huachuca, Cochise College also occupies a facility on post, providing classes and support services to active military and community-based residents.

The Benson Center opened in fall 2000 in the northwestern part of Cochise County. The Wilcox Center opened in 2010 on Wilcox Unified School District property in northeastern Cochise County. These centers provide a variety of programs and services throughout the region.

The development of community-directed services has included the Center for Lifelong Learning, the Small Business Development Center, the Virtual Campus, the Correctional Education Division, Adult Education, and the Center for Economic Research. The college has increased its offering of educational programs while expanding partnerships with K-12 schools, universities and local industries.

In recent years, the college has put significant resources toward facility renewal projects across the district. On both its Douglas and Sierra Vista campuses, new construction and major renovations provide space to meet the needs of 21st-century learners and educators. In addition, the college has made major technology investments in its classrooms and support areas.

Cochise College continues its journey as a learning community. This direction focuses on teaching and learning, access and diversity, and the use of technology and innovative instruction.

ACCREDITATIONS AND CERTIFICATIONS

Cochise College is accredited by the Higher Learning Commission of the North Central Association. In 2015, the college received the maximum accreditation of 10 years; the next re-accreditation visit will be in 2025-2026. The college holds memberships in the Council of North Central Two-Year Colleges, the American Association of Community Colleges, the Hispanic Association of Colleges and Universities (HACU), and the Association of Community College Trustees.

The nursing program is accredited by the Accreditation Commission for Education in Nursing and the Arizona State Board of Nursing.

Accreditation Commission for Education in Nursing
3343 Peachtree Road NE, Suite 850
Atlanta, GA 30326
Phone: (404) 975-5000/ Fax: (404) 975-5020

The professional pilot program is certified by the Federal Aviation Administration under 14 CFR Part 141.

GOVERNANCE

The college district is governed by a five-member governing board elected from precincts in Cochise County:

Don Hudgins, Chair
United States Department of Labor
Bureau of Apprenticeship and Training, Electrical Power Lineman
National Joint Apprenticeship and Training Committee for the Electrical Industry
I.B.E.W. Local 125, Journeyman Lineman

Dennis L. Nelson, Secretary
University of Alaska, B.A.
University of Alaska Anchorage, M.A.
University of Gonzaga School of Law, J.D.

David DiPeso, Member
Cochise College, A.A.
University of Arizona, B.S.

Tim Quinn, Member
Montana State University, B.A.
Kansas State University, M.S.
National Defense University, M.S.

Jane Strain, Member
Midwestern State University, B.S.E.
Chapman University, M.Ed. Education Leadership
University of Arizona, M.Ed. Educational Psychology
U.S. Army Command Staff General College

The college is financed by legislative appropriation, a countywide tax levy and student tuition.

FOUNDATION

The Cochise College Foundation is a nonprofit organization that provides thousands of dollars in scholarships to Cochise College students each year. The foundation also works with donors who are interested in supporting specific academic programs and with capital projects. The foundation accepts monetary gifts, property, gifts-in-kind or other items of value bequeathed or donated for the benefit of the college. The Cochise College Foundation can be reached at cochise.edu/give, (520) 417-4735 or foundation@cochise.edu.

MISSION, PHILOSOPHY, VISION AND VALUES

Mission

Cochise College provides accessible educational opportunities that are responsive to a diverse population and lead to constructive citizenship, meaningful careers and lifelong learning.

Philosophy

Cochise College provides post-secondary education and educational support services to students interested in and capable of benefiting from programs of higher education. The college prepares students for a successful life beyond the college by promoting the principles of general education as set forth in the college’s general education mission statement. Students should leave Cochise College with varied learning experiences and an understanding of the diversity of life. The college makes students aware of their ethical responsibilities to the community, the environment and their fellow human beings. The college provides educational opportunities, resources and programs tailored to changing social, economic and technological needs.

Vision

Cochise College strives to be a learning community held in high esteem by members of its communities, providing high-quality learning opportunities for its citizens.

A learning community

• Places its highest priority, resources and energy on learning.
• Creates an environment and experiences, real or virtual, that encourage students to be active members of the learning community.
• Makes learning possible not only in the classroom but outside, through a myriad of activities and experiences, using any number of tools to enhance learning.
• Extends learning not only to students but to all members of the college community so that a feeling of collegiality abounds.
• Empowers students, faculty and staff to create a personally meaningful learning environment, where each accepts responsibility for contributing to the same.
Core Values

In all that we do—in teaching, learning and serving—we value quality, integrity, and diversity.

Quality: We commit to a quest for excellence and strive to achieve our highest potential.

Integrity: We base our decisions and interactions on honesty, trust, respect, responsibility, accountability, and ethical behavior.

Diversity: We respect differences between and among members of the community by embracing and encouraging the expression of ideas, opinions, and thoughts exchanged freely, respectfully, and civilly.
Getting Started

CAMPUS TOURS

Cochise College encourages new and prospective students to visit its campuses and centers. Tours for all campuses can be scheduled through the Recruiting Office by calling (520) 515-8753 or requested online at www.cochise.edu/contact/tours. The Recruiting Office arranges tours on an individual or group basis. Tours may include student leaders sharing their experiences at Cochise College and opportunities to meet faculty from various departments.

ADMISSION

Admission Criteria

Anyone who meets one of the following criteria will be admitted:

1. A graduate of a high school that is accredited by a regional accrediting association as defined by the United States Office of Education or approved by the Arizona Board of Education or the appropriate state educational agency;
2. An individual with a high school certificate of equivalency such as a GED;
3. A person 18 years or older on or before the first day of classes for which the application is made;
4. A transfer student in good standing from another college or university; or
5. A high school student with a concurrent registration form signed by the student and a parent or guardian.

Additional admission criteria are required for international, aviation, nursing, policy academy, transfer, and concurrent high school students.

Admission Procedures

Students will be admitted to Cochise College after the Admissions Office has received and approved their application for admission.

Border commuters and international students must submit an international student application and fee.

All applicants under the age of 18 must submit either an official high school transcript or GED certificate with test scores before registration is permitted. High school transcripts should be sent directly by the issuing institution to the Admissions Office. Official transcripts hand-carried by the applicant cannot be accepted if previously opened.

All applicants applying for admission to the aviation or nursing programs, those participating in athletics, or those who wish to live in the residence halls at the Douglas Campus must complete the Student Health Record: Part II. The college reserves the right to require a physical examination or immunizations when deemed necessary by a particular college instructional program.

Re-Admission

Students who have been absent from Cochise College two semesters or longer will need to re-apply for admission prior to the beginning of the semester for which they desire to enroll.

TRANSFER TO COCHISE COLLEGE

Prospective students who have attended other regionally accredited colleges and universities must have official copies of their academic records sent to the Registration Office. Accredited higher-education institutions are those that are accredited by the New England Association of Schools and Colleges, Middle States Association of Colleges and Schools, North Central Association of Colleges and Schools, Northwest Association of Schools and Colleges, Southern Association of Colleges and Schools and Western Association of Schools and Colleges.

Transfer of college- or university-level courses will be accepted from non-regionally accredited institutions that are listed in the latest edition of the Higher Education Directory, a directory of postsecondary, degree-granting institutions in the U.S. and its possessions and territories accredited by regional, national, professional and specialized agencies recognized as accrediting bodies by the U.S. Secretary of Education and by the Council for Higher Education Accreditation (CHEA). Students who are requesting an evaluation of transcripts for the purpose of seeking a Cochise College degree must have submitted an admissions application to create a student record. The following regulations govern the acceptance of academic credit from other institutions:

1. Courses accepted for transfer-in credit must have been completed with a grade of C or better.
2. Cochise College may grant academic probation to students who transfer in with an earned grade point average (GPA) below 2.0.
3. Students who have been academically dismissed from another higher education institution may not attend Cochise College for one full semester after dismissal.
4. At the discretion of the Aviation Department, a professional pilot candidate who transfers to Cochise College may receive credit for previously earned certificates and ratings if they complete at least one
Cochise College flight course resulting in a certificate or rating.

5. Grade point averages earned at other institutions are not calculated with the GPA earned at Cochise College.

6. College transcripts must be mailed directly or sent electronically by the issuing institution to the Registration Office. Official sealed transcripts hand-carried by the applicant are acceptable.

7. Evaluation and posting of credits occurs once a student has been admitted to Cochise College. Students may not request an official Cochise College transcript until they have registered for and completed at least three credits of Cochise College coursework with a grade designation of A, B, C, D, F, P or AU (audit).

ACADEMIC RENEWAL - FORGIVENESS

Academic renewal/forgiveness allows a student who previously attended Cochise College to have selected grades (D, F and/or WF) excluded from the calculation of the grade point average (GPA). A student returning to the college after an absence of at least three years and has completed 12 or more credits with a minimum GPA of 2.00 following re-enrollment is eligible to pursue academic renewal/forgiveness. Contact the Admissions & Registration Office for more information.

STUDENT IDENTIFICATION AND EMAIL

Identification Number

Disclosure of social security numbers to Cochise College is voluntary and not required by either statute or regulation; however, social security numbers will aid in matching current and future academic records with any past records, ensuring that full credit is received for all academic work completed at Cochise College. If students decline to provide their social security number, opportunities for claiming tuition on taxes will not be available through the American Opportunity and Lifetime Learning Credits (Form 8863). Students, faculty, and staff are assigned individual identification numbers—not identical to their social security numbers—during the admission and/or hiring processes. The student identification number, which is sent by mail and email to new students, is used to obtain most services provided by the college; however, a student's social security number may still be required for some services, such as financial aid and reporting education tax credit information to the federal government.

Email

Cochise College’s email system is recognized as an official mode of communication between the college’s faculty, staff, and students. Email accounts are free and provide a way to receive college news and other notifications. Login at my.cochise.edu to access a college email account.

ADMISSION OF INTERNATIONAL STUDENTS

Steps to Apply

International students are persons who are not citizens or residents of the United States of America who enter the US for the purpose of studying at a US educational facility. International students require a student visa to enter the US for the purpose of studying. The following must be submitted 60 days prior to the start of the semester in which the applicant plans to enroll:

1. Complete international application for admission online at www.cochise.edu/international
2. A non-refundable $75.00 application fee
3. A copy of the identification page of the passport
4. The Financial Guarantee Form providing proof of funding for one academic year for college and living expenses.
5. College transcripts, certified and translated to English

Mail transcript(s) to:

International Student Office
COCHISE COLLEGE
4190 W. Highway 80
Douglas, AZ 85607

6. International transfer students: Provide all items listed above and also items listed below.
   a. International students transferring from a college or university within the United States are required to inform their current institution the intent to transfer to Cochise College and submit a Transfer Authorization form
   b. A copy of current F-1 student visa and I-20 issued from a U.S. educational institution

7. Student health record
8. Proof of U.S. medical/accident insurance or purchase insurance upon arrival at Cochise College
9. Complete and submit online Housing application with $150 USD deposit

Border Commuter Students

Border commuter students from Mexico are permitted to attend Cochise College part time or full time. These students must apply for an F-1 student visa 120 days prior to attending. The Form I-20 will be issued to students once the following documents have been submitted to the International Student Office:

1. Complete international application for admissions online at www.cochise.edu/international
2. A non-refundable $20.00 application fee
3. A copy of the identification page of the passport
4. The Financial Guarantee Form providing proof of funding for one academic year for college and living expenses
   • Full-time students $3,204.00 USD
• Part-time $2,112.00 USD
5. Official high school transcripts, or certificate or diploma, with English translation
6. Student Health Record
7. Sonora Agreement form (if applicable)

Information on obtaining an F-1 international packet is available at www.cochise.edu/sonora or www.cochise.edu/international or from the International Student Office at (520) 417-4050 or (800) 966-7943.

Additional Requirements
International students must attend fall and spring semesters and take at least 12 credits hours each semester. International students are not permitted to enter the U.S. until 30 days prior to their start of date on their SEVIS Form I-20. All international students are required to meet with a Designated School Official (DSO) immediately after arriving on campus to receive individual guidance. The DSO gives assistance to students in meeting U.S. Immigration and Customs Enforcement requirements concerning visas, passports, permits, permission to work, and related matters. Students are also assisted in making academic, social, and environmental adjustments to campus and community life.

International students must carry medical insurance while studying and living in the U.S.

OFFICE OF DISABILITY SERVICES
Cochise College fully recognizes all provisions of the Americans with Disabilities Act and Section 504 of the Rehabilitation Act of 1973, which require colleges to make reasonable modifications to their policies, practices, and procedures so that individuals with disabilities can have access to all the goods, services, and opportunities offered by the college. The Office of Disability Services at Cochise College provides a variety of support services to meet the individual needs of faculty, staff and students with documented disabilities. Upon request, reasonable accommodations will be made for eligible individuals.

To be eligible to receive an accommodation from Disability Services, a student must be enrolled at Cochise College and have a mental or physical impairment that substantially limits a major life activity. The disability must be verified by appropriate documentation, which means a professional in the area of the disability must document the nature and severity of the disability. Professionals may include medical doctors, psychiatrists, psychologists, and learning specialists. An appointment must then be made with the Director of Disability Services for the student to complete the intake process necessary to request services and accommodations. Students who need accommodations for placement testing should contact the Office of Disability Services prior to testing. In addition, community members who attend functions at Cochise College campuses and centers who have a qualifying disability under the Americans with Disabilities Act may also schedule an intake appointment to discuss accommodations.

Examples of Common Accommodations Include:
• Alternative Format Material: e-text, electronic handouts, Braille
• Alternative Testing Arrangements: extended testing time, reduced-distraction testing area, use of access technology
• Access Technology: voice recognition software, text-to-speech software, magnification software,
• Classroom/Workplace Accommodations: accessible furniture, interpreters, note-taking support and preferential seating

Examples of Supporting Documentation:
• Medical Documentation from Qualified Health Care Professional
• IEP/MET/504 Plan
• Behavioral Health Reports
• Veterans Administration Determinations

To begin the welcome process please visit: www.cochise.edu/disability or call the Office of Disability Services at (520) 515-5337 and complete the Request for Accommodations Form which is located on the department webpage.

RESIDENCY REQUIREMENTS

Proposition 300 Tuition Assessment
Cochise College's registration procedure for credit classes complies with the requirements of Proposition 300. Approved by Arizona voters in November 2006, Proposition 300 requires verification of eligibility for in-state tuition rates for U.S. citizens and qualifying legal immigrants.

The law does not prevent anyone from enrolling at Cochise College. It does require that students who are not citizens or legal residents pay out-of-state tuition rates. The law further states that persons who are not citizens or legal residents are not entitled to tuition waivers, fee waivers, grants, scholarship assistance, financial aid, tuition assistance, or any type of financial assistance that is subsidized with state monies. A list of qualifying documents to verify eligibility for in-state tuition is available online at www.cochise.edu/tuition. Documentation can be returned to the Registration Office or scanned and emailed to the attention of the registrar at adm@cochise.edu or reg@cochise.edu. Call (800) 593-9567 for more information.

Each applicant shall have legal residency determined prior to the time of registration and payment of fees. It is the student's responsibility to register under the correct residence determination. Enforcement of residency requirements and
regulations are the responsibility of the Cochise College president.

Appeal of residency interpretation or judgments rendered by the college administration shall be handled through appeal channels as established by the district governing board in accordance with the Arizona Revised Statutes, which determine classification for tuition purposes.

**Definitions**

Arizona Revised Statutes (ARS 15-1801 et seq.) and Cochise College policies determine classification for tuition purposes.

- **Adult** means a person who is 18 years of age or older.
- **Armed Forces of the United States** means the Army, the Navy, the Air Force, the Marine Corps, the Coast Guard, the Commissioned Corps of the United States Public Health Services, and the National Oceanographic and Atmospheric Association. (ARS 15-1801)
- **Continuous attendance** means enrollment at an educational institution in this state as a full-time student, as such term is defined by the governing body of the educational institution, for a normal academic year since the beginning of the period for which continuous attendance is claimed. Such person need not attend summer sessions or other such intersession beyond the normal academic year in order to maintain continuous attendance. (ARS 15-1801)
- **Domicile** means a person’s true, fixed and permanent home and place of habitation. It is the place where he/she intends to remain and to which he/she expects to return when he/she leaves without intending to establish a new domicile elsewhere. (ARS 15-1801)
- **State resident** means a person who is domiciled in the State of Arizona for not less than one year or 365 days. (ARS 15-1802)
- **County resident** means a person who is domiciled in the State of Arizona for not less than one year and who has been physically present in the county for at least 50 days prior to the first day of classes of the semester. (R7-1-23)
- **Dependent** means any person (son, daughter, or legal ward) who receives more than half of his/her support for the calendar year from a parent or guardian, as documented on the federal income tax form, and who is domiciled in Arizona.
- **Alien** means a person who has been granted refugee status in accordance with all applicable laws of the United States, has met all other requirements for domicile, and who is entitled to classification as an in-state refugee student.
- **Emancipated person** means a person who is neither under a legal duty of service to his/her parent nor entitled to the support of such parent under the laws of this state. (ARS-15-1801)
- **Parent** means a person’s father or mother, or if one parent has custody, that parent. Or, if there is no surviving parent or the whereabouts of the parents are unknown, then a guardian of an unemancipated person (if there are no circumstances indicating that such guardianship was created primarily for the purpose of conferring the status of an in-state student on such unemancipated person). (ARS 15-1801)

**Residency Status**

**In-State Status**

Except as otherwise provided in this catalog, no person having a domicile elsewhere than in this state is eligible for classification as an in-state student for tuition purposes. (ARS 15-1802)

A person is not entitled to classification as an in-state student unless he/she is domiciled in this state for one year, unless he/she meets one of the following requirements:

1. His/her parent’s domicile is in this state for not less than one year and his/her parent is entitled to claim him/her as an exemption for state and federal tax purposes.
2. He/she is an employee of an employer that transferred him/her to this state for employment purposes or he/she is the spouse of such employee.
3. The domicile of an unemancipated person is that of such person’s parent. Any unemancipated person who remains in this state when such person’s parent, who had been domiciled in this state, moves from this state is entitled to classification as an in-state student until attainment of the degree for which currently enrolled, so long as such person maintains continuous enrollment.
4. A person who is a member of the armed forces of the United States stationed in this state pursuant to military orders, or who is the spouse or dependent child as defined in section 43-1001 of a person who is a member of the armed forces of the United States stationed in this state pursuant to military orders. The student, while in continuous attendance toward the degree for which currently enrolled, does not lose in-state student classification.
5. A person who is honorably discharged from the United States armed forces and provides a DD Form 214 with honorable discharge notation.
6. A person who is a member of an Indian tribe recognized by the United States Department of the Interior, whose reservation land lies in this state and extends into another state and who is a resident of the reservation.

**Proof of Residency**

Students must file a domicile affidavit with the Admissions Office verifying continuous residency in the state for a 12-month period. At least three of the following items will be used to establish proof of residency:
1. Filing of state income tax report for the previous year
2. Current registration of motor vehicle in Arizona
3. Current registration as a voter in the state
4. Arizona driver’s license issuance date
5. Graduation from an Arizona high school
6. Bank statement from an Arizona banking institution
7. Source of support (employer)
8. Dependency as indicated on federal income tax declaration for dependents.

**Concurrent Enrollment: Nonresident Tuition**

It is unlawful for any nonresident student to register concurrently in two or more public institutions of higher education in this state, including any university or community college, for a combined student credit-hour enrollment of more than six semester hours without payment of nonresident tuition at one of such institutions.

Any nonresident student desiring to enroll concurrently in two or more public institutions of higher education in this state, including any university or community college, for a combined total of more than six semester hours and who is not subject to nonresident tuition at any of such institutions shall pay the nonresident tuition at the institution of his/her choice. The amount will be equivalent to nonresident tuition at such institution for the combined total of semester hours for which the nonresident student is concurrently enrolled. (ARS 15-1807)

**ENROLLMENT VERIFICATION**

Students requesting verification of their enrollment for any purpose, such as life insurance or loan deferment, must do so in person at the Registration Office at any time after the start of a semester. Enrollment verification is free of charge and processed within 48 hours of receiving the request. The National Student Clearinghouse is Cochise College’s authorized agent for providing degree and enrollment verifications at www.degreeverify.org.

**FAMILY EDUCATIONAL RIGHTS AND PRIVACY ACT (FERPA)**

Cochise College shall not permit, without the written consent of the student, the disclosure of information from educational records—or personally identifiable information contained therein—other than directory information, to any individual, agency, or organization other than in specific situations as outlined by the Family Educational Rights and Privacy Act of 1974, its amendments and the final rule of the U.S. Department of Education. Students may withhold disclosure of any directory information by submitting written notification to the Admissions Office prior to the first day of classes each semester. Failure on the part of any student to specifically request the withholding of directory information indicates individual approval for disclosure. One exception which permits disclosure without consent is disclosure to school officials with legitimate educational interests. A school official is a person employed by Cochise College in an administrative, supervisory, academic, research, or support staff position (including law enforcement personnel and health staff); or a person or company with whom Cochise College has contracted (such as an attorney, auditor, collection agent, or official of the National Student Clearinghouse).

Cochise College designates the following items as directory information: student name, major field of study, participation in officially recognized activities and sports, dates of attendance, degrees and awards received and most recent previous school attended. The college may disclose any of those items without prior written consent, unless notified in writing to the contrary by the student in advance of any request.

Online access is available to students and confidentiality is provided through secure username/password access by logging into the My.Cochise.edu portal website. Class schedules, grades, transcripts, accounts and more are available 24/7.

Questions about your student records? Contact the Registrar by email at reg@cochise.edu or call 800-593-9567.
Money Matters

Payment of Tuition and Fees

All fees approved by the governing board are subject to change. Tuition and fee information is available from the Admissions Office, the Business Office or at www.cochise.edu/tuition.

Class schedules include specific registration and payment dates. All tuition and fees are due as the final step in the registration process. Cochise College accepts checks or credit card payments. Students may also pay online in full or set up a payment plan.

If a check is returned unpaid, students will be assessed a service fee and dropped from all classes. If tuition and fees are not paid in full on or before the due date, students will be dropped from all classes and will be prohibited from any future registration. Past due accounts may be turned over to a collection agency and students are liable for any collection or attorney fees.

If students have been approved to receive financial aid, it will be applied to their accounts. If the financial aid award does not cover the amount owed, students need to pay their remaining balance. If the financial aid is more than the amount owed, students will receive a refund.

*A special tuition agreement exists for full-time students between Cochise College and Western New Mexico University. Information is available from the Admissions Office.

**Cochise College is a member of the Western Undergraduate Exchange (WUE) program. Residents of Alaska, California, Colorado, Hawaii, Idaho, Montana, Nevada, New Mexico, North Dakota, Northern Marianas Islands, Oregon, South Dakota, Utah, Washington or Wyoming should contact the Admissions Office for eligibility.
 Fees are subject to change. The full tuition and fees schedule is at www.cochise.edu/tuition.

**ON-CAMPUS LIVING**

**Rooms**

The Douglas Campus offers students enrolled in a minimum of 12 credits the opportunity to live and learn at Cochise College. Our Residence halls include suite style (in room, shared bathrooms): Huachuca Residence Hall (single occupancy, approximately 80 residents) and Desert View Townhouses (double occupancy, approximately 100 residents). Residential students are required to purchase a meal plan. There is no Room charge for Residents enrolled in 15 or more credits for the semester. On-Campus Living amenities and benefits include: WiFi, laundry facilities, game room equipment (pool tables, ping pong), computer labs, fully furnished bedroom (bed, dresser, desk/chair), in room satellite cable services, free parking, weekend activities, close proximity to classrooms, professors, fitness center, athletic events and the Cafeteria. Payment for room and board (meal plan) is due at registration or by the last day to add classes per semester. On-campus residents must comply with all policies and procedures as they appear in the residence hall contract and the Student/Resident Handbook, as well as local, state and federal laws. The Residential Life Office can be reached at (520) 417-4062 or housing@cochise.edu. For more information please visit: www.cochise.edu/housing.

**Deposit**

- Residence hall $150*
- Laundry Facility Service Fee per semester $30

*Required. Deposit does not apply toward room and board fees and is refundable less laundry fees, any damage fees or other outstanding balances owed to the College.

**Regular Student – 17 Weeks**

- Meal plan $2,481
- Room rate $1,200

**Combined Rate**

- Meal plan and housing with 15 or more credit hours of enrollment $2,481
- Meal plan and housing with 12-14 credit hours of enrollment $3,241

**Professional Pilot – 21 Weeks**

- Meal plan $3,046
- Room rate $1,485

**Combined Rate**

- Meal plan and housing with 15 or more credit hours of enrollment $3,046
- Meal plan and housing with 12-14 credit hours of enrollment $3,873

**REFUNDS**

**Tuition and Fee Refunds**

Students must be signed up for a class the day prior to the course start date. To receive a full refund for a dropped course, it must be dropped prior to the start of the term. Students who drop a class within the first week of the term will be refunded 90 percent of their tuition. The refund can be applied to a new course added to their schedule as long as the new class has not met yet. No refund is available after the 90-percent refund window closes.

There are no refunds for classes that are instructor dropped during census reporting, FTSE or during the semester.

If a class is canceled by the college, students will receive a full refund for all tuition and fees. Refunds are issued within three weeks after the end of registration. Students may enroll in another class and apply the tuition and fees from the canceled class to a new class.

All refunds for tuition, fees, and deposits due to a student will first be applied to any amounts owed to the college. Sufficient time must be allowed for final clearance of fee payment checks before refunds are made.

**Residence Hall Refunds**

Students are eligible for a 50-percent refund of room fees if leaving residence within 21 days of the first day of classes for each semester or within 21 days of the start date of a specific program in which they are enrolled. Room fees will not be reimbursed after the 21st day as specified above.

Students withdrawing from the college may be eligible for a meal plan refund, prorated on a weekly basis, up to four weeks after the start of the 17-week term. Students who are enrolled in only a first or second eight-week term will be charged a prorated meal plan rate of 50 percent of a full 17-week meal plan. Departing eight-week-only students are eligible for refunds, prorated on a weekly basis, up to two weeks after the eight-week term begins. Any refund exceptions to this policy must be made in writing to the dean of Student Services and must contain the rationale for the request along with any documentation requested by the dean. Requests for exceptions to this policy will not be accepted by the dean after 15 working days from the departure of the student.

**Flight Program Fees Refund**

At the time of registration, students are required to have secured funding for their flight/course fees for that semester/term. We recognize that funding sources will vary on an individual basis. Students are required to complete and follow all required financial aid processes, forms and
Flight Program Refund Procedure

- If a student chooses to withdraw/drop a flight course or the program; they must complete the following in order to be considered eligible for a refund under the procedure listed below:
  - Request a meeting with either the Director or Chief Instructor(s)
  - Submit a written/signed request to drop the classes/program to the Director of Aviation
  - Any flight/course fees paid for a course the student has not begun activities in may be refunded at 100%
  - After the start of each semester/term students who withdraw/or are dropped from a class may be eligible for a refund of UNUSED flight fees upon completion of a full audit of their flight activities. See refund schedule below:
  - No refund will be granted if the refund request is made later than the last day of the next semester after the semester in which the class was taken. (Fall semester refunds must be requested no later than the end of the next fall term. Spring refund requests must be requested before the end of the next fall term. Summer session refunds must be requested before the end of the next fall term.)

<table>

</tbody>
</table>

There is no refund available after the 12th week.

NOTE: Students who drop prior to the start of the semester/term will receive a full refund of their flight/course fees.

NOTE: Tuition, housing/meal plan refunds will be honored based on the meal plan/housing and tuition refund policy of Cochise College. See these policies for details.

Federal Title IV Financial Aid Refunds

The Federal Pell Grant, Supplemental Educational Opportunity Grant (SEOG), and Federal Direct Student Loan programs are subject to this repayment provision. Students who completely withdraw before completing 60 percent of the term are subject to this policy and may owe a repayment of the unearned portion of their grant funds. Students have 45 days to return the funds to Cochise College. If repayment is not made during the 45 days, the repayment owed will be turned over to the Department of Education for collection. Once a repayment is turned over to the Department of Education, eligibility for additional federal aid is suspended until satisfactory payment arrangements are made. The Federal Pell Grant and Supplemental Educational Opportunity Grant (SEOG) programs are subject to this repayment provision. Students who have received student loan funds are responsible for completing an exit interview and for notifying their lender of the withdrawal or dropping below 6 credits. The federal work-study program is not subject to the refund policy.

The withdrawal date is the date:
- The student began the withdrawal process prescribed by the institution;
- The student otherwise provided the school with official notification of the intent to withdraw; or
- The last date the student academically participated in the course.

The percentage of the payment period or period of enrollment completed for which assistance was awarded is calculated by dividing the total number of calendar days comprising the payment period or period of enrollment for which the assistance is awarded into the number of calendar days completed in that period as of the day the student withdrew. Additional policy and regulatory information is available from the Financial Aid Office.

FINANCIAL AID, SCHOLARSHIPS AND GRANTS

Students applying for financial aid at Cochise College must be admitted into an eligible degree or certificate program of study and must meet any other eligibility requirements for each program.

Official academic transcripts are required of all transfer students. Transcripts are evaluated and restricted enrollment enforced when applicable. Students who have not met the college's academic standards (2.0 GPA and completion of 67 percent of credits attempted) at the prior institution(s) will be evaluated with the same probation and suspension standards currently in place for Cochise College students. Students who consistently have received W and F grades may be required to complete a progress appeal.

Cochise College provides access to federal, state, and institutional financial aid through the Financial Aid Office. A number of institutional and private scholarship applications are also available. Financial aid may be awarded based on financial need, academic merit, athletic ability, or community
service. The application process for most of the programs begins with completion of the Free Application for Federal Student Aid (FAFSA). Students complete the FAFSA online at www.FAFSA.gov. To assist in completing the online application, a FAFSA worksheet is available online or from the Financial Aid Office. Priority consideration for some grants is given to applications received in the Financial Aid Office by May 31.

Federal Pell Grants

A federal Pell Grant, unlike a loan, does not have to be repaid. It is restricted to undergraduate students. Eligibility is established by the federal government, and the grant is targeted to students with high need. The award adjusts to students' actual enrollment status. Students never attending a course or withdrawing from all of their courses could face repayment of all received Pell Grant monies.

Federal Direct Loans (Stafford Loans)

Low-interest student loans are available to help meet educational expenses. The loans must be repaid. Students must be enrolled in a minimum of six credit hours during a term (including eight-week terms) to be eligible. Loans can also be obtained by students who do not demonstrate a need. A student must complete loan entrance counseling, the master promissory note, and a direct loan request form before a student loan can be certified.

Work-Study Program

The work-study program offers students an opportunity to work up to 16 hours per week to assist with college expenses. Many of these jobs are career related and offer flexible work schedules. Students must be enrolled at least half time, have a minimum 2.0 GPA, and maintain Satisfactory Progress to qualify for these jobs. Work-study jobs are available both on and off campus. Information on student employment is available at our website www.cochise.edu/employment.

Veterans Affairs

The Veterans Affairs Office is located within the Financial Aid Office on the Sierra Vista Campus. Information concerning attendance, benefits, and procedures is available. All veterans are advised to maintain close contact with the college’s certifying official.

Veterans receiving VA benefits are required to immediately report to the college’s certifying official when they add a course, drop a course or withdraw from college. Dropping or reducing enrollment may result in an overpayment of benefits by the VA and veterans may be required to repay all the money received during that term.

Veterans at Cochise College may register and have their classes put on hold to allow for payment to be made by the VA or the veteran. When a veteran enrolls they must notify

Scholarships

Scholarships are offered by the Cochise College Foundation each year. These scholarships are funded by private donors. Financial need, grade point average, field of study, leadership and community service may be some of the eligibility requirements. Applications are accepted early in the spring semester for scholarships to be awarded for the following academic year. Notices of other scholarships are publicized periodically. The Cochise College Scholarship Portal application can be found at www.cochise.edu/fa.
Academic Procedures

CATALOG REQUIREMENTS

A student maintaining continuous enrollment in any public community college or public university in Arizona may graduate from Cochise College by meeting the requirements in the Cochise College Catalog in effect at the time of that student’s initial enrollment, or by meeting the requirements in any single Cochise College Catalog in effect during any subsequent academic year (fall, spring, summer) of that student’s continuous enrollment.

Continuous enrollment is defined as being enrolled during consecutive academic years in which course credit is earned. Noncredit and audited courses do not count toward continuous enrollment. For the purpose of determining a student’s catalog requirements, continuous enrollment is limited to the five academic years prior to the student’s current year of enrollment. The five-year continuous enrollment limit moves forward with the student into year six and beyond. Re-enrollment is required of any student who has not completed a course during a given academic year. In the event of re-enrollment, the student must meet the requirements of the catalog in effect at that time.

ACADEMIC CLASSIFICATION AND STATUS

Classification of Students

Freshman: Student with fewer than 32 passing college credits.
Sophomore: Student with 32 or more passing college credits.
Full-time: Student carrying 12 or more credits during a semester.
Three-quarter-time: Student carrying 9 or more but fewer than 12 credits during a semester.
Half-time: Student carrying 6 or more but fewer than 9 credits during a semester.
Less than half-time: Student carrying fewer than 6 credits during a semester.

Academic Status

Good Standing: A cumulative grade point average (GPA) of 2.0 or higher on a 4.0 scale.
Probation: After attempting 13 or more credits, a student's academic status is reviewed after each semester. A cumulative GPA below 2.0 places a student on academic probation, with the academic status noted on the student's transcript. While on probation, a student is permitted to enroll in 12 or fewer credits.
Suspension: If a student’s cumulative GPA falls below 2.0 for two consecutive terms, the student is suspended from school and the academic status noted on the student's transcript. A student suspended following the spring semester may not attend classes the following summer and fall terms. A student suspended following the fall semester may not attend classes the following spring and summer terms.

TEACHING MODALITIES

Classes taught at Cochise College may employ any one of these teaching modalities:

1. Face-to-Face (F2F): Classes that meet physically and students are required to attend regular face-to-face sessions.
2. Live Streaming Room-to-Room (LS): A class where students participate in real time either in person or through a web conferencing system. All participants are required to be physically present in a Cochise College classroom or computer center and actively participate in class activities during the scheduled class times.
3. Live Streaming Anywhere (LSA): A class where students participate in real time through a web conferencing system. Students may utilize Cochise College computer resources to participate in the class but may also be able to join the class from other locations. All participants are required to be present and actively participate in class activities during the scheduled class times.
4. Online (ONLN): Classes that require no on-site meetings. These classes may include one or two activities where the instructor and students meet in real time through a web conferencing system, but they are designed to be completed by students who do not need to be physically present. These classes may also require a proctored final examination.
5. Hybrid-Online/Face-to-Face (HF): Classes where content is delivered using both online and face-to-face modalities in approximately equal proportions.
6. Hybrid-Online/Live Streaming Room-to-Room (HLSR): Classes where content is delivered using both Online and Live Streaming Room-to-Room modalities in approximately equal proportions.
7. Hybrid-Online/Live Streaming Anywhere (HLSA): Classes where content is delivered using both Online and Live Streaming Anywhere modalities in approximately equal proportions.

In addition to the above, the following types of specialized classes may be scheduled that use one or more of the teaching modalities:
1. Modular: A class where students complete a series of online modules and demonstrate mastery at the conclusion of each module. While these classes are somewhat self-paced, students are expected to reach specific milestones during the term of the class. Modular classes use a Face-to-Face, Online or Hybrid-Online/Face-to-Face modality.

2. Collaborative: Two or more independent classes where instructors conduct joint activities; for example, a reading and sociology collaboration may have reading activities assigned from sociology books. Students must register for both classes. The two classes may be taught using any of the modalities.

3. Concurrent: Two or more classes that meet as one. For example, a basic and advanced section of a class may meet as single class and the instructor would conduct activities appropriate for both sections. These classes can be taught using any of the modalities.

4. Cooperative: A class in which a student completes work-related objectives or projects that are negotiated between the student, an employer related to the student’s field of study, and an instructor. The student regularly submits assignments and other reports to the instructor. These classes are coordinated by the cooperative education office and do not follow any particular modality.

**GRADING SYSTEMS**

The following are grade designations earned in each course and recorded on a student's permanent record.

- **A** Indicates the highest academic grade possible. It is reserved for accomplishment that is truly distinctive and demonstrably outstanding.
- **B** Denotes achievement considerably above acceptable standards and mastery of course materials.
- **C** Indicates a satisfactory degree of attainment and is the least acceptable standard for graduation from college or for additional studies within the discipline. This grade implies completion of the minimum outcomes identified in the course curriculum.
- **D** Denotes a limited understanding of the subject matter. This grade will not transfer to another institution of higher education and it is unacceptable for additional studies within the discipline.
- **F** Indicates inadequate or unsatisfactory attainment, serious deficiency in understanding of course material or failure to complete requirements of the course.
- **W** Indicates a withdrawal from the course by the designated drop date.
- **I** Indicates that, for a justifiable reason, a student failed to complete all requirements of the course. The instructor has the option of issuing an incomplete rather than an F to the Registration Office. The student must make up an incomplete during the succeeding semester to avoid an F. An incomplete grade is not computed in the student's GPA.
- **IW** Indicates that, for a justifiable reason, a student failed to complete all course requirements for the course. The instructor has the option of issuing an incomplete to withdrawal grade. The grade is typically only used by MOS students (military credentialing). It was also used during the spring 2020 term, for students effected by the COVID-19 Pandemic. The student must complete all coursework within a one-year period, or the IW will be changed by the Registrar to a withdrawal (W). An incomplete/withdrawal grade is not computed in the student’s GPA.

**AU** Indicates that a student will not receive a grade or credit. Registration and fee policies apply. Pass/fail classes may not be audited. Instructors give priority to students registering for credit, and they do not require audit students to take examinations or to hand in assignments. A student auditing a class may not change to a credit basis later than Friday of the second week of the semester. A student may change from a credit to an audit basis up to five calendar days prior to the start of finals. The drop/add procedure is used to effect such changes.

**IP** Indicates that a student's coursework is in progress at the time grades are due.

**P** Indicates C or higher work in a class taken for pass/fail.

**X** Indicates a D or failed grade in a class taken for pass/fail.

**Grade Point Average (GPA)**

Semester grades are assigned grade points as follows:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Points per credit earned</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>4</td>
</tr>
<tr>
<td>B</td>
<td>3</td>
</tr>
<tr>
<td>C</td>
<td>2</td>
</tr>
<tr>
<td>D</td>
<td>1</td>
</tr>
<tr>
<td>F</td>
<td>0</td>
</tr>
</tbody>
</table>

For example, a three-credit course with a grade of A earns 12 grade points. The total grade points accumulated are divided by the total credits attempted (excluding W, I and AU) to determine the GPA. In determining academic standing at Cochise College, the GPA of a transfer student is computed on the basis of credits attempted at Cochise College only and does not include credits and grade points earned at another college.

**Grade Reports**

Cochise College has an online student grade report system for viewing and printing grades.

**Grade Change**

A grade that has been reported to the registrar by an instructor may be changed only by the instructor issuing the grade or by the academic dean.
ACADEMIC HONORS AND HONORS DISTINCTION

President's List and Dean's List
Students who complete 12 or more credits in one 16-week semester or term at Cochise College and maintain a semester GPA of 3.9 or higher are recognized as achieving high academic honors and placed on the President's List. Students who complete 12 or more credits in one 16-week semester or term at Cochise College and maintain a semester GPA of 3.5 to 3.899 are recognized as achieving academic honors and placed on the Dean's List.

Honors Program
General Eligibility: Students may join the Honors Program after completing 12 transfer-level credits with at least a 3.5 GPA.

Honors Distinction
Students completing 16 credits of honors coursework and having a 3.5 cumulative GPA or higher earn an Honors Program Distinction seal on their Cochise College diploma, a medallion, as well as a notation on their transcripts and in the commencement program.

Transfer to University Honors Programs
Students earning the Cochise College Honors Program Distinction are often invited to join university-level honors programs upon transfer. Scholarship opportunities are also available to honors students.

ACADEMIC RESTRICTIONS

Attendance
Student attendance is a major factor in academic success. Cochise College conducts a census report on the 10th day of each semester. Students who have not attended in that time are dropped for non-attendance. Instructors are responsible for establishing specific attendance criteria for each class and communicating the criteria to students in writing during the first week of class. Instructors may drop students who exceed their limit of absences. Students who are dropped during the census or by their instructor will not receive a refund on tuition and fees. Students on college-sponsored trips may be excused; however, they are responsible for all missed assignments.

Course Repeats
A course may be repeated six times for a grade. All courses will be listed on the student's transcript with the grade received. The highest grade earned will be computed for graduation and cumulative grade point average. Students are not required to repeat a failed course unless it is a prerequisite for another course or required for graduation or transfer.

Credit Load Limitations
Maximum educational benefits accrue when students enroll for a reasonable course load. The college has established the following credit load limitations:

<table>
<thead>
<tr>
<th>Grade Level</th>
<th>Number of Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>Starting freshmen</td>
<td>19</td>
</tr>
<tr>
<td>Concurrently enrolled</td>
<td>12</td>
</tr>
</tbody>
</table>

Final Exams
Final examinations are required and serve an important purpose in the academic process. Certain courses may call for demonstration of competency with final projects requiring more than two hours of work; these projects may serve as the final examination. Such projects must necessarily begin and end before the examination period; however, these courses must meet during the scheduled examination period for review, critique or other meaningful activity. The final examination schedule is printed in the class schedule at the beginning of each semester. Students must attend all final examinations or their instructor may issue a failing grade.

Course Withdrawal
Students may withdraw from a course by logging into my.cochise.edu or by completing a drop/add form from the Registration Office. Failing to withdraw could jeopardize the receipt of any refunds and may result in an F grade.

Academic Dishonesty
Cochise College requires students to adhere to the highest level of ethical academic conduct and has no tolerance for academic dishonesty. The college may impose serious academic sanctions as a result of academic dishonesty up to and including suspension and expulsion from a specific program or from the college. A statement regarding and defining academic dishonesty must be part of every course procedure sheet.

Academic dishonesty consists of many forms of unethical academic conduct, including, but not limited to, cheating, fabrication, plagiarism, and facilitating academic dishonesty.

1. Cheating means intentionally using or attempting to use unauthorized materials, information or study aids, as well as unauthorized devices such as cell phones and other technology.

2. Fabrication means intentional falsification of any information or citation.

3. Plagiarism means intentionally or knowingly representing the words or ideas of another as one's own.

4. Facilitating academic dishonesty means intentionally or knowingly helping another to commit an act of academic dishonesty.

5. Other forms of academic dishonesty include:
   a. Submitting work to more than one instructor for credit without disclosure and approval.
b. Knowingly violating the terms of any academic sanction imposed for an earlier violation of Policy 3010.

Mandatory Advising

Cochise College recognizes that students are more successful when they have academic goals and career plans in place. Establishing mandatory advising for students in specific categories is an effort to assist students in establishing these critical milestones. The following student categories are those which will be required to seek advising before registration:

- Current high school students
- International students (F1 visa students)*
- All other students having between 0 and 14 earned college credits

These students are required to register for courses each semester through a counselor or advisor. An advising hold will be placed on student records which will be removed once the student has earned 15 college credits.

*International students must always meet with a counselor or advisor until they are graduated or leave the school.

ADDING AND DROPPING COURSES

Adding Classes

Students who wish to add classes to their schedule must register the day before the class begins.

Dropping Classes

Classes dropped after the last day of the drop/add period and up to five calendar days prior to the start of finals result in a W on the student’s transcript. After this time, instructors must assign a grade of A, B, C, D or F or an incomplete (I or IW).

Wait Listed Classes

When a student is wait listed for a class it puts them on standby for future openings in the class. If an opening becomes available the student will receive notification through their Cochise College email. The student then has 24 hours to register for the class.

NON-TRADITIONAL LEARNING

A maximum of 30 credits are allowed for non-traditional learning experiences. In addition, certain departments allow students to receive credit for earned certificates if they are enrolled in a related Cochise College certificate or degree program. Non-traditional learning credits do not count toward the college residency requirement.

Advanced Placement

The Advanced Placement (AP) program offers college-level courses and examinations to high school students. AP exams are administered in high schools by the College Board each year in May. Students who receive a score of 3, 4 or 5 on an AP subject exam may be awarded college credit. Students should consult with an advisor in the Student Development Center to confirm AP credit. Information about the AP program is available on the College Board website at www.collegeboard.org. A list of available tests and their corresponding credits is available on www.aztransfer.com.

CLEP and DSST

Cochise College accepts both College Level Examination Program (CLEP) exams and DSST exams for college credits, provided satisfactory scores are attained.

Students must have completed at least one Cochise College course before CLEP or DSST credit is granted. A list of available tests and their corresponding credits is available on www.aztransfer.com. Students cannot be awarded CLEP or DSST credit for courses taken in the same subject at the same level. Conversely, students cannot receive course credit at the same or lower level if they have already received CLEP or DSST credit. More information is available in Policy 3006.3 or at www.cochise.edu/transfer-to-cochise. Cochise College may award up to 30 credits for CLEP and DSST examinations; however, other colleges and universities are not obligated to accept these credits.

Military Service Schools and MOS

The college follows the credit recommendations of the American Council on Education (ACE) for Military Occupational Specialty (MOS) training. Colleges differ on their policies related to credit allowed for military service schools. Credit granted by Cochise College does not obligate any other college or university to accept such credit.

Evaluation and posting of credits occurs once a student has been admitted to Cochise College. Students may not request an official Cochise College transcript until they have registered for and completed at least three credits of Cochise College coursework with a grade designation of A, B, C, D, F, P or AU (audit). Credit earned for military service may not be used toward the college's 16-credit residency requirement.

DEGREE AND CERTIFICATE REQUIREMENTS

Degree Requirements

A cumulative grade point average (GPA) of 2.0 or higher is required for any associate degree: Associate of Arts, Associate of Arts in Elementary Education, Associate of Business, Associate of Science, Associate of General Studies and Associate of Applied Science. All courses must be completed with a grade of C or better. A minimum of 16 credits of any degree granted must be completed in residency at Cochise College.
Additional degree requirements are found in the Degrees and Programs (p. 34) section of this catalog.

**Bachelor’s Degree Waiver of General Education Requirements**

Students who have already earned a bachelor’s degree from a regionally accredited institution and are interested in pursuing an Associate of Applied Science (AAS) degree may use a bachelor’s degree to satisfy the general education requirements for most AAS degrees. Students should consult with an academic advisor to determine their eligibility to waive the general education requirements.

**Certificate Requirements**

A Certificate of Completion is awarded to students who complete a certificate program outlined in the Cochise College catalog. All courses must be completed with a grade of C or better. A minimum of 25 percent of the required credits must be taken in residency at Cochise College for each Certificate of Completion granted.

**Additional Associate Degrees**

Students may earn additional associate degrees at Cochise College if they complete the following for each additional degree:

- All requirements for the additional degree and
- Sixteen additional Cochise College credits not used in other Cochise College degree(s).

**GRADUATION APPLICATION PROCESS**

Graduating students must complete and submit the online graduation application at www.cochise.edu/advising/graduation. Students must notify the Student Development Center of any change of address that occurs during the application process period.

For associate degrees, students must file their application by the deadline listed in the academic calendar. Diplomas will be delayed and student names may not appear in the commencement program if students miss the deadline to file. For certificates, students must file an application at any time during the semester they are completing the requirements for their certificate.

Diplomas and Certificates of Completion are mailed after final grades are processed, and records evaluated and posted to official transcripts. Students must ensure there are no encumbrances or holds on their college account to avoid delays in distribution of their transcript, diploma or certificate. Additional copies of student credentials (Certificates or Diplomas) can be requested through the Cochise College Graduation Technician’s office for a fee. For more information contact: graduating@cochise.edu.

**TRANSCRIPTS**

A transcript is a copy of a student's permanent academic record. Transcript processing time is normally five business days after receiving the signed request form and payment. Archived transcripts (prior to 1985) may require additional processing time. Transcripts are mailed via first-class mail. Cochise College offers an expedited service for an additional fee. According to federal law, transcript requests must be submitted in writing and include the student’s signature; telephone requests are not honored. Transcript requests can be submitted online at www.GetMyTranscript.com or www.cochise.edu/transcripts or in person at the Admissions Office.

Transcript fees must be paid at the time the transcript request is submitted. Payment may be made by check payable to Cochise College, or by credit card. The college accepts Visa, MasterCard, Discover, and American Express. Transcripts are not sent to students who have an outstanding financial obligation with the college.

Unofficial transcripts are strictly copies of the computerized records on file (after 1985) in the Student Information System. Unofficial transcripts are available at MyCochise or at www.cochise.edu/cc.

**STUDENT COMPLAINTS AND GRIEVANCES**

Students who have complaints, grievances or personal concerns about a Cochise College course, instructor or grade are encouraged to first discuss the problem with their instructor. Students who are still dissatisfied may contact the appropriate academic dean or director or submit a student complaint form at www.cochise.edu/feedback-complaint-form.

The Arizona State Authorization Reciprocity Agreement (SARA) Council has non-academic complaint jurisdiction for distance education classes over all SARA-approved institutions in the state, including Cochise College. Academic complaints, such as grade appeals, are not reviewed by the Arizona SARA Council and should not be submitted to that organization for review. Prior to submitting a nonacademic complaint with the Arizona SARA Council, the student must complete Cochise College’s complaint process as listed above. Nonacademic complaints may be submitted at the AZ SARA website.

**Student Complaint Log**

All complaints directed to college personnel by students are considered important and will be addressed by the respective employee, department and/or office personnel pursuant to Policy 4008.
Complaints are documented and investigated, and their resolution and/or disposition noted, with a record of such complaints maintained for no less than two years. Information about these complaints will be shared with the college’s accrediting agency, the Higher Learning Commission of the North Central Association; however, individual identities of students will be shielded without the express permission of said complainants. The complaint log is reviewed on an annual basis by the vice president for instruction/provost, who ascertains whether the complaints follow any particular pattern and whether special intervention, direction and/or staff development is needed to mitigate subsequent complaints or address institutional problems.
Services for Students

LIBRARIES

The Charles Di Peso Library on the Douglas Campus and the Andrea Cracchiolo Library on the Sierra Vista Campus house a diverse collection of books and media items, including DVDs and audiobooks, to support Cochise College curriculum and lifelong learning. Each library also has open study areas, study rooms, photocopiers, WEPA print stations, and computers with Internet access.

The online library, available at www.cochise.edu/library, provides access to magazines and scholarly journals, ebook collections, and streaming educational and documentary videos. The online library is available 24/7 to students, faculty, and staff from campus, home, and mobile devices. Cochise College librarians offer individual and group research instruction and are available to help with research in person, by phone, and by email.

BOOKSTORE

The Campus Store carries all required and recommended textbooks and supplies. New, used, and digital options for textbooks - rental and buyback available to help save! Also available are scrubs, nursing supplies and other needed course materials. The Campus Store carries supplies, technology, snacks and swag to show off Apache pride! Visit The Campus Store in the Student Union Building on the Sierra Vista Campus or shop online at www.cochiseshop.com! Tel: 520-515-5419 E-mail: cochise@bkstr.com

ACADEMIC SERVICES

Student Success Center

The Student Success Centers, located on the Douglas and Sierra Vista campuses, coordinate several key services supporting student learning: academic advising, counseling, career exploration, testing, tutoring, referrals for experiential learning and CTEPS programs. Counselors and advisors assist students in defining, planning, and achieving success by helping them develop decision-making skills and personal strengths. Students can plan their program of study, learn about work/career options, explore transfer programs, and learn about college resources.

Placement Assessment

Students entering Cochise College programs are expected to possess basic academic proficiency in English, mathematics, and reading before taking college-level courses. Those students who do not demonstrate this proficiency may need to take courses which will not necessarily count toward their degree. Lack of academic preparation is one of several factors affecting students’ ability to complete their programs in a timely fashion while maximizing the advantages of financial aid.

All new students are required to demonstrate their skill levels in English, mathematics, and reading prior to registration. This is usually done by taking the college placement assessment. Students who place at the developmental level in any of the three areas above need to improve their skills and should consult an advisor to select the right courses designed to prepare them for college-level work. These courses currently include the following:

- ENG 095, Basic Writing
- ENG 096, Intermediate Writing
- MAT 081, Beginning Algebra
- MAT 091, Intermediate Algebra
- RDG 020, Basic Reading
- RDG 092, College Reading

The above developmental courses all count toward meeting full-time status for financial aid purposes but any course numbered 099 and below cannot be used to meet graduation requirements. Any student registering in his or her first developmental course(s) must enroll concurrently in CPD 150, Student Success Strategies, and complete it successfully.

ACCUPLACER

Applicants to Cochise College are required to complete the ACCUPLACER placement assessment or submit ACCUPLACER, ACT, SAT or GED College Ready scores which are no more than three years old before registering for any courses that have academic skills prerequisites. Transferred scores must come directly from the institution previously attended or from the testing agency. Normally, students must complete placement assessments in English, mathematics, and reading after which they meet with an advisor prior to registering in any course with an English, mathematics, and/or reading prerequisite. However, this placement testing may be waived for students who provide a transcript or diploma showing completion of an accredited associate or higher degree, or for transfer students whose official transcripts show completed coursework in a corresponding subject with a grade of C or better.
Developmental Course Sequencing toward College Level

English pathway
ENG 095 > ENG 096 > ENG 101

Mathematics pathways
Most AAS degrees: MAT 081 > MAT 132
Most AA degrees: MAT 081 > MAT 142
ABUS degrees: MAT 081 > MAT 142 > MAT 151, MAT 154, MAT 156, or MAT 167 > MAT 212
Most AS degrees: MAT 091 > MAT 151, MAT 182, or MAT 187 > MAT 220 > MAT 231 > MAT 241, MAT 252, or MAT 262

Reading pathway
RDG 020 > RDG 092 > Reading Exemt

Typical English, Mathematics, and Reading Program Requirements

English requirement
AA, AAEE, AAS, ABUS, AGS, AS: ENG 101 and ENG 102

Mathematics requirement
AA and AAEE: MAT 142 or higher
AAS: MAT 132 or MAT 142 or higher
ABUS: MAT 212 or MAT 220
AGS: MAT 132 or higher
AS: MAT 220 or higher

Reading requirement
AA, AAEE, ABUS, AS, AGS, AAS: RDG 092 or exemption

Tutoring
Cochise College provides free tutoring in a number of academic areas. Professionals, para-professionals, and peer tutors work with students individually and in small groups to support them as they sharpen their academic skills. Staff members at the Tutoring and Learning Centers help students prepare for tests, understand mathematical concepts, generate ideas for essays, work through the writing process, conduct research, build confidence, and more. Tutoring services are also available online. More information is available at www.cochise.edu/tutoring.

Career Technical Education Programs (CTEPS)
CTEPS offers a variety of support services to students enrolled in career and technical education programs, including academic advising, advocacy, career exploration, and financial assistance. More information is available at www.cochise.edu/cteps.

TRiO Student Support Services
The TRiO program helps students overcome class, social, and cultural barriers to their college education. To qualify, a student must be enrolled or accepted for full-time enrollment at Cochise College, be a U.S. citizen or legal permanent resident, demonstrate a need for academic support, and meet at least one of the following criteria:
- First-generation college student (parents or guardian did not receive a bachelor’s degree);
- Low-income student as established by the Department of Education; or
- Learning or physically disabled student registered with the Office of Disability Services.

More information is available at www.cochise.edu/trio or at the TRiO Student Support Services Office on the Douglas Campus.

Cooperative Education
Cooperative education is required in some academic programs. This requirement consists of experiential learning under the direction of a faculty member and the appropriate department. Refer to the program of study academic map indicating cooperative education credits are required. Further guidance will be provided by the department overseeing the academic program.

STUDENT ACTIVITIES
Extracurricular activities include community service, civic engagement, and campus events. Student government and various clubs plan activities that promote leadership and social development. More information is available at www.cochise.edu/events.

Student Government
Student Government Association (SGA) is established on both the Douglas and Sierra Vista campuses. At each campus, SGA is comprised of six appointed officers: president, vice-president, secretary, treasurer, student programming coordinator, and public relations coordinator, who are selected based on an application process each spring. Student government plans, coordinates, and promotes student activities. More information is available at www.cochise.edu/sga.

Clubs and Organizations
Many campus events are the result of student clubs and organizations, which are governed by the Student Government Association. For more information on existing clubs or how to start a new club, visit www.cochise.edu/clubs.

Athletics
Student athletic programs reside on the Douglas Campus. Athletes compete in men's baseball, men’s and women’s basketball, men’s and women’s rodeo, and women’s soccer. Cochise College is a Division I National Junior College Athletic Association school and a member of the National Intercollegiate Rodeo Association. The school colors are red and white, and the mascot is the Apaches.
OTHER EDUCATIONAL SERVICES

Learning Communities

Learning communities use collaborative teaching to bring together different academic disciplines and teach students how these areas are related. Instructors from different academic disciplines restructure their curriculum thematically to foster community, coherence and connections among disciplines. Learning communities increase student engagement, motivation and intellectual development.

