NOTES:

1. Cost for fuel has been included in the hourly training rates. A “fuel surcharge” is added to flight rates should fuel costs increase significantly. The basis for the current flight rates is \$5/gal. A fuel surcharge may already exist and will be adjusted as necessary. Fuel surcharges will be billed at the end of the aviation semester, if applicable.
2. Course costs include the minimum required training hours per the FAA. Any hours required above these to obtain the required proficiency will be billed at the hourly rates. Course fees also include required books and first time testing fees (knowledge test and up to \$1200 of DPE costs). Failed knowledge or practical tests will require additional training and testing fees. The student will be responsible for any DPE costs above the \$1200.