Dual Enrollment

High school students taking certain academic and/or career and technical education classes in high school can earn college credit. These courses count for credit at both the high school and at Cochise College. A list of courses that meet dual enrollment guidelines is available from high school counselors or the Cochise College dual enrollment coordinator. Information is available at https://www.cochise.edu/k12/dual-enrollment/.

Adult Education

Cochise College Adult Education helps adult learners acquire the skills and knowledge necessary to enter the workforce or post-secondary education. Our focus areas are academics, technology, and communication in job and college contexts. Classes provide instruction for:

- Foundational skill building (reading, writing, math)
- High school equivalency test preparation (GED® Test prep)
- English language acquisition for nonnative speakers

Classes are held at Cochise College locations in Sierra Vista, Douglas, Benson, and Willcox. Fees are based on household income on a sliding scale. For more information visit www.cochise.edu/adulteducation/.

English as a Second Language (ESL)

The mission of English as a Second Language (ESL) courses at Cochise College is to provide students with high-quality language instruction and cultural skills necessary for success in their academic, professional, civic, and personal lives. In ESL courses, students develop speaking, listening, reading, grammar and writing skills that enable them to transition to remedial and regular academic programs at the college. ESL Levels I, II, and III consist of skill-building courses which prepare students for the transition into developmental coursework. ESL I courses are prerequisite to ESL II courses, and ESL III courses are prerequisite to ESL IV courses. ESL Level IV consists of additional ESL support courses along with developmental courses in ENG and RDG, or college-level courses in ENG and RDG, appropriate to the individual student. ESL III courses are prerequisites to ESL IV and/or the remedial or college level courses. Students in Level IV may also enroll in any course which pertains to their degree plan and for which they meet the established prerequisites. Upon completion of ESL and developmental coursework, students are prepared to advance into the academic courses of their choice.

Students are placed into ESL courses based on their scores on the ACCUPLACER ESL Placement Test. Instructor evaluation, self-identification and/or advisor recommendation will be considered in addition to ACCUPLACER ESL Placement Test scores.

POLICIES

Title IX

Cochise College prohibits any discrimination as defined by Title IX of the Education Amendments of 1972 to include, but not limited to, gender based discrimination, sexual harassment, sexual misconduct, and sexual violence. Such acts can interfere with a student’s ability to participate in or benefit from the college’s academic and non-academic programs, an employee’s ability to function in the workplace, or a campus visitor’s ability to utilize the college. Accordingly, these behaviors are strictly prohibited.

Cochise College Administrative Policy 5009 Title IX Compliance describes the college’s policy and procedures in detail. In an effort to ensure broad scale awareness of students’ rights and responsibilities under Title IX Compliance, the college conducts training for students, required to be taken within the first six months following initial registration. Students shall receive two notices to complete the training within the six month period. Failure to complete the required training shall result in the student being unable to register for classes following the six month period until the training has been completed.

Questions regarding Title IX or the college’s policies should be directed to the Title IX Coordinator at 520-515-3623 or the Dean of Students/Title IX Deputy Coordinator/Investigator at 520-417-4050.

Campus Crime Report

According to federal statute and regulations, colleges and universities are required to prepare and distribute each year an annual security report. The Campus SaVE Act details those reporting requirements. Within the report, colleges must set forth their policies on crime prevention and sex offenses and give statistics on the number of crimes reported on campus. Other reported crimes include the number of arrests for liquor law and drug violations and weapons possessions. The crime report is updated each September; the drug and alcohol free workplace report is updated each April. The reports may be reviewed at www.cochise.edu/securityemergency.
Under the Violence Against Women Act (VAWA, 1994), colleges are required to provide “primary prevention and awareness programs” for all incoming students, as well as ongoing prevention and awareness campaigns. Information is available from the vice president for Human Resources or the dean of Student Services.

**Alcohol- and Drug-Free Workplace**

Cochise College is committed to the prevention of alcohol and drug abuse, recognizing that the abuse of alcohol or other drugs poses serious risks to a person's health. Cochise College conforms with and supports all federal, state, and local laws, and regulations that prohibit the unlawful manufacture, distribution, dispensation, possession, or use of alcohol or any prohibited or controlled substance at any college location. Students registered at Cochise College assume an obligation to conduct themselves in a manner compatible with the college's function as an educational institution and are expected to exercise personal responsibility and make informed choices concerning the use and misuse of alcohol and illicit drugs.

Cochise College will impose disciplinary sanctions that include, but are not limited to, verbal or written reprimands, disciplinary probation, removal from classes, suspension, expulsion, or possible referral to local, state, or federal law enforcement agencies, for any unlawful on-campus manufacture, distribution, use, or possession of alcohol or any prohibited controlled substance.

**Smoking**

Smoking is not permitted in any building or classroom at Cochise College. Designated smoking areas may be used outside of buildings on each campus and at each center. Information on designated smoking areas can be obtained from campus security or the dean of Student Services.

**Sexual Harassment**

Cochise College expressly forbids sexual harassment and discrimination of its employees and students by supervisors, other employees and students, and the general public. Behaviors considered to be sexual harassment include the following: unwanted physical touching (beyond normal greeting); sexual molesting; verbal insults; and sexually explicit suggestions or rumors designed to cause emotional distress, place an individual in bad light, substantially interfere with an individual's work or study performance, or create an intimidating, hostile, and offensive work or study environment.

Any persons who believe that they have been victims of sexual harassment may make a formal complaint to an immediate supervisor, the vice president for Human Resources, or the dean of Student Services. All such complaints are treated in a confidential manner and are investigated thoroughly and promptly. If the complaints are not resolved, persons believing themselves victimized by such alleged sexual harassment are free to pursue other administrative or judicial remedies available, including the pursuit of their rights under Title IX of the Education Amendments of 1972, through the vice president for Human Resources and affirmative action or the dean of Student Services.

**Teach-Out Process for a Deleted Program**

Almost any deleted program will have some students that are still in some stage of active pursuit of the program credential. These students must be offered an opportunity to complete the credential. This requires the submission of a good faith teach-out plan for any deleted program. This plan will need to be submitted to the Higher Learning Commission and any other accreditation bodies. This plan should include the following elements:

- a. reasonable timeline for the anticipated closure
- b. process to equitably obtain individual student's interest and intent regarding completion options
- c. method(s) for notifying students of the upcoming closure including reasons for the discontinuance of the program
- d. plan for ensuring course offerings priced at the current tuition schedule to enable student completion will be provided
- e. process for advising students on the best path for each individual student's completion
- f. timeline for removal of the program from college publications, accreditation listings and department of education approval lists

The college may choose to offer students a teach-out plan that involves an agreement with another institution that will teach-out the students.

**Responsibilities of Students Involved in a Teach-Out**

The college will assist students desiring to transfer to another institution. Once a student has transferred, they will no longer be involved in the teach-out.

Students who fall out of sequence in the program as a result of course failure may retake the course only if it continues to be offered at the college. The student may seek approval from the relevant dean to establish a substitution course or an equivalent from another institution.

Students who fail to make satisfactory academic progress and are dismissed from the program will lose their right to be involved in the teach-out.
Students are expected to take courses as they are offered according to the teach-out plan. Failure of students to take required courses when offered does not obligate the college to offer the courses again.

**Veterans Administration Compliance**

Cochise College is committed to complying with the Veterans Benefits and Transition Act of 2018, and satisfying Title 38 US Code, Section 3679(e) School Compliance.

*Procedure: 4019.1 Completion of 3679(e) School Compliance Form*

The College president or designee shall complete the required forms, attesting compliance with the requirements of Title 38 United States Code, Section 3679(e). This policy will appear in the official College catalog.

*Procedure: 4019.2 Covered Individuals*

A covered individual is any individual who is entitled to educational assistance under chapter 31, Vocational Rehabilitation and Employment, or chapter 33, Post-9/11 GI Bill® benefits.

*Procedure: 4019.3 Compliance Protecting Covered Individuals*

The College shall not impose any penalty, including the assessment of late fees, the denial of access to classes, libraries, or other institutional facilities, or the requirement that a covered individual borrow additional funds, on any covered individual because of the individual’s inability to meet his or her financial obligations to the institution due to the delayed disbursement of funding from the Veteran’s Affairs (VA) under chapter 31 or 33. Any covered individual who participates in the course of education during the period beginning on the date on which the individual provides to the educational institution a certificate of eligibility for entitlement to educational assistance under chapter 31 and 33 (a “certificate of eligibility” can also include a “Statement of Benefits” obtained from the Department of VA website – eBenefits, or VAF 28-1905 form for chapter 31 authorization purposes) and ending on the earlier of the following dates: 1. The date on which payment from VA is made to the institution 2. 90 days after the date the institution certified tuition and fees following the receipt of the certificate of eligibility AdCab Approved 06/26/19
Degrees and Programs

COCHISE COLLEGE GENERAL EDUCATION

Mission

General education at Cochise College creates opportunities for students to build the foundation of knowledge and skills necessary for lifelong success. It helps them enrich their quality of life by encouraging habits of mind that enable them to understand and value the world they live in and to contribute to its well-being.

Values

Through its general education curriculum, Cochise College strives to instill into the learning process a sense of interconnectedness and wholeness. We value learning as an ongoing process. We value effective communication; aesthetic investigation, innovative solutions, and creative self-expression; critical thinking in problem solving; awareness of and respect for diversity; appropriate evaluation and application of information; and technological skills in information management and presentation. We believe these values lead to ethical, responsible social behavior. Our values are reflected in our general education outcomes.

Outcomes

Students fulfill general education requirements at Cochise College by demonstrating competency in the following: communication, creativity, critical thinking, diverse and global perspectives, information literacy, and technology literacy. These outcomes clearly state the expected knowledge, skills, attitudes, competencies, and habits of mind that students are expected to have acquired at the college upon completion of a degree.

- **Communication**: Students, using writing and speaking skills, individually and collaboratively, discover, organize, and communicate information, ideas, and arguments in a clear and effective manner appropriate to the audience and purpose.

- **Creativity**: Students perform one or more of the following: analyze, evaluate, and reflect on aesthetic experiences; propose innovative solutions to technical, scientific, social, or individual problems; produce artifacts of self-expression.

- **Critical Thinking**: Students employ logical, analytical, analogical, and reflective reasoning in combination with scientific, mathematical, humanistic, or artistic inquiry to solve problems effectively.

- **Diverse and Global Perspectives**: Students demonstrate an understanding of the diversity of human experience and the interdependent roles of historical, cultural, socio-economic, geographic, and ecological influences on this experience.

- **Information Literacy**: Students recognize that information is needed, and they use both traditional and modern technologies to effectively locate, evaluate, and apply the needed information.

- **Technology Literacy**: Students apply technological skills and processes to effectively acquire, manage, and present information.

Cochise College is committed to continuous improvement of its students’ learning. The learning improvement process provides evidence of how well the college is meeting its objectives, helps identify areas of improvement, and allows improvements to be implemented. This is achieved by investigating current levels of learning, experimenting with ways to improve learning, and using the experimentation results to integrate successful strategies and actions for improving student learning into the college’s curriculum or procedures.

TRANSFER DEGREES

Arizona Transfer

Cochise College offers the first two years of a four-year program for students who wish to earn a bachelor’s degree. Transfer degree programs include the Associate of Arts (AA) for liberal arts, social science, and fine arts majors; Associate of Arts Elementary Education (AAEE); Associate of Business (ABUS) for business administration and computer information systems majors; and Associate of Science (AS) for natural, physical, and life science majors. These degrees are designed to transfer to all Arizona public universities. A student can enter the university as a junior after completing one of these associate degrees. Although these degrees are designed for transfer to all Arizona public universities, not all Arizona public universities offer majors in all areas. Students should consult with an advisor in the Student Development Center to ensure that their chosen university offers a degree in their area of study and that they select the most appropriate courses for this degree.

A statewide agreement between Arizona public community colleges and universities guarantees students two ways to transfer: (1) earning an associate degree or (2) completing a general education block called the Arizona General Education Curriculum (AGEC). The AGEC block fulfills the lower-division general education requirements at all Arizona public community colleges and universities. For most majors, Cochise College recommends students transfer after having
completed an AGEC or associate degree to ensure a seamless process.

Information on transfer to one of the three state universities—Arizona State University (ASU), Northern Arizona University (NAU), or the University of Arizona (U of A)—is available online at www.aztransfer.com. The AZTransfer website provides information regarding policies and procedures for transferring credits from community colleges to the public universities in the state of Arizona. Students can see how their coursework will transfer to Arizona’s public universities by visiting the website of the Arizona Course Equivalency Guide (CEG) at http://aztransmac2.asu.edu/cgi-bin/WebObjects/CEG. In addition, the Shared Unique Number (SUN) System helps students identify courses that will directly transfer among Arizona’s community colleges and three public universities. Using the SUN System, students can easily search for and enroll in courses that offer direct equivalency at other Arizona colleges and universities. Information is available online at www.aztransfer.com/sun. Cochise College also has some specific transfer agreements with each of these universities. Students should consult with an advisor for more detailed information on these options.

Private Transfer Agreements
Cochise College also has private articulation agreements with the following institutions. Students can check the websites or consult with a Cochise College advisor.

OTHER ASSOCIATE DEGREES
Students should consult with an advisor in the Student Development Center concerning specific requirements and transfer options available for these degrees.

Associate of General Studies (AGS) Degrees - While not designed primarily for transfer, AGS degrees offer flexibility for the student who may wish to transfer to an out-of-state institution by including general education requirements. The student may also choose to complete an AGEC block to enhance possible transfer to an in-state institution.

Associate of Applied Science (AAS) Degrees - An extensive selection of AAS degree programs is available to students to prepare for employment in a specific career. In some cases, the programs are linked to agreements enabling a student with an AAS degree to transfer to an Arizona university without loss of credit. For more information, students should speak with an advisor or visit www.aztransfer.com/associates_degrees/aas_bas.

COCHISE COLLEGE GENERAL EDUCATION COURSES - TRANSFER DEGREES

Arizona General Education Curriculum (AGEC)
Arizona public community colleges and universities have agreed upon a common structure for transfer of general education curriculum. The Arizona General Education Curriculum (AGEC) block fulfills the lower-division general education requirements at all Arizona public community colleges and universities. Arizona residents who complete only an AGEC need to have a minimum cumulative grade point average of 2.5 and a grade of C or better in each AGEC course for assured admission into an Arizona public university, while Arizona residents who complete an associate degree need to have a minimum cumulative grade point average of 2.0 for assured admission.

The AGEC block at Cochise College consists of 35-39 credits. The three types of AGECs are:

- **AGEC-A** meets the general education requirements for arts and liberal arts majors in the Associate of Arts (AA) degrees and in the Associate of Arts Elementary Education (AAEE) degree.
- **AGEC-B** meets the general education requirements for business and information systems majors in the Associate of Business (ABUS) degrees.
- **AGEC-S** meets the general education requirements for math and science majors in the Associate of Science (AS) degrees.

Coursework should be chosen from the appropriate AGEC course list to meet specific degree requirements.

General education requirements are:

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Credits</th>
</tr>
</thead>

</tr>
<tr>
<td>Social and behavioral sciences</td>
<td>6</td>
</tr>
</tbody>
</table>
Placement testing is required and prerequisites may apply.

A minimum of eight credits in the AGEC component of any transfer degree must be completed in residency at Cochise College.

The following applies to all Cochise College AGEC blocks:

- All courses must be completed with a grade of C or better.
- Placement testing is required and prerequisites may apply.

DEGREE PROGRAMS

In each of the six degrees—the AA, AAEE, ABUS, AS, AGS, and AAS—only approved general education courses may be used to satisfy the general education requirements.

The AA, AAEE, ABUS, and AS degrees are designed for transfer to Arizona State University, Northern Arizona University, and the University of Arizona; however, not all three state universities offer majors in all areas. Students should consult with an advisor in the Student Development Center to ensure that their chosen university offers a degree in their area of study and that they select the most appropriate courses for their area of study. Since university requirements vary considerably, it is strongly recommended that students work closely with an academic advisor to plan their coursework.

ASSOCIATE OF ARTS DEGREE

The AA degree is recommended for liberal arts, social science, or fine arts students who plan to transfer to a university. These degrees are designed for transfer to all Arizona public universities; however, not all three state universities offer majors in all areas. Students should consult with an advisor in the Student Development Center to ensure that their chosen university offers a degree in their area of study. Cochise College has the following Associate of Arts degrees:

Administration of Justice Major Code - AJS
Computer Science Major Code - CSC
Early Childhood Care and Education Major Code - ECE
Economics Major Code - ECN
Exercise Science, Health and Physical Education, Recreation and Wellness Major Code - HPES
Fine Arts Major Code - ARTF
General Requirements Major Code - GENG
Liberal Studies Major Code - LBS
Music Major Code - MUS
Social and Behavioral Sciences Major Code - SBS
Theatre Arts Major Code - THE

GENERAL EDUCATION REQUIREMENTS, AGEC-A 35 CREDITS

Composition 6 credits
ENG 101 Composition 3
ENG 102 English Composition 3

See list of acceptable courses for transfer degrees.
Mathematics 3-5 credits
MAT 142 College Mathematics*° 3
or higher (3-5 credits)

Laboratory Sciences 8 credits
Arts 3 credits
Humanities 3 credits
Social and Behavioral Sciences 6 credits
General Education Electives 4-6 credits

General education electives must be chosen from the general education course list.

LANGUAGE REQUIREMENT 0-16 CREDITS

University non-English language requirements vary. Check the language requirement for chosen major.

CORE CURRICULUM OR ELECTIVES 9-29 CREDITS

Elective courses must be transferable to the university or universities to which the student plans to transfer.

TOTAL DEGREE REQUIREMENTS 60-64 CREDITS

DEGREE REQUIREMENTS:

- General education requirements for AA degrees consist of 35 credits. Six credits of coursework must be completed to fulfill the intensive writing requirement. The cultural and historical or global awareness requirements are satisfied by completing the arts, humanities, and social and behavioral science portion of the AGEC.
- Specific courses are required for the completion of each transfer degree program.
- All courses must be completed with a grade of C or better.
- A minimum of 16 credits of any degree granted must be completed in residency at Cochise College.
- A minimum of 8 credits in the AGEC component of any transfer degree must be completed in residency at Cochise College.
- A cumulative grade point average (GPA) of 2.0 or higher is required for any transfer degree.

ASSOCIATE OF ARTS ELEMENTARY EDUCATION DEGREE

The AAEE degree is designed for elementary education majors who plan to transfer to a four-year university. This degree is designed for transfer to all Arizona public universities. Students should consult with an advisor in the Student Development Center to ensure they are making the correct choices for their target university.

Associate of Arts Elementary Education    Major Code - EED

GENERAL EDUCATION REQUIREMENTS (AGEC-A) 35 CREDITS

Composition 6 credits
ENG 101 Composition*° 3
ENG 102 English Composition*° 3
Mathematics 3-5 credits
MAT 142 College Mathematics*° 3
or higher (3-5 credits)

Laboratory Sciences 8 credits

8 credits must be taken from two different prefixes. BIO 100, BIO 105, BIO 201, GEO 101, PHY 111, CHM 130, AST 180, and GLG 101 are recommended.

Arts 3 credits

ART 120 or MUS 260 is recommended.

Humanities 3 credits

COM 102 is highly recommended; ART 107, ART 108, and MUS 101 are also recommended.

Social and Behavioral Sciences 6 credits

POS 220, HIS 110, and HIS 111 are highly recommended. PSY 101, ECN 201 or ECN 202, and PSY 240 are also recommended.

General Education Electives 4-6 credits

General education electives must be chosen from the general education course list.

Six credits of arts, humanities, social and behavioral sciences, or general education electives must be chosen from the current listing of intensive writing courses.

See www.cochise.edu/AGEC.

LANGUAGE REQUIREMENT 0-16 CREDITS

Non-English language second- or fourth-semester proficiency. University non-English language requirements vary. Check with an advisor.

CORE CURRICULUM 18 CREDITS

Courses
EDU 201 Introduction to Education 3
EDU 222 Introduction to Special Education*° 3
EDU 226 Cultural Diversity in Education*° 3
EDU 230 Classroom Relationships*° 3
MAT 154 Mathematics for Elementary Education Majors I*° 3
MAT 156 Mathematics for Elementary Education Majors II*° 3

ELECTIVES (AS NEEDED TO COMPLETE DEGREE)

Elective courses must be transferable to the university or universities to which the student plans to transfer.

TOTAL DEGREE REQUIREMENTS 60-62 CREDITS

Credits will vary because of credits in language, mathematics, and other courses. 60-62 credits represent the minimum for this degree.

DEGREE REQUIREMENTS:

- General education requirements for the AAEE degree consist of 35 credits. Six credits of coursework must be completed to fulfill the intensive writing requirement. POS 220 is recommended to fulfill three of the six credits. The cultural and historical or global awareness requirements
are satisfied by completing the arts, humanities, and social and behavioral science portion of the AGEC.
• Specific courses are required for the completion of each transfer degree program.
• All courses must be completed with a grade of C or better.
• A minimum of 16 credits of any degree granted must be completed in residency at Cochise College.
• A minimum of 8 credits in the AGEC component of any transfer degree must be completed in residency at Cochise College.
• A cumulative grade point average (GPA) of 2.0 or higher is required for any transfer degree.

ASSOCIATE OF BUSINESS DEGREE

The ABUS degree is designed to satisfy transfer requirements for business and computer information systems majors. These degrees are designed for transfer to all Arizona public universities. Students should consult with an advisor in the Student Development Center for assistance in degree planning. Cochise College has the following Associate of Business degrees:

Business Administration  Major Code - BUSG

GENERAL EDUCATION REQUIREMENTS, AGEC-B 35 CREDITS

Composition 6 credits
ENG 101  Composition*°  3
ENG 102  English Composition*°  3

Mathematics 3-5 credits
MAT 212  Calculus for Business*°  3
OR
MAT 220  Calculus I*°  5

Laboratory Sciences 8 credits
Arts 3 credits
Humanities 3 credits
Social and Behavioral Sciences 6 credits
Technology Literacy 3 credits
CIS 120  Introduction to Information Systems*°  3

General Education Electives 1-3 credits
General education electives must be chosen from the general education course list.

CORE CURRICULUM AND ELECTIVES 25-29 CREDITS

Elective courses must be transferable to the university or universities to which the student plans to transfer.

TOTAL DEGREE REQUIREMENTS 60-64 CREDITS

DEGREE REQUIREMENTS:
• General education requirements for ABUS degrees consist of 35 credits. Six credits of coursework must be completed to fulfill the intensive writing requirement. The cultural and historical or global awareness requirements are satisfied by completing the arts, humanities, and social and behavioral science portion of the AGEC.
• Specific courses are required for the completion of each transfer degree program.
• All courses must be completed with a grade of C or better.
• A minimum of 16 credits of any degree granted must be completed in residency at Cochise College.
• A minimum of 8 credits in the AGEC component of any transfer degree must be completed in residency at Cochise College.
• A cumulative grade point average (GPA) of 2.0 or higher is required for any transfer degree.

ASSOCIATE OF SCIENCE DEGREE

The AS degree is designed for students interested in transferring to a four-year institution in the areas of natural, physical, or life sciences. These degrees are designed for transfer to all Arizona public universities; however, not all three state universities offer majors in all areas. Students should consult with an advisor in the Student Development Center to ensure that their chosen university offers a degree in their area of study. Cochise College has the following Associate of Science degrees:

Biology  Major Code - BIO
Chemistry  Major Code - CHM
Computer Science  Major Code - CSC
Engineering  Major Code - EGR
General Requirements  Major Code - GENG
Mathematics  Major Code - MAT
Physics  Major Code - PHY

GENERAL EDUCATION REQUIREMENTS, AGEC-S 35-39 CREDITS

Composition 6 credits
ENG 101  Composition*°  3
ENG 102  English Composition*°  3

Mathematics 3-5 credits
MAT 220  Calculus I*° or higher (3-5 credits)

Laboratory Sciences 8 credits
Arts 3 credits
Humanities 3 credits
Social and Behavioral Sciences 6 credits

DEGREE REQUIREMENTS:

AND
CHM 152  General Chemistry II*°  4
OR
PHY 230  Physics with Calculus I*°  4
AND
PHY 231  Physics with Calculus II*°  4
Arts 3 credits
Humanities 3 credits
Social and Behavioral Sciences 6 credits
Additional mathematics and/or laboratory sciences 6-8 credits

Based on chosen major and after consulting with an advisor, select MAT 231, MAT 241, MAT 252, MAT 262, and/or appropriate laboratory science courses. See http://aztransmac2.asu.edu/cgi-bin/WebObjects/agec for a complete list.

CORE CURRICULUM AND ELECTIVES 21-29 CREDITS

Elective courses must be transferable to the university or universities to which the student plans to transfer.

TOTAL DEGREE REQUIREMENTS 60-62 CREDITS

DEGREE REQUIREMENTS:

- General education requirements for AS degrees consist of 35-39 credits. Six credits of coursework must be completed to fulfill the intensive writing requirement. The cultural and historical or global awareness requirements are satisfied by completing the arts, humanities, and social and behavioral science portion of the AGEC.
- Specific courses are required for the completion of each transfer degree program.
- All courses must be completed with a grade of C or better.
- A minimum of 16 credits of any degree granted must be completed in residency at Cochise College.
- A minimum of 8 credits in the AGEC component of any transfer degree must be completed in residency at Cochise College.
- A cumulative grade point average (GPA) of 2.0 or higher is required for any transfer degree.

ASSOCIATE OF GENERAL STUDIES DEGREE

The AGS degree is designed for students who do not plan to transfer or who plan to transfer to an out-of-state university and want more flexibility in selecting courses. Choosing the AGS and fulfilling Arizona General Education Curriculum (AGEC) requirements will maintain an open door for transferring to an Arizona public university at a later time. The AGS degree is designed to be a general studies degree with no area of concentration. Students planning to transfer to an out-of-state university should work closely with an academic advisor in choosing their coursework. Whenever possible, working with the catalog of the out-of-state university provides the best planning tool for students.

Cochise College has the following Associate of General Studies degrees:

- Allied Health
- Aviation Dispatch
- General Studies
- Professional Pilot Technology

GENERAL EDUCATION REQUIREMENTS 35 CREDITS

Composition 6 credits
ENG 101 Composition° 3
ENG 102 English Composition° 3

Mathematics 3-5 credits
MAT 132 Applied Mathematics° or higher (3-5 credits)

Laboratory Sciences 4 credits
Arts 3 credits
Humanities 3 credits
Social and Behavioral Sciences 6 credits
Foreign Language (100 or higher) or Communications (101 or higher) 3-4 credits

General Education Electives 6-7 credits

General education electives must be chosen from the general education course list.

ELECTIVES (AS NEEDED TO COMPLETE THE DEGREE)

Elective courses may be selected from any Cochise College course at the 100 level or higher.

TOTAL DEGREE REQUIREMENTS 60-64 CREDITS
DEGREE REQUIREMENTS:
• The AGS degree requires coursework at the 100 level or higher.
• General education requirements for AGS degrees consist of a minimum of 35 credits. Six credits of coursework must be completed to fulfill the intensive writing requirement. The cultural and historical or global awareness requirements are satisfied by completing the arts, humanities, and social and behavioral science courses in the degree.
• All courses must be completed with a grade of C or better.
• A minimum of 16 credits of any degree granted must be completed in residency at Cochise College.
• A cumulative grade point average (GPA) of 2.0 or higher is required for any AGS degree.

ASSOCIATE OF APPLIED SCIENCE DEGREE
The AAS degree is most commonly used to prepare students for employment in a specific career upon graduation. Some Arizona universities have responded to the needs in particular technical fields by creating two-plus-two programs enabling a student with an AAS degree to transfer to a university without loss of credit. These degree programs may require lower-division general education courses in the junior and senior years. Students should consult with an academic advisor for information about the Bachelor of Applied Science (BAS) degrees at Arizona public universities. Cochise College has the following Associate of Applied Science degrees:

- Animal Science
- Automotive Technology
- Building Construction Technology
- Business Management
- Computer Information Systems
- Computer Programming
- Crop Science
- Culinary Arts
- Cybersecurity
- Digital Media Arts
- Early Childhood Care and Education
- Education
- Intelligence Operations Studies (p. 83)
- Law Enforcement
- Network Technology
- Nursing
- Paramedicine 71
- Professional Pilot Technology
- Residential Construction Technology
- Unmanned Aircraft Systems Technician

Welding Technology

GENERAL EDUCATION REQUIREMENTS 18-19 CREDITS
Composition 6 credits
ENG 101 Composition° 3
ENG 102 English Composition° 3
Mathematics/Laboratory Sciences 3-4 credits
MAT 132 Applied Mathematics° or higher (3-4 credits)
BIO 156 or BIO 160 will satisfy the mathematics/laboratory science requirement for the paramedicine program only.
NUR 121A and NUR 121B will satisfy the mathematics/laboratory science requirement for the nursing program only.
PSY 101 will satisfy the mathematics/laboratory science requirement for the electronics technology program only.

Liberal Arts 6 credits
Technology Literacy 3 credits
CIS 116 Computer Essentials° 3
OR
CIS 120 Introduction to Information Systems** 3

CORE CURRICULUM (SEE AREAS OF STUDY) ELEcTIVES (AS NEEDED TO COMPLETE THE DEGREE) TOTAL DEGREE REQUIREMENTS 60-64 CREDITS

DEGREE REQUIREMENTS:
• The AAS degree requires coursework at the 100 level or higher.
• General education requirements for AAS degrees consist of a minimum of 18 credits selected from the appropriate general education course list.
• All courses must be completed with a grade of C or better.
• A minimum of 16 credits of any degree granted must be completed in residency at Cochise College.
• A cumulative grade point average (GPA) of 2.0 or higher is required for any AAS degree.

GENERAL EDUCATION CERTIFICATES
The three types of AGECs are: AGEC-A for arts, AGEC-B for business, and AGEC-C for math and science. Cochise College has the following general education certificates:

- AGEC-A 35 credits
- AGEC-B 35 credits
- AGEC-C 35-39 credits

CAREER CERTIFICATES
Cochise College offers many certificates designed for direct employment. A minimum of 25 percent of the required credits used in the certificate must be completed from Cochise College for each certificate granted. All courses must be completed with a grade of C or better. Gainful employment disclosure information for financial-aid eligible
certificates includes cost, median loan debt, and normal completion time. Cochise College has the following career certificates:

Areas of Study

ARTS & HUMANITIES

Associate of Arts

FINE ARTS - ASSOCIATE OF ARTS (MAJOR CODE - ARTF)

The art program at Cochise College has been designed with three goals in mind: (1) as a source of personal growth and self-expression, (2) to fulfill general education requirements for associate or baccalaureate degrees, and (3) to successfully transfer credit to four-year institutions. Students seeking a specialized career in art should see an art instructor for advisement.

The Fine Arts Associate of Arts degree prepares students for transfer to a university program in art. To ensure seamless transfer, students must develop their specific program of study in close coordination with a Cochise College advisor.

Learning Outcomes

Students who successfully complete this program will be able to do the following:

• Demonstrate proficiency in both 2D and 3D media and processes to facilitate effective visual communication and personal expression.

• Apply critical thinking skills, the creative process, and aesthetic/perceptual literacy to solve visual, technical and conceptual problems in various media.

• Identify and understand the social, cultural, historical, and contemporary contexts that influence the creation and interpretation of art.

• Use the critique process to analyze and evaluate art and develop portfolios for transfer, career development, and/or personal enrichment.

Degree Map

GENERAL EDUCATION REQUIREMENTS (AGEC-A) 35-37 CREDITS

Composition 6 credits
ENG 101 Composition*° 3
ENG 102 English Composition*° 3

Mathematics 3-5 credits
MAT 142 College Mathematics*° or higher (3-5 credits) 3

Laboratory Sciences 8 credits
Arts 3 credits
Humanities 3 credits
Social and Behavioral Sciences 6 credits
General Education Electives 4-6 credits

General education electives must be chosen from the general education list. See www.cochise.edu/AGEC.

Six credits of arts, humanities, social and behavioral sciences, or general education electives must be chosen from the current listing of intensive writing courses. See www.cochise.edu/AGEC.

LANGUAGE REQUIREMENT 0-16 CREDITS

Non-English language second- or fourth-semester proficiency. University non-English language requirements vary. Check with an advisor.

CORE CURRICULUM 15 CREDITS

ART 103 Two-Dimensional Design and Composition*° 3
ART 106 Drawing Foundations*° 3
ART 107 Survey of World Art: Prehistoric - Gothic*° 3
ART 108 Survey of World Art: Renaissance to the Twentieth Century*° 3
ART 231 Three-Dimensional Design and Sculpture*° 3

ELECTIVES (AS NEEDED TO COMPLETE 60-62 CREDITS)

Elective courses must be transferable to the university or universities to which the student plans to transfer. See www.aztransfer.com. The Art Department recommends the following: For a two-dimensional concentration, select ART 216, ART 230, ART 245, ART 280, ART 281, ART 285, ART 286, ART 295, or ART 296; for a three-dimensional concentration, select ART 270, ART 273, ART 274, ART 275A, ART 290, ART 291, ART 293, or ART 294.

TOTAL DEGREE REQUIREMENTS 60-62 CREDITS

GENERAL REQUIREMENTS - ASSOCIATE OF ARTS (MAJOR CODE - GENG)

The General Requirements Associate of Arts degree is designed for students pursuing no specific area of emphasis who are interested in transferring to a four-year institution.

Learning Outcomes

Students who successfully complete this program will be able to do the following:

• Demonstrate competency in communication, creativity, critical thinking, diverse and global perspectives, information literacy, and technology literacy.

• Demonstrate knowledge in a variety of areas of study.

LANGUAGE REQUIREMENT 0-16 CREDITS
Non-English language second- or fourth-semester proficiency. University non-English language requirements vary. Check with an advisor.

ELECTIVES (AS NEEDED TO COMPLETE THE DEGREE)
Elective courses must be transferable to the university or universities to which the student plans to transfer. See www.aztransfer.com.

TOTAL DEGREE REQUIREMENTS 60 CREDITS

LIBERAL STUDIES - ASSOCIATE OF ARTS
(MAJOR CODE - LBS)
The Liberal Studies Associate of Arts degree prepares students for transfer to a university program in Communications, English, Humanities, Journalism, Philosophy, or related areas of study. To ensure seamless transfer, students must develop their specific program in close coordination with a Cochise College advisor and in cooperation with department faculty.

Learning Outcomes
Students who successfully complete this program will be able to do the following:
1. Understand, analyze, and articulate the major topics in the Liberal Arts including English, Communications, Humanities, Journalism, and Philosophy.

Communications Concentration:
2. Demonstrate an understanding of, analyze, and articulate basic communication skills and processes as they relate to a variety of communication situations.
3. Demonstrate an understanding of, analyze, and articulate the theories and techniques of persuasion.
4. Critically analyze oral presentations.
5. Research, construct, and deliver public speeches.

Degree Map Communications Concentration

English Concentration:
2. Analyze and critique various worldwide forms of written and visual texts, with emphasis on British and American authors.
3. Construct, according to MLA guidelines, a sustained, sophisticated, and original argument on a specialized topic by using a variety of research strategies and scholarly sources.
4. Employ writing technologies to create academic and professional writing for various audiences and purposes.

Degree Map English Concentration

Humanities Concentration:
2. Demonstrate an understanding of, analyze, and articulate the fundamentals of art, architecture, history, philosophy, music, literature, and film from ancient times to the present.
3. Demonstrate an understanding of and articulate the value of the humanities in a cultural context.

Degree Map Humanities Concentration

Journalism Concentration:
2. Demonstrate an understanding of, analyze, and articulate the basics of mass communications media.
3. Gather, write, and evaluate news and other kinds of communication in newspapers, television, radio, magazines, wire services, books, movies, computer/digital form, and other media.
4. Analyze and articulate news values, interviewing techniques, basic newspaper writing formats, and legal and ethical concerns of media, communication, and journalism professionals.
5. Demonstrate an understanding of and analyze public speaking, the fundamentals of speech as they relate to communicating with an audience, and the theories and techniques of persuasion.
6. Prepare and critically analyze oral presentations.
7. Research, construct, and deliver speeches.

Degree Map Journalism Concentration

Philosophy Concentration:
2. Identify, analyze, and articulate the history, key figures, and major branches of philosophy.
3. Conduct critical reading of selected classical and contemporary texts and analyze their connections to the individual, to society, and to other bodies of knowledge.
4. Engage in oral argumentation and write critical or analytical essays.
5. Identify, analyze, and articulate the elements of formal logic, symbolic logic, logical fallacies, induction, argument, and language.
6. Identify, analyze, and articulate the elements of moral
philosophy with emphasis on the philosophical analysis of contemporary issues.

Degree Map Philosophy Concentration

Learning Outcomes

Students who successfully complete this program will be able to do the following:

- Demonstrate an understanding of Western music theory from the Renaissance through the present day.
- Transcribe tonal and atonal passages of music into notation after hearing them.
- Sight sing musical melodies from notation on first view.
- Apply performance practices from various eras of Western art music with a chosen instrument or their voice.
- Collaborate and perform with others using a chosen instrument or one's voice.
- Perform alone using a chosen instrument or one's voice.
- Create original musical compositions.

**THEATRE ARTS - ASSOCIATE OF ARTS**

(MAJOR CODE - THE)

The Theatre Arts Associate of Arts degree prepares students for transfer to a university program in drama production, education, or theory. To ensure seamless transfer, students must develop their specific program of study in close coordination with a Cochise College advisor.

**Learning Outcomes**

Students who successfully complete this program will be able to do the following:

- Demonstrate an understanding of and analyze theories of dramatic art and practice in acting situations: basic acting techniques, theatrical vocabulary and comportment, and character and script analysis.
- Demonstrate an understanding of, analyze, and articulate the history and tradition of Western theatre and its representative drama, from classical to contemporary.
- Examine and apply advanced techniques of acting through physical and vocal expression, improvisation, and scene work, with emphasis on the actor's approach to characterization.
- Demonstrate an understanding of, analyze, and articulate the structural elements of major dramatic forms and styles.
- Review representative plays and analyze their structures in relationship to modes of presentation and the resulting effects.

**ASSOCIATE OF APPLIED SCIENCE**

**DIGITAL MEDIA ARTS - ASSOCIATE OF APPLIED SCIENCE (MAJOR CODE - DMA)**

The Digital Media Arts Associate of Applied Science degree merges fine arts and technical knowledge required for entry into a university program or design/production profession with an emphasis in digital media art. Students gain the
knowledge and skills necessary to prepare them for entry into professions such as advertising, design studio, videographer, freelance designer, or related fields.

**Learning Outcomes**

Students who successfully complete this program will be able to do the following:

- Create, manipulate, and enhance digital images and resolve image problems.
- Determine, as a member of a production team, the correct uses of the digital video camera, camera lenses, and computer equipment in portfolio preparation and video production.
- Utilizing integrated knowledge, articulate the uses of still photography, including camera, computer, lighting, lenses, and composition techniques.
- Develop the use of animation, imaging, audio production, video production, and multimedia techniques and skills.
- Demonstrate a general knowledge of the art and architecture of western civilizations from the Renaissance through the 20th century, and formation of design philosophies, art movements, and digital media technology from the late 19th century to present day.
- Analyze how societal forces, and the use of propaganda in advertising, have driven the American newspaper to its current place in mass media.

**Degree Map**

**Students currently enrolled in the Media Production Arts Associate of Applied Science degree are in a teach-out process for that program.**

- JRN 102 Essentials of News Writing* 3
- JRN 224/ENG Field Experience in Communication or Media Technology 1-6

**ELECTIVES (AS NEEDED TO COMPLETE 60 CREDITS)**

Department recommended electives include DMA 261, DMA 263, and DMA 267.

**TOTAL DEGREE REQUIREMENTS 60 CREDITS**

Note: Students pursuing a BAS degree must meet with an advisor to determine the appropriate general education and core curriculum requirements. Additional credits required in the general education block for BAS transfer may be used to fulfill core curriculum or elective requirements.

**Certificate Programs**

**AGEC-A - CERTIFICATE (MAJOR CODE - AGCA)**

The Arizona General Education Curriculum - Arts (AGEC-A) Certificate meets the general education requirements in the Associate of Arts (AA) degrees and in the Associate of Arts Elementary Education (AAEE) degree.

**Learning Outcomes**

Students who successfully complete this program will be able to do the following:

- Demonstrate competency in communication, creativity, critical thinking, diverse and global perspectives, information literacy, and technology literacy.

**Degree Map**

**GENERAL EDUCATION REQUIREMENTS 35 CREDITS**

**Composition 6 credits**
- ENG 101 Composition*° 3

Six credits of arts, humanities, social and behavioral sciences, or general education electives must be chosen from the current listing of intensive writing courses. See www.cochise.edu/AGEC. The cultural and historical or global awareness requirements are satisfied by completing the arts,
The General Studies Associate of General Studies degree is designed to provide the students with general knowledge. It contains no specific area of emphasis.

Learning Outcomes
Students who successfully complete this program will be able to do the following:

• Demonstrate competency in communication, creativity, critical thinking, diverse and global perspectives, information literacy, and technology literacy.
• Demonstrate knowledge in a variety of areas of study.

Elective courses may be selected from any Cochise College course at the 100 level or higher.

TOTAL DEGREE REQUIREMENTS 60 CREDITS

AVIATION

Associate of Applied Science

PROFESSIONAL PILOT TECHNOLOGY - ASSOCIATE OF APPLIED SCIENCE (MAJOR CODE - PPT)

The Professional Pilot Technology Associate of Applied Science degree is certified by the Federal Aviation Administration (FAA certificate HR8S200Q) under Part 141 of its regulations. The degree program provides students with the knowledge, skills, and ratings necessary to become competent, qualified professional pilots. Areas of study include single-engine, multi-engine, flight instructor, and airline transport. All ratings are offered, and students may enter the program with or without prior flight training or certificates. For those with prior training, placement in the flight portion of the program will depend upon a skills analysis when they enter the program. A normal course of study will progress from the private pilot certificate to an FAA-certified commercial pilot degree with instrument and multi-engine ratings.

Learning Outcomes
Students who successfully complete this program will be able to do the following:

• Demonstrate the knowledge and skills needed to safely exercise the privileges and responsibilities of a commercial/instrument pilot acting as pilot-in-command of a multi-engine airplane.
• Demonstrate the knowledge and skills needed to pass the Commercial Pilot Certificate, multi-engine land rating, as outlined in the appropriate FAA Practical Test Standards and Federal Aviation Regulations.
• Identify aircraft design, engine design, airport and aviation support facilities, and the practical economics of airline operations as they support the air transportation industry.
• Apply knowledge of air traffic control (ATC) technology and terminology, career requirements, components, and the function of the National Airspace System and Terminal.
• Demonstrate an understanding of en route ATC facilities as they support the ATC system.
• Identify aviation ground operations, technical operations, flight operations, and system operations as they support airline operations and management.
• State highlights in the history of aviation from its very beginnings to current endeavors.
• Explain pilot psychology, physiology, human factors, aircraft technology, crew resource management, and accident review and investigation as they relate to aspects of aviation safety.

Associate of General Studies

AVIATION DISPATCH - ASSOCIATE OF GENERAL STUDIES (MAJOR CODE - AVD)

The Aviation Dispatch Associate of General Studies degree provides students with the knowledge and skills required to take the Federal Aviation Administration written and practical examinations, which are necessary for a career as an aircraft dispatcher.

Learning Outcomes
Students who successfully complete this program will be able to do the following:
- Demonstrate the theoretical knowledge and practical skills to successfully pass the Federal Aviation Administration (FAA) Aircraft Dispatcher Practical Test.
- Analyze and interpret weather and aircraft performance charts, and load reports for aircraft operations.
- Demonstrate resource management skills involved in resolving interpersonal issues and in coordinating and optimizing the interface among dispatchers and machines.
- Demonstrate the ability to resolve conflict among team members, including pilots and maintenance personnel.
- Demonstrate problem-solving skills and aeronautical decision making as they support pilots in making go and no-go decisions related to flight operations.
- Demonstrate the FAA-required knowledge and skills used in the flight planning process.

CORE CURRICULUM 25 CREDITS
PFT 101 Private Pilot Ground School° 5
PFT 105 Crew Resource Management - Flight 2
PFT 122 Aviation Weather° 3
The Professional Pilot Technology Associate of General Studies degree is certified by the Federal Aviation Administration (FAA certificate HR8S200Q) under Part 141 of its regulations. The degree program provides students with the knowledge, skills, and ratings necessary to become competent, qualified professional pilots. Areas of study include single-engine, multi-engine, flight instructor, and airline transport. All ratings are offered, and students may enter the program with or without prior flight training or certificates. For those with prior training, placement in the flight portion of the program will depend upon a skills analysis when they enter the program. A normal course of study will progress from the private pilot certificate to an FAA-certified commercial pilot degree with instrument and multi-engine ratings.

Learning Outcomes

Students who successfully complete this program will be able to do the following:

- Demonstrate the knowledge and skills needed to safely exercise the privileges and responsibilities of a commercial/instrument pilot acting as pilot-in-command of a multi-engine airplane.
- Demonstrate the knowledge and skills needed to pass the Commercial Pilot Certificate, multi-engine land rating, as outlined in the appropriate FAA Practical Test Standards and Federal Aviation Regulations.
- Identify aircraft design, engine design, airport and aviation support facilities, and the practical economics of airline operations as they support the air transportation industry.
- Apply knowledge of air traffic control (ATC) technology and terminology, career requirements, components, and the function of the National Airspace System and Terminal.
- Demonstrate an understanding of en route ATC facilities as they support the ATC system.
- Identify aviation ground operations, technical operations, flight operations, and system operations as they support airline operations and management.
- State highlights in the history of aviation from its very beginnings to current endeavors.
- Explain pilot psychology, physiology, human factors, aircraft technology, crew resource management, and accident review and investigation as they relate to aspects of aviation safety.
Acceptance into the professional pilot program requires an interview with the director of aviation plus completion of admission requirements and departmental acceptance. Admission to Cochise College does not guarantee acceptance into the pilot program.

**BEHAVIORAL SCIENCES & HUMAN SERVICES**

**Associate of Arts**

**ADMINISTRATION OF JUSTICE - ASSOCIATE OF ARTS (MAJOR CODE - AJS)**

The Administration of Justice Associate of Arts degree is designed to prepare students for a wide variety of criminal justice career fields or for transfer into university degree programs. The degree also provides additional training for certified law enforcement and corrections professionals. To ensure seamless transfer, students must develop their specific program of study in close coordination with a Cochise College advisor.

**Learning Outcomes**

Students who successfully complete this program will be able to do the following:

- Describe the history of criminal justice in the United States and in historically significant global societies, and explain its impact upon the modern day criminal justice system in the United States.
- Describe the organization and characteristics of the United States system of criminal justice, to include law enforcement, the courts, corrections, and juvenile justice.
- Define and effectively use civil law, criminal law, law enforcement, court or judicial, and juvenile justice terminology.
- Describe the fundamental ethical characteristics required in the criminal justice profession, and demonstrate critical reasoning in the application of ethics to common criminal justice ethical dilemmas.
- Describe, and utilize in critical analysis scenarios, the social and legal definitions of crime, the societal and psychological precursors of crime, and the various categories of crime.
- Describe the relationship of socio-economic status, gender, and race and ethnicity to the definition of crime, and to adjudication and sentencing.
- Identify current and emerging innovations in the criminal justice system to include technology and scientific advances.
- Describe career opportunities within the criminal justice field.

**ELECTIVES (AS NEEDED TO COMPLETE THE DEGREE)**

E elective courses must be transferable to the university or universities to which the student plans to transfer. See www.aztransfer.com.

**TOTAL DEGREE REQUIREMENTS 60-62 CREDITS**

**EARLY CHILDHOOD CARE AND EDUCATION - ASSOCIATE OF ARTS (MAJOR CODE - ECE)**

The Early Childhood Care and Education Associate of Arts degree prepares students for transfer to a university program in the care and education of young children. It offers in-depth child development theory, practical applications in the workplace, and comprehensive skills for working with...
children and their families. To ensure seamless transfer, students must develop their specific program of study in close coordination with a Cochise College advisor.

Learning Outcomes
Students who successfully complete this program will be able to do the following:

- Analyze public education, including the workings of a public school; current educational issues and the role, duties, and qualifications of educators; and educational theories and methods.
- Design developmentally appropriate curriculum and strategies that promote the advancement of physical health, intellect, communication, and creativity in young children.
- Demonstrate an understanding of the need to plan for and provide a learning environment that is responsive to each child's individual physical health, intellectual development, emotional well-being, and nutritional safety needs.
- Explain the importance of establishing a positive, productive, and reciprocal relationship with children's families.
- Develop inclusive programs that identify and relate child observation and assessment tools and how they are used to guide developmentally appropriate decisions.
- Demonstrate an understanding of special education, current practices, and related educational theories.
- Analyze the relationship of culture on children's self-concept and learning style.

ECE 160 Early Childhood Growth and Development*°

ELECTIVES (AS NEEDED TO COMPLETE 62 CREDITS)

Elective courses must be transferable to the university or universities to which the student plans to transfer. See www.aztransfer.com.

TOTAL DEGREE REQUIREMENTS 62 CREDITS

Note: Some students will have more than 62 credits because of varying credits in language, math, and other courses; 62 credits represent the minimum for this degree.
ELEMENTARY EDUCATION - ASSOCIATE OF ARTS (MAJOR CODE - EED)

The Associate of Arts Elementary Education (AAEE) degree serves two primary groups: (1) future teachers seeking entrance into teacher education programs through transfer to one of Arizona’s public universities, and (2) future and currently employed teacher aides seeking to comply with federal regulations. The degree allows students to satisfy their Arizona General Education Curriculum (AGEC) requirements and to complete a number of teacher education and/or early childhood education courses. To ensure seamless transfer, students must develop their specific program of study in close coordination with a Cochise College advisor.

Learning Outcomes
Students who successfully complete this program will be able to do the following:

• Assess public education, the education profession, educational institutions, and educational systems within American society, including the public school setting.
• Analyze current educational issues and the role, responsibilities, and qualifications of educators.
• Differentiate and apply connections among educational theories and methodologies.
• Demonstrate an understanding of special education, current educational practices, and related educational theories.
• Analyze and articulate the relationship of cultural values to the formation of the child’s self-concept and learning style.
• Characterize and articulate the impact of negative influences on the educational process.

Degree Map

MAT 156 Mathematics for Elementary Education Majors II° 3

ELECTIVES (AS NEEDED TO COMPLETE 64 CREDITS)
Elective courses must be transferable to the university or universities to which the student plans to transfer. See www.aztransfer.com.

TOTAL DEGREE REQUIREMENTS 60-62 CREDITS
Some students will have more than 60 credits because of varying credits in language, mathematics, and other courses. 60 credits represent the minimum for this degree.

SOCIAL AND BEHAVIORAL SCIENCES - ASSOCIATE OF ARTS (MAJOR CODE - SBS)

The Social and Behavioral Sciences Associate of Arts degree prepares students for transfer to a university program in anthropology, history, political science, psychology, sociology, or related areas of study. To ensure seamless transfer, students must develop their specific program in close coordination with a Cochise College advisor and in cooperation with department faculty.

Learning Outcomes
Students who successfully complete this program will be able to do the following:

• Analyze and articulate the major topics in the social and behavioral sciences including anthropology, history, political science, psychology, and sociology.

Anthropology Concentration
• Critically examine humans as a species, including past and modern human cultures and physical adaptations through
the study of the forms and functions of human diversity in the present and the past.

- Demonstrate an understanding of aspects of human development and culture through time using the four-field approach of linguistic anthropology, archaeology, sociocultural anthropology, and biological anthropology.
- Analyze the effects of environment and geography on human evolution and cultural development and on the human physical and cultural development process.

**Degree Map Anthropology Concentration**

**History Concentration**

- Analyze the evolution of the United States' political, economic, social, cultural, and geographic development from colonization to the present, and evaluate the causes and consequences of historical events.
- Evaluate the breadth and depth of the human experience by comparative study of past and contemporary societies and cultures.
- Conduct research, analyze and assess evidence, and articulate sound conclusions.

**Political Science Concentration**

- Critically analyze political events, persons, processes and principles, institutions, forces, theories, and practices.
- Analyze and assess the ideas, motives, and strategies that give reasons for, and form the basis of, both the United States and Arizona Constitutions.
- Evaluate power and politics both critically and historically, craft and defend evidence-based arguments and communicate effectively with attention to and appreciation of diverse cultural contexts.

**Psychology Concentration**

- Differentiate among, and describe each of, the key concepts, principles, and perspectives in psychology.
- Discuss basic psychological terminology, concepts, and theories in psychology to explain behavior and mental processes.
- Analyze, articulate, and identify appropriate statistical analyses and their application to research.
- Employ American Psychological Association (APA) standards to create and write an APA formatted research report.

**Sociology Concentration**

- Describe the major sociological concepts.
- Compare and contrast the fundamental sociological frameworks of functionalism, conflict theory, and symbolic interactionism as well as the social construction of reality and intersectionality.

- Apply sociological concepts and theories to real-world situations.

**Degree Map Sociology Concentration**

ELECTIVES (AS NEEDED TO COMPLETE 60-62 CREDITS)
Elective courses must be transferable to the university or universities to which the student plans to transfer. See www.aztransfer.com.
For the Psychology Concentration, the department recommends that students satisfy elective credits by taking math courses through MAT 151 College Algebra.

TOTAL DEGREE REQUIREMENTS 60-62 CREDITS

Associate of Applied Science

EARLY CHILDHOOD CARE AND EDUCATION
- ASSOCIATE OF APPLIED SCIENCE (MAJOR CODE - ECE)

The Early Childhood Care and Education Associate of Applied Science degree is designed for those seeking to comply with industry regulations in child care and for those wishing to transfer to a university Bachelor of Applied Science degree program. Completion of this degree does not guarantee state licensure or certification. Students must obtain licensure through appropriate licensing agencies.

Learning Outcomes
Students who successfully complete this program will be able to do the following:

• Design developmentally appropriate curriculum and strategies that promote the advancement of physical health, intellect, communication, and creativity in young children.
• Analyze, examine, and explain the multiple historical, philosophical, and social foundations as well as the contemporary trends in early childhood.
• Demonstrate an understanding of the need to plan for and provide a learning environment that is responsive to each child's individual physical health, intellectual development, emotional well-being, and nutritional safety needs.
• Design programs and strategies to support the social and emotional development of young children with diverse abilities using positive guidance techniques and developmentally appropriate practices.
• Explain the importance of establishing a positive, productive, and reciprocal relationship with children's families.
• Develop inclusive programs that identify and relate child observation and assessment tools and how they are used to guide developmentally appropriate decisions.
• Examine issues of linguistic and multi-cultural diversity, and ethics while maintaining professionalism in the early childhood field.
• Demonstrate an understanding of special education, current practices, and related educational theories.

Electives (as needed to complete 60 credits)

Recommended electives include, but are not limited to, the following: ECE 174, SOC 160, COM 204, PSY 240, and EDU 226. Students should consult an advisor for course selection.

Total Degree Requirements 60 Credits

Law Enforcement - Associate of Applied Science (Major Code - LEO)

The Law Enforcement Associate of Applied Science degree is designed to prepare students for a career in law enforcement. The passing of a prescreening, fingerprint clearance and background investigation are required prior to entry into the Police Academy. Must be 21 years old by Police Academy Graduation. Must meet standards set forth in R13-4-105 of the Arizona Administrative Code.

Learning Outcomes

Students who successfully complete this program will be able to do the following:

- Apply acquired knowledge and skills for the successful completion of the Arizona Peace Officers Standards and Training Board (AZ POST) certification requirements.
- Articulate a comprehensive understanding of legal issues, patrol and investigation techniques, and community relations.
- Demonstrate defensive tactics and tactical driving techniques, knowledge of traffic procedures and the professional use of firearms as applicable to law enforcement guidelines.
- Explain the importance of physical conditioning and wellness, and perform applications of first aid techniques as required for law enforcement.
- Model professional communication ability, write effective reports and demonstrate proficient use of technology.

Certificate Programs

EARLY CHILDHOOD CARE AND EDUCATION
- CERTIFICATE (MAJOR CODE - ECEC)

The Early Childhood Care and Education Certificate provides early childhood teacher training for those seeking to provide care and education to young children. Upon completion, students may apply for national Child Development Associate (CDA) credentialing. Completion of this certificate does not guarantee state licensure or certification.

Learning Outcomes
Students who successfully complete this program will be able to do the following:

• Design developmentally appropriate curricula and strategies that promote the advancement of physical, intellectual, communicative, and creativity in young children.
• Analyze, examine, and explain the multiple historical, philosophical, and social foundations as well as the contemporary trends in early childhood.
• Demonstrate an understanding of the need to plan for and provide a learning environment that is responsive to each child’s individual physical health, intellectual and emotional well-being, and nutritional safety needs.
• Design programs and strategies to support the social and emotional development of young children with diverse abilities using positive guidance techniques and developmentally appropriate practices.
• Explain the importance of establishing a positive, productive, and reciprocal relationship with families.
• Develop inclusive programs that identify and relate child observation assessment tools and how they are used to guide developmentally appropriate decisions.
• Examine issues of linguistic and multi-cultural diversity, and ethics while maintaining professionalism in the early childhood field.

TOTAL CERTIFICATE REQUIREMENTS 21 CREDITS
## FIRE SCIENCE TECHNOLOGY - CERTIFICATE
(MAJOR CODE - FST)

The Fire Science Technology Certificate teaches the basic skills needed in today’s changing fire service. Through coursework in fire and emergency services, students learn to plan for, respond to, and mitigate various emergency situations. Emphasis is on employability.

### Learning Outcomes
Students who successfully complete this program will be able to do the following:

- Demonstrate the knowledge and skills required to obtain certification in hazardous materials emergency response.
- Demonstrate the knowledge and skills required to obtain the Firefighter I and II Certification from the state of Arizona through a rigorous testing process.
- Demonstrate an understanding of the practical application of fire service knowledge and skills in the work environment.
- Demonstrate an understanding of the practical application of basic emergency medical skills.

Note:

Students must complete EMT 174 with a grade of B or better. To prepare for state or national certification, students must 1) complete EMT 174 with a grade of B or better, 2) pass final exams with a grade of B or better, 3) document ten (10) patient contacts in the field, and 4) be 18 within six months of program completion.

### TOTAL CERTIFICATE REQUIREMENTS 20 CREDITS

---

## LAW ENFORCEMENT - CERTIFICATE
(MAJOR CODE - LEOC)

The Law Enforcement Certificate is designed to prepare students for a career in law enforcement. A prescreening process that includes a medical exam, polygraph exam and background investigation are required prior to entry into the Police Academy.

Must be 21 years old by Police Academy Graduation. Must meet standards set forth in R13-4-105 of the Arizona Administrative Code.

### Learning Outcomes
Students who successfully complete this program will be able to do the following:

- Articulate a comprehensive understanding of legal issues, patrol and investigation techniques and community relations.
- Demonstrate defensive tactics and tactical driving techniques, knowledge of traffic procedures and the professional use of firearms as applicable to law enforcement guidelines.
- Explain the importance of physical conditioning and wellness, and perform applications of first aid techniques as required for law enforcement.
- Model professional communication ability, write effective reports and demonstrate proficient use of technology.

BUSINESS

Associate of Business

BUSINESS ADMINISTRATION - ASSOCIATE OF BUSINESS (MAJOR CODE - BUSG)

The Business Administration Associate of Business degree prepares students for transfer to a university program in management, marketing, or general business. It also trains them for direct employment in the business world. To ensure seamless transfer, students must develop their specific program of study in close coordination with a Cochise College advisor.

Learning Outcomes

Students who successfully complete this program will be able to do the following:

• Explain the process of maintaining proper accounting records for a business and demonstrate the skills required to maintain such records.
• Demonstrate the ability to interpret and communicate a business’ financial information.
• Examine legal and ethical issues from the perspective of a business manager or owner.
• Demonstrate an understanding of the direct issues related to the economic conditions in America and other countries.

ELECTIVES (AS NEEDED TO COMPLETE 64 CREDITS)

Elective courses must be transferable to the university or universities to which the student plans to transfer. See www.aztransfer.com.

TOTAL DEGREE REQUIREMENTS 64 CREDITS

Students transferring to Arizona State University, Northern Arizona University, or the University of Arizona should consult the major guides at www.aztransfer.com and see an advisor for specific transfer information.

ASSOCIATE OF APPLIED SCIENCE

BUSINESS MANAGEMENT - ASSOCIATE OF APPLIED SCIENCE (MAJOR CODE - BMT)

The Business Management Associate of Applied Science degree prepares students for employment, or ownership, in the business environment. This is intended to be a non-transfer degree.

Learning Outcomes

Students who successfully complete this program will be able to do the following:

• Demonstrate an understanding of planning for and operating a business.
• Explain the process of maintaining proper accounting records for a business and demonstrate the skills required to maintain such records.
• Demonstrate the ability to interpret and communicate a business’ financial information.
• Demonstrate the knowledge and skills required to be successful in the business management environment.
• Demonstrate an understanding of the basic components needed in business management.

General education electives must be chosen from the general education list. See www.cochise.edu/AGEC.
Six credits of arts, humanities, social and behavioral sciences, or general education electives must be chosen from the current listing of intensive writing courses. See www.cochise.edu/AGEC. The cultural and historical or global awareness requirements are satisfied by completing the arts, humanities, and social and behavioral science portion of the AGEC.

TOTAL CERTIFICATE REQUIREMENTS 35 CREDITS

ENTREPRENEURSHIP/SMALL BUSINESS MANAGEMENT - CERTIFICATE (MAJOR CODE - ENTC)

The Entrepreneurship/Small Business Management Certificate teaches entrepreneurs a wide variety of small business skills. It is designed to develop entrepreneurs and foster economic growth in the community.

Learning Outcomes
Students who successfully complete this program will be able to do the following:

• Explain and effectively pursue the ways businesses are financed.
• Examine legal and ethical issues from the perspective of a business manager or owner.
• Demonstrate the ability to interpret and communicate a business' financial information.
• Demonstrate the ability to lead and manage multiple employees in a day-to-day business environment.

SUPPLY CHAIN MANAGEMENT -
CERTIFICATE (MAJOR CODE - SCM)

The Supply Chain Management Certificate prepares students for employment in the broad range of careers involved in moving products and services to market and into the hands of consumers. Course work in inventory control, warehouse management, transportation, security, freight claims, purchasing, logistics management, technologies, and leadership skills provides a well-rounded understanding of supply chain management.

Learning Outcomes

Students who successfully complete this program will be able to do the following:

• Demonstrate the knowledge and leadership skills required to perform in a management role in the global supply chain industry.
• Synthesize and demonstrate the intricate details of supply chain, inventory control, security, computerized supply chain, and warehouse management.
• Integrate the concepts related to supply chain management with the global business world.
• Apply hands on experience and integrated knowledge of the global supply chain industry gained through supervised cooperative work experience.

COMPUTER TECHNOLOGY

The Computer Information Systems and Computer Science degrees are designed to prepare students for transfer to four-year colleges and universities. The curriculum provides the foundation for many careers, such as applications programmer, systems programmer, aerospace or engineering programmer, computer engineer and database administrator. To ensure seamless transfer, students must develop their specific program of study in close coordination with a Cochise College advisor.

The various certificates prepare students for employment and/or improved skills in rewarding, technology-related careers.

**COMPUTER SCIENCE - ASSOCIATE OF ARTS (MAJOR CODE - CSC)**

The Computer Science Associate of Arts degree is designed for students interested in transferring to the University of Arizona South’s computer science program. To ensure seamless transfer, students must develop their specific program of study in close coordination with a Cochise College advisor and in consultation with a CIS faculty member.

**Learning Outcomes**

Students who successfully complete this program will be able to do the following:

- Describe the mechanics of information transfer and control within a digital computer system.
- Design, code, test, and debug programs using structured programming techniques in the command line environment.
- Design, code, test, and debug medium-difficulty C programs using structured and modular techniques.
- Select executable TASM utility programs and libraries.
- Design structured and modular programs.
- Apply data structures in solving programming problems.

Associate of Applied Science

COMPUTER INFORMATION SYSTEMS - ASSOCIATE OF APPLIED SCIENCE (MAJOR CODE - CIS)

The Computer Information Systems Associate of Applied Science degree provides broad preparation for entry into the field of information technology. Students develop essential skills in networking, operating systems, programming, database management, productivity applications, and technical communications.

Learning Outcomes

Students who successfully complete this program will be able to do the following:

• Effectively communicate technical concepts to a variety of stakeholders.
• Demonstrate broad knowledge across various types of information systems.
• Exhibit proficiency with the Internet and with World Wide Web technologies.
• Create solutions to typical information systems problems; and demonstrate an understanding of basic information systems functions.
• Utilize spreadsheet applications to support decision making and to facilitate effective problem solving.
• Utilize database applications to support decision making and to facilitate effective problem solving.
• Identify and explain the basic functions, uses, and features of any operating system using proper terminology.
• Describe the major components of a modern networked environment.

TOTAL DEGREE REQUIREMENTS 60 CREDITS

COMPUTER PROGRAMMING - ASSOCIATE OF APPLIED SCIENCE (MAJOR CODE - CPG)

The Computer Programming Associate of Applied Science degree prepares students to develop software applications that meet the needs of various organizations. Students create solutions to different programming issues across a wide range of modern computing environments.

Learning Outcomes

Students who successfully complete this program will be able to do the following:

• Differentiate between interpreted and complied programming languages.
• Demonstrate the proper use of terminology in relation to information technology.
• Design, code, implement, and test computer programming applications using multiple programming languages.

Programming Concentration

• Create solutions to typical information systems problems.
• Design, code, test, and debug programs using structured programming techniques in the command line environment.
• Apply data structures in solving programming problems.

Degree Map

Virtual Reality Development Concentration

• Implement object-oriented Program principles for Virtual Reality.
• Subdivide software project development workflow utilizing the Visual Studio IDE and Git version control techniques.
• Design and implement cross-platform user input for virtual reality controllers.
• Construct virtual environments utilizing the Unity game engine platform.

### Cybersecurity - Associate of Applied Science (Major Code - CYB)

The Cybersecurity Associate of Applied Science degree will equip students with knowledge, skills, and abilities to succeed in further academic endeavors or direct employment in the field of cybersecurity. Major areas of study include security fundamentals, operating systems, scripting, digital forensics, cyber operations, cloud computing, and network defense. The courses in this degree provide students a hands-on approach to develop and implement appropriate cybersecurity skills and abilities.

### Learning Outcomes

Students who successfully complete this program will be able to do the following:

- Describe cybersecurity and the application of the Confidentiality Integrity and Availability (CIA) model in cyber defense.
- Characterize and document how a systems compromise occurred through an analytical process.
- Securely configure network devices, servers, and workstations and through validation test the effectiveness of the applied controls.
- Analyze network operations, conduct network and host penetration tests, and implement passive countermeasures.
- Identify the basic components of a layered structure for host, network, and organizational defense.
- Differentiate and implement modern automation tools and techniques as they apply to cybersecurity.

**Total Degree Requirements 60-61 Credits**
NETWORK TECHNOLOGY - ASSOCIATE OF APPLIED SCIENCE (MAJOR CODE - NWT)

The Network Technology Associate of Applied Science degree provides students with the knowledge and skills for immediate employment in the field of computer networking.

**Learning Outcomes**

Students who successfully complete this program will be able to do the following:

- Diagnose and remedy many of the common causes of network failure in current network operating systems.
- Interconnect multiple networks and servers using current network operating systems.
- Install additional PC workstations by using current network technologies and by properly configuring network hardware, software, and user accounts.
- Determine with reasonable accuracy whether network user problems arise from the workstation, network cabling, network configuration, or network application; and take steps to correct the problems.
- Demonstrate proficiency with a variety of networking technologies including, but not limited to, network routing, Linux, and Microsoft.

**Certificate Programs**

**AMAZON WEB SERVICES CLOUD ARCHITECTING (MAJOR CODE - CLDA)**

The Amazon Web Services (AWS) Cloud Architecting Certificate comprises two courses, CLD 110 and CLD 120, that focus on the fundamentals of building IT infrastructure on and for AWS. These courses cover AWS services and best practices for the AWS Cloud so that students learn how they fit into cloud-based solutions and how to optimize use of the AWS Cloud. Additionally, these courses introduce design patterns for architecting optimal IT solutions on AWS as well as strategies and services implemented on AWS.

**Learning Outcomes**

Students who successfully complete the program will be able to do the following:

- Design a cloud environment for high availability, scalability, and cost effectiveness.
- Explain the principles of automating, and decoupling infrastructure.
- Understand the design of web-scale media.
- Visualize the AWS Well-Architected Framework.
- Understand use cases for both dedicated instances and dedicated hosts.
- Execute troubleshooting of common errors on AWS deployments.
- Examine management of cloud security using Identity and Access Management based on recommended best practices.

**Degree Map**

**CORE CURRICULUM 6 CREDITS**

| CLD 110 | AWS Cloud Foundations* | 3 |
| CLD 120 | AWS Cloud Architecting | 3 |

**TOTAL CERTIFICATE REQUIREMENTS 6 CREDITS**

Information Systems
AMAZON WEB SERVICES CLOUD FOUNDATIONS - CERTIFICATE (MAJOR CODE - CLDF)

Amazon Web Services (AWS) Cloud Foundations provides a detailed overview of cloud concepts, AWS core services, security, architecture, pricing, and support. This certificate is intended for students who seek an overall understanding of cloud computing concepts, independent of specific technical roles and helps to prepare students for the AWS Certified Cloud Practitioner exam.

Learning Outcomes
Students who successfully complete the program will be able to do the following:
- Analyze and explain basic cloud computing concepts, including architecting, balancing, scaling, monitoring, storage, and computation of core level service.
- Create a basic Virtual Private Cloud and database server.
- Examine management of cloud security using Identity and Access Management based on recommended best practices.
- Understand AWS cloud support services.

Degree Map
CORE CURRICULUM 3 CREDITS
CLD 110 AWS Cloud Foundations° 3

TOTAL CERTIFICATE REQUIREMENTS 3 CREDITS

GOOGLE IT PROFESSIONAL (MAJOR CODE - GITP)

This certificate will help students gain the skills required to succeed in an entry-level Information Technology (IT) capacity. Students will learn to perform day-to-day IT support tasks, including computer assembly, wireless networking, installing programs, and customer service. Students will also learn how to provide end-to-end customer support ranging from identifying problems to troubleshooting and debugging, and how to use software systems including Linux, Domain Name Systems, Command-Line Interface, and Binary Code.

Learning Outcomes
- Demonstrate the Technical Support role by assembling and repairing computer hardware, loading common operating systems, and articulating how applications are created and work.
- Explain the five-layer model of computer networking, standard protocols for TCP/IP communications, services including DNS and DHCP, and cloud computing and storage.
- Utilize both Windows and Linux GUI and CLI to set up users, groups, and permissions; install, configure, and remove software; configure disk partitions and file systems, manage system processes, and work with system logs and remote connection tools.
- Demonstrate the System Administration role through understanding common infrastructure services and servers, utilizing Active Directory and OpenLDAP, information backup and restoration tools, planning and improving processes for IT environments, and utilizing best practices for selecting hardware, vendors, and services for an organization.
- Employ IT security concepts to include encryption algorithms and techniques, authentication systems and types, differentiate between authentication and authorization, evaluating risks and recommending mitigation, and best practices for securing a network.
- Utilize soft skills and an integrated understanding of the IT Support Specialist role to troubleshoot common issues.

Courses
GOO 101 Google IT Support Professional° 3

TOTAL CERTIFICATE REQUIREMENTS 3 CREDITS

LINUX SYSTEM ADMINISTRATOR - CERTIFICATE (MAJOR CODE - LSA)

The Linux System Administrator Certificate teaches the basic Linux operating skills related to user groups, scripting, and system administration.

Learning Outcomes
Students who successfully complete this program will be able to do the following:
- Describe how the Linux operating system functions.
- Use the Linux file and directory system and the Linux editor.
- Add, change, and remove users, groups, and peripheral devices.
- Perform routine system administration duties.
- Implement literals, constants, variables, operators, arrays, structures, functions, classes, input and output, and file processing.
- Demonstrate the design, coding, testing, and debugging of scripts using current computer problem-solving methodologies.
- Implement Dynamic Host Configuration Protocol (DHCP), Domain Name System (DNS), and security on a Linux server.

CORE CURRICULUM 20 CREDITS
CIS 120 Introduction to Information Systems*° 3
CIS 128 Linux Operating System*‡ 4
CIS 129 Introduction to Programming Logic° 1
CIS 164  Introduction to Scripting Using Python‡  4
CIS 229  Linux System Administration‡  4
CIS 259  Advanced Linux Systems Administration‡  4

TOTAL CERTIFICATE REQUIREMENTS 20 CREDITS

VIRTUAL REALITY CONTENT DEVELOPER
(MAJOR CODE - VRD)

The Virtual Reality Content Developer (VRD) Certificate prepares students for entry-level positions in both educational and gaming content creation. Students will become Unity Certified Associates and be qualified to create Virtual Reality content for both industry and Department of Defense customers. Students will create content for multiple hardware platforms and troubleshoot code for those platforms.

Learning Outcomes
Students who successfully complete this program will be able to do the following:

• Implement object-oriented Program principles for Virtual Reality.
• Subdivide software project development workflow utilizing the Visual Studio IDE and Git version control techniques.
• Support decisions concerning locomotion techniques for room-scale and fixed position virtual reality experiences.
• Design and implement cross-platform user input for virtual reality controllers.
• Propose methodologies for implementation of diegetic and non-diegetic interface in virtual reality.
• Evaluate and resolve issues and problems in object-oriented programming.
• Construct virtual environments utilizing the Unity game engine platform.

VRD 264  Unity Programming Standards and Application‡  4

ELECTIVES 1 CREDIT

Internship opportunity is optional.

Courses
VRD 294  Virtual Reality Co-operative Internship  1

TOTAL CERTIFICATE REQUIREMENTS 16 CREDITS

VIRTUAL REALITY TECHNOLOGIST CERTIFICATE (MAJOR CODE - VRTC)

The Virtual Reality Technologist Certificate program will provide students with the skills to obtain employment as technologists in the virtual reality, augmented reality, and mixed reality fields. Topics include an introduction to virtual reality hardware and software applications and their use in education, training and entertainment.

Learning Outcomes
Students who successfully complete this program will be able to do the following:

• Understand and explain the emerging technologies of extended Reality (XR) including, virtual reality (VR), augmented reality (AR), and mixed reality (MR) in a professional manner.
• Articulate and troubleshoot issues related to extended (XR) virtual reality technology.
• Install and implement virtual reality classroom technologies.
• Act and communicate professionally in one's capacity as a virtual reality technologist.
• Utilize various extended reality (XR) software platforms and workflows to develop immersive products.

HEALTH SCIENCES

ASSOCIATE OF ARTS

EXERCISE SCIENCE, HEALTH AND PHYSICAL EDUCATION, RECREATION AND WELLNESS - ASSOCIATE OF ARTS (MAJOR CODE - HPES)

The Exercise Science, Health and Physical Education, Recreation and Wellness Associate of Arts degree is intended for students interested in fitness, recreation, or sports, and it is designed for transfer into university degree programs in physical education teaching and/or athletic coaching. To ensure seamless transfer, students must develop their specific
program of study in close coordination with a Cochise College advisor.

Learning Outcomes
Students who successfully complete this program will be able to do the following:
• Demonstrate an understanding of and analyze the physical, structural, and functional features of tissues, and of the integumentary, skeletal, muscular, and nervous systems.
• Demonstrate an understanding of and analyze the physical, structural, and functional features of the endocrine, cardiovascular, respiratory, lymphatic, urinary, digestive, and reproductive systems.
• Explain the benefits of, and participate in, activities related to fitness, recreation, or sports.
• Develop an individualized program of diet and exercise.
• Demonstrate an understanding of, analyze, and articulate practical and theoretical applications of current practices necessary for wellness and optimum health.

OR
BIO 181 General Biology I (for majors) 4
Laboratory sciences 4
Arts 3 credits
Humanities 3 credits
Social and Behavioral Sciences 6 credits
General Education Electives 4-6 credits
General education electives must be chosen from the general education list. See www.cochise.edu/AGEC.
Six credits of arts, humanities, social and behavioral sciences, or general education electives must be chosen from the current listing of intensive writing courses. See www.cochise.edu/AGEC.
LANGUAGE REQUIREMENT 0-16 CREDITS
Non-English language second- or fourth-semester proficiency. University non-English language requirements vary. Check with an advisor.

CORE CURRICULUM 8 CREDITS
BIO 201 Human Anatomy and Physiology 4
BIO 202 Human Anatomy and Physiology 4
BIO 201 requires BIO 156, BIO 181, or passing score on the biology placement exam.

ELECTIVES (AS NEEDED TO COMPLETE 64 CREDITS)
Elective courses must be transferable to the university or universities to which the student plans to transfer. See www.aztransfer.com.

TOTAL DEGREE REQUIREMENTS 64 CREDITS
Associate of General Studies
ALLIED HEALTH - ASSOCIATE OF GENERAL STUDIES (MAJOR CODE - AHS)
The Allied Health Associate of General Studies degree prepares students for further study, certification, and employment in a variety of health careers (e.g., nursing, medical assistant, medical technician, emergency medical technician, and others). In addition, students will be prepared to pursue further education and training in a variety of non-clinical support services, public health, and administrative careers.

Note: Students who choose a nursing concentration must complete courses during or prior to the semester listed in the program outline. BIO 201 (requires a prerequisite course), 202, and 205 must have been completed within the last seven (7) years of admission to the Cochise College nursing program with a grade of B or better. NUR 203 must have been completed within the last five (5) years of admission to the Cochise College nursing program with a grade of B or better.

Learning Outcomes:
Students who successfully complete this program will be able to do the following:
• Utilize integrated knowledge to articulate the levels of organization within the components of the eleven organ systems.
• Apply biological and pharmacological terminology as it relates to the medical field.
• Assess patients and administer CPR and/or first aid in healthcare and community settings.
• Initiate safe, ethical allied healthcare practices as a member of the healthcare team.

TOTAL DEGREE REQUIREMENTS 60 CREDITS

Associate of Applied Science

NURSING - ASSOCIATE OF APPLIED SCIENCE (MAJOR CODE - NUR)

Accredited by the Accreditation Commission for Education and Nursing and approved by the Arizona State Board of Nursing, the Nursing Associate of Applied Science degree teaches about common physical and psychosocial health needs and problems throughout the human lifespan, the body's responses to stressors, alterations in growth and development, and nursing interventions. Concepts include use of the framework for effective communication, philosophies of human development, and the utilization of the nursing process with emphasis on intervention and evaluation. The clinical setting helps students develop competence in discharge planning, community nursing, and leadership.

Students utilize knowledge of new developments in health care to adapt to changes in the field and to be proactive in the nursing profession. Students are required to complete program prerequisites prior to admission and must complete courses in the order outlined in the program.

Upon completion of the program, students are eligible to take the National Council Licensure Examination (NCLEX-RN) to be licensed by the State Board of Nursing as a registered nurse. Acceptance into the nursing program does not guarantee successful completion.

Class attendance and clinical experience, which involves travel to various locations in Cochise County and elsewhere, are required. Experience in multiple clinical agencies is essential for completion of the program. Any potential legal impediment to licensure must be made known to the Nursing Department before assignment to any clinical agency.

Completion of the program does not guarantee licensure by the Arizona State Board of Nursing.

Learning Outcomes
Students who successfully complete this program will be able to do the following:

- Demonstrate the knowledge and skills required to be licensed as a registered nurse by examination (NCLEX-RN) of the Arizona State Board of Nursing.
- Provide quality care to patients by applying elements such as the nursing process and safety procedures, as well as wellness and improved lifespan practices.
- Recognize and practice cultural awareness by demonstrating respect for human differences, and demonstrate cultural competence as a manager of patient care.
- Demonstrate competency in critical thinking, evidence-based practice, communication, and collaboration.
- Practice professional values and behaviors as members of the nursing profession through responsibility to their role, lifelong learning, and to legal and ethical issues.

**TOTAL DEGREE REQUIREMENTS 69-73 CREDITS**

**Notes:**
Students must complete courses during or prior to the semester listed in the program outline. All BIO and NUR courses must be completed with a grade of B or better. BIO 201 and BIO 202 require a prerequisite course. Science courses must have been completed within the last seven (7) years of admission to the Cochise College nursing program with a grade of B or better.

NUR 203 must have been completed within the last five (5) years of admission to the Cochise College nursing program with a grade of B or better.

Students admitted into the Nursing AAS program who have a current AZ LPN license, have one year of work experience as an LPN, and have scored a 900 or higher on the HESI LPN to ADN entrance examination may be admitted into the advanced LPN to RN pathway. Students admitted into this pathway will receive credit for NUR 122, NUR 123 and NUR 124. These students will be required to take NUR 130 in the summer prior to taking NUR 232.

**PARAMEDICINE - ASSOCIATE OF APPLIED SCIENCE (MAJOR CODE - PAR)**

The Paramedicine Associate of Applied Science degree prepares the student to become a Nationally Registered Paramedic. Paramedics render basic and advanced medical treatment before and during patient transport to a medical facility and they assess and treat a wide variety of medical emergencies. Paramedics work for fire departments, law enforcement agencies, private ambulance services, industrial companies, clinics, and hospitals.

Admission into the program requires a separate application. Prior to enrollment in the paramedicine program, all students must pass a computer-based entrance examination.

**Learning Outcomes**
Students who successfully complete this program will be able to do the following:

- Demonstrate the legal, ethical, and professional conduct of an entry-level autonomous paramedic.
- Demonstrate an understanding of the roles and responsibilities of an entry-level autonomous paramedic with regard to personal safety and wellness as well as to the safety of others.
- Demonstrate self-confidence as an autonomous and effective team leader in the pre-hospital, hospital, and clinical environment.
- Describe and perform various techniques for successful assessment and treatment of patients of all ages and all complaints.
- Analyze the various considerations when determining ground versus air transport of a patient to an appropriate facility.
- Demonstrate proficiency in all required terminal competencies as verified by the medical director.
- Demonstrate the knowledge, skills, and abilities required for certification as a Nationally Registered Paramedic.

**Degree Map**

- OR
- CIS 120 Introduction to Information Systems*° 3

**CORE CURRICULUM 49-55 CREDITS**
The program coordinator may waive PMD 101 for students who meet the course requirements.

TOTAL DEGREE REQUIREMENTS 68-74 CREDITS

Certificate Programs

MEDICAL ASSISTANT - CERTIFICATE
(MAJOR CODE - MEDA)

The Medical Assistant Certificate provides training for entry-level employment in a medical practice setting, with emphasis on the routine administrative and clinical tasks required in the day-to-day operation of offices and clinics of health professionals. It introduces students to telephone techniques and other front office functions such as filing and coding insurance claims, scheduling patients, and keeping electronic medical records. It also introduces them to back office skills that include taking vital signs, assisting with electrocardiograms and other special procedures, using medical terminology, and administering medication. The certificate’s externship course offers practical experience in a medical office setting. Prior to certificate completion, students take the Medical Assistant certification examination to become certified as Registered Medical Assistants.

Learning Outcomes
Students who successfully complete this program will be able to do the following:

• Demonstrate the skills necessary to perform a wide range of duties for employment in a modern medical facility.
• Demonstrate a nationally-recognized measure of competency for national certification through the National Healthcareer Association (NHA).
• Perform administrative duties, including telephones, correspondence, insurance forms, medical records, billing, bookkeeping, and office supplies; and greeting, admitting, and scheduling patients.
• Perform clinical duties including taking vital signs and medical histories, explaining treatments, preparing patients for examination, and assisting physicians with lab procedures, EKGs, and medications.

Degree Map

CORE CURRICULUM 27 CREDITS

BIO 160 Introduction to Human Anatomy and Physiology†‡ 4
HLT 101 Medical Terminology† 2
HLT 111 CPR and First Aid‡ 1
HLT 139 Medical Assistant I‡ 8

See course descriptions for prerequisites and other requirements. HLT 111 must be taken at Cochise College or at an accredited college or university.

TOTAL CERTIFICATE REQUIREMENTS 27 CREDITS

NURSING ASSISTANT - CERTIFICATE
(MAJOR CODE - CNA)

The Nursing Assistant Certificate, which requires one semester to complete, is approved by the Arizona State Board of Nursing to prepare students for nursing assistant certification. Emphasis is on communication, patient safety, anatomy and physiology, specific patient-care skills, and patient rights. Includes the nursing process and the legal and professional responsibilities of the nursing assistant. Also covers the basic physical, psychosocial, and cultural needs of all patients, with special emphasis on the geriatric population. Students taking this program for state certification must be 16 prior to program completion, provide documentation of U.S. citizenship or qualifying alien status, undergo fingerprinting, pass a background check and drug screen, and have received absolute discharge from the sentence for any felony conviction no less than 3 years prior to submitting their application for state certification. The Arizona State Board of Nursing prohibits the use of medical marijuana.

Learning Outcomes
Students who successfully complete this program will be able to do the following:

• Demonstrate the knowledge and skills required for basic-level nursing assistant certification by the Arizona State Board of Nursing.
• Demonstrate skills in communication, patient safety, the nursing process, and specific patient care.
• Demonstrate skills in cardiopulmonary resuscitation (CPR) and basic first aid.
• Demonstrate an understanding of patient rights and legal and professional responsibilities.
• Apply the knowledge and skills required to address basic physical, psychosocial, and cultural needs of patients, especially those in the geriatric population.

Degree Map

CORE CURRICULUM 6 CREDITS

HLT 109 Nursing Assistant‡ 5
HLT 111 CPR and First Aid‡ 1
HLT 111: Possession of a current American Heart Association CPR and First Aid certification for healthcare providers satisfies this course requirement.

TOTAL CERTIFICATE REQUIREMENTS 6 CREDITS
PRACTICAL NURSING - CERTIFICATE  
(MAJOR CODE - PN)

The Practical Nursing Certificate prepares students to become Licensed Practical Nurses by enabling them to provide nursing care to clients of all ages across all cultures. Emphasis is on theory applied through laboratory and clinical experiences. Upon successful completion students are eligible to take the National Council Licensure Examination (NCLEX-PN) for licensing by the Arizona State Board of Nursing as practical nurses.

Learning Outcomes

Students who successfully complete this program will be able to do the following:

• Demonstrate the knowledge and skills required for practical nursing certification by the Arizona State Board of Nursing.
• Demonstrate skills in patient safety, medication administration, the nursing process, and specific patient care.
• Demonstrate skills in cardiopulmonary resuscitation (CPR) and basic first aid.
• Recognize human differences and demonstrate cultural competence as managers of client care.
• Apply professional values and behaviors as acculturated members of the nursing profession.

TOTAL CERTIFICATE REQUIREMENTS 32 CREDITS

HOME HEALTH AIDE - CERTIFICATE  
(MAJOR CODE - HHAC)

Home health aides assist clients who are unable to care for themselves or perform daily tasks such as cooking, cleaning, dressing, and bathing. They may also perform basic medical services such as checking vital signs. They may also provide long-term care or intermittent care. They may specialize in geriatric care or pediatric home health care.

Learning Outcomes

Students who successfully complete this program will be able to do the following:

• Demonstrate the basic knowledge of the home healthcare system and be able to identify the types of healthcare systems and roles of care team members.
• Demonstrate understanding of legal and ethical behaviors in the home healthcare system and what and when to report.
• Demonstrate knowledge of differences in personal care depending on the type of physical or developmental disability.
• Demonstrate procedures to ensure safety of self and client.
• Identify what situation is an emergency and what to do in each situation.
• Demonstrate the skills needed for food preparation including balancing nutrition and handling food safely.
• Explain the Direct Care Workers' role in maintaining a safe home environment.
• Identify possible home environmental hazards.
• Demonstrate the necessary skills to provide quality care in the home health environment.

TOTAL CERTIFICATE REQUIREMENTS 6 CREDITS

EMERGENCY MEDICAL TECHNICIAN - CERTIFICATE (MAJOR CODE - EMT)

The Emergency Medical Technician Certificate provides a study of anatomy and physiology, signs and symptoms of illness and injury, patient assessment, procedures associated with the provision of emergency medical care, triage, basic life support systems, and basic legal responsibilities. Equips students with the knowledge and skills required by the National Registry of Emergency Medical Technicians (NREMT) and the Arizona Department of Health Services – Bureau of Emergency Medical Services (ADHS-BEMS) to practice as an Emergency Medical Technician. Students
desiring NREMT/ADHS-BEMS certification must complete the state-required number of clinical experience hours with an Emergency Medical Service provider of out-of-hospital emergency care. Meets the ADHS-BEMS guidelines and is approved by the state of Arizona and the National Registry of EMTs.

Medical Direction: Arizona Certified EMTs are authorized to provide treatment, perform procedures, and utilize skills—as defined by the 2009 National EMS Education Standards—only under the medical control of an approved medical director or certified base hospital.

**Learning Outcomes**

Students who successfully complete this program will be able to do the following:

- Demonstrate the skills necessary to perform a wide range of duties for employment in a modern medical facility.
- Identify and assess the signs and symptoms of illness and injury in patients and conduct triage as needed.
- Demonstrate an understanding of basic human anatomy and physiology in the application of emergency medical care.
- Provide medical care and basic life support to patients with respiratory, cardiovascular, neurological, allergic, and OB/GYN emergencies, and with age-related and traumatic injuries.
- Demonstrate various examination techniques on patients with a medical- or injury-related complaint or problem.
- Demonstrate the skills required by the National Registry of Emergency Medical Technicians and the State of Arizona Department of Health Services, Bureau of Emergency Medical Services.

**Degree Map**

**CORE CURRICULUM 8 CREDITS**

EMT 174 Emergency Medical Technician‡ 8

Notes:
In order to complete the certificate, students must complete EMT 174 with a grade of B or better.
To prepare for state or national certification, students must 1) complete EMT 174 with a grade of B or better, 2) pass final exams with a grade of B or better, 3) document ten (10) patient contacts in the field, and 4) be 18 within six months of program completion.

**TOTAL CERTIFICATE REQUIREMENTS 8 CREDITS**

**PARAMEDICINE - CERTIFICATE (MAJOR CODE - PAR)**

The Paramedicine Certificate prepares the student to become a Nationally Registered Paramedic. Paramedics render basic and advanced medical treatment before and during patient transport to a medical facility and they assess and treat a wide variety of medical emergencies. Paramedics work for fire departments, law enforcement agencies, private ambulance services, industrial companies, clinics, and hospitals. Admission into the program requires a separate application. Prior to enrollment in the paramedicine program, all students must pass a computer-based entrance examination.

**Learning Outcomes**

Students who successfully complete this program will be able to do the following:

- Demonstrate the legal, ethical, and professional conduct of an entry-level autonomous paramedic.
- Demonstrate an understanding of the roles and responsibilities of an entry-level autonomous paramedic with regard to personal safety and wellness as well as to the safety of others.
- Demonstrate self-confidence as an autonomous and effective team leader in the pre-hospital, hospital, and clinical environment.
- Describe and perform various techniques for successful assessment and treatment of patients of all ages and all complaints.
- Analyze the various considerations when determining ground versus air transport of a patient to an appropriate facility.
- Demonstrate proficiency in all required terminal competencies as verified by the medical director.
- Demonstrate the knowledge, skills, and abilities required for certification as a Nationally Registered Paramedic.

**Degree Map**

**CORE CURRICULUM 49-55 CREDITS**

PMD 101 Paramedicine I‡° 6
PMD 201 Paramedicine II‡ 7
PMD 202 Paramedicine III‡ 7
PMD 203 Paramedicine IV‡ 10
PMD 204 Paramedicine V‡ 10
PMD 205 Paramedicine VI‡ 9
PMD 206 Paramedicine VII‡ 6

The program coordinator may waive PMD 101 for students who meet the course requirements.

**TOTAL CERTIFICATE REQUIREMENTS 49-55 CREDITS**

**INDUSTRY**

**Automotive Technology - Associate of Applied Science (Major Code - ATC)**

The Automotive Technology Associate of Applied Science degree provides students with a working knowledge of the skills required for employment as automotive technicians. It benefits both students seeking marketable skills and experienced automotive technicians looking to upgrade their
proficiency and obtain industry certification in light vehicle repair. Students who successfully complete the program will be prepared to take the Automotive Service Excellence (ASE) Automobile and Light Truck Certification tests.

**Learning Outcomes**

Students who successfully complete this program will be able to do the following:

- Apply appropriate safety procedures for working with and around shop equipment.
- Select and use the proper hand tools and equipment for a variety of specific automotive repair tasks.
- Use diagnostic equipment to analyze engine controls and other subsystems on light-duty automobiles and trucks.
- Use diagnostic charts, schematics, and meters to analyze faults in light-duty automobiles and trucks.
- Demonstrate a general proficiency in areas of the Automotive Service Excellence (ASE) Master Certification Standard: Automobile and Light Truck Certification tests and Automobile Parts Specialist Certification test.

**BUILDING CONSTRUCTION TECHNOLOGY - ASSOCIATE OF APPLIED SCIENCE (MAJOR CODE - BCT)**

*The Building and Construction Technology Associate of Applied Science degree is inactive and students are not currently being admitted to the program.

The Building Construction Technology Associate of Applied Science degree is intended for experienced construction workers looking to upgrade their skills and for students seeking employment as construction workers, supervisors, and estimators in the field. It gives students the skills required for the appropriate National Center for Construction Education and Research (NCCER) certification and for most construction apprenticeships.

**Learning Outcomes**

Students who successfully complete this program will be able to do the following:

- Apply industry-recognized competency in various construction skills.
- Demonstrate the ability to follow a blueprint to estimate and build from foundation to finish using carpentry, electrical, plumbing, and HVAC skills.
- Demonstrate the ability to understand and incorporate sustainable (green) practices in the construction field.

Cultural Arts - Associate of Applied Science (Major Code - CUL)

The Culinary Arts Associate of Applied Science degree provides training in the culinary arts for the purpose of direct employment in the field of professional cooking as an assistant to the chef or to the food and beverage director.

Learning Outcomes

Students who successfully complete this program will be able to do the following:

- Demonstrate the ability to apply sanitation and safety procedures in the use of culinary tools and equipment.
- Demonstrate an understanding of purchasing, receiving, storage, and issuing controls, while applying the basic mathematical formulas for food and labor costs.
- Assemble and serve an international banquet.
- Plan and create a menu that incorporates theme, concept, nutrition, balance of flavor, proper preparation, cooking techniques, terminology, proper serving, and explanation of completed dishes.
- Demonstrate the cooking and leadership skills of a chef de cuisine by employing restaurant-style cookery, to include use of garde manger, saucier, and baking techniques.
- Transfer to a Bachelor of Arts program in the hospitality industry.

Residential Construction Technology - Associate of Applied Science (Major Code - RCT)

The Residential Construction Associate of Applied Science degree helps students develop social consciousness by providing them with an experiential-learning opportunity which involves the construction of homes. Students interpret blueprint drawings and participate in all facets of their construction project while practicing worksite safety. They also learn about climate control in residential construction.

Learning Outcomes

Students who successfully complete this program will be able to do the following:

- Identify all necessary stages of a residential construction build.
- Demonstrate the ability to lay a concrete foundation for a residential dwelling.
- Demonstrate the ability to apply wall coverings for a residential dwelling.
- Demonstrate the ability to apply finishing to the exterior of a residential dwelling.
- Demonstrate the ability to construct a functional roof on a residential dwelling.
- Demonstrate the ability to apply floor coverings in a residential dwelling.
- Demonstrate the ability to hang doors and cabinets.
- Identify and apply industry-standard safety strategies and techniques.
- Interpret blueprint drawings.
- Demonstrate mathematical and HVAC skills related to residential construction.

#### WELDING TECHNOLOGY - ASSOCIATE OF APPLIED SCIENCE (MAJOR CODE - WLD)

The Welding Technology Associate of Applied Science degree is designed to prepare students to enter the workforce in almost any facet of the diverse field of welding technology. It addresses the needs of beginners as well as those of experienced welders looking to upgrade their skills and certifications.

#### Learning Outcomes
Students who successfully complete this program will be able to do the following:

- Demonstrate appropriate safe work habits when operating oxyfuel and electric arc welding equipment.
- Use proper terminology associated with welding to communicate effectively with co-workers, supervisors, customers, inspectors, engineers, and vendors.
- Successfully perform welding operations using appropriate processes on various metals and in various situations.
- Demonstrate the ability to interpret blueprints and welding symbols in order to fabricate components.

#### Certificate Programs

### AEROSPACE THERMAL FUSION - CERTIFICATE (MAJOR CODE - AETF)

The Aerospace Thermal Fusion Certificate teaches welding skills along with basic computer skills, applied mathematics skills, and technical writing skills in preparation for entry-level welding jobs in industries such as aviation, aerospace, motorsports, and exotic material fabrication. It also provides the knowledge and skills required for certification under American Welding Society (AWS) or Military Standard (MIL-STD) welding codes.

#### Learning Outcomes
Students who successfully complete this program will be able to do the following:

- Demonstrate the ability to perform entry-level welding skills required in industries such as aviation, aerospace, motorsports, and exotic material fabrication.
- Demonstrate the ability to interpret blueprints and welding symbols.
- Demonstrate applied mathematics and technical writing skills.
- Demonstrate safe work habits when operating welding equipment.
- Complete basic welding operations using appropriate gas tungsten arc welding processes on various metals and in various situations.

Chef Patissier – Baker’s Apprentice - Certificate (Major Code - BKRA)

The Chef Patissier – Baker’s Apprentice Certificate provides training in the principles of professional baking, food and beverage control, and restaurant sanitation. It is intended for those with a background in cooking who wish to become an assistant baker and work in a bakery.

Learning Outcomes
Students who successfully complete this program will be able to do the following:
- Identify and employ equipment and utensils used in baking and discuss their proper use and care.
- Demonstrate the proper selection of equipment and utensils for specific baking applications.
- Identify baking ingredients and describe their functions.
- Demonstrate proper scaling and measurement techniques.
- Apply basic mathematics skills to recipe conversions.

GENERAL COMPUTER-AIDED DRAFTING - CERTIFICATE (MAJOR CODE - GCAD)

The General Computer-Aided Drafting Certificate teaches entry-level computer-aided design (CAD) skills using AutoCAD software.

Learning Outcomes
Students who successfully complete this program will be able to do the following:

• Use the AutoCAD® software program to create drawings from scratch and to modify, manipulate, copy, delete, save, and plot drawings.
• Convert 2D drawings to 3D drawings.
• Use the full range of AutoCAD® commands and options, use the keyboard, toolbar, and menu interfaces, and employ shortcuts and time-saving strategies to operate effectively as a CAD technician.
• Demonstrate basic knowledge of drafting techniques and blueprint reading.
• Demonstrate knowledge of basic materials and processes used in the current technology workplace.

HVAC REFRIGERATION - CERTIFICATE (MAJOR CODE - REFR)

The HVAC Refrigeration Certificate prepares students for direct employment in the refrigeration industry by teaching the skills required to service, troubleshoot, maintain, and install walk-in refrigerators and freezers, reach-in refrigerators and freezers, and ice machines.

Learning Outcomes
Students who successfully complete this program will be able to do the following:

• Identify the equipment and controls used in low- and medium-temperature refrigeration equipment.
• Read and evaluate electronic controls diagrams associated with foodservice equipment and ice machines.
• Evaluate and resolve problems associated with low- and medium-temperature equipment, ice machines, and specialty equipment.
• Implement appropriate safety procedures at all times.

This program is a study of the theory of light vehicle diesel engines and their various systems, and of the diagnosis and repair of problems common to them. Students diagnose and repair these engines and systems in preparation for the Automotive Service Excellence (ASE) certification test on light vehicle diesel engines.

Learning Outcomes
Students who successfully complete this program will be able to do the following:

• Apply appropriate safety procedures for working with and around shop equipment.
• Diagnose and repair general engine controls and computerized engine controls.
• Diagnose the mechanical condition of a light vehicle diesel engine, including the disassembling and measurement of a diesel engine.
• Diagnose and repair fuel management systems on a light vehicle diesel engine, including air and fuel induction systems.
• Diagnose and repair exhaust and emission systems on a light vehicle diesel engine.
• Diagnose and repair electronic communication systems on a light vehicle diesel engine.

SOUS CHEF APPRENTICE - CERTIFICATE (MAJOR CODE - SCCA)

The Sous Chef Apprentice Certificate provides training in all areas of professional cooking including food and beverage control, restaurant sanitation, meat cutting, gourmet preparations, baking, and garde manger. It also provides field experience in restaurant and dining-service operations.

Learning Outcomes

Students who successfully complete this program will be able to do the following:

• Demonstrate the ability to apply sanitation and safety procedures in the use of culinary tools and equipment.
• Demonstrate an understanding of purchasing, receiving, storage, and issuing controls, while applying the basic mathematical formulas for food and labor costs.
• Assemble and serve an international banquet.
• Plan and create a menu that incorporates theme, concept, nutrition, balance of flavor, proper preparation, cooking techniques, terminology, proper serving, and explanation of completed dishes.
• Demonstrate the cooking and leadership skills of a chef de cuisine by employing restaurant-style cookery, to include use of garde manger, saucier, and baking techniques.

WELDING TECHNOLOGY - CERTIFICATE (MAJOR CODE - WLD)

The Welding Technology Certificate prepares students to enter the workforce with diverse welding skills and with knowledge of design concepts used in the welding industry.

Learning Outcomes

Students who successfully complete this program will be able to do the following:

• Demonstrate appropriate safe work habits when operating oxyfuel and electric arc welding equipment.
• Use proper terminology associated with welding to communicate effectively with co-workers, supervisors, customers, inspectors, engineers, and vendors.
• Successfully perform basic welding operations using appropriate processes on various metals and in various
situations with an emphasis on the shielded metal arc welding (SMAW) process.

• Demonstrate the ability to interpret blueprints and welding symbols in order to fabricate components.

**MILITARY PROGRAMS**

**Associate of Applied Science**

**INTELLIGENCE OPERATIONS STUDIES - ASSOCIATE OF APPLIED SCIENCE (MAJOR CODE - IOST)**

The Intelligence Operations Studies Associate of Applied Science degree addresses the career and educational goals of students currently in or preparing to be in the intelligence field. It is designed specifically for military intelligence specialists and for students who are interested in intelligence operations studies.

Military credit toward this degree may apply, based on skill level, training, and/or coursework from military schools attended. See an academic advisor at the Fort Huachuca Center for details.

**Learning Outcomes**

Students who successfully complete this program will be able to do the following:

• Demonstrate knowledge of applicable laws, codes, and statutes as they relate to the intelligence community, control of sensitive information, and operations planning.

• Analyze and explain the history, tactics, structure, and technology used by spies, and discern the methods used by the intelligence community to protect national security.

• Explain the structure and function of the US Intelligence Community.

• Research and differentiate among the treats that face the U.S. Intelligence Communities.

Note: Depending upon area of concentration, additional learning outcomes may apply.

**CORE CURRICULUM 21 CREDITS**

Any 21 credits from the Cochise College Intelligence Operations Studies (IOS)/Military Intelligence Operations (MIO) course offerings. See schedule for a list of available courses.

**ELECTIVES (AS NEEDED TO COMPLETE THE DEGREE) TOTAL DEGREE REQUIREMENTS 60 CREDITS**
Note: A minimum of nine credits, from the 60 total credits in this degree, must be completed with 200-level courses.

UNMANNED AERIAL VEHICLE FLIGHT OPERATOR - ASSOCIATE OF APPLIED SCIENCE (MAJOR CODE - UAVO)

The Unmanned Aerial Vehicle Flight Operator Associate of Applied Science degree is designed for unmanned aerial vehicle (UAV) flight operators currently in the military who are seeking to improve their credentials and career prospects in the field. It focuses on aviation systems and the flight operation of UAVs.

Military credit toward this degree may apply, based on skill level, training, and/or coursework from military schools attended. See an academic advisor for details.

THE UNMANNED AERIAL VEHICLE FLIGHT OPERATOR ASSOCIATE OF APPLIED SCIENCE DEGREE IS RUN THROUGH THE MOS CREDENTIALING PROGRAM ON FORT HUACHUCA AND DOES NOT FOLLOW STANDARD SEMESTER SCHEDULING.

Learning Outcomes

Students who successfully complete this program will be able to do the following:

- Apply the techniques required to effectively employ and retrieve an unmanned aerial vehicle (UAV) in modern operational environments.
- Demonstrate an understanding of aviation regulations and communications, and of the UAV’s aerodynamic characteristics, special features, and major components.
- Apply the knowledge and skills required to safely operate the aircraft.
- Perform reconnaissance, surveillance, and target acquisition in support of ground forces.
- Demonstrate the skills required to interpret UAV electro-optical and infrared video, and provide rapid feedback on target identification and activities.

UNMANNED AIRCRAFT SYSTEMS TECHNICIAN - ASSOCIATE OF APPLIED SCIENCE (MAJOR CODE - UAVT)

The Unmanned Aircraft Systems Technician Associate of Applied Science degree is designed for unmanned aircraft systems (UAS) technicians currently in the military who are seeking to improve their credentials and career prospects in the field. It focuses on mechanical and electronic aircraft systems.

Military credit toward this degree may apply, based on skill level, training, and/or coursework from military schools attended. See an academic advisor for details.

THE UNMANNED AIRCRAFT SYSTEMS TECHNICIAN ASSOCIATE OF APPLIED SCIENCE DEGREE IS RUN THROUGH THE MOS CREDENTIALING PROGRAM ON FORT HUACHUCA AND DOES NOT FOLLOW STANDARD SEMESTER SCHEDULING.

Learning Outcomes

Students who successfully complete this program will be able to do the following:

- Demonstrate the knowledge and skills required to use specialty tools and to perform maintenance inspections, assembly, disassembly, and fault isolation of aircraft systems.
- Perform required maintenance on launch and recovery equipment and the power plant, and on the fuel system, flight control system, electrical system, and arresting gear and landing system.
- Apply the skills required to maintain, troubleshoot, and repair launch and recovery equipment, and support equipment.
- Apply the skills required to maintain, troubleshoot, and repair the ground control station and the ground data terminal, as well as aircraft avionics and mission payloads.
- Demonstrate the skills required in the emplacement and displacement of Shadow Unmanned Aircraft Systems (UAS).

NETWORK TECHNOLOGY - ASSOCIATE OF APPLIED SCIENCE (MAJOR CODE - NWT)

The Network Technology Associate of Applied Science degree provides students with the knowledge and skills for immediate employment in the field of computer networking. Major areas of study include network fundamentals, Linux, network security, Active Directory, and network troubleshooting.

Learning Outcomes
Students who successfully complete this program will be able to do the following:

• Diagnose and remedy many of the common causes of network failure in current network operating systems.
• Demonstrate the ability to interconnect multiple networks and servers using current network operating systems.
• Install additional PC workstations by using current network technologies and by properly configuring network hardware, software, and user accounts.
• Determine with reasonable accuracy whether network user problems arise from the workstation, network cabling, network configuration, or network application; and take steps to correct the problems.
• Demonstrate proficiency with a variety of networking technologies including, but not limited to, network routing, Linux, and Microsoft.

SCIENCE, TECHNOLOGY, ENGINEERING & MATH

BIOLOGY - ASSOCIATE OF SCIENCE

(MAJOR CODE - BIO)

The Biology Associate of Science degree prepares students for transfer to a university program in biological sciences or health professions. To ensure seamless transfer, students must develop their specific program of study in close coordination with a Cochise College advisor.

Learning Outcomes
Students who successfully complete this program will be able to do the following:

• Demonstrate a working understanding of biological laboratory techniques including microscopy.
• Demonstrate an understanding of the processes of aerobic and anaerobic respiration.
• Demonstrate an understanding of the steps of molecular genetics including the concept of the gene and its expression.
• Demonstrate an understanding of cellular biology.
• Explain biological evolution, including natural selection and speciation, and the rules of nomenclature.
• Demonstrate an understanding of ecological principles.
• Demonstrate an understanding of basic concepts of statistics, data collection, probability, and statistical testing as they relate to the biological sciences.
• Demonstrate an understanding of the general principles of physics.

CHEMISTRY - ASSOCIATE OF SCIENCE (MAJOR CODE - CHM)

The Chemistry Associate of Science degree prepares students for transfer to a university program in chemistry, biochemistry, chemical engineering, or various health professions. To ensure seamless transfer, students must develop their specific program of study in close coordination with a Cochise College advisor.

Learning Outcomes

Students who successfully complete this program will be able to do the following:

• Calculate the pH, pOH, and the concentration of hydrogen ions and hydroxide ions for strong and weak acid and base solutions.

• Find the solubility of a solute using the solubility product constant and explain the effect a common ion has on solubility.

• Perform an acid-base titration to find the molarity of an acid solution using a base that has been standardized.

• Identify and describe patterns of functional group reactivity through the development of logical mechanistic schemes.

• Successfully complete the synthesis of organic products and their analysis by characterization of their functional groups.

TOTAL DEGREE REQUIREMENTS 64 CREDITS

COMPUTER SCIENCE - ASSOCIATE OF SCIENCE (MAJOR CODE - CSC)

The Computer Science Associate of Science degree prepares students for transfer to a university program in computer science. To ensure seamless transfer, students must develop their specific program of study in close coordination with a Cochise College advisor and in consultation with a CIS faculty member.

Learning Outcomes

Students who successfully complete this program will be able to do the following:

- Demonstrate mathematical proficiency at the Calculus III level.
- Create solutions to typical information systems problems.
- Correctly design modular programs.
- Correctly design assembler language programs.
- Apply Java language structures.
- Test and debug Java programs.
- Design and implement combinational logic circuits with SSI elements (AND, OR, NOT, NAND, NOR, XOR and XNOR gates).
- Design and implement combinational logic circuits with MSI elements (multiplexors, decoders, adders, comparators, multipliers, tri-state buffers), and programmable logic devices (PLDs).

ENGINEERING - ASSOCIATE OF SCIENCE (MAJOR CODE - EGR)

The Engineering Associate of Science degree prepares students for transfer to a university program in a wide variety of engineering majors. To ensure seamless transfer, students must develop their specific program of study in close coordination with a Cochise College advisor.

Learning Outcomes

Students who successfully complete this program will be able to do the following:

- Demonstrate the ability to apply mathematics and science knowledge and skills in an engineering context.
- Design a system, components, or process to meet given specifications and constraints, including economic, environmental, social, political, ethical, health and safety, manufacturing, and sustainability issues.
- Demonstrate an understanding of professional and ethical responsibility.
- Exhibit the ability to function on multidisciplinary teams.
- Demonstrate a knowledge of the techniques, skills, and modern engineering tools necessary for engineering practice.

**PHYSICS - ASSOCIATE OF SCIENCE (MAJOR CODE - PHY)**

Physics is concerned with the nature, structure and interactions of matter and radiation. The AS degree program in physics provides students a solid foundation in physical science and mathematics, which is also appropriate for further study in physics, other sciences, or engineering programs.

**Learning Outcomes**

Students who successfully complete this program will be able to do the following:

- Demonstrate significant knowledge of the theories that form the bases of classical mechanics and electromagnetism.
- Design, conduct, document, analyze and critically interpret the results of experiments to investigate physical phenomena
- Utilize integrated knowledge of mathematical or computational skills to investigate physical phenomena.
- Communicate results of experiment analysis in both written and oral forms.

Associate of Applied Science

ANIMAL SCIENCE - ASSOCIATE OF APPLIED SCIENCE (MAJOR CODE - AGRA)

The Animal Science Associate of Applied Science degree is designed to prepare students for a career in the agricultural profession or for transfer to a university Bachelor of Applied Science degree program. It focuses on the science of livestock production and management.

Learning Outcomes

Students who successfully complete this program will be able to do the following:

- Identify and conceptualize all aspects of animal science including the economic, environmental, and global impact on animal production programs.
- Implement sound range management practices and describe the importance of animal nutrition, genetics, and reproductive physiology to ensure sustainable animal production.
- Develop appropriate animal feeding systems for agricultural and companion animals.
- Communicate in a professional manner using written and verbal language to apply language, math and technology for animal science.

ELECTIVES (AS NEEDED TO COMPLETE THE DEGREE) TOTAL DEGREE REQUIREMENTS 60-61 CREDITS

CROP SCIENCE - ASSOCIATE OF APPLIED SCIENCE (MAJOR CODE - AGRC)

The Crop Science Associate of Applied Science degree exposes students to the operations of various organizations comprising agriculture in Cochise County. Students learn about crop production through the study, in both theory and practice, of biology and chemistry, crop science, soil science, entomology, range management, natural resources management, and sustainability.

Learning Outcomes

Students who successfully complete this program will be able to do the following:

- Demonstrate an understanding of plant species and varieties.
- Explain what factors dictate crop yield.
- Demonstrate an understanding of plant breeding and various methods used in the agronomy industry.
- Identify and apply diagnostic clues used to determine causal agents of pest problems.
- Identify different classes and orders of insects according to their characteristics.
- Explain the impact that insects may have on businesses, the economy, and the environment.
- Explain the uses of different herbicides and fertilizers.
- Demonstrate an understanding of integrated pest management.
- Demonstrate an understanding of crop seasonality.
- Identify different business models used by crop consultants when entering the business world.

#### Certificate Programs

**AGEC-S - Certificate (Major Code - AGCS)**

The Arizona General Education Curriculum - Science (AGEC-S) Certificate meets the general education requirements for math and science majors in the Associate of Science (AS) degrees.

**Learning Outcomes**

Students who successfully complete this program will be able to do the following:

- Demonstrate competency in communication, critical thinking, diverse and global perspectives, information literacy, and technology literacy.

**Degree Map**

**General Education Requirements 35-39 Credits**

### Social and Behavioral Sciences 6 credits

### Additional Mathematics and/or Laboratory Sciences 6-8 credits

Based on chosen major and after consulting with an advisor, select MAT 231, MAT 241, MAT 252, MAT 262, and/or appropriate laboratory science courses. See http://aztransmac2.asu.edu/cgi-bin/WebObjects/agec for a complete list.

Six credits of arts, humanities, social and behavioral sciences, or general education electives must be chosen from the current listing of intensive writing courses. See www.cochise.edu/AGEC. The cultural and historical or global awareness requirements are satisfied by completing the arts, humanities, and social and behavioral science portion of the AGEC.

### Total Certificate Requirements 35-39 Credits

**Animal Science - Certificate (Major Code - ASC)**

The Animal Science Certificate will examine key aspects of livestock production in Southeast Arizona. Courses will cover livestock production and management, range management, diseases and insect pests of livestock and their control.

**Learning Outcomes**

Students who successfully complete this program will be able to do the following:

- Identify and conceptualize aspects of animal science including economic, environmental, and global impact on animal production programs.
- Implement sound range management practices and describe the importance of animal nutrition, genetics, and reproductive physiology to ensure sustainable animal production.
- Demonstrate knowledge of insect pests of animals and their control measures including the components of a successful integrated pest management system.

### Total Certificate Requirements 16 Credits

**Crop Science - Certificate (Major Code - CRSC)**

The Crop Science Certificate will examine key aspects of crop production in Southeast Arizona including the agronomic practices of crop production, soils, entomology and irrigation...
management.

**Learning Outcomes**

Students who successfully complete this program will be able to do the following:

- Demonstrate knowledge of plant growth principles and functions, including reproduction and environmental influences for improving plant growth.
- Describe methods for determining soil fertility, plant nutrient deficiencies, water availability and the application of irrigation techniques.
- Demonstrate knowledge of insect pests of crops and their control measures including the components of a successful integrated pest management system.

**TOTAL CERTIFICATE REQUIREMENTS 17 CREDITS**

**Hemp Science - Certificate (Major Code - HSC)**

The Industrial Hemp Certificate examines all aspects of industrial hemp production. The certificate analyzes the various methods used to process hemp, the multiple industrial uses of hemp, the industrial economics of hemp production, and regulations governing hemp production. This certificate provides students with a foundation for agronomy and agricultural economics careers in the industrial hemp field.

**Learning Outcomes**

Students who successfully complete this program will be able to do the following:

- Apply knowledge of plant growth principles, processes, functions, reproduction, and environmental influences for improving industrial hemp growth.
- Integrate knowledge of insects, disease, and weed pests and their control measures including the components of a successful pest management system.
- Assess methods for determining soil fertility, plant nutrient deficiencies, water availability and the application of irrigation techniques.
- Evaluate methods for determining soil moisture, water availability and the application of irrigation techniques appropriate for hemp production in the arid southwest.
- Articulate legislative regulations governing hemp production.
- Assess the various industrial uses of hemp and the economics of hemp production, processing, and utilization.

**TOTAL CERTIFICATE REQUIREMENTS 17 CREDITS**

**Horticulture Science - Certificate (Major Code - HCSC)**

The Horticulture Science Certificate will examine key aspects of nursery, greenhouse and landscape horticulture in Southeast Arizona. Focusing on landscape plants in the arid southwest, the certificate includes courses in basic crop and soil sciences, insects and diseases of ornamental and vegetable plants.

**Learning Outcomes**

Students who successfully complete this program will be able to do the following:

- Demonstrate knowledge of plant growth principles, processes, and functions, including reproduction and environmental influences for improving plant growth.
- Summarize the sustainability principles, practices, and methods for producing greenhouse and nursery crops including comprehension of insect management, plant diseases and weeds related to plant health.
- Identify and recommend plants for various landscape uses.
- Apply proper propagation techniques for native and introduced plants commonly used in arid southwest landscapes.
- Describe methods for determining soil fertility, plant nutrient deficiencies, and soil fertility improvement processes.

**TOTAL CERTIFICATE REQUIREMENTS 17 CREDITS**
Courses

Hazardous materials: Certain courses may require students to work with potentially hazardous materials as part of their course work in the laboratory, darkroom, or workshop. Instructors will provide information on the safe handling of all materials to include, upon request, material safety data sheets (MSDS). Questions regarding the use of these materials or any required protective equipment should be directed to the instructor or a member of the specific academic department.

AGR - AGRICULTURE

AGR 101 - Principles of Veterinary Science (3)
A study of the diseases and the health maintenance of domestic animals and livestock. For those interested in animal science or husbandry, or in veterinary science.
3 hours lecture.
Prerequisite(s): None

AGR 102 - Introduction to Agriculture (3)
An introduction to agriculture which focuses on livestock production. Also deals with plants, soils, biotechnology, natural resources, and sustainable agriculture as it relates to the global food industry. Includes a survey of agricultural careers and safety practices.
3 hours lecture.
Prerequisite(s): None

AGR 105 - Range Management (3)
An introduction to the principles of range management including rangeland types, characteristics, and management; ecological principles; range inventory and monitoring systems; grazing systems and stocking rates; grazing distribution and range plant identification; and management of range vegetation and wildlife. Also deals with livestock production on rangelands and career opportunities in range management.
3 hours lecture.
Prerequisite(s): ENG 096 or higher.

AGR 109 - Introduction to Agriculture Laboratory (1)
Introduction to Agriculture Lab focuses on livestock production, plants, soils, biotechnology, natural resources, and sustainable agriculture as it relates to the global food industry and includes a survey of agricultural careers and safety practices This course augments the AGR 102 course, Introduction to Agriculture.
2 hours laboratory.
Prerequisite(s): Completion of AGR 102 or concurrent enrollment in AGR 102.

AGR 121 - Industrial Hemp Production (3)
Industrial Hemp Production analyzes the various methods used to process hemp, the multiple industrial uses of hemp, the industrial economics of hemp production, and regulations governing hemp production.
3 hours lecture.
Prerequisite(s): None.

AGR 135 - Introduction to Crop Science (3)
A study of crop science including plant physiology as well as plant species and varieties. Covers horticultural crops, row orchards, cover crops, and weed science. Explores plant breeding and plant requirements such as fertilizers, soil conditions, and harvesting.
3 hours lecture.
Prerequisite(s): None

AGR 201 - Artificial Insemination of Domestic Livestock (4)
The history, importance and implications of artificial insemination; advantages and limitations of its use in farm animals. Methods of collection, evaluation, storage of semen, and techniques of insemination are covered. Also, estrus evaluation, determination and synchronization techniques are studied. In addition, the domestic livestock female and male reproductive anatomy is discussed.
3 hours lecture, 2 hours laboratory.
Prerequisite(s): AGR 102 and AGR 208.

AGR 203 - Integrated Pest Management (3)
Integrated Pest Management (IPM) will introduce the student to the fundamental theories, principles and practices of pest control for agriculture, ornamental horticulture and greenhouse pests Diagnostic skills for insect, disease and weed identification will be presented. Topics will include learning how integrated pest control differs from conventional pest control and how to use IPM decision-making processes when delivering pest control services.
3 hours lecture.
Prerequisite(s): None

AGR 204 - Principles of Irrigation (3)
Principles of irrigation introduces the student to the basic concepts, tools and skills to deliver water efficiently and effectively on field, garden and greenhouse scale. Topics will include the role of irrigation water in agriculture, the movement and cycling of water in agriculture systems, and the environmental factors that influence the type, frequency and duration of irrigation.
3 hours lecture.
Prerequisite(s): None
AGR 205 - Landscape Plants for the Southwest (3)
Landscape Plants for the Southwest focuses on plants appropriate for use in landscaping design and revegetation in the southwestern United States. Topics include the identification of common and scientific names and cultural requirements of insect and disease pests and use of indigenous, introduced, and exotic landscape plants in commercial and residential design.
3 hours lecture.
Prerequisite(s): None

AGR 208 - Animal Science (3) ‡
An introduction to animal science as it relates to nutrition, digestion, breeding, and reproduction. Includes an overview of global agricultural systems and of the fundamental principles of the animal science industries as they relate to dairy, beef, poultry, and swine.
3 hours lecture.
Prerequisite(s): AGR 102.

AGR 214 - Soil Science (4) ‡
A study of the fundamental principles of soil science including the origin, nature, and composition of soils; their chemical, physical, and biological properties in relation to plant growth; and their non-plant uses.
3 hours lecture, 3 hours laboratory.
Prerequisite(s): CHM 130, CHM 138, or CHM 151.

AGR 218 - Plant Propagation (3) ‡
Plant Propagation will provide students with an introduction to the principles, techniques and facilities needed for successful plant propagation in the greenhouse and nursery industries. The course will focus on basic biological concepts associated with plant structure, function and reproduction. This course will include hands-on laboratory exercises, which emphasize differences between sexual and asexual propagation of plants.
3 hours lecture.
Prerequisite(s): None

AGR 220 - Agriculture Practicum (4) °
In this practicum, students apply knowledge from their agriculture coursework in a work setting. They complete 320 supervised hours in their area of interest with a professional from the agricultural industry.
1 hour lecture, 11 hours laboratory.
Prerequisite(s): AGR 102 or AGR 237, sophomore standing, a declared major in agriculture, and approval of the agriculture committee.

AGR 225 - Principles of Agribusiness (3)
An introduction to the principles of economics and their application to real world agribusiness management. Topics include food production and processing, and marketing systems. Also covers management principles and processes for agricultural business firms in both domestic and international markets, as well as the development of problem-solving skills as they relate to agribusiness management.
3 hours lecture.
Prerequisite(s): MAT 091 or higher.

AGR 230 - Feeds and Feeding (3)
A study of the digestibility of feeds and their nutritive values, grades, and classes. Also covers the principles of selection, evaluation, traditional ration formulation, computer ration formulation, and feeding of livestock and poultry. Includes laws and labeling as they pertain to feeds, and a review of animal nutrition and ruminant and monogastric digestion.
3 hours lecture.
Prerequisite(s): AGR 208 or AGR 237; and CHM 130, CHM 138, or CHM 151.

AGR 235 - Introduction to Entomology (4)
An introduction to entomology as it pertains to agriculture and natural resources. Topics include insects and their physiology, growth, and life cycles. Emphasis is on the classification of insects and their economic importance to and impact on the environment.
3 hours lecture, 2 hours laboratory.
Prerequisite(s): AGR 102.

AGR 237 - Equine Science and Management (4) ‡
An introduction to the light horse industry. Topics include the evolution and fundamentals of Equus, as well as breeds, classes, and methods of identification. Also covers anatomical systems, the hoof, nutrition, disease, health management, and daily care. Introduces the student to various career opportunities in the equine industry.
3 hours lecture, 3 hours laboratory.
Prerequisite(s): ENG 096 or higher.

AGR 243 - Livestock Production and Management (3)
A study of the operational methods of livestock production utilized in the breeding and managing of beef and dairy cattle, swine, sheep, and goats. Emphasis is on economically important traits, animal selection, marketing and management, and on the economic principles of the livestock industry. Covers the impact of biotechnology on livestock. Additional topics include genetic defects, body conditioning scoring techniques within species, and current domestic and global trends in livestock production. Introduces the student to various career opportunities in livestock production.
3 hours lecture.
Prerequisite(s): AGR 102 and AGR 208.
AGR 255 - Agriculture and the Environment (3)
A study of the conservation and sustainable management of natural resources which exposes students to various careers in environmental science. Topics include social and ecological issues and how they affect policies at local, state, and national levels. Also covers soil, water, grazing, forestry, and wildlife as well the influence of humans on these resources.
3 hours lecture.
Prerequisite(s): AGR 105.

AGR 264 - Crop Consulting (4)
A study of crop consulting and its importance to the crop growing industry. Topics include crop needs, crop seasonality, and plant varieties. Also covers herbicides and fertilizers, integrated pest management, plant disorders, and irrigation management. Explores cost forecasting, business model options, and crop growing plans as they relate to the industry.
3 hours lecture, 3 hours laboratory.
Prerequisite(s): None

AJS - ADMINISTRATION OF JUSTICE

AJS 101 - Introduction to Administration of Justice (3) *
A study of the philosophy, ethics, constitutional parameters, and organization of the criminal justice system. Also deals with legal terminology. Topics include causes of and responses to crime; the criminal justice system’s law enforcement, judicial, and corrections components and their respective jurisdictions; and criminal justice issues.
3 hours lecture.
Prerequisite(s): RDG 092 or exemption.

AJS 109 - Substantive Criminal Law (3) *
A study of the philosophy of legal sanctions and their historical development, from common law to modern American criminal law. Topics include the judicial process, the classification of crimes, the elements of a crime, parties to a crime, inchoate offenses, and criminal defenses.
3 hours lecture.
Prerequisite(s): AJS 101, and RDG 092 or exemption.

AJS 126 - Ethics and Criminal Justice (3) *
Ethics and Criminal Justice is the study of ethical issues, cultural influences, and moral theories as they relate to the justice system. This course will focus on underlying values and ethical challenges faced by law enforcement, attorneys, the judiciary, and correctional staff. Specific ethical scenarios common to the criminal justice system will be addressed, emphasizing critical thinking and value decision making.
3 hours lecture.
Prerequisite(s): AJS 101, ENG 101.

AJS 192 - Special Topics in Administration of Justice (0.5-3) *
Seminars designed for professional development and personal skill enhancement within the criminal justice career field with emphasis on the mastery and effective utilization of the topic under study.
Prerequisite(s): Varies by topic. Permission of instructor or Administration of Justice Department.

AJS 204 - Elements of Intercultural Communication (3) *
An introduction to communication across cultures. Emphasis is on the theory underlying intercultural communication and on the practical application of communication strategies and skills that lead to improved communication among people of diverse cultural backgrounds in a multicultural society and world.
3 hours lecture.
Prerequisite(s): ENG 101 or permission of instructor. Cross-Listed as: COM 204.

AJS 224 - Field Experience in Administration of Justice (1-3)
A supervised cooperative education field experience involving the combined efforts of educators and employers. Students accomplish various academic and career-related objectives in administration of justice and related fields. Semester-long regular workplace participation and weekly contact with assigned faculty advisor are required.
Prerequisite(s): A declared major in administration of justice and AJS 101.

AJS 225 - Criminology (3)
The study of deviance and the role of social context in defining criminal behavior. Covers theories of criminality; the economic, social, and psychological impact of crime; societal responses; and crime trends.
3 hours lecture.
Prerequisite(s): AJS 101, ENG 101, and RDG 092 or exemption. Recommended Preparation: PSY 101 or SOC 101.

AJS 230 - The Police Function (3)
A study of the history and development of correctional theories and institutions. Includes the history of corrections and punishments in the United States. Also explores the purposes of punishment, and staff and inmate rights and issues.
3 hours lecture.
Prerequisite(s): AJS 101, ENG 101, and RDG 092 or exemption.
AJS 275 - Criminal Investigations (3) °
A study of the theory of criminal investigation, crime scene procedures, case preparation, interviewing, and basic investigative techniques.
3 hours lecture.
Prerequisite(s): AJS 101, ENG 101, and RDG 092 or exemption.

AMT - AVIATION MAINTENANCE TECHNOLOGY

AMT 210 - Unmanned Aircraft Systems Fundamentals (6)
An introduction to the fundamentals and maintenance of unmanned aircraft systems (UAS). Includes operational safety, basic flight principles, aviation maintenance fundamentals, common and precision tool usage, and maintenance management systems.
3 hours lecture, 9 hours laboratory.
Prerequisite(s): Must be a sponsored employee of the Department of Defense (DOD) or of a DOD UAS contractor.

AMT 212 - Unmanned Aircraft Systems Mechanical Maintenance (14)
A study focusing on the maintenance and repair of unmanned aircraft systems (UAS). Emphasis is on assembly and disassembly, periodic inspection, scheduled maintenance, preparation for flight, and repair. Includes takeoff and landing systems, aircraft operations, ground control stations, ground data terminals, and equipment used to perform operational checks.
8 hours lecture, 18 hours laboratory.
Prerequisite(s): Must be a sponsored employee of the Department of Defense (DOD) or of a DOD UAS contractor.

ANT - ANTHROPOLOGY

ANT 101 - Bones, Stones, and Human Evolution (4) °
Where did we come from? How did we get here? Biological anthropology offers a unique perspective on these topics. In this course, we will explore the interaction between biology and culture through genetics, non-human primates, human evolution, and modern human variation.
3 hours lecture, 2 hours laboratory.
Prerequisite(s): RDG 092 or exemption.

ANT 102 - Society and Culture (3) °
A theoretical and practical introduction to cultural anthropology, which studies the cultural forces affecting the human way of life. Examines the history of Western culture as well as contemporary issues related to human culture. Topics include material culture, technology, religion, language, and social, political, and economic systems.
3 hours lecture.
Prerequisite(s): RDG 092 or exemption.

ANT 110 - Exploring Archaeology (3) °
An archaeological exploration tracing human cultural development from the earliest cultures using stone tools to the initial civilizations of the Old and New Worlds.
3 hours lecture.
Prerequisite(s): RDG 092 or exemption.

ANT 235 - Principles of Archaeology (3) °, ~
An introduction to the methods used in archaeological research and its interpretation, and to the theories used to reconstruct human prehistory. Emphasis is on the practical aspects of archaeology, including excavation techniques, and data analysis and interpretation.
3 hours lecture.
Prerequisite(s): ENG 101, and RDG 092 or exemption.

ANT 286 - Historic Native Peoples of North America (3) ~
You'd be surprised what your high school history teacher didn't tell you! The native peoples of North America are often a footnote in our high school history texts. This class explores the unique cultural diversity of native peoples through ethnographic accounts. Topics include political organization, social organization, economics, material culture, religion, gender, European contact, and current issues. Cultures from ten different geographical areas are explored.
3 hours lecture.
Prerequisite(s): ENG 101 or completion of or concurrent enrollment in ENG 102 or ENG 102H, and RDG 092 or RDG 122 or exemption.

ANT 287 - Archaeology of the Southwest (3) °, ~
A study of the prehistoric peoples of the American Southwest from the late Pleistocene period to the Spanish Conquest. Emphasis is on the use of archaeological methods to trace the development of prehistoric cultures within key regions of the Southwest.
3 hours lecture.
Prerequisite(s): ENG 101, and RDG 092 or exemption.

ANT 299 - Individual Studies (1-4)
Completion of a research problem or an outlined course of study under the direction of a faculty member with contract for the individual study agreed upon by the student, the instructor, and the appropriate instructional manager prior to initiation of the study.
Prerequisite(s): Approval of appropriate instructional manager and instructor.

ART - ART

ART 103 - Two-Dimensional Design and Composition (3) *, ‡, °
This course is an introduction to the basic elements of art and principles of composition. Students will explore and identify visual language through two-dimensional investigations. ART
103 emphasizes creative problem solving and design problems through the organization of visual information.
2 hours lecture, 4 hours studio.
Prerequisite(s): None

ART 106 - Drawing Foundations (3) *
This course is an introduction to the fundamentals of drawing using black and white media. Drawing Foundations emphasizes the development of skills in observation, personal expression, and abstract thinking. Students will be introduced to drawing as a key component in creative problem solving as well as a tool for critical thinking.
2 hours lecture, 4 hours studio.
Prerequisite(s): None

ART 107 - Survey of World Art: Prehistoric - Gothic (3) *, °
A survey presentation of the art and architecture of Western civilizations through the Gothic era, including prehistoric cultures of the world.
3 hours lecture.
Prerequisite(s): RDG 092 or exemption.

ART 108 - Survey of World Art: Renaissance to the Twentieth Century (3) *, °
A survey presentation of the art and architecture of Western civilizations from the Renaissance through the 20th century.
3 hours lecture.
Prerequisite(s): RDG 092 or exemption.

ART 120 - Appreciation of the Visual Arts (3)
A general overview of the visual arts, including philosophies, history, techniques, various media, and elements of design. Fulfills the art education requirement for teacher certification at the University of Arizona.
3 hours lecture.
Prerequisite(s): ENG 096 or higher.

ART 130 - Painting for Personal Development I (2) ‡
An introduction to the techniques of either oil or acrylic painting, with an emphasis on materials and composition. For those interested in art as a career, or for personal growth and self-expression.
1 hour lecture, 3 hours studio.
Prerequisite(s): None Recommended Preparation: ART 103.

ART 131 - Painting for Personal Development II (2) ‡
A continued study of either oil or acrylic painting, with emphasis on developing unique, expressive pictorial skills. For those interested in art as a career, or for personal growth and self-expression.
1 hour lecture, 3 hours studio.
Prerequisite(s): ART 130 or permission of instructor.

ART 216 - Intermediate Drawing (3) ‡, °
This course further develops drawing fundamentals with an emphasis on color media by utilizing representational drawing with an emphasis on local color, perceptual color, and expressive color. Student will continue to develop skills in observation, personal expression, abstract thinking, and creative problem solving.
2 hours lecture, 4 hours studio.
Prerequisite(s): ART 106 or permission of instructor. Recommended Preparation: Art majors must have ART 103 or permission of instructor.

ART 217 - Advanced Drawing (3)
This course is an advanced investigation of drawing through ideation, material investigation, visual language development, and research. Students will investigate materials as it relates to their subject matter and process through self-directed projects.
2 hours lecture, 4 hours studio.
Prerequisite(s): ART 216.

ART 220 - Printmaking I (3) ‡
An introductory course in printmaking as a visual language of expression. Various relief printmaking processes are addressed through the exploration of basic tools, equipment and techniques used in these processes. Emphasis is placed on the proper use of the tools and equipment and the development of skills pertaining to form and content in the creation of individual works of art.
2 hours lecture, 4 hours studio.
Prerequisite(s): ART 103, ART 106, or permission of instructor. Recommended Preparation: ART 216 and ART 245.

ART 225 - Printmaking II (3) ‡
An intermediate course in printmaking as a visual language of expression. Various relief printmaking processes are addressed through the exploration of basic tools, equipment and techniques used in these processes. Emphasis is placed on the proper use of the tools and equipment and the continued development of skills pertaining to form and content in the creation of individual works of art.
2 hours lecture, 4 hours studio.
Prerequisite(s): ART 220 and either ART 103, ART 106, or permission of instructor. Recommended Preparation: ART 216 and ART 245.

ART 230 - Color and Composition (3) ‡
This course is an intermediate investigation of two-dimensional design with an emphasis on color theory. Students will use a variety of media and techniques to explore complex color relationships and refined compositional theory.
2 hours lecture, 4 hours studio.
Prerequisite(s): Art 103.

ART 231 - Three-Dimensional Design and Sculpture (3) *, ‡
An introduction to the basic elements of three-dimensional design: form, volume, space, mass, line, plane, proportion, balance, texture, structure, and site. Focus is on arranging these elements within a three-dimensional framework through
techniques such as sculpting, carving, building, and assembling. For those interested in art as a career, or for personal growth and self-expression.

2 hours lecture, 4 hours studio.
Prerequisite(s): None Recommended Preparation: Art majors must have ART 103, ART 106, or permission of instructor.

**ART 245 - Figure Drawing (3) ‡**

An introduction to figure drawing using live models. Designed to develop perceptual and pictorial skills, with an emphasis on the human figure in its environment. For those interested in art as a career, or for personal growth and self-expression.

2 hours lecture, 4 hours studio.
Prerequisite(s): ART 106 or permission of instructor.

**ART 270 - Ceramics I (3) ‡**

An introduction to clay and glaze, and to their contribution to the development of contemporary ceramic art. Covers techniques involved in the processes of hand building and wheel throwing. For those interested in art as a career, or for personal growth and self-expression.

2 hours lecture, 4 hours studio.
Prerequisite(s): None Recommended Preparation: Art majors must have ART 103 or ART 106, and ART 231; or permission of instructor.

**ART 273 - Ceramics IIA (3) ‡**

A continuation of ART 270 which includes intermediate and advanced hand-building techniques and fabrication methods. Students develop projects with formal elements, build skills in surface treatment and firing, and explore topics on the history of clay. For those interested in art as a career, or for personal growth and self-expression.

2 hours lecture, 4 hours studio.
Prerequisite(s): ART 270. Recommended Preparation: In addition, art majors must have ART 103, ART 106, and ART 231; or permission of instructor.

**ART 274 - Ceramics IIB (3) ‡**

A continuation of ART 270 which includes intermediate and advanced wheel-throwing techniques and fabrication methods. Students develop projects with formal elements, build skills in surface treatment and firing, and explore topics on the history of clay. For those interested in art as a career, or for personal growth and self-expression.

2 hours lecture, 4 hours studio.
Prerequisite(s): ART 270. Recommended Preparation: In addition, art majors must have ART 103, ART 106, and ART 231; or permission of instructor.

**ART 275A - Ceramics III (3) ‡**

A continued study of ceramics with emphasis on developing unique, creative skills in hand building and fabrication or in wheel throwing and trimming. Students work on projects involving formal elements and various firing techniques, and they explore topics on the history of clay. For those interested in art as a career, or for personal growth and self-expression.

2 hours lecture, 4 hours studio.
Prerequisite(s): ART 273 or ART 274. Recommended Preparation: In addition, art majors must have ART 103, ART 106, and ART 231; or permission of instructor.

**ART 276 - Soda and Salt Firing (1) ‡**

An introduction to the traditional advanced process of soda and salt firing of ceramics. Topics include kiln loading, the use of refractory materials, and the introduction of sodium. Students will experiment with various techniques and materials, including clay bodies, slips, engobes, oxides, and glazing. They will also explore historical and contemporary approaches to atmospheric sodium firings. For students interested in art for career opportunities or for personal growth and self-expression.

1 hour lecture, 1 hour studio.
Prerequisite(s): ART 270 and concurrent enrollment in ART 231, ART 275A, ART 290, or ART 292. Recommended Preparation: ART 275A.

**ART 277 - Wood Firing (1) ‡**

An introduction to the traditional and advanced processes of wood fired ceramics. Students will experiment with various techniques and materials, and explore historical and contemporary approaches to atmospheric wood firings. For students interested in art for career opportunities or for personal growth and self-expression.

1 hour lecture, 1 hour studio.
Prerequisite(s): ART 270 and concurrent enrollment in ART 231, ART 275A, ART 290, ART 291 or ART 292. Recommended Preparation: ART 275A.

**ART 280 - Painting Foundations (3) ‡**

This course is an introduction to the fundamentals of painting methods and processes using acrylic media. Art 280 emphasizes the development of proficiency in the understanding and application of color theory and painting techniques through observation, personal expression, and abstract thinking. Students will be introduced to painting as a key component in developing creative problem solving as well as a tool for critical thinking.

2 hours lecture, 4 hours studio.
Prerequisite(s): ART 103 or ART 106 or permission of instructor. Recommended Preparation: Art majors must have ART 103, ART 106, or permission of instructor.
ART 281 - Intermediate Painting (3) ‡
This course is an intermediate approach to acrylic painting techniques with an emphasis on ideation and the development of conceptional ideas. Student will continue to strengthen skills in observation, personal expression, abstract thinking and creative problem solving.
2 hours lecture, 4 hours studio.
Prerequisite(s): ART 280 or permission of instructor.
Recommended Preparation: Art majors must have ART 103 and ART 106, or permission of instructor.

ART 282 - Advanced Painting (3)
This course is an advanced investigation of painting through ideation, material investigation, visual language development, and research. Students will investigate materials as it relates to their subject matter and process through self-directed projects.
2 hours lecture, 4 hours studio.
Prerequisite(s): ART 281 or permission of the instructor.

ART 285 - Beginning Photography (3) ‡
An introduction to cameras and the darkroom. Covers techniques involved in black-and-white film development and printing as well as principles and elements of design and aesthetics in photography. Students must have access to an adjustable 35mm camera.
2 hours lecture, 4 hours studio.
Prerequisite(s): None

ART 286 - Intermediate Photography (3) ‡
An intermediate course in photography for those with a foundation in the basics of black-and-white film exposure, development, and printing. Emphasis is on photojournalism, art photography, portraiture, and landscapes, with additional attention to design and aesthetics. Students must have access to an adjustable 35mm camera.
2 hours lecture, 4 hours studio.
Prerequisite(s): ART 285 or permission of instructor.

ART 290 - Sculpture I (3) ‡
An introduction to traditional and contemporary sculptural concepts, mediums, and techniques. Students are involved in the process of selecting raw materials and creating a sculpture. For those interested in art as a career, or for personal growth and self-expression.
2 hours lecture, 4 hours studio.
Prerequisite(s): None Recommended Preparation: Art majors must have ART 103, ART 106, or permission of instructor.

ART 291 - Sculpture II (3) ‡
A continuation of ART 290 which covers traditional and contemporary sculpture concepts, mediums, and techniques, with an emphasis on intermediate designs. Students continue to expand their ideas and develop their craftsmanship on sculptural forms. For those interested in art as a career, or for personal growth and self-expression.
2 hours lecture, 4 hours studio.
Prerequisite(s): ART 290. Recommended Preparation: In addition, art majors must have ART 103, ART 106, and ART 231; or permission of instructor.

ART 292 - Advanced Topics in Art (0.5-4) ‡, °
A rotating forum/seminar/workshop emphasizing regional art forms and the development and practical application of artistic skills using a variety of media. Topics will vary in accordance with changes in student needs and interests. Cochise College elective credit only unless otherwise designated in degree programs. For students interested in art for career opportunities as well as personal growth and self-expression. Prerequisite(s): None

ART 293 - Sculpture III (3) ‡
A continuation of ART 291 which covers traditional and contemporary sculpture concepts, mediums, and techniques, with an emphasis on intermediate designs. Students continue to expand their ideas and develop their craftsmanship on sculptural forms. For those interested in art as a career, or for personal growth and self-expression.
2 hours lecture, 4 hours studio.
Prerequisite(s): ART 291. Recommended Preparation: In addition, art majors must have ART 103, ART 106, and ART 231; or permission of instructor.

ART 294 - Sculpture IV (3) ‡
A continuation of ART 293 which covers traditional and contemporary sculpture concepts, mediums, and techniques, with an emphasis on advanced designs, aesthetic forms, and fabrication methods. Students receive individual direction while working on projects involving formal elements and advanced techniques, and they explore the process involved in creating a sculptural form from raw material. For those interested in art as a career, or for personal growth and self-expression.
2 hours lecture, 4 hours studio.
Prerequisite(s): ART 293. Recommended Preparation: In addition, art majors must have ART 103, ART 106, and ART 231; or permission of instructor.

ART 295 - Watercolor Painting I (3) ‡, °
An introduction to watercolor painting which explores basic materials and techniques, with an emphasis on color theory and mixing. For those interested in art as a career, or for personal growth and self-expression.
2 hours lecture, 4 hours studio.
Prerequisite(s): None Recommended Preparation: Art majors must have ART 103 or ART 106, and ART 231; or permission of instructor.

ART 296 - Watercolor Painting II (3) ‡, °
A continued study of watercolor painting, with emphasis on developing unique, expressive pictorial skills. For those
interested in art as a career, or for personal growth and self-expression.

2 hours lecture, 4 hours studio.
Prerequisite(s): ART 295 or permission of instructor.
Recommended Preparation: In addition, art majors must have ART 103 and ART 106, or permission of instructor.

ART 297 - Portfolio Review (1) ‡
A beginning through advanced studio course dealing with the process and purpose of artistic portfolios. This course will cover technical and aesthetic aspects of various artistic portfolios and their development and provide students with the opportunity for a critical/professional analysis and peer review of their portfolios.
0.5 hour lecture, 2 hours studio.
Prerequisite(s): None
Recommended Preparation: Three semesters of art coursework, including 200-level courses in chosen discipline, or permission of instructor.

ASL - AMERICAN SIGN LANGUAGE

ASL 101 - American Sign Language I (4) °
This course is an introduction to American Sign Language (ASL) which includes the development of sign vocabulary, fingerspelling, and numbers, all at the beginner skill level. Also presents a brief history of ASL and an overview of Deaf culture.
4 hours lecture, 1 hour laboratory.
Prerequisite(s): None

ASL 102 - American Sign Language II (4) °
This course is a continuation of ASL 101 which further develops sign vocabulary, fingerspelling, and numbers, all at the advanced-beginner skill level. Also examines the Deaf community and Deaf culture in a hearing society.
4 hours lecture, 1 hour laboratory.
Prerequisite(s): ASL 101 or permission of instructor.

ASL 201 - American Sign Language III (4) °
This course is a continuation of ASL 102 which integrates receptive and expressive skills and presents grammar and syntax at the intermediate skill level. Covers idioms and introduces ASL linguistics and cross-cultural communication. Also examines complex issues related to the Deaf community and Deaf culture in a hearing society.
4 hours lecture, 1 hour laboratory.
Prerequisite(s): ASL 102 or permission of instructor.

ASL 202 - American Sign Language IV (4) °
This course is a continuation of ASL 201 which expands sign vocabulary and sharpens skills in fingerspelling, numbers, grammar, and syntax at the advanced-intermediate skill level. Offers further instruction in ASL linguistics and conversational techniques in a cross-cultural framework, and introduces passage translation. Also examines more complex issues related to the Deaf community and Deaf culture in a hearing society.
4 hours lecture, 1 hour laboratory.
Prerequisite(s): ASL 201 or permission of instructor.

AST - ASTRONOMY

AST 180 - Introduction to Astronomy (4) °, ‡
A survey of astronomy which includes the solar system, exoplanetary systems, stars, and galaxies. Also covers the methods and technology used to explore planetary and stellar processes and the use of telescopes in astronomical observations.
3 hours lecture, 3 hours laboratory.
Prerequisite(s): MAT 091 or higher.

AUT - AUTOMOTIVE TECHNOLOGY

AUT 101 - Introduction to Automotive Technology (3) ‡
This course is a study of basic automotive systems, and of the diagnosis and repair of problems common to them. Students acquire skills in the care and maintenance of engine, suspension, brake, electrical, body control, and drivetrain systems.
2 hours lecture, 3 hours laboratory.
Prerequisite(s): None

AUT 102 - Automotive Electrical Fundamentals (3) ‡
This course is a study of automotive electrical and electronic systems, and of the diagnosis and repair of problems common to them. Students examine Ohm's Law and apply its principles in solving electrical system failures, and they use wiring and current-flow diagrams to diagnose and repair electrical and electronic systems in preparation for the Automotive Service Excellence (ASE) Certification test on electrical and electronic systems.
2 hours lecture, 3 hours laboratory.
Prerequisite(s): None

AUT 103 - Internal Combustion Engines (3) ‡
A study of the theory of internal combustion engines, and of the diagnosis and repair of problems common to them. Students dismantle and reassemble engines in preparation for the Automotive Service Excellence (ASE) Certification test on engine repair.
2 hours lecture, 3 hours laboratory.
Prerequisite(s): AUT 101 and AUT 102.

AUT 104 - Automotive Brake Systems (3) ‡
A study of the theory of automotive brake systems, and of the diagnosis and repair of problems common to them. Students repair and test various types of brake systems in preparation for the Automotive Service Excellence (ASE) Certification test on brake systems.
2 hours lecture, 3 hours laboratory.
Prerequisite(s): AUT 101 and AUT 102.
AUT 105 - Automotive Suspension and Steering Systems (3) ‡
A study of the theory of automotive suspension and steering systems, and of the diagnosis and repair of problems common to them. Students repair and test various suspension and steering systems in preparation for the Automotive Service Excellence (ASE) certification test on suspension and steering.
2 hours lecture, 3 hours laboratory.
Prerequisite(s): AUT 101 and AUT 102.

AUT 106 - Automotive Manual Drive Systems (3) ‡
A study of the theory of automotive manual drive systems, and of the diagnosis and repair of problems common to them. Students dismantle and reassemble different manual drive systems in preparation for the Automotive Service Excellence (ASE) certification test on manual drivetrain systems.
2 hours lecture, 3 hours laboratory.
Prerequisite(s): AUT 101 and AUT 102.

AUT 108 - Automotive Parts Specialist (3)
A study of the tasks performed by the automotive parts specialist in overseeing inventory responsibilities and managing the flow of incoming and outgoing parts and accessories in an automotive dealership or retail parts store.
3 hours lecture.
Prerequisite(s): None

AUT 110 - Basic Auto Body Repair (3) ‡
This course will provide a basic study of automotive collision repair procedures. The course is designed to provide students with the basic knowledge necessary to perform minor auto body repair and preparation for painting.
2 hours lecture, 2 hours laboratory.
Prerequisite(s): None

AUT 111 - Automotive Paint and Refinish (3) ‡
A continuation of Basic Auto Body Repair that focuses on the necessary skills used to paint and refinish an automobile to commercially acceptable standards.
2 hours lecture, 2 hours laboratory.
Prerequisite(s): AUT 110.

AUT 112 - Light Vehicle Diesel Engine Repair (3) ‡
A study of the theory of light vehicle diesel engine structural design and mechanical construction of compression ignition engines. Students will learn the theory of construction by disassembling, measuring, and reassembling light vehicle diesel engines and systems in preparation for the Automotive Service Excellence (ASE) certification test on light vehicle diesel engines.
2 hours lecture, 3 hours laboratory.
Prerequisite(s): AUT 101 and AUT 102.

AUT 116 - Light Vehicle Diesel Engine Intake and Exhaust Systems (3)
This course contains essential content matter for the study of light duty diesel intake and exhaust systems. It covers turbochargers, intercooler systems, and exhaust after treatment.
2 hours lecture, 3 hours laboratory.
Prerequisite(s): AUT 101 and AUT 102.

AUT 117 - Light Vehicle Diesel Engine Fuel Systems and Computerized Engine Controls (3)
A study of the theory of light vehicle diesel engine fuel systems and computerized engine controls, and of the diagnosis and repair of problems common to them.
2 hours lecture, 3 hours laboratory.
Prerequisite(s): AUT 101 and AUT 102.

AUT 119 - Automotive Heating, Ventilation, and Air Conditioning Systems (3)
A study of heating, ventilation, and air conditioning systems, and of the diagnosis and repair of problems common to them. Students diagnose and repair these systems in preparation for the Automotive Service Excellence (ASE) certification test on heating, ventilation, and air conditioning.
2 hours lecture, 3 hours laboratory.
Prerequisite(s): AUT 101 and AUT 102.

AUT 120 - Automotive Electrical Systems and Equipment (3)
A study of the theory of automotive electrical systems and equipment, and of the diagnosis and repair of problems common to them, in preparation for the Automotive Service Excellence (ASE) certification test on electrical systems.
2 hours lecture, 3 hours laboratory.
Prerequisite(s): AUT 101 and AUT 102.

AUT 201 - Automatic Transmission/Transaxle Diagnostics and Rebuilding (3) ‡
A study of the theory of automatic transmissions and transaxles, and of the diagnosis and repair of problems common to them. Students dismantle and rebuild transmissions in preparation for the Automotive Service Excellence (ASE) certification test on automatic transmissions.
2 hours lecture, 3 hours laboratory.
Prerequisite(s): AUT 101 and AUT 102.

AUT 204 - Automatic Transmission/Transaxle Diagnostics and Rebuilding (3) ‡
A study of the theory of automatic transmissions and transaxles, and of the diagnosis and repair of problems common to them. Students dismantle and rebuild transmissions in preparation for the Automotive Service Excellence (ASE) certification test on automatic transmissions.
2 hours lecture, 3 hours laboratory.
Prerequisite(s): AUT 101 and AUT 102.

AUT 205 - Automatic Transmission/Transaxle Diagnostics and Rebuilding (3) ‡
A study of the theory of automatic transmissions and transaxles, and of the diagnosis and repair of problems common to them. Students dismantle and rebuild transmissions in preparation for the Automotive Service Excellence (ASE) certification test on automatic transmissions.
2 hours lecture, 3 hours laboratory.
Prerequisite(s): AUT 101 and AUT 102.

AUT 206 - Engine Performance (3) ‡
A study of the theory of the components involved in engine performance, and of the diagnosis and repair of problems common to them, in preparation for the Automotive Service Excellence (ASE) certification test on engine performance.
2 hours lecture, 3 hours laboratory.
Prerequisite(s): AUT 101.

AUT 220 - Light Vehicle Diesel Engine Fuel Systems and Computerized Engine Controls (3)
This course is a study of the theory of light vehicle diesel engines fuel systems and computerized engine controls, and the diagnosis and repair of problems common to them. Students diagnose and repair these systems in preparation for the Automotive Service Excellence (ASE) certification test on light vehicle diesel engines.
2 hours lecture, 3 hours laboratory.
Prerequisite(s): AUT 101 and AUT 102.

AUT 224 - Field Experience in Automotive Technology (1-3)
A supervised cooperative education field experience involving
the combined efforts of educators and employers. Students
accomplish various academic and career-related objectives in
automotive technology and related fields. Semester-long
regular workplace participation and weekly contact with
assigned faculty advisor are required.
Prerequisite(s): A declared major in automotive technology,
AUT 101, and AUT 102.

AVT - AVIONICS TECHNOLOGY
AVT 211 - Unmanned Aircraft Systems Avionics (7)
A practical study of unmanned aircraft systems (UAS)
avionics. Covers the operation, inspection, troubleshooting,
and repair of avionics systems. Also covers cabling and
hardware in ground control stations, ground data terminals,
and aircraft.
4 hours lecture, 9 hours laboratory.
Prerequisite(s): Must be a sponsored employee of the
Department of Defense (DOD) or of a DOD UAS contractor.

BCT - BUILDING CONSTRUCTION
TECHNOLOGY
BCT 100 - Technical Mathematics I (3)
A review of basic arithmetic and an introduction to the
fundamentals of algebra and geometry. Focus is on solving
practical problems commonly encountered in construction and
engineering environments, and in professions such as machine
shop and welding, heating and ventilation, plumbing,
electrical maintenance, and carpentry.
3 hours lecture.
Prerequisite(s): None

BCT 102 - Carpentry Fundamentals (4) ‡
An introduction to fundamental carpentry techniques.
Students learn and apply these techniques to develop basic
skills comparable to those acquired in a one-year carpentry
apprenticeship. Focus is on shop safety, hand and power tools,
floor systems, wall, ceiling, and roof framing, building
materials, fasteners and adhesives, plans and elevations,
concrete work, windows and doors, and basic stair layout.
3 hours lecture, 3 hours laboratory.
Prerequisite(s): None

BCT 103 - International Residential Building Code (3)
An introduction to the current International Residential Code
for one- and two-family dwellings. Topics include local home
building and lot development, code interpretation and
enforcement, and building components. For planners,
designers, drafters, tradespeople, contractors, inspectors, and
anyone else associated with the construction industry.
3 hours lecture.
Prerequisite(s): None

BCT 104 - Electric I (4) ‡
An introduction to fundamental electrical theory and
techniques. Students learn and apply these techniques to
develop basic skills comparable to those acquired in a one-
year electrical apprenticeship. Focus is on electrical safety,
circuits and theory, and on the National Electrical Code,
device boxes, conduit, raceways and fittings, conductors and
and cables, electrical drawings, residential services, and test
equipment.
3 hours lecture, 3 hours laboratory.
Prerequisite(s): None

BCT 105 - Electrical Theory (3)
An introduction to the fundamentals of electricity. Topics
include Ohm's law, series and parallel circuits, the power
factor, and harmonics as well as electrical meters, motors,
generators, and transformers.
3 hours lecture.
Prerequisite(s): None

BCT 106 - National Electrical Code I (3)
A study of the National Electrical Code, Articles 90 through
424, which covers general wiring requirements. Designed for
those already working in the electrical field--electricians,
inspectors, and maintenance workers--and those seeking
employment in the construction trades.
3 hours lecture.
Prerequisite(s): None

BCT 107 - Residential Maintenance (3)
A residential maintenance course covering safety and the
proper use of common hand and power tools for routine
electrical, plumbing, and carpentry repairs and maintenance.
3 hours lecture, 1 hour laboratory.
Prerequisite(s): None

BCT 108 - Basics in Construction (2)
Students will receive a working knowledge of shop safety and
the use of basic hand and power tools. They will learn the soft
skills necessary to be successful in the construction industry.
Students successfully completing this course will receive the
Core Curriculum Certificate, which is required before any
other certification in the National Center for Construction
Education and Research (NCCER) curriculum.
2 hours lecture.
Prerequisite(s): None.

BCT 109 - Construction Safety (3) ‡
An introduction to the Occupational Safety and Health
Administration's workplace and jobsite safety policies and
procedures. Includes a study of safety practices, preventive
measures, construction hazards, personal protective devices and equipment, and hazardous materials handling.
3 hours lecture.
Prerequisite(s): None.

**BCT 110 - Cabinetmaking (3)** ‡

A course in basic cabinetmaking which enables students to develop competency in the construction and installation of cabinets and countertops.
2 hours lecture, 3 hours laboratory.
Prerequisite(s): None.

**BCT 111 - Plumbing I (4)** ‡

An introduction to fundamental plumbing techniques. Students learn and apply these techniques to develop basic skills comparable to those acquired in a one-year plumbing apprenticeship. Focus is on plumbing safety, tools, math skills, and drawings; plastic, copper, and carbon steel pipes and fittings; tubing, fixtures, and faucets; drain, waste, and vent systems; and water distribution systems.
3 hours lecture, 3 hours laboratory.
Prerequisite(s): None.

**BCT 112 - Introduction to the Utility Industry (3)**

An introduction to the utility industry and careers such as electric utility line technician, gas industry technician, telecommunications technician, and utility supervisor. Topics include utility infrastructures, land and gas surveying techniques, power delivery, basic safety principles, systems troubleshooting, and regulatory issues.
3 hours lecture.
Prerequisite(s): None.

**BCT 113 - Concrete (3)**

A study of the basic concepts and materials used in concrete construction and finishing. Covers code and footer applications, stem walls, flat work, and the use of various reinforcement materials.
2 hours lecture, 3 hours laboratory.
Prerequisite(s): BCT 102 and BCT 109, or permission of instructor.

**BCT 114 - Wall Coverings (3)**

An overview of wall covering materials and terminology. Teaches the application of wall materials and the use of fasteners. Covers building codes as they relate to wall covering products and fire- and sound-rated walls.
2 hours lecture, 3 hours laboratory.
Prerequisite(s): BCT 102 and BCT 109, or permission of instructor.

**BCT 115 - Exterior Finishing (3)**

A study of the basic concepts and processes used in exterior finishing and in the installation of windows. Topics include thermal and moisture protection, exterior finish materials, exterior siding materials, and installation procedures.

2 hours lecture, 3 hours laboratory.
Prerequisite(s): BCT 102 and BCT 109, or permission of instructor.

**BCT 116 - Roofing (3)**

A study of roof covering materials and their application in residential construction. Covers shingles, tile, roll roofing, membrane materials, roof vents, and roof flashing.
2 hours lecture, 3 hours laboratory.
Prerequisite(s): BCT 102 and BCT 109, or permission of instructor

**BCT 117 - Floor Covering (4)**

A study of floor materials and their application, including wood laminate, resilient floor tile, self-adhering floor tile, sheet vinyl, ceramic floor tile, and carpet.
2 hours lecture, 4 hours laboratory.
Prerequisite(s): BCT 102 and BCT 109, or permission of instructor.

**BCT 118 - Doors, Cabinets, and Millwork (4)**

A study of the basic concepts used in the installation of interior and exterior doors and trim and of their locks and hardware. Also covers the installation of factory-built cabinets and prefabricated countertops.
2 hours lecture, 4 hours laboratory.
Prerequisite(s): BCT 102 and BCT 109, or permission of instructor.

**BCT 119 - Construction Basics Lab (1)**

Through the use of a hands-on construction lab, students will learn the proper names and uses of hand and power tools, as well as the proper safety protocols for these construction tools.
2 hours laboratory.
Prerequisite(s): None.

**BCT 122 - HVAC I (4)** ‡

An introductory course in the refrigeration process, which covers refrigerants, tools, equipment, brazing, and refrigerant management. Emphasis is on the temperature, pressure, and heat-transfer capabilities of refrigerants.
3 hours lecture, 2 hours laboratory.
Prerequisite(s): None.

**BCT 127 - Blueprint Reading and Estimating (3)** ‡

An introduction to basic blueprint drawing, reading, and interpretation. Includes the abbreviations, symbols, and conventions specific to the trade disciplines used by architects and engineers. Students learn to interpret this information and apply it to construction activities. They also learn to estimate labor, equipment, and material costs from construction plans and shop drawings.
3 hours lecture.
Prerequisite(s): None
BCT 130 - Introduction to Green Building (3)
An introduction to the fundamentals of green or sustainable building practices. Topics include energy use and efficiency, renewable energy technologies, water conservation, and basic building sciences. Also examined are the history of the green building industry, building retrofitting, rating and certification systems, sustainable materials, and careers within the industry.
3 hours lecture.
Prerequisite(s): None.

BCT 201 - Carpentry Framing and Finishing (4)
A study of carpentry framing and finishing techniques. Students learn and apply these techniques to develop advanced skills comparable to those acquired in a two-year carpentry apprenticeship. Focus is on roofing, thermal and moisture protection, exterior finishing, steel framing, drywall installation and finishing, doors and door hardware, suspended ceilings, trim work, and cabinet installation and fabrication.
3 hours lecture, 3 hours laboratory.
Prerequisite(s): BCT 102 or permission of instructor.

BCT 202 - Carpentry Forms (4)
A study of advanced carpentry techniques as they relate to concrete-form framing, placement, pouring, and finishing. Students develop skills operating circular and reciprocating saws, drills, impact wrenches, hand power planers, pneumatic nail guns, and various hand tools of the trade; and they develop proficiency comparable to that of a third-year carpentry apprentice.
3 hours lecture, 3 hours laboratory.
Prerequisite(s): BCT 102 or permission of instructor.

BCT 204 - Electric II (4)
An introduction to advanced electrical theory and techniques. Students learn and apply these techniques to develop advanced skills comparable to those acquired in a two-year electrical apprenticeship. Focus is on alternating current, motors, electric lighting, conduit bending, pull and junction boxes, conductor installations, terminations and splices, grounding and bonding, circuit breakers and fuses, and control systems.
3 hours lecture, 3 hours laboratory.
Prerequisite(s): BCT 104.

BCT 210 - Cabinetmaking II (3)
This course provides students with a better understanding of, and increased skills in, the design, style, and construction of cabinets and countertops.
2 hours lecture, 3 hours laboratory.
Prerequisite(s): BCT 110.

BCT 211 - Cabinetmaking III (3)
This course prepares students for employment in the areas of finish carpentry, cabinetmaking, cabinet installation, and countertop manufacturing and installation.
2 hours lecture, 3 hours laboratory.
Prerequisite(s): BCT 110 and BCT 210, or permission of instructor.

BCT 220 - Grounding and Bonding (3)
A study of wiring methods and of the theories of grounding and bonding as defined in Article 250 of the National Electrical Code. Covers the difference between grounding and bonding. Also covers how the provisions of this article apply to various devices and equipment to include swimming pools.
3 hours lecture.
Prerequisite(s): None
Recommended Preparation: BCT 104, BCT 105, BCT 106, and BCT 204.

BCT 222 - HVAC II (4)
A continuation in the study of the fundamentals of refrigeration, which covers electrical components and the functions of motors, controls, and other electrical loads in refrigeration systems. Also covers schematics, power distribution, and troubleshooting.
3 hours lecture, 2 hours laboratory.
Prerequisite(s): BCT 122.

BCT 223 - HVAC III (4)
A study of the various types of air conditioning systems. Covers superheating, subcooling, pressures, and temperatures. Emphasis is on troubleshooting and repairs along with refrigerant management. Students are given the U.S. Environmental Protection Agency (EPA) Universal Certification test required for HVAC technicians who service all types of equipment.
3 hours lecture, 2 hours laboratory.
Prerequisite(s): BCT 222.

BCT 224 - Field Experience in Building Construction Technology (1-3)
A supervised cooperative education field experience involving the combined efforts of educators and employers. Students accomplish various academic and career-related objectives in building construction technology and related fields. Semester-long regular workplace participation and weekly contact with assigned faculty advisor are required.
Prerequisite(s): A declared major in building construction technology; and BCT 102, BCT 108, BCT 109, or BCT 112.

BCT 225 - HVAC IV (4)
An advanced course in heating, ventilating, and air conditioning, which covers the operation and repair of heat pumps and other modern heating equipment. Also introduces students to customer service skills.
3 hours lecture, 2 hours laboratory.
Prerequisite(s): BCT 223.

BCT 227 - HVAC V (4)
The HVAC V course prepares students for direct employment in the refrigeration industry by teaching the skills required to service, troubleshoot, maintain and install walk-in
refrigerators and freezers, reach-in refrigerators and freezers, and ice machines.
3 hours lecture, 2 hours laboratory.
Prerequisite(s): BCT 122, BCT 222, BCT 223, and BCT 225.

BIO - BIOLOGICAL SCIENCES

BIO 100 - General Biology (for non-majors) (4) §, ‡
A laboratory science course for non-majors that surveys the concepts of introductory biology. Topics include scientific inquiry, cell biology, metabolism, cell division, genetics, evolution, ecology, and a survey of life on Earth.
3 hours lecture, 3 hours laboratory.
Prerequisite(s): RDG 092 or exemption.

BIO 105 - Environmental Biology (4) §, ‡
An introductory course in environmental biology with an emphasis on the major themes of ecology and the environment. Deals with evolution and with issues concerning human ecology and sustainability including biodiversity, water, climate change, resource use, pollution, and the local environment.
3 hours lecture, 3 hours laboratory.
Prerequisite(s): RDG 092 or exemption. Recommended Preparation: ENG 101 and MAT 081.

BIO 156 - Introductory Biology for Allied Health (4) §, ‡
An introductory course for allied health majors which concentrates on human biology. Covers the fundamental concepts of chemistry and biology including cell biology, metabolism, microbiology, genetics, evolution, and histology.
3 hours lecture, 3 hours laboratory.
Prerequisite(s): RDG 092 or exemption. Recommended Preparation: MAT 081 or higher.

BIO 160 - Introduction to Human Anatomy and Physiology (4) §, ‡
An examination of the structure and dynamics of the human body based on the chemical, physical, cellular, and tissue levels of organization. Includes the major structures and functions of the integumentary, skeletal, muscular, nervous, endocrine, cardiovascular, lymphatic, respiratory, digestive, urinary, and reproductive systems. For students in programs that require a one-semester anatomy and physiology course, or for students fulfilling a one-semester laboratory science requirement.
3 hours lecture, 3 hours laboratory.
Prerequisite(s): RDG 092 or exemption. Recommended Preparation: ENG 101 and MAT 081.

BIO 181 - General Biology I (for majors) (4) *, ‡, §, ‡
A study of the structure and function of living things at the molecular, cellular, and organismic levels of organization. Topics include cell structure, metabolism, reproduction, genetics, and evolution.
3 hours lecture, 3 hours laboratory.
Prerequisite(s): RDG 092 or exemption. Recommended Preparation: CHM 130, CHM 138, or one year of high school chemistry; ENG 096; and some knowledge of college algebra and/or trigonometry

BIO 182 - General Biology II (4) *, ‡
A continuation of general biology for majors. Topics include the evolution, biodiversity, and ecology of multicellular organisms.
3 hours lecture, 3 hours laboratory.
Prerequisite(s): BIO 181. Recommended Preparation: Knowledge of general chemistry.

BIO 192 - Special Topics and Applications in Biology (1-4)
Designed to supplement general study in the various fields of biology. Entails research in specific topics determined by student needs and interests.
Prerequisite(s): None

BIO 201 - Human Anatomy and Physiology I (4) *, ‡, §, ‡
An integrated study of the physical, structural, and functional features of tissues, and of the integumentary, skeletal, muscular, and nervous systems.
3 hours lecture, 3 hours laboratory.
Prerequisite(s): BIO 156, BIO 181, or passing score on the biology placement exam. Recommended Preparation: CHM 138.

BIO 202 - Human Anatomy and Physiology II (4) *, ‡, §, ‡
An integrated study of the physical, structural, and functional features of the endocrine, cardiovascular, respiratory, lymphatic, urinary, digestive, and reproductive systems.
3 hours lecture, 3 hours laboratory.
Prerequisite(s): BIO 201.

BIO 205 - Microbiology (4) *, ‡, §, ‡
A study of the structure and characteristics of the major groups of microorganisms and their importance to humans. Emphasis is on best methods for the control and treatment of microbial infection and disease.
3 hours lecture, 3 hours laboratory.
Prerequisite(s): BIO 156, BIO 181, or passing score on the biology placement exam. Recommended Preparation: ENG 101 and MAT 081.

BIO 226 - Ecology (4) ‡
An introduction to ecological concepts and methods in biology including: ecological niche, species diversity, population biology, ecosystems, life history strategies, environmental factors, environmental cycles, animal behavior and evolution, and their functions in the environment.
3 hours lecture, 3 hours laboratory.
Prerequisite(s): MAT 081, ENG 101, and either BIO 100, BIO 105, BIO 160, BIO 181, or BIO 201.
BUS - BUSINESS ADMINISTRATION

BUS 104 - Business Math (3) °
This course examines the fundamentals of business mathematics and the use of the number language to communicate in the business world.
3 hours lecture.
Prerequisite(s): None
Recommended Preparation: Knowledge of basic mathematics.

BUS 106 - Administrative Assistant Skills I (4)
An introduction to keyboarding skills as they apply to letters, memos, and reports, with an expected outcome of 35 words per minute for five minutes. Emphasis is on formatting and editing.
3 hours lecture, 2 hours laboratory.
Prerequisite(s): CIS 116. Recommended Preparation: Keyboarding skills of 30 WPM.

BUS 109 - Survey of Business (3) °
An examination of the fundamental characteristics and functions of modern business, with emphasis on career opportunities.
3 hours lecture.
Prerequisite(s): None

BUS 123 - Human Resource Management (3) °
A study of human resource management policies and techniques pertaining to the recruitment, selection, development, compensation, evaluation, retention, and promotion of personnel within an organization.
3 hours lecture.
Prerequisite(s): None

BUS 127 - Leadership and Supervision (3) °
An in-depth study of the supervision and leadership functions of management, with an emphasis on case studies.
3 hours lecture.
Prerequisite(s): None

BUS 143 - Principles of Management (3) °
A study of managerial principles emphasizing effective business decisions for planning, organizing, leading, and motivating, and for controlling variables in today's changing global business environment. Also covers issues of ethics, social responsibility, diversity, and ethnicity.
3 hours lecture.
Prerequisite(s): None

BUS 145 - Principles of Marketing (3) °
A study of marketing principles involved in the distribution, from producer to consumer, of goods and services. Topics include wholesaling, retailing, direct selling, risk taking, and warehousing.
3 hours lecture.
Prerequisite(s): None

BUS 146 - Introduction to Accounting (3) °
An introduction to the basic accounting cycle for service and merchandising firms: analyzing business transactions, journalizing and posting entries, developing financial statements, administering end-of-accounting-period activities, controlling cash, and preparing payroll.
3 hours lecture.
Prerequisite(s): None
Recommended Preparation: BUS 104 or MAT 091.

BUS 160 - Essential Workplace Success Skills (3) °
Designed to teach the skills needed for successful employment. Topics include job seeking and communication skills, professional dress and self-esteem, and decision-making and stress-coping strategies.
3 hours lecture.
Prerequisite(s): None

BUS 167 - Business Communications (3) °
A study of internal and external business communications such as letters, memos, proposals, and reports. Emphasis is on writing fundamentals--usage, syntax, and organization--and on listening and speaking skills. Also deals with the technology used to conduct research and create documents.
3 hours lecture.
Prerequisite(s): CIS 116 or CIS 120, and placement in ENG 101.

BUS 172 - Quantitative Methods in Business (3) °
An introduction to the application of quantitative methods and modeling that support optimal business decision making.
3 hours lecture.
Prerequisite(s): MAT 151 or permission of instructor.
Recommended Preparation: Knowledge of Excel spreadsheets or completion of CIS 181.

BUS 183 - Starting a Business (3) °
An investigation and evaluation of business opportunities with emphasis on acquiring skills and knowledge to establish a business. Covers practical problems in marketing, management, organization, and financial analysis and control.
3 hours lecture.
Prerequisite(s): None

BUS 201 - Financial Accounting (3) °*
An introductory course in gathering, recording, and using the financial data of a business. Focus is on the accounting cycle, debits and credits, classification of accounts, recording of transactions, and preparation of financial statements for single proprietorships, partnerships and corporations.
3 hours lecture.
Prerequisite(s): MAT 091 or placement in MAT 151, or higher, or concurrent enrollment.

BUS 202 - Managerial Accounting (3) °*
An introductory course in accounting concepts, methods, and techniques used by managers to support financial and operational decision making within an organization.

3 hours lecture.
Prerequisite(s): BUS 201, CIS 181 and completion of or concurrent enrollment in CIS 281.

**BUS 206 - Administrative Assistant Skills II (4)**
A continuation of keyboarding skills used in preparing business letters, printed forms, manuscripts, and tables, with an expected outcome of 40 words per minute for five minutes. Emphasis is on increased proficiency.
3 hours lecture, 2 hours laboratory.
Prerequisite(s): BUS 106 or permission of instructor.

**BUS 207 - Office Administration (3)**
An analysis of the functions of office departments which is designed for prospective office supervisors, training directors, administrative assistants, and executive secretaries. Topics include office organization, administration, and management; human relations; and information management systems.
3 hours lecture.
Prerequisite(s): BUS 167 and CIS 116, or permission of instructor.

**BUS 209 - Business Speech Communications (3)**
A study of the principles of business speech communications including topic selection, research, organization, audience, and delivery. Also covers listening skills, verbal and nonverbal language, one-on-one communication, and effective interview techniques. Students prepare persuasive speeches for small and large groups.
3 hours lecture.
Prerequisite(s): None

**BUS 210 - Automated Office Procedures (3)**
A study of computer applications, information processing, project development, and workflow procedures and standards. Also covers a variety of data entry applications for spreadsheets and databases, and for accounting, banking, and point-of-sale entries.
3 hours lecture.
Prerequisite(s): CIS 116 and CIS 181, or permission of instructor.

**BUS 211 - Automated Office Practice (3)**
A study of best practices for the modern office as they relate to business communications, information systems, meetings, and travel plans. Also covers administrative duties and responsibilities as well as resumes and interviews.
3 hours lecture, 1 hour laboratory.
Prerequisite(s): BUS 210 or BUS 216.

**BUS 213 - Word Processing (3)**
An application of word processing skills using current systems and equipment, with emphasis on editing and formatting techniques.
3 hours lecture, 1 hour laboratory.
Prerequisite(s): CIS 116. Recommended Preparation: Keyboarding skills of 25 WPM.

**BUS 216 - Administrative Assistant Skills III (4)**
A further development of computer skills including word processing, spreadsheets, presentations, and the integration of applications. Students develop an electronic employment portfolio.
3 hours lecture, 2 hours laboratory.
Prerequisite(s): CIS 116 and CIS 181, or permission of instructor.

**BUS 217 - Administrative Assistant Skills IV (4)**
An integration of word processing, spreadsheet, database, and presentation applications. Students in this capstone course complete an electronic employment portfolio.
3 hours lecture, 2 hours laboratory.
Prerequisite(s): BUS 216 or permission of instructor.

**BUS 219 - Business Statistics (3) *, °**
Business applications of descriptive and inferential statistics, measurement of relationships, and statistical process management.
3 hours lecture.
Prerequisite(s): MAT 142 or MAT 151. Recommended Preparation: Knowledge of Excel spreadsheets or completion of CIS 181.

**BUS 224 - Field Experience in Business Administration (1-3)**
A supervised cooperative education field experience involving the combined efforts of educators and employers. Students accomplish various academic and career-related objectives in business and related fields. Semester-long regular workplace participation and weekly contact with assigned faculty advisor are required.
Prerequisite(s): A declared major in business; and BUS 109, BUS 160, or BUS 167.

**BUS 227 - Field Experience in Legal Procedures (1-3)**
A supervised cooperative education field experience involving the combined efforts of educators and employers. Students accomplish various academic and career-related objectives in law or public administration and related fields. Semester-long regular workplace participation and weekly contact with assigned faculty advisor are required.
Prerequisite(s): A declared major in any related field; and BUS 109, BUS 160, or BUS 167.

**BUS 228 - Financial Planning (3) °**
An introduction to the principles and techniques of personal financial planning, including preparation of personal financial statements; budgeting; goal setting; investing; determining
insurance needs; and tax, retirement, and estate planning. A strong emphasis is placed on the process of drawing up a personal financial plan.

3 hours lecture.
Prerequisite(s): BUS 104, BUS 146, or BUS 201

BUS 233 - The Legal Environment of Business (3) °
An examination of the legal framework that governs the rules of conduct affecting policy making among businesses. Topics include laws, torts, government regulations, business ethics, and corporate responsibility in today's business environment.

3 hours lecture.
Prerequisite(s): None

BUS 245 - Seminar: Trends and Practices in Business (3) °
A capstone business management course applying problem-solving and decision-making techniques to practical business situations. Students produce a major project or presentation using current business theories and practices.

3 hours lecture.
Prerequisite(s): BUS 146; BUS 160; BUS 167 or concurrent enrollment; ECN 201 or ECN 202; ENG 101; and BUS 104; MAT 091 or higher. Recommended Preparation: Sophomore standing.

BUS 283 - Small Business Management (3) °
An analysis of the problems associated with successfully organizing and managing a small business. Emphasis is on research, budgeting, financial analysis, control procedures, and marketing in the establishment and operation of any small business.

3 hours lecture, 1 hour laboratory.
Prerequisite(s): BUS 183.

BUS 285 - Electronic Commerce (3) °
Studies the components and practices of electronic commerce. Addresses advertising and marketing on the World Wide Web, as well as legal and ethical issues related to ecommerce. Examines security and payment systems for online transactions.

3 hours lecture.
Prerequisite(s): CIS 116, CIS 120, or CIS 185.

CED - COOPERATIVE EDUCATION
CED 224 - Field Experience in Cooperative Education (1-3)
A supervised cooperative education field experience involving the combined efforts of educators and employers. Students accomplish various academic and career-related objectives in an area of study at Cochise College. Semester-long regular workplace participation and weekly contact with assigned faculty advisor are required.

Prerequisite(s): Any declared major at Cochise College.

CHM - CHEMISTRY
CHM 130 - Fundamental Chemistry (4) *, †, ‡
Introduces students with no prior chemistry instruction to the fundamentals of general inorganic chemistry, and prepares them for General Chemistry I.

3 hours lecture. 3 hours laboratory.
Prerequisite(s): MAT 081 or higher, and RDG 092 or exemption.

CHM 138 - Chemistry for Allied Health (4) °, †
An introduction to the fundamentals of general inorganic, organic, and biological chemistry focusing on the principles important to the understanding of human biological functions and their related medical aspect. Especially adapted to the needs of students in health related fields and nursing.

3 hours lecture. 3 hours laboratory.
Prerequisite(s): MAT 081 or higher, and RDG 092 or exemption.

CHM 151 - General Chemistry I (4) *, †, ‡, °
An introduction to the general principles of inorganic chemistry, with focus on quantitative relationships including properties of matter, chemical bonding and structure, nomenclature, chemical equations, stoichiometry, gas laws, thermochemistry, states of matter, and reactions in aqueous solutions.

3 hours lecture. 3 hours laboratory.
Prerequisite(s): CHM 130, CHM 138, or one year of high school chemistry; MAT 091 or higher; and RDG 092 or exemption.

CHM 152 - General Chemistry II (4) *, †, ‡, °
A continuation of General Chemistry I and the general principles of inorganic chemistry, with focus on quantitative relationships including acids and bases, equilibrium, kinetics, electrochemistry, and nuclear chemistry.

3 hours lecture. 3 hours laboratory.
Prerequisite(s): CHM 151.

CHM 192 - Special Topics and Applications in Chemistry (0.25-4)
A rotating forum/seminar/course or supplement to an existing chemistry course emphasizing chemistry related topics. The title and credit hours for this course will vary each term depending on the topic.

Prerequisite(s): None Recommended Preparation: Permission of the instructor is strongly recommended.

CHM 235 - General Organic Chemistry I (4) *, †
An introduction to the naming, structure, and properties of organic compounds with an emphasis on alkanes, stereochemistry, alkyl halides, alkenes, and spectroscopy. Focus is on the mechanisms that reveal the relationships between these different classes of organic compounds. Deals with general techniques unique to organic chemistry, separations, chromatography, boiling and melting points, and other physical properties.

3 hours lecture. 3.5 hours laboratory.
Prerequisite(s): CHM 152

CHM 236 - General Organic Chemistry II (4) *, ‡
A continued study of the naming, structure, and properties of organic compounds with an emphasis on alcohols, ethers, epoxides, aromatics, ketones, aldehydes, amines, carboxylic acids and their derivatives, enols, and enolate ions. Focus is on mechanisms and syntheses that reveal the relationships between these different classes of organic compounds.
3 hours lecture. 3.5 hours laboratory.
Prerequisite(s): CHM 235

CHM 299 - Individual Studies (1-4)
Completion of a research problem or an outlined course of study under the direction of a faculty member, with contract for the individual study agreed upon by the student, the instructor, and the appropriate instructional manager prior to the initiation of the study.
Prerequisite(s): Approval of appropriate instructional manager and instructor.

CIS - COMPUTER INFORMATION SYSTEMS

CIS 116 - Computer Essentials (3) °
A hands-on introduction to the operating system and applications of the personal computer and to the internet. Emphasis is placed on Word, Excel, and PowerPoint, and on the integration of these applications.
3 hours lecture.
Prerequisite(s): None

CIS 120 - Introduction to Information Systems (3) *, °
An introduction to digital basics, hardware, software, operating systems, local area networks, wide area networks, internet, web, email, digital media, basic programming, and the computer industry. Also includes an in-depth application of the business intelligence perspective, which uses database and spreadsheet software packages to achieve efficient and effective problem solving.
3 hours lecture.
Prerequisite(s): None

CIS 128 - Linux Operating System (4) °, ‡
An introduction to the Linux operating system which covers its history, internal organization, and directory and file system. Additional topics include installation, vi editor, user commands, and utilities. For those interested in Linux as well as those interested in pursuing the CompTIA Linux+ certification.
3 hours lecture, 3 hours laboratory.
Prerequisite(s): CIS 120.

CIS 129 - Introduction to Programming Logic (1) °
An introduction to programming concepts for students interested in visual or scripting languages. Topics include notations, expressions, data types, sequence, selection, repetition, and modularization.
1 hour lecture.
Prerequisite(s): None

CIS 130 - Programming Logic (3) °, ‡
A study of software and programming concepts. Topics include programming methodologies, structures, and functions; notations and expressions; data, data types, and data files; file processing; and the software life cycle.
3 hours lecture.
Prerequisite(s): MAT 081 or higher, and RDG 092 or exemption.

CIS 140 - Introduction to Operating Systems (3) °, ‡
Provides students with a knowledge of operating systems and prepares them to take the CompTIA A+ Essentials certification examination. Topics include system components, storage, networking, security, and system management.
3 hours lecture. 1 hour laboratory.
Prerequisite(s): None Recommended Preparation: CIS 116.

CIS 150 - Essentials of Networking (3) °, ‡
Provides students with knowledge of networking technologies and prepares them to take the CompTIA Network+ certification examination. Topics include networking basics, Ethernet, implementation, wireless networking, security, and network management.
3 hours lecture.
Prerequisite(s): None

CIS 160 - Introduction to Information Security (3) °, ‡
This course provides students with a knowledge of security concepts and with the skills required to react to security incidents and prepares them to take the CompTIA Security+ certification examination. Course topics include network security; compliance and operational security; threats and vulnerabilities; application, data, and host security; access control and identity management; and cryptography.
3 hours lecture.
Prerequisite(s): None

CIS 161 - Network Security (4) °, ‡
A detailed study of network security principles and their implementation. Topics include the fundamentals of network security: implementation of firewalls, infrastructure security, and Windows operating system security and its impact on network security. Also covers the various utilities used to manage network security and troubleshoot problems.
3 hours lecture, 3 hours laboratory.
Prerequisite(s): CIS 140, CIS 150, and CIS 160; or permission of instructor.

CIS 164 - Introduction to Scripting Using Python (4) °, ‡
An introduction to scripting using Python. Topics include basic data types, control structures, decision constructs,
regular expressions, input and output techniques, and textual analysis.
3 hours lecture, 2 hours laboratory.
Prerequisite(s): CIS 120.

CIS 179 - Applied Technical Writing (3) °
An application of technical writing skills used in organizational reports and communications. Focus is on the processes for reporting technical information, with emphasis on writing mechanics and syntax, forms and formatting, and technical style.
3 hours lecture.
Prerequisite(s): CIS 116 or CIS 120, ENG 096 or higher, and RDG 092 or exemption.

CIS 181 - Computer Applications (3) °, ‡
An introduction to the uses of spreadsheets and database software. Spreadsheet emphasis is on the use of formulas and functions, the development of charts and graphs, the creation and manipulation of lists, the creation of pivot tables, and the role of the internet in spreadsheets. Database software emphasis is on data entry, on the creation of queries, forms, and reports, and on the design and maintenance of databases.
3 hours lecture.
Prerequisite(s): CIS 116 or CIS 120.

CIS 185 - Internet Essentials (3) °
A survey of the internet that covers browser capabilities and management, real-time and mass communications, and social networks. Also covers email management, e-commerce, online security, and other internet services; and teaches the basics of HTML.
3 hours lecture.
Prerequisite(s): CIS 116 or concurrent enrollment.

CIS 204 - C Programming (4) °, ‡
An introduction to the C programming language. Includes syntax and semantics, data types, operators, looping and decision structures, functions, arrays, pointers, and file handling.
3 hours lecture, 3 hours laboratory.
Prerequisite(s): CIS 130 or score of 70 or higher on the waiver exam.

CIS 206 - Assembler with Architecture (4) ‡
A detailed study of the assembly programming language for 8086 and 8088 microprocessors in which individual instructions written in symbolic form are converted into machine code. Provides an introduction to the architecture, organization, and structure of major hardware components of a microcomputer to include primary memory, the control unit, and the arithmetic logic unit.
3 hours lecture, 3 hours laboratory.
Prerequisite(s): Either CIS 130 or a score of 70 or higher on the waiver exam.

CIS 208 - Java Programming (4) ‡
An introduction to the Java programming language. Includes a study of the basic concepts associated with object-oriented programming, terminology, notation, and the syntax and semantics of the language.
3 hours lecture, 3 hours laboratory.
Prerequisite(s): CIS 130 or a score of 70 or higher on the waiver exam.

CIS 217 - Introduction to Visual C#.NET Programming (4) °, ‡
A study of the fundamentals of computer programming using Visual C#.NET. Emphasis is on the Microsoft Integrated Development Environment (IDE) and the .NET environment, as well as on proper programming strategies with Visual C#.NET.
3 hours lecture, 3 hours laboratory.
Prerequisite(s): CIS 129 or concurrent enrollment, or CIS 130.

CIS 218 - Visual Basic Programming (4) °, ‡
A study of the fundamentals of computer programming within the Windows environment. Emphasis is on the use of Visual Basic objects, events, and projects to create Windows programs.
3 hours lecture, 3 hours laboratory.
Prerequisite(s): CIS 129 or concurrent enrollment, or CIS 130.

CIS 220B - Data Structures-Assembler (4) ‡
A study of data structures and advanced programming concepts. Includes the design, implementation, and application of stacks, queues, lists, trees, and sequential and direct access to files. Students implement the data structures in Assembler.
3 hours lecture, 3 hours laboratory.
Prerequisite(s): CIS 206.

CIS 220C - Data Structures-C (4) ‡
A study of data structures and advanced programming concepts. Includes the design, implementation, and application of stacks, queues, lists, trees, and sequential and direct access to files. Students implement the data structures in C.
3 hours lecture, 3 hours laboratory.
Prerequisite(s): CIS 204.

CIS 220J - Data Structures-Java (4) °, ‡
A study of data structures and advanced programming concepts. Includes the design, implementation, and application of stacks, queues, lists, trees, and sequential and direct access to files. Students implement the data structures in Java.
3 hours lecture, 3 hours laboratory.
Prerequisite(s): CIS 208.

CIS 221 - Digital Logic (3) °, ‡
A study of number systems, conversion methods, binary and complement arithmetic, Boolean and switching algebra, circuit minimizations, read-only memory, programmable logic
arrays, flip-flops, synchronous sequential circuits, and register transfer design.

2 hours lecture, 2 hours laboratory.
Prerequisite(s): CIS 116 or CIS 120, and CIS 129 or CIS 130; or permission of instructor.

CIS 229 - Linux System Administration (4) °, ‡
An introductory course in Linux system administration. Covers starting, stopping, backing up, tuning, and troubleshooting the system; administering users and groups; and scripting. Also deals with file systems, terminals, printers, disks, and electronic mail.
3 hours lecture, 3 hours laboratory.
Prerequisite(s): CIS 128.

CIS 232 - Digital Communications and Network Hardware (4) °, ‡
Course topics include binary and hex number systems, Boolean algebra, circuit optimization, switches, routers, firewall configuration and installations. Students will implement network management.
3 hours lecture, 3 hours laboratory.
Prerequisite(s): CNT 140 or CIS 150, and CIS 128 or CIS 236.

CIS 236 - Microsoft Workstation Operating Systems (4) °, ‡
Microsoft is the leading supplier of desktop operating systems for home and business use. This course will use the most current and widely accepted version of Microsoft's business desktop operating system. Students will learn proper installation of the operating system, the features of the system, maximum utilization of the user interface, and efficient file handling. They will also learn to create, edit and delete user profiles, create a functional user environment, create and utilize shared network resources, and utilize and administer the workstation as a server in a hands-on environment. They will also utilize troubleshooting skills to overcome simple and complex problems in the Microsoft operating system environments.
3 hours lecture, 3 hours laboratory.
Prerequisite(s): CIS 140, CIS 160, and either CNT 140 or CIS 236.

CIS 242 - World Wide Web Programming (3)
This capstone course for the Web Developer Certificate provides an advanced study of web programming. Emphasis is on server-side scripting and the use of databases on web sites. Also covers web design and ecommerce issues.
3 hours lecture, 1 hour laboratory.
Prerequisite(s): CIS 129 or CIS 130, and CIS 287. Recommended Preparation: CIS 244.

CIS 244 - World Wide Web Graphics (3)
An overview of the creation and modification of graphics for the World Wide Web. Topics include their formatting and optimization. Students create a variety of graphics and incorporate them into a web site.
3 hours lecture.
Prerequisite(s): CIS 185, and CIS 287 or concurrent enrollment. Recommended Preparation: DMA 110 or prior digital imagery experience.

CIS 245 - Microsoft Server and Active Directory (4) ‡
Fundamentals of Microsoft Server and Active Directory. Topics include server hardware, installation, and configuration; Active Directory replication; Microsoft Group Policy; and system security. Explores the role of the network administrator and offers hands-on application of various approaches to user and server management.
3 hours lecture, 3 hours laboratory.
Prerequisite(s): CIS 236.

CIS 250 - Database Management (4) °, ‡
A study of the management of data in business organizations. Combines theory with a hands-on emphasis on the techniques used to develop, implement, and administer databases.
4 hours lecture.
Prerequisite(s): CIS 181.

CIS 255 - Microsoft PowerShell Scripting (4) °, ‡
A study of the fundamentals of the Microsoft PowerShell scripting language, which is used to automate various tasks on Windows-based systems. Emphasis is on Windows PowerShell command-line features and techniques.
3 hours lecture, 2 hours laboratory.
Prerequisite(s): CIS 164.

CIS 259 - Advanced Linux Systems Administration (4) °, ‡
An advanced course in Linux System Administration. Topics include implementing Dynamic Host Control Protocol (DHCP) and Domain Name Service (DNS); managing file systems; securing networks; maintaining and troubleshooting servers.
3 hours lecture, 3 hours laboratory.
Prerequisite(s): CIS 229.

CIS 260 - Service and Maintenance of Personal Computers (4) ‡
Theory and application of servicing personal computers. Students diagnose and repair common problems. Topics include advanced configuration and hardware problems, workstation setup for configuration, storage and optical drives, random-access memory modules, and motherboard-level diagnosis and repair.
3 hours lecture, 3 hours laboratory.
Prerequisite(s): CIS 140.

CIS 262 - Network Support and Troubleshooting (4) ‡
A capstone course in network support and troubleshooting. Topics include installation of network operating software, local area network (LAN) diagnostic utilities, installation and configuration of client software and of adaptor cards, physical
and data link layer troubleshooting of networks, bridging and routing, and configuration problems.
3 hours lecture, 3 hours laboratory.
Prerequisite(s): CIS 229, CIS 245, and CIS 260.

CIS 263 - Network Defense (4) * ‡
An advanced course in cybersecurity principles and techniques. Topics include the tools and tactics used in assessing the security posture of computer networks; the steps involved in a penetration testing methodology—network footprinting and discovery, service enumeration, attack vector evaluation, and vulnerability assessments; and the legal and ethical issues raised by penetration testing.
3 hours lecture, 3 hours laboratory.
Prerequisite(s): CIS 128, CIS 161, CIS 236, and CIS 255.

CIS 264 - Ruby Programming (4) ‡
A study of the fundamentals of the Ruby programming language. Emphasis is on the proper development of Ruby programs, on the language's syntax and semantics, and on appropriate debugging techniques for the language.
3 hours lecture, 2 hours laboratory.
Prerequisite(s): CIS 164.

CIS 267 - Mobile Security (3) ‡
A survey of mobile security as it relates to mobile computing devices such as smart phones and tablets. Focus is on the technologies, policies, and procedures used to secure these devices and on the security of their wireless transmissions.
3 hours lecture.
Prerequisite(s): CIS 160. Recommended Preparation: CIS 120.

CIS 268 - Technical Presentations (3) *
A practical application of the principles of effective communication. Students integrate current technologies to prepare and deliver effective, professional presentations.
3 hours lecture.
Prerequisite(s): CIS 116 or CIS 120.

CIS 270 - Systems Analysis (4) * ‡
An investigation of the analysis, design, and implementation of computer information systems. Students study the methods used to analyze both existing and proposed systems and projects, and they incorporate various software, techniques, and methodologies.
3 hours lecture, 3 hours laboratory.
Prerequisite(s): CIS 120.

CIS 275 - Computer Forensics (4) ‡
Fundamentals of computer forensics. Topics include forensic evidence preservation, computer forensic tools, evidence analysis, chain of custody, and data retrieval from computer hardware and software applications using both Windows and Linux operating systems. Explores the role of the computer forensics examiner and offers hands-on application of various computer forensic tools, evidence preservation techniques, and documentation.
3 hours lecture, 3 hours laboratory.
Prerequisite(s): CIS 236. Recommended Preparation: CIS 120.

CIS 281 - Advanced Computer Applications (3) * ‡
Advanced applications of spreadsheet and database software to solve practical problems. Spreadsheet emphasis is on formulas and functions; data analysis, reporting, and importing; spreadsheet applications; and macros. Database emphasis is on relational databases, advanced query techniques, forms with multiple tables, advanced report forms, macros, and development of database applications.
3 hours lecture.
Prerequisite(s): CIS 181.

CIS 287 - World Wide Web Development (3)
An introduction to the principles of good web page design. Topics include the use of HyperText Markup Language (HTML) and Cascading Style Sheets (CSS) to create multimedia pages, interactive forms, and mobile sites for the web that are compatible with the latest standards. Students create and post a web site on the internet.
3 hours lecture.
Prerequisite(s): CIS 185.

CIS 291 - Practical Applications in Cybersecurity (4) ‡
Examines the combination of technical, management, and presentation skills needed by cybersecurity professionals. Integrates the planning, implementation, maintenance, and defense of organizational networks, using a variety of tools and techniques. Provides extensive hands-on exercises to reinforce key course concepts.
3 hours lecture, 3 hours laboratory.
Prerequisite(s): CIS 161, CIS 236, and CIS 267.

CIS 294 - Field Experience in Computer Information Systems (1-3)
A supervised cooperative education field experience involving the combined efforts of educators and employers. Students accomplish various academic and career-related objectives in computer information systems and related fields. Semester-long regular workplace participation and weekly contact with assigned faculty advisor are required.
Prerequisite(s): A declared major in computer information systems; and CIS 140, CIS 150, CIS 160, or CIS 181.

CIS 294 - Field Experience in Computer Information Systems (3)
A supervised cooperative education field experience involving the combined efforts of educators and employers. Students accomplish various academic and career-related objectives in computer information systems and related fields. Semester-long regular workplace participation and weekly contact with assigned faculty advisor are required.
Prerequisite(s): A declared major in computer information systems; and CIS 140, CIS 150, CIS 160, or CIS 181.

**CLD - AWS CLOUD**

**CLD 110 - AWS Cloud Foundations (3)**

Amazon Web Services (AWS) Cloud Foundations provides a detailed overview of cloud concepts, AWS core services, security, architecture, pricing, and support. The course is intended for students who seek an overall understanding of cloud computing concepts, independent of specific technical roles. It helps to prepare students for the AWS Certified Cloud Practitioner exam.

3 hours lecture.
Prerequisite(s): None. Recommended Preparation: CIS 120.

**CLD 120 - AWS Cloud Architecting (3)**

Amazon Web Services (AWS) fundamentals of building IT infrastructure on and for AWS. Focuses on how to optimize use of the AWS Cloud by understanding AWS services and best practices for the AWS Cloud and how they fit into cloud-based solutions. Covers design patterns for architecting optimal IT solutions on AWS, as well as strategies and services implemented on AWS.

3 hours lecture.
Prerequisite(s): CLD 110.

**CNT - CISCO NETWORK TECHNOLOGY**

**CNT 140 - Introduction to Cisco Networks (3)**

An introduction to the architecture, structure, functions, components, and models of the internet and other computer networks. Topics include the principles and structure of internet protocol (IP) addressing and the fundamentals of Ethernet concepts, media, and operations. Students build simple local area networks (LANs), perform basic configurations for routers and switches, and implement IP addressing schemes. This is the first in a series of four courses in the Cisco Networking Technology (CNT) curriculum.

2 hours lecture, 2 hours laboratory.
Prerequisite(s): None

**CNT 150 - Cisco Routing and Switching Essentials (3)**

A study of the architecture, components, and operations of routers and switches in a small network. Students configure routers and switches for basic and advanced functionality, and troubleshoot and resolve common problems—in both IPv4 and IPv6 networks—with Routing Information Protocol (RIPv2) and virtual local area networks (VLANs). Includes the configuration of Network Time Protocol (NTP), host routes, and the recovery of lost passwords in an Internetwork Operating System. This is the second in a series of four courses in the Cisco Networking Technology (CNT) curriculum.

2 hours lecture, 2 hours laboratory.
Prerequisite(s): CNT 140.

**CNT 240 - Scaling Cisco Networks (3)**

An investigation into the architecture, components, and operations of routers and switches in a large, complex network. Students configure routers and switches for advanced functionality, and troubleshoot and resolve common problems—in both IPv4 and IPv6 networks—with Open Shortest Path First (OSPF), Enhanced Interior Gateway Routing Protocol (EIGRP), Spanning Tree Protocol (STP), extended Virtual Local Area Network (VLAN), Dynamic Trunking Protocol (DTP), and VLAN Trunking Protocol (VTP). Students develop the knowledge and skills needed to implement the following: Switched Virtual Interface (SVI), Inter-VLAN Routing, Hot Swappable Router Protocol (HSRP), LAN security, Dynamic Host Configuration Protocol (DHCP), and Domain Name System (DNS) operations in a network. They also examine the benefits of switch stacking in a small to medium-sized network. This is the third in a series of four courses in the Cisco Networking Technology (CNT) curriculum.

2 hours lecture, 2 hours laboratory.
Prerequisite(s): CNT 150.

**CNT 250 - Connecting Cisco Networks (3)**

An examination of the Wide Area Network (WAN) technologies and network services required in converged applications in a complex network. Covers the criteria for selecting network devices and WAN technologies to meet network requirements. Students troubleshoot and resolve common problems with network devices and data link protocols; and they implement the following: Network Address Translation (NAT), Virtual Private Network (VPN), Quality of Service (QoS), Point-to-Point Protocol over Ethernet (PPP), external Border Gateway Protocol (eBGP), Switch Port Analyzer (SPAN), Extended IPv4 Access Control Lists (ACLs), and IPv6 ACLs. They also examine the uses of network programming, LAN security, the Cloud, and virtualization in medium- to large-sized networks. This is the last in a series of four courses in the Cisco Networking Technology (CNT) curriculum.

2 hours lecture, 2 hours laboratory.
Prerequisite(s): CNT 240.

**COM - COMMUNICATIONS**

**COM 102 - Essentials of Communication (3)**

A study of the communication process as it relates to a variety of communication situations: one-on-one dialogues, small group discussions, and large group presentations. The course covers basics in communication, including listening skills, verbal and nonverbal language analysis, communication styles, gender and cultural comparisons, and bridging strategies.

3 hours lecture.
Prerequisite(s): ENG 096 or higher.

COM 110 - Public Speaking (3) °
A study of public speaking that reviews the fundamentals of speech as they relate to communicating with an audience, with special emphasis on the theories and techniques of persuasion. Students give speeches and they critique those of others from the perspective of topic selection, organization, and delivery.
3 hours lecture.
Prerequisite(s): COM 102 or permission of instructor.

COM 204 - Elements of Intercultural Communication (3) °, ~
An introduction to communication across cultures. Emphasis is on the theory underlying intercultural communication and on the practical application of communication strategies and skills that lead to improved communication among people of diverse cultural backgrounds in a multicultural society and world.
3 hours lecture.
Prerequisite(s): ENG 101 or permission of instructor. Cross-Listed as: AJS 204.

COM 270 - Interpersonal Communications (3) *, °
A course to develop self-awareness and insight into interpersonal relationships with emphasis upon the development of communication skills and techniques for one-on-one professional communication.
3 hours lecture.
Prerequisite(s): ENG 101.

COM 271 - Communications in Small Groups (3) *
A continuation of COM 270 refining skills and techniques learned and adding analysis and presentation with emphasis on small-group communication processes.
3 hours lecture.
Prerequisite(s): COM 270 or permission of instructor.

CPD - COUNSELING AND PERSONAL DEVELOPMENT

CPD 150 - Connections for Success (3) °
This course is an introduction to higher education, with an emphasis on CONNECTING wellness and a growth mindset to academic success, PLANNING for a meaningful career, and DEVELOPING relevant learning strategies, all within the context of ENGAGING classroom, campus, and community opportunities. It covers campus resources, communication skills, time management, and many other useful topics that ensure student success.
3 hours lecture.
Prerequisite(s): None

CUL - CULINARY ARTS

CUL 101 - Cake Decorating (3) ‡
Covers all aspects of cake decorating including leveling and torting, and introduces butter cream and fondant cakes, borders, flowers, color flow, and gum paste and fondant work.
2 hours lecture, 2 hours laboratory.
Prerequisite(s): None

CUL 105 - Nutrition in Food Service (3)
An introduction to the principles of culinary nutrition. Topics include the scientific aspects of nutrition, the impact of lifestyle on food production and consumption, and the practical applications of nutrition in food service.
3 hours lecture.
Prerequisite(s): None

CUL 107 - Restaurant Sanitation (3) ‡
An examination of techniques for controlling sanitation in food service operations. Includes a kitchen orientation and basic knife handling and safety. Prepares students to take the ServSafe industry certification. (Students wishing to re-certify may pay a fee for the certification test without having to retake the course.)
2 hours lecture, 2 hours laboratory.
Prerequisite(s): None

CUL 204 - Food Service Purchasing and Control (3)
A study of the principles in selecting sources, quality, and types of food, and in determining purchase quantities. Also deals with receiving operations and volume assurance including planning, control systems, cost analysis, sales income, and labor costs.
3 hours lecture.
Prerequisite(s): BUS 104 or placement into MAT 091. Recommended Preparation: CUL 215.

CUL 215 - Cooking Essentials (3) ‡
An introduction to food costs, recipes, pre-preparation, and basic cooking principles. Involves the preparation of stocks and sauces, vegetables, starches, breakfast products, meats, poultry, fish, and shellfish.
2 hours lecture, 2 hours laboratory.
Prerequisite(s): CUL 107, concurrent enrollment, or permission of instructor.

CUL 217 - Saucier (3) ‡
Focus is on the cooking principles and techniques used in the preparation of stocks, soups, classic and contemporary sauces and accompaniments, and on the pairing of sauces with a variety of foods.
2 hours lecture, 2 hours laboratory.
Prerequisite(s): CUL 107, concurrent enrollment, or permission of instructor.

CUL 220 - Breads and Baking Theory (3) ‡
An introduction to the essentials of baking theory, gluten development, and baking mathematics, with a focus on the use
of proper kitchen equipment. Includes instruction in the preparation of yeast doughs and the baking of quick breads, lean and rich dough breads, and artisan breads.

2 hours lecture, 2 hours laboratory.
Prerequisite(s): CUL 107, concurrent enrollment, or permission of instructor.

CUL 221 - Pastry Basics (3) ‡
A continuation of CUL 220 that includes advanced baking principles as they relate to pastry cream, merengues, icings, pie doughs, eclair paste, pie production, cakes, cookies and their characteristics, custards and mousses; frozen desserts; fruit desserts; souffles, doughnuts, and crepes. Additional topics include dessert presentation and baking for special diets.
2 hours lecture, 3 hours laboratory.
Prerequisite(s): CUL 220.

CUL 222 - Advanced Confections and Pastries I (3) ‡
Continued instruction in baking skills focusing on sophisticated pastry techniques including advanced laminated dough, specialty gateau and torten (gourmet cakes), and complex sauces and creams.
2 hours lecture, 3 hours laboratory.
Prerequisite(s): CUL 221.

CUL 223 - Advanced Confections and Pastries II (3) ‡
Advanced confectionary-showpiece work designed to develop chocolate decorative techniques such as tempering, molding, rolling, curling, shaving, and others, as well as sophisticated methods used in working with pulled, blown, poured, spun, and cast sugar.
2 hours lecture, 3 hours laboratory.
Prerequisite(s): CUL 222.

CUL 224 - Field Experience in Culinary Arts (1-4)
A supervised cooperative education field experience involving the combined efforts of educators and employers. Students accomplish various academic and career-related objectives in culinary arts and related fields. Semester-long regular workplace participation and weekly contact with assigned faculty advisor are required.
Prerequisite(s): A declared major in culinary arts and CUL 107.

CUL 225 - Garde Manger I (3) ‡
Covers the creation and storage of salads, sandwiches, and appetizers. Includes purchasing practices, food platter layout and presentation, and cooking methods. Also includes salads and dressings, poultry, seafood, meats, show pieces, and canapes and hors d'oeuvres.
2 hours lecture, 2 hours laboratory.
Prerequisite(s): CUL 215.

CUL 226 - Garde Manger II (3) ‡
A continuation of CUL 225, the garde manger culinary specialty. Emphasis is on preparing, presenting, and decorating cold food, including aspic and chaud froid, various forcemeats, cheeses, cured and smoked products, and charcuterie. Topics also include garde manger production, purchasing and procurement of specialty products, dinner and theme buffets, ice carvings, and plate presentations.
2 hours lecture, 3 hours laboratory.
Prerequisite(s): CUL 225.

CUL 242 - Dining Service Management (3)
A study of the concepts of dining room operations and the duties of a table server. Includes creative selling, basic etiquette and styles of service, electronic service, teamwork, generic and varietal wines, wine and food pairings, and bar service. Does not include mixology or wine tasting.
3 hours lecture.
Prerequisite(s): None

CUL 275 - International Cuisine (3) ‡
An introduction to regional ingredients in traditional international cuisine, with focus on planning, preparation, and presentation of foods from around the world. Emphasis is on trends, flavor profiles, plate presentations, and cooking techniques unique to various world regions.
2 hours lecture, 3 hours laboratory.
Prerequisite(s): CUL 226 or permission of instructor.

CUL 280 - Advanced Techniques in Gourmet Food Preparation I (3) ‡
The first of two capstone courses in the culinary arts program with emphasis on advanced techniques for the preparation of gourmet food including proper flavorings, spirits, garnishes, and flambé in haute cuisine.
2 hours lecture, 3 hours laboratory.
Prerequisite(s): CUL 217 and CUL 275, or permission of instructor.

CUL 281 - Advanced Techniques in Gourmet Food Preparation II (3) ‡
The second of two capstone courses in the culinary arts program with emphasis on advanced techniques for the preparation of gourmet food including proper flavorings, spirits, garnishes, and flambé in haute cuisine.
2 hours lecture, 3 hours laboratory.
Prerequisite(s): CUL 280.

CYB - CYBERSECURITY

CYB 101 - Introduction to Cybersecurity (3) ‡
CYB 101 provides students with a knowledge of security concepts and with the skills required to react to security incidents. Topics include network security; compliance and operational security; threats and vulnerabilities; application, data, and host security; access control and identity management; and cryptography.
3 hours lecture.
Prerequisite(s): None
**CYB 102 - Networking Foundations (3) ‡**
Networking Foundations is an introduction to networking and networking technologies that teaches students about networking protocols and technologies. Students will learn network analysis and utilize tools to observe and understand packets as they transition the network.
3 hours lecture.
Prerequisite(s): CYB 101.
**CYB 103 - Basic Operating Systems (3) ‡**
This course provides students with a general knowledge of desktop operating systems in Windows and Linux/Unix operating systems. Topics include operating system configuration, hardware, software, and security and system management.
3 hours lecture.
Prerequisite(s): CYB 101 and CYB 102.
**CYB 110 - Intermediate Operating Systems (4) ‡**
The Intermediate Operating Systems course is designed to give students an in-depth understanding of cyber information systems providing them with skills in configuration management of Microsoft Windows Operating Systems and Linux or Unix Operating Systems. Skills will include secure configuration implementation and automation of system administration tasks. This course will introduce automation concepts using Linux BASH scripting and Windows PowerShell.
3 hours lecture, 2 hours laboratory.
Prerequisite(s): CYB 101, CYB 102, and CYB 103.
**CYB 125 - Introduction to Scripting for Cybersecurity (4) ‡**
An introductory course to introduce students to scripting concepts using common scripting languages in support of automation and auditing tasks.
3 hours lecture, 2 hours laboratory.
Prerequisite(s): CYB 103.
**CYB 201 - Cybersecurity for Networking (4) ‡**
This course provides students with the knowledge and toolsets necessary to implement full-scale network security plans. Students will work with established network infrastructure, industry toolsets, and organizational guidance to secure the infrastructure and document findings.
3 hours lecture, 2 hours laboratory.
Prerequisite(s): CYB 125.
**CYB 210 - Scripting for Cybersecurity (4) ‡**
In this course students will apply industry standard skills to build automated security pipelines leveraging interpreted programming languages. Students will work with real-world scenarios while creating applicable toolsets in languages including Python, PowerShell, and Go in multiple delivery platforms.
3 hours lecture, 2 hours laboratory.
Prerequisite(s): CYB 201 or concurrent enrollment.
**CYB 220 - Digital Forensics and Incident Response (4) ‡**
CYB 220 provides students with an understanding of intrusion detection methodologies, tools, and approaches to incident response, examination of computer forensic principles, including operating system concepts, and an exploration of the ethical and legal issues attendant to cyber investigations and forensics. Students will be introduced to the incident response system and understand how digital forensics fits into the process of securing and investigating digital crimes.
3 hours lecture, 2 hours laboratory.
Prerequisite(s): CYB 201, CYB 210, or concurrent enrollment.
**CYB 260 - Introduction to Cloud Technologies (4) ‡**
CYB 260 provides students an introduction to the concepts of cloud computing and a clear understanding of modern cloud platforms and providers. Students will be exposed to cloud architecture and security configurations. Upon completion, students will be able to securely, through automation, deploy cloud infrastructure in two or more cloud environments.
3 hours lecture, 2 hours laboratory.
Prerequisite(s): CYB 220.
**CYB 275 - Applied Cyber Operations (4) ‡**
In this course, students will leverage knowledge of industry security techniques, considerations of domestic and international law, and ethics, to aid in the development of a security penetrating testing plan. Students will fully develop, implement, execute, and report on cybersecurity penetration testing plans in accordance with industry standards.
3 hours lecture, 2 hours laboratory.
Prerequisite(s): CYB 260, or concurrent enrollment.
**CYB 290 - Operational Cybersecurity (5) ‡**
The Operational Cybersecurity course is a capstone course that requires students to implement their knowledge, skills and abilities in Cybersecurity. This capstone course places Cybersecurity students in a simulated corporate environment. Students will secure and defend a virtual environment from simulated adversarial threats.
4 hours lecture, 2 hours lab.
Prerequisite(s): CYB 260 and CYB 275, or concurrent enrollment.

**DFT - DRAFTING**
**DFT 150 - Fundamentals of AutoCAD (3)**
An introduction to automated computer-aided design using Autodesk's AutoCAD software. Focus is on developing the knowledge and skills required to create, edit, and manipulate simple drawings using AutoCAD.
2 hours lecture, 3 hours laboratory.
Prerequisite(s): None
Recommended Preparation: Computer literacy with a working knowledge of Windows and its functions, and a basic knowledge of drafting.

DFT 201 - Topics in Drafting (3)
An application of automated computer-aided design using Autodesk's AutoCAD software. Topics include architectural, civil, mechanical, and electrical drafting. Covers how different drafting disciplines are used in current fields of technology.
2 hours lecture, 3 hours laboratory.
Prerequisite(s): DFT 150.

DFT 250 - Advanced AutoCAD (4)
An advanced application of automated computer-aided design using Autodesk's AutoCAD software. Covers complex two-dimensional drawings, and three-dimensional drawings and modelings.
2 hours lecture, 4 hours laboratory.
Prerequisite(s): DFT 150.

DFT 270 - AutoCAD 3D (4)
An introduction to the concepts and methodologies of 3D modeling and rendering using Autodesk's AutoCAD 3D software. Covers solids, surfaces, space, visualizations, and drawings.
2 hours lecture, 4 hours laboratory.
Prerequisite(s): CIS 116, DFT 150, and DFT 250.

DMA - DIGITAL MEDIA ARTS

DMA 110 - Digital Imaging I (3) °, ‡
An introduction to the creation, manipulation, and enhancement of digital images. Using appropriate software, students apply fundamental composition and image-preparation techniques to create basic digital images and to resolve simple image problems.
3 hours lecture, 1 hour laboratory.
Prerequisite(s): Concurrent enrollment in CIS 116, CIS 120, or permission of instructor.

DMA 111 - Computer Animation I (3) °, ‡
A study of the beginning and intermediate features of animation software developed through the practical application of basic computer animation skills.
3 hours lecture, 1 hour laboratory.
Prerequisite(s): None

DMA 140 - Digital Photography for Personal Growth (2) °, ‡
An introduction to the use and function of the digital camera and the hardware, software, and techniques necessary to electronically store, transfer, manipulate, and print digital photographs. Students will learn basic design concepts as they relate to digital photography as an art form. This includes skill development in basic elements of design: line, shape, value, texture, and color. Students will acquire skills in using a digital camera as a photographic tool for career, work or personal pleasure and self-expression.
1 hour lecture, 3 hours laboratory.
Prerequisite(s): None

DMA 210 - Digital Imaging II (3) °, ‡
An advanced study of the creation, manipulation, and enhancement of digital images. Using appropriate software, students apply advanced composition and image-preparation techniques to create complex digital images and to resolve difficult image problems.
3 hours lecture, 1 hour laboratory.
Prerequisite(s): DMA 110. Recommended Preparation: ART 103 or ART 106.

DMA 211 - Computer Animation II (3) °, ‡
A study of the advanced and multifaceted features of animation software as they are developed through the practical application of advanced computer animation skills.
3 hours lecture, 1 hour laboratory.
Prerequisite(s): DMA 111. Recommended Preparation: ART 103 or ART 106.

DMA 214 - Creating Multimedia Presentations (4) ‡
This course is the capstone course in the 2D animation and imagery series. This course will produce multimedia presentations encompassing techniques learned in all the prerequisite courses. This course is taught in a hands-on environment.
4 hours lecture.
Prerequisite(s): DMA 110, DMA 111, DMA 210, and DMA 211.

DMA 260 - Graphic Design I (3) °, ‡
A studio course introducing the process and purpose of graphic design. Studio, research, and problem-solving methodologies; review of basic design principles; and design applications to include identity and information, editorial, promotional, and advertising. This class serves as the foundation for intermediate and advanced graphic design course work and will focus on the use of Macintosh computers and Adobe software including Photoshop and Illustrator.
2 hours lecture, 4 hours laboratory.
Prerequisite(s): ART 103, ART 106, or permission of instructor.

DMA 261 - Graphic Design II (3) ‡
A studio course introducing the process and purpose of graphic design. Studio, research, and problem-solving methodologies; review of basic design principles; and design applications to include identity and information, editorial, promotional, and advertising. This class serves the intermediate and advanced graphic designer and will focus on
the use of Macintosh computers and Adobe software including Photoshop and Illustrator.

2 hours lecture, 4 hours laboratory.

Prerequisite(s): DMA 260 and either ART 103, ART 106, or permission of instructor.

DMA 262 - Digital Video Production (3) ‡

This course will introduce the student to the fundamental aspects of video production. It will include a history of digital video, an introduction to the digital video camera, camera lenses and associated computer equipment. Students will also work as members of a production team and receive instruction on composition, portfolio preparation, and possible career options.

2 hours lecture, 4 hours laboratory.

Prerequisite(s): None

Recommended Preparation: Art majors must have ART 103 and DMA 266, or permission of instructor. Additional preparation may include ART 285.

DMA 263 - Digital Video Production II (3) ‡, °

An advanced studio course dealing with the process and production of the digital video. This course will include: advanced digital topics in camera usage, digital formats and scripting, production plan, lighting equipment in/on various locations, post production, editing approaches, developing a visual storyline, and building a portfolio.

2 hours lecture, 4 hours laboratory.

Prerequisite(s): DMA 262.

Recommended Preparation: ART 103.

DMA 266 - Digital Photography (3) ‡, °

An introduction to digital photography which will emphasize technical and aesthetic issues associated with this medium.

This course is designed to acquaint students with the history of still photography, aspects of the digital medium, camera and computer requirements, lighting, lenses, elements of composition, portfolio, and career options in this artistic field.

2 hours lecture, 4 hours laboratory.

Prerequisite(s): None

Recommended Preparation: Art majors must have ART 103 or permission of instructor. Additional preparation may include ART 285.

DMA 267 - Digital Photography II (3) ‡

This course is a continuation of DMA 266 Digital Photography I which will emphasize intermediate technical and aesthetic issues associated with this medium.

This course will address intermediate, aspects of digital photography including: digital output, lighting, computer/computer software and digital camera usage, composition, critical analysis, and portfolio development.

2 hours lecture, 4 hours laboratory.

Prerequisite(s): DMA 266.

Recommended Preparation: ART 103 and DMA 260.

ECE - EARLY CHILDHOOD EDUCATION

ECE 150 - Introduction to Early Childhood Care and Education (3) °

An overview of early childhood education and its teachers. Topics include current issues and trends in the profession, instructional methods, classroom ethics, teachers’ qualifications, and their roles and responsibilities in the classroom.

3 hours lecture.

Prerequisite(s): None

Recommended Preparation: Concurrent employment in an early childhood care or education facility, or concurrent enrollment in EDU 224.

ECE 152 - Observation, Behavior, and Guidance (3) °

An introductory course in communication skills, concepts, and techniques for observing and recording child characteristics and behaviors in the early childhood setting. Areas of focus are objective observation techniques, guidance, behavior modification techniques, listening skills, and classroom management. Meaningful two-way communication is emphasized.

3 hours lecture.

Prerequisite(s): None

Recommended Preparation: Concurrent employment in an early childhood care or education facility, or concurrent enrollment in Cooperative Education in an early childhood care or education facility.

ECE 155 - Children's Language Development (3) °

An overview of the development of language from birth to age five. Topics include sound, structure, meaning, the role of society in language development, and mixed and multiple language acquisition. Also covers hearing and sight impairment and the relationship of spoken to written language. Designed to enable students to facilitate language growth in child-care and preschool settings.

3 hours lecture.

Prerequisite(s): ECE 150 or concurrent enrollment.

Recommended Preparation: Concurrent employment in an early childhood care or education facility, or concurrent enrollment in EDU 224.

ECE 156 - Children's Literature and Literacy (3) °

An overview of the process by which children become literate, with emphasis on language and literacy development from birth to age five. Samples children’s literature and examines language activities that support child literacy across languages and cultures. Studies the role of narration and storytelling as well as the sequential nature of speaking, reading, and writing acquisition. Designed to enable students to facilitate literacy development in child-care and preschool settings.

3 hours lecture.

Prerequisite(s): ECE 150 or concurrent enrollment.

Recommended Preparation: Concurrent employment in an early childhood care or education facility, or concurrent enrollment in EDU 224.
ECE 158 - Health, Safety, and Nutrition for Young Children (3)°
In-depth examination of comprehensive health, mental health, safety, and nutrition concepts and their applications and implications for developing quality child development and early childhood education programs.
3 hours lecture.
Prerequisite(s): None

ECE 160 - Early Childhood Growth and Development (3)°
This course addresses growth and development from conception to middle childhood, and socialization from infancy to middle childhood, with implications for childcare providers and primary school teachers. Topics covered also include health, safety, and nutrition.
3 hours lecture.
Prerequisite(s): None Recommended Preparation: Concurrent employment in an early childhood care or education facility, or concurrent enrollment in Cooperative Education in an early childhood care or education facility.

ECE 161 - Understanding Families, Community, and Diversity (3)°
An exploration of the resources, skills, and strategies used by early childhood caregivers and teachers to deal with and assist families in the community. Emphasis is on the role of cultural and community diversity in the education of young children.
3 hours lecture.
Prerequisite(s): ECE 150 or concurrent enrollment.
Recommended Preparation: Concurrent employment in an early childhood care or education facility, or concurrent enrollment in EDU 224.

ECE 170 - Curriculum Development for Early Childhood Education (3)°
A study of the methods used to select and present developmentally appropriate curricular practices and activities that enhance optimal growth from infancy to age eight. Emphasis is on planning, developing, implementing, and evaluating activities used in child-care settings.
3 hours lecture.
Prerequisite(s): ECE 150 or concurrent enrollment.
Recommended Preparation: Concurrent employment in an early childhood care or education facility, or concurrent enrollment in EDU 224.

ECE 172 - Teaching Strategies for Early Childhood Education (3)°
An overview of the techniques used in early childhood education to accommodate a variety of learning styles, with emphasis on developmentally appropriate activities for young children. Emphasis is on teaching strategies that create an environment where children experience optimum growth.
3 hours lecture.
Prerequisite(s): ECE 150 or concurrent enrollment.
Recommended Preparation: Concurrent employment in an early childhood care or education facility, or concurrent enrollment in EDU 224.

ECE 173 - Administration of Early Childhood Care and Education Programs (3)°
An in-depth examination of the principles and practices used to soundly administer early childhood programs. Topics include record keeping methods, budgeting strategies, and staffing plans; legal responsibilities and mandates; and the managing of programs that are developmentally, culturally, and geographically appropriate.
3 hours lecture.
Prerequisite(s): ECE 150 or concurrent enrollment.
Recommended Preparation: Concurrent employment in an early childhood care or education facility, or concurrent enrollment in EDU 224.

ECN - ECONOMICS

ECN 201 - Principles of Macroeconomics (3) *, °, ~
A broad overview of the national and international economy, with emphasis on supply and demand as it relates to macroeconomic issues such as unemployment, inflation, and economic growth. Topics include national income accounting, fiscal policy, monetary policy, and international trade theory.
3 hours lecture.
Prerequisite(s): ENG 101.

ECN 202 - Principles of Microeconomics (3) *, °, ~
A study of individual markets with focus on supply and demand. Topics include consumer theory, cost and production for businesses, pure competition, pure monopoly, and international finance markets.
3 hours lecture.
Prerequisite(s): ENG 101.

EDU - EDUCATION

EDU 025 - Armed Services Vocational Aptitude Battery (ASVAB) Preparation and Improvement Course (2)
A methodology to increase ASVAB scores, with an emphasis on increasing the General Technical (GT) qualifying score. This course provides an overview of testing techniques or skills required to improve general science, arithmetic
reasoning, word knowledge, paragraph comprehension, numerical operations, coding speed, auto and shop information, mathematics knowledge, mechanical comprehension, and electronics information, which comprise the ASVAB.

1 hour lecture, 2 hours laboratory.
Prerequisite(s): Placement measurement and recommendation of the Army Education Center Officer/Counselor.

EDU 101 - Fundamentals of Education (3)
A survey of the American education system, including its history and structure. Topics include the developmental stages of children; the role of diversity in education and its effects on schools, teachers, and students; and the legal, ethical, and financial issues facing today's schools. Designed to articulate with high school Education Professions programs.
3 hours lecture.
Prerequisite(s): RDG 092 or exemption.

EDU 201 - Introduction to Education (3)
An overview of public education: the education profession, educational institutions, and educational systems within American society. Includes the study of current educational issues and of educators' roles, responsibilities, and qualifications; and offers the opportunity to apply educational theories and methodologies during 32 hours of supervised classroom observations in public school settings. Requires appropriate Department of Public Safety fingerprint clearance and related fees.
2 hours lecture, 2 hours laboratory.
Prerequisite(s): ENG 101 or concurrent enrollment, and RDG 092 or exemption.

EDU 203 - Foundations of Instructional Techniques (3)
A study of learner-centric instructional techniques. Emphasis is on verbal and nonverbal instructional behaviors, and on classroom management strategies. Attention is paid to collaborative problem-solving and active learning techniques, generational attributes, and various learning styles.
3 hours lecture.
Prerequisite(s): None

EDU 204 - Learner-Centered Instruction (3)°
An in-depth study of how to structure student-centric instruction, with emphasis on critical thinking and lifelong learning.
3 hours lecture.
Prerequisite(s): None

EDU 205 - Theoretical Dynamics of Instruction (3)°
An analysis of various learning and motivational theories and their application to adult learning.
3 hours lecture.
Prerequisite(s): None

EDU 206 - Mentoring Practicum (4)°
A practical application of mentoring theory based on the pairing of an experienced instructor with a protégé. Requires a minimum of 45 hours of direct mentoring.
3 hours lecture, 3 hours laboratory.
Prerequisite(s): EDU 203, EDU 204 and EDU 205 or Instructor permission.

EDU 207 - Instructional Design for Adult Education (3)
An introduction to the instructional design technique of Analysis, Design, Development, Implementation, and Evaluation (ADDIE). Topics include learning rubrics, assessment, and delivery considerations.
3 hours lecture.
Prerequisite(s): None

EDU 208 - Capstone Practicum in Instructional Techniques (4)
A capstone project that applies both learner-centric instructional techniques and the elements of Analysis, Design, Development, Implementation, and Evaluation (ADDIE) to a curriculum of the student's choosing.
3 hours lecture, 3 hours laboratory.
Prerequisite(s): EDU 207.

EDU 218 - Introduction to Structured English Immersion (3)°
This course addresses current educational and legal requirements for serving English Language Learners (ELL). Topics include ELL proficiency standards, assessment, foundations of Structured English Immersion (SEI), and SEI strategies. Focus is on SEI; however, comparison and evaluation of various types of language education models, such as English as a Second Language (ESL) and bilingual instruction, are included. This course meets Arizona Department of Education requirements for three semester hours (45 contact hours) and leads to augmented provisional SEI endorsement, required for Teaching and/or Administrative certification.
3 hours lecture.
Prerequisite(s): Arizona Teaching and/or Administrative certification or departmental approval.

EDU 221 - Structured English Immersion (SEI) (3)°
A study of the theories and methodologies used to plan, develop, and evaluate lesson plans in all content areas as they relate to Structured English Immersion (SEI) and English Language Learner (ELL) standards. Emphasis is on curriculum content, teaching strategies, SEI foundations, assessment and data analysis, and the role of culture in learning. Meets the Arizona Department of Education’s requirements for SEI endorsement.
3 hours lecture.
Prerequisite(s): EDU 201, EDU 222, and EDU 230.
Recommended Preparation: Arizona Teaching and/or Administrative certification.

EDU 222 - Introduction to Special Education (3)°
COURSES | 121

A study of special education with emphasis on current educational theories and practices. Attention is given to identifying the characteristics of emotionally handicapped, learning disabled, mentally handicapped, and gifted children. Topics include autism spectrum disorder, attention deficit/hyperactivity disorder (ADHD), special education considerations in early childhood and K-12 settings, and accommodations for special education students. 3 hours lecture. Prerequisite(s): EDU 201.

EDU 224 - Field Experience in Education (1-3)
A supervised cooperative education field experience involving the combined efforts of educators and employers. Students accomplish various academic and career-related objectives in education and related fields. Semester-long regular workplace participation and weekly contact with assigned faculty advisor are required. Prerequisite(s): A declared major in education, and ECE 150 or EDU 201.

EDU 226 - Cultural Diversity in Education (3) °
An analysis of the correlation between children’s cultural values and the formation of their self-concepts and learning styles. Examines the impact of prejudice, stereotyping, and cultural differences on the educational process. Emphasis is on training future teachers to be culturally sensitive to students of all racial and ethnic backgrounds. 3 hours lecture. Prerequisite(s): EDU 201 or concurrent enrollment. Recommended Preparation: ENG 102 or concurrent enrollment.

EDU 230 - Classroom Relationships (3) °
A study of the fundamentals of classroom management and of communication techniques. Deals with creating a positive learning environment, accommodating cultural diversity and various learning styles, and applying effective communication strategies and classroom discipline techniques. 3 hours lecture. Prerequisite(s): EDU 201.

EGR - ENGINEERING

EGR 102 - Principles of Engineering (3) ‡
An introduction to general engineering principles and to the role of systems, design, and testing in the engineering process. Students investigate the interaction between engineering and various business departments. They also use tools such as Excel and MATLAB for data reduction and presentations, and they apply learned skills while working on group projects. 3 hours lecture. Prerequisite(s): MAT 151 and MAT 182, MAT 187, or concurrent enrollment in MAT 220.

EGR 103 - Electrical Components and Systems (4) ‡
An introduction to the basics of electrical components in a complex system. Students investigate the physical properties and functions of these components and the role they play within the system. Students also utilize technical documents such as data sheets, schematics, circuit timing diagrams, and system specifications to identify, localize, and correct malfunctions in the system; and they perform preventive maintenance on the system's components. 3 hours lecture, 3 hours laboratory. Prerequisite(s): None

EGR 104 - Introduction to Programmable Logic Controllers (4) ‡
An introduction to the fundamentals of digital logic and to programmable logic controllers (PLCs) in a complex system. Using computer simulations, students explore the role PLCs play within a given system and its subsystems, and they demonstrate PLC functions by writing basic programs and testing them on the actual system. They also apply troubleshooting strategies to identify malfunctioning PLCs and to localize problems caused by PLC hardware. 3 hours lecture, 3 hours laboratory. Prerequisite(s): None

EGR 107 - Introduction to RF Communication Systems (4) ‡
An overview of modern communication waveforms. Topics include the radio spectrum; radio propagation; co-channel and adjacent channel interference; power and spectral measurement; data capture, reduction, and presentation; and the safe and correct handling of RF equipment connections. 3 hours lecture, 3 hours laboratory. Prerequisite(s): EGR 103 and MAT 182.

EGR 122 - Programming for Engineering and Science (4) ‡
An introduction to computer programming with an emphasis on problem-solving applications in the fields of engineering and science. Includes structured programs, data types, operations, repetitions, arrays, functions, data files, address pointers, and character strings. 3 hours lecture, 2 hours laboratory. Prerequisite(s): MAT 151.

EGR 202 - Electrical Circuits (4) ‡
A fundamental study of electrical and electronic circuits, and of the principles for analyzing linear and nonlinear circuits. Topics include circuit elements, Ohm's Law, Kirchhoff's Laws, the superposition theorem, Thevenin's and Norton's theorems, amplifiers, electrical networks with capacitors and/or inductors, and alternating current (AC) power. 3 hours lecture, 3 hours laboratory. Prerequisite(s): MAT 262 and PHY 231.

EGR 210 - Statics (3)
A basic analysis of static mechanical systems for civil, as well as structural, and mechanical engineering students. Topics include vector algebra, equilibrium of particles and rigid structures, and statics. 3 hours laboratory. Prerequisite(s): MAT 262 and PHY 231.
bodies, forces, moments, couples, equivalent force systems, analysis of simple structures (trusses, beams, frames, cables, and simple machines), friction, and first and second moments of area (moment of inertia).
3 hours lecture.
Prerequisite(s): MAT 231 and PHY 230.

EGR 213 - Mechanics of Materials (3)
An introduction to the analysis of the mechanical properties of materials for civil as well as structural engineering students. Topics include thin-walled pressure vessels, direct shear stresses, torsion, shearing force and bending moment, and elastic deflection of beams, columns, combined stresses, and members subject to combined loadings.
3 hours lecture.
Prerequisite(s): EGR 210.

ELT - ELECTRONICS

ELT 100 - Electronics Foundations (3)
An introduction to the principles of electronics. Topics include direct and alternating circuits, passive and active components, Ohm's and Watt's Laws, network theorems, series and parallel resonance, and schematic diagrams. This course is offered only at the Arizona Department of Corrections in Douglas.
3 hours lecture.
Prerequisite(s): None

ELT 102 - Basic Information Systems Installation (8)
A theoretical and practical study of the installation and repair of information systems, focusing on standard practices and techniques of communications-electronics installation.
4 hours lecture, 12 hours laboratory.
Prerequisite(s): Approval of the Army Training and Doctrine Command.

ELT 105 - Introduction to DC Circuits (3)‡
The analysis of direct current resistive circuits, with an emphasis on Ohm's Law and Kirchhoff's Laws, the superposition theorem, and Thevenin's and Norton's theorems.
2 hours lecture, 3 hours laboratory.
Prerequisite(s): None

ELT 106 - Introduction to AC Circuits (4)‡
An introduction to alternating current passive circuits and the application of basic trigonometry and vectors to circuit solutions.
3 hours lecture, 3 hours laboratory.
Prerequisite(s): ELT 105.

ELT 110 - Mathematics for Electronics (3)
A review of basic arithmetic and the study of algebraic principles as they relate to electronic circuitry. Includes fractions, decimals, fundamental algebra, scientific notation, graphing, linear equations, and DC electric circuits.
3 hours lecture.
Prerequisite(s): One year of high school algebra or equivalent.

ELT 125 - Electronic Circuits and Systems (4)‡
A study of large signal diode and filter analysis, voltage, and current regulation, with an emphasis on the field effect transistor as an amplifier, the Miller Effect, frequency response, and feedback.
3 hours lecture, 3 hours laboratory.
Prerequisite(s): ELT 106.

ELT 131 - FCC Regulations (2)°
An in-depth preparation for the Federal Communications Commission examination.
2 hours lecture.
Prerequisite(s): None

ELT 133 - Digital Circuits and Systems (4)‡
A study of number systems, Boolean algebra, and combinational and sequential logic circuits and systems.
3 hours lecture, 3 hours laboratory.
Prerequisite(s): One year of high school algebra or equivalent.

ELT 135 - Digital and Microprocessor Fundamentals (4)‡, °
A study of digital concepts, logic elements, control applications, programming, interfacing, basic networking, and networking to data links. Emphasis is on combinational and sequential logic, and on the memory and support circuits of various components of microcomputers.
3 hours lecture, 3 hours laboratory.
Prerequisite(s): ELT 106.

ELT 222 - Semiconductors and Transistors (4)‡
A comprehensive study of semiconductor devices, with an emphasis on the qualitative and quantitative analysis of semiconductor circuits. Includes the small signal analysis of diodes and transistors, DC biasing, load lines, approximate hybrid parameters, and multistate systems.
3 hours lecture, 3 hours laboratory.
Prerequisite(s): ELT 106.

ELT 227 - Autonomous Systems and Control Stations (3)‡, °
A study of autonomous systems and their capabilities, of control stations, and of electrical power and computer sub-
systems. Topics include automated takeoff and landing systems, navigation sub-systems, data link sub-systems and data processing equipment, tactical communication sub-systems, and control workstations.

2 hours lecture, 3 hours laboratory.
Prerequisite(s): ELT 222.

ELT 245 - Communication Electronics I (4) ‡, °
The application of qualitative and quantitative theoretical concepts to communications circuits. Includes AM and FM receiver systems, voltage and power amplifiers, feedback, oscillators, resonance, filters, coupling, frequency synthesizers, and phaselock techniques.
3 hours lecture, 3 hours laboratory.
Prerequisite(s): ELT 125.

ELT 247 - Communication Electronics II (4) ‡, °
A continuation of ELT 245 that includes AM and FM transmitter systems, transmission lines, antennas, and propagation devices. Emphasis is on the use of electronic test equipment in the analysis and adjustment of receivers and transmitters.
3 hours lecture, 3 hours laboratory.
Prerequisite(s): ELT 245.

ELT 265 - Microprocessors and Microcomputers (4) ‡
An introduction to the architecture of microprocessors and to the organization, programming, interfacing, and control applications of microcomputers.
3 hours lecture, 3 hours laboratory.
Prerequisite(s): ELT 133.

EMT - EMERGENCY MEDICAL TECHNOLOGY

EMT 174 - Emergency Medical Technician (8) ‡
A study of anatomy and physiology, signs and symptoms of illness and injury, patient assessment, procedures associated with the provision of emergency medical care, triage, basic life support systems, and basic legal responsibilities. Equip students with the knowledge and skills required by the National Registry of Emergency Medical Technicians (NREMT) and the Arizona Department of Health Services - Bureau of Emergency Medical Services (ADHS-BEMS) to practice as an Emergency Medical Technician. Students desiring NREMT/ADHS-BEMS certification must complete the state-required number of clinical experience hours with an Emergency Medical Service provider of out-of-hospital emergency care. Meets the ADHS-BEMS guidelines and is approved by the state of Arizona and the National Registry of EMTs.
Medical Direction: Arizona Certified EMTs are authorized to provide treatment, perform procedures, and utilize skills--as defined by the 2009 National EMS Education Standards--only under the medical control of an approved medical director or certified base hospital.

7 hours lecture, 3 hours laboratory.
Prerequisite(s): RDG 092 or exemption. Students taking this course for state or national certification must be 18 within six months of course completion.

ENG - ENGLISH

ENG 095 - Basic Writing (3) °
A review of English grammar, mechanics, terminology, and rules as they apply to writing and revising at the sentence and paragraph levels. Includes techniques for creating introductions, topic sentences, transitional sentences, and conclusions. Also emphasizes vocabulary development.
3 hours lecture.
Prerequisite(s): Appropriate placement measurement, and CPD 150 or concurrent enrollment, or successful completion of ESL 024.

ENG 096 - Intermediate Writing (3) °
A study of intermediate writing skills, with emphasis on unity, support, and coherence of ideas. Includes a general review of vocabulary, homophones, grammar, punctuation, usage, and paragraph and essay writing skills. Also covers college-level research skills and analysis of short fiction.
3 hours lecture.
Prerequisite(s): Appropriate placement measurement or ENG 095, and CPD 150 or concurrent enrollment.

ENG 101 - Composition (3) *, °
A study of and practice in the process of writing, methods of organization, and expository patterns. Students write a documented paper based on library and other sources.
3 hours lecture.
Prerequisite(s): Appropriate placement measurement or ENG 096.

ENG 101A - Composition - Flex A (3)
Study of and practice in the process of writing, methods of organization, expository patterns, and a documented paper based on library and other resources, with a review of usage and syntax.
3 hours lecture.
Prerequisite(s): Placement measurement, ENG 101A, or instructor recommendation. Recommended Preparation: Keyboarding skills.

ENG 101B - Composition - Flex B (3)
Study of and practice in the process of writing, methods of organization, expository patterns, and a documented paper based on library and other resources, with a review of usage and syntax.
3 hours lecture.
Prerequisite(s): Placement measurement, ENG 101A, or instructor recommendation. Recommended Preparation: Keyboarding skills.

ENG 102 - English Composition (3) *, °
A continuation of ENG 101 with special emphasis on the techniques involved in writing argument, persuasion, and literary analysis.

3 hours lecture.
Prerequisite(s): ENG 101.

ENG 102H - English Composition (3)

A continuation of ENG 101 with special emphasis on the techniques involved in writing argument, persuasion and literary analysis.

3 hours lecture.
Prerequisite(s): ENG 101 with a grade of A, recommendation of ENG 101 instructor, minimum 3.5 GPA, completion of 12 Cochise College transfer credits, or permission of instructor.

ENG 119 - Creative Writing (3) °, ~

An introduction to creative writing which models examples of narrative prose, poetry, and drama. In addition, students' original work is analyzed and critiqued.

3 hours lecture.
Prerequisite(s): ENG 102 or permission of instructor.

ENG 219 - Advanced Creative Writing (3) °, ~

A continuation of creative writing which models examples of narrative prose, poetry, and drama. In addition, students' original work is analyzed and critiqued.

3 hours lecture.
Prerequisite(s): ENG 119 or permission of instructor.

ENG 220 - British Literature I (3) °, ~

A survey of the major British authors from the beginnings to the early 18th century.

3 hours lecture.
Prerequisite(s): ENG 102 or permission of instructor.

ENG 221 - British Literature II (3) °, ~

A survey of the major British authors from the 18th century to the present.

3 hours lecture.
Prerequisite(s): ENG 102 or permission of instructor.

ENG 222 - Introduction to Shakespeare (3) °, ~

An exploration of selected histories, tragedies, and problem plays/comedies by William Shakespeare.

3 hours lecture.
Prerequisite(s): ENG 102 or permission of instructor.

ENG 224 - American Literature I (3) °, ~

A survey of American literature from the pre-colonial period to 1860.

3 hours lecture.
Prerequisite(s): ENG 102 or permission of instructor.

ENG 225 - American Literature II (3) °, ~

A survey of selected works by major American authors from post-Civil War to the present.

3 hours lecture.
Prerequisite(s): ENG 102 or permission of instructor.

ENG 228 - Mythology and Folklore (3) °, ~

A survey of myths and folktales from classical to present times. Covers the basic concepts of myths and the approaches to understanding them. Includes the role of folklore in culture.

3 hours lecture.
Prerequisite(s): ENG 102 or permission of instructor.

ENG 230 - Literature of the Southwest (3) ~

Introduction to the literature of the American Southwest, spanning historical through contemporary times. Emphasis on the environmental, historical, and cultural influences on southwestern literary styles, genres, themes, and images.

3 hours lecture.
Prerequisite(s): ENG 102 or permission of instructor.

ENG 231 - Native American Literature (3) °, ~

An introduction to Native American literature which includes oral traditions and stories, autobiographies, fiction, and poetry. Emphasis is on the influences of culture and history on Native themes and symbols.

3 hours lecture.
Prerequisite(s): ENG 102 or permission of instructor.

ENG 255 - Introduction to the English Language (3) °, ~

An introduction to the basic concepts in the study of the English language: structure, interpretation, variation and changes. Overview of several specializations within linguistics with special attention to language acquisition and application to the teaching of English.

3 hours lecture.
Prerequisite(s): ENG 101, ENG 102, or permission of instructor.

ENG 257 - Literary Magazine Production and Design (3) ‡

While producing the Mirage: Literary and Arts Magazine, students will examine the theories, research, and practices of visual rhetoric to design effective online and print documents, websites, and/or videos for a targeted audience. Using current computer software design applications, students will analyze and produce projects and the newest print and online editions of the Mirage: Literary and Arts Magazine.

3 hours lecture.
Prerequisite(s): ENG 101. Cross-Listed as: JRN 224.

ENG 260 - Irish Literature (3) ~

An exploration of selected traditional, modern, and contemporary Irish literary works.

3 hours lecture.
Prerequisite(s): ENG 102 or permission of instructor.

ENG 265 - Major American Writers (3) ~

An exploration of selected works by major American authors from the last century to the present.

3 hours lecture.
Prerequisite(s): ENG 102 or permission of instructor.

**ENG 273 - Women and Literature (3) **

This course is a survey of literature by and about women, including the study of issues concerning women in literature and the changing images of women. It includes literary analysis of selected writings.

3 hours lecture.
Prerequisite(s): ENG 102 or permission of instructor.

**ESL - ENGLISH AS A SECOND LANGUAGE**

**ESL 010 - ESL Grammar I (3)**

An introduction to basic English grammar skills for beginning to high-beginning students whose native language is not English, with emphasis on the syntax and structure of simple sentences.

3 hours lecture, 2 hours laboratory.
Prerequisite(s): Placement measurement.

**ESL 012 - ESL Reading I (3)**

An introduction to basic reading skills for beginning to high-beginning students whose native language is not English, with emphasis on vocabulary development, comprehension, and structure.

3 hours lecture, 2 hours laboratory.
Prerequisite(s): Placement measurement.

**ESL 014 - ESL Writing I (3)**

An introduction to basic English writing skills for beginning to high-beginning students whose native language is not English, with emphasis on writing paragraphs about simple topics using certain specific tenses.

3 hours lecture, 2 hours laboratory.
Prerequisite(s): Placement measurement.

**ESL 016 - ESL Oral Communication I (3)**

An introduction to oral communication skills in English for beginning to high-beginning students whose native language is not English, with emphasis on vocabulary, pronunciation, and basic listening and speaking skills.

3 hours lecture, 2 hours laboratory.
Prerequisite(s): Placement measurement.

**ESL 017 - ESL Intensive Reading and Writing I (3)**

An introduction to basic reading and writing skills for beginning to high-beginning students whose native language is not English, with emphasis on vocabulary, reading comprehension, paragraph development, and writing mechanics.

3 hours lecture.
Prerequisite(s): Placement measurement.

**ESL 018 - ESL Intensive Grammar, Listening, and Speaking I (3)**

An introduction to basic grammar and oral communication skills for beginning to high-beginning students whose native language is not English, with emphasis on syntax and structure, pronunciation, and basic listening and speaking skills.

3 hours lecture.
Prerequisite(s): Placement measurement.

**ESL 020 - ESL Grammar II (3)**

A continuation of basic English grammar skills and strategies for high-beginning to low-intermediate students whose native language is not English, with emphasis on the syntax and structure of simple and compound sentences.

3 hours lecture, 2 hours laboratory.
Prerequisite(s): ESL 010 or placement measurement.

**ESL 022 - ESL Reading II (3)**

A continuation of basic reading skills and strategies for high-beginning to low-intermediate students whose native language is not English, with emphasis on vocabulary development, comprehension, and structure.

3 hours lecture, 2 hours laboratory.
Prerequisite(s): ESL 012 or placement measurement.

**ESL 024 - ESL Writing II (3)**

A continuation of basic English writing skills and strategies for high-beginning to low-intermediate students whose native language is not English, with emphasis on topic sentences, paragraph development, and organization.

3 hours lecture, 2 hours laboratory.
Prerequisite(s): ESL 014 or placement measurement.

**ESL 026 - ESL Oral Communication II (3)**

A continuation of oral communication skills in English for high-beginning to low-intermediate students whose native language is not English, with emphasis on additional vocabulary, pronunciation, and listening and speaking skills.

3 hours lecture, 2 hours laboratory.
Prerequisite(s): ESL 016 or placement measurement.

**ESL 027 - ESL Intensive Reading and Writing II (3)**

A continuation of basic reading and writing skills and strategies for high-beginning to low-intermediate students whose native language is not English, with emphasis on additional vocabulary, reading comprehension, paragraph development, and writing mechanics.

3 hours lecture.
Prerequisite(s): Either ESL 012 and ESL 014, ESL 017, or placement measurement.

**ESL 028 - ESL Intensive Grammar, Listening, and Speaking II (3)**

A continuation of basic grammar and oral communication skills and strategies for high-beginning to low-intermediate students whose native language is not English, with emphasis on syntax and structure, pronunciation, and listening and speaking skills in controlled situations.

3 hours lecture.
Prerequisite(s): ESL 010 and ESL 016, ESL 018, or placement measurement.

ESL 030 - ESL Grammar III (3)
A review of English grammar skills and strategies for low-intermediate to intermediate students whose native language is not English, with emphasis on the syntax and structure of simple, compound, and complex sentences. 3 hours lecture, 2 hours laboratory. Prerequisite(s): ESL 020 or placement measurement.

ESL 032 - ESL Reading III (3)
A review of reading skills and strategies for low-intermediate to intermediate students whose native language is not English, with emphasis on vocabulary development, comprehension, structure, and basic study skills. 3 hours lecture, 2 hours laboratory. Prerequisite(s): ESL 022 or placement measurement.

ESL 034 - ESL Writing III (3)
A review of English writing skills and strategies for low-intermediate to intermediate students whose native language is not English, with emphasis on multi-paragraph development leading to short essays with clearly stated theses. 3 hours lecture, 2 hours laboratory. Prerequisite(s): ESL 024 or placement measurement.

ESL 036 - ESL Oral Communication III (3)
A review of oral communication skills and strategies for low-intermediate to intermediate students whose native language is not English, with emphasis on more advanced vocabulary, pronunciation, and listening and speaking skills. 3 hours lecture, 2 hours laboratory. Prerequisite(s): ESL 026 or placement measurement.

ESL 037 - ESL Intensive Reading and Writing III (3)
A review of reading and writing skills and strategies for low-intermediate to intermediate students whose native language is not English, with emphasis on more advanced vocabulary, reading comprehension, paragraph development, and writing mechanics. 3 hours lecture. Prerequisite(s): ESL 022 and ESL 024, ESL 027, or placement measurement.

ESL 038 - ESL Intensive Grammar, Listening, and Speaking III (3)
A review of grammar and oral communication skills and strategies for low-intermediate to intermediate students whose native language is not English, with emphasis on advanced sentence structure, and listening and speaking skills in various situations. 3 hours lecture. Prerequisite(s): ESL 020 and ESL 026, ESL 028, or placement measurement.

ESL 040 - ESL Grammar IV (3)
A review of English grammar skills and strategies for intermediate to high-intermediate students whose native language is not English. Focus is on increasing mastery of syntax and improving command of simple, compound, and complex sentence structures. 3 hours lecture, 2 hours laboratory. Prerequisite(s): ESL 030 or placement measurement.

ESL 042 - ESL Reading IV (3)
A review of reading skills and strategies for intermediate to high-intermediate students whose native language is not English. Focus is on expanding vocabulary, increasing comprehension and the understanding of structure, and improving study skills. 3 hours lecture, 2 hours laboratory. Prerequisite(s): ESL 032 or placement measurement.

ESL 044 - ESL Writing IV (3)
A review of English writing skills and strategies for intermediate to high-intermediate students whose native language is not English. Focus is on improved writing mechanics leading to coherent essays and well developed academic discourse. 3 hours lecture, 2 hours laboratory. Prerequisite(s): ESL 034 or placement measurement.

ESL 046 - ESL Oral Communication IV (3)
A review of oral communication skills and strategies for intermediate to high-intermediate students whose native language is not English. Focus is on expanding vocabulary, improving pronunciation, and developing academic listening and speaking skills. 3 hours lecture, 2 hours laboratory. Prerequisite(s): ESL 036 or placement measurement.

ESL 047 - ESL Intensive Reading and Writing IV (3)
A review of fundamentals and an introduction to more complex reading and writing skills and strategies for intermediate to high-intermediate students whose native language is not English. Focus is on increasing vocabulary and on improving reading comprehension and writing mechanics. 3 hours lecture. Prerequisite(s): ESL 032 and ESL 034, ESL 037, or placement measurement.

ESL 048 - ESL Intensive Grammar, Listening, and Speaking IV (3)
A review of fundamentals and an introduction to more complex grammar and oral communication skills and strategies for intermediate to high-intermediate students whose native language is not English. Focus is on improving sentence structure, and on improving listening and speaking skills in various situations. 3 hours lecture.
Prerequisite(s): ESL 030 and ESL 036, ESL 038, or placement measurement.

**ESL 070 - ESL for Professionals I (6)**
An introduction to basic grammar and oral communication skills for students with little or no knowledge of English. Emphasis is on basic vocabulary, pronunciation, and listening and speaking skills used in daily activities.

*6 hours lecture.*
Prerequisite(s): Placement measurement.

**ESL 072 - ESL for Professionals II (6)**
A continuation of basic grammar and oral communication skills for high-beginning students whose native language is not English. Emphasis is on vocabulary, pronunciation, and listening and speaking skills used in daily activities and professional communications.

*6 hours lecture.*
Prerequisite(s): ESL 070 or placement measurement.

**ESL 074 - ESL for Professionals III (6)**
A review of grammar and oral communication skills and strategies for low-intermediate students whose native language is not English. Focus is on advanced sentence structure and on listening and speaking skills used to express personal views and to voice professional communications.

*6 hours lecture.*
Prerequisite(s): ESL 072 or placement measurement.

**ESL 076 - ESL for Professionals IV (6)**
A review of grammar and oral communication skills and strategies for high-intermediate students whose native language is not English. Emphasis is on expanding vocabulary, improving sentence structure, and developing advanced listening and speaking skills for professional communications.

*6 hours lecture.*
Prerequisite(s): ESL 074 or placement measurement.

**FON - FOOD AND NUTRITION**

**FON 201 - Applied Nutrition (3) °**
A study of various aspects of nutrition as they relate to health and activity. Covers health promotion, structure and function of the digestive system, nutrition through the lifecycle, and clinical nutrition.

*3 hours lecture.*
Prerequisite(s): BIO 156, CHM 130, CHM 138, or passing score on the biology placement exam.

**FOR - FORENSIC SCIENCE**

**FOR 105 - Forensic Science: Physical Evidence (4) ‡**
An introduction to the basic concepts of physical science and their application to forensic science, including the scientific examination, comparison, and analysis of physical evidence for forensic purposes. Topics include the role of forensic science and evidence analysis as they relate to motion, optics, pattern evidence, and firearms and ballistics. The course also examines the basic principles of atomic theory, nuclear chemistry, and weapons of mass destruction.

*3 hours lecture, 3 hours laboratory.*
Prerequisite(s): MAT 081 or higher, and RDG 092 or exemption.

**FST - FIRE SCIENCE**

**FST 100 - Introduction to Firefighting (3)**
An introduction to firefighting including safety, fire behavior, equipment, operations, rescue, and communications.

*3 hours lecture.*
Prerequisite(s): None

**FST 107 - Introduction to Fire and Emergency Services (4) ‡**
The first of three courses designed to train students for a career in the fire service. Covers firefighter health and safety, fire service history, professional ethics and customer service, CPR and first aid, and hazardous materials first responder awareness and operations. Prepares students to take the Hazardous Materials First Responder Awareness and Operations Certification test. This test is taken through the Arizona Center for Fire Service Excellence (AzCFSE) and is required for Firefighter I and II Certification.

*3 hours lecture, 2 hours laboratory.*
Prerequisite(s): RDG 092 or exemption.

**FST 108 - Fire Operations I (4) ‡**
The second of three courses designed to train students for a career in the fire service. Covers firefighter personal protective equipment, fire service communications, incident response, incident management, fire behavior, building construction, firefighting tools and equipment, portable extinguishers, forcible entry, ladders, and ropes and knots.

*3 hours lecture, 2 hours laboratory.*
Prerequisite(s): FST 107.

**FST 109 - Fire Operations II (4) ‡**
The third of three courses designed to train students for a career in the fire service. Covers search and rescue, ventilation, water supply, salvage and overhaul, firefighter rehabilitation, firefighter survival, fire suppression, ground cover fires, and vehicle extrication. Upon completion, students are prepared to take the Firefighter I and II certification exam through the Arizona Center for Fire Service Excellence (AzCFSE).

*3 hours lecture, 2 hours laboratory.*
Prerequisite(s): FST 108.

**FST 113 - Firefighter Fitness I (3)**
A practical application of the knowledge and skills acquired in other fire science courses, with emphasis on developing the basic level of fitness required of firefighters. Identifies and introduces critical skills, proper nutrition principles, strength-
training and endurance techniques, and job-related agility assessments.
2 hours lecture, 2 hours laboratory.
Prerequisite(s): Concurrent enrollment in FST 108.

FST 114 - Firefighter Fitness II (3)
A continued practical application of the knowledge and skills acquired in other fire science courses, with emphasis on the mental aspects of job performance and on the assessment of agility and personal fitness.
2 hours lecture, 2 hours laboratory.
Prerequisite(s): Concurrent enrollment in FST 108.

FST 115 - Fire Service Apparatus Driver/Operator (3) ‡
An introduction to the operation of different types of fire service apparatus. Includes driver/operator responsibilities and operation of emergency vehicles and aerial apparatus; inspection, testing, and maintenance of apparatus; and water supply systems, hydraulic calculations, and fire pump operations.
3 hours lecture, 1 hour laboratory.
Prerequisite(s): Arizona Firefighter I and II Certification or other equivalent certification.

FST 224 - Field Experience in Fire Science Technology (1-3)
A supervised cooperative education field experience involving the combined efforts of educators and employers. Students accomplish various academic and career-related objectives in fire science technology and related fields. Semester-long regular workplace participation and weekly contact with assigned faculty advisor are required.
Prerequisite(s): A declared major in fire science technology and FST 109.

GEO - GEOGRAPHY

GEO 101 - Physical Geography (4) *, ‡
An introduction to the physical elements of the Earth and their effects on human society. Includes the relationship between the Earth and sun; atmospheric processes; and the effects of global heat balance, pressure, temperature, and climate patterns on weather. Also examines urban influences on climate, climate regimes, and climate change. Provides an introduction to the surface of the Earth and to interior Earth processes. Studies geomorphic processes, plate tectonics, earth materials, geologic hazards, water resources, the hydrologic cycle, topographic map reading, and geographic information systems.
3 hours lecture, 3 hours laboratory.
Prerequisite(s): ENG 096 or higher, MAT 081 or concurrent enrollment, and RDG 092 or exemption.

GEO 121 - World Regional Geography (3) *
An exploration of major world geographical regions with emphasis upon human cultural adaptation to the physical habitat.
GTC 121 - Painting and Finishing Techniques (3)
Student preparation for proficiency in patching, repainting, and maintaining painted surfaces on the interior and exterior of buildings and structures with an emphasis on surface preparation, the selection of paints, their application and the safe and proper storage of all painting materials and tools. This course is offered only at the Arizona Department of Corrections in Douglas.
2 hours lecture, 4 hours laboratory.
Prerequisite(s): None

**HIS - HISTORY**

**HIS 110 - History of the United States 1607-1877 (3) *, °**
A study of the development of the American nation from its colonial beginnings through Reconstruction, with emphasis on the events and forces leading to the Revolution, the Constitution, westward expansion, sectionalism, and the Civil War.
3 hours lecture.
Prerequisite(s): RDG 092 or exemption.

**HIS 111 - History of the United States Since 1877 (3) *, °**
A study of the social, economic, and political forces that have shaped the United States from the post-Reconstruction era to the present. Emphasis is on domestic and foreign affairs in the country’s last century of development.
3 hours lecture.
Prerequisite(s): RDG 092 or exemption.

**HIS 192 - Special Topics in History (1-3)**
Designed for professional development and personal enrichment through the exploration of special topics in history. Topics will vary according to student needs and interests.
Prerequisite(s): None

**HIS 201 - History of Women in the United States (3) ~**
The history of women in United States society from colonial times to the present with an emphasis on female leadership; the social, political, and economic roles of women; and the impact of women on the United States' historical evolution.
3 hours lecture.
Prerequisite(s): ENG 101, and RDG 092 or exemption.

**HIS 229 - History of Mexico I (3) *, ~**
An in-depth study of the political, economic, social, and cultural development of Mexico from pre-Columbian civilizations to the end of the First Mexican Empire. Emphasis is on Mexico’s cultural evolution and on the relationships between its various historical periods.
3 hours lecture.
Prerequisite(s): ENG 101, and RDG 092 or exemption.

**HIS 230 - History of Mexico II (3) *, ~**
An in-depth study of the political, economic, social, and cultural development of Mexico from the early Mexican Republic to the present day. Emphasis is on Mexico’s cultural evolution, the relationships between its various historical periods, and its place in today’s world community.
3 hours lecture.
Prerequisite(s): ENG 101, and RDG 092 or exemption.

**HIS 243 - Western Civilization I (3) *, ~**
A study of major historical trends from the emergence of Western civilization through the scientific revolution of the 17th century, with emphasis on various cultural periods in relationship to one another.
3 hours lecture.
Prerequisite(s): ENG 101, and RDG 092 or exemption.

**HIS 244 - Western Civilization II (3) *, ~**
A study of major historical trends in Western civilization from the Enlightenment to the present, with emphasis on various cultural periods in relationship to one another and their impact on the future.
3 hours lecture.
Prerequisite(s): ENG 101, and RDG 092 or exemption.

**HLT - HEALTH TECHNOLOGY**

**HLT 100 - Health Technology Careers (3)**
An exploration of healthcare careers and related job skills. Topics include ethics and professional conduct, safety and infection control practices, communication, and basic anatomy and physiology.
3 hours lecture.
Prerequisite(s): None

**HLT 101 - Medical Terminology (2) °**
An introduction to the body systems approach to learning medical language. Students use word parts to build, analyze, define, and spell medical terms. Topics include structural, directional, surgical, and diagnostic terms; disease and disorders; and pronunciations and abbreviations.
2 hours lecture.
Prerequisite(s): RDG 092 or exemption.

**HLT 109 - Nursing Assistant (5) ‡**
Approved by the Arizona State Board of Nursing to prepare students for nursing assistant certification. Emphasis is on communication, patient safety, anatomy and physiology, specific patient-care skills, and patient rights. Includes the nursing process and the legal and professional responsibilities of the nursing assistant. Also covers the basic physical, psychosocial, and cultural needs of all patients, with special emphasis on the geriatric population.
3 hours lecture, 6 hours laboratory.
Prerequisite(s): Appropriate placement measurement, MAT 081, or higher; placement into RDG 092 or exemption; and current American Heart Association CPR and First Aid
certification for healthcare providers or concurrent enrollment in HLT 111. Students taking this course for state certification must be 16 prior to course completion, provide documentation of U.S. citizenship or qualifying alien status, undergo fingerprinting, pass a background check and drug screen, and have received absolute discharge from the sentence for any felony conviction no less than 3 years prior to submitting their application for state certification. The Arizona State Board of Nursing prohibits the use of medical marijuana.

**HLT 111 - CPR and First Aid (1) ‡**

Training in cardiopulmonary resuscitation and basic first aid for healthcare providers in compliance with American Heart Association requirements. CPR and first aid cards for healthcare providers are awarded upon successful course completion.

1 hour lecture.
Prerequisite(s): None

**HLT 112 - Assisted Living Facility Caregiver (2) ‡**

Training in personal, supervisory, and direct care services for current Arizona certified nursing assistants. Topics include medication management, infection control, nutrition and safety, and emergency management; communication, mental health, and social needs; and legal and ethical issues. Upon course completion, students are eligible to take the Arizona Assisted Living Facility Caregiver exam for certification in the state of Arizona.

2 hours lecture, 1 hour laboratory.
Prerequisite(s): Current CPR, first aid, and CNA certifications; minimum 18 years of age and three months of related experience.

**HLT 139 - Medical Assistant I (8) ‡**

This course teaches the concepts, skills, and terminology necessary for a medical assistant. Emphasis is on entry-level administrative skills and clinical functions required in a medical office, and on communication skills for patient care assessment. The laboratory portion of the course simulates various situations which teach the specific skills needed in a medical office.

7 hours lecture, 3 hours laboratory.
Prerequisite(s): BIO 160 or concurrent enrollment, HLT 101 or concurrent enrollment, MAT 081 or higher, and placement in RDG 020 or RDG 092 or exemption. Prior to enrollment, students must also meet the following requirements: 1) minimum 18 years of age upon course completion, 2) negative tuberculin (TB) skin test or negative chest x-ray report, 3) current Arizona Department of Public Safety Fingerprint Clearance Card, and 4) acceptance into the medical assistant program.

**HLT 140 - Medical Assistant II (12) ‡**

This is a continuation of HLT 139. Students will be taught additional concepts, skills, and terminology. This course emphasizes administrative aspects of running a medical practice, such as billing and coding, scheduling appointments, and keeping electronic medical records. The laboratory portion of the course simulates hands-on application in a medical office setting. The clinical 180-hour externship focuses on therapeutic skills and on effective communication with clients, physicians, physician assistants, nurse practitioners, and other health care professionals. Students learn the front and back office skills required to pass the Medical Assistant certification examination.

7 hours lecture, 16 hours laboratory.
Prerequisite(s): BIO 160, HLT 101, HLT 111, and HLT 139.

**HLT 151 - Home Health Aid I (Fundamentals) (3) ‡**

A one semester fundamental class for the Direct Care Worker (AKA Home Health Aide), which is required for all direct care workers. This course will emphasis knowledge and skills needed to provide assistance or support with daily activities, with emphasis on bathing and grooming, housekeeping, meal preparation and service plans. The food handlers certification and Heartsaver CPR/First Aid certification will be provided as part of the semester instruction.

2 hours lecture, 3 hours laboratory.
Prerequisite(s): None

**HLT 152 - Home Health Aide II (Aging, Physical and Developmental Disabilities) (3) ‡**

This course builds on the Fundamentals course (HLT 151) and contains advanced materials for the Home Health Aide (AKA Direct Care Worker) with emphasis on Aging: Alzheimer’s Disease and other Dementia’s, Physical and Developmental Disabilities.

2 hours lecture, 3 hours laboratory.
Prerequisite(s): HLT 151 (Fundamentals) or current Nursing Assistant Certification or Licensure.

**HON - HONORS**

**HON 101 - Introduction to Honors (1) °**

An introduction to the honors philosophy, and a study of critical and creative thinking skills, learning techniques, academic ethics, research methods, and presentation practices.

1 hour lecture.
Prerequisite(s): None

**HON 250 - Honors: Individual Project (1-4)**

A contractual project between student and faculty mentor focusing on creative scholarship. Contracts for honors projects are available at www.cochise.edu/honors.

Prerequisite(s): Permission of the honors chair. Recommended Preparation: ENG 102H.

**HON 260 - The Human Quest for Utopia (3) °**

An interdisciplinary exploration of the history, literature, culture, art, philosophy, technology, sciences, and economies of utopian communities.
3 hours lecture.
Prerequisite(s): ENG 102 and permission of the honors chair.
Recommended Preparation: ENG 102H.

HPE - HEALTH AND PHYSICAL EDUCATION

HPE 110A - Body Conditioning (1) ‡
A practical application of principles and concepts conducive to the development and maintenance of overall fitness. Introduces aerobic and anaerobic activities that promote flexibility, cardiovascular endurance, and muscular endurance.
1 hour lecture, 1 hour laboratory.
Prerequisite(s): None

HPE 110B - Body Conditioning - Extended Duration (2) ‡
A practical application of principles and concepts conducive to the development and maintenance of overall fitness. Introduces extended-duration aerobic and anaerobic activities that promote flexibility, cardiovascular endurance, and muscular endurance.
1 hour lecture, 2 hours laboratory.
Prerequisite(s): None

HPE 111B - Body Dynamics - Extended Duration (2) ‡
A practical application of principles and concepts conducive to the development and maintenance of overall fitness. Introduces the extended use of a variety of exercise equipment to perform aerobic and anaerobic activities that promote flexibility, cardiovascular endurance, and muscular endurance.
1 hour lecture, 2 hours laboratory.
Prerequisite(s): None

HPE 112A - Weight Training (1) ‡
An introduction to the skills needed to develop a proper weight training program that promotes cardiovascular endurance.
1 hour lecture, 1 hour laboratory.
Prerequisite(s): None

HPE 112B - Weight Training - Extended Duration (2) ‡
An introduction to the skills needed to develop a proper extended-duration weight training program that promotes cardiovascular endurance.
1 hour lecture, 2 hours laboratory.
Prerequisite(s): None

HPE 113A - Athletic Conditioning I (2)
A practical introduction to fitness activities conducive to the development of strength, flexibility, endurance, and cardiovascular health. Designed to enhance the performance of the first-semester student-athlete.
1 hour lecture, 3 hours laboratory.
Prerequisite(s): None

HPE 113B - Athletic Conditioning II (2)
A continuation of fitness activities conducive to the development of strength, flexibility, endurance, and cardiovascular health in the second-semester student-athlete.
1 hour lecture, 3 hours laboratory.
Prerequisite(s): HPE 113A and acceptance on a college sports team.

HPE 113C - Athletic Conditioning III (2)
Advanced fitness activities conducive to the continued development of intermediate strength, flexibility, endurance, and cardiovascular health in the third-semester student-athlete.
1 hour lecture, 3 hours laboratory.
Prerequisite(s): HPE 113B.

HPE 113D - Athletic Conditioning IV (2)
Advanced fitness activities conducive to the continued development of advanced strength, flexibility, endurance, and cardiovascular health in the fourth-semester student-athlete.
1 hour lecture, 3 hours laboratory.
Prerequisite(s): HPE 113C.

HPE 115 - Personal Fitness I (2) ‡
A study of the fundamentals of physical fitness, with an emphasis on the physical activities and behavioral changes necessary to develop and sustain a high level of fitness.
2 hours lecture.
Prerequisite(s): None

HPE 116 - Personal Fitness II (1-2) ‡
A study of the fundamentals of physical fitness, with an emphasis on the physical activities and behavioral changes necessary to develop and sustain a high level of fitness.
Prerequisite(s): None

HPE 117A - Individualized Fitness I (1) ‡
A study of the fundamentals of physical fitness, with an emphasis on the physical activities and behavioral changes necessary to develop and sustain a high level of fitness.
1 hour lecture.
Prerequisite(s): None

HPE 117B - Individualized Fitness II (2) ‡
A study of the fundamentals of physical fitness, with an emphasis on the physical activities and behavioral changes necessary to develop and sustain a high level of fitness.
2 hours lecture.
Prerequisite(s): None

HPE 118B - Indoor Court Sports and Physical Fitness (3) ‡
An introduction to indoor court sports including squash, handball, wallyball, and racquetball. Also presents the information and skills necessary for proper weight training and jogging as they relate to indoor court sports.
3 hours lecture.
Prerequisite(s): None
HPE 135 - Open Water Scuba Diver (3) ‡
This course provides students with the knowledge, training, and skills to understand and safely navigate the underwater environment while scuba diving. It adheres to the guidelines and requirements of the Recreational Scuba Training Council (RSTC) for Open Water Scuba Diver and Advanced Open Water Scuba Diver certifications.
2 hours lecture, 3 hours laboratory.
Prerequisite(s): None

HPE 142A - Varsity Rodeo I (1)
Designed to provide the rodeo student-athlete with a knowledge of the rules and with the elementary skills and strategies necessary to compete at the intercollegiate level.
1 hour lecture, 3 hours laboratory.
Prerequisite(s): Students must try out for the rodeo team.

HPE 142B - Varsity Rodeo II (1)
Designed to provide the rodeo student-athlete with the basic skills and strategies necessary to compete at the intercollegiate level.
1 hour lecture, 3 hours laboratory.
Prerequisite(s): HPE 142A or permission of instructor.

HPE 142C - Varsity Rodeo III (1)
Designed to provide the rodeo student-athlete with the intermediate skills and strategies necessary to compete at the intercollegiate level.
1 hour lecture, 3 hours laboratory.
Prerequisite(s): HPE 142B or permission of instructor.

HPE 142D - Varsity Rodeo IV (1)
Designed to provide the rodeo student-athlete with the advanced skills and strategies necessary to compete at the intercollegiate level.
1 hour lecture, 3 hours laboratory.
Prerequisite(s): HPE 142C or permission of instructor.

HPE 145 - Beginning Golf (1)
An introduction to the basic skills, rules, and etiquette of golf. Designed to instill an appreciation of and participation in this lifelong leisure activity.
1 hour lecture, 1 hour laboratory.
Prerequisite(s): None

HPE 170A - Baseball I (1)
Designed to allow the first-semester student-athlete to develop and demonstrate the minimum skills and strategies to compete in baseball at the intercollegiate level.
1 hour lecture, 3 hours laboratory.
Prerequisite(s): Students must try out for the team.

HPE 170B - Baseball II (1)
Designed to allow the student-athlete to develop and demonstrate the basic skills and strategies to compete in baseball at the intercollegiate level.
1 hour lecture, 3 hours laboratory.
Prerequisite(s): HPE 170A and acceptance on the team.

HPE 170C - Baseball III (1)
Designed to allow the more advanced student-athlete to develop and demonstrate the intermediate skills and strategies to compete in baseball at the intercollegiate level.
1 hour lecture, 3 hours laboratory.
Prerequisite(s): HPE 170B.

HPE 170D - Baseball IV (1)
Designed to allow the fourth-semester student-athlete to develop and demonstrate the advanced skills and strategies to compete in baseball at the intercollegiate level. Also provides the opportunity to demonstrate leadership and sportsmanship on and off the field.
1 hour lecture, 3 hours laboratory.
Prerequisite(s): HPE 170C.

HPE 171A - Men's Basketball I (1)
Designed to allow the first-semester student-athlete to develop and demonstrate the minimum skills and strategies to compete in men's basketball at the intercollegiate level.
1 hour lecture, 3 hours laboratory.
Prerequisite(s): Students must try out for the team.

HPE 171B - Men's Basketball II (1)
Designed to allow the student-athlete to develop and demonstrate the basic skills and strategies to compete in men's basketball at the intercollegiate level.
1 hour lecture, 3 hours laboratory.
Prerequisite(s): HPE 171A and acceptance on the team.

HPE 171C - Men's Basketball III (1)
Designed to allow the more advanced student-athlete to develop and demonstrate the intermediate skills and strategies to compete in men's basketball at the intercollegiate level.
1 hour lecture, 3 hours laboratory.
Prerequisite(s): HPE 171B.

HPE 171D - Men's Basketball IV (1)
Designed to allow the fourth-semester student-athlete to develop and demonstrate the advanced skills and strategies to compete in men's basketball at the intercollegiate level. Also provides the opportunity to demonstrate leadership and sportsmanship on and off the court.
1 hour lecture, 3 hours laboratory.
Prerequisite(s): HPE 171C.

HPE 172A - Women's Basketball I (1)
Designed to allow the first-semester student-athlete to develop and demonstrate the minimum skills and strategies to compete in women's basketball at the intercollegiate level.
1 hour lecture, 3 hours laboratory.
Prerequisite(s): Students must try out for the team.

HPE 172B - Women's Basketball II (1)
Designed to allow the student-athlete to develop and demonstrate the basic skills and strategies to compete in women's basketball at the intercollegiate level.
1 hour lecture, 3 hours laboratory.
Prerequisite(s): HPE 172A and acceptance on the team.

HPE 172C - Women's Basketball III (1)
Designed to allow the more advanced student-athlete to develop and demonstrate the intermediate skills and strategies to compete in women's basketball at the intercollegiate level.
1 hour lecture, 3 hours laboratory.
Prerequisite(s): HPE 172B.

HPE 172D - Women's Basketball IV (1)
Designed to allow the fourth-semester student-athlete to develop and demonstrate the advanced skills and strategies to compete in women's basketball at the intercollegiate level. Also provides the opportunity to demonstrate leadership and sportsmanship on and off the court.
1 hour lecture, 3 hours laboratory.
Prerequisite(s): HPE 172C.

HPE 174A - Women's Soccer I (1)
Designed to allow the first-semester student-athlete to develop and demonstrate the minimum skills and strategies to compete in women's soccer at the intercollegiate level.
1 hour lecture, 3 hours laboratory.
Prerequisite(s): Students must try out for the team.

HPE 174B - Women's Soccer II (1)
Designed to allow the student-athlete to develop and demonstrate the basic skills and strategies to compete in women's soccer at the intercollegiate level.
1 hour lecture, 3 hours laboratory.
Prerequisite(s): HPE 174A and acceptance on the team.

HPE 174C - Women's Soccer III (1)
Designed to allow the more advanced student-athlete to develop and demonstrate the intermediate skills and strategies to compete in women's soccer at the intercollegiate level.
1 hour lecture, 3 hours laboratory.
Prerequisite(s): HPE 174B.

HPE 174D - Women's Soccer IV (1)
Designed to allow the fourth-semester student-athlete to develop and demonstrate the advanced skills and strategies to compete in women's soccer at the intercollegiate level. Also provides the opportunity to demonstrate leadership and sportsmanship on and off the field.
1 hour lecture, 3 hours laboratory.
Prerequisite(s): HPE 174C.

HPE 179 - Lifelong Wellness (3)
An introduction to nutrition, stress management, fitness regimens, and other practices as they relate to wellness and optimum health. Under faculty supervision, students develop an individualized program of diet and exercise.

3 hours lecture.
Prerequisite(s): None

HPE 193 - Theory of Coaching Baseball (3)
A theoretical and practical study of how to coach baseball at the youth, secondary, and college levels.
3 hours lecture.
Prerequisite(s): None

HPE 194 - Theory of Coaching Basketball (3)
A theoretical and practical study of how to coach basketball at the youth, secondary, and college levels.
3 hours lecture.
Prerequisite(s): None

HPE 196 - Theory of Coaching Soccer (3)
A theoretical and practical study of how to coach soccer at the youth, secondary, and college levels.
3 hours lecture.
Prerequisite(s): None

HUM - HUMANITIES
HUM 101 - Humanities in Contemporary Life (3)
A study of contemporary thought, literature, art, and music as they occur in the mass media: print, motion pictures, television, and the internet.
3 hours lecture.
Prerequisite(s): ENG 096 or higher.

HUM 110 - Introduction to Film (3)
A study of film as an art form and medium for the expression of ideas, and an introduction to the principles of film criticism.
3 hours lecture.
Prerequisite(s): None

HUM 115 - Cultural Heritage of the Southwest (3)
A general survey of the cultural heritage of the Southwest. A cultural look at the significant events, historical figures, customs, ways and institutions that have contributed to the unique cultural heritage in the Southwest.
3 hours lecture.
Prerequisite(s): ENG 101 or permission of instructor.

HUM 116 - Middle Eastern Humanities (3)
A study of the art, religion, literature, music, philosophy, and cultural traditions of the Middle Eastern world.
3 hours lecture.
Prerequisite(s): ENG 101 or permission of instructor.

HUM 200 - Film History (3)
Survey of film history focusing on the development of important themes, movements, and techniques in international narrative films.
3 hours lecture.
Prerequisite(s): ENG 101 and ENG 102. Recommended Preparation: HUM 110.

**HUM 205 - Cultural Studies through the Humanities I (3)**
Art, architecture, and ideas from ancient times through the Renaissance.
3 hours lecture.
Prerequisite(s): ENG 102 or permission of instructor.

**HUM 206 - Cultural Studies through the Humanities II (3)**
Art, architecture, and ideas from the Reformation to the present.
3 hours lecture.
Prerequisite(s): ENG 102 or permission of instructor.

**HUM 210 - Foreign Film Classics (3)**
A survey of major foreign films from 1893 through the present, emphasizing film criticism and theory.
3 hours lecture.
Prerequisite(s): ENG 101 or permission of instructor.

**IOS - INTELLIGENCE OPERATIONS STUDIES**

**IOS 100 - Introduction to Intelligence Operations Studies (3)**
Introduces students to the basic elements of intelligence: collection, analysis, dissemination, counterintelligence, and covert action. Examines the difference between intelligence and information. Details the structure, functions, capabilities, and contributions of the national intelligence community, including Congress, the military, joint and unified commands, and law enforcement agencies. Students will study the various steps of the intelligence cycle and learn their purposes.
3 hours lecture.
Prerequisite(s): None

**IOS 101 - Counterintelligence Investigations (3)**
Introduces students to the principles, objectives, procedures, and reports used to conduct counterintelligence investigations within various investigational contexts. This process includes the planning, communicating, operating, credentialing, and investigating processes associated with counterintelligence investigations.
3 hours lecture.
Prerequisite(s): None

**IOS 102 - Security Programs (3)**
Introduces students to the principles, objectives, and basic procedures used to develop, account for, control, protect, and arrange for the eventual destruction of sensitive information and material. Helps equip students for the investigation of security crimes and the protection of classified information and material in the custody of counterintelligence agents.
3 hours lecture.
Prerequisite(s): None

**IOS 103 - Intelligence Law and Administration of Justice (1)**
Introduces students to the legal principles of intelligence law as those principles apply to counterintelligence investigations and operations. Prepares students to use the principles of intelligence law and the administration of justice in the performance of their duties as counterintelligence agents.
1 hour lecture.
Prerequisite(s): None

**IOS 104 - Analytical Process and Product (3)**
Introduces students to the three analytical processes in the intelligence cycle: intelligence preparation of the battlefield, intelligence surveillance and reconnaissance, and targeting. Students learn to leverage analytical products associated with these processes such as PMESII, ASCOPE, Link-Pattern-Nodal analysis, threat characteristics, threat objectives, threat templates, the oil spot, and the situation template.
3 hours lecture.
Prerequisite(s): None

**IOS 105 - Interrogation Operations (3)**
Introduces students to the basic skills and knowledge to support the collection, dissemination, and protection of intelligence information during human intelligence operations. Using conventional and unconventional sources, students perform as members of an interrogation team during simulated operations at both tactical and strategic levels.
3 hours lecture.
Prerequisite(s): None

**IOS 106 - Map Reading and Analysis (3)**
A study of map reading and analysis including marginal data, identification of terrain features, and calculation of azimuths. Provides students with analytical skills essential to information gathering, collection capabilities, and interpretation of assets.
3 hours lecture.
Prerequisite(s): None

**IOS 108 - Signal Theory (3)**
A study of the basic skills to intercept, analyze, and report non-communication signals. Includes the handling of classified material. Focus is on signal and wavelength theory, radar theory, electronic intelligence parameters, and basic collection operations. Students learn about worldwide non-communications threats to include weapons systems operations, message information extraction, opposing forces operations, and situation analysis.
3 hours lecture.
Prerequisite(s): None

**IOS 109 - Signal Analysis and Security (3)**
Trains students to operate the All Source Analysis System-Single Source Enclave (ASAS-SSE) software, to display automated situation map updates, and to operate electronic messaging as analysis control element team members.
IOS 110 - Remote Sensing (3)
Trains students to analyze hardcopy and softcopy imagery collected from the electronic magnetic spectrum. Students use intelligence databases as well as automated processing and dissemination systems to provide valid, accurate, and timely intelligence to appropriate agencies.
3 hours lecture.
Prerequisite(s): None

IOS 111 - Information Security for Intelligence Operations (1)
A brief overview of information security as it applies to intelligence operations in the military (INFOSEC). Topics include safekeeping and storage of classified materials, application of classification markings to appropriate documents, and proper destruction of classified materials.
1 hour lecture.
Prerequisite(s): None

IOS 112 - Imagery Analysis Techniques (3)
Develops the basic skills to successfully employ and analyze imagery in an operational environment. Introduces students to basic analytical techniques, sensor capabilities and limitations, characteristics of observed operational activity, spectral and stereoscopic imagery, and full motion video.
3 hours lecture.
Prerequisite(s): None

IOS 113 - Terrorism and Counterterrorism (3)
An examination of the history of terrorism and the tactics and technologies used by terrorist groups. Examines the nature of the terrorist threat and countermeasures to combat terrorism.
3 hours lecture.
Prerequisite(s): None

IOS 114 - Reporting of Intelligence Data (3)
Identification of the essential elements of information, selection of reporting vehicle, and production of concise and timely technical summaries.
3 hours lecture.
Prerequisite(s): None

IOS 115 - Briefing Skills (1-4)
Training in the skills required to perform the duties and operations necessary to conduct briefings in the intelligence operations field. May be taken four times for a total of four credits.
Prerequisite(s): None

IOS 116 - Imagery Identification (6)
Students will be trained in the identification from aerial images of threat and operational equipment including naval vessels; fixed, swing, and rotary wing aircraft; engineer and decontamination equipment; truck models and functions; armored personnel carriers (APCs); missiles, rockets, and launch sites; communication and radar sites; artillery and artillery related equipment; and tanks and armored recovery vehicles (ARVs). In addition, students will learn to identify from aerial imagery organizations and activity in relation to the Ground Order of Battle (GOB).
6 hours lecture.
Prerequisite(s): None

IOS 117 - Symbology (3)
Trains students in the skills necessary to translate incoming message traffic into military symbols.
3 hours lecture.
Prerequisite(s): None

IOS 118 - Intelligence Preparation of the Battlefield (3)
Teaches students to identify characteristics of the modern battlefield and to analyze how the operational environment of the battlefield can affect friendly and threat operations. Students define the operational environment, consider the effects of weather and terrain, evaluate threat, and determine potential threat courses of action.
3 hours lecture.
Prerequisite(s): None

IOS 119 - Introduction to Communications for Intelligence Operations (3)
Study and practice in basic oral communication in English for non-native speakers. Includes the fundamentals of oral communications in interpersonal, small-group, and large-group situations in the field of intelligence operations.
2 hours lecture, 2 hours laboratory.
Prerequisite(s): None

IOS 120 - Records Management (3)
Introduces students to the procedures, regulations, and forms used to accurately account for and manage an organization's records and funds. Students will learn these skills as custodians in a simulated large agency operating environment.
3 hours lecture.
Prerequisite(s): CIS 116.

IOS 121 - Counterintelligence Investigations II (3)
A course in the collection, evaluation, and use of information to produce justifiable conclusions in support of the counterintelligence mission.
3 hours lecture.
Prerequisite(s): None

IOS 122 - Intelligence, Surveillance, and Reconnaissance (ISR) (3)
Teaches students the Intelligence, Surveillance, and Reconnaissance (ISR) process across the scope of military operations from Joint Task Force level to Battalion level. Students learn the functions of the ISR process and its relationship to decision making. Students are taught how to
develop an ISR plan, disseminate the information, evaluate the reporting, and update the plan.

3 hours lecture.
Prerequisite(s): None

**IOS 123 - Targeting (3)**
Teaches students the targeting process across the scope of intelligence operations. Students are introduced to the decide, detect, deliver, and assess (D3A) methodology of targeting. Students learn the functions associated with the D3A methodology and how these functions interact with the decision-making process.

3 hours lecture.
Prerequisite(s): None

**IOS 124 - Cellular Communication Fundamentals (3)**
Trains students in cellular technologies used around the world to deploy enhanced wireless capabilities. Covers the evolution of cellular capabilities to current protocols and standards. Provides a comprehensive overview of the options available in handling voice and data transmitted through wireless technologies. Explores variations among Frequency Division Multiple Access (FDMA), Time Division Multiple Access (TDMA), Code Division Multiple Access (CDMA), and Global System for Mobile communications (GSM).

3 hours lecture.
Prerequisite(s): None

**IOS 131 - Personal Identification Methods in Battlefield Forensics (2)**
An introduction to the methods used to identify individuals based on evidence collected at an incident scene in a battlefield environment. Emphasis is on the identification, collection, and preservation of biological evidence for criminal investigations and legal procedures. Topics include fingerprints, facial recognition, bloodstain analysis, and biometrics.

1 hour lecture, 3 hours laboratory.
Prerequisite(s): None

**IOS 141 - Battlefield Forensic Investigations I (4)**
A study in battlefield forensic investigation procedures and techniques. Emphasis is on incident scene management; and on the identification, collection, and preservation of material evidence related to the manufacture and use of improvised explosive devices (IEDs).

3 hours lecture, 3 hours laboratory.
Prerequisite(s): None

**IOS 142 - Battlefield Forensic Investigations II (4)**
An in-depth study of the technical aspects of the collection and preservation of physical evidence from a battlefield environment. Emphasis is on the processes involved in identifying persons assembling improvised explosive devices (IEDs), and on the tactics and techniques used in the employment of those devices.

3 hours lecture, 3 hours laboratory.
Prerequisite(s): IOS 141.

**IOS 145 - Analysis of Counterintelligence I (3)**
This course examines the U.S. Counterintelligence (CI) effort including the history, the structure, and the role of CI in relation to the larger intelligence community. The course also includes an overview of CI organizations, laws, and strategies as well as CI case studies.

3 hours lecture.
Prerequisite(s): ENG 101 or permission of instructor/Dean.

**IOS 201 - Collection Operations (3)**
Trains students in source collection operations in the operational cycle. Includes collection planning, identifying, assessing, recruiting, training, tasking, interviewing, and providing source operations support.

3 hours lecture.
Prerequisite(s): IOS 101 or permission of instructor.

**IOS 202 - Force Protection Operations and Support (3)**
Teaches students how to assimilate, analyze, and distribute multidiscipline counterintelligence products in support of tactical force protection. Areas covered include counterintelligence operations in a deployed environment and current threat assessment technology.

3 hours lecture.
Prerequisite(s): IOS 101, IOS 102, IOS 103, or permission of instructor.

**IOS 203 - Combating Terrorism (3)**
Familiarizes students with the history and development of terrorism. Trains students to recognize the phases of a terrorist incident and to understand a terrorist group's structure, degree of support, and scope of operations. Teaches students to use the basic analytical tools available to combat terrorism.

3 hours lecture.
Prerequisite(s): IOS 101, IOS 102, IOS 103, or permission of instructor.

**IOS 204 - Interrogation and Interviewing Techniques (3)**
Teaches students how to prepare for and question a source, collect all information of intelligence value, and report this information in the proper format. Training includes appropriate approach and questioning techniques, effective listening and note-taking methods, source screening procedures, and proper exploitation phases to collect intelligence information.

3 hours lecture.
Prerequisite(s): IOS 104, IOS 105, or permission of instructor.

**IOS 209 - Automated Intelligence Systems (4)**
Covers the use of automated intelligence systems in the field of intelligence operations. Students learn basic system operations and conventions.

4 hours lecture.
Prerequisite(s): CIS 116.

**IOS 210 - Intermediate Remote Sensing (3)**
An intermediate course which builds on the topics presented in IOS 110. Students apply their knowledge of intelligence operations, and they use observed activity in the analysis of hardcopy and softcopy imagery. They query imagery databases to provide organizations with accurate and timely reports, intelligence briefs, and assessments based on given scenarios and Priority Intelligence Requirements (PIRs).
3 hours lecture.
Prerequisite(s): IOS 110.

**IOS 211 - Military Decision Making (1-3)**
A practical study of mission analysis and the military decision-making process. Includes a review of situation analysis, problem analysis, and decision analysis; and a review of the relationship between the decision maker and the decision environment. May be taken three times for a total of three credits.
Prerequisite(s): None

**IOS 212 - Intermediate Imagery Analysis Techniques (3)**
This course builds on the fundamentals taught in IOS 112. Students develop their ability to apply photogrammetry techniques, equipment identification techniques, and softcopy and hardcopy imagery manipulation techniques to produce accurate imagery analyses and activity assessments.
3 hours lecture.
Prerequisite(s): IOS 112.

**IOS 214 - Reporting of Intelligence Data II (3)**
A course in the preparation of intelligence reports using pertinent information to satisfy the appropriate requirements.
3 hours lecture.
Prerequisite(s): ENG 102.

**IOS 215 - Briefing Skills II (1-3)**
An advanced course in the preparation and delivery of briefings in the intelligence operations field. May be taken three times for a total of three credits.
Prerequisite(s): None
Recommended Preparation: IOS 115.

**IOS 220 - Reporting of Intelligence Data III (3)**
A tactical human intelligence (HUMINT) course designed for the advanced intelligence operations practitioner maintaining a HUMINT-specific occupational specialty. It enhances the student's ability to plan and prepare timely and effective intelligence reports in both urban and rural environments.
3 hours lecture.
Prerequisite(s): ENG 102. Recommended Preparation: IOS 114.

**IOS 221 - Counterintelligence Investigations III (3)**
An advanced course that trains students to understand the objectives, apply the procedures, and produce the reports used in advanced counterintelligence investigations. Students will expand their knowledge and abilities in the planning, communicating, operating, credentialing, and investigating processes related to advanced counterintelligence investigations. This course is designed for the tactical human intelligence (HUMINT) practitioner.
3 hours lecture.
Prerequisite(s): ENG 101. Recommended Preparation: IOS 101.

**IOS 223 - Intelligence Law and Administration of Justice II (1)**
An advanced course in the legal principles and regulations of intelligence law as they apply to counterintelligence investigations and operations. Prepares students to apply the principles of intelligence law and of the administration of justice in the performance of their duties as tactical human intelligence (HUMINT) practitioners.
1 hour lecture.
Prerequisite(s): None
Recommended Preparation: IOS 103.

**IOS 224 - Force Protection Operations and Support II (3)**
A tactical course designed to improve the human intelligence (HUMINT) practitioner's ability to assimilate, analyze, and distribute multidiscipline human products in support of tactical force protection operations. Focus is on human intelligence operations in a tactically deployed environment.
3 hours lecture.
Prerequisite(s): None Recommended Preparation: IOS 202.

**IOS 225 - Analytical Process and Product II (3)**
A tactical human intelligence (HUMINT) course designed to improve students' ability to prepare analytical tools to assess a combat environment. Students must have a good understanding of conventional and unconventional threat forces, various types of organizations, and associated weapons and equipment, as well as a working knowledge of the tactics, techniques, and procedures of groups or forces identified as posing a threat to U.S. interests.
3 hours lecture.
Prerequisite(s): None Recommended Preparation: IOS 204.

**IOS 226 - Interrogation and Interviewing Techniques II (3)**
An advanced tactical human intelligence (HUMINT) course designed for tactical human intelligence (HUMINT) that further trains students to prepare for questioning and to question a human intelligence source, and to collect and report information that is of intelligence value.
3 hours lecture.
Prerequisite(s): None Recommended Preparation: IOS 204.

**IOS 241 - Management of Intelligence and Counterintelligence Operations I (4)**
A study of the organizational management of intelligence and counterintelligence operations. Topics include the theoretical and practical perspectives of managing increasing levels of responsibility, with emphasis on problem-solving and decision-making processes and on the role of the leader.
3 hours lecture, 3 hours laboratory.
Prerequisite(s): IOS 211.

IOS 242 - Management of Intelligence and Counterintelligence Operations II (4)
An in-depth study of the managerial challenges related to the multidiscipline roles in intelligence and counterintelligence operations. Emphasis is on the assessment of external and internal environments, strategic initiatives, and communication techniques, and on the allocation and coordination of personnel and resources.
3 hours lecture, 3 hours laboratory.
Prerequisite(s): IOS 241.

IOS 245 - Analysis of Counterintelligence II (3) *
This course is a continuation of Analysis of Counterintelligence I. Counterintelligence II examines and analyzes the different types of counterintelligence threats, evaluates the functions, and expends resources related to the toll of economic espionage. This course also uses case studies and a research project to evaluate overall learning.
3 hours lecture.
Prerequisite(s): ENG 101 and IOS 145, or permission of instructor/Dean.

JRN - JOURNALISM

JRN 101 - Introduction to Mass Communications (3)
An introduction to mass communications media with emphasis on understanding basic concepts of gathering, writing, and evaluating news and other kinds of communication in newspapers, television, radio, magazines, wire services, books, movies, computer/digital and other media.
3 hours lecture.
Prerequisite(s): ENG 101 or permission of instructor.

JRN 102 - Essentials of News Writing (3) *
Entry-level course in media arts/communications or journalism. Students will be introduced to news values, interviewing techniques, basic newspaper writing formats, and legal and ethical concerns of media professionals.
3 hours lecture.
Prerequisite(s): ENG 101 or concurrent enrollment, and CIS 116 or concurrent enrollment.

JRN 201 - Essentials of Newspaper Publishing (3)
Introduces students to the publication of a college newspaper, with focus on newsworthiness and appropriateness, news gathering, news and editorial writing, headline writing, editing, page design, photography, and other publishing activities. Newsroom management and ethical and legal considerations are also covered.
2 hours lecture, 3 hours laboratory.
Prerequisite(s): JRN 102 and CIS 116, or permission of instructor.

JRN 224 - Field Experience in Communication or Media Technology (1-6)
A supervised cooperative education field experience involving the combined efforts of educators and employers. Students accomplish various academic and career-related objectives in communication or media technology and related fields. Semester-long regular workplace participation and weekly contact with assigned faculty advisor are required.
Prerequisite(s): A declared major in communication or media technology; and COM 102, DMA 110, or JRN 101. Cross-Listed as: ENG 257 Literary Magazine Production and Design.

JRN 257 - Literary Magazine Production (3)
Production of the college literary and arts magazine. Includes application of promotion, editing, design, layout, and production techniques.
3 hours lecture.
Prerequisite(s): ENG 101 or permission of instructor.

LEO - LAW ENFORCEMENT

LEO 200 - Introduction to Law Enforcement Technology (2)
An overview of the components of the criminal justice system, their functions, responsibilities and interrelationships, to include the historical development of law enforcement agencies, general management and supervisory principles and techniques, and the emphasis on high moral, ethical and performance standards.
2 hours lecture.
Prerequisite(s): Must be 21 years old by Police Academy Graduation. Must meet standards set forth in R13-4-105 of the Arizona Administrative Code.

LEO 201 - Legal Aspects of Law Enforcement (3)
An overview of laws and legal matters of the criminal justice system, to include law enforcement terminology, constitutional requirements, statutes and case law, functions, authority and jurisdiction of federal and state courts, legal duties and responsibilities as a law enforcement officer, and the civil and criminal liability facing law enforcement agencies and officers.
3 hours lecture.
Prerequisite(s): Must be 21 years old by Police Academy Graduation. Must meet standards set forth in R13-4-105 of the Arizona Administrative Code.

LEO 202 - Firearms Training for Law Enforcement (2)
An overview of the mechanical and safety features of a service handgun, which includes identifying the nomenclature of the service weapon, proper methods for servicing and firing the weapon, types of discharge, firearms safety, demonstration of the principles of good marksmanship, safe handling techniques of handguns, shooting positions, and safely
qualifying with a service handgun on the AZ POST daytime and nighttime firearms qualification courses.

4 hours laboratory.

Prerequisite(s): Must be 21 years old by Police Academy Graduation. Must meet standards set forth in R13-4-105 of the Arizona Administrative Code. LEO 200 or concurrent enrollment.

**LEO 203 - Report Writing for Law Enforcement (2)**

An overview of good writing skills and techniques for developing complete, descriptive and accurate reports and field notes, which includes style and procedures for various reports, elements of composition, proper and improper conclusions and descriptions of a person and property, and practice with taking notes and writing reports.

2 hours lecture.

Prerequisite(s): Must be 21 years old by Police Academy Graduation. Must meet standards set forth in R13-4-105 of the Arizona Administrative Code. LEO 200 or concurrent enrollment.

**LEO 204 - Physical Conditioning and Wellness for Law Enforcement (1)**

An overview of the value of physical fitness in law enforcement which includes strength training, aerobic conditioning, flexibility, nutrition, back injury prevention, hazards and long-term effects of tobacco and alcohol use, and the necessary skills and knowledge to prepare a lifetime personal fitness program.

2 hours laboratory.

Prerequisite(s): Must be 21 years old by Police Academy Graduation. Must meet standards set forth in R13-4-105 of the Arizona Administrative Code. LEO 200 or concurrent enrollment.

**LEO 205 - Community Relations for Law Enforcement (2)**

An overview of the importance for the individual officer in developing positive police/community relations, to include recognizing cultural differences, the legal and moral obligations of the law enforcement officer's relative to victims, interpersonal communications, crime prevention functions and services available designed for crime prevention programs, the Arizona Victims' Rights Bill, the evolution of policing from traditional methodology, and developing partnerships and problem-solving strategies is stressed.

2 hours lecture.

Prerequisite(s): Must be 21 years old by Police Academy Graduation. Must meet standards set forth in R13-4-105 of the Arizona Administrative Code. LEO 200 or concurrent enrollment.

**LEO 206 - First Aid for Law Enforcement (1)**

An overview of methods for providing emergency care to victims of accidents or illnesses and related safeguards which includes Good Samaritan Law, legal and civil issues, basic functions and major organs of the human body, breathing impairments, cardiac conditions, uncontrolled bleeding, various injuries and medical conditions, shock, childbirth, injury management, movement of the injured and extrication of victims, triage, taking a focused history, and identifying resources at the scene.

1 hour lecture.

Prerequisite(s): Must be 21 years old by Police Academy Graduation. Must meet standards set forth in R13-4-105 of the Arizona Administrative Code. LEO 200 or concurrent enrollment.

**LEO 207 - Defensive Tactics for Law Enforcement (1)**

An overview of defensive techniques which includes maintaining physical control of disruptive, combative, or potentially dangerous subjects, restraint holds, come-alongs, takedowns, cuff and search procedures, proper baton techniques and safety, and potential for injury or death is strongly emphasized.

2 hours laboratory.

Prerequisite(s): Must be 21 years old by Police Academy Graduation. Must meet standards set forth in R13-4-105 of the Arizona Administrative Code. LEO 200 or concurrent enrollment.

**LEO 208 - Tactical Driving for Law Enforcement (1)**

An overview of tactical driving which includes basic defensive driving techniques and hazardous road conditions, the dynamics of a moving vehicle, stopping distances of a vehicle, the study of vehicle pursuits and high-speed response procedures and techniques for high speed vehicle control, reduction of risk and methods to stop fleeing vehicles, mechanical and human limitations and liability factors related to pursuits, and driving a vehicle under simulated conditions.

2 hours laboratory.

Prerequisite(s): Must be 21 years old by Police Academy Graduation. Must meet standards set forth in R13-4-105 of the Arizona Administrative Code. LEO 200 or concurrent enrollment.

**LEO 209 - Criminal Investigations for Law Enforcement (4)**

An overview of criminal investigations which includes protecting the crime scene, identifying the crime involved, conducting a proper search, sketching the crime scene, recording and preserving notes and synthesizing information into a final report, the proper attitude for the police officer, the need for the accurate data collection, the necessity for the thorough evaluation of a complainant, proper techniques for identifying, handling, collecting, marking and packaging types of evidence, physical evidence procedures, the chain of custody, proper interviewing techniques, Miranda Rights, procedures for verifying reliability and credibility of witnesses, fingerprinting techniques, investigations for criminal, sex crimes and death investigations, organized criminal activity and other criminal offenses, and narcotics and other dangerous drugs.

4 hours lecture.
Prerequisite(s): Must be 21 years old by Police Academy Graduation. Must meet standards set forth in R13-4-105 of the Arizona Administrative Code. LEO 200 or concurrent enrollment.

**LEO 210 - Criminal Law for Law Enforcement (3)**

An overview of criminal law which includes basic concepts and definitions, laws of arrest, conditions for an officer or citizen arrest following Arizona Revised Statutes, health and safety risks associated with public contact, deadly force, examples of persons immune from arrest per the Arizona Constitution, statutes and case law on search and seizure, rules of evidence to law enforcement and tests of admissibility of evidence applied to the courts, summonses, subpoenas and warrants, civil cases, jurisdiction of federal and state courts, juvenile laws and agencies, courtroom demeanor, constitutional and substantive law, and liability issues.

3 hours lecture.
Prerequisite(s): Must be 21 years old by Police Academy Graduation. Must meet standards set forth in R13-4-105 of the Arizona Administrative Code. LEO 200 or concurrent enrollment.

**LEO 211 - Patrol Procedures for Law Enforcement (4)**

An overview of the types, purposes and techniques of police patrol procedures which includes vehicle patrol and alternative methods of patrol, citizen protection, crime prevention and identification, apprehension of subjects, officer safety and related procedures, answering emergency and non-emergency situations, routing patrol and observation, inspection and control of hazards, coordination of helicopter activities, observation skills, domestic violence, managing crisis situations, authority granted to law enforcement agencies, services for victims, court orders, mental illnesses, responding to a crime in progress, controlling hostile and non-hostile crowds, duties during a bomb threat or disaster, intoxication cases, communications and police information systems, hazardous materials, bias-motivated crimes, fires and civil disputes.

4 hours lecture.
Prerequisite(s): Must be 21 years old by Police Academy Graduation. Must meet standards set forth in R13-4-105 of the Arizona Administrative Code. LEO 200 or concurrent enrollment.

**LEO 212 - Traffic Procedures for Law Enforcement (4)**

An overview of traffic procedures which includes the effects of alcohol and drugs, and techniques for obtaining evidence for successful prosecution, scientific tests and accurate reporting, proper attitude and techniques in dealing with traffic violators, legal basis of the Uniform Traffic Citation and the differences between traffic violations, procedures for safely stopping, approaching and contacting the occupants, situations in which issuance of a traffic citation is not in the best public interest, traffic collision investigations, use of a speed Nomograph, traffic collision investigations, directing and controlling vehicular and pedestrian movements, hand signals, and substantive traffic law.

4 hours lecture.
Prerequisite(s): Must be 21 years old by Police Academy Graduation. Must meet standards set forth in R13-4-105 of the Arizona Administrative Code. LEO 200 or concurrent enrollment.

**LGS - LOGISTICS**

**LGS 101 - Principles of Logistics (3)**

An introduction to the field of logistics including the development of logistics systems, careers in logistics, distribution planning, supply chain security, and customer service. Also deals with the roles and functions of purchasing, inventory control, physical distribution, warehousing, transportation methods, packaging, and customs.

3 hours lecture.
Prerequisite(s): None

**LGS 102 - Inventory Control (3)**

A study of inventory-control concepts and techniques. Includes examining cost concepts, determining nature and size of inventory, forecasting, and planning and controlling inventory. Also includes ordering methods, pilferage control, and customer satisfaction strategies.

3 hours lecture.
Prerequisite(s): None

**LGS 103 - Freight Claims and Contracts (3)**

A study of the mitigation of losses in transit and of the various aspects of negotiating and drafting freight and logistics contracts. Includes claim preparation, filing procedures, and claim dispute resolution. Also includes legal and regulatory requirements applicable to product transportation contracts, and considerations for drafting and negotiating contracts with freight carriers, warehousemen, and other logistics-service providers.

3 hours lecture.
Prerequisite(s): None

**LGS 104 - Computerized Logistics (2)**

An analysis of the use of computers in the logistics industry, and an introduction to available logistics software. Discusses why computers are needed, their history and possible future uses in the logistics industry, and their impact on customer service. Also includes logistics software availability, selection, and implementation; and computer security measures.

2 hours lecture.
Prerequisite(s): None

**LGS 105 - Warehouse Management (3)**

A study of the managing of warehouses. Includes analysis of warehouse location and operations, controls and procedures,
finances, security, cargo and materials handling, and productivity.

3 hours lecture.
Prerequisite(s): None

**LGS 106 - Transportation and Traffic Management (3)**

A study of the domestic freight transportation system. Addresses patterns of freight movement, and laws, regulations, pricing, and policies of freight transportation. Examines issues related to traffic management, security, and international transportation.

3 hours lecture.
Prerequisite(s): None

**LGS 107 - Introduction to Purchasing (3)**

A study of the basic purchasing functions: establishing inventory requirements and quantities, developing policies and procedures for purchasing, making purchasing decisions, receiving goods, arranging packaging and shipping, and managing inventory levels.

3 hours lecture.
Prerequisite(s): None

**LGS 108 - International Logistics (3)**

An introduction to the role of logistics in global business. Examines international logistics as they apply to processes, terms, and transportation networks. Addresses the role of governments and intermediaries in the preparation of international transportation documents. Also reviews the fundamentals of effective import and export management.

3 hours lecture.
Prerequisite(s): None

**LGS 224 - Field Experience in Logistics (1-3)**

A supervised cooperative education field experience involving the combined efforts of educators and employers. Students accomplish various academic and career-related objectives in logistics and related fields. Semester-long regular workplace participation and weekly contact with assigned faculty advisor are required.

Prerequisite(s): A declared major in logistics and LGS 101.

**MAT - MATHEMATICS**

**MAT 080A - Technical Math Support (1)**

MAT 080A is a supplementary course taken concurrently with MAT 132 Applied Mathematics. The course offers academic support and covers foundational topics, including fractions, exponents, algebraic properties, geometry, and formula evaluation. MAT 080A may be taken in place of the prerequisite MAT 081 Beginning Algebra course.

1 hour lecture.
Recommended Preparation: Corequisite to MAT 132 AND Placement into MAT 081.

**MAT 081 - Beginning Algebra (4)**

Prepares students for MAT 091, MAT 132, or MAT 142. Topics include fundamental properties and operations of real numbers, algebraic expressions, properties of exponents, linear equations and inequalities, literal equations, dimensional analysis, linear function graphs, and probability.

4 hours lecture.
Prerequisite(s): Appropriate placement measurement and CPD 150 or concurrent enrollment.

**MAT 090 - Precalculus Algebra Support (2)**

A supplementary course taken concurrently with MAT 151 Precalculus Algebra. This course is an option taken in place of the prerequisite MAT 091 Intermediate Algebra. Topics include equations, inequalities, polynomials, exponents, radicals, and graphing.

2 hours lecture.
Recommended Preparation: Corequisite to MAT 151 AND Placement into MAT 091.

**MAT 091 - Intermediate Algebra (4)**

Prepares students to take MAT 151 or MAT 182. A review of the algebra required for college algebra and precalculus courses. Topics include linear equations and inequalities, rational expressions, polynomials, exponents, radicals, linear equation graphs, and quadratic equations.

4 hours lecture.
Prerequisite(s): Appropriate placement measurement, and CPD 150 or concurrent enrollment.

**MAT 132 - Applied Mathematics (3)**

A quantitative reasoning course that builds an understanding of how data are collected, summarized and interpreted. Topics include data collection, data display, descriptive statistics, probability, normal distributions, scatter plots and regression models.

3 hours lecture.
Prerequisite(s): Appropriate placement measurement or MAT 081, OR concurrent enrollment in MAT 080A.

**MAT 142 - College Mathematics (3)**

A quantitative reasoning course that builds an understanding of how data are collected, summarized and interpreted. Topics include data collection, data display, descriptive statistics, probability, normal distributions, scatter plots and regression models.

3 hours lecture.
Prerequisite(s): Appropriate placement measurement or MAT 081.

**MAT 151 - Precalculus Algebra (4)**

College-level algebra that prepares students for statistics and calculus courses. Topics include function notation, analysis of graphs, asymptotic behavior, symmetry, inequalities, analysis of polynomials, the rational root theorem, and logarithmic and exponential functions.
4 hours lecture.
Prerequisite(s): Appropriate placement measurement or MAT 091.

MAT 154 - Mathematics for Elementary Education Majors I
(3) °
Designed to deepen understanding of some of the mathematical concepts taught in elementary and middle schools. Topics include numeration systems, sets and functions, reasoning, number theory, and operations on whole numbers, integers, and rational numbers.
3 hours lecture.
Prerequisite(s): MAT 142 or MAT 151.

MAT 156 - Mathematics for Elementary Education Majors II
(3) °
Designed to deepen understanding of some of the mathematical concepts that are taught in elementary and middle schools. Topics include probability, statistics, geometry, graphing, and problem solving.
3 hours lecture.
Prerequisite(s): MAT 142 or MAT 151.

MAT 167 - Elements of Statistics
(3) °, ⊗
Basic concepts of descriptive and inferential statistics with applications in business, economics, the natural sciences, and the social and behavioral sciences. Topics include methods of data collection, sampling techniques, probability distributions, confidence intervals, hypothesis testing, regression and correlation, and various parametric and non-parametric statistical tests.
3 hours lecture.
Prerequisite(s): MAT 142, MAT 151, or MAT 187.

MAT 182 - Precalculus Trigonometry
(3) °
An analytical study of trigonometry which--along with MAT 151--prepares students for calculus courses. Topics include trigonometric functions, graphs, identities, conditional equations, right and oblique triangles, inverse trigonometric functions, and trigonometric forms of complex numbers.
3 hours lecture.
Prerequisite(s): MAT 151 or concurrent enrollment.

MAT 187 - Precalculus
(5) °
A combination of college-level algebra and trigonometry. Algebra topics include analysis of graphs, asymptotic behavior, symmetry, inequalities, analysis of polynomials, the rational root theorem, and logarithmic and exponential functions with applications. Trigonometry topics include the trigonometric functions, inverse functions, identities, formulas, and angle measures.
5 hours lecture.
Prerequisite(s): Appropriate placement measurement or MAT 091. Recommended Preparation: Some knowledge of college algebra and/or trigonometry.

MAT 212 - Calculus for Business
(3) °, ⊗
A brief introduction to calculus with emphasis on business applications. Topics include limits, derivatives, and definite and indefinite integrals.
3 hours lecture.
Prerequisite(s): Appropriate placement measurement, MAT 151, or MAT 187. Recommended Preparation: Placement should have occurred within the last twelve months.

MAT 220 - Calculus I
(5) °, ⊗
An integrated study using analytic geometry to develop and apply calculus concepts, including techniques and applications of differentiation and integration of elementary functions. Additional topics are absolute value and inequality, relations and functions, graphs, limits and continuity, and definition and application of the derivative, anti-derivative, and definite integral.
5 hours lecture.
Prerequisite(s): Appropriate placement measurement, MAT 187, or both MAT 151 and MAT 182.

MAT 227 - Discrete Mathematics
(3) °
An introduction to the study of non-continuous mathematics. Topics include formal proof techniques, propositional logic, set theory, combinatorics, elementary number theory, graph theory, and partially ordered sets.
3 hours lecture.
Prerequisite(s): MAT 151 or MAT 187. Recommended Preparation: MAT 220.

MAT 231 - Calculus II
(4) °, ⊗
A continuation of MAT 220 expanding to include transcendental, inverse trigonometric, and hyperbolic functions. Additional topics are indeterminate forms, improper integrals, sequences and infinite series, conic sections, parametric equations, and polar coordinates.
4 hours lecture.
Prerequisite(s): MAT 220.

MAT 241 - Calculus III
(4) °, ⊗
A continuation of MAT 231 focusing on the calculus of multivariate functions including limits, derivatives, and integrals. Also introduces vector analysis, including Green's and Stokes' theorems.
4 hours lecture.
Prerequisite(s): MAT 231.

MAT 252 - Introduction to Linear Algebra
(3) °
A study of the properties of vector spaces. Topics are introduced in the context of real valued matrices and then generalized to more abstract spaces. Basic arithmetic of matrices is reviewed and then extended to cover linear transformations, eigenvalues, eigenvectors, and applications.
3 hours lecture.
Prerequisite(s): MAT 231.

MAT 262 - Differential Equations
(3) °
An introduction to the study of ordinary differential equations. Topics include the theory, methods of solution, and applications of the following: first-order differential equations, nth-order linear differential equations, systems of linear differential equations, and series solutions.

3 hours lecture.
Prerequisite(s): MAT 231.

**MUS - MUSIC**

**MUS 100 - Fundamentals of Music Notation (3)**
An introduction to the fundamentals of music notation including pitch, rhythm, meter, scales, and intervals. Also introduces basic harmonic structures and the elements of composition. Students use music software to create original musical pieces.

3 hours lecture.
Prerequisite(s): None

**MUS 101 - Introduction to Music (3)**
An introduction to the elements of music, illustrated with important musical literature from various periods of music history. Covers music from the Middle Ages and the Renaissance, as well as the Baroque, Classical, Romantic, and Twentieth-Century periods.

3 hours lecture.
Prerequisite(s): None

**MUS 103 - Voice Class Instruction (1)**
The study and development of basic vocal techniques such as breath management, tone quality, projection, and diction. Guided practice includes singing in class, both in group and solo situations.

1 hour lecture.
Prerequisite(s): None

**MUS 109 - Orchestra I (1)**
The study and performance of various pieces of the orchestral literature from different musical periods. Emphasis is on sight reading, mind and body control, rhythms, and orchestral performance at a beginning level. Includes public performances at college and community events.

2 hours rehearsal/performance.
Prerequisite(s): Audition.

**MUS 109A - Orchestra II (1)**
The continued study and performance of various pieces of the orchestral literature from different musical periods. Emphasis is on sight reading, mind and body control, rhythms, and orchestral performance at an intermediate level. Includes public performances at college and community events.

2 hours rehearsal/performance.
Prerequisite(s): MUS 109 and audition.

**MUS 110 - Chorus I (1)**
The study and performance of various pieces of the choral literature from different musical periods. Emphasis is on beginning vocal and choral techniques as applied through the rehearsal of repertoire. Includes public performances at college and community events.

3 hours rehearsal/performance.
Prerequisite(s): Audition. Recommended Preparation: Previous choral experience.

**MUS 110A - Chorus II (1)**
The continued study and performance of various pieces of the choral literature from different musical periods. Emphasis is on intermediate vocal and choral techniques as applied through the rehearsal of repertoire. Includes public performances at college and community events.

3 hours rehearsal/performance.
Prerequisite(s): MUS 110 and audition.

**MUS 111 - Band I (1)**
The study and performance of various pieces of the standard concert band literature from different musical periods. Emphasis is on sight reading, mind and body control, scales, and band performance at a beginning level. Includes public performances at college and community events.

2 hours rehearsal/performance.
Prerequisite(s): Audition.

**MUS 111A - Band II (1)**
The continued study and performance of various pieces of the standard concert band literature from different musical periods. Emphasis is on sight reading, mind and body control, scales, and band performance at an intermediate level. Includes public performances at college and community events.

2 hours rehearsal/performance.
Prerequisite(s): MUS 111 and audition.

**MUS 112 - Instrumental Class Instruction (1)**
The study and development of basic instrumental techniques such as coordination, and of rhythms, scales, and sight reading. Guided practice includes performing in class, both in group and solo situations.

1 hour lecture.

**MUS 112A Piano Class Instruction**

**MUS 112E String Class Instruction**
Prerequisite(s): None

**MUS 113 - Instrument - Individual Instruction (1-2)**
A systematic study of technique and repertoire on an instrument of the student's choice. May be taken twice for a total of two credits. (Students can gain credit by examination for this class. Contact the Dean of Liberal Arts for details.)

MUS 113A Individual Instruction - Piano
MUS 113B Individual Instruction - Brass
MUS 113C Individual Instruction - Woodwind
MUS 113D Individual Instruction - Percussion
MUS 113E Individual Instruction - Strings
MUS 113F Individual Instruction - Guitar

Prerequisite(s): Audition or permission of instructor.

MUS 115 - Voice - Individual Instruction (1-2) ‡
A study of the basics of vocal technique and a preparation for the performance of pieces in the vocal literature. May be taken twice for a total of two credits. (Students can gain credit by examination for this class. Contact the Dean of Liberal Arts for details.)
Prerequisite(s): Audition or permission of instructor.

MUS 115 - Voice - Individual Instruction (1-2) ‡
A study of the basics of vocal technique and a preparation for the performance of pieces in the vocal literature. May be taken twice for a total of two credits. (Students can gain credit by examination for this class. Contact the Dean of Liberal Arts for details.)
Prerequisite(s): Audition or permission of instructor.

MUS 123 - American Popular Music (3) °
This course is an introduction to elements, forms, and uses of popular music beginning with the early 20th Century in America. Course content is illustrated by recordings and videos of influential performers and composers, with an emphasis on the music industry within the context of popular culture.
3 hours lecture.
Prerequisite(s): None

MUS 132 - Music Theory I (3) °
This first course in music theory is a study of the construction and of the analysis of music including scales, intervals, transposition, figured bass symbols, cadences, non-harmonic tones, and melodic organization.
3 hours lecture.
Prerequisite(s): MUS 100 or permission of instructor, and concurrent enrollment in MUS 134. Recommended Preparation: In addition, music majors should enroll in either MUS 113 or MUS 115.

MUS 133 - Music Theory II (3) °
This second course in music theory includes voice-leading, seventh chords, modulation types, secondary dominants, secondary leading-tone chords, and binary and ternary forms.
3 hours lecture.
Prerequisite(s): MUS 132 and MUS 134, or permission of instructor; and concurrent enrollment in MUS 135. Recommended Preparation: In addition, music majors should enroll in either MUS 113 or MUS 115.

MUS 134 - Aural Skills I (1)
A progressive series of exercises in sight singing, rhythmic dictation, and melodic dictation.
1 hour lecture.
Prerequisite(s): Concurrent enrollment in MUS 132.

MUS 135 - Aural Skills II (1)
A continuation of the progressive series of exercises in sight singing, rhythmic dictation, and melodic dictation introduced in MUS 134.
1 hour lecture.

Prerequisite(s): MUS 134 and concurrent enrollment in MUS 133.

MUS 201 - Ensemble (1)
The study and performance of music written or arranged for small ensembles. Emphasis is on performance techniques for small vocal and/or instrumental groups.
2 hours rehearsal/performance.
MUS 201A Voice Ensemble (laboratory fee)
MUS 201D Percussion Ensemble (laboratory fee)
MUS 201F Guitar Ensemble (laboratory fee)
MUS 201G Jazz Ensemble
Prerequisite(s): Audition.

MUS 201A - Voice Ensemble (1) ‡
Development of vocal performance skills including breathing, diction and pronunciation, tone quality, phrasing, and intonation.
2 hours rehearsal/performance.
Prerequisite(s): Audition.

MUS 201D - Percussion Ensemble (1) ‡
Development of performance skills for percussion instruments.
2 hours rehearsal/performance.
Prerequisite(s): Audition.

MUS 201F - Guitar Ensemble (1) ‡
Development of acoustic and/or classical guitar skills.
2 hours rehearsal/performance.
Prerequisite(s): Audition.

MUS 201G - Jazz Ensemble (1) °
Development of improvisational and jazz-related styles used in all instrumental sections of the ensemble, including keyboard, wind, horn, and rhythm sections.
2 hours rehearsal/performance.
Prerequisite(s): Audition.

MUS 210 - Music Theatre Workshop (2)
A practical study of vocal and performance strategies for projection and communication. Students will participate in a college-sponsored operatic or musical production.
1 hour lecture, 3 hours rehearsal/performance.
Prerequisite(s): Audition or permission of instructor.

MUS 232 - Music Theory III (3) ° *
This third music theory course focuses in chronological order on art music from the late Renaissance period through the early 20th century. Major forms are analyzed through melody, harmony, and various musical motives.
3 hours lecture, 1 hour laboratory.
Prerequisite(s): MUS 133 and MUS 135.

MUS 233 - Music Theory IV (3) ° *
This fourth music theory course focuses in chronological order on art music from the late 19th century through the
middle of the 20th century. Major forms are analyzed through melody, harmony, and various musical motives.

3 hours lecture, 1 hour laboratory.
Prerequisite(s): MUS 232.

MUS 236 - Repertoire Strategy (1) ‡
Exploration of choral and instrumental chamber repertoire from the Middle Ages through the mid-18th century. Emphasis is on technique and interpretation. Performing groups include duets, trios, and small chamber groups.

3 hours rehearsal/performance.
Prerequisite(s): Permission of instructor.

MUS 260 - Music Fundamentals through Experience (3)
An introduction to musical skills, the mechanics of music, and musical experiences as a background for teaching music to children. Introduction to playing keyboard, autoharp, and recorder, as well as singing. Previous musical experience is not required. Fulfills the music education requirement for teacher certification.

3 hours lecture.
Prerequisite(s): None

NUR - NURSING

NUR 112 - Introduction to Pharmacology (3) ‡
An introduction to the basic principles and legal implications of pharmacology, and to the safe administering of medications. Includes pharmacokinetics, pharmacodynamics, drug classifications, drug dosage calculation, and medication administration. Students convert and calculate oral, injectable, and intravenous drug dosages for adults and children, and they calculate intravenous flow rates.

3 hours lecture.
Prerequisite(s): None

NUR 113 - Practical Nursing I (8) ‡
An introduction to the fundamental concepts and skills necessary to provide basic nursing care to clients in a variety of settings. Focus is on basic physiological and psychological needs of clients of all ages across all cultures.

4 hours lecture, 12 hours laboratory.
Prerequisite(s): BIO 160, NUR 112, and NUR 121A, all with a grade of B or better; and HLT 101 and HLT 111.

NUR 114 - Practical Nursing II (9) ‡
A study of the concepts and skills needed to provide nursing care to obstetrical and pediatric clients in family care applications across all cultures. Focus is on nursing skills, on biopsychosocial and cultural concepts relating to growth and development, and on disorders and diseases of pediatric and normal obstetrical clients. Upon successful completion of NUR 114 and NUR 115, students are eligible to take the National Council Licensure Examination for Practical Nurses (NCLEX-PN).

5 hours lecture, 12 hours laboratory.
Prerequisite(s): NUR 113 with a grade of B or better and concurrent enrollment in NUR 115.

NUR 115 - Practical Nursing III (3) ‡
A study of the concepts and skills needed to provide nursing care to obstetrical and pediatric clients in family care applications across all cultures. Focus is on nursing skills, on biopsychosocial and cultural concepts relating to growth and development, and on disorders and diseases of pediatric and normal obstetrical clients. Upon successful completion of NUR 114 and NUR 115, students are eligible to take the National Council Licensure Examination for Practical Nurses (NCLEX-PN).

2 hours lecture, 3 hours laboratory.
Prerequisite(s): NUR 113 with a grade of B or better and concurrent enrollment in NUR 114.

NUR 120 - Transition to Practical Nurse (1) ‡
For first-year re-entering nursing students who have been out of nursing studies at Cochise College for less than one year. Provides an update of the philosophy, policies, and procedures of the Cochise College nursing program. Emphasis is on the nursing process, patient care planning, therapeutic use of self, critical thinking, and basic nursing skills.

1 hour lecture, 0.5 hour laboratory.
Prerequisite(s): NUR 122 with a grade of B or better at Cochise College within the last twelve months and approval of Nursing Department.

NUR 121A - Medication Math I (2) °
This course gives students the math skills necessary to convert and calculate drug dosages for oral, injectable, and intravenous drugs. Experience is provided in techniques for the calculation of oral and parenteral drug dosages for adults and children, and for the calculation of intravenous flow rates.

2 hours lecture, 1 hour laboratory.
Prerequisite(s): Appropriate placement measurement or MAT 081, and acceptance into the nursing program.

NUR 121B - Medication Math II (2)
This course reinforces the skills necessary to convert and calculate drug dosages for oral, injectable, and intravenous drugs; it reviews techniques for the calculation of oral and parenteral drug dosages for adults and children, and for the calculation of intravenous flow rates.

2 hours lecture, 1 hour laboratory.
Prerequisite(s): NUR 121A with a grade of B or better, and concurrent enrollment in NUR 232.

NUR 122 - Nursing I (8) ‡
This course reinforces the skills necessary to convert and calculate drug dosages for oral, injectable, and intravenous drugs; it reviews techniques for the calculation of oral and parenteral drug dosages for adults and children, and for the calculation of intravenous flow rates. Focus is on these skills and techniques as they apply to pediatrics, critical care, pediatrics critical care, labor and delivery, and the general community.

2 hours lecture, 1 hour laboratory.
Prerequisite(s): NUR 121A with a grade of B or better, and concurrent enrollment in NUR 232.

NUR 122 - Nursing I (8) ‡
In this first-semester course in the nursing program, students learn concepts and skills necessary to provide basic nursing care to healthy adults in a variety of settings. Focus is on basic physiological and psychological needs of clients throughout the adult lifespan across all cultures.

4 hours lecture, 12 hours laboratory.
In this second-semester course in the nursing program, students continue to build on the basic concepts and skills needed to provide nursing care throughout the adult lifespan. Focus is on the application across all cultures of skills necessary in the care of adults with diseases and disorders. Upon successful completion of Nursing II-A and Nursing II-B, students are eligible to take the National Council Licensure Examination for Practical Nurses (NCLEX-PN).

Prerequisite(s): NUR 121A and NUR 122, both with a grade of B or better, and PSY 101.

NUR 124 - Nursing II-B (5) ‡

In this additional second-semester course in the nursing program, students build on the basic concepts and skills necessary to provide nursing care to obstetrical and pediatric clients. Focus is on family care and the application across all cultures of nursing skills, on biopsychosocial-cultural concepts relating to growth and development, on disorders and diseases of pediatric clients, and on normal and high-risk obstetrical clients. Upon successful completion of Nursing II-A and Nursing II-B, students are eligible to take the National Council Licensure Examination for Practical Nurses (NCLEX-PN).

3 hours lecture, 6 hours laboratory.
Prerequisite(s): NUR 121A and NUR 122, both with a grade of B or better, and PSY 101.

In this third-semester course in the nursing program, the focus is on the problems and the physical and psychosocial health needs of acutely-ill adult clients. Topics include the framework for effective communication and the nursing process with emphasis on intervention and evaluation. A clinical setting helps students develop competence in discharge planning, community nursing, and leadership. Students utilize knowledge of new developments in health care to adapt to changes in the field and to be proactive in the nursing profession.

6 hours lecture, 12 hours laboratory.
Prerequisite(s): NUR 123 and NUR 124 (both with a grade of B or better), NUR 130 (for LPN to RN advanced placement pathway students); PSY 240 (Corequisite for LPN to RN pathway students).

NUR 232 - Nursing III (10) ‡

In this fourth-semester course in the nursing program, the focus is on the complex problems and the physical and psychosocial health needs of critically-ill adult clients. During their nursing preceptorship, students work intensively with a registered nurse in their transition from student to nurse. Upon successful completion of this course, students are eligible to take the National Council Licensure Examination for Registered Nurses (NCLEX-RN).

6 hours lecture, 12 hours laboratory.
Prerequisite(s): NUR 121B and NUR 232, both with a grade of B better.

**PFT - PROFESSIONAL FLIGHT TECHNOLOGY**

**PFT 100 - Introduction to Aviation (1)**

Instruction in the program-specific requirements, policies, and aircraft procedures which are not covered in Federal Aviation Administration training course outlines. Designed to prepare students who have been accepted into the aviation program for flight training.

*1 hour lecture.*

Prerequisite(s): Acceptance into the aviation program.

**PFT 101 - Private Pilot Ground School (5) °**

A comprehensive course that prepares students for the Federal Aviation Administration Private Pilot Airplane knowledge exam. Prepares students to acquire the knowledge and skills necessary to operate as a private pilot and to pursue a career in aviation.

*5 hours lecture.*

Prerequisite(s): Acceptance into the aviation program.

**PFT 103 - Private Pilot Review (1)**

A review of the course materials and of the flight proficiency requirements for the Federal Aviation Administration Private Pilot Certification. Also prepares those seeking to satisfy FAA currency requirements.

*1 hour lecture.*

Prerequisite(s): Acceptance into the aviation program.

**Recommended Preparation:** Successful completion of the FAA Private Pilot knowledge test.

**PFT 105 - Crew Resource Management - Flight (2)**

A study of resources available to flight crews to assure safe and efficient flight operations and reduce cockpit errors. Focus is on the development of cognitive and interpersonal skills such as situational awareness, communication, teamwork, task allocation, and decision making, which are needed to manage flights.

*2 hours lecture.*

Prerequisite(s): Acceptance into the aviation program.

**PFT 111 - Solo Flight Preparation (3.5)**

Designed to prepare the student for solo flight in accordance with FAA requirements.

*3.5 hours lecture.*

Prerequisite(s): Concurrent enrollment in PFT 101 or permission of the Aviation Department.

**PFT 112 - Cross-Country Navigation (1.5)**

Designed to prepare the student for cross-country navigation in accordance with FAA requirements.

*1.5 hours lecture.*

Prerequisite(s): PFT 101 and concurrent enrollment in PFT 111, or permission of the Aviation Department.

**PFT 113 - Private Pilot Certification (1)**

Designed to prepare the student for private pilot certification in accordance with FAA requirements.

*1 hour lecture.*

Prerequisite(s): PFT 111 and concurrent enrollment in PFT 112, or permission of the Aviation Department.

**PFT 121 - Commercial Flight I (3)**

The first in a series of three courses designed to prepare students for a Commercial Pilot Airplane Single Engine Land Certificate. Topics include preflight preparations and procedures, flight maneuvers, and postflight operations, with emphasis on the airmanship skills and aeronautical knowledge stipulated by the Federal Aviation Administration for commercial pilots. Provides a foundation for the development of a professional pilot career.

*3 hours lecture.*

Prerequisite(s): Possession of a Private Pilot Airplane Single Engine Land Certificate.

**PFT 122 - Aviation Weather (3) °**

A continuation of the study of aviation weather theory, one of the topics introduced in PFT 101. Includes an in-depth study of weather elements and hazards, and of aviation weather reports and forecasts. Covers weather conditions as they relate to aircraft and flight performance.

*3 hours lecture.*

Prerequisite(s): PFT 101 or permission of instructor.

**PFT 130 - Commercial Pilot Ground School (5) °**

A comprehensive course that prepares students for the Federal Aviation Administration Commercial Pilot Airplane knowledge exam. Focuses on improving students’ aeronautical knowledge as well as their decision-making, aviation-safety, and risk-management skills in preparation for a career as a commercial pilot.

*5 hours lecture.*

Prerequisite(s): PFT 101 or possession of a Private Pilot Certificate, and acceptance into the aviation program.

**PFT 131 - Commercial Flight II (3)**

The second in a series of three courses designed to prepare students for a Commercial Pilot Airplane Single Engine Land Certificate. Focus is on commercial pilot-level airmanship skills and aeronautical knowledge. Continues developing the foundation for a professional pilot career.

*3 hours lecture.*

Prerequisite(s): PFT 121, concurrent enrollment, or permission of the director of aviation; and possession of a Private Pilot Certificate with Airplane Single Engine Land.
PFT 204 - Instrument Rating Ground School (5)°
A comprehensive course that prepares students for the Federal Aviation Administration Instrument Rating Airplane exam. Focuses on air traffic control procedures, the national airspace system, aviation weather, risk management, aeronautical decision making, and aviation safety as they all relate to instrument flight operations in preparation for a career as a professional pilot.
3 hours lecture.
Prerequisite(s): PFT 101 or possession of a Private Pilot Certificate, and acceptance into the aviation program.

PFT 206 - Aircraft Systems (3)°
A study of the fundamentals of physics, and of various aircraft systems-mechanical, electrical, and hydraulic-used to manage complex aircraft operations.
3 hours lecture.
Prerequisite(s): PFT 101 or permission of the director of aviation.

PFT 208 - Jet Transition Training (3)
A CRJ 700 passenger jet simulation-based flight-training experience that teaches principles common to many modern jet and turbo propeller airliners. The training utilizes an integrated flight and navigation management system with displays, aircraft and flight control systems, realistic views of the environment, and simulated malfunctions that mimic emergency situations.
3 hours lecture.
Prerequisite(s): Concurrent enrollment in PFT 218 or possession of a Commercial Pilot Airplane Certificate.

PFT 210 - Multi-Engine Rating Ground School (1)°
A comprehensive course covering the aeronautical knowledge required for a Multi-Engine Land Airplane Class Rating.
1 hour lecture.
Prerequisite(s): Possession of a Private Pilot Certificate with Airplane Single Engine Land.

PFT 211 - Multi-Engine Rating Flight (1)
A comprehensive course that develops the required airmanship skills, knowledge, and proficiency for a Multi-Engine Land Airplane Class Rating per the Federal Aviation Administration Practical Test Standards.
1 hour lecture.
Prerequisite(s): PFT 210 or concurrent enrollment; and possession of a Private Pilot Certificate with Airplane Single Engine Land.

PFT 214 - Instrument Rating Flight I (3.5)
The first of two courses designed to prepare the student for instrument flight navigation and air traffic control rating in accordance with FAA requirements.
3.5 hours lecture.
Prerequisite(s): PFT 204.

PFT 215 - Instrument Rating Flight II (1.5)
The second of two courses designed to prepare the student for instrument flight navigation and air traffic control rating in accordance with FAA requirements.
1.5 hours lecture.
Prerequisite(s): PFT 214.

PFT 217 - Instrument Pilot Review (1)
A review of the course materials and of the flight proficiency requirements for the Federal Aviation Administration Instrument Rating Certification. Also prepares those seeking to satisfy FAA currency requirements.
1 hour lecture.
Prerequisite(s): Acceptance into the aviation program.
Recommended Preparation: Successful completion of the FAA Instrument Rating knowledge test.

PFT 218 - Commercial Flight III (1)
The third in a series of three courses designed to prepare the student for a Commercial Pilot Airplane Single Engine Land Certificate. Emphasis is on correlating the aeronautical knowledge and airmanship skills developed in PFT 121 and PFT 131 with the Federal Aviation Administration Commercial Pilot Practical Test Standards.
1 hour lecture.
Prerequisite(s): PFT 121 or concurrent enrollment and PFT 131 or concurrent enrollment, or permission of the director of aviation; and possession of a Private Pilot Certificate with Airplane Single Engine Land.

PFT 220 - Commercial Pilot Review (1)
A review of the course materials and of the flight proficiency requirements for the Federal Aviation Administration Commercial Pilot Certification. Also prepares those seeking to satisfy FAA currency requirements.
1 hour lecture.
Prerequisite(s): Acceptance into the aviation program.
Recommended Preparation: Successful completion of the FAA Commercial Pilot knowledge test.

PFT 222 - Aircraft Dispatcher (7)‡
A comprehensive course that prepares students for the Federal Aviation Administration Aircraft Dispatcher Certificate required for a career as a licensed dispatcher. Topics include FAA regulations, weather protocol, flight planning and decision making, and navigation and dispatch procedures.
7 hours lecture.
Prerequisite(s): PFT 101, PFT 122, PFT 204, and PFT 206.

PFT 230 - Flight Instructor - Fundamentals Ground School (3)
A study of the principles of teaching and performance assessment, and an analysis of student behavior and learning as they all relate to aviation students. Offered in preparation for the Federal Aviation Administration Fundamentals of Instructing knowledge exam.
3 hours lecture.
Prerequisite(s): PFT 130 and PFT 204, or permission of the director of aviation.

**PFT 231 - Flight Instructor - Airplane Ground School (5)**
An application of the fundamentals of instruction as they relate to aviation students. Emphasis is on the development and demonstration of the instructional knowledge and skills required for the Federal Aviation Administration Flight Instructor Airplane Single Engine practical test.
5 hours lecture.
Prerequisite(s): PFT 130, PFT 204, and PFT 230 or concurrent enrollment.

**PFT 233 - Flight Instructor - Airplane Review (1)**
A review of the course materials and of the flight proficiency requirements for the Federal Aviation Administration Flight Instructor Airplane Certification. Also prepares those seeking to satisfy FAA currency requirements.
1 hour lecture.
Prerequisite(s): Acceptance into the aviation program.
Recommended Preparation: Successful completion of the FAA Fundamentals of Instruction and Flight Instructor Airplane knowledge tests.

**PFT 235 - Flight Instructor - Airplane Stage I (1.5)**
The first of two courses that apply the fundamentals of instruction, with a demonstration of the aeronautical knowledge and airmanship skills required for students seeking the Flight Instructor Airplane Single Engine Certification. Flight training occurs in a non-complex aircraft.
1.5 hours lecture.
Recommended Preparation: PFT 230 and PFT 231, or successful completion of the FAA Flight Instructor Airplane and FAA Fundamentals of Instruction knowledge tests.

**PFT 236 - Flight Instructor - Airplane Stage II (1.5)**
The second of two courses that apply the fundamentals of instruction, with a demonstration of the aeronautical knowledge and airmanship skills required for students seeking the Flight Instructor Airplane Single Engine Certification. Flight training occurs in a complex aircraft.
1.5 hours lecture.

**PFT 240 - Flight Instructor - Multi-Engine Ground School (2)**
An application of the fundamentals of instruction as they relate to aviation students. Emphasis is on the development and demonstration of the instructional knowledge and skills required for the Federal Aviation Administration Flight Instructor Airplane Multi-Engine practical test.
2 hours lecture.
Prerequisite(s): PFT 230 or concurrent enrollment and PFT 231 or concurrent enrollment, or possession of a Flight Instructor Airplane Single Engine Certificate and a Commercial Airplane Multi-Engine Land Certificate.

**PFT 241 - Flight Instructor - Multi-Engine Flight (2)**
An application of the fundamentals of instruction, and a demonstration of the aeronautical knowledge and airmanship skills required for students seeking the Flight Instructor Airplane Multi-Engine Certification.
2 hours lecture.

**PFT 250 - Flight Instructor - Instrument Ground School (3)**
An application of the fundamentals of instruction as they relate to aviation students. Emphasis is on the development and demonstration of the instructional knowledge and skills required for the Federal Aviation Administration Flight Instructor Instrument Ground practical test.
3 hours lecture.
Prerequisite(s): PFT 230 or concurrent enrollment, PFT 231 or concurrent enrollment, PFT 235 or concurrent enrollment, and PFT 236 or concurrent enrollment; or possession of a Flight Instructor Airplane Single Engine Certificate.

**PFT 251 - Flight Instructor - Instrument Flight (3)**
An application of the fundamentals of instruction, and a demonstration of the aeronautical knowledge and airmanship skills required for students seeking the Flight Instructor Instrument Airplane Certification.
3 hours lecture.
Prerequisite(s): PFT 230 or concurrent enrollment, PFT 231 or concurrent enrollment, PFT 235 or concurrent enrollment, and PFT 236 or concurrent enrollment; and possession of a Flight Instructor Airplane Single Engine Certificate and a Commercial Airplane Single Engine Land Certificate with Instrument Rating.

**PFT 260 - Airline Transport Pilot - Ground School (3)**
A comprehensive review of the aeronautical knowledge required for the Federal Aviation Administration Airline Transport Pilot certification.
3 hours lecture.
Prerequisite(s): Possession of a Commercial Pilot Airplane Certificate with Instrument Rating.

**PFT 261 - Airline Transport Pilot - Flight (1)**
Comprehensive flight training in order to complete the Federal Aviation Administration requirements for Airline Transport Pilot certification.
1 hour lecture.
Prerequisite(s): Possession of a Commercial Pilot Airplane Certificate with Instrument Rating.
PFT 271 - Unmanned Aerial Vehicle (UAV) Operator (29)
Teaches the theory of UAV systems, with emphasis on aerial vehicles, mission payload, and flight line operations. Students gain the knowledge and practical skills required to safely employ UAV systems in any theater of operation.
20 hours lecture, 27 hours laboratory.
Prerequisite(s): PFT 101 or completion of an FAA approved Stage One Ground School, and a sponsored employee of the Department of Defense or of a DOD UAV contractor.

PHI - PHILOSOPHY

PHI 111 - Introduction to Western Philosophy (3) *, o, ~
A study of the most influential philosophers and philosophies in the Western tradition. Topics include the possibility of knowledge, free will, and morality and their natures; and the distinction between appearance and reality.
3 hours lecture.
Prerequisite(s): ENG 101.

PHI 113 - Introduction to Logic (3) *, o, ~
A study of various topics in logic, including the evaluation of arguments, the detection of formal and informal fallacies, the construction of truth tables, and the process of natural deduction in propositional logic.
3 hours lecture.
Prerequisite(s): ENG 101.

PHI 130 - Introduction to Ethics (3) *, o, ~
A study of the most influential philosophers and philosophies in the moral tradition. Topics include the nature of values, right conduct, and character; and the application of theory to real-world actions and situations.
3 hours lecture.
Prerequisite(s): ENG 101.

PHI 201 - Introduction to Eastern Philosophy (3) o, ~
A study of the most influential philosophers and philosophies in the Eastern tradition. Topics include the possibility of knowledge, free will, and morality and their natures; and the distinction between appearance and reality.
3 hours lecture.
Prerequisite(s): ENG 101.

PHI 202 - Philosophy of Religion (3) o, ~
A study of the most influential philosophers and philosophies in the religious tradition. Topics include the nature and existence of God, the value of faith versus knowledge, the possibility of religious pluralism, and the problem of evil.
3 hours lecture.
Prerequisite(s): ENG 101.

PHT - PHARMACY TECHNOLOGY

PHT 224 - Field Experience in Pharmacy Technology (1-3)
A supervised cooperative education field experience involving the combined efforts of educators and employers. Students accomplish various academic and career-related objectives in pre-pharmacy and related healthcare fields. Semester-long regular workplace participation and weekly contact with assigned faculty advisor are required.
Prerequisite(s): A declared major in any related field; and BIO 156, BIO 181, or concurrent enrollment in either.

PHY - PHYSICS

PHY 111 - General Physics I (4) *, ‡
An introduction to the general principles of physics in the area of classical mechanics. Special emphasis is placed on algebra in solving word problems. Topics include kinematics, dynamics, energy, momentum, motion, fluids, elasticity and oscillations, and waves and sounds. For students whose degree programs do not require physics with calculus.
3 hours lecture, 3 hours laboratory.
Prerequisite(s): MAT 091 or higher.

PHY 112 - General Physics II (4) *, ‡
Introductory physics without calculus. Topics include electrostatics, electric potential, resistance, circuits, electromagnetism, and Faraday's law; light, lenses, optical instruments, and interference; and quantum physics, atoms, and nuclei. For students whose degree programs do not require physics with calculus.
3 hours lecture, 3 hours laboratory.
Prerequisite(s): PHY 111.

PHY 230 - Physics with Calculus I (4) *, ‡
A fundamental calculus-based study of classical mechanics. Topics include kinematics, dynamics, energy, linear and angular momentum, and oscillations. For engineering students and others who require physics with calculus.
3 hours lecture, 3 hours laboratory.
Prerequisite(s): MAT 220 and either PHY 111 or one year of high school physics.

PHY 231 - Physics with Calculus II (4) *, ‡
A study, using calculus concepts, of electromagnetic fields and their various applications. Topics include electrical and magnetic properties of matter, and circuit devices used in DC and simple AC circuits. For engineering students and others who require physics with calculus.
3 hours lecture, 3 hours laboratory.
Prerequisite(s): PHY 230.

PMD - PARAMEDICINE

PMD 101 - Paramedicine I (6) ‡, °
An introductory course that includes an EMT refresher and an overview of human anatomy and physiology.
6 hours lecture, 1 hour laboratory.
COURSES | 151

Prerequisite(s): Appropriate placement measurement, MAT 081, or higher; and RDG 092 or exemption. Prior to enrollment, students must meet the following requirements: 1) current certification as an EMT (Arizona or National Registry), 2) score of 75% or higher on computer-based entrance exam, 3) proof of vaccinations, to include negative tuberculin (TB) skin test, measles, mumps, rubella (MMR), varicella, and hepatitis B series, and 4) acceptance into the paramedicine program. Once enrolled, the following are required: 5) drug screen and 6) background check.

PMD 201 - Paramedicine II (7) ‡

PMD 201 is an introduction to the roles and responsibilities of the paramedic and to advanced pre-hospital care. Topics include the medical and legal aspects of pre-hospital care, and the general principles of pathophysiology, pharmacology, and medication administration.

6 hours lecture, 2 hours laboratory.
Prerequisite(s): PMD 101.

PMD 202 - Paramedicine III (7) ‡

PMD 202 is a continued study of pre-hospital care to include advanced airway management, therapeutic communication, physical examination techniques, and patient assessment in the field, with an overview of trauma and burns.

6 hours lecture, 2 hours laboratory.
Prerequisite(s): PMD 201.

PMD 203 - Paramedicine IV (10) ‡

An in-depth study of pulmonary- and cardiac-related medical emergencies. Focuses on cardiac anatomy and physiology, electrocardiogram interpretations and interventions, and preparation for certification in Advanced Cardiac Life Support (ACLS). Students begin clinical rotations during this course.

6 hours lecture, 8 hours laboratory.
Prerequisite(s): PMD 202.

PMD 204 - Paramedicine V (10) ‡

A continued study of medical emergencies with focus on neurology, endocrinology, allergic reactions, anaphylaxis, gastroenterology, urology, nephrology, toxicology, and gynecology and obstetrics. Students continue clinical rotations.

6 hours lecture, 8 hours laboratory.
Prerequisite(s): PMD 203.

PMD 205 - Paramedicine VI (9) ‡

An overview of the various responses to and treatments for infectious diseases, psychological emergencies, and conditions requiring attention in the areas of neonatology, pediatrics, geriatrics, and challenged patients. Additional topics include the incident command system (ICS) and special operations such as rescue situations, hazardous materials, and terrorism as they relate to medical emergencies. Includes certification in Pediatric Advanced Life Support (PALS). Students increase their number of clinical rotations.

2 hours lecture, 14 hours laboratory.
Prerequisite(s): PMD 204.

PMD 206 - Paramedicine VII (6) ‡

The capstone course of the paramedicine program, offered primarily as a field internship. Students are assigned to a paramedic preceptor on an advanced life support (ALS) ambulance where they operate as the lead paramedic in the field. Students, preceptors, and instructors meet weekly to discuss student progress.

1 hour lecture, 10 hours laboratory.
Prerequisite(s): PMD 205.

POS - POLITICAL SCIENCE

POS 110 - American National Government (3) *, °

A study of the United States political system with emphasis on constitutional democracy, political parties, elections and voting, and the three branches of government. Also covers the impact of race, gender, and ethnicity on the political process, and the role of civil rights and civil liberties in the protection of American citizens. Satisfies the United States Constitution requirement for Arizona K-12 teacher certification.

3 hours lecture.
Prerequisite(s): RDG 092 or exemption.

POS 220 - Federal and Arizona Constitutions (3) °, ~

A study of the federal government of the United States and the state government of Arizona accomplished through the examination and interpretation of their constitutions. Satisfies both the United States and the Arizona Constitution requirements for Arizona K-12 teacher certification.

3 hours lecture.
Prerequisite(s): ENG 101, and RDG 092 or exemption.

POS 221 - Arizona Constitution (1) °

A study of the Arizona government through the examination and interpretation of its constitution. Satisfies the Arizona Constitution requirement for Arizona K-12 teacher certification.

1 hour lecture.
Prerequisite(s): ENG 101, and RDG 092 or exemption.
POS 230 - World Politics (3) *, °, ~
A study of international politics and the relations among nation-states. Topics include the development of international systems, the Cold War and its aftermath, the use of power in the pursuit of national political objectives, the evolution of international alignments, the rise of terrorism, and various areas of conflict.
3 hours lecture.
Prerequisite(s): ENG 101, and RDG 092 or exemption.
Recommended Preparation: HIS 244, POS 110, or POS 220.

POS 240 - Comparative Politics (3) *, °
The study of comparative politics with emphasis on political systems, movements, ideologies, and economic development.
3 hours lecture.
Prerequisite(s): RDG 092 or exemption. Recommended Preparation: HIS 244, POS 110, or POS 220.

PSY - PSYCHOLOGY

PSY 101 - Introduction to Psychology (3) *, °
A study of psychology, its history, and its research methods. Topics include sensation and perception, consciousness, learning, memory, motivation and emotion, lifespan development, and personality. Also covers biopsychology, social psychology, abnormal behavior, and therapy.
3 hours lecture.
Prerequisite(s): RDG 092 or exemption.

PSY 103 - Foundations of Psychology (3) °
A study of the basic theoretical principles of psychology and their applications to human behavior and growth. Students explore psychology as a practical science and they examine how psychological research can lead to improved personal and professional relationships.
3 hours lecture.
Prerequisite(s): RDG 092 or exemption.

PSY 210 - Social Psychology (3) °, ~
A study of the basic concepts, theories, and research pertaining to human interaction. Topics include attribution, attitude formation and change, interpersonal interaction, altruism and aggression, environmental psychology, and group structure and processes.
3 hours lecture.
Prerequisite(s): ENG 101 and PSY 101.

PSY 231 - Human Sexuality (3) °
An overview of human sexuality during the life cycle, viewed from both sociological and psychological perspectives. Includes an exploration of the biological and cultural foundations of gender and sexuality, sexual orientations and identities, intimate relationships and intimate communication, sexual behaviors, sexual dysfunctions, and social issues surrounding sexuality.
3 hours lecture.
Prerequisite(s): RDG 092 or exemption. Recommended Preparation: ANT 102, PSY 101, or SOC 101. Cross-Listed as: SOC 230.

PSY 240 - Developmental Psychology (3) °, ~
A sequential study of the human lifespan, from conception through death, emphasizing theories and applications in the biological, cognitive, psychoanalytic, and psychosocial domains.
3 hours lecture.
Prerequisite(s): ENG 101 and PSY 101.

PSY 250 - Introduction to Statistics (4) °, ‡, ~
An introduction to the basic concepts of experimental design, with emphasis on measurement and descriptive and inferential statistics as they apply to psychological research.
3 hours lecture, 3 hours laboratory.
Prerequisite(s): ENG 101, MAT 142, and PSY 101.

PSY 270 - Abnormal Psychology (3) °, ~
An examination of various psychological disorders. Includes theoretical, clinical, and experimental perspectives on the study of abnormal psychology. Emphasis is on terminology, classification, etiology, assessment of symptoms, and therapeutic techniques for the treatment of the major disorders.
3 hours lecture.
Prerequisite(s): ENG 101 and PSY 101.

PSY 290 - Research Methods (3) °, ~, *
A review and analysis of the scientific literature, with specific attention to experimental research designs. Students design psychological studies, collect and analyze data, and interpret and report research results.
3 hours lecture.
Prerequisite(s): ENG 101, PSY 101, and PSY 250.

RDG - READING

RDG 020 - Basic Reading (3)
This course is the first of two reading courses designed to equip students with the skills necessary to succeed in college-level content area courses and to become lifelong readers. It emphasizes the development of vocabulary, reading strategies and higher-level comprehension skills.
3 hours lecture.
Prerequisite(s): Appropriate placement measurement, and CPD 150 or concurrent enrollment.

RDG 090 - College Reading Support (3) °
A supplementary reading course taken concurrently with an introductory course which requires reading exemption. It is an option taken in place of the prerequisite RDG 092 College Reading. Successful completion of this course makes a student reading exempt.
Prerequisite(s): RDG 020 or placement into RDG 092.
RDG 092 - College Reading (3) °
This course is the second of two reading courses designed to equip students with the skills necessary to succeed in college-level content area courses and to become lifelong learners. It emphasizes advanced vocabulary development, critical reading, and higher-level comprehension skills.  
3 hours lecture.  
Prerequisite(s): Appropriate placement measurement or RDG 020, and CPD 150 or concurrent enrollment.

SCM - SUPPLY CHAIN MANAGEMENT

SCM 101 - Principles of Supply Chain Management (3)
Introduction to global supply chain management includes the development of logistics systems, careers in supply chain management, distribution planning, supply chain security, and customer service. It also introduces the roles and functions of purchasing, inventory control, physical distribution, warehousing, transportation methods, packaging, and customs.  
3 hours lecture.  
Prerequisite(s): None.

SCM 104 - Supply Chain Technology (3)
An analysis of the use of technology in the supply chain industry, an introduction to available supply chain software, appropriate selection methods, and technological security measures. Course also addresses the history and future of technology in the supply chain industry and its impact on customer service.  
3 hours lecture.  
Prerequisite(s): None.

SCM 106 - Purchasing and Freight Claims (3)
An introduction to basic purchasing functions: inventory requirements and quantities; developing policies and procedures for purchasing; making purchasing decisions; receiving goods; arranging packaging and shipping; and managing inventory levels. Study of mitigation of losses in transit and of various aspects of negotiating and drafting freight and supply chain contracts. Includes claim preparation, filing procedures, and claim dispute resolution.  
3 hours lecture.  
Prerequisite(s): None.

SCM 108 - Transportation and Traffic Management (3)
A general overview of domestic freight transportation systems. Addresses patterns of freight movement and laws, regulations, pricing, and policies of freight transportation. Examines issues related to traffic management, security, and global transportation.  
3 hours lecture.  
Prerequisite(s): None.

SCM 110 - Warehouse Management and Inventory Control (3)
A study of managing warehouses and inventory. Includes analyzing warehouse locations, procedures, operations, finances, security, cargo and materials handling, examining cost concepts, determining scope of inventory, forecasting, and planning and controlling inventory. Includes ordering methods, cost control, and customer satisfaction strategies.  
3 hours lecture.  
Prerequisite(s): None.

SCM 224 - Field Experience in Supply Chain Management (1)
A supervised cooperative education field experience involving the combined efforts of educators and employers. Students accomplish various academic and career-related objectives in supply and related fields. Semester-long regular workplace participation and regular contact with assigned faculty advisor are required.  
Field experience of 75 clock hours.  
Prerequisite(s): SCM 101.

SLE - SERVICE LEARNING

SLE 192 - Special Topics in Service Learning (1-3)
Students engage in a formal, community-based service learning experience and reflect on how it applies to the content of the course they are concurrently enrolled in, thereby deepening their understanding of the relationship between community and classroom learning.  
Prerequisite(s): Concurrent enrollment in a course approved by the instructor.

SLE 292 - Special Topics in Service Learning II (1-3)
An advanced, community-focused service-learning experience that provides an opportunity for students to hone service and engagement skills acquired in SLE 192, to participate actively in an organized service experience and, through reflection activities, to relate those experiences to academic or occupational course content. A minimum of 25 direct service hours per credit is required in addition to periodic instructor or mentor meetings and training sessions.  
Prerequisite(s): SLE 192. Recommended Preparation: Sophomore standing.

SOC - SOCIOLOGY

SOC 101 - Introduction to Sociology (3) °, *
An overview of sociology focusing on its main perspectives, theories and research methods. Areas of emphasis include culture, socialization and social institutions, social interaction, groups and organizations, social class and social stratification, deviance and crime, race and ethnicity, and gender and sexuality.  
3 hours lecture.  
Prerequisite(s): RDG 092 or exemption.
SOC 160 - Sociology of Race and Ethnicity (3) *, °, ~
An exploration of the social construction of race and ethnicity and how it shapes social interactions and institutions. Includes the history of race relations leading to an exploration of contemporary relations among racial groups, with emphasis on the consequences of power, privilege, and oppression.
3 hours lecture.
Prerequisite(s): ENG 101, and RDG 092 or exemption.
Recommended Preparation: SOC 101.

SOC 192 - Special Topics in Sociology (1-3)
Designed for professional development and personal enrichment through the exploration of special topics in sociology. Topics will vary according to student needs and interests.
Prerequisite(s): ENG 101 and SOC 101. Recommended Preparation: SOC 160, SOC 202, or SOC 212.

SOC 202 - Social Problems (3) *, °, ~
An exploration of social problems through the lens of traditional and current theoretical perspectives. Includes how social problems are perpetuated through social institutions such as education, government, family, health care, and the economy. Students investigate how these institutions reinforce discrimination based on race, gender, sexual orientation, and age.
3 hours lecture.
Prerequisite(s): ENG 101, and RDG 092 or exemption.
Recommended Preparation: SOC 101.

SOC 212 - Sociology of Gender (3) °, ~
An exploration of the social construction of gender throughout history and how it has shaped current social interactions and institutions. Focus is on the sociological concepts and theories used to explore cultural explanations of gender, as well as on the biological theories of sex, gender, and sexuality. Includes an examination of gender as it intersects with race, ethnicity, social class, age, and sexual orientation; and a study of the consequences of sex and gender in the lives of men, women, and gender non-conforming individuals.
3 hours lecture.
Prerequisite(s): ENG 101, and RDG 092 or exemption.
Recommended Preparation: SOC 101.

SPA - SPANISH

SPA 101 - Elementary Spanish I (4) *, °
SPA 101 is an introduction to the Spanish language, its pronunciation, and its basic grammar structures. This course develops the student's ability to speak, read, and write in simple sentences based on personal and classroom experience, and explores a variety of topics related to Hispanic culture, history, geography, and arts.
4 hours lecture, 1 hour laboratory.
Prerequisite(s): None Recommended Preparation: SPA 115 or previous experience in a second language.

SPA 102 - Elementary Spanish II (4) *, °
SPA 102 is a continued study of the Spanish language, its pronunciation, and its basic grammar structures, with emphasis on more complex verb tenses and sentence structure. This course further develops the student's ability to speak, read, and write simple sentences based on personal and classroom experience, and explores additional topics related to Hispanic culture, history, geography, and arts.
4 hours lecture, 1 hour laboratory.
Prerequisite(s): SPA 101, one year of high school Spanish, or permission of instructor.

SPA 115 - Conversational Spanish I (3)
A beginning conversational experience in Spanish through which students build oral proficiency while increasing their awareness of Hispanic culture.
3 hours lecture.
Prerequisite(s): None

SPA 116 - Conversational Spanish II (3)
A beginning conversational experience in Spanish through which students continue to build oral proficiency while further increasing their awareness of Hispanic culture.
3 hours lecture.
Prerequisite(s): SPA 101, SPA 115, or permission of instructor.

SPA 201 - Intermediate Spanish I (4) *, °
SPA 201 is a continued study of the Spanish language, its pronunciation, and its grammar structures, with emphasis on intermediate-level verb tenses and sentence structure. This course further develops the student's ability to speak, read, and write even more complex sentences based on personal and interpersonal experiences, and explores additional topics related to Hispanic culture, history, geography, and arts.
4 hours lecture, 1 hour laboratory.
Prerequisite(s): SPA 102, two years of high school Spanish, or permission of instructor.

SPA 202 - Intermediate Spanish II (4) *, °
SPA 202 is an exploration of Hispanic cultures presented through authentic literary works and audio-visual media with
integrated practice in reading, writing, speaking, and understanding the Spanish language.
4 hours lecture, 1 hour laboratory.
Prerequisite(s): SPA 201, three years of high school Spanish, or permission of instructor.

SPA 215 - Conversational Spanish III (3)
An intermediate conversational experience in Spanish through which students build oral proficiency while increasing their awareness of Hispanic culture.
3 hours lecture.
Prerequisite(s): SPA 102, SPA 116, or permission of instructor.

SPA 216 - Conversational Spanish IV (3)
An intermediate conversational experience in Spanish through which students continue to build their oral proficiency while further increasing their awareness of Hispanic culture.
3 hours lecture.
Prerequisite(s): SPA 201, SPA 215, or permission of instructor.

SSV - SOCIAL SERVICES

SSV 224 - Field Experience in Social Services (1-3)
A supervised cooperative education field experience involving the combined efforts of educators and employers. Students accomplish various academic and career-related objectives in social services and related fields. Semester-long regular workplace participation and weekly contact with assigned faculty advisor are required.
Prerequisite(s): A declared major in any related field, ENG 101, and SOC 101.

THE - THEATRE ARTS

THE 101 - Acting I (3)
Introduction to theories of dramatic art and practice in acting situations. This course includes basic acting techniques, theatrical vocabulary and comportment, and character and script analysis.
3 hours lecture.
Prerequisite(s): None

THE 103 - Introduction to Theatre (3) *
History and tradition of western theatre with analysis and discussion of representative drama, classical to contemporary.
3 hours lecture.
Prerequisite(s): None

THE 110 - Theatre Workshop (3)
A study of the components of the theatrical process, to include acting, directing, production design, and management. Students participate in a drama in an acting or production capacity.
2 hours lecture, 4 hours rehearsal/performance.
Prerequisite(s): Audition or permission of instructor.

THE 201 - Acting II (3)
Exploration and application of advanced techniques of acting through physical and vocal expression, improvisation, and scene work. Emphasis on the actor's approach to characterization. Opportunity for experience in production.
3 hours lecture.
Prerequisite(s): THE 101.

THE 220 - Dramatic Structure (3) *
Examination of the structural elements of major dramatic forms and styles. Includes reading and viewing of representative plays and analysis of their structures in relationship to modes of presentation and the resulting effects.
3 hours lecture.
Prerequisite(s): THE 101 or permission of instructor.

UAS - UNMANNED AIRCRAFT SYSTEMS

UAS 104 - Introduction to Unmanned Aircraft System UAS (4)
An introduction to the fundamentals of unmanned aircraft systems (UAS), including their evolving history and developing role in the modern aviation industry. Topics include structural elements, avionics, flight control and guidance systems, navigation, remote sensing, and human factors. UAS integration into commercial and military airspace FAA, and regulations and sanctions will be discussed. Emphasis will be on future employment in the field with a focus on commercial airspace.
1 hours lecture, 6 hours laboratory.
Prerequisite(s): None

UAS 105 - FAA Part 107 Preparation (4)
This course provides students with the knowledge and skills to pass the Federal Aviation Administration (FAA) small unmanned aircraft systems (sUAS) exam.
1 hours lecture, 6 hours laboratory.
Prerequisite(s): None

UAS 121 - Remote Sensing and Imagery (3)
A study of the theory and operation of common sensors—visual spectrum, infrared, and synthetic aperture radar (SAR)—used by operators of unmanned aircraft systems. Topics include equipment acquisition and characteristics, sensor limitations and restrictions, and data analysis and image interpretation.
3 hours lecture.
Prerequisite(s): None

UAS 204 - Commercial Aerial Cinematography (4)
This course introduces the student to fundamental aspects of capturing photographic still images and video clips during small UAS operations.
1 hours lecture, 6 hours laboratory.
Prerequisite(s): UAS 105 or permission of instructor. FAA Part 107 Knowledge Exam Certified.

**UAS 205 - Commercial Drone Industry Experience (4)**

This advanced UAS course prepares students to develop and execute mission plans for commercial applications, and it provides students with the skills necessary to think critically and safely, and make safe operational decisions.

1 hour lecture, 6 hours laboratory.

Prerequisite(s): UAS 105 or permission of instructor. FAA Part 107 Knowledge Exam Certified.

**VRD - Virtual Reality Content Developer**

**VRD 100**

**VRD 130 - Virtual Reality Programming Logic (3)**

A course in spatial computing software and programming concepts. Topics include object-oriented design, methodologies, data, operators, sequence, selection, repetition, event handling, and the software development cycle.

2 hours lecture, 3 hours laboratory.

Prerequisite(s): Concurrent enrollment in VRD 144.

**VRD 144 - Virtual Reality Development in Unity (5)**

A study of the fundamentals of virtual reality development using the Unity Game Engine. Emphasis is placed on the Microsoft Visual Studio Integrated Development (IDE), version control workflow using Git, as well as proper programming strategies and architectures for the Unity Game Engine with C#.

2 hours lecture, 6 hours laboratory.

Prerequisite(s): Concurrent enrollment in VRD 144.

**VRD 200**

**VRD 244 - Virtual Reality Cross-Platform Application Development (4)**

A study of the analysis and implementation of multiple virtual reality development platforms including: Steam VR, Oculus, Windows Mixed Reality, and Google Daydream. Students will study the limitations and capabilities of each platform as they apply to projects developed in VRD 144 and proposed projects.

2 hours lecture, 4 hours laboratory.

Prerequisite(s): Prerequisites: VRD 130, VRD 144 AND concurrent enrollment in VRD 264.

**VRD 264 - Unity Programming Standards and Application (4)**

This course is an in-depth look at the architecture of Unity and the standards of programming for Unity developers in the industry. Students will focus on debugging, interpreting the Application Interface (API), creating code for component architecture, and code evaluation.

3 hours lecture, 2 hours laboratory.

Prerequisite(s): Prerequisites: VRD 130, VRD 144 AND concurrent enrollment in VRD 244.

**VRD 294 - Virtual Reality Co-operative Internship (1)**

This class provides students with the opportunity to utilize their skills and knowledge gained through Virtual Reality Content Developer training in an industry workplace. 75 internship/field hours.

Prerequisite(s): VRD 130, VRD 144, VRD 244 AND concurrent enrollment in VRD 264 or Permission of Instructor.

**VRT - Virtual Reality Technology**

**VRT 101 - Foundations of Virtual Reality Instruction (4)**

This course gives the history and evolution of extended reality (XR) and explains how it differs from other media options used in learning environments. It also instructs Virtual Reality Technologists on the different devices and configurations they need in order to select, download, and integrate applications into academic and industry learning environments.

3 hours lecture and 2 hours of laboratory.

Prerequisite(s): None

**VRT 102 - Virtual Reality Literacy (4)**

This course is a study of the vocabulary and basic virtual reality (VR) concepts related to the VR, augmented reality (AR), mixed reality (MR), and VR technical framework and hardware. It emphasizes the levels of immersion in VR, 360 Video and Model-Based VR, and the three types of illusions. The course focuses on VR applications and where VR is being integrated into various industries, used to enhance life, and academic training environments.

3 hours lecture and 2 hours of laboratory.

Prerequisite(s): None

**VRT 103 - Instructional Design for Virtual Reality Education (4)**

This course supports and complements the other VRT courses and provides additional knowledge about the application of extended reality (XR) technologies including virtual reality (VR), augmented reality (AR), and mixed reality (MR) in academics, entertainment, and professional training. Students are introduced to the instructional design concepts applied to the creation of VR content for education and training which include VR programming languages, the use of cameras in VR, creating VR experiences, navigating in VR, global illumination, use of polygons and pixels, VR graphics techniques, creating VR objects and assets.

3 hours lecture and 2 hours of laboratory.

Prerequisite(s): None

**VRT 294 - Virtual Reality Technologist Internship (4)**

This course combines a supervised cooperative education field experience with a laboratory in VR content development. In
the field experience students will apply the VR software and hardware skills acquired in their course work. In the laboratory portions of the course students will be trained in VR content development.

4 hours of laboratory.
Prerequisite(s): VRT 103 Instructional Design for Virtual Reality Education.

WLD - WELDING TECHNOLOGY

WLD 105 - Oxyacetylene Welding (3) ‡
A study of the safety practices associated with oxyacetylene cutting and welding, and a practical application of equipment setup and operation. Students perform welds on standard alloys of steel in flat, horizontal, vertical, and overhead positions. Also covers the brazing and soldering of ferrous metals.
2 hours lecture, 3 hours laboratory.
Prerequisite(s): None

WLD 106 - Basic Shield Metal Arc Welding (3) ‡
A study of the safety practices associated with shield metal arc welding (SMAW), and a practical application of equipment setup and operation. Students use SMAW to apply various techniques of joining gauge thickness carbon steel.
2 hours lecture, 3 hours laboratory.
Prerequisite(s): None

WLD 114 - Welding for Metal Sculpture (3) ‡
Focuses on basic welding processes and techniques used in the design and fabrication of metal sculptures. Team taught by welding and art faculty.
2 hours lecture, 3 hours laboratory.
Prerequisite(s): None

WLD 128 - Gas Metal Arc Welding (3) ‡
An introduction to the gas metal arc welding (GMAW) process. Emphasis is on the set up and operation of GMAW equipment, and on the use of solid wire on various thicknesses of ferrous metal. Also covers precautions and safe practices in welding.
2 hours lecture, 3 hours laboratory.
Prerequisite(s): None

WLD 202 - Welding Survey (4)
A practical application of major welding practices to include shield metal arc, gas metal arc, gas tungsten, oxyacetylene, brazing, and soldering processes. Also covers welding metallurgy, weldment design and inspection, and safety.
4 hours lecture, 1 hour laboratory.
Prerequisite(s): None

WLD 203 - Blueprint Interpretation (3)
An introduction to the principles and procedures used to interpret structural blueprints and engineering drawings. Covers the essential concepts of blueprint formatting for structural applications and for aircraft applications. Also covers welding symbols and their specific meanings.
3 hours lecture.
Prerequisite(s): None Recommended Preparation: Basic mathematics skills.

WLD 209 - Gas Tungsten Arc Welding (3) ‡
A study of the safety practices associated with gas tungsten arc welding (GTAW), and a practical application of equipment setup and operation. Students use GTAW on non-ferrous metals.
2 hours lecture, 3 hours laboratory.
Prerequisite(s): WLD 105 or permission of instructor.

WLD 210 - Advanced Shield Metal Arc Welding (3) ‡
A continued study of the shield metal arc welding process. Topics include safety, equipment care and operation, and rod and current selection. Students perform out-of-position welding of heavy steel plate in open root configuration in preparation for welding pipe to API 1104 standards.
2 hours lecture, 3 hours laboratory.
Prerequisite(s): WLD 106 Basic Shield Metal Arc Welding.

WLD 211 - Pipe Fitting and Welding (3) ‡
An overview of the fitting and welding of various sizes of pipe according to the standards of the American Welding Society (AWS) and the American Petroleum Institute (API). Students weld pipe using the shield metal arc welding process.
2 hours lecture, 3 hours laboratory.
Prerequisite(s): WLD 210.

WLD 212 - Advanced Shield Metal Arc Welding II (3) ‡
An advanced study of the shielded metal arc welding (SMAW) process, this course is designed to prepare students for the American Welding Society (AWS) D 1.1 Structural Steel certification test.
2 hours lecture, 3 hours laboratory.
Prerequisite(s): WLD 210.

WLD 215 - Welding Design and Fabrication (3) ‡
A study of the proper methods of welding design, layout, and fabrication. Students with demonstrated welding skills work on specific projects, using appropriate cutting and welding equipment.
2 hours lecture, 3 hours laboratory.
Prerequisite(s): MAT 132, WLD 105, WLD 106, WLD 128, and WLD 203.

WLD 217 - Pipe Layout and Fitting (3) ‡
A continuation of pipe fitting and welding. Topics include layout methods, and the fitting and welding of various sizes and types of pipe.
2 hours lecture, 3 hours laboratory.
Prerequisite(s): MAT 132 and WLD 211.
WLD 218 - Advanced GTAW - Soft Metals (3) ‡
A continuation of WLD 209 designed to develop the skills necessary to meet aerospace certification standards for aircraft. Emphasis is on advanced welding of aluminum alloys.
2 hours lecture, 3 hours laboratory.
Prerequisite(s): WLD 209.

WLD 219 - Advanced GTAW - Hard Metals (3) ‡
A continuation of WLD 209 designed to develop the skills necessary to meet aerospace certification standards for aircraft. Emphasis is on advanced welding of stainless steel and 4130 chromoly steel.
2 hours lecture, 3 hours laboratory.
Prerequisite(s): WLD 209.

WLD 220 - Advanced GTAW - Exotic Metals (3) ‡
A continuation of WLD 219 designed to develop skills necessary to meet aerospace certification standards for aircraft. Emphasis is on advanced welding application of titanium and Inconel alloys.
2 hours lecture, 3 hours laboratory.
Prerequisite(s): WLD 219.

WLD 228 - Advanced Gas Metal Arc Welding (3) ‡
An advanced study of the gas metal arc welding process that is designed to prepare students for the American Welding Society (AWS) D1.1 Structural Steel Certification test.
2 hours lecture, 3 hours laboratory.
Prerequisite(s): WLD 128.

WLD 229 - Advanced Flux-Cored Arc Welding (3) ‡
This is an advanced course in the flux-cored arc welding process which prepares the student for American Welding Society (AWS) D1.1 Structural Steel Certification.
2 hours lecture, 3 hours laboratory.
Prerequisite(s): WLD 128 and WLD 228.
Administration

President
Dr. James Dale (J.D.) Rottweiler

Wayne State University, B.S.
University of Arizona, M.S.

Dr. John (Jack) Ziegler (2006)
Seton Hall University, B.A., M.A.
University of Connecticut, Ph.D.

INSTRUCTIONAL STAFF

Dr. Rowshan Begum; Instructor, Chemistry (2014)
University of Dhaka, Bangladesh, B.S., M.S.
Nara Women’s University, Japan, Ph.D.

Terri Berg; Instructor, Student Success (2017)
University of Washington, B.A.
University of Arizona, M.S.

Ben Berry; Instructor, History/Political Science/Education (2017)
Northern Arizona University, B.S., M.Ed.

Tanya Biami; Instructor, English (1994)
Michigan State University, B.A., M.A.

Patricia Bigwood, Instructor Sociology (2014)
Northern Arizona University, B.S., M.A.

Theresa Biron; Instructor, Nursing (2013)
Hampton University, B.S.N.
University of South Carolina, M.S.N.

Ronald Bosley; Instructor, Automotive Technology (2014)

Dr. Roman Briggs; Instructor, Humanities (2011)
Ouachita Technical College, A.A.
Henderson State University, B.A.
University of Arkansas, M.A., Ph.D.

Karen Bristow; Instructor, English (2019)
University of Wyoming, B.A., B.A.
University of Kansas, B.A.
Middlebury College Board Bread Loaf School of English at Oxford University, M.A.

Scott Brown; Instructor, Welding Technology (1998)

Katherine Burnett; Instructor Aviation Pathways (2019)
Cochise College, A.A.S.

John “Pat” Cain; Instructor Mathematics (2019)
SUNY Geneseo, B.A.
University of Kentucky, M.A.

Paola Denisse Cañez; Instructor, Reading (2011)
Cochise College, A.A.
University of Arizona, B.A.E.E.
Western New Mexico University, M.A.T.

Danielle Cardella; Instructor, Culinary Arts (2015)
Culinary Institute of America, B.P.S.
Dr. Christi Charters; Instructor, Biology (2005)
California State University Fresno, B.A., M.A.
Capella University, Ph.D.

Kenneth Charters; Instructor, Biology (1998)
Kings River Community College, A.A.
California State University Fresno, B.A.
Northern Arizona University, M.S.

Tori Child; Program Instructor, Nursing (2018)
Lane Community College, A.A.S.
Excelsior College, M.N., B.S.N., A.D.N.

Mary Cole; Instructor, Biology (2013)
Bowling Green State University, B.S., M.S.

Seth Colwell; Instructor, Business Accounting (2019)
Baylor University, B.A., M.T.X.

Mary B. Coyle; Instructor, Humanities (1998)
Fitchburg State College, B.A.
Clark University, M.A.

James Cruze; Instructor, Professional Flight (2019)
Cochise College, A.A.S.

Ashley A. Dahlke; Instructor, Art 2D (2020)
University of Wisconsin – Whitewater, B.A.
University of Arizona, M.A.

Nickola “Nickie” Dannels; Instructor/Program Coordinator
Medical Assistant (2019)
Cochise College, A.A.S.

Joann Deakin; Instructor, Physics and Geology (2008)
University of Nevada, B.S.
Arizona State University, M.S.
Mississippi State University, M.S.

Virginia Delear; Instructor, Mathematics (2020)
Texas State University – San Marcos, B.A.
Louisiana State University, M.S.

Arleene Djordjevic; Instructor of Nursing (2020)
Horizon Health Care Institute, C.N.A.
Cochise College, A.D.N.
Grand Canyon University, B.S.N.
Walden University, M.S.N.

Kari Durham; Instructor, Biology (2013)
University of South Florida, B.S., M.S.

Graham Eberly; Instructor, Welding Technology (2015)

Frank Emanuele; Instructor, Biology (2016)
Gannon University, B.S.
Edinboro University of Pennsylvania, M.S.

Dominic Epps; Instructor, Cyber Security (2019)
Cochise College, A.A.S.

Sophia Eyerman; Instructor, English as a Second Language (2021)
The Ohio State University, B.A.
University of South Florida, M.A.

Margarita Fate; Instructor, Business Administration (2005)
Florissant Valley Community College, A.A.
Columbia College, B.S.
Webster University, M.A.

Patrick Farmer; Instructor, Computer Information Systems (2020)
Harvard University, M.A.
University of Arizona, M.Ed.

Angela Garcia; Instructor, Mathematics (2011)
Cochise College, A.A.S.
University of Arizona, B.S.
Northern Arizona University, M.Ed.

United States Military Academy, B.S.
Naval Post Graduate School, M.S.

Garison Hensley; Instructor, Aviation Pathways (2020)
Cochise College, A.A.S.

Bryan Homrichausen; Instructor, Student Success (2014)
Colorado Christian University, B.A.
Northern Arizona University, M.Ed.

Janell Jackson; Instructor, Nursing (2015)
Northern Arizona University, B.S.N.
Grand Canyon University, M.S.N.

Naomi James; Instructor, Nursing (2021)
Valdosta State University, B.S.N.
Jacksonville University, M.S.N.

Star Jermyn; Instructor, Pharmacology Didactic Nursing (2015)
Thomas Jefferson University, B.S.N.
University of Phoenix, M.S.N.

Patrick Jones; Instructor, Mathematics (2002)
Harvey Mudd College, B.S.
University of Washington, M.S.
Kristin Juarez, Instructor, Psychology (2016)
Baylor University, B.S.
Walden University, M.S.

Kelly Juvera; Instructor, CNA (2013)
Cochise College, A.G.S., A.A.S.

Jennifer Kennedy; Instructor, Early Childhood Education (2018)
University of Arizona, B.A.
Northern Arizona University, M.E.

Dr. Lori Keyne; Instructor, Music (2009)
Concordia College, B.A.
University of Michigan, M.M.
University of Arizona, D.M.A.

Mary King-Power; Instructor, English (2020)
Kentucky State University, B.A.
American Intercontinental University, M.Ed.
Morehead State University, M.A.

Amy Kovarcik; Instructor, Nursing (2019)
North Idaho College, A.A., A.S.
Grand Canyon University, B.S.N., M.S.N.

James Krause; Instructor, Automotive Technology (2012)
Glendale Community College, A.A.S.

Barbara Krueger; Instructor, Mathematics (1989)
New Mexico Institute of Mining and Technology, B.S., M.S.

Shelby Litwicki; Instructor, English (2020)
Northern Arizona University, B.A., M.A.

Dr. Eric Lodge; Instructor, Chemistry (2013)
University of Rochester, B.S.
University of California at Berkeley, Ph.D.

Angela Lucero; Instructor, Cybersecurity (2020)
Cochise College, A.A.
University of Arizona, B.A.S.

Karen Magatagan; Instructor, Nursing (2021)
University of Arizona, B.S.N.
Northern Arizona University, M.S.

Dr. Eric Malm; Instructor, Business/Economics (2021)
Temple University, M.A., Ph.D.

Kevin Martin; Instructor, English (2004)
Cochise College, A.A.
University of Arizona, B.A.
Utah State University, M.A.

Sebastian Martinez; Instructor, Professional Flight (2018)

Cathy Matthesen; Instructor, Reading (2019)
Framingham State University, B.A.
University of Sioux Falls, M.A.

Timothy McDaniel; Instructor, Virtual Reality and Content Development

Michael McGrath; Instructor, Professional Flight (2018)
Cochise College, A.A.S.

Christine McVeen; Instructor, Business (1986)
Eastern Arizona College, A.A.
University of Arizona, B.S.

Ella Melito; Instructor, English (2016)
University of Arizona, B.S.
Northern Arizona University, M.A.

Matthew Melito; Instructor, Mathematics (2013)
Northern Arizona University, B.S., M.A., M.M.

Dr. Steven Merkley; Instructor, Biology (2019)
Brigham Young University, B.S., M.S.
University California Riverside, Ph.D.

Lora Miller; Instructor, Culinary Arts (2013)
Glendale Community College, A.A.

Stacie Munger; Instructor, Spanish (1999)
Western Michigan University, B.A., M.A.

Alexander O’Meara; Instructor, English (2011)
Long Island University, B.A.
University of Texas at El Paso, M.A.

Jorge Oros Carranza; Instructor, Professional Flight (2018)

Portland State University, B.S.
California State University, M.S.

Dr. Carlos Quijada; Instructor, Psychology (2019)
Cochise College, A.A.S.
University of Phoenix, B.S.
Capella University, M.S.
Northcentral University, Ph.D.

Donald Raley; Instructor, Administration of Justice (2019)
Wayland Baptist University, B.S.
Northcentral University, M.B.A.
Walden University, M.S.
Lisa Reed; Instructor, Biology (2005)
Southern Illinois University, B.S., M.S.

Tate Rich; Instructor, Art (2005)
Saint John’s University, B.A.
California State University, M.A., M.F.A.,

Rebecca Richardson; Instructor, Biology (1991)
University of Pittsburgh, B.S.
Slippery Rock University, M.S.

Dr. Kristy Ritter; Instructor, Mathematics (2009)
Regis University, B.A., M.Ed.
University of Idaho, M.A.T.
Walden University, Ed.D.

Steven Roark; Instructor, Mathematics (2006)
University of Arizona, B.S.
University of Nevada, M.A.T.

Kim Rogalski; Instructor, Mathematics (1988)
Northern Arizona University, B.S., M.S.

Mary Jenea Sanchez; Instructor, Digital Media Arts (2016)
Arizona State University, B.A., M.A.

Susana Sanders; Instructor, Mathematics (2002)
Purdue University, B.S., M.S.

Timothy Saska; Instructor HVAC Technology (2019)

Douglas Schlarbaum; Instructor, Building Residential Construction (2018)
University of Northern Colorado, B.A.

Christopher Scott; Instructor of Physics (2019)
Northern Arizona University, B.S.
Arizona State University, M.S.

Dr. Paul Sebesta; Instructor/Director, Agriculture and Natural Resource Initiatives (2018)
Oklahoma State University, B.S., M.S., Ph.D.

Jesse Ann Smith; Instructor, American Sign Language (2017)
Cochise College, A.A.
Gallaudet University, B.A.
University of Northern Colorado, M.A.

Jessamyn Snider; Instructor, Spanish (2019)
Northern Arizona University, B.A., M.A.T.
Universidad Nacional Autónoma de México, M.A.

Hope Struse; Instructor, Welding (2019)
Cochise College, A.A.S.

Pamela Thompson; Instructor, ESL (1999)
Northern Arizona University, B.A., M.A.

Virginia Thompson; Instructor, Art (2012)
Hardin-Simmons University, B.S.
Rochester Institute of Technology, M.F.A.

Jay Treiber; Instructor, English (1996)
Northern Arizona University, B.S.
University of Montana, M.F.A.

Teresa Vernon; Instructor, CAN/Program Coordinator (2006)
Cochise College, A.A., A.A.S., A.G.S.
Western New Mexico University, B.S.

Iztac Villanueva; Instructor, Professional Flight (2019)
Cochise College, A.A.S

Linda Vincent; Instructor, Nursing/Clinical Coordinator (2019)
Excelsior College, B.S.
Rutgers, State University of New Jersey, M.S.

Dr. Ellen Vujasinovic; Instructor, Education (2018)
University of Iowa, B.A.
St. Mary’s University of Minnesota, M.Ed.
University of Arizona, Ph.D.

Jeremy Wagner; Instructor, Administration of Justice (2019)
Central Wyoming College, A.S.
University of Wyoming, B.A., M.S.

Anne Walker; Instructor, Certified Nursing Assistant/Medical Assistant (2020)
University of Arizona, B.S.

Dr. Kristen Welch; Instructor, English (2014)
University of Central Oklahoma, B.A., M.A.
University of Arizona, Ph.D.

JenMarie Zelznak; Instructor of Art (2019)
Cleveland Institute of Art, B.F.A.
Savannah College of Art and Design, M.F.A.

Cindy Ziegler; Instructor, Nursing (2013)
Lansing Business Institute, A.A.
University of North Dakota, B.S.N.
Grand Valley State University, M.S.N.
ADULT EDUCATION

Amy Baker; Adult Education Instructor Bridge Program (2016)
Knox College, B.A.
Northern Arizona University, M.A.

Alicia Chaouchi, Adult Education Technology Instructor (2014)
University of Florida, B.A.
Hebrew University of Jerusalem, M.A.
University of Arizona, M.A.

Nancy Potenza; Adult Education Instructor (2008)
University of Arizona, B.A.

Mickey Sizemore; Adult Ed Instructor Math & Science (2017)
Excelsior College, B.S.

Seyon “CeCe” Washington; Adult Education Instructor/Student Success Coach (2019)
Jackson State University, B.A.

COACHES

Jerry Carrillo; Head Coach, Men’s Basketball (1995)
University of Arizona, B.S.
University of Northridge, M.A.

Raven Gary Williams; Assistant Coach, Women’s Basketball – Temporary (2021)
Kishwaukee College, A.A.
Appalachian State University, B.S.

Todd Inglehart; Head Coach, Baseball (1999)
Saddleback College, A.A.
University of Wyoming, B.A., M.S.

Derek Lane; Assistant Coach, Men’s Basketball (2021)
Cochise College, A.A.
Grand Canyon University, B.S.
University of Arizona, B.S.

Anita Maryskova; Assistant Coach, Women’s Soccer (2021)
Brevard College, B.A.
Northwest Nazarene University, M.B.A.

Misty Opat; Head Coach Women’s Basketball (2020)
Garden City Community College, A.S.
Bethany College, B.A.
Fort Hays State University, M.S.

Robert Peters; Head Coach, Women’s Soccer (2019)
East Central College, A.A.
Missouri Valley College, B.S.
Missouri Baptist University, M.S.E.

ADMINISTRATIVE STAFF

Rosalia Acuna; Systems Analyst (2000)
Cochise College, A.S.

Gabriela Amavizca; Director, Student Support Services/TRIO (2011)
Cochise College, A.A.
Western New Mexico University, B.B.A.

Travis Ambrose; Lead Research Data Analyst (2018)
University of Arizona, B.S.

Sally Aparicio; Director, Business Office/Bursar (2018)
Western Governors University, B.S.

Jesus Arrieta; Help Desk Manager (2019)
Community College of the Air Force, A.A.S.
New Mexico State University, B.A.

Dr. Wendy Ashby; Instructional Designer (2020)
Weber State University, B.A.
Bowling Green State University, M.A.
University of Arizona, M.S., Ph.D.

Melesa Ashline; Director, Nursing (2020)
Cochise College, A.A.
University of Phoenix, B.S.N., M.S.N

James Barrows; Director, Maintenance and Operations (2012)
University of Idaho, B.S.
Naval Postgraduate School, M.S.

Tammy Brewer; Director, Testing Services (2016)
Texas A&M University, B.A.
Crow College, St. Bonifacius, Minnesota, B.A.
University of Oklahoma, M.A.

Dr. Eric Brooks; Dean of Liberal Arts (2018)
Northern Arizona University, B.S.
University of Arizona, M.A., Ph.D.

Belinda Burnett; Director of Aviation Programs (2020)
Cochise College, A.A.S
Embry Riddle Aeronautical University, B.S., M.S.

Marguerite Conners; Student Success Manager (1996)
Northern Arizona University, B.S.

Matilde “Matt” Coppi; Assistant Dean of Military Programs (2021)
Excelsior College, B.S.
Trident University International, M.S.
Pennsylvania State University, M.Ed.

Drew Corbett; Director, Compliance/Title IX Coordinator (2020)
University of Texas, J.D.

Debbie Craig; Director of Finance/Controller (2019)
Cochise College, A.A.
Wayland Baptist University, B.S.

Brad Dale; Director of Adult Education (2015)
Cochise College, A.G.S.
University of Phoenix, B.S., M.A.

Dr. Karen Dale; Assistant Dean for Academic Support (2020)
University of Arizona South, B.S.
Capella University, M.S.
Northcentral University, Ph.D.

Rebecca Dorman; Writing Lab Supervisor (1998)
Northern Arizona University, B.A.

Karen Emmer; Director of Financial Aid (2010)
Weber State University, B.S.
Colorado State University, M.Ed.

Juan Espinoza; Student Activities Manager (2019)
Cochise College, A.A.
University of Arizona, B.A.S.
Northern Arizona University, M.Ed.

Joel Evans; MOS Credentialing Coordinator (2017)
Cochise College, A.G.S.
Wayland Baptist University, B.A.S.

Melissa Faglie; Degree Audit Systems Manager (2015)
Cochise College, A.A.
Sul Ross State University, B.A., M.Ed.

Alexandra Felton, Electronic Resources Librarian (2011)
California State University, B.A.
Simmons College, M.L.I.S.

Jordan Fischer; Senior Institutional Research Analyst (2015)
University of South Carolina, B.A.
Armstrong State University, M.A.
Dr. Rod Flanagan; Dean of Business and Technology (2018)
Brigham Young University, B.S.
The University of Utah, M.B.A.
Utah State University, Ph.D.

Robert Gibbs; Chief Information Security Officer (2020)
United States Naval Academy, B.S.
Strayer University, MSIS

Karl Gifford; Assistant Dean of Workforce Development (2019)
University of Phoenix, B.S., M.IS

Dr. Thomas Guetzloff; Dean of Mathematics and Sciences (2020)
St. Norbert College, B.S.
South Dakota State University, Ph.D.

Bethany Hill; Director, Nursing (2018)
Cochise College, A.S.
University of Phoenix, B.S., M.S.

Disclaimers

RIGHT TO MAKE CHANGES OR CORRECT ERRORS
Cochise College reserves the right to make changes without notice in fees, faculty assignments, time schedules, courses, curricula, and policies; to cancel classes when necessary; to set maximum and minimum limits for enrollments in certain classes; and to make changes to other matters contained in this catalog.

RESPONSIBILITY FOR PERSONAL PROPERTY
Cochise College is not responsible for loss, theft or damage to individuals' personal property.

EQUAL OPPORTUNITY/STUDENTS WITH DISABILITIES POLICY
Cochise College does not discriminate in admission or access to, or treatment or employment in, its services, programs, or activities on the basis of race, color, national origin, sex, religion, age (40+) or disability, in compliance with the laws of the United States and the state of Arizona.

The college seeks to provide disabled or handicapped students with any reasonable accommodation in order to facilitate access to college classes and activities. Students seeking such an accommodation should make an official request through Student Services.

A lack of English language skills will not be a barrier to admission and participation in the career and technical (vocational) education programs of the college.

Any questions regarding the applicability of state and federal anti-discrimination laws to Cochise College and its services, programs or activities, and any grievances or claims of violation of such laws, should be directed to the Title IX and Section 504 compliance officer.

The college seeks to provide students with a documented disability with reasonable accommodation(s) in order to facilitate access to college classes and activities. Students seeking such an accommodation should make an official request through Disability Services at 520-515-5337 and/or www.cochise.edu/disability.

LA POLITICA DE IGUALDAD DE OPORTUNIDADES Y LOS ESTUDIANTES CON INCAPACIDADES
En cumplimiento con las leyes de los Estados Unidos y del Estado de Arizona, Cochise College no discrimina en base a la raza, el color, la nacionalidad, el sexo, la religión, la edad (el ser mayor de 40 años) o la discapacidad de las personas en sus procesos de empleo, de admisión o al tratar de obtener los servicios, programas o las actividades que ofrece esta institución.

Cochise College trata de proporcionar un acomodo razonable a sus estudiantes incapacitados o con limitaciones físicas para facilitarles el acceso a las clases o actividades. Aquellos estudiantes que necesiten este tipo de acomodo deberán formalmente solicitarlo al departamento de Servicios para Estudiantes.

La habilidad limitada del idioma inglés no es una barrera para la admisión o la participación de las carreras técnicas y vocacionales disponibles en la institución.

Cualquier pregunta sobre la administración de las leyes sobre discriminación en Cochise College en sus servicios, programas o actividades, así mismo como cualquier queja o reclamo de violación de dichas leyes se debe dirigirse al oficial a cargo de la administración y el cumplimiento de Título IX y Sección 504.

La universidad busca proveer a los estudiantes que tengan una discapacidad documentada, los ajustes razonables que faciliten el acceso a las clases y a las actividades de la universidad. Los estudiantes que buscan este tipo de acomodamiento deben hacer una solicitud oficial a través de la Oficina de Servicios de Discapacidad al 520-515-5337 y/o www.cochise.edu/disability.
